SCOPE AND CONTENT

The Ephemera Collection of the North Dakota State University Archives is an important part of preserving the day-to-day history of the university. Many of these items are often overlooked in the collecting and preservation process since they are common, ordinary items printed for an occasion and then usually forgotten about or discarded soon after. Such commonplace pieces include announcements, programs, posters, notices, tickets, etc. These articles help to inform us of events in the day to day business of the university such as concerts, recitals, meetings, lecture, sporting events, productions, graduations, etc. In addition to their informational content, many of these items are valuable for research in the graphic arts and the culture of the period.

The collection has been divided into thirteen broad topical and format categories. Depending upon the number and variety of items, some categories have been further subdivided. It should be noted that there are currently no items in the Experiment Stations file.
Also note that in some cases materials for departments, offices, and/or colleges may appear in different categories.

The categories include:

- **NDSU-AD** ADMINISTRATION
- **NDSU-BU** BUILDINGS
- **NDSU-CA** CALENDARS
- **NDSU-CO** COLLEGES/DEPARTMENTS
- **NDSU-DI** DIPLOMAS
