

Residence hall groundbreaking set

Groundbreaking ceremonies for NDSU's new \$8 million residence hall have been scheduled for 10 a.m. Thursday, May 2. The "Living/Learning Center" will be located north of the Wellness Center along 18th Street North.

The program will feature comments by President Joseph A. Chapman; George Wallman, vice president for student affairs; Prakash Mathew, dean of student life; and Jonas Peterson, student body president. Michael Harwood, director of residence life, will serve as the master of ceremonies.

In the event of inclement weather, ceremonies will be held at the NDSU Alumni Center.

The Living/Learning Center is the first new residence hall built at the university since the completion of Pavek Hall in 1987. The center will have four floors, a pitched roof and encompass 68,000 square feet. It will have a capacity of 168 beds in 70 studio apartments and 24 four-bedroom apartments. The studio apartments will have a kitchenette, closet and bathroom, and be equipped with data ports for Internet access, cable television and air conditioning. The building also will include two classrooms.

The center is anticipated to be completed in June 2003, and ready for use for the 2003 fall semester.

"The new building will meet critical shortage and long-term needs," said Harwood. "Accordingly, the building committee and architect consulted closely with a broad range of students and NDSU personnel."

Harwood said the building will be the home of upper class students and graduate students. "We talked with focus groups and found that privacy is an important issue with these students. Upper class students want to come home from their classes and have all the amenities right there in their rooms," he said, noting that the structure is intended to be a contemporary, residential design.

The center's building committee includes Mathew; Harwood; Peterson; Dynelle Volesky, architecture student; Bruce Frantz, Physical Plant director; Laura Oster-Aaland, director of Orientation and Student Success; Dick Drinka, coordinator of facilities, maintenance and projects; Susan Ray-Degges, associate professor of apparel, textiles and interior design; and architect Richard Moorhead.

The project's architects are the Image Group Inc. The general contractor is T.F. Powers Construction Co., Bergstrom Electric Inc. is the electrical contractor and Manning Mechanical Inc. is the mechanical contractor.

Library return reminder

NDSU Libraries reminds faculty, staff and students to return library materials before leaving for the summer.

Users may obtain a summary listing of library materials checked out, overdue items, holds, status of ILL material and fines by using the online catalog command. In WebPALS, select the Library catalog and click on "Patron Info Page." When prompted, provide the barcode and password (last name).

For more information call the Circulation Desk at 1-8888.

Division I open forum scheduled

An open forum to discuss NDSU's potential reclassification to NCAA Division I with athletic directors Gene Taylor and Lynn Dorn is scheduled for 3:30 p.m. Wednesday, April 24, in the Memorial Union Century Theater. All faculty and staff are invited.

Women student leaders applications sought

Applications are being accepted until 5 p.m. Wednesday, May 1, from NDSU women students who are in a leadership role or have leadership aspirations to attend the National Conference for College Women Student Leaders scheduled for June 5-9 at American University, Washington, D.C. Applications are available in the Student Activities Office, and conference information is found online at www.aauw.org/9000/nccwsl. For more information, contact Janine Thull, associate director of the Memorial Union, at Janine.Thull@ndsu.nodak.edu or 1-7799.

Varsity Mart sidewalk sale set

The Varsity Mart has scheduled a sidewalk sale for 9 a.m.-4 p.m. Monday, April 29, and Tuesday, April 30. Selected items from all departments will be on sale.

NDSU Research Foundation to commercialize new soybean variety

The NDSU Research Foundation has announced a license agreement with Monsanto to commercialize NDSU's first soybean variety with the Roundup Ready trait. The "RG200RR" variety, recently announced by the North Dakota Agricultural Experiment Station, was developed through the work of NDSU soybean breeder Ted Helms under research agreements with Monsanto.

The commercialization of the variety is part of a new program called "Roughrider Genetics," a trademarked brand name established for the marketing of licensed or proprietary varieties owned and managed by the NDSU Research Foundation.

"This is another way that NDSU is providing varieties in a manner that many of our constituents want," said Dale Zetocha, NDSU Research Foundation executive director, noting more than 2 million acres of soybeans were planted in North Dakota during 2001. "Roundup Ready soybeans have become more popular in the United States, as well as North Dakota. Well over half of the soybean acreage in North Dakota is planted with Roundup Ready seed, primarily privately developed varieties up to this point."

The Roundup Ready gene and trait are owned by Monsanto, while the new soybean variety is owned by the NDSU Research Foundation.

"We feel that because of the uniqueness of the varieties from NDSU, with much of the focus on early maturing, that these varieties will fit well into the marketplace," Zetocha said.

Zetocha said there will be a structured, controlled licensing program for the RG200RR variety. He said the NDSU Research Foundation has 23 licensed growers in North Dakota and Minnesota who are eligible to receive foundation seed this spring. With the release of the variety, it is anticipated that certified seed may be available to North Dakota and Minnesota farmers for the 2003 growing season.

Zetocha said this may be the first of several Roundup Ready soybean varieties that will be commercialized under the Roughrider Genetics program. "It is a licensing program that is intended to meet the seed needs of licensed growers, NDSU and Monsanto, which owns the proprietary Roundup Ready gene," he said, noting that he anticipates future Roughrider Genetics releases may include other varieties containing proprietary technology.

"We anticipate an additional variety next year and one or two the following year," Zetocha said. "We look for continued release of varieties with Roundup Ready traits beyond that."

