

## Faculty research groups sought for partnership with Alien Technology

Interest was running high as representatives of Alien Technology Corp. visited campus Aug. 29 to tour facilities and discuss the outlook for an NDSU center for nanoelectronics and nanomaterials.

The company is an important partner with NDSU in the recently announced U.S. Department of Defense \$1.4 million contract that is expected to put NDSU on the leading edge of sensor technology development. Other partners include the University of Alaska, Fairbanks; Northrop Grumman Corp.; and Superconducting Technologies Inc.

Speaking at an informational meeting attended by more than 75 faculty, staff and students, President Joseph A. Chapman welcomed the company representatives. "This is exciting stuff," Chapman said. "There is tremendous potential for new opportunities for NDSU, the state of North Dakota, our partner companies and the Department of Defense. This is a classic example of what can happen when an institution is given the flexibility and empowerment to develop these things."

The technology allows for tiny circuits that are paper-thin and can conform to nearly any shape. Through the contract, NDSU will develop chip designs to meet Defense Department needs. The designs will be sent to a chip foundry and then NDSU researchers will assemble them into unique platforms for a wide range of applications using technology exclusively licensed to the university by Alien Technology.

"What we're looking for is a partnership where we can have a science center for the company, with our objective to teach people at the university NanoBlock™ and Fluidic Self Assembly™ technology," said Henry Girolamo, Alien Technology's director of operations, research and applications. "Hopefully, we can get spin-off companies started. That's a goal here, to take it beyond research and make it into productization. This work will have dual usage in commercial applications, as well as military use."

He suggested many NDSU faculty members might take advantage of research opportunities through the program. "There are a lot of different groups here that can bring value to this type of technology. We're looking at everybody," Girolamo said. "Computer scientists and electrical engineers will be very beneficial to the fundamental underpinnings of our NanoBlocks. Material scientists will look at coatings. The chemicals and polymers people will find different applications."

During fall semester, an intense planning stage with the project partners will get underway. "We'll have senior faculty travel out to Alien headquarters in Silicon Valley, and start to decide on what microsensors and nanosensors we would be working on at NDSU," said Gregory McCarthy, center director and associate vice president for research, creative activities and technology transfer. "Around the first of the year, we'll be able to start some faculty research groups with specific projects under the overall program."

Department chairs and faculty members who wish to be considered to work on the project should send a letter of interest describing their experience and qualifications, along with a vita, to [Greg\\_McCarthy@ndsu.nodak.edu](mailto:Greg_McCarthy@ndsu.nodak.edu).

## President Chapman to deliver State of University Address

President Joseph A. Chapman will deliver his third State of the University address at 4 p.m., Thursday, Sept. 13 in the Reineke Fine Arts Center. All faculty, staff and students are invited to the reopening of the main campus gate at University Drive and 12th Avenue North immediately following the address. A reception will follow at the President's Home.

## Ag Experiment Station director clarification

The search committee for Agricultural Experiment Station director is chaired by Vice President for Student Affairs George Wallman, with Al Schneiter, professor and chair of plant sciences serving as vice chair.

## Surplus bid sale set for Sept. 14

A surplus property spot-bid sale is scheduled for noon-2 p.m. Friday, Sept. 14, at the Auxiliary Enterprise Annex. Present inventory includes a large number of computers (Mac; Power PC), cabinets and other furniture items. NDSU does not warrant any items for any purpose. All items offered for sale are "as-is, where-is," and are sold without minimum bids. Bid forms will be available at time of inspection and sale. Items identified for department use will be pulled from the sale. Terms of sale are cash or check upon pickup of items. Surplus property sales are held on the second Friday of each month at the same time and location. For more information, contact Peter Hart at 1-8348.

