

Bison Apartment Complex construction begins

Construction of NDSU's new \$10 million Bison Apartment Complex project is underway after bids were opened May 27. The facility, which replaces Bison Court, will have a capacity of 200 beds.

The 93,000-square foot facility will be located at the corner of 15th Avenue North and University Drive. The project includes two three-floor buildings constructed around a center courtyard, and a gateway entrance designed to welcome people to the university community. There will be 29 studio apartments, 57 one-bedroom apartments and 17 two-bedroom apartments.

"In the Bison Apartment Complex, people will see more space, more privacy and more amenities. It will really meet the needs of today's students," Michael Harwood, Residence Life director, said, noting that students, faculty and staff were consulted as the plans moved forward. "We want the students to feel welcome and comfortable. The goal was to make it look less institutional and more as a living and learning environment."

The units have kitchens, bathrooms, data ports for high-speed Internet, cable television and air conditioning. Laundry facilities are centrally located. The east building will feature a coffee shop, while the west building will include administrative offices for the Department of Residence Life and Dining Services.

Harwood expects that a mix of juniors, seniors and graduate students will live in the complex. "Internet access, privacy and the location are important to these students. This complex will be close to their classes and labs," he said. "The Bison Apartment Complex also is going to have a different, modern look."

The Bison Apartment Complex replaces Bison Court, which was built in 1958 to house veterans and families in 58 garden level units.

"We're replacing something that was a part of the campus community for 46 years, so in a way there is a sense of loss. But, there is excitement because this project is new and different," said William Frazier, assistant director for apartment and residential services, adding that the buildings will be near daycare facilities for students needing those services. "When we worked with the building committee, students wanted to keep a proximity to campus. They wanted it to feel like home and for it to be a place to get away from the everyday grind of school and work. This new structure will give people that opportunity."

Designed by the Image Group Architecture and Interiors, Moorhead, Minn., the complex's east building is expected to be completed in August 2005, while the west building should be finished in December 2005.

Residence hall greeters sought

The Department of Residence Life is asking faculty and staff to participate in the Residence Hall Greeter program. Sign-up forms will be sent out during the summer.

Participants will greet and mingle with students and families beginning at 10 a.m. Sunday, Aug. 22, when students begin checking into the campus residence halls for fall semester. Volunteers are asked to work a two- or three-hour shift. Lunch and beverages will be provided for volunteers.

For more information, contact Jennifer Krueger at Jennifer.Krueger@ndsu.nodak.edu.

Published by the Office of the Vice President for University Relations. NDSU is an equal opportunity institution.

Tuition discount application reminder

Faculty and staff who will have dependents wishing to use the tuition discount when enrolling for fall semester are reminded that the application must be submitted to human resources 30 days prior to enrollment. The policy applies to all new and returning students. Questions regarding admission materials should be directed to the Office of Admission at 1-8643. Questions regarding the discount application should be directed to the Office of Human Resources at 1-8525.

Libraries holiday hours announced

All NDSU Libraries and the Institute for Regional Studies will be closed Saturday, July 3-Monday, July 5, in observance of Independence Day. Regular summer session hours resume Tuesday, July 6. For a current listing of hours consult the Libraries' web page www.lib.ndsu.nodak.edu, use the HRS command on the online catalog or call the information tape at 1-9456.

UGPTI hosts transportation luncheon

Approximately 40 people attended the annual National Transportation Week luncheon sponsored by the Upper Great Plains Transportation Institute held May 20 on the NDSU campus.

According to Denver Tolliver, UGPTI associate director, the event is an opportunity for campus researchers and area transportation professionals to celebrate transportation advances and share ideas. David Huft, director of the South Dakota Department of Transportation's Office of Research, was the keynote speaker.

In addition to NDSU faculty, representatives from the South Dakota Department of Transportation, the North Dakota Department of Transportation, the Fargo-Moorhead Council of Governments and three out-of-state universities attended the event.

