

SBHE approves new programs

The State Board of Higher Education approved several new programs during its Sept. 26 meeting in Williston, N.D. The programs, some of which may have students enrolled during spring semester, will officially get underway next fall.

"This is a broad response to President Chapman's challenge to move to the next level," said Craig Schnell, provost and vice president for academic affairs, acknowledging the hard work by many faculty members. "This is a very diverse set of programs, and it helps round out the additions we made last year. The whole faculty is working to meet President Chapman's challenge, and we have a number of other new programs coming as well."

A major, master's degree and doctorate were approved in the area of emergency management. The program will focus on disaster preparedness, mitigation, response and recovery. In addition, courses will be offered on the social and behavioral sciences of disaster, different disaster types, the role of the emergency manager in disasters and disaster preparedness in the public and private sectors.

Music bachelor's and master's degree programs were approved. Combined with a previously approved doctorate, it will be the only complete professional music program in the five-state region of North Dakota, South Dakota, Wyoming, Montana and Idaho. The objectives of the program are to double undergraduate music major enrollment to 160 students, establish a graduate enrollment of 30 students and provide arts enrichment, outreach and employment opportunities to the region.

A new bachelor of science degree in sports and urban turfgrass management received the approval of the board. Its curriculum will provide students an in-depth knowledge about turfgrass management under sports use conditions. In addition to turfgrass science, students will be exposed to a broad spectrum of areas, including plant knowledge, public relations, tourism and business management.

The board approved a master's degree in health, nutrition and exercise science with nutrition and exercise science options. The objectives of the program are to prepare students for positions in the nutrition and exercise science fields, discuss the current research and trends in those fields, offer research opportunities for students and strengthen research opportunities for faculty.

A major in biochemistry and molecular biology was approved. The program will offer five areas of specialization: biochemistry, molecular biology, biophysics, bioinformatics and biochemical business. According to the proposal's executive summary, the unraveling of the genetic code for humans, some plants and many microorganisms offers enormous potential in the fields of medicine, agriculture, industry and molecular forensics. The outlook for employment for students is expected to be in research, sales, marketing, teaching and patent law.

Environment and conservation sciences master's and doctoral degrees also were approved. The inter-disciplinary program will build on established research strengths across several colleges. The program will provide a collaborative framework to integrate research and education across disciplines to resolve complex resource issues facing the state and the nation.

President Chapman to deliver State of the University Address

President Joseph A. Chapman will deliver his fourth State of the University Address at 12:30 p.m. Thursday, Oct. 17, in Festival Concert Hall. All faculty, staff, students, alumni and friends of the university are invited. A reception will follow in the Reineke Fine Arts Center lobby. The address also can be viewed live on the Web at www.ndsu.edu/president/address. A transcript of President Chapman's remarks will be available at the site immediately following the address.

Flexible benefits reimbursement request form available online

As of Oct. 1, the payroll office will no longer provide printed copies of the flexible benefits reimbursement request forms. The form is available online at www.ndsu.nodak.edu/form/ in Adobe and Word formats.

'It's Happening' distribution list instructions

Changes in names and/or addresses, and additions and deletions of department faculty and staff to the "It's Happening at State" distribution list should be sent to char.goodyear@ndsu.nodak.edu. Faculty and staff department changes are not made automatically and must be sent to University Relations by departments.

SBHE opposes youth tax initiative

The State Board of Higher Education has voted to oppose the youth tax initiative on North Dakota's Nov. 5 election ballot. The board made the unanimous decision during its Sept. 26 meeting in Williston, N.D.

The initiative offers an income tax credit of up to \$1,000 annually for five years, for North Dakotans ages 21 to 29 who are working in the state and have been living there at least six months. They also would qualify for up to \$1,000 annually in student loan repayments over five years, if they graduate from an accredited two- or four-year school. Eligibility would end when a person turns 30.

Some board members expressed concerns the initiative would take money away from higher education programs and lead to higher tuition.

Board member Bruce Christianson, Minot, said the state should concentrate, instead, on job creation and higher wages to keep its young people. "We always talk about out-migration," he said in an Associated Press story. "Why don't we talk about in-migration?"

Chancellor Larry Isaak told reporters that the state's higher education system needs more support and cannot afford financial cutbacks. "The key to North Dakota's future is a vital and quality higher education system," Isaak said. "It's the magnet that will attract people here. It's the magnet that will keep people here."

In addition, the North Dakota Student Association voted Sept. 21 to oppose the proposal. The group is made up of student representatives from the state's 11 colleges and universities.

NDSU Libraries gains additional e-journals

NDSU now has access to more than 40 additional electronic journal titles through assistance from North Dakota Biomedical Research Infrastructure Network (BRIN). The additions include the "Nature" and Cell Press titles, and the "Annual Review" series.

The electronic versions can be found in the online catalog and accessed by a link on the e-journals page. Access is restricted to those on campus or using the campus modem pool. The addition of these titles brings the total number of subscribed e-journals to nearly 900.

NDSU Libraries also has access to more than 6,000 e-journals through various database packages. For more information, contact your subject librarian or the Reference Desk at 1-8886.

Maleki joins engineering and architecture

Maleki

Reza Maleki has been named associate professor of industrial and manufacturing engineering.

Prior to his appointment at NDSU, Maleki was professor and department head of engineering technology and management at South Dakota State University, Brookings. He also served as director of the university's Polytechnic Center of Excellence.

Maleki teaches systems engineering, project management and logistics, and manages the undergraduate Capstone class. He received bachelor's, master's and doctoral degrees from NDSU.

Danbom, Strom book published

David Danbom, professor of history, and Claire Strom, assistant professor of history, are the authors of the recently published "Images of America: Fargo, North Dakota, 1870-1940."