Health insurance guidelines for faculty and staff explained

Departments are asked to use the following guidelines regarding health insurance for faculty and staff members who are either separating from or starting work at the university at the end of the school year. Separations include resignations, retirements and non-renewals.

Normal separations: NDSU-paid coverage extends one full month after the month of the employee's last day of work or end of agreement. For example, an employee with an August 16-May 15 schedule would have coverage through June 30. This includes employees who give notice later in the summer that they will not be returning. In those cases, Blue Cross Blue Shield will refuse any claims incurred after June 30. If claims have been covered prior to the notice of separation, Blue Cross Blue Shield will contact the employee for their new health insurance company information or for direct reimbursement if no new coverage exists.

Summer School: Faculty members whose regular employment terminates May 15, but teach summer school, have insurance coverage one full month following the month in which summer session ends. For example, someone teaching first session only would have coverage through July 31. Someone teaching second session would have coverage through Aug. 31.

Late non-renewals: Occasionally, NDSU does not know until late in the summer that it will not be able to renew an agreement with an employee. In those rare cases, the affected employee remains covered under the plan until the end of the month in which the decision to non-renew is made.

New Hires: The insurance always begins on the first day of the month following the date of employment. For example, if an employee begins employment Aug. 15, insurance coverage starts Sept. 1. If employment begins July 1, insurance coverage begins Aug. 1.

NDSU continues to provide insurance over the summer months for all nine-, 10- and 11-month appointments unless the employee leaves the university.

After NDSU-paid coverage ends, employees may remain on the plan for a period of either 18 or 36 months under the federally mandated Consolidated Omnibus Budget Reconciliation Act (COBRA) law. Those choosing the COBRA option must pay their premiums directly to PERS. Current COBRA rates are \$194.13 for single coverage and \$479.17. Questions should be directed to Lyn Pletta at 1-8965 or lyn_pletta@ndsu.nodak.edu.

Safari Tech 'eBook' trial available

A trial of the Safari Tech Books Online e-book collection is available from the NDSU Libraries through May 15.

Safari Tech Books Online offers researchers the opportunity to read, consult and simultaneously search a collection of more than 1,500 information technology books. The site offers current e-books from premier information technology publishers such as O'Reilly, Pearson Technology Group, Addison-Wesley Professional, Adobe Press, Cisco Press, New Riders, Peachpit Press, Prentice Hall PTR, Que and Sams. Topics include technical books, books on source codes, programming, software guides, web administration, business reference and other information technology topics.

The collection can be accessed through the "eBooks" link on the Libraries' Web page at www.lib.ndsu.nodak.edu. Authentication by IP address is required, and includes the NDSU modem pool.

For more information, call the Reference Desk at 1-8886, or contact your subject librarian.

Campus construction, steam shutdowns scheduled

An extensive project to replace buried campus steam lines damaged by the June 2000 flood is planned for this summer. The project includes the removal of existing steam lines, vaults and building connections, and installation of new waterproof vaults and a higher efficiency steam distribution system. The buildings included in this project are Minard Hall, South Engineering, Library, Putnam Hall, Burgum Hall, Old Main, CI Nelson Hall, Ceres Hall, Dinan Hall, Memorial Union, Shepperd Arena and Wiidakas Lab. The majority of the work is scheduled to begin after commencement.

Physical Plant personnel will make every effort to schedule the project to minimize disruption and inconvenience. However, extended road, sidewalk and entrance shutdowns are expected.

Some of the major areas affected are:

- Administration Avenue and the east sidewalk from Centennial Boulevard to the south end of the Memorial Union
- West entrance of Memorial Union
- Memorial Union dining center loading dock
- Bolley Drive between Wiidakas Lab and Shepperd Arena
- Southbound Albrecht Boulevard and sidewalk east of Shepperd Arena
- Sidewalk between the heating plant and Minard Hall
- Albrecht Boulevard and sidewalks between Minard Hall and South Engineering
- Sidewalks north of Minard Hall
- Administration Avenue and sidewalks southeast of South Engineering
- Portions of the main entrance to the Library
- Sidewalks between South Engineering and Old Main
- Sidewalks between Old Main and Putnam Hall
- Sidewalks between Putnam Hall and Burgum Hall
- Administration Avenue and sidewalks northwest of Old Main
- Southeast corner and entrance to the SU parking lot
- South entrance of CI Nelson Hall
- Sidewalks between CI Nelson Hall and Ceres Hall
- Sidewalks between Ceres Hall and Dinan Hall
- East entrance to Dinan Hall

Some steam shutdowns also are planned. A campuswide shutdown, necessary to tie the new system to the steam plant, is scheduled to begin May 13 and is expected to last approximately one week. During that time, other repairs in the steam tunnel from Centennial Boulevard to 15th Avenue North also will be completed. Following the campuswide shutdown, a temporary bypass bringing steam to the southeast section of campus, the line from Dinan Hall to Churchill Hall, Centennial Boulevard and the main line between the heating plant and Centennial Boulevard will be used. The main line between the heating plant and Centennial Boulevard will remain shut down for about one week for other repairs. Steam is expected to be back on throughout the system by May 27.

Intermittent shutdowns to individual buildings for installation should be expected. Those affected by shutdowns will be notified in advance. A comprehensive construction schedule is currently being developed, and updates on the construction schedule and road closures will be sent to each department.

For safety reasons, Physical Plant personnel request that people stay clear of the work zones.