## Next Issue

Publication date: Wednesday, Sept. 12  
Submissions due: noon Sept. 6  
Old Main 204  
Voice: 231-8326  
Fax: 231-1989

## Friendship doll to be repaired in Japan

The beautiful friendship doll "Miss Okayama" is on its way home to Japan for needed repairs. The 74-year-old doll, which has been housed in the apparel, textiles and interior design department at NDSU, is in a fragile condition, with cracks in its head, arms and legs.

**Miss Okayama**

On Aug. 27, the doll was carefully packed up by Masako Yuki Yoshi, vice chief executive officer of the Okayama Japan America Cultural Exchange Society for its journey home. During the next six months, the doll will be repaired at the 290-year-old Yoshitoku Co., Tokyo. Company president Tokubei Yamada is a highly-respected 11th generation doll maker.

"This doll is very special. It is a treasure," Yuki Yoshi explained. "It has a special meaning between our two countries and we want to repair it."

Miss Okayama came to this country in 1927 as one of 58 "doll ambassadors" sent by the Japanese government. The carefully crafted dolls came to the United States in appreciation for 12,700 dolls that had been sent to Japanese schools by America youth groups through a 1926 program organized

**Sara Sundelin; Masako Yuki Yoshi**

by missionary Sidney Gulick. He considered dolls as a way for children to get acquainted with the customs and culture of another land. Gulick envisioned them as a way to promote peace and understanding. Forty of the ambassador dolls are known to still exist.

After a November 1927 gala send-off in Tokyo, the ambassador dolls were taken by ship to Washington, D.C. A welcoming ceremony was attended by the wives of three presidents and the Japanese ambassador. The dolls were then dispersed to 46 of the 48 states. Miss Okayama went first to Valley City, N.D., before going on display at the Masonic Lodge in Fargo. For several years the doll was housed at the Fargo office of the Red Cross. It has been on the NDSU campus since 1973.

While in Japan following its repairs, the doll is scheduled to be part of a March 3 exhibition, the date of the annual doll festival in the country. It also will be the subject of an official "welcome home" party on April 7, the beginning of cherry blossom season. The events will be held in the cities of Okayama and Kurashiki.

Following that, Yuki Yoshi hopes the doll will be shown at an exhibition of the ambassador dolls planned for May at the Japanese Museum in the United States, Los Angeles.

"Then we want to get your treasure back to NDSU as soon as possible," Yuki Yoshi said. "It must be here."

Holly Bastow-Shoop, professor and chair of apparel, textiles and interior design, credits Ann Braaten, curator of the Emily Reynold's Costume Collection, for working with the society to have the doll repaired.

"I think it is great that the doll is on her way to Japan," Bastow-Shoop said. "We are really so pleased that the society has so graciously raised the funds to return her to Japan and for the refurbishment and repair of the doll."

Bastow-Shoop said the doll is an important educational tool and she looks forward to its safe return. "The doll presents us with the opportunity to learn about an important holiday in Japan, "the festival of dolls" held in March each year," she said. "It is a great way for us to teach American children about children of other cultures. Young children are most accepting of people that are different than themselves. Dolls are a great vehicle with which to learn."

The doll is made of a material called gofun, which is ground oyster shell and a binding agent. Dressed in a colorful kimono and obi sash, it has black human hair and dark glass eyes. The doll came with a wide assortment of accouterments, including a tea set, candle holders, spare shoes and ornate storage trunks.

## WRRRI director search announced

Applications are being sought for director of the North Dakota Water Resources Research Institute.

The N.D. WRRRI is one of 54 institutes known collectively as the National Institutes for Water Resources. Established by Congress in 1965, the institutes conduct research, education and information transfer at each state's research universities. They are administered by the United States Geological Survey.

The program currently receives federal funding of \$75,000 per year, most of which is used to support of graduate research fellowships at NDSU and the University of North Dakota. The institute also administers interdisciplinary research grants and contracts in water resources.

Current director Gregory McCarthy, associate vice president for research, creative activities and technology transfer, has held the position since 1992.

