

Changes made at University Drive crossing

A number of changes have been made in an attempt to increase safety for NDSU employees and students who cross University Drive at the Administration Ave. intersection.

The recommendations came after analysis by Fargo's Traffic Engineering Office, the Upper Great Plains Transportation Institute, NDSU Police Chief Tim Lee and Steve Charlton, NDSU safety director. The research involved traffic and pedestrian counts, video taping of the crossing and a computer simulation for study.

"We've been informed by employees of a number of pedestrian near-misses and we're aware of at least one incident resulting in an injury," Charlton said, noting the issues were forwarded through NDSU's Safety and Risk Management training. "For some time it has been a concern of all of ours that our pedestrian-employees have a safe way to cross University Drive."

Short-term implementations include a longer double red light at 13th Ave. N. to allow increased gaps in traffic, the new painted crosswalk on the north side of the intersection, four signs notifying drivers of the pedestrian crossing and signs discouraging pedestrians from crossing at the south side of the intersection.

Long-term proposals include reconfiguring the sidewalk and driveway at the intersection and a possible pedestrian traffic signal. Another proposal, which needs more study, would have the University Drive accesses to the Post Office and Alumni Center be used only as entrances and not as exits.

"We're optimistic these short-term changes will improve the safety factor significantly," Charlton said. "They will be re-analyzed next spring or fall and if further changes need to be made, we will pursue those."

Accreditation for NDSU business college delayed while improvements made

Growth in NDSU's College of Business Administration is the chief factor resulting in a delay for accreditation for the school. A visitation team from the International Association for Management Education is recommending some concerns be addressed before the college's first-ever application for accreditation is unconditionally approved. These concerns include increasing the number of faculty and support staff, and inadequacies of present college classroom and office facilities.

"Rapid growth in our enrollment has made it difficult to keep up with the number of faculty and support staff our college needs," said Jay Leitch, dean of the college. "We have faculty searches underway now and the support of the administration in adding new support personnel. We expect to have these positions filled by next fall."

The College of Business Administration is housed in Putnam Hall, a historic campus building that contains faculty offices and one classroom. Most classes are held in locations scattered across campus. A committee of community business and university representatives is conducting a feasibility study to gauge support for a fund-raising campaign for a new building.

"There is tremendous community support for the academic programs of the College of Business Administration," said NDSU President Joseph Chapman. "I expect we

Administrative offices closed, no classes Nov. 11

Administrative offices will be closed and no classes will be held Thursday, Nov. 11 in observance of the Veterans Day holiday, in accordance with State Board of Higher Education policy. Office and classes resume regular hours Friday, Nov. 12.

'It's Happening' deadlines change due to holidays

Due to the Veterans Day holiday, the deadline for next week's issue of "It's Happening at State" will be Nov. 12 at noon, and the issue will be distributed Nov. 18.

Also, there will be no issue of "It's Happening at State" Thanksgiving week. Anyone submitting timely stories should plan accordingly. See the bottom right corner of page one of each issue for deadline requirements.

Dining Services to be closed Friday, Nov. 26.

All dining service operations will be closed the day after Thanksgiving, Friday, Nov. 26. This includes the Union Buffet, the Residence Dining Center and the West Dining Center. All cash operations also will be closed including the RDC Mart, Union Food Court, Pizza Express, Taco Bell, Blimpie's and the Coffee Cart. All operations will resume regular hours on Monday, Nov. 29.

Next Issue

Publication date: Thursday, Nov. 18
Submissions due: noon Nov. 12
Old Main 204
Voice: 231-8326
Fax: 231-1989
bclemens@gwmail.nodak.edu

will be able to go to the next session of the North Dakota legislature with a solid plan to build a new facility entirely with private support. A growing college with more than 1,200 students needs a building with more than one classroom to meet the community demand for business programs."

The accreditation team cited several positive aspects of the college including strong student-faculty relationships, on- and off-campus support, the attitudes of the college's students, faculty, staff and administrators, the size of classes and the level of information technology incorporation in academic programs.

"We don't expect official word from the International Association for Management Education until next spring," said Leitch. "But in my mind, we have just passed the first hurdle in our accreditation process. There were no surprises in what the team had to say and their report gives us a clear blueprint for what we need to do now."

Spectrum Index available at Libraries

The Spectrum Index is available from the NDSU Libraries and the NDSU Archives on the Libraries homepage at www.lib.ndsu.nodak.edu/.

