Community Resilience: Investing in Walkability

**Gateway District:**
Creating an entrance to the city

**Madison District:**
Connecting to Jefferson West Park and southern residential

**Downtown West District:**
Connecting to Fargo’s downtown

Benefits of Walkability in a neighborhood:
- Provides a safe and affordable travel for those with or without cars
- Reduces emissions and dependence on non-renewable fuel
- Increases health and maximum longevity
- Improves interaction and neighbors’ relations
- Increases the aesthetic value of the space
- Provides a place for recreation and socialization

Currently, there is a lack of infrastructure in the area. Many sidewalks are in poor condition, and there is a need for better pedestrian circulation. The proposed plan includes new sidewalks, improved crossings, and better connections to the surrounding area. This will improve safety and accessibility for pedestrians.

**Proposed Plan:**
- New sidewalks
- Improved crossings
- Better connections

The proposed plan aims to create a pedestrian-friendly environment that will improve the quality of life for residents and visitors.

**Section perspective:**
- Building
- 500
- Designated cross walks
- Vehicular lanes
- Footpath
- Path
- Barrier
- 2.5
- Path
- Building

The section perspective shows the cross section of the new sidewalk, including the pedestrian path and the vehicular lanes. This will help to provide a safe and comfortable environment for pedestrians.