The position requires a time commitment of approximately two months annually, with support provided by the annual federal allotment and central administration. Tenured faculty with a strong record of water resources research, publications and external grant support are encouraged to apply. A cover letter including the candidate's qualifications and reasons for interest in the position, plus a curriculum vitae, should be sent to Philip Boudjouk, vice president for research, creative activities and technology transfer, 201 Old Main by Wednesday, Sept. 19.

For more information on the N.D. WRRRI, visit [www.ndsu.nodak.edu/wrrri](http://www.ndsu.nodak.edu/wrrri).

## Sponsored programs compliance reminder notice

The Office of Sponsored Programs Administration has issued a compliance reminder notice stating that written protocols describing research, teaching or demonstration activities involving animals, human participants, recombinant DNA or potential biohazards must be submitted to the following federally mandated committees for review and approval prior to starting the activity. For complete details visit [www.ndsu.nodak.edu/research/compliance](http://www.ndsu.nodak.edu/research/compliance).

### **Institutional Animal Care and Use Committee (IACUC):**

Any faculty or staff member who is the principal investigator or project director for any animal activity within the NDSU system, is required to submit an IACUC protocol. The NDSU system includes the campus and all satellite facilities associated with NDSU, such as research extension centers. Students conducting animal projects should submit the project in collaboration with their faculty adviser. The adviser should be listed as principal investigator and the student as co-principal investigator.

The NDSU IACUC will review all projects involving the use of any live vertebrate animals for any purpose within the NDSU system. Such projects include but are not limited to animal use in agriculture, biomedical and/or behavioral research, teaching, exhibition and/or testing. Field studies also must be reviewed by the IACUC.

Protocols must be submitted and approved before beginning any work with animals. For more information, forms and instructions consult the Web site at [www.ndsu.nodak.edu/research/compliance/iacuc](http://www.ndsu.nodak.edu/research/compliance/iacuc).

### **Institutional Review Board (IRB):**

IRB review is required for all research involving human participants including surveys, interviews, educational tests, studies of existing data, taste testing and testing of blood or tissue samples. Review is required when the investigation is conducted at NDSU facilities or anywhere else when conducted by NDSU representatives including faculty, staff and/or students. The committee is governed by Title 45, Part 46 of the Code of Federal Regulation, "Protection of Human Subjects." For more information, forms and instructions, consult the Web site at [www.ndsu.nodak.edu/research/compliance/irb](http://www.ndsu.nodak.edu/research/compliance/irb).

### **Institutional Biosafety Committee (IBC):**

IBC review is required for all research and teaching activities involving recombinant DNA (rDNA), infectious agents, or human blood, bodily fluids or tissues, which are all potentially biohazardous substances. Review is required when the investigation is conducted at NDSU facilities or anywhere else when conducted by NDSU representatives including faculty, staff and/or students. The committee is governed by the "Guidelines for Research Involving Recombinant DNA Molecules," from the National Institutes of Health. NIH guidelines are available at <http://www4.od.nih.gov/oba/rac/guidelines/guidelines.html>. For more information, forms and instructions, consult the Web site at [www.ndsu.nodak.edu/research/compliance/ibc](http://www.ndsu.nodak.edu/research/compliance/ibc).

## Submission guidelines for "It's Happening at State"

"It's Happening at State" is a weekly news publication for and about the faculty and staff of NDSU. Stories in "It's Happening" also may be distributed to off-campus media outlets as news releases. Story submissions are encouraged and will be edited for length and Associated Press style.

Occasionally, submitted stories may be cut or held due to space constraints. The deadline for all submissions is noon Thursday preceding the publication date, unless otherwise noted. If items that usually appear on a weekly basis are not received by the Thursday noon deadline, it will be assumed that there is no submission for the week. Stories are placed in one of six categories: University News, People, Events, Shorts and Reminders, Research Opportunities and Calendar.

### **Stories likely to be published include, but not limited to:**

- University President announcements
- Faculty or staff member receives award
- Professor presents lecture/paper
- Department seminars
- Professor/department receives grant
- Student receives high academic honors
- Nominations for faculty awards sought
- NDSU Fine Arts events
- Campus organization performs community outreach (volunteering, charitable fundraising, etc.)