The Index currently contains indexing to more than 14,500 articles published in The Spectrum for the years 1938 through 1980, 1992 to July 1999 and about 100 articles from earlier years. Articles from July 15, 1996 to July 1, 1999 are full text articles. The indexing has been done by the staff of the NDSU Archives and Institute for Regional Studies and is a continuing effort. The Spectrum also is on microfilm and available in the lower level of the Library.

People

Kloberdanz awarded by Germans from Russia Society

Timothy J. Kloberdanz, associate professor of anthropology, received the distinguished service award at the annual convention of the American Historical Society of Germans from Russia in Casper, Wyo.

Kloberdanz is the youngest recipient of the award in the society's 31-year history. He was recognized for more than 25 years of achievements and contributions, including his recent work on the Prairie Public Television documentary "The Germans from Russia: Children of the Steppe, Children of the Prairie," for which he was interviewed and served as an academic adviser.

He was presented a plaque at a banquet attended by Wyo. Gov. Jim Geringer.

Gillispie receives Small Business Administration award

Gregory Gillispie, professor of chemistry and president of Dakota Technologies, Inc., received a Small Business Administration "1999 Small Business Innovation Research Tibbetts Award" at an Oct. 26 awards luncheon in Washington, D.C. He was one of 62 honorees from across the country.

The SBIR program is a competitive three-phase award system which provides qualified small businesses with opportunities to propose innovative ideas that meet the specific research and development needs of the federal government. Named for Roland Tibbetts, the person acknowledged as the father of the program, the prestigious national awards are made annually to small firms, projects, organizations and individuals judged to exemplify the best in SBIR achievement.

Dakota Technologies, Inc., specializes in real-time technology for environmental analysis, process control and chemical sensing. The company incorporates sophisticated spectrometers and vapor detectors in small diameter pipe that is driven into the ground with specialized trucks. A more research-oriented product, the Northern Lights tunable dye laser, also was developed as a spin-off of the firm's environmental work.

Gillispie's company was recognized as an outstanding role model for North Dakota SBIR companies. "The award validates that the science and technology we are involved with is competitive on the national level. That's always reassuring," he said. "It's a verification that what we are doing is technically advanced and meaningful."

During his visit to the nation's capital, Gillispie was invited to a breakfast in the Old Executive Office Building, met with the North Dakota congressional delegation and attended a reception at the House of Representatives.

Education faculty present at conference

Three NDSU faculty members attended the recent Association for Counselor Education National Conference in New Orleans.

Wade Hannon, associate professor of education, presented "Emancipatory Person-Centered Counseling: A Tentative Theoretical Synthesis;" Bob Nielsen, associate professor and coordinator of the counselor education program, presented "National Counselor Licensing;" and Jim Wigtil, chair and professor of education, led a program on "Counselor Education Department Chairs: Dialogue on Current Issues and Future Plans."

Nawrot receives grant for eye study

Mark Nawrot, James A. Meier professor of psychology, has received a \$242,000 grant from the National Eye Institute of the National Institutes of Health to conduct research into the role of eye movement in depth perception.

Most people are familiar with how we perceive depth using two eyes, but Nawrot notes that people with one eye also have near normal depth perception. "It appears something called 'motion parallax' is a much more important cue for depth perception. As we move through the environment, the relative positions of objects change on the back of our eyes, the retina, in an orderly geometric fashion," he said. "Although the objects in the environment are not moving, their relative positions on our retina do change as we move. Our visual system is smart enough to realize this and can turn the movement into depth information. Discovering how the brain actually does this is the main goal of this research.

"The current theory we've developed is that eye movements play an important role in the perception of depth from motion parallax," Nawrot explained. "We want to find out more of how the brain brings together two different types of information, eye movement and retinal movement, so that we have rather automatic and effortless depth perception."

During the four years of the grant, Nawrot will work with volunteer observers who will view three-dimensional scenes on a computer screen. The researchers will measure the positions of the subjects' heads and eyes as they make judgments about what they see on the screen. One experiment will study depth perception in patients who have abnormal eye movement resulting from brain damage due to stroke.

Nawrot said the success of his proposal underscores the importance of research infrastructure development at NDSU. He credited the North Dakota Experimental Program to Stimulate Competitive Research with allowing researchers in the psychology department to obtain research equipment crucial for these studies.

Art student wins international competition

Jason Moore, a senior majoring in art, won the international competition of the World Championship Linoleum Art Print Contest. His prizes include a \$1,000 U.S. Savings Bond and trips to New York and Amsterdam, the Netherlands.

