

Report says Division I reclassification 'warranted'

Taylor; Pres. Chapman; Gerald O'Dell, Carr Sports; Bill Carr

A report by Carr Sports Associates Inc. says a move to NCAA Division I athletics is "warranted." The recommendation, which is the first phase of a three-step process, was presented at campus open forums and during a news conference Jan. 23.

The consultants' executive summary concludes with the statement, "Based on NDSU's mission and vision, Carr Sports Associates Inc. concludes that a reclassification to Division I is warranted. If NDSU determines that remaining in Division II Athletics is in its best interest, they recommend there should be strong public statements affirming the continued support for the athletic program from all levels of the university's leadership."

As he introduced the consultants at the news conference, NDSU President Joseph A. Chapman said NDSU is an institution in transformation, and that he has challenged every campus unit to consider ways to move to the next level of excellence.

"Just about everyday, someone asks me for the 'inside scoop' on Division I," Chapman said. "The truth is, I don't know whether Bison Athletics should go Division I or not. There are a lot of good questions that need answers before a decision can be made. We need be wary of simple solutions to complex questions.

"It should come as no surprise to anyone that what we will do is what academically-minded people do when confronted by a puzzle," he said. "We study the matter, gather data and ultimately we will base our decision on the best information available."

The consultants recommended the university begin the transition process, but only after it has achieved four steps, including:

- Establish an institutional consensus that the reclassification from NCAA Division II to Division I is consistent with the university's mission, priorities and resources.
- Conduct a formal market assessment documenting campus and community financial support for Division I.
- Implement a strategic plan for the reclassification of NDSU Athletics built on a broad-based, participatory planning process using the market study and key recommendations of the report.
- Secure an acceptable conference membership before making the decision to reclassify to Division I.

Consultant Bill Carr said, "Reclassification will need a consensus on campus, with a common focus and effort. If the university moves forward with reclassification, the only way it will work is for there to be a strong consensus."

The next step, according to Gene Taylor, director of athletics, is a market assessment to determine if there is support for the move and how reclassification may affect ticket sales and contributions.

"We will conduct surveys targeting Team Makers, season ticket holders, corporate sponsors, students, faculty and staff," Taylor said, noting that he hoped the market assessment is completed in April.

"We appreciate the efforts of Carr Sports Associates, as well as that of all NDSU's staff, coaches, administrators and friends of the university. I applaud everyone involved," Taylor said. "We are excited about the report and about moving through the process to potential Division I reclassification."

NDUS strategic plan on Web

The North Dakota University System's Strategic Plan and the first annual "Accountability Measures Report" can be found on the Web at www.ndsu.nodak.edu/reports/default.asp.

According to Chancellor Larry Isaak, the strategic plan provides the vision, mission and long-range goals for the university system in the 21st century, while the report documents the progress being made toward each of the goals.

Isaak said many university system employees and members of the private and public sectors, through the Roundtable on Higher Education and the North Dakota Legislature, provided input and expertise during the development of the documents.

"To each of you, thank you for your valuable contributions," Isaak wrote in an e-mail to NDSU employees. "This collaborative effort now is receiving national attention as a model for what can be accomplished through private and public partnerships. The news media called the 2001 legislation relating to the university system as 'landmark legislation.' I would agree."

Isaak noted that an important conclusion of the 61-member Roundtable report called the university system "the vital link to a brighter future."

"I encourage university system faculty and staff to continue to provide input through the various councils of the university system and through the respective campus alignment plans, in creating that brighter future we all envision and everyone within the university system works every day to create," he said.

FIEL fellowship applications sought

The Faculty Institute for Excellence in Learning (FIEL) is accepting applications from instructors interested in fellowships designed to enhance teaching and learning at NDSU.

The institute was created with the help of a Bush Foundation grant to provide support and training for NDSU faculty interested in enhancing the way they teach and, consequently, how students can learn more effectively.

Faculty selected as FIEL fellows will receive a stipend and will participate in workshops focusing on active and problem-based learning and modified their teaching methods modification. In its first year of operation, 29 fellows attended workshops.