### **Stories not likely to be published include, but not limited to:**

- Non-NDSU-sponsored community events, even if the event is held on campus
- Non-academic student achievement (athletics, livestock, judging awards, etc.)
- Student organization news or announcements
- Classified advertisements or classified-type announcements

### **Students and "It's Happening"**

Because "It's Happening" is an internal news publication primarily for faculty and staff, only high academic honors and awards received by students are published. Examples include Goldwater Scholarship recipients and national scholarship or competition winners.

Occasionally, a feature story about an athlete or team is published when national honors such as NCAA All-American team selection or Division II Athlete of the Year are received. "It's Happening" does not publish team standings, news or announcements for either club or NCAA sports.

General news from student organizations is not published. However, if an organization is planning an event that is a form of community outreach that promotes the university, a story on the event may be published, space permitting.

### **Community events and "It's Happening"**

"It's Happening" does not publish events scheduled on campus that are not sponsored by the university.

These criteria serve as guidelines when considering stories for submission. There may be situations when exceptions are made. In situations where "It's Happening" is unable to publish a story, for whatever reason, other outlets on campus such as The Spectrum, KDSU and department newsletters should be sought to announce news.

Address or subscription changes, both on or off campus, should be sent to [Char\\_Goodyear@ndsu.nodak.edu](mailto:Char_Goodyear@ndsu.nodak.edu).

## People

### Anderson named UGPTI advisory council chair

Dale O. Anderson, BS '59, MS '60, president of the Greater North Dakota Association, was named chair of the Upper Great Plains Transportation Institute's advisory council at a June 20 council meeting in Bismarck.

A former UGPTI director, Anderson will work closely with current director Gene Griffin and NDSU administration to identify research opportunities and support for the institute in the public and private sectors.

Anderson began his career as a professor of agricultural economics at NDSU. He was the first president of the North Dakota Consensus Council and currently serves on its board of directors. He also serves on the board of the North Dakota Water Coalition. Anderson has been vice president of the Council of State Chambers of Commerce and a committee member for the U.S. Chamber of Commerce. He has been GNDA president since 1981.

Anderson has written numerous articles on agricultural production and marketing, and water resource development and use. He serves on the NDSU Development Foundation Board of Trustees and is a past president of Team Makers.

In addition to his degrees from NDSU, Anderson earned a doctorate in agricultural economics from Oklahoma State University, Stillwater.

Anderson and his wife, Claudia, live in Bismarck. They have two grown children.

### Staley named to aerospace studies position

Maj. Jim M. Staley was named assistant professor of aerospace studies, Air Force ROTC, effective July 1. He will teach National Security Affairs and Preparation for Active Duty, and Leadership Laboratory fall semester.

Staley served as director of the Meteorology and Oceanography Division at the Joint Special Operations Command headquarters, Fort Bragg, N.C., from June 1998-June 2001. He was responsible for the development, operational implementation, evaluation and integration of environmental support to operational assets of the U.S. Special Operations Command.

Prior to that, he was chief of weather plans and readiness for Air Force Special Operations Command headquarters in Florida.

Staley received a bachelor's degree in geology and geophysics from Boise State University, and a master's degree in atmospheric physics from Colorado State University, Ft. Collins. He also completed the Air Force basic meteorology program at Texas A&M University, and attended squadron officers school at Maxwell Air Force Base and the armed forces staff college in Norfolk, Va. He was commissioned through the Air Force Officer Training School, Lackland Air Force Base, Texas.

A native of Fairbanks, Alaska, Staley and his wife, Karen, live in Fargo with their sons Pax, Joshua and Davis.

### Varma gives presentations at transportation conferences

Varma

Amiy Varma, associate professor of civil engineering, presented papers at the Air Transportation Research Group (ARTG) world conference, and at the World Conference on Transportation Research (WCTR), both held in July in South Korea.