The contest's theme is the right of a child to an education. Moore's linocut, titled "I Want That Big Fat One," depicts a figure choosing the largest brain on a brain tree.

The purpose of the contest is to benefit the activities of UNICEF, the children's fund of the United Nations, while exposing young artists to the medium of linoleum art prints. The contest is sponsored by FORBO Industries, a major international producer of linoleum.

Moore, who is a native of Fergus Falls, Minn., will travel to New York in January to present a \$25,000 check to UNICEF.

Events

GDC to hold open houses

NDSU's Group Decision Center will hold a number of open houses to provide faculty, students and staff with information about the services it provides. The one-hour sessions will be held at 11:30 a.m. and 12:30 p.m. on Tuesday, Nov. 16; 11 a.m. and noon on Wednesday, Nov. 17; 11 a.m. and noon on Wednesday, Dec. 1; and 11:30 a.m. and 12:30 p.m. on Thursday, Dec. 9.

"A lot of people are putting together their syllabi for next semester and we invite them to see some of the tools the GDC has in its GroupSystems software. We'd like to visit with them on how they might utilize these tools to enhance student participation in their courses," said Don Galitz, center co-director. "The types of courses where these tools are particularly helpful involve critical thinking skills and where surveys are conducted and data analyzed."

The center also is available to student organizations to do assessment or long-range planning. The services of the center are free for courses and for student organizations.

Located on the upper level of the Memorial Union, the GDC is a network of 24 laptop computers linked by GroupSystems software. The technology enables users to enter their ideas anonymously and simultaneously, giving participants an equal voice in a criticism-free environment as they work on problem solving and consensus building.

Brown bag seminar explores women's roles in 'Star Wars'

The YMCA of NDSU is sponsoring "Women in Star Wars," at noon Wednesday, Nov. 17, in the Memorial Union Peace Garden Room. The talk, which is co-sponsored by Women's Studies, will be presented by Eunice Johnston, lecturer of English.

The presentation will explore the role women play in the fantasy world created in George Lucas' "Star Wars" films. Given the appeal of the series to such a wide audience, Johnston will ask what can the "Star Wars" women characters tell us about how our culture views the role of women today?

For more information contact the YMCA of NDSU at 235-8772.

Ag career fair planned

Sigma Alpha professional agriculture sorority has scheduled its annual career fair for 9 a.m. to 3 p.m. Monday, Nov. 15, in the Memorial Union Ballroom. It will feature 26 agricultural companies recruiting for summer employment, internships and permanent positions. Last year's fair assisted more than 300 students find employment.

Exhibitors have indicated that they like to see freshmen and sophomores as well as juniors and seniors at the fair. Also, although the fair features mainly agricultural companies, many employers also have opportunities for students in non-agricultural based majors. A background or knowledge of agriculture is helpful, but many employers also are looking for students with strong leadership and communication skills.

Some of the companies scheduled to participate include Caterpillar, Inc., Cenex/Land O'Lakes, R.D. Offutt Co., Bayer Corp., Novartis, Cargill, Inc. and J.R. Simplot Co.

Each student participant will be entered in a drawing, and the winner will receive a \$100 scholarship. Sigma Alpha sorority and Alpha Gamma Rho and Farmhouse fraternities are donating the scholarship.

The career fair is free and open to the public. For more information contact Dawn Sonnenberg at 476-0930 or visit the fair's Web site at www.ndsu.nodak.edu/career_center/agforum.htm.

Architect's autobiography to be subject of English seminar

Betsy Birmingham, doctoral candidate in English at Iowa State University, is scheduled to present an English seminar at 3:30 p.m. Wednesday, Nov. 17, in Minard 209. Her talk is titled "Battle Fronts and Police Lines: Architectural Canonization and Marion Mahony Griffin's Magic of America."

Mahony Griffin practiced architecture on three continents during a career of seven decades. Her autobiographical manuscript, "The Magic of America," relates her professional and personal experiences in a career dominated by men.

Birmingham will use Mahony Griffin's text as a case study to describe one way in which women's contributions to a disciplinary field are first gendered, summarized and described in gendered terms, and then devalued and dismissed. She will compare the textual conventions of the manuscript to autobiographical texts of Mahony Griffin's closest theoretical and chronological contemporaries, Frank Lloyd Wright and Louis Sullivan. She also will explore the text's exclusion from architectural studies, which mimics the general omission of women in architectural studies.