For more information or for an application, contact Sudhir Mehta, professor of mechanical engineering, at 1-7871 or sudhir.mehta@ndsu.nodak.edu. Additional details also may be found on the project's Web site at www.ndsu.nodak.edu/instruct/mehta/bush.

Grindberg to lead NDSU Research and Technology Park

Tony S. Grindberg, executive vice president of the Fargo/Cass County Economic Development Corp., has been appointed executive director of the NDSU Research and Technology Park. NDSU President Joseph A. Chapman made the announcement at a Jan. 24 news conference.

"Tony has enjoyed a successful career in economic development and marketing," Chapman said. "His leadership abilities and experience fit well in the development and direction we envision for the park, which is a place where entrepreneurs, technology-based businesses and university researchers work side by side on cutting-edge projects."

Grindberg said his business plan for the Research and Technology Park includes efforts to create a financially self-sufficient operation, move forward with an incubator building for emerging businesses, build a strong marketing and community relations campaign and seek access to venture capital.

"The park will serve as a catalyst for innovation in science and technology, leading to discoveries that contribute to North Dakota's economic development," Grindberg said. "Our purpose is to create more jobs through the process of commercializing ideas generated from research. In doing so, we expand our state's economy and create exciting new job opportunities for young people."

Grindberg said he envisions successfully completing the business incubator building with 75 percent occupancy by 2005, with eight to 10 successful business ventures in operation at that time.

Philip Boudjouk, vice president for research, creative activities and technology transfer, said Grindberg is an excellent choice for the position because of his strong background in local economic development.

"As I've gone around the country and attended many research park meetings, it became very clear that the success of a university's research and technology park is based on strong leadership," Boudjouk said. "We needed someone who could work very positively with the local people who are involved in economic development and is familiar with the complexity of city and state governmental activities. No one is better suited for that than Tony Grindberg."

Grindberg, a state senator representing District 41 in Fargo since 1992, has been with the Fargo/Cass County Economic Development Corp. since 1995. He led the establishment and directed operations at the Skills and Technology Training Center, Fargo.

Grindberg earned his bachelor's degree in business administration from Minnesota State University Moorhead, his associate degree in business aviation from North Dakota State College of Science, Wahpeton, and a certificate from the Economic Development Institute of the University of Oklahoma, Norman.

He received the 1999 U.S. Small Business Administration "Small Business Award—Rural Economic Development," 1998 Guardian of Small Business Award from the National Federation of Independent Business and the North Dakota Jaycees' 1998 Outstanding Young North Dakotan.

Grindberg is a board member of the Dakota Medical Foundation, Excel Energy-North Dakota and the Economic Development Association of North Dakota.

Advisory board to explore research and technology economic development

Business leaders from across North Dakota met in Fargo Jan. 28 to explore ways that research and technology can bolster the state's economy. It was the first meeting of the recently-appointed Technology Transfer and Economic Development Advisory Board for the North Dakota Experimental Program to Stimulate Competitive Research (ND EPSCoR).

According to ND EPSCoR project director Mark Sheridan, the board was established to develop strong ties between the state's growing high technology industries and its research universities.

The members will provide guidance on improving technology transfer and developing the role of research in economic development. The board also will help establish and coordinate links between faculty members and industry, while providing advice on student technology transfer internships with North Dakota industries.

Sheridan said the board's efforts, in many ways, will be in step with the direction of Gov. John Hoeven's Jan. 16 State of the State address, which showcased the state's high technology capability as a means of economic development.

"By increasing research activity and partnerships with industry, we will provide technology that will contribute to new businesses and spin-off companies," Sheridan said. "All of that could lead to the creation of new high technology jobs in North Dakota.

"The board will provide advice on how to integrate research into the economy of the state," he added. "We hope to identify and establish university/private sector partnerships which would have a sustained impact on economic development. We also want to devise ways to explore the commercial feasibility of university research."

Advisory board members include Lannie Faleide, president, Igri ImaGIS, Maddock, N.D.; Dana Grow, research and development director, Sioux Manufacturing Corp., Fort Totten, N.D.; Victoria Knudson, marketing director, Aldevron LLC, Fargo; Clint Kopp, president, Triple I, Bismarck, N.D.; and Delore Zimmerman, president, CEO Praxis, Grand Forks, N.D.

