#### Student Satire . .

It was a horrible sight. The sun hid May Festival Awards its face behind the scurrying black clouds to shut out the terrible view Lightning crackled and thunder boom-The earth trembled at Nature's terrible onslaught. The dreaded Fargo gang whose very name struck terror into the heart of every mortal, had stormed the gates of NDSC and started their

campaign of terror.

Black-hooded figures scurried from shades to shades, uttering horrible laughs. Machine guns peeked from every doorway. In the eerie half light could be seen the cold, stark corpses of students who had dared to defend them-

#### Greenshields Elected Tryota President

Tryota, Home Economics club, held elections following an Indian banquet in Ceres Hall, Wednesday evening. Helen Greenshields will replace Claire Putz as president for the coming year. Other officers are Patricia Oram, vice oresident; Barbara Sjordal, secretary; and Marguerite Olson, treasurer.

The banquet decorations were teepees and Indian symbols, carrying out the theme suggested by the name of the club. Helen Greenshields, and Virginia Crust were in general charge. Patricia Oram was in charge of the group singing, the words of the Tryota songs being written by Mary Widdifield. Claire Putz was Mistress of Ceremonies, and introduced a program including num-bers by the Alpha Gamma Delta and Kappa Kappa Gamma trios, composed of Joan Hughes, Elaine Matteson, and Helen Restvedt; Barbara Isaacs, Helen Landbloom, and Mildred Cone; readings by Phyllis Johnson and LaVaun Anderson; and musical selections by Julia Anne Reynolds, Margaret Calhoun, and Patricia Rasmussen

Dean Alice Haley was the speaker of he evening. Miss Minnie Anderson, the evening. advisor of the group, gave a short talk.

#### **Tennis Courts** Will Be Fixed

An idea indorsed by Manny Ladwig with the backing of Blue Key and by Richard Swietzer, YMCA secretary, has been met with enthusiastic approval by Richard Kraft, Superintendent of Buildings and Grounds. The project is to repair and improve the tennis courts just east of Old Main. Cooperation from many offices and organiza-tions has already been volunteered. C. A. Sevrinson has promised that the courts, once they have been fixed, will be maintained by NYA student labor. Coach Finnegan has said that he is all for it, and will help in every way he

Everyone interested in the project is invited to turn out at 9:30 a.m. on Friday and help on the courts. The materials will all be on hand to work with The only purchase necessary is a few strips of chicken wire. Work should be finished on the courts next week.

Later, when the courts are in demand, the period of play for any team will be one set, only AC students will be allowed on the reconditioned courts.

#### We Welcome You!

TO THE MAY FESTIVAL GUESTS:

It is a great pleasure for me to welcome to the campus of the North Dakota State College the May Festival guests. I trust that your stay with us during the May Festival will be as pleasant and worthwhile to you as it is to those of us who are here permanently. Each year, we look forward to your delegation coming to our campus, and it is with increasing satisfaction we notice that your numbers increase and that your projects of each year are not only greater in variety but better

We are glad to furnish the facilities for your various activities for we know that the efforts which have been put forth in being able to participate in the May Festival have not only been well-planned but represent many hours of hard work. We hope you will make every effort to know us better, and, if, during the time that you are with us, there is anything we can do to make your stay more pleasant, to increase the benefits deribed from the various exhibits, or to give you contact with any information you desire, please feel free to call upon any or all of us to help where we can.

JOHN C. WEST. Acting President.

#### Time To Think

By ALFRED THOMPSON

What is to be the destiny of the young men and women of the generation to which we be-long? Will we someday be happy parents living in happy homes or will we be chained to a debt that will outlast our lives and the lives of the generation that is to follow us? Will we see the endurance of the great government that we are now building upon or will this country follow suit with the dictatorships and the remain-der of the governments that are "legally bleed-ing the poor?" Will we be happy to live, finding joy in the coming of every day or will we be maimed and brokenhearted, hating to see the day come for fear of what it may bring? Our fate and the fate of the generations that are to follow us lies in our own hands. It is time that we open our eyes to the situations that underlie the present tide of events in world history.

The Youth Committee Against War which has now merged with the Keep America Out of War committee is asking every young man in this country the question, "MUST WE FIGHT THIS WAR?" This organization has recently published a small booklet titled thus and asks that it be read and discussed in every youth organization in America that we who are the youth of the nation may know the real causes youth of the nation may know the real causes underlying conflicts which embroil noble nations in the most ignoble of earthly crimes. To get copies of this booklet, individuals need only write to The Youth Committee Against War, 1707 H street, N. W., Washington, D. C., enclosing five cents for every copy desired.