Horizons seminar to discuss Christ's return and 2000

John Helgeland, professor of religion and history, and Otto Helweg, dean of engineering and architecture, are scheduled to present "The Return of Christ and the Year 2000," at noon Wednesday, Nov. 17, in the Memorial Union Cul-de-sac Lounge.

The session is part of the weekly "Horizons" series presented by United Campus Ministry and the University Lutheran Center. For more information call 235-0672 or 232-2587.

Shorts and Reminders

Free preview night for 'Oleanna'

NDSU staff are invited to the Little Country Theatre's free preview night of "Oleanna." The performance is scheduled for 7:30 p.m. Thursday, Nov. 11, in Walsh Studio Theatre. To reserve tickets call 1-9442.

Varsity Mart to hold staff appreciation sale

The Varsity Mart is sponsoring its annual staff appreciation day from 1-4 p.m. Tuesday, Nov. 23. Punch and cookies will be served. In-store specials include 20 percent off souvenirs, cards, clothing, supplies and miscellaneous items. Some exclusions apply in each department. If you have any questions, call 1-7763.

'Union Market' set for Nov. 19

The Memorial Union will hold a "Union Market" from 9 a.m.-4 p.m. Wednesday, Nov. 19, in the Alumni Lounge. Student organizations and commercial vendors will be displaying and selling handcrafted items and baked goods. There is no admission fee. For more information, call 1-9447.

Quantity Foods

The final Quantity Foods meal of the semester is planned for noon-12:30 p.m. Tuesday, Nov. 16, in the lower level of the West Dining Center. It will be an Oriental meal featuring Oriental vegetable soup, lemon chicken over white rice, NAPPA cabbage salad, garlic bread sticks and lemon bars. The cost is \$5.25 or free to those on a meal plan. Seating is limited; call 1-7023 for reservations.

Open positions

Positions open and their closing dates through the Office of Human Resources, Room 205, Old Main:

Accounting Technician/#2069
Dining Services
\$20,500 minimum/year
Nov. 16

Cashier/#1313
(10-month position; 8:30 a.m.-2 p.m.)
Varsity Mart
\$6.50/hour
Nov. 19

Carpenter
Physical Plant
\$24,960 minimum/year
Nov. 15 (re-opened)

Maintenance Worker/#1278
Residence Life
\$20,925+/year
Nov. 23

Electrician/#0970
Physical Plant
\$28,500 minimum/year
Nov. 23

Industrial Electronic Technician/#0994
Physical Plant
\$27,000 minimum/year
Nov. 24

Computer Technician/#4232
Varsity Mart Bookstore
Salary to commensurate with experience
Nov. 12

Application Developer/#4621
Information Technology Services
\$28,000 minimum/year, negotiable depending on experience
Nov. 12 (extended closing date)

Help Desk Consultant/#4025
Information Technology Services
\$28,000 minimum/year
Nov. 9

Microbiologist/#1392
Plant Pathology
\$30,000 minimum/year
Nov. 12

Research Specialist
Carrington Research Extension Center
Carrington, N.D.
\$25,000 minimum/year
Nov. 15

Fire Management Coordinator/#3585
North Dakota Forest Service - Bismarck, N.D.
\$27,108 minimum/year
Nov. 30 (extended closing date)

Business and Marketing Specialist/#4407
NDSU-IBID
\$25,000 minimum/year; commensurate with training and experience
Dec. 3

Head of Technical Services/#0518
Libraries
\$40,000+/year
Dec. 6

Food Technologist/#1621
Food and Nutrition/AES
\$28,000 minimum/year
Dec. 31

Position openings also are available through the NDSU Web site at www.nodak.edu/human-resources/.

Union Food Court Specials

Nov. 11-17

A reminder to everyone that the Union Food Court, Pizza Express, Blimpie's and Taco Bell will all be closed Thursday, Nov. 11 for Veterans Day. All three campus dining centers will be open.

Try ready-made sandwiches in the Union Food Court at the Grab n' Go Counter by Roll On In.

The Corner Deli

Thursday: CLOSED

Friday: turkey

Monday: chicken

Tuesday: roast beef

Wednesday: pastrami

More Than a Burger

Thursday: CLOSED

Friday: fish

Monday: 1/4 lb. cheeseburger

Tuesday: mushroom Swiss burger

Wednesday: broiled chicken

A La Carte

Thursday: CLOSED

Friday: taco salad

Monday: hot ham and cheddar wraps

Tuesday: hand-carved roast beef

Wednesday: pasta bar

Soup of the Day

Thursday: CLOSED

Friday: navy bean

Monday: chicken noodle

Tuesday: corn chowder

Wednesday: beef barley

*Items are subject to change without notice.