Ex officio members include Will Gosnold, director, Office of Research and Program Development, University of North Dakota; and Greg McCarthy, associate vice president for interdisciplinary research, NDSU.

The national EPSCoR program is an effort to assist North Dakota, 20 other states and Puerto Rico build research infrastructure, develop human resources and increase technology transfer from universities to the commercial sector. ND EPSCoR was formed in 1986 as a North Dakota University System program.

Among ND EPSCoR's successful programs is Students in Technology Transfer and Research (STTAR), which provides companies with skills that might not be available for companies in-house. Since the program began in 1994, about 160 students have been placed with 60 companies in 25 communities.

EPSCoR also operates the Faculty In Technology Training program (FITT), where faculty members conduct advanced research projects for North Dakota companies.

NDSU wins CASE awards

The NDSU Alumni Association and NDSU University Relations received seven awards honoring advancement programs and publications at the annual Council for Advancement and Support of Education (CASE) District VI conference in St. Louis Jan. 13-15. The awards recognize excellence in alumni relations, philanthropy and communications. More than 1,200 entries were received this year from institutions in Colorado, Iowa, Kansas, Missouri, Nebraska, North Dakota, South Dakota and Wyoming.

NDSU received the following awards:

Alumni Association

- Alumni Programming, Clubs/Chapters/Branches Programming
NDSU vs. UND satellite football broadcast
Gold Award

- Alumni Programming, Student Advancement Programming
NDSU Bison Ambassadors
Bronze Award

- Alumni Programming, Campus/Constituent Groups Programming
NDSU Student Bash
Silver Award

- Special Events, Community Event
Harvest Bowl
Silver Award

- Alumni Web Sites
NDSU Alumni Association Web site
Bronze Award

University Relations

- Graphic Design, Single Brochure—One, Two or Three Colors
Greek Life Brochure
Silver Award

- Communications, Single Student Recruitment Publication
Viewbook
Bronze Award

CASE is an international association of education advancement officers, who include alumni administrators, fund raisers, public relations managers, publications editors and government relations officers.

NDSU Student Government fundraiser helps Make-A-Wish recipient

Funds raised by NDSU Student Government will help send a young Make-A-Wish Foundation recipient to Walt Disney World.

A Jail 'n' Bail fundraiser, held last November in the Memorial Union, raised more than \$1,650 to help make four-year-old Megan's wish come true. Megan, who suffers from a liver disease that causes jaundice and cirrhosis, told Make-A-Wish volunteers that she wanted to visit Walt Disney World and meet her favorite character, Goofy. Megan and her family live in Fargo.

Established in 1985, Make-A-Wish Foundation of North Dakota has granted more than 300 wishes to North Dakota children. The foundation's sole purpose is to grant wishes to children with life threatening illnesses.

Mapping display featured at NDSU Libraries

"Finding North Dakota: 250 Years of Mapping" is on display at the NDSU Main Library first floor through April 14. The NDSU Libraries Web site featuring many of the maps can be found at www.lib.ndsu.nodak.edu.newsite/Collections/exhibits/maps.html.

Some featured maps include a map of Lewis and Clark's route of 1804-1806; United States of America 1821; Die Vereinigten Staaten von Nord-America 1831, published in Germany; and Official Map of North Dakota 1889.

Sources for the maps are the State Historical Society of North Dakota and the State Archives.

"Finding North Dakota" is part of the Traveling Exhibits Program of the State Historical Society of North Dakota. For more information, contact Shawn F. Holz, SHSND curator of exhibits, at (701) 328-2666 or sholz@state.nd.us, or Michael M. Miller, NDSU Libraries, at 1-8416 or Michael.Miller@ndsu.nodak.edu.

People

Schwartz to work at Olympics

Jeff Schwartz, women's sports information director, will be an interview room supervisor for ice hockey events at the Salt Lake 2002 Winter Olympic Games.