Varma's presentation at the ARTG conference held July 19-22 in Jeju was on airport pavement management. Attended by researchers from the several countries including the United States, China, Hong Kong, Korea, Australia, Singapore, Netherlands, Germany and the United Kingdom, the conference provided opportunities to interact with aircraft manufacturers and the airline industry. Conference attendees were given a tour of the Incheon International Airport, a \$6 billion project anticipated to be the largest air cargo hub in Asia when completed.

Varma and former graduate student Thomas Hagg each made presentations at the WCTR conference held July 22-17 in Seoul. Varma presented an assessment on the impact of truck configurations on highway infrastructure using finite element methods, based on the dissertation work of graduate student Nabil Suleiman. Hagg, who now works at the Denver office of the Airports Division of Washington Infrastructures Inc., gave a presentation on the impact of new large aircraft on airside infrastructure of existing airports. More than 1,600 people took part in the conference, giving presentations on several types and modes of transportation.

### Bromley participates in hypnotists' convention

Kimble A. Bromley, assistant professor of art, participated in the annual National Guild of Hypnotists convention held Aug. 5-15 in Nashua, N.H.

More than 170 professionals presented workshops and seminars on topics such the client bill of rights, practice management, addictions, geriatrics, pediatrics, smoking-cessation, weight management and new developments in hypnotherapy. Bromley presented his "Creativity Enhancement Workshop" in the continuing education program.

Now in its 50th year, the National Guild of Hypnotists is the largest professional organization of its type with 7,000 members in 40 countries. The guild promotes hypnosis and hypnotherapy as a separate and distinct profession, while developing programs and techniques to enhance its recognition and acceptance, and to provide a forum for the presentation of ideas, information and research. It also provides information to the public through its publication, *Hypnosis Today*, and Web site, [www.ngh.net](http://www.ngh.net).

## Landscape architecture students take top honors in national competition

A team of three landscape architecture students was awarded first place in the 2001 National Stone Competition held in Washington, D.C., in July. The team received \$2,000 for their project, "Fire Rescue School at Dakota Granite Quarry."

Seniors Tana Blestrud, Tioga, N.D.; Kristy Knauer, Berthold, N.D.; and Michael Stanley, McVie, N.D., proposed the future use of a Milbank, S.D., stone quarry as a training center for fire rescue personnel.

Senior Gabriel Metz, Glenwood, Minn., received a third place award and \$600 for his entry, "Quarry Rock Art Museum and Meridian Valley Development for Meridian Granite," located in Waite Park, Minn. Waite Park has used its abandoned stone quarries as a series of connected green spaces over the past decade.

The Department of Architecture and Landscape Architecture also received an \$1,800 cash award due to the students' awards.

For more information, contact Dennis Colliton at 1-8508.

## Tierney wins conference honor

NDSU soccer goalkeeper Kelly Tierney was named the North Central Conference Defensive Player of the Week on Aug. 27. She earned the honor for the first time in her career.

A junior from White Bear Lake, Minn., Tierney posted a pair of shutouts during the opening weekend of the 2001 season as the Bison defeated Jamestown College 12-0 and the University of Mary 1-0 at the Dakota Cup Aug. 25-26.

## Events

### Anti-hate presentation to be held

Two sessions of "Journey to a Hate Free Millennium" with Brent Scarpo are scheduled for 6 p.m. and 8 p.m. Wednesday, Sept. 5, in Festival Concert Hall. The presentations, which are free of charge, are sponsored by Multicultural Student Services, the Office of the Vice President for Student Affairs and Campus Attractions.

Scarpo is a filmmaker and the founder of New Light Media, a production company based in Denver.

According to Scarpo's promotional material, the presentation includes a documentary film "designed to bring about discussion and change in today's hate-filled world." The film shows interviews with the families of high-profile hate crime victims and a former neo-Nazi.