Call the Dining Services Lunch Line daily at 1-9501 to check out all the daily specials.

Questions or comments may be dropped in the suggestion boxes located in each dining center and the Union Food Court or you can call Kim at the Union Dining Center and Catering office at 1-8122.

Research Opportunities

The Office of Research Administration in Old Main 201K announces the following funding opportunities and deadlines. For more information, call 1-8114; or refer to the given Web site or contact person. For information about other grants, check the Research Administration Web site at www.ndsu.nodak.edu/ndsu/sizer/resadmin.html and click on "Funding Opportunities."

Department of Energy (DoE) Renewable Energy Outreach and Training www.eren.doe.gov/ee.html

Deadline: Dec. 10 (pre-applications); final due dates will be staggered depending on the topic

The Energy Department is inviting applications for grants and cooperative agreements for information dissemination, public outreach, training and related technical analysis and technical assistance activities involving renewable energy and energy efficiency. Areas of interest include renewable energy such as wind, photovoltaic, hydrogen and bioenergy technologies. Areas of interest in energy efficiency include the transportation, buildings and industrial sectors.

American Association for the Advancement of Science (AAAS)

Science and Technology Policy Fellowships www.fellowships.aaas.org

Deadline: Jan. 15

The American Association for the Advancement of Science sponsors fellowships to provide the opportunity for accomplished and societally aware scientists and engineers to participate in and contribute to the public policymaking process of the federal government. The fellowships are designed to help shape science and technology policy in Washington, D.C. by contributing scientific and technical information and external perspectives to federal decision making, while learning how government works. The AAAS fellowship programs provide a unique participatory public policy experience for scientists and engineers, through one-year assignments involving domestic and international science policy issues in the Congress and several executive branch agencies. Applicants must have a doctorate in any physical, biological or social science, and field of engineering, or any relevant interdisciplinary field. Engineers with a master's degree and three years of post-degree experience also may apply. U.S. citizenship is required.

National Science Foundation (NSF) Housing Technologies www.nsf.gov/pubs/2000/nsf004/nsf004.txt **Deadline: Jan. 27**

The National Science Foundation is inviting proposals for fundamental research that could lead to breakthrough technologies to improve the quality, affordability, durability, environmental performance and energy efficiency of new and existing homes. Areas include improvement of building product and component durability and development of technologies to assess durability of building products; enhancement of the efficiency of the building production process and component manufacturing; improvement of the performance of current constructed housing; and the development of breakthrough technologies and materials that can transform housing production and techniques.

National Endowment for the Humanities (NEH) Humanities Focus www.neh.gov **Deadline: April 15**

The National Endowment for the Humanities is seeking applications for Humanities Focus grants, which support groups of educators who together explore a major humanities topic and develop institutional plans of action. Grants can support groups of eight to 20 teachers and administrators who meet regularly with outside scholars to pursue a planned schedule of intellectually challenging reading and discussion in the humanities. The groups should explore ways to integrate what they have learned into their schools' humanities curricula. The grants also support design and development of new institutional arrangement for humanities education. Funds may be used to pay for visiting scholars or consultants; the investigation of model programs; books or other materials; logistical support; or release time to enable participants to read, think, write and deliberate. Public and private schools, school systems, postsecondary institutions, libraries, museums, education associations, professional organizations and research centers are eligible to apply.

Calendar

November

Through Nov. 10 "Walter Piehl: Sweethearts, Roping Fools and Cowgirl Suite," Memorial Union Gallery; for information call 1-8239

11 Veteran's Day, administrative offices closed, no classes

11 NDSU faculty/staff free preview night of the Little Country Theatre's "Oleanna," 7:30 p.m., Walsh Studio Theatre

11 Chemistry—Richard Taylor, University of Notre Dame, "Synthetic Methods for Diversity Generation: From Structural to Conformational Libraries," 3:45 p.m., Dunbar 152

12 Psychology—Kevin Thompson will present a seminar at 3:30 p.m. in Minard 209

12 Volleyball vs. St. Cloud State, 7 p.m., Bentson-Bunker Fieldhouse

12 Plant Sciences—Inez Rothe, "Confusion and Controversy Regarding Hemp," 3:30 p.m., Loftsgard 380

12 Animal and Range Sciences—Stacy Okerson, graduate student, "A Floristic Study of Ramsey County," and Tim Loy, graduate student, "First Limiting Nutrient of Nursing Calves Grazing Native North Dakota Sandhills Range," 3:30 p.m., Hultz 104