The book presents a portrait of Fargo's early history through more than 210 photographs, mostly from the North Dakota Institute for Regional Studies collections. Telling the story of Fargo's growth from a railroad community to the southern Red River Valley's leading city, the authors focus primarily on the city's foundations; the significance of transportation in its development, education and health; Fargo's status as an agricultural center; the role disasters played in forming the city; religion and culture; work and business; the relationship between the city and the Red River; politics and government; and recreation.

Danbom served for nine years on the Fargo Historic Preservation Commission and is completing a history of Fargo during the Depression. Strom is a specialist in the history of the Great Northern Railway and serves on the board of directors of the Cass County Historical Society.

The book is available at most area bookstores.

Mahalingam to conduct seminar for New York architects

Ganapathy Mahalingam, associate professor of architecture, has been invited to present the seminar "Emerging Issues in Computer-Aided Architectural Design: Theory and Practice" at the annual convention of the New York chapter of the American Institute of Architects scheduled for Oct. 11 in Buffalo.

The seminar is designed to provide participants with an overview of emerging issues in computer-aided architectural design. Mahesh Senagala from the University of Texas at San Antonio will assist with the presentation.

The American Institute of Architects is the official body of practicing architects in the United States. The convention is the largest annual gathering of registered architects and architectural schools in New York.

Bromley to present at arts and humanities conference

Bromley

Kimble Bromley, associate professor of art, is scheduled to present "Creativity Enhancement Workshop Using Hypnosis," in January at the Hawaii International Conference of Arts and Humanities.

The conference includes opportunities for academicians and professionals from various arts and humanities-related fields around the world to meet, present papers, hold workshops and explore cross-disciplinary interests.

Bromley is certified in hypnotherapy by the National Guild of Hypnotists. He designed the creativity enhancement workshop to assist students with creativity through the use of hypnosis.

Events

EPSCoR state conference scheduled

The North Dakota EPSCoR conference is scheduled for Friday and Saturday, Oct. 25-26, in Grand Forks. The conference theme is "Research Opportunities and Forging Partnerships."

Pre-conference workshops including electronic resources, molecular modeling and tribal college distance learning are scheduled for 1-5 p.m., Friday, Oct. 25. To register, contact Kim Hansen at (701) 777-6376 or khansen@medicine.nodak.edu.

Saturday's events are scheduled from 8 a.m.-4 p.m., and include a keynote address by Sen. Byron Dorgan; "Forging University-Private Sector Partnerships," by F. Lee Williams, University of Oklahoma; a review of capacity-building opportunities and accomplishments for science, engineering and mathematics research in North Dakota; presentations by federal agency officials on the development of competitive large-scale, multi-investigator projects; forging university/private sector partnerships; and student poster and paper presentations.

The deadline for submitting poster abstracts is Friday, Oct. 11, and conference registration deadline is Friday, Oct. 18. Participants may register online at www.ndsu.nodak/epscor.

Thompson to present 'Last Lecture'

Kevin Thompson, professor of sociology, is scheduled to present "What Would a Responsible Drinking, Substance-Free Community Look Like?" at 6:30 p.m. Wednesday, Oct. 30, in the Weible lounge. The lecture is the first in a series of Last Lectures scheduled throughout the 2002-03 academic year.

The Last Lecture format is designed to provide faculty the opportunity to make a presentation, on a particular subject of interest, as if it were the last lecture they would present. The event is sponsored by the Department of Residence Life.

All students, faculty, and staff are invited to attend the event. Refreshments will be served. For more information, contact Residence Life at 1-7557.

College and work discrimination brown bag seminar scheduled

A brown bag seminar, "College/Work Discrimination," is scheduled for noon Wednesday, Oct. 9, in the Memorial Union Peace Garden Room. The seminar is sponsored by the YMCA of NDSU.

A student panel will share their thoughts and experiences on gay student discrimination on campus and in the community, providing an uncensored and unique look into their lives. Questions will be encouraged.

For more information, call 1-5225.

Women and healthy relationships workshop offered

"Women and Healthy Relationships," a six-week women's workshop, is scheduled for 4:30-6 p.m. Thursdays, Oct. 3-Nov. 7, in the Wellness Center.

The workshop is designed to build skills to maximize women's effectiveness in important relationships. Planned topics include active listening, assertiveness, balance, power, intimacy maintenance, individual uniqueness and "love languages."

The workshop, sponsored by Counseling and Disability Services, is open to all female faculty, staff and students. For more information or to secure a spot, contact Lisa or Jennifer at 1-7671.

Self-defense program scheduled

Campus Police and the Department of Residence Life have scheduled "The Power Within," a program on self-defense, for 6:30 p.m. Wednesday, Oct. 9, in the Bison Sports Arena wrestling room.

The program will be presented by Karen Bakke who has a third degree black belt in Shorin Ryu Karate and has obtained the third level of Combat Ki-Kyoshi. Designed to give people the tools needed to defend themselves in real life situations by training "body, mind and spirit," the program focuses on awareness, prevention, prediction, emotional and physical techniques, and strategies in a survival environment.

Shuttles will be provided for residence hall students beginning at 6 p.m. For more information contact Jennifer Krueger, Residence Life assistant director of leadership, at 1-6255.

Panel discussion scheduled on 'Fighting Sioux' nickname

A panel discussion on changing the University of North Dakota Fighting Sioux nickname, is scheduled for noon, Tuesday, Oct. 8, in the Memorial Union Peace Garden Room.

The discussion will be led by the UND student group Building Roads Into Diverse Groups Empowering Students (BRIDGES), and facilitated by NDSU students Prairie Rose Seminole and Brandon Richardson.

The event is co-sponsored by BRIDGES and the NDSU Native American Pharmacy Program.