Work is expected to be completed by the start of fall semester. Any questions should be directed to the Physical Plant at 1-7911.

Guidelines explained for hiring underage employees

Departments hiring summer workers under the age of 18 should be aware of employment guidelines set by the Fair Labor Standards Act, which restricts the type of work that can be performed by youth ages 14 to 17.

Workers ages 16 and 17 may work at anytime for an unlimited amount of hours in positions declared not hazardous. Hazardous occupations include work that requires the operation of any motor vehicle, certain types of power-driven machinery or various power-driven hoisting apparatus. Also included are jobs working with radioactive or explosive materials.

Workers ages 14 and 15 may work no more than three hours on school days and eight hours on non-school days. Total work hours is limited to 18 during school weeks and 40 during non-school weeks. Work hours must be between 7 a.m. and 7 p.m. except between June 1 and Labor Day when the evening hour extends to 9 p.m. A variety of non-hazardous jobs are acceptable including office, food service, cleanup, and errand and delivery work by foot, bicycle or public transportation. All hazardous jobs are prohibited, including work that requires the operation of power-driven machinery, and work connected with warehousing, storage, transportation, communications and construction. Minors under age 16 also may not work in agricultural occupations declared hazardous by the Secretary of Labor.

Youths under age 14 may not work for NDSU.

Although not required by federal law, work permits must be obtained for all NDSU employees under age 18 to avoid unintentional violations of child labor laws.

For more information about child labor regulations or definitions of hazardous occupations, contact the NDSU Office of Human Relations at 1-8788.

Health insurance enrollment notice

Employees who did not enroll in the PERS group health plan during their initial 31-day eligibility period when hired, or did not enroll within 31 days of a qualifying event, may apply for coverage during May. Individuals enrolling may be subject to a 12-month pre-existing condition clause. Coverage becomes effective July 1.

The required paperwork is available in the Office of Human Resources, Old Main 205, and must be received in human resources by the May 31 deadline.

NDSU employees who are currently enrolled may make changes in their health insurance providers during the open enrollment period May 1-June 15. Anyone wishing to switch from the Preferred Provider Plan to the Exclusive Provider Plan or vice-versa should complete the required paperwork in the Office of Human Resources, Old Main.

Questions should be directed to Lyn.Pletta@ndsu.nodak.edu or 1-8965.

Public computer cluster software changes announced

Information Technology Services has announced several software upgrades for the public computer clusters effective fall semester.

Software application needs for faculty, staff and students are assessed annually by the University Senate's Computer Information Technology Planning and Goals (CITPG) standing committee and ITS. This year's changes include upgrades to Windows XP and MacOS X operating systems. The new systems will require users to log in using the same log-in and password used for NDSU e-mail in order to use a cluster computer.

The entire list of software supported in the public clusters is at www.ndsu.nodak.edu/its/resources/docs/clusters/software.shtml.

The planned software changes are:

PC

- Windows—Upgrade to Windows XP
- Adobe InDesign—Upgrade to version 2.0
- Adobe Photoshop—Upgrade to version 7.0
- ARC/View—Upgrade to version 8.1
- AutoCad—Upgrade to 2002
- MS Visual Basic—Remain at version 6.0
- MS Office—Upgrade to XP
- OmniPage—Upgrade to version 11
- Borland C++ Builder—Upgrade to version 6
- SPSS—Upgrade to version 11
- Painter—Upgrade to version 7.0
- MiniTab—Version 13 added to PC platform (Replacement for the Mac version which will not run under Mac OS X)

Macintosh

- MacOS—Upgrade to Mac OS X
- Adobe InDesign—Upgrade to version 2.0
- Adobe Photoshop—Upgrade to version 7.0
- MS Office—Upgrade to X
- OmniPage—Upgrade to X
- MiniTab—Switched to PC platform
- Dreamweaver 4.0—Will be removed fall semester due to incompatibilities with MacOS X
- Painter—Upgrade to version 7.0
- Netscape—Will be removed from clusters as Netscape 4.0.8 is not supported under MacOS X and Netscape 6.1 is not stable
- MiniCad 7—Will be removed fall semester due to low usage and incompatibilities with MacOS X
- Claridraw—Will be removed fall semester due to low usage and incompatibilities with MacOS X
- Adobe Premiere—Upgrade to new version is planned if released before July 1. Not provided for Windows machines.

Requests for software installation of software can be made online at www.ndsu.nodak.edu/its/depts/clusters/software_installation_request.shtml.

Faculty who have software installed on the PC clusters must make sure that their software will run under the new Windows XP or MacOS X platforms. ITS will only support MacOS X in "normal" mode, and will not support "classic" mode. Programs requiring classic mode will not be installed. Faculty who have software installed on the Macintosh clusters must make sure their software will run under MacOS X without requiring classic mode.

Any faculty and students having difficulty testing software installations should contact Jim Ross, data processing administrator in ITS, at 1-9722 or james.ross@ndsu.nodak.edu.

Faculty, staff assistance program available

The Village Family Service Center provides services for faculty and staff through the NDSU assistance program. The program provides problem assessment, short-term counseling and referral to community resources for NDSU employees at 15 offices in North Dakota and Minnesota. Service also is available nationwide.

Benefited faculty and staff and their immediate family members are eligible to receive services. Assistance is available for marital and parenting concerns, emotional crises, financial and legal difficulties, substance abuse evaluations and work-related problems.