Schwartz, who will work at the Peaks Ice Arena, will be responsible for coordinating all aspects of press conference procedures, including working with media, language services, athletes and others.

"It's a great opportunity for me professionally. I've always wanted to do something like this," said Schwartz, who will be attending his first Olympic Games. "I'm interested in how the infrastructure works, with all the people involved and the number of countries and media organizations.

"I also want to express my gratitude to the members of the NDSU athletics administration and staff, along with my family, for allowing me this opportunity," he said.

Schwartz will leave for the Olympics on Jan. 31 and return on Feb. 25.

Soccer team receives NSCAA team academic award

With a 3.14 grade point average, the 2000-01 NDSU women's soccer team was one of 31 Division II women's programs and 229 schools overall to receive a National Soccer Coaches Association of America (NSCAA) College Division Team Academic Award.

NDSU received the award for the fourth time in five years. To be selected, a team must have a minimum 3.0 grade point average on a 4.0 scale.

Ruley records 550th career win

Women's basketball head coach Amy Ruley reached an important milestone as NDSU beat St. Cloud State University Jan. 19 at the Bison Sports Arena. She recorded career win number 550.

Ruley, who has a 550-138 record in 23 seasons at NDSU, is the second active Division II women's basketball coach to reach the mark. She is the 17th active women's coach at Division I, II or III to win at least 550 games.

"It didn't come easy, but it shows what depth can do," said Ruley, who has guided NDSU to five NCAA Division II championships and coached 12 All-Americans. "Reaching a milestone like this makes me think of all the former players we've had in the program over the past 23 years. The athletes are the ones out there getting it done, and the coaches are getting all the credit."

Pharmacy alumnus named Walgreens chair

David W. Bernauer, BS '67, recently was named chair of the board and chief executive officer of Walgreen Co., Deerfield, Ill.

A graduate of NDSU College of Pharmacy and a 35-year employee with Walgreens, Bernauer, assumed the position of president and chief operating officer in 1999 after holding several administrative positions within the company.

Bernauer also received the NDSU Alumni Achievement Award in 1999 and Doctor of Science Honoris Causa honorary degree in 2000.

Walgreens is the nation's largest pharmacy chain and the fourth largest retailer in the country, filling more than 300 million prescriptions annually with total sales of \$25 billion in 2000. It has more than 3,000 stores in 43 states including Puerto Rico. Walgreens store base has more than doubled in the past decade, and Bernauer's goal is to build the company to 6,000 stores by 2010.

Bernauer and his wife, Mary, live in Lincolnshire, Ill. They have three grown children.

Saxophone quartet takes second place in competition

The NDSU saxophone quartet received second place honors at the Midwest division of the Music Teachers National Association Collegiate Chamber Music competition held Friday, Jan. 11, in Columbia, Mo.

The quartet advanced to the divisional contest by winning an earlier contest held during October in Williston. Quartet members are senior Sara Dau, Wadena, Minn.; junior Jeremy Marquardt, Minot, N.D.; junior Jennifer Braus, Bismarck, N.D.; and freshman Rena Kuch, Hanover, N.D.

The competition included groups from North Dakota, South Dakota, Minnesota, Nebraska, Iowa, Missouri and Kansas. The winning group, a string quartet from Kansas, advances to the national competition, scheduled for March in Washington, D.C.

Events

NDSU to celebrate Black History Month

An African American poet, a discussion about the impact of the Civil Rights movement, and a Soul Food Sampler fundraiser are among the highlights of February's Black History Month celebration at NDSU.

All students, staff and faculty are encouraged to attend the events. "The information that will be presented will be educational to everyone," said Tracy Ekeren, assistant director of Multicultural Student Services. All events will be held on the NDSU campus and are free and open to the public unless otherwise noted.

"For those who aren't African Americans, Black History Month is a chance for people to learn about a different culture," said Brandon Richardson, president of the Black Student Alliance. "Especially in North Dakota, people should be interested in learning about how African Americans have progressed and help society."