Tri-College University Nursing Consortium receives grant

The Dakota Medical Foundation has awarded a \$390,000 grant to the Tri-College University to fund the beginning of three new tracks for undergraduate registered nurse education. The three-year grant will be divided equally between NDSU, Concordia College and Minnesota State University Moorhead.

Beginning in fall 2004, NDSU will begin a two-year track of six consecutive semesters for Licensed Practical Nurses seeking their RN degree. NDSU currently has a LPN to RN pilot project in place and there are plans to expand that program. Each year, 12 additional LPNs who have associate of applied science degrees will be admitted to the program.

Concordia College is set to offer an 18-month second-major RN track in the summer 2005, and MSUM plans to begin a generic track for high school graduates in 2005.

According to foundation president Pat Traynor, "Historically, many more nursing students apply to local nursing programs than can be admitted. With the implementation of this project, 12 new nursing student slots will open up in the first year of the project and a total of 54 new slots will be available each year thereafter.

"In 2010, approximately 184 additional new RNs will have entered the workforce as a result of this project," Traynor added. "Of particular significance is the increased curricular emphasis on rural health content and rural clinical experiences in an effort to improve RN recruitment and retention in those locations."

The grant award also will be used to develop innovative clinical experiences, including virtual simulations, internship-type clinical rotations, use of rural health settings and online delivery for selected courses.

"The nursing faculty members are very pleased with the prospect of moving in new directions in nursing education," said Jane Giedt, TCU Nursing Consortium director. "But it's the health care community and people of the region that will benefit most directly from this DMF-TCU partnership."

'Sunday Academy' completes fourth year

The NDSU-Tribal Colleges Collaborative Project, funded by the Office of Naval Research, has completed its fourth year of "Sunday Academy." The program is designed to encourage American Indian students in North Dakota to pursue careers in science, mathematics and engineering.

As in the previous years, Sunday Academy consisted of a series of academic sessions on science and engineering topics one Sunday every month from September 2003 through March 2004 directed towards high school students from North Dakota reservations. The sessions involved common lesson plans conducted at Turtle Mountain Community College, Sitting Bull College, Cankdeska Cikana Community College, Fort Berthold Community College and United Tribes Technical College. Students and instructors at different sites interacted during the lessons via the Interactive Video Network. An estimated 40-50 students participated in all sessions at Turtle Mountain, 14-16 at Sitting Bull, 10-12 at Cankdeska Cikana, 10-12 at Fort Berthold and eight-10 at United Tribes.

NDSU and tribal college faculty and reservation high school teachers collaboratively designed the sessions. For each session, one NDSU faculty member visited each site to help conduct the lesson activities.

The academy sessions consisted of presentation of a simple problem over the IVN. Additional materials relating the topic to industrial applications were presented. For each topic, a brief talk on its connection to the American Indian culture also was included.

Participating NDSU faculty members were Sunday Academy coordinator Wei Lin, associate professor of civil engineering; G. Padmanabhan, professor of civil engineering; Robert Pieri, professor of mechanical engineering; Floyd Patterson, associate professor of electrical and computer engineering; Eakalak Khan, assistant professor of civil engineering; and William Martin, associate professor of mathematics.

The project also includes summer camps for high school and tribal college students, scholarships, course development and mentoring. A summer camp for tribal college students was held June 1-11 at NDSU. Another two-week summer camp is underway until June 25 for reservation high school students at the tribal college sites. Selected NDSU faculty traveled to the reservations for the high school camp.

For additional information, contact Padmanabhan, project co-principal investigator, at 1-7043.

People

Paulsen named to SBHE

Gov. John Hoeven has named John Q. Paulsen, Fargo, to the State Board of Higher Education. Paulsen replaces Chuck Stroup, whose term expires June 30.

"John brings a wealth of business and civic experience to the board," Hoeven said. "His years of public and private service, and his leadership in the community will be valuable in addressing the needs and fulfilling the objectives of the board."