Employees may arrange appointments with a counselor by calling The Village at 1-800-677-8220 or locally at 235-6433.

For more information, contact the Office of Human Resources or The Village.

Faculty and staff should continue to refer students in need of services to the Counseling and Disability Services office located in Ceres Hall.

Student body president elected

In elections held April 3-4, James Burgum and Aaron Schwengler were chosen as the next student body president and vice president. They defeated the slate of Christopher Haman and Josh Boschee by a vote of 641 to 550.

Burgum is a senior from Casselton, N.D., majoring in business administration. Schwengler is a junior from Bismarck, N.D., majoring in political science.

The ticket of Brad Thurow and Kendra Faiman received 268 votes, and Ben Lee and Nathan Davis received 135 votes. Write-in candidate Dan Sattler received eight votes and Tom Neuharth received one vote.

The election was conducted using both electronic and traditional paper ballots. A total of 1,659 ballots were cast.

A complete list of election results can be viewed at www.ndsu.edu/studentgovernment/.

'Carbon World' wins professional communicators award

"Carbon World," the annual publication of the NDSU English Club and the Scholars Program, won the journal category of the 2002 North Dakota Professional Communicators College Communications Contest. Awards are set to be presented May 4 in Jamestown.

"Carbon World" is a collection of poems, essays and short stories written by NDSU students and faculty. The winning issue was published last year, and was edited by Conor Shenk, Tanja Leung, Kendra Faiman, Kaitlin R. Johnson, Amy Watkin, Jason Lord, Kimberley Sjurseth, Shawn Fisher, Kristi Lang and Casey J. Murrish. The faculty adviser was Julie Bergman.

A limited number of the issue is still available for sale in the English department at a cost of \$6. This year's edition will be available the first week in May.

NDSU Concert Choir featured on F-M Symphony recording

The NDSU Concert Choir is featured on the Fargo-Moorhead Symphony's compact disc recording of the September 2001 performance of Brahms' Requiem held at NDSU's Festival Concert Hall.

The recording is dedicated to the people affected by the events of Sept. 11.

Also appearing are the F-M Chamber Chorale, and soloists William Stone and Jane Jennings, who joined the symphony in performing the Brahms Requiem.

Other pieces performed and included on the recording are Verdi's Overture to La Forza del Destino; Suite from Pelleas et Melisande; Faure's Opus 80; and The Pines of Rome, by Ottorino Respighi. The symphony was conducted by Joel Revzen.

Under the direction of Jo Ann Miller, associate professor of music, the Concert Choir has performed at state, regional and national music conventions. They have appeared with various regional orchestras, and are the featured choir at NDSU's Baroque Festival each November.

The compact discs are \$20 each, and are available by calling the NDSU Division of Fine Arts office at 1-7932 or the F-M Symphony office at 233-8397.

People

Walesa calls for 'globalized' economic, political system

Nobel Peace Prize winner Lech Walesa says democracy needs "adjustments" in the 21st century. Walesa, the former president of Poland, was the featured speaker at the Tri-College Human Rights Conference, "Human Rights and Democracy," April 17-18 at NDSU, Concordia College and Minnesota State University Moorhead.

Speaking through an interpreter at an April 18 news conference at the NDSU Alumni Center, Walesa said he would like to witness the creation of new economic and political system for the globalized world.

"I would like to participate in the remodeling the United Nations to fulfill the role of a global parliament, the Security Council into a global government and NATO to be transformed into a ministry of global defense," he said. "May we then allow these institutions to deal with the inconvenience and awkward problems in the world. That could include such difficult and challenging issues as the conflict between Israel and Palestine."

Walesa first received world attention in 1980 during the Lenin Shipyard strike in Gdansk, Poland, when workers demanded the right to organize trade unions. The strike, which became known as "Solidarity," spread to factories across Poland. Walesa was named Man of the Year by such publications as Time magazine, The Financial Times and the London Observer. He was honored with the Nobel Peace Prize in 1983.

Former N.D. Gov. George Sinner introduced Walesa at the news conference. "Today, Poland is light years ahead of the rest of that part of the world in their progress toward a free society and open democracy. There is only reason—this man. He is one of the heroes of our time and certainly one of the heroes of the freedom of the Eastern Bloc," Sinner said of Walesa.

Walesa was elected president of Poland in 1990, receiving more than 74 percent of the votes cast. He now heads the Lech Walesa Institute, which strives to advance democracy and free market ideals throughout Eastern Europe and elsewhere.

FIEL fellows honored

Craig Schnell, vice president for academic affairs, acknowledged 42 fellows of the Faculty Institute for Excellence in Learning (FIEL) during ceremonies held April 23.

The fellows were selected on the recommendation of the Next Generation Interactive Classrooms (NGIC) Committee for their commitment to enhance teaching and learning at NDSU.

Fellows will receive training in active/cooperative learning (ACL) in general and problem-based learning (PBL) this summer. Fellows will receive a stipend for implementing ACL/PBL in their courses.

Cheryl Wachenheim, assistant professor of agricultural economics; Elizabeth Birmingham, assistant professor of English; Wayne Reitz, assistant professor of mechanical engineering; Marc Anderson, assistant professor of biological sciences; and Carolyn Schnell, director of university studies, are set to develop in-depth PBL materials for their classes, and will assist FIEL director Sudhir Mehta, professor of mechanical engineering, in leading and administering the institute's activities.

