How can an architect inspire a change of relationship between humans and nature from parasitism back to commensalism or mutualism?

A design that can be used as a learning tool for future generations that go through this school to know and have a symbiotic relationship with nature. The design having visible sustainable technology and practices will allow easy learning by all who interact with the design as well as the students. It is important that we as humans learn to be sustainable and have respect for our environment and obtaining this it is important to have a close relationship and to interact with the environment.