Paulsen served as executive vice president of MeritCare Medical Group, Fargo. He currently is chair of Fargo's city planning commission and the Plains Art Museum's board of directors. He also is immediate past chair of Prairie Public Broadcasting and is a member of the Family Healthcare board of directors.

He served on the Fargo Board of Education for nine years and has been involved with several organizations committed to education and learning.

"Nothing is more important to the people of North Dakota than our young people, and no responsibility is greater than providing them with the best educational opportunities we can," Paulsen said. "I'm looking forward to working with my colleagues on the State Board of Higher Education and throughout the North Dakota University System in pursuit of those goals."

The nine-member board is the policy-setting body for the North Dakota University System. It is comprised of seven governor-appointed citizen members who serve four-year terms, one governor-appointed student member who serves a one-year term and one faculty adviser selected by the Council of College Faculties.

Ripplinger joins transportation institute

Ripplinger

David Ripplinger joined the staff of the Small Urban and Rural Transportation Center as associate research fellow effective May 20. The center is part of NDSU's Upper Great Plains Transportation Institute.

Ripplinger's duties include using computer modeling and statistics in a project to help North Dakota school districts develop more efficient school bus routes. He also works on traffic demand models and other computer modeling applications for the center.

Ripplinger previously worked with the institute as a research assistant while working toward his bachelor's degree in agricultural economics. He also has a master's degree in economics from Iowa State University, Ames.

A native of Devils Lake, N.D., Ripplinger also served as an agricultural fellow in Washington, D.C., researching and writing briefs, speeches and papers for Iowa Sen. Charles Grassley. He also was a research assistant with the USDA's Economic Research Service.

While at Iowa State, he collected and analyzed data on international meat trade and conducted research on intellectual property rights in agriculture.

Dorn recognized by compliance coordinators

Lynn Dorn, women's athletics director, was recognized by the National Association of Athletics Compliance Coordinators for the 2003-04 academic year. One of three award winners, Dorn received the honor for NCAA Division II.

The NAACC is in its 13th year and serves as the professional and educational association of athletics compliance officers.

Council elected to University Senate post, gavel passed

James Council, professor and chair of psychology, was elected University Senate presiding officer-elect during the group's May 10 meeting. Council will serve as presiding officer during the 2005-06 academic year.

"I am extremely pleased with NDSU's progress during President Chapman's administration, and the University Senate will continue as a key factor in this progress," said Council, who was elected over fellow candidate Wade Hannon, associate professor in the School of Education. "Key issues will continue to be salary and infrastructure, but in the context of strong support for our administration."

Council joined NDSU in 1985 after earning his doctorate at the University of Connecticut and post-doctorate training at Brown Medical School. His service has included division president and Council of Representatives member for the American Psychological Association, Institutional Review Board member and Student Conflict Arbitration Board member.

Also at the meeting, outgoing presiding officer Thomas Barnhart, professor of health, nutrition and exercise sciences, passed the gavel to incoming presiding officer Charles Harter, associate professor and chair of accounting and information systems.

"I want to tell you that being presiding officer has been a joy. It's been a wonderful opportunity for a faculty member who has been here 28 years," Barnhart said before passing the gavel to Harter. "I've enjoyed it immensely."

Harter said he is looking forward to his time in office, and he praised Barnhart as an "awesome presiding officer who put the university first."

Harter said upcoming University Senate issues include a policy on intellectual property rights for faculty, salaries and items related to Connect ND. "I think it is going to be a fun year," he said.

As the meeting closed, Craig Schnell, provost and vice president for academic affairs, presented Barnhart with a plaque to commemorate his term as presiding officer. "Tom has been a great presiding officer," Schnell said during the presentation. "He's done a terrific job."

Schmidt, Larson honored

Four-time decathlon champion Nate Schmidt and 25th-year head coach Don Larson won North Central Conference outdoor track and field awards announced May 17. Schmidt was selected Most Outstanding Male Athlete and Larson was honored as Men's Outdoor Coach of the Year by a vote of the conference coaches.