Also, Memorial day weekend will find some of the most outstanding men of this country as-

Kern and hundreds of other famous personages will be there to assist in promoting the cause of peace of America with other nations of the world. Men and women from every walk of life, every creed, every doctrine, every race and all other classifi-cations will be assembled there in a concerted effort to keep America out of war.

It is the duty of the fraternities, sororities,

This column is about swing, that brand of music that is driving collegians to the Big Apple and oldsters to bad language and drink. Our first item in this swing about swing

comes from the University of Kansas' W. Otto Miessner, who poses this neat question which contains much illumination about how the collecontains much illumination about how the collegians feel about the swing vs. classics discussion: "Why do less than 2 per cent of college students interest themselves in any kind of music save swing?" He blames the whole thing upon "too much complacent stomach rubbing" on the part of those who train youngsters in music appreciation. and music appreciation.

Item No. 2 comes from Rochester, N. Y., where collegians who like to attend jam sessions on Sunday afternoons have run into the long arm of the city council. The council has ordi-nanced that jam sessions may not be held on Sundays. So sponsors of the swing get-togethers have changed its name to "Swing Symphony," and are fighting the city fathers.

Item No. 3 in this swing review concerns

Dick Wright, Santa Ana Junior College student who has collected a dictionary of swing slang. Here are a few that you may not heard of: 'The 'cats' are the players in a good swing band and when they hold a 'jam session' it isn't a raid on the ice box, but a get-together of swing men who play together for the fun of it." "Mugwho play together for the fun of it." "Muggin heavy" isn't a new love term around college, but it is a musical term meaning playing soft swing music with a heavy beat. When the lads have a "setting in" they are just playing in a band of which they are not a member. Fifteen years ago it would have been known as straight jazz; today the same music is called "corny".

#### Theme of the Week

THE CONDUCT OF THE STUDENT

By ROBERT ARHART Whatever the outcome of the recent

happening at our college, we can point with pride to our conduct in the moments when we might easily have become a mob swayed by mob psychology. Our conduct was all the more admirable when we consider that other colleges and schools under similar cir-cumstances have engaged in rioting and violence. I think of the Univer-sity of Cuba as the classic example of a student body run amuck. Without a vestige of reason in their thinking, they destroyed property, resisted effort of officers to disperse them, and finally engaged in rioting so serious that it was necessary for officers to fire upon the students killing five of them. I cite that example to show the harm that can be done by a student body not properly directed or conducted. There must be cooperation between the students with a singleness of purpose. Then, with collective action they will have a better chance of gaining their demands. A student body presenting a united front is a very formidable argument in itself and is not easily laughed off.

A college campus can be compared to the proverbial sleeping dog or better yet to quote from Thomas Hardy's Reyer to duote from Thomas Hardy's Re-turn of the Native "beware of the fury of a patient man." Once aroused, an ordinarily s'eepy little campus becomes a beehive of activities and the students can become a really powerful body. If correctly used its powers can be a real service to the community or state wherein it is located.

The North Dakota State College has found cause to unite. The power re-sulting from that union is being put to a very good use. The orderly way we conducted ourselves in our demonstrations has gained us the sympathy and admiration of the public and has made our problem their problem. The resentment and indignation of the citizens of North Dakota has been aroused. They are finally cognizant of the state of affairs. Much of the credit for this awakening is due to the students of the Agricultural college campus. The students of this college can contribute a very important service to their state by keeping before the people the need for reform in our state government. North Dakota politics have smelled to high heaven for years—perhaps the last

#### Quotable Quotes (By Associated Collegiate Press)

"It is not too much to say that forces playing on education from without, forces over which educators themselves have little or no direct control are making it necessary for educational institutions to redefine their goals." University of Chicago's Prof.
Newton Edwards points an unwavering finger at one cause of what many
call today's educational revolution.

"Any education which would seem to have as its slogan 'training in techniques which will prevent a sucker from getting a break' or 'training in techniques of friendliness that will entechniques of friendliness that will enable you to get the better of the other fellow' simply falls without the pale of true education. It represents the lowest standards of our society and cannot but be condemned." Prof. A. B. Williamson, New York University, speaks his mind on a publicity-popular phase of education.