Other fellows are Luis Del-Rio, Kirk Howatt, Douglas Blanks Hindman, Steven Venette, Kevin Brooks, Jo Cavins, Bob Heame, Judy Gelinske, Louise Hall, Deona McEneryl, Cindy Nichols, Ineke Justitz, Tom Ambrosio, Rooth Varland, Krishnan Ramaya, Lowell Disrud, Mohammed Elnahas, Don Faulkner, Carol Prafcke, Amiy Varma, Hung Nguyen, Joydeep Mitra, Oc-Hyun Cho, Robert Pieri, Rebecca Amundsen, Linda Manikowske, Everett Bailey, Candace Philbrick, Lynette Winters, Sherri Driscoll, Lisa Daniels, DeAnn Miller-Boschert, Kathy Enger, Char Myhre, Ron Hutchinson, Mary Stewart and Rob Arthur.

This event is sponsored by the Faculty Institute for Excellence in Learning with a grant from the Bush Foundation to promote active learning in classrooms. For more details, visit www.ndsu.nodak.edu/instruct/mehta/bush or contact Mehta at 1-7871.

Bromley invited to contribute to Temple Beth El auction

Kimble Bromley, associate professor of art, was one of several regional artists invited to submit works of art for the Temple Beth El silent auction held April 13. Auction proceeds benefit the temple.

Bromley has served as a visiting artist throughout the upper Midwest and in Ecuador and Mexico. He is a member of the College Art Association of America, Chicago Artists' Coalition, Art Advisory Council to the Kentucky Arts Council, Partners of the Americas, Center for Cuban Studies and Chicago Art Institute.

Mehta named ASEE national fellow

Mehta

Sudhir Mehta, professor of mechanical engineering, has been selected as a Fellow of the American Society of Engineering Education. The 2002 Fellows will be recognized at the organization's annual award banquet June 19, which will be held in conjunction with the society's annual conference and exposition in Montreal.

"It is an honor to be named a Fellow," said Mehta, noting he has been a society member for 14 years. "Engineering education is at the heart of many of the things I do, and to get recognition from the professional organization is wonderful and humbling."

Mehta said he knows of no other person in North Dakota who has received the fellowship.

Mehta was notified of the honor in an April 12 letter from ASEE president Gerald S. Jakubowski. According to Jakubowski, Mehta's selection was initiated by a nomination, and then evaluated by the Fellow Member Committee. The ASEE Awards Policy Committee confirmed the selection.

Lifton presents at theater conferences

Paul Lifton, associate professor of theater arts, was part of a panel addressing the topic "Teaching Non-Western Theater" at the Theater East and West Conference held April 4-6 at Pomona College, Claremont, Calif.

Lifton also is scheduled to present the paper, "Stirring Up Shadows: Cross-Cultural Catharsis in a Joint Creative Venture by American and Balinese Performing Artists," at the 26th Comparative Drama Conference April 25-27 at Ohio State University, Columbus.

Lifton has been at NDSU since 1988. He teaches theater history and literature, acting, directing and world theater. He also serves as the associate director for academics in theater arts, and as stage director for Little Country Theater productions.

Lifton is the author of "Vast Encyclopedia: The Theater of Thornton Wilder," and has published various articles and essays on Wilder.

Johnson speaks at barn preservation workshop

Dexter Johnson, professor emeritus of agricultural economics, was one of the featured speakers at the third annual Minnesota Barn Preservation Workshop held April 20 at FarmAmerica, Minnesota's Agricultural Interpretive Center, near Waseca, Minn.

Johnson provided practical information about adapting old farm buildings to modern farming practices.

The workshop was intended for barn owners, agricultural engineers and contractors, historians and preservationists, and explored ways to solve technical issues encountered during the rehabilitation of old or historic barns.

NDSU team places fourth in Moonbuggy Race

A team of NDSU mechanical engineering students placed fourth in the ninth annual Great Moonbuggy Race at the U.S. Space and Rocket Center, Huntsville, Ala., April 12-13. A total of 23 universities and 27 high schools participated.

The collegiate-level race was won by a team from Cornell University, Ithaca, N.Y. Another Cornell squad placed second and a team from the University of New Orleans placed third.

"Considering the number of teams and the quality of drivers and riders, we did excellently. I am very pleased with the outcome," said team adviser Mohammad Mahinfalah, associate professor of mechanical engineering, noting NDSU finished four seconds out of third place and 13 seconds behind the second place finisher. "The students were awesome in their performance, and they got a lot of nice comments about the design of their buggy."

The vehicles were powered by two team members, one male and one female, and raced over a half-mile obstacle course of simulated moonscape terrain.

The NDSU team included students Nathan Wourms, Natalie Halstenggaard, Noel Morsch, Scott Nelson and Benjamin Richard.

NDSU historians present papers

Claire Strom, assistant professor of history, presented "Editorials and Explosions: The Role of the 'Dahlonga Nugget's' Editor in Grassroots Opposition to Tick Eradication in Georgia, 1915-1920," at the Organization of American Historians' meeting April 10-12 in Washington, D.C.

The paper represents part of a larger work being developed by Strom that addresses the violent resistance of some farmers in the American South to the eradication of the cattle tick in the first half of the 20th century.