Schmidt became the first athlete ever to win four NCC decathlons when he won six of the 10 events in April and scored 7,483 points. Larson guided NDSU to its 20th outdoor title in the last 22 seasons and his 21st as the Bison head coach.

Publications services staff win awards

Three NDSU staff received awards in the 2004 North Dakota Professional Communicators contest. Results were announced during the NDPC's annual state convention June 5 in New Town, N.D.

Recipients and their awards are:

Catherine Jelsing, feature writer in publication services—

- First place awards for feature story (general or specialized circulation), business and agriculture writing, education writing, advertorials;
- Second place awards for personality profile, science and environment writing.

Becky Koch, interim director of agriculture communication—

- First place awards for black and white single display ad, (institutional or image), magapaper/tabloid.

Tammy Swift, feature writer in publication services—

- First place awards for personality profile, health writing, science and environment writing, personal columns (general), headline writing;
- Second place awards for business and agriculture writing, education writing, personal columns (humorous);
- Third place awards for history writing, feature articles written for the Web.

Swift also tied for second place in the NDPC's sweepstakes competition. First-place entries at the state level will advance to the national competition.

Nordick named Distance and Continuing Education director

Lisa Nordick, associate director of the Office of Distance and Continuing Education, was appointed director of the division as of June 1, according to Craig Schnell, provost and vice president for academic affairs.

In making the appointment, Schnell said, "Lisa has shown herself to be a very capable administrator of the division this past year. Her administrative skills and leadership will be valuable to DCE, as it expands its services and programs in new and exciting directions, in keeping with NDSU's strategic goals."

Nordick began with the Office of Continuing Education at NDSU in August 1992, when she was hired to assist with non-credit related programming efforts. Soon after, she was promoted to non-credit program coordinator, at which point she organized, implemented, coordinated and oversaw various conferences, workshops, seminars and CEU-related activities. She was promoted to assistant director in 1995 and to associate director in June 2003.

Nordick completed a liberal arts degree at Wahpeton State College of Science, and earned her bachelor's degree in child development and family science and master's degree in educational leadership at NDSU.

She co-owns several small businesses, including a fast-food restaurant, NCN Trucking, Ottetail Lakehome Service and a 400-acre farm/business.

Staff Senate officers, representatives announced

The NDSU Staff Senate has announced its officers and representatives for the 2004-05 academic year. Officers are Susan Bornsen, president; Janine Trowbridge, president-elect; Pamela Hommen, past president; Barb Geeslin, secretary; Gina Haugen, treasurer; Cindy Kozojed, membership officer; Gretchen Bromley, member-at-large executive committee; Linda Krogen-Brandt, member-at-large executive committee and Roxann Williams, member-at-large executive committee.

The University/Faculty Senate representatives will be Bornsen, Candace Skauge, Jennifer Krueger and Barb Welk.

The Campus Space and Facilities Committee representative will be Bob Peterson. Representatives on the Computing and Information Technologies Planning and Goals Committee will be Teresa Sonsthagen and Brian Miller. The representative on the University Athletics Committee will be Theresa McMullen. The Library Committee representative will be Irene Askelson. Other committee representatives are Sharon Morgan, Kozojed and Geeslin on the Council of State Employees (COSE); Ray Boyer on the Human Resources Council; and Beckerleg and Geeslin on the Health and Wellness Advisory Board.

More information is at www.ndsu.edu/staff_senate.

Professor emeritus Dashner dies

Joseph Sheridan Dashner, professor emeritus of accounting, died June 5 at Meritcare Hospital, Fargo. He was 62.

Dashner was born Sept. 11, 1941, in Petoskey, Mich. He received a bachelor's degree in accounting and a master's degree in business administration from Central Michigan University. He entered the U.S. Army in 1964 and was stationed in Hawaii. After his discharge he worked in Dow Chemical's accounting department in Midland, Mich. He also worked in the U.S. Accounting Office, Washington, D.C., and earned his state certified public accounting license in 1974.