"The universities are in the present."

"The universities are in the present juncture on the side of the scientific spirit and freedom of inquiry. Business will be well advised to welcome the dynamic force of education." #### The Collegiate World (By Associated College Press)

A University of Alabama economics teacher recently reported to one of his classes that the debt now stands at some \$37,558,963—and his statement in-spired the school's chief doodler and one-man boom to the pencil and paper industry to stay up late one night to produce these fancies and figures: If the debt were in one-dollar bills

and if they were placed end-to-end, they would encircle the earth at the equator 145 times, or they could be used to make a bridge to the moon \$15 wide. If the currency was stacked 16 to the 16th of an inch, it would form a pile 1,181 feet high, higher than the Cheveler building. In street these

the Chrysler building. In area, these bills would cover 149.6 square miles. But, more important, these bills do form one of the politicians' headaches that no back-slapping panacea will cure. And this isn't politics, either just ask the politicians!

Spring vacations have always been mighty bothersome for college officials ever since the earliest days of our oldest institutions. Witness this edict passed by the Princeton University board way back on Sept. 12, 1759: "Whereas, there is a peculiar Disposition in the Student to go home some Days or Weeks before the May Vaca-tion and the President is Obliged to spend near half his time for almost a month before to hear a great Variety of Pleas and pretenses for that End; and often times half or more upon a and often times half or more upon a Variety of Pretenses have got Liberty to go home before the time appointed which is attended with many Inconveniences; "It is ordered that this Practice be prevented for the time to come, and that none be allowed to go home at that time unless by Reason of Sickness or some such extraordinary Occasion, and that no pretenses be made that a Horse is sent unless there be also a letter from the parents or be also a letter from the parents or Guardian to the President Signifying some extraordinary Reason for it. And such Students Transcribe this Order and send it to their Parents or Guardians some months before the Vacation."

## Taylor To Work At Columbia

David L. Taylor, a senior in botany at North Dakota State college, has just received a one-half time assistantship in plant physiology at Columbia University. Taylor will be personal assistant to Dr. Sam F. Trelease, one of the country's outstanding leaders in mineral nutrient culture work. He will receive \$1,200 and exemption from fees amounting to \$400 per year. fees amounting to \$400 per year. The remainder of Taylor's time will be spent in study and research toward his Ph. D. degree.

Ph. D. degree.
For the past three years, Taylor has been growing Bison flax in mineral nutrient cultures at the NDSC Experiment Station to study the effect of minerals on quality and quantity of oil produced by seeds, under the direction of Dr. E. A. Helgeson, experiment station botanist. Taylor presented with Helgeson a joint paper on the subject last winter at Indianapolis. This work will soon be published.
Assuming his new duties at Co-

Assuming his new duties at Co-lumbia University in New York on Sept 1, Taylor will continue his stu-dies on the things which 'make for quality in linseed oil. He will keep in close touch with the NDSC so that his work will not be lost to North Dakota. According to Dr. Helgeson, it is a distinct advantage to have Taylor, who is interested in North Dakota's problems, located at a great institution where he will be associated with some of the best chemists and plant scientists in the country and where equipment is of the best. Taylor's findings at the eastern University will help supplement studies on flax already made at the NDSC.

Tonight at 7:30 the M. S. T. C. Lettermans club will present an Athletic Carnival in the Teachers College gym in Moorhead. Included on the program are: tumbling exhibitions, tap dances, music by the girl's quartette, folk dances, water skills, wrestling, boxing, and jousting. The main event of the even-ing will be the presentation of the letters to those who have earned them by the Carnival Queen. Interspersed throughout the various acts will be free dancing, making a grand total of five hours of entertainment. The price for students is 15c. A. C. students are cordially invited to attend.

of the county and group chairmen was called for 4:00 in Festival Hall. It was impossible to notify all of the chairmen in the short time, but out of all those notified only 13 showed up. Is this an example of what has happened to our move-ment to back the constitutional amendment? A committee of eleven people has been exerting itself using time that should be spent on school work to provide publicity material and methods of carrying it out. Are you going to let that committee do all the work or are you going to give them some co-operation and insure the passing of Constitutional Amendment No.

The idea behind Wednesday's meeting was to form an organiza-tion from each county to take charge of high school guests, here for the May Festival, from their