The schedule of events, subject to change, is as follows:

Tuesday, Feb. 5

The second annual Soul Food Sampler fund raising event to benefit the Black Student Alliance is scheduled for 11 a.m.-1 p.m. at the NDSU Alumni Center. The menu will feature baked chicken, Hoppin' John (blackeyed peas and rice), collard greens, corn bread, sweet potatoes, tea and fruit punch. Members of the Black Student Alliance will host the event. Advance tickets are \$5 and are available from Black Student Alliance members and at the Multicultural Student Services office, 302 Ceres Hall.

Students will have the opportunity to compete in a Black History Month Knowledge Contest scheduled for 6 p.m. in the Memorial Union Prairie Rose room. Participants will be asked a series of original, thought-provoking questions relating to African American heritage, and the three contestants with the most correct answers will receive prizes. Snacks and beverages will be available. Participants may sign up at the Multicultural Student Services office or by calling 1-1029. The contest is limited to 10 contestants.

Wednesday, Feb. 6

A panel of guest speakers will address the civil rights movement of the 1960s at a brown bag seminar scheduled for noon in the Memorial Union Peace Garden room. Scheduled panelists include Waulene Pennymon, assistant professor in the School of Education; Charles Okigbo, associate professor of communication; Rev. Walter McDuffy, recently retired from Concordia College; and NDSU alumnus Thomas Jefferson.

"Finding Forrester," the acclaimed motion picture starring Sean Connery and Rob Brown, is scheduled for 7 p.m. in the Memorial Union Century Theater. The film tells the story of Jamal Wallace, a basketball star attending an inner-city high school, whose test scores prompt a local prep school to offer him a scholarship. Wallace finds himself caught between his white classmates and professors and his former classmates and basketball friends who can't understand his seeming desertion and passion for writing. In the process, Wallace meets neighborhood recluse and famous author, William Forrester, who mentors Wallace in the search for identity and acceptance. The screening is sponsored by NDSU Campus Attractions.

Thursday, Feb. 7

Health specialist Pat Conteh will discuss "Health Issues for Minority Students" in the Memorial Union Peace Garden Room from noon to 1 p.m. This program will address issues related to diseases among African Americans. Conteh is a nurse practitioner at the NDSU Student Health Center.

Friday, Feb. 8

A "Poetry Slam," hosted by Richardson, is scheduled for 9-11 p.m. at MU Live in the Memorial Union. Hors d'oeuvres will be served and prizes will be awarded to the top poets. Everyone is welcome to recite their original poetry or prose.

The film, "Finding Forrester," will be repeated at 7 p.m. and 9:30 p.m. in Century Theater.

Monday, Feb. 11

The documentary "A Question of Color" is planned for 7 p.m. in the Century Theater. The hour-long program was the first film to confront "color consciousness" in the black community. It explores the effect of a caste system based on how closely skin color, hair texture and facial features conform to a European ideal. A discussion will follow the film.

Tuesday, Feb. 12

A Black History Month banquet is scheduled for 5:30 p.m. in the Memorial Union Gallery. The event will be hosted by Multicultural Student Services; however due to limited seating this event will be by invitation only.

African American poet Marc Bamuthi Joseph is scheduled to perform at 7:30 p.m. in Festival Concert Hall. Bamuthi infuses oral and dance traditions with hip-hop delivery, creating performance pieces that celebrate the spoken word and punctuate each sentence with spirited tap dance. Since winning the 1999 National Poetry Slam, he has developed, produced and hosted the nation's largest multimedia poetry slam, Second Sundays. His performance is sponsored by NDSU Campus Attractions.

Wednesday, Feb. 13

A YMCA of NDSU brown bag seminar addressing hate crimes is scheduled for noon in the Memorial Union Peace Garden room. Panelists include NDSU student Baringthon Brudey; Tim Lee, NDSU police chief; William Nganje, assistant professor of agricultural economics and Karla Thoennes, Residence Life associate director.

Thursday, Feb. 28

The film "Daughters of the Dust" is scheduled for 7 p.m. in the Century Theater. Written and directed by Julie Dash, the film tells the story of a West African Gullah family's migration from Sea Island to the mainland, their struggle for survival and escape from poverty. Before the movie, the tradition of oral storytelling will be discussed by Phyllis May-Machunda, assistant professor of humanities and multicultural studies at Minnesota State University Moorhead. The event is presented in conjunction with NDSU Women's Week.