12-13 Little Country Theatre presents "Oleanna," 8 p.m., Walsh Studio Theatre

- 13 Wrestling hosts Bison Open, 10 a.m., Bison Sports Arena
- 13 Volleyball vs. Minnesota State-Mankato, 7 p.m., Bentson-Bunker Fieldhouse
- 14 Men's basketball vs. Tharaldson Enterprises, 7 p.m., Bison Sports Arena
- 15 USDA-ARS—Mike Thomashow, Michigan State University, "Role of the *Arabidopsis* CBF Gene Regulon in Freezing Tolerance," 3 p.m., Northern Crop Science Lab, large conference room
- 17 Union Market, 9 a.m.-4 p.m., Memorial Union Alumni Lounge
- 17 Architecture/Landscape Architecture—Julie Snow will present a seminar at 5:30 p.m. in Loftsgard 114
- 18 Chemistry—Rita Majerle, South Dakota State University, "Dendrimers: Novel materials—their interfaces and interactions," 3:45 p.m., Dunbar 152
- 18-20 Little Country Theatre presents "Oleanna," 8 p.m., Walsh Studio Theatre
- 19 Psychology—Ann Sandgren, Meritcare Medical Center, "Breast Cancer Telephone Therapy: A Novel Approach to Intervention," 3:30 p.m., Minard 209
- 19 History—Mark Harvey, "Howard Zahniser and the Art of Environmental Biography," 3 p.m., Minard 407
- 19 Wrestling vs. Minnesota, 7:30 p.m., Bison Sports Arena
- 20 Men's basketball vs. Concordia College, 7 p.m., Bison Sports Arena
- 23 Men's basketball vs. Minot State, 7 p.m., Bison Sports Arena
- 25 Thanksgiving Day, administrative offices closed, no classes
- 26 Administrative offices open, no classes
- 26-27 Women's basketball hosts the Valley Imports Classic, 5:30 p.m. and 7:30 p.m., Bison Sports Arena
- 29 Classes resume
- 29 Chemistry—Sheila David, University of Utah, "Recognition and Repair of Damaged and Mismatched DNA by the Fe-S Protein MutY," 3:45 p.m., Dunbar 152
- 30 Women's basketball vs. St. Scholastica, 7 p.m., Bison Sports Arena

December

- 1 Architecture/Landscape Architecture—John Shadlow will present a seminar at 5:30 p.m. in Loftsgard 114
- 2 Chemistry—Cecelia Giuliv, University of Minnesota-Duluth, "Nitric Oxide in Mitochondria," 3:45 p.m., Dunbar 152
- 3 Psychology—Jim Mitchell, Neuroscience-UND Medical School and Neuropsychiatric Research Institute, "Recent Research on the Treatment of Bulimia Nervosa," 3:30 p.m., Minard 209
- 3-5 Madrigal Dinners, 6:30 p.m., Festival Concert Hall, Grand Lobby
- 4 Women's basketball vs. Stonehill College, 7 p.m., Bison Sports Arena
- 6 Tri-College Percussion Ensemble and Marimba Choir concert, 8 p.m., Festival Concert Hall
- 7 Jazz Ensemble and Jazz Lab Band concert, 8 p.m., Festival Concert Hall
- 8 Brass Ensemble and Gold Star Concert Band concert, 8 p.m., Festival Concert Hall
- 9 Chemistry—Monique Cosman, Lawrence Livermore National Library, will present a seminar at 3:45 p.m. in Dunbar 152
- 10 Annual Chili Feed and SAS Art Sale, 11:30 a.m.-1:30 p.m., Art Building
- 10 Annual Holiday Ceramic Sale, noon-6 p.m., Art Building
- 10 Psychology—Tricia Cook Myers, VA Medical Center, "Treatment of Gulf War Syndrome," 3:30 p.m., Minard 209
- 10 Last day of classes
- 12 Winter choral concert, 2 p.m., Festival Concert Hall
- 13-17 Final exams
- 14 Women's basketball vs. Mayville State, 6 p.m., Bison Sports Arena
- 14 Men's basketball vs. UM-Crookston, 8 p.m., Bison Sports Arena
- 17 Winter commencement, 4 p.m., Bison Sports Arena
- 20-Jan. 10 Winter recess, no classes