The film will be followed by a discussion with Scarpo which is intended to provide questions, answers and suggestions for how society can begin to address the issues of hate and hate crimes.

For more information, contact Kelly Junker, Campus Attractions president, at [Kelly\\_Junker@ndsu.nodak.edu](mailto:Kelly_Junker@ndsu.nodak.edu) or 1-7221.

## Pharmacy and nursing career fair set

The College of Pharmacy has scheduled a pharmacy and nursing career fair for high school and college students from 10 a.m.-2 p.m. and 3:30-5 p.m. Monday, Sept. 17, at the Fargodome. The college's scholarship recognition program is scheduled for 2-3:30 p.m. at the Fargodome. The career fair is open to the public.

More than 40 booths are planned with representatives from retail pharmacy chains, manufacturers and health facilities expected to participate. Students also will have the opportunity to visit with faculty, staff and current students from the departments of pharmacy and nursing. Parents also are invited.

"Our students for a long time have expressed interest in obtaining more information about careers in nursing and pharmacy, and the employers who actively recruit our students have expressed interest in developing a closer relationship with our students," said Charles Peterson, dean of pharmacy. "The career fair provides us a wonderful opportunity to bring the two together to interact with each other and involve the parents in the information sharing and career seeking process."

A total of 123 scholarships will be awarded to approximately 100 pharmacy and nursing students at the scholarship awards ceremony, according to Jean Anderson, director of pharmacy advancement. Between 350-400 people are expected to attend the ceremony.

Free parking is available at the Fargodome. For more information on the career fair or the Scholarship Recognition Program, contact Anderson at 1-7751 or Cynthia Hanson at 1-6461.

## UGPTI awards banquet scheduled

The Upper Great Plains Transportation Institute has scheduled its annual awards banquet for 5:30 p.m. Thursday, Oct. 11, at the Fargo Holiday Inn. Individual honors and scholarships will be awarded.

The John Agrey Award for outstanding individual contributions in the promotion of North Dakota transportation will be awarded to Jack K. Daniels, former director and chair of the North Dakota Aviation Association, now known as the North Dakota Aviation Council.

Daniels served on the North Dakota Aeronautics Commission Board for 36 years, and was a member of the North Dakota Aviation Hall of Fame. A career aviator for 52 years, he received a Lifetime Achievement Award from the Federal Aviation Administration.

The John Agrey award also will be presented posthumously to the late Melvin G. Maier, former administrator for the North Dakota Wheat Commission.

Four undergraduate scholarships will be awarded by the UGPTI. Receiving the Paul E.R. Abrahamson scholarship are senior Jody Wosick, Minto, N.D., and junior Kelly Schlauderaff, Detroit Lakes, Minn. Engineering scholarships will be awarded to Nate Larson, senior, Wahkon, Minn., and Nancy Molick, junior, Moorhead. Each scholarship recipient will receive \$1,500 for the 2001-02 academic year. Scholarship funding is provided by the Mountain-Plains Consortium through a grant from the U.S. Department of Transportation.

For more information, or for banquet reservations, call 1-7767.

## State Employee Recognition Week activities set

N.D. Gov. John Hoeven has proclaimed Sept. 16-22 as State Employees Recognition Week. Fargo events include a golf scramble and Family Fun Night.

The golf scramble is scheduled for 1 p.m. Sunday, Sept. 16, at Prairiewood Golf Course, Fargo. Registration is \$12 and must be received by Sept. 12.

Family Fun Night is scheduled for 4:30-7:30 p.m. Tuesday, Sept. 18, at Playmaker's Pavilion. The Fargo recognition week committee will serve a picnic meal, and a variety of games, music and prizes for all ages will be available. Ticket prices are \$3 for singles and \$9 for families.

To register for the golf scramble or to purchase Family Fun Night tickets, contact Sharon Morgan at 1-7739 or [smorgan@ndsuxt.nodak.edu](mailto:smorgan@ndsuxt.nodak.edu).