Dashner moved to Fargo in 1970 and taught accounting at NDSU until his retirement in 1995. He and his wife, Nancy, purchased K&M Books in Detroit Lakes, Minn., later renaming it Driftwood Books and News.

He is survived by his wife, a son, a daughter and his mother. Funeral services were held June 12 in Frazee, Minn.

Three named to academic All-NCC squad

Seniors Amanda Thieschafer, Kinsey Coles and junior Nicole Rieck were named to the 2003-04 women's Academic All-North Central Conference Track and Field/Cross Country team by a vote of the league's sports information directors.

Coles, a native of Hillsboro, N.D., won three NCC titles and has a 3.76 grade point average in elementary education. A human performance and fitness major from Melrose, Minn., Thieschafer, won two NCC crowns, and has a 3.71 grade point average. Rieck is a native of Huron, S.D., and won three NCC titles. She carries a 3.59 grade point average in nursing.

Student to receive Astronaut Scholarship

Senior Paul S. Haugen, a double major in electrical engineering and mathematics, has been selected for the prestigious Astronaut Scholarship Foundation scholarship for the 2004-05 academic year. The \$10,000 award is one of 17 presented by the foundation.

Craig Schnell, provost and vice president for academic affairs, received notification of the award in a May 10 letter from Howard Benedict, foundation executive director.

In a letter of nomination, Alan White, dean of science and mathematics, wrote that Haugen intends to pursue a master's degree and doctorate, while preparing for an electrical engineering career focusing on research. "Paul is a remarkable young man with a very clear vision of where he wants to take his career," White wrote. "Paul Haugen has shown an incredible amount of drive and purpose in his academic career and he has shown an unusual focus in his career goals."

Haugen's goal in 10 years is to direct research for advanced technologies in the aerospace industry, an interest sparked when he was allowed to fly a relative's small plane when he was 16 years old.

"I have since been interested in researching and exploring all aspects of aeronautical technology and have found myself deeply intrigued by the field's cutting edge and continual advancements," Haugen wrote in his application for the scholarship. "Another option I am considering is combining research in both biomedical and aeronautical studies, such as investigating sudden loss of consciousness due to high g-forces and learning why pilots keep consciousness longer when they are prone as opposed to upright."

Haugen is a member of the Tau Beta Pi and Phi Kappa Phi Honor Societies. He attended Culbertson, Mont., High School.

The foundation, supported by more than 40 former astronauts, has a mission to help the United States retain its world leadership in science and technology through scholarships for science or engineering students who demonstrate motivation, imagination and exceptional performance. Based in Titusville, Fla., the foundation has awarded nearly \$2 million in scholarships to more than 180 students.

Sponsored programs administration staff additions announced

The Office of Sponsored Programs Administration has announced that Amy Scott has been named assistant director effective May 3. Scott is responsible to review and approve proposals, negotiate and approve some awards and agreements, and approve transfer and confidentiality agreements.

Scott joined NDSU in May 2001 as administrative coordinator in the chemistry department's Center for Protease Research. She joined sponsored programs administration in May 2002 at budget and program officer.

Janet Oelrich has been named budget and program officer effective May 3. She is responsible to provide budget assistance, review proposals and assist in SPA training efforts. Oelrich joined NDSU in 2003 as an administrative assistant in the Department of Mathematics.

NDSU civil engineering students win national steel bridge competition

Civil engineering students involved with steel bridge

The NDSU student chapter of the American Society of Civil Engineers (ASCE) took top honors for a third time at the National Student Steel Bridge Competition held May 28-29 in Golden, Colo. Since the competition's inception, no other

entrant has won the competition more than once.