Event programs are sponsored by the Black Student Alliance, Multicultural Student Services, Campus Attractions, the Women's Week Committee and the YMCA of NDSU.

For more information, call Multicultural Student Services at 1-1029.

Wheat tan spot and spot blotch workshop scheduled

The fourth international Wheat Tan Spot and Spot Blotch Workshop is scheduled for July 21-24 at the Northern Inn Hotel and Conference Center, Bemidji, Minn.

The workshop will include demonstrations, presentations and discussion on the continued importance of wheat diseases. Topics will include epidemiology, disease management, breeding for resistance, toxicology and host-parasite genetics. A trip to the Lake Itasca Biological Research Station also is planned.

Details may be found on the Web at www.ndsu.nodak.edu/instruct/francl/workshop/index.htm. Further details will be posted on the site as they become available.

For more information, contact Leonard Francl, professor of plant pathology, at 1-7079 or leonard.francl@ndsu.nodak.edu.

Shorts and Reminders

February Staff Senate meeting scheduled

The next Staff Senate meeting is scheduled for 9:30 a.m. Wednesday, Feb. 13, in the Memorial Union Prairie Rose room. The program will include an update from President Joseph A. Chapman and a presentation by NDSU archivist Michael Robinson.

Union Food Court specials for Jan. 30-Feb. 6

Soup of the day

Wednesday: minestrone and cheeseburger
Thursday: Wisconsin cheese and Southwestern chicken chili
Friday: clam chowder and meatball
Monday: wild rice and vegetarian spaetzle
Tuesday: baked potato and navy bean
Wednesday: zesty Italian and chicken tortellini

The Corner Deli

Wednesday: roast beef
Thursday: turkey club
Friday: chicken
Monday: turkey
Tuesday: beef and cheddar wrap
Wednesday: ham

A La Carte

Wednesday: chicken chow mein
Thursday: hand-carved turkey
Friday: baked potato bar
Monday: grilled chicken alfredo
Tuesday: hot ham and cheese wrap
Wednesday: hand-carved roast beef

Pizza Express

Wednesday: meatball
Thursday: Southwestern chicken
Friday: Red River
Monday: creamy garlic chicken
Tuesday: Tuscany
Wednesday: once around the kitchen

*Items are subject to change without notice. Call the Dining Services Lunch Line at 1-9501 to check out all of our daily specials. Questions or comments may be dropped in the suggestion boxes located in each dining center and the Union Food Court or call Kristina at the Union Buffet at 1-8122.

Position openings

Positions open and screening dates through the Office of Human Resources, Room 205, Old Main:

P.M. Cook/#1093
12 months; 40 hours/week
10:30 a.m.-6:30 p.m.; M-F; rotating weekends
Dining Services-Union Dining Center
\$8/hour
Feb. 6

Computer Repair Tech/#4232
Varsity Mart
\$23,000/year
Feb. 5

Linux/Java Computer Programmer
Climatology/Soil Science
\$35,000-\$47,000/year
Feb. 12

Residence Hall Director
Residence Life
\$22,000/year plus partially furnished apartment, meal plan and benefits
Open until filled

Lab Technician
Cereal and Food Sciences
\$22,000/year (two-year position)
Jan. 31

Ruminant Nutrition Technician/Graduate Program/#1459
Animal and Range Sciences
\$22,000 minimum/year (80 percent FTE)
April 15 or until filled

Research Specialist/#5111/#5118
Animal and Range Science
\$26,000+/year commensurate with education and experience
Open until filled

Position openings also are available through the NDSU Web site at www.ndsu.edu/jobs.

Calendar

January

- Through Feb. 6 Exhibit—"Crossed Borders," University of Manitoba/NDSU art exchange, Reineke Visual Arts Gallery
- 30 Little County Theater—Auditions for "The Good Person of Setzuan," 6-10 p.m., Askanase Hall