## Ag Fall Round-Up scheduled

The annual agriculture Fall Round-Up is scheduled for 5:30 p.m. Thursday, Sept. 13, in the Bison Sports Arena. Dinner will be served at 6:30 p.m. All current and retired agriculture teaching, research and extension faculty and staff and their families are invited.

NDSU's Carnivore Caterers will prepare the meal. A variety of entertainment, including the NDSU Brass Ensemble, and Weird Science demonstrations by Don Carey also are scheduled.

The event is sponsored by the College of Agriculture and is coordinated by the faculty development committee. Tickets are \$3 per person and must be purchased by Tuesday, Sept. 11. Tickets are available in all agriculture department offices and 315 Morrill Hall.

## Shorts and Reminders

### New Student Bash well attended

More than 1,000 students and parents attended the New Student Bash held Aug. 26 at the Alumni Center. Events included a picnic, Alumni Center tours and visits with various academic departments and student organizations.

### Union Food Court specials for Sept. 5-12

#### Soup of the day

Wednesday: vegetable beef and baked potato  
Thursday: southwestern chicken chili and tomato rice  
Friday: chicken tortellini and seafood chowder  
Monday: beer cheese and lentil  
Tuesday: cream of potato and chicken noodle  
Wednesday: broccoli cheese and egg drop

#### The Corner Deli

Wednesday: ham  
Thursday: pastrami  
Friday: chicken  
Monday: ham  
Tuesday: roast beef  
Wednesday: chicken Caesar wrap

#### More Than a Burger

New: Value meals!

#### Ala Carte

Wednesday: sweet and sour chicken  
Thursday: big Texan salad  
Friday: hot meatloaf sandwich  
Monday: fleischkuekle  
Tuesday: pasta bar  
Wednesday: chicken chow mein

#### Pizza Express

Wednesday: once around the kitchen  
Thursday: bacon cheeseburger  
Friday: taco  
Monday: barbecue shredded beef  
Tuesday: southwestern chicken  
Wednesday: farmhouse

\*Items are subject to change without notice.

Call the Dining Services Lunch Line at 1-9501 to check out all of our daily specials. Questions or comments may be dropped in the suggestion boxes located in each dining center and the Union Food Court or call Kristina at the Union Buffet at 1-8122.

**Positions Available**

## E-mail address format to change

The format for the campus e-mail addresses will change this fall. The new system will use a period as the separator between the person's first and last names rather than the underscore that is now used. As of July 30, all new e-mail accounts are created using the *Firstname.Lastname@ndsu.nodak.edu* format.

All existing e-mail addresses now using the underscore are set to be converted to the new format Oct. 2. E-mail sent using the underscore format will be forwarded until at least December 2002. For more information on this change, visit <http://www.ndsu.edu/its>.

Two informational publications are available from the ITS office. [ITS@NDSU](mailto:ITS@NDSU) outlines available faculty and staff services, and [help@ndsu](mailto:help@ndsu) focuses on student services. Copies of the publications are available by calling 1-7961.

## OMR scoring sheet procedure changes made

Slight changes in the handling of OMR scoring sheets have been implemented. The OMR drop off window is now open until 5 p.m. Monday through Friday. The ITS Help Desk will accept tests from 5-9 p.m. in IACC room 228 for instructors teaching night classes.

The procedures for submitting tests are:

- Fill out a claim ticket. The person accepting the test will sign the card and place the left side of the ticket in the envelope with the test. The right side of the ticket will be returned in order to claim the test.
- A label will be placed over the envelope flap to secure the test, and the person submitting the test will be asked to sign the label.
- Tests left at the Help Desk will be placed in a box for staff to pick up the following morning.
- Tests will be available for instructors after 7:30 a.m. the next morning.

If you have any comments concerning this procedure, contact Jim Hughes at 1-8649 or [Jim.Hughes@ndsu.nodak.edu](mailto:Jim.Hughes@ndsu.nodak.edu).