"Of the 350 colleges in the United States, none of the others has won the national steel bridge contest twice," said Otto Helweg, dean of engineering and architecture. "NDSU has not only won it twice, but just achieved the amazing feat of winning it three times. The second place team was from the University of Michigan—a college of almost twice the size and 10 times the resources."

Forty-four teams qualified for the competition by placing either first or second in their respective regional competitions. On competition day, each team was required to construct a steel bridge conforming to dimensional requirements, and was judged in six areas, including lightness, stiffness, structural efficiency, construction speed, construction economy and aesthetics.

In addition to winning the overall competition, the team took first place in four of the six individual areas.

"This is a tremendous accomplishment by these students," said NDSU chapter adviser Kenneth G. Kellogg, assistant professor of civil engineering. "This competition has become very competitive. Even after winning the regional competition they strived to improve on their design. They are an impressive group of young engineers, and I respect them very much."

The NDSU team members included captain Mitch Okeson, Jeremy Freihammer, Jesse Freihammer, David Blommel, Brian Lintgen and Nathan Hoffmann.

"This is one of the most prestigious competitions among engineering colleges, and it has put NDSU on the map as a nationally recognized college," Helweg added. "I am extremely proud of the students and Dr. Kellogg's leadership in this endeavor."

Piepkorn named All-American

Senior shortstop Jeremiah Piepkorn was named to the third team of the 2004 NCAA All-America baseball team. The three 16-man teams were selected by the American Baseball Coaches Association in conjunction with Rawlings Sporting Goods.

Piepkorn, from Sauk Rapids, Minn., set many Bison career records, including hits (214), runs (182), home runs (49) and RBIs (172).

Three Bison elected to Academic All-NCC team

NDSU has three student-athletes on the Academic All-North Central Conference men's track and field/cross country team announced by the league office May 12. The 10-man squad was elected by a vote of the league's sports information directors.

NDSU pole vaulter Marc Steckler, a senior majoring in mechanical engineering, was one of three selections with a 4.0 grade point average. Bison sprinter Jared Essler, a junior majoring in social science education, and distance runner Chris Perleberg, a senior majoring in biological sciences, were also selected to the team.

NDSU's Andy Aakre, Jake Ridl and Peter Stuart received honorable mention.

Wieser, Coles named Honor Athletes

Bison football player Michael Wieser and track standout Kinsey Coles were named North Central Conference Honor Athletes for the 2003-04 academic year.

Student athletes were selected on the basis of academic performance, athletic ability and performance and leadership in campus and community activities. The student athletes must have graduated this spring or be within 12 credits of graduation.

Named to three NCAA Division II All-America squads during his senior year, Wieser also is a two-time honorable mention Academic All-NCC selection. He is a business administration major from LaCrescent, Minn.

Coles is a 10-time NCAA Division II All-American. She was named to three United States Track Coaches Association All-Academic teams and two Academic All-NCC squads. The elementary education major is from Hillsboro, N.D.

Baseball players win honors

Three Bison baseball players were named to the All-North Central Conference team and the NCAA All-Central Region team. They are senior shortstop Jeremiah Piepkorn, senior catcher Chris Baso and sophomore relief pitcher Neil Wagner.

In addition, Baso was named to the first team Academic All-District College Division team by the College Sports Information Directors of America.

A sociology major, Baso is from Menahga, Minn. Wagner is a biological sciences major from Eden Prairie, Minn. Piepkorn is from Sauk Rapids, Minn.

Bakke, Graham named to All-America team

Bison second baseman Jenny Bakke and pitcher/first baseman Lindsey Graham were named to the 2004 Louisville Slugger/National Fastpitch Coaches Association All-America team.

Bakke, a senior from Anoka, Minn., was named to the second team, while Graham, a senior from Great Falls, Mont., was a third team selection.

Bryce selected to academic at-large team

NDSU heavyweight wrestler Joe Bryce was one of 10 student athletes named to the Academic All-North Central Conference men's at-large team announced by the league office May 11. Selected by a vote of the league's sports information directors, the list includes student athletes from the conference's golf, tennis, wrestling, swimming and diving teams.