Seven students from the NDSU chapter of Phi Alpha Theta, a national history honors society, presented papers at the regional Phi Alpha Theta meeting held April 18 in Vermillion, S.D. Student presenters were Andrea Swenson, "The Russian Frontier: Father Veniaminov in Alaska, 1824-1834;" John Ristvedt, "Where have the Anasazi Gone?;" Matthew Larson, "Reasons for the Failure of Franciscan Missionaries to Convert the Apache Tribes of New Mexico and Texas in the Eighteenth Century;" Andrew DeCock, "The Doolittle Raid: Response to the 'Day of Infamy;'" Erin Strehlo, "The Changing Role of the Women's Christian Temperance Union after Repeal of National Prohibition;" Kelli Ihry-Hodem, "Recreation in LaMoure County in the 1940s;" and Mike Rogers, "The Purge of 1955." Graduate student, Matthew Taylor, also participated. Strom and Tom Isern, professor of history, accompanied the students

Gunkelman Award ceremony scheduled

Ceremonies to present the 2001-02 Mary McCannel Gunkelman Recognition Award are scheduled for 3 p.m. Wednesday, April 24, at the Alumni Center. A total of 50 people have been nominated for the honor which recognizes the person who has made the most significant and unselfish contribution to creating a happy environment for the enjoyment of NDSU students.

Nominees include Jennifer Aerni, Residence Life; Donna Alby, mechanical engineering; Tara Anderson, payroll; Mary Artz, Memorial Union Dining Center; Irene Askelson, Ehly Hall library; Carol Bessire, ID Card Center; Oscar Blaskowski, electrical and computer engineering; Gary Clambey, biological sciences; Joanne Cook, apparel, textiles and interior design; Peggy Cossette, dean's office, College of Human Development and Education; Dorothy Davis, accounting; Tom DeBlauw, Residence Life; Lynn Ehlen, Varsity Mart; Amy Ellwein, animal and range sciences; Beth Fiechtner, Counseling and Disability Services; DeAnn Galde, student; Jean Hagen, aerospace studies; Anastasia Herkowski, student; Miranda Hvinden, student; Carole Huber, computer science; Maxine Iwen, Residence Life; Nancy Kaler, child development and family science; Robyn Kraft, student; Jennifer Krueger, Residence Life; Megan Murray, Memorial Union; Prakash Mathew, Student Life; Suresh Mathew, Varsity Mart; Carol McClafflin, School of Education; Hortense Momou, student; Carolyn Nelson, Varsity Mart; Judy Normann-Johnson, statistics; Tara Nygaard, student; Gloria Oswald, Varsity Mart; Kim Overton, School of Education; Kelly Paynter, communication; Marcia Pepper, dean's office, College of Engineering and Architecture; Robert Pieri, mechanical engineering; Tammie Reger, TRIO Programs; Jamie Rust, student; John Sandland, Residence Life; Tyler Schmautz, student; Deanna Sellnow, registration and records; Margaret Skolness, modern languages; Mary Stoa, mechanical engineering; Mary Tintes, Division of Fine Arts; Linda Trzruc, telecommunications; Amy Vansurksun, international programs; Marliese Wallat, Residence Dining Center; Dolly Wadholm, Varsity Mart; and Iveta Ziegelbauer, Residence Life.

The award was established in 1987 with the first award in 1989 in honor of Mary McCannel Gunkelman, who died in 1985. She was a 1942 graduate of the NDSU College of Home Economics. Funds were provided by the late John Gunkelman and his family. The endowment now totals more than \$17,000 and is open to additional contributions.

Students to participate in vehicle design competitions

The NDSU student chapter of the Society of Automotive Engineers (SAE), is involved with this year's Formula SAE and Mini-Baja collegiate vehicle design competitions. Both competitions attract more than 100 teams annually from universities throughout the United States and Canada, as well as teams from Europe, Asia and Central America.

The Formula SAE competition includes conceiving, designing, fabricating and competing with small formula-style race cars. The competition, held in the Silverdome, Pontiac, Mich., includes several judging categories such as engineering design, cost and performance. The NDSU team plans to compete in the May event.

The group also is in the early stages of construction on a redesigned vehicle for next year's Mini-Baja competition.

Participants must design and build a four-wheel, single-seat, off-road recreational vehicle prototype, intended for use by non-professional off-road enthusiasts. Vehicles, which must be safe, easily transported and maintained and economical to build, also are judged on engineering design, cost and performance. The NDSU team last competed in the April 2001 event.

For more information, contact SAE adviser, Alan Kallmeyer, associate professor of mechanical engineering, at 1-8835 or alan.kallmeyer@ndsu.nodak.edu.

Nelson selected for national committee

State Sen. Carolyn Nelson, senior lecturer of mathematics, has been named to the Assembly on State Issues (ASI) Criminal Justice Committee by the National Conference of State Legislatures (NCSL).

ASI is comprised of several committees that study specific policy issues. It serves as a major forum for the exchange of ideas and information among state legislatures. The committee will examine such issues as law enforcement, sentencing, juvenile justice, prisons and jails, probation and parole, crime victims and the courts.

"These issues are of great interest and concern in North Dakota and the region," Nelson said. "I am honored by the confidence NCSL and the leadership of the North Dakota Legislature has shown in me in helping to address this important issue."

NCSL executive director William Pound said, "NCSL's committees provide our organization with valuable information and direction."

Founded in 1975, NCSL is a bipartisan organization of legislators and legislative staff in the nation and its territories and commonwealths.

