ON THE FRINGE

WELCOME TO URBAN FRINGE

Wide sidewalks are key to a successful urban fringe. One of the main ideas for the urban fringe is to provide a good sense of inclusiveness and a sense of community. The project emphasizes the importance of creating a welcoming environment for everyone. The project aims to create a green space that will allow residents and visitors to enjoy the beauty of nature and the urban environment.

HUMAN NEEDS OF A COMMUNITY

The concept of urban fringe is not only about providing green spaces but also about creating communities that can thrive. The project aims to create a sense of community by providing places for people to gather and socialize. The project also emphasizes the importance of creating a sense of place that people can call their own.

PROBLEM STATEMENT

How can sustainable design of fringe development contribute to the placemaking of Fargo and reframe the community's tastes and preferences?

PROGRAMMATIC REQUIREMENTS

- Mixed-use buildings
- Green spaces
- Pedestrian-friendly streets
- Stormwater management

STORMWATER/PLAZA DETAIL

The stormwater management system is an essential part of the Urban Plains project. The system captures and manages stormwater runoff from the site, ensuring that it is used efficiently and sustainably. The project emphasizes the importance of creating a stormwater management system that is both functional and visually appealing.

ON THE FRINGE

The Urban Plains project is designed to create a transition sequence between the urban core and the fringe. The project aims to create a sense of place that is both welcoming and sustainable. The project emphasizes the importance of creating a transition sequence that is both functional and visually appealing.

STREET DESIGN + 1:8 RATIO

The Urban Plains project emphasizes the importance of creating a pedestrian-friendly environment. The project aims to create a street design that is both functional and visually appealing. The project emphasizes the importance of creating a street design that is both functional and visually appealing.

AT THE CORE OF THE POWER OF 10 IS THE IDEA THAT ANY GREAT PLACE ITSELF NEEDS TO OFFER AT LEAST 10 THINGS TO DO OR 10 REASONS TO BE THERE. THESE COULD INCLUDE A PLACE TO SIT, SHOP, RECREATE, PEOPLE WATCH, AND EXPERIENCE NATURE.

Focal Point – This project will include a central focus of interest to create a sense of place. It will be the main attraction towards the site with a sustainable background of nature and beauty.

STREET DESIGN + 1:3 RATIO

The Urban Plains project emphasizes the importance of creating a pedestrian-friendly environment. The project aims to create a street design that is both functional and visually appealing. The project emphasizes the importance of creating a street design that is both functional and visually appealing.

STREET DESIGN + 1:8 RATIO

The Urban Plains project emphasizes the importance of creating a pedestrian-friendly environment. The project aims to create a street design that is both functional and visually appealing. The project emphasizes the importance of creating a street design that is both functional and visually appealing.