Bryce, a junior from Glenwood, Minn., carries a 3.67 grade-point average in biology education. He had a 28-11 overall record, placed third at the NCAA Division II North Regional and was sixth at the national championships.

NDSU wrestler Lucas Christianson was an honorable mention to the squad.

Events

Germans from Russia exhibits scheduled at Gackle, Fredonia centennials

The NDSU Libraries' Germans from Russia Heritage Collection is scheduled to display exhibits at the Gackle, N.D., centennial June 25-26 and at the Fredonia, N.D., centennial July 2-3. Exhibits including photographs and maps will be shown as well as information tables about the Germans from Russia history, culture and foodways. Books, maps, videotapes and cookbooks from GRHC will be available for purchase.

Michael M. Miller, Germans from Russia bibliographer, will be available for consultation and research assistance for German-Russian families attending the Gackle centennial. Kristi Krebs Brink, archives assistant, will attend the Fredonia centennial.

For further information, contact Miller at 1-8416 or Michael.Miller@ndsu.nodak.edu. The GRHC Web site is www.lib.ndsu.nodak.edu/grhc.

NDSU to host camps and conferences

NDSU is expected to host more than 45 summer camps and conferences during June and July, according to DeAnne Sperling, university conference coordinator.

"We do academic conferences all year long, but the summer is particularly busy with the youth who are accessible to us and who have an opportunity to visit our campus. That's why I'm really excited about it," Sperling said. "We have a wide range of things going on, like youth and athletic camps, Governor's School, Upward Bound, USA Wrestling and meetings for science and math teachers. It's a wonderful time to be on the NDSU campus, and it's a chance to expose many different people to the various aspects of our campus."

The conference program's Web site is <http://conferences.ndsu.nodak.edu/>. Upcoming conferences are listed and a search tool is available for display of all conferences. Conference dates and contact information also are available on the site.

For more information, contact Sperling at 1-9736 or deanne.sperling@ndsu.nodak.edu.

Shorts and Reminders

Positions Available

Positions open and screening dates through the Office of Human Resources, Room 205, Old Main:

Administrative Secretary/#905
Veterinary and Microbiological Sciences
\$19,000+/year
Open until filled

Food Service Worker/#1057
10 months; 40 hours per week
7 a.m.-3:30 p.m.; M-F; weekends as necessary
Dining Services-Residence Dining Center
\$7.65/hour
June 15 (internal); June 22 (external)
Position available beginning Aug. 23

Nutrition Education Assistant, EFNEP/#1984
NDSU Extension Service-Fort Berthold
New Town, N.D.
12 months; 40 hours per week
\$18,500+/year
Contingent on availability of Federal Funds
Open until filled

CFT Clinic Coordinator/#5220
12 months, three quarter-time position
Child Development and Family Science
\$21,000+/year
June 22

Staff Pharmacist/#5747
NDSU Family Health Center Pharmacy
\$64,000+/year
June 21

Residence Hall Director
Residence Life
\$24,000/year plus furnished apartment, meal plan, and benefits
Open until filled

Registered Nurse
Per diem, M-F, non-benefited
Student Health Service
\$14+/hour
Open until filled

Position openings also are available through the NDSU Web site at www.ndsu.edu/jobs.

Calendar

June

Through June 25 "PRINTMAKING without PRESSES" summer PEARS printmaking workshop with master printmaker Lynwood Kreneck. Sponsored by the PEARS studio and the Memorial Union Gallery. For more information, visit www.ndsu.edu/memorial_union/gallery or call 1-8239.

14-July 16 "Clownz and Neighbors" screenprinting exhibit by Lynwood Kreneck, Memorial Union Gallery. Reception 11:30 a.m. Wednesday, June 16.

30 Ken Martin, Extension Service director candidate, "Trends in Extension: Implications for North Dakota," 9 a.m., Memorial Union Century Theater