Nelson was minority caucus leader during the 2001 session and has served in the Senate since 1995. She has served on the Senate Judiciary Committee for the last four sessions. Earlier this year, she was appointed to the North Dakota Drug and Alcohol Commission, and was named Legislator of the Year for 2000 by the State Bar Association.

For more information, contact Nelson at 235-5161 or NCSL at 303-830-2200, or visit the NCSL Web site at www.ncsl.org.

Events

Isrow to present 'Last Lecture'

Denis "Izzy" Isrow, professor of health, nutrition and exercise sciences, is scheduled to present, "Why Respond to Emergencies," at 7:30 p.m. Wednesday, April 24, in the Bentson Bunker Fieldhouse HPL room. The presentation marks the final Last Lecture series event of the 2001-02 academic year. Isrow is set to retire at the end of the academic year.

The Last Lecture format is designed to provide faculty the opportunity to make a presentation, on a particular subject of interest, as if it were the last lecture they would present. The event is sponsored by the Department of Residence Life.

All students, faculty, and staff are invited to attend this event. Refreshments will be served.

'Hot Zone' event features bioterrorism experts

Nancy and Gerald Jaax

Bioterrorism experts Nancy and Gerald Jaax are the featured "Hot Zone" presenters scheduled to speak at 11 a.m. Friday, April 26, in the Memorial Union Century Theatre. The husband and wife team, who helped contain the first Ebola virus outbreak in the United States, will discuss agro-bioterrorism and emerging zoonotic infectious diseases. The lecture is free and open to the public.

Formerly with the U.S. Army Medical Research Institute of Infectious Diseases, the Jaaxes were key participants in the Reston Ebola virus outbreak, in Reston, Va., described "The Hot Zone," by Richard Preston. They have lectured extensively on bioterrorism and emerging infectious disease issues and emergency response.

Jerry Jaax is the associate vice provost for research compliance and university veterinarian at Kansas State University, Manhattan. An expert on agroterrorism, he frequently assists with special projects, especially those associated with homeland security initiatives. He entered the U.S. Army Veterinary Corps in 1972. Jaax was named director of the Biological Arms Control Treaty Office, Ft. Detrick, Md., in 1996, and was responsible for the Army's implementation and compliance with all international biological warfare treaties and agreements. He retired from the Army in 1998.

Nancy Jaax is interim director of the Food Safety and Security Institute at Kansas State University. She joined the Army Veterinary Corps in 1973, spending six years in clinical assignments in the United States and Germany. She attained board certification in veterinary pathology in 1983, and focused her subsequent research efforts on the elucidation of the pathogenesis of chemical and biological warfare agents, particularly the Ebola and Marburg viruses. She has been the consultant to the Army Surgeon General in this area since 1990. She also is retired from the Army.

Frank Battisti to conduct band concert

Frank Battisti, conductor emeritus of the New England Conservatory Wind Ensemble, will conduct the Gold Star Concert Band in a concert scheduled for 7:30 p.m. Saturday, April 27, in Festival Concert Hall.

Prior to his 30-year tenure with the New England ensemble, Battisti was band director at Ithaca, N.Y., High School for 12 years. During that time, the band became renowned for its performance quality, and commissioned works from several well-known composers.

Saturday evening's performance will include music from the Ithaca High School commissioning project, including pieces from Leonard Bernstein, Armand Russell, Vincent Persichetti, Warren Benson, Richard Wagner and Keith Michael Davis.

A forum with Battisti and all interested band directors and area students is scheduled for 4:30 p.m. Saturday, April 27.

For more information, contact Warren Olfert at 1-7266 or warren.olfert@ndsu.nodak.edu.

National agriculture, transportation forum to feature Sen. Conrad

U.S. Sen. Kent Conrad is set to present the keynote address, "Assessing the Importance of Transportation to Major Industrial Sectors of the U.S. Economy," at a national forum on agriculture and transportation scheduled for Friday, May 17, and Saturday, May 18. The event is hosted by NDSU's Upper Great Plains Transportation Institute.

The forum features specialized sessions for transportation policy makers and specialists in both the public and private sectors who are involved with the transportation of agricultural products and the distribution of food. Topics scheduled are agriculture's contribution to the U.S. economy and the critical linkage to transportation, the food distribution system, evaluation of the transportation network, transportation's role in competing in global agricultural markets and trends in ocean freight and port capacity.

Other presenters include U.S. Rep. James L. Oberstar of Minnesota and experts from government, universities and industry. Officials from the state Department of Transportation and other researchers and specialists also will participate.

UGPTI regularly works with transportation issues across North Dakota, the United States and internationally.

The event is sponsored by the American Association of State Highway and Transportation officials, the U.S. Department of Agriculture and the U.S. Department of Transportation in cooperation with the Council of University Transportation Centers.

Registration is limited and available on a first-come, first-served basis. For additional program and registration information, contact Kathy McCarthy at UGPTI at 1-7767, kathy.mccarthy@ndsu.nodak.edu, or fax to 1-1945. Online registration also is available at www.ugpti.org/forum.pdf.

Spring Cleanup set for April 30

The eighth annual NDSU Spring Cleanup is scheduled for Tuesday, April 30. Faculty, staff, students and alumni volunteers may register online at www.ndsualumni.com or by calling Marilyn at 1-6808.

NDSU faculty and staff who volunteer to help will be dismissed from 2-5 p.m. the day of the event, but university offices will remain open during cleanup and classes will remain in session. Employees participating in cleanup will not need to take personal time off and employees not helping must work their regularly scheduled hours.

Registration for volunteers will begin at 2 p.m. at the Memorial Union East Patio. Following the cleanup volunteers are invited to reconvene at the East Patio beginning at 4 p.m. for a picnic of hot dogs, chips and soft drinks.

Volunteers are asked to bring cleaning equipment such as square shovels, brooms, rakes and gloves. Physical Plant will provide trash bags and some equipment. Volunteers will receive a free Spring Cleanup T-shirt (while quantities last) for their efforts.

The volunteer project is sponsored by the Alumni Association, Physical Plant and NDSU Dining Services.

In case of inclement weather, Spring Cleanup will take place on Thursday, May 2.

Safe Zone training scheduled

A Safe Zone ally training session is scheduled for 3-5 p.m. Thursday, April 25, in the University Chamber. The session is open to all faculty, staff and students. Reservations are not needed.

The Safe Zone symbol is a message to gay, lesbian, bisexual and transgender youth and their allies. A person displaying the symbol will be understanding, supportive and trustworthy if a gay, lesbian, bisexual or transgender person needs help, advice or someone with whom they can talk. The person displaying the symbol also can provide accurate information about sexual orientation issues.

Those already designated as Safe Zone allies and volunteers at NDSU are Jennifer Aerni, Ronni Arensberg, Waylon Baker, Elizabeth Birmingham, Tracy Blaine, Lane Bollom, Ann Burnett, Nikki Cole, Ross Collins, Tom Colville, Adam Dahl, Tracy Ekeren, Jeff Endres, Melissa Evensen, Jodie Filpus, Peg Furshong, Kate Haugen, Wade Hannon, Beth Blanks Hindman, Doug Blanks Hindman, Sandra Holbrook, Allyn Kostecki, Jennifer Krueger, H. Elaine Lindgren, Rebecca Mairs, Kellie Martindale, Megan Murray, Casey J. Murrish, Laura Oster-Aaland, Nadja Palenzuala, Judy Pearson, Larry Peterson, Michelle Richter, Jacki Schluchter, Conor Shenk, Kathleen Slobin, Teresa Sonsthagen, Kara Stack, Kelly Stadick, April Tepfer, Karla Thoennes, Janine Thull, Jaclynn Walette and Nona Wood.

For more information about the Safe Zone program, contact Kara Stack, assistant director for campus programs, at 1-8566 or Kara.Stack@ndsu.nodak.edu.

PEARS summer printmaking workshop announced

The NDSU Printmaking Education and Research Studio (PEARS) and the Memorial Union Gallery have scheduled the third annual Summer Printmaking Workshop for Monday, June 10-Friday, June 21, on the NDSU campus.

Michael D. Barnes, associate professor of art at Northern Illinois University, DeKalb, is the featured printmaker.

The workshop will focus on the photolithographic printmaking process in which participants will prepare digital, photographic and hand-drawn positives for use in photo lithography. Digital files, photographs, transparency drawings and scanned material will be used. Scheduled demonstrations include plate preparation, making positives, plate exposure, processing and printing. Participants will print samples of their work and exchange prints with others in the workshop. Previous computer or photography experience is not necessary.

The workshop is available for graduate and undergraduate credit, as well as continuing education credits for teachers. Workshop costs are \$450 which includes one month studio rental; \$450 for graduate credit, which includes 40 hours studio rental; and \$400 for undergraduate credit, which includes 40 hours of studio rental. All participants also pay a \$35 lab fee. Participation on an observation only basis is available for \$125, based on space availability. Housing also is available. A \$200 deposit is due by June 1, and Mastercard, Visa and Discover cards are accepted.

For more information and a registration form, contact Peg Furshong, visual arts and gallery coordinator, at 1-8239 or Peg.Furshong@ndsu.nodak.edu.

Mortar Board plans 'College for Kids'

The NDSU chapter of Mortar Board has scheduled its second annual "College for Kids" for Saturday, May 4.

Area fourth and fifth grade students will have the opportunity to explore learning in a new way through a series of mini-classes including animal studies, plant sciences, chemistry, pharmacy, apparel studies and intercultural awareness activities.

Admission is scheduled for 9-9:45 a.m. in Memorial Union Ballroom. A short graduation ceremony will be held at 4 p.m. Relatives and friends are invited to the graduation.

Parents or guardians can register their children by calling 232-8899 or 235-6374. Registration deadline is Friday, April 26. More details about the day will be provided at the time of registration. There is no charge for the event.

Mortar Board is a national honor organization for college seniors. Members are chosen based on their merits in academics, community service and leadership.

'Beyond Boundaries' conference scheduled

The technology and e-learning conference, "Beyond Boundaries: Integrating Technology into Teaching and Learning," has been scheduled for Sept. 19-20, in the Memorial Union of the University of North Dakota, Grand Forks.

Sessions, workshops and vendor exhibits will focus on three topics, including "Effective Integration of Technology into Teaching and Learning," "Technology: Tool for e-Learning" and "Student Services and Support for e-Learning."

The conference is accepting proposals for concurrent sessions, poster sessions and online or hybrid course showcases. The deadline for submission is April 30. Information about the conference topics and proposal requirements is available on the conference Web site at www.conted.und.edu/elearning.

For more information, contact, C.K. Braun, chair of the conference planning committee, at 1-800-342-8230 or (701) 777-6403 or ck_braun@mail.und.nodak.edu.
