Last LCT Play **Next Tuesday**

The play "The Late Christopher Bean" which is to be presented by the Little Country Theatre, April 20, should be of added interest to many when they remember that the playwright, Sidney Howard, was an

NDAC visitor in 1934.

Famous for his many successful plays, among which are "The Silver 88; Lillian Selstedt, 88; Beats Har-Cord" and "Alien Corn" in which ris, 87; Harold Holmquist, 86, all of Katherine Cornell played. Mr. How-ard is also noted for his interest in 85.8 and Florence Ellingson, Arrural life. Coming as he did at the peak of the depression, Mr. Howard admitted that he was gathering material for a rural play of social significance but as yet he hasn't had it Friday he underwent an operation published.

Recording Bleat Of Lamb Proves Hard Assignment

One of the most unusual assignments that the broadcasting studio at the NDAC has had to fulfill occurred last week when they were requested by WDAY to record the pleating of a lamb.

Operators succeeded in getting two lambs into their studio, but when they tried to make the lambs "Bah" they encountered some diffi-culty. The lambs, it seems, were not in the bleating mood, for the perators waited nearly two hours with nary a sound from either ani-mal. On a sudden inspiration, they separated the lambs, taking one out of the studio and leaving the other in it. Success was theirs when the lambs began bleating for each other, and some good recordings were made, proving that all does not come

to he who waits."

WDAY plans on using these recordings on some of their commer-

Take Heed-"Keep Off The Grass"

THIS is an excellent time to remind the student body of this college to "keep off the grass." The caretakers of the college grounds have always diligently tried to keep the campus looking its best, but in the past they have had little cooperation from the students. At this time of the year, when the tender, fresh shoots of grass are coming up, the lawns should not be subjected to trampling. Paths that already exist are widened because the paths themselves are muddy and those using them walk along the edges. Each year sees the campus further defaced by ugly, every widening regions of trampled lawn.

As college men and women who are proud of our college and its campus we should strive to keep it looking its best. Let's walk around Library Additions instead of taking the shortest way-most of us need the additional exercise.

Talbott's Death Was Blow To State Farmers

HE untimely death, last week of C. C. Talbott, state president of the Farmer's Union, came as a blow to those interested in the cooperative movement in this state. Talbott had been associated with the organization since 1923 and had gained national prominence, being, at the time of his death, a member of the national board of directors of the Farmer's Union organization. His work in organizing farmer co-operatives in this state has been quite successful and of unquestionable value to agriculture in the northwest. He is also credited with having been responsible for the crop insurance clause in the A. A. A.

Mr. Talbott was a courageous, progressive idealist who believed in making dreams come true and it is with regret that we mark his

PHILOSOPHIC MEANDERINGS-

Isn't it strange how a heading on an article will either attract or repulse readers? Most people will probably skip this first paragraph and (we'll bet our last cent) read the one below this. The hurried reader has no patience with anything entitled "Philosophic Meanderings," but a catch-phrase such as this:

GIRLS ON THE LOOSE

will draw your undivided attention. And there are things to be said about girls on the loose. The girl that has no boy-friend in tow is the one with the lipstick on and well groomed Once a fellow going configure. with a girl she immediately begins to sleep an hour later every morning—the early morning primping drill is at an end. And the fellow whose fault this is ceases to be what he once was. A dull light in his eye, a bored look, and a quiet subdued greeting instead of the old cheery "Hi!" of yesterday. He has become a minus quantity as far as the girls on the loose are concerned. But he occasionally has the money to finance a date, and that's no little advantage on this campus.

CLOTHING,

traditionally, and manners in dress in general concern the students of Minnesota not at all. But in that vein that students here have hit a new high in indifference. Mutual poverty and temperamental weather have absolved competition in dress. Look what effect our feeble attempt to rush the spring season last week had on us. We hope for the best, prepare for the worst by keeping the winter undies on, save our money for snooker, look like a bunch of

bedraggled "worry-warts," and don't give a

A CHIP OFF THE EDITORIAL BLOCK-

Block or editorial platform or whatever you want to call it, we are going to take a plank off and do a little spanking. Or let's call it the editorial mind—you know, a collective thing. A thing that collects only dust until a wind, this time it's a political wind, comes along and riles the collected dust. Yes, we would, with a piece of this mind of ours, scrape away some disagreement from between campus political

The fate of frames is sealed. A committee of Senior Staff and Blue Key members have been chosen as in investigating committee to see just what arrangements can be made to instigate the merit system in politics here. With the merit system in effect no more positions would be held by undeserving students who are sponsored by social groups whose only ambitions are political domination. In this election coming up on Friday of this week the Cosmopolitan club expects, with the members they will elect, to do everything in its power to do away with the frame system and put the proposed merit system into effect. The old cutthroat fraternity and sorority deals will be at an end and men who have had contacts with the physical education department and who deserve the positions will be nominated to the Athletic Board of Control.

BEATING AROUND THE BUSH-

Have you noticed how many words have been used in this column to say almost noth-Westbrook Pegler said in his article-column last Sunday that that way of saying things is good journalism. People don't take their news straight, they must have it almost sub-merged in flowery phrases. Well, we have the flowery phrases, but where the deuce is the news? This paper is being put out in a hurry, but this editorial column takes all speed records.-G. P.

Interesting New

Within the last year there has been added to the college library many interesting new books. These cover almost any subject one would wish to read from automobile trailers to philosophy.

Some of the new books are: Motor Car Trailers by Archie Collins; The Hundred Years, 1837-1937, by Philip Guedalla; Pleistocene Man in Minnesota by Albert Ernest Jenks; Rise of Liberalism by Harold J. Laski; Mexican Interlude by Joseph H. Jackson; Was College Worth While by John R. Tunis; The State University by Lotus D. Coffman; Philosophy of Santayana edited by Irwin Edman, and The Biography of William Holms McGuffey and Old Favorites from the McGuffey readers by Harvey C. Minnick. The 14th edition revised of the Encyclopedia Britannica, 1936 edition, has also been bought.

According to Miss Olson, cataloguer at the library there are now about fifty-eight thousand books available to the college student at NDAC.

Get Acquainted With the Library

Students at this college have very little time for extra-curricular reading but it seems a shame that many of us miss so much by not utilizing the time we do have. Many of us who are taking intensively technical courses never are initiated into the delights of literature. We just can't seem to find the time to do a little browsing in the library.

Our college library is well stocked with books on almost every conceivable subject. The best novels of the literary masters both past and present can be found on its shelves. The library should not be just a place to go to look up things for term papers. It should be regarded as a place to which we can go when in need of an intellectual change of scene.-J. C.

At The Movies

Something new in the way of a eminine character on the screen is promised in "Smart Blonde," a mystery-comedy-drama starring Glenda Farrell, which will be shown at the Grand Theatre on April 20 and 21. "Torchy Blane" is the new charac-ter, and she is to run through a series of light yet thrilling pictures, impersonated in each by the lively, likeable and wisecracking Glenda.

The story of a love that changed the destiny of an empire unites with a swiftly-moving account of the founding of England's sea power in that powerful drama of the "Lloyds of London" to be at the Fargo April 18-20. James Cagney has collected together his regular punches and romantic punches to make a thor-oughly entertaining picture of a young deputy who attempts to smash a powerful political ring. He is co-starred with Mae Clarke in "Great Guy" at the Fargo April 21-23.

"Border Flight" on the State Screen April 17 only, is a story of thrills and danger with the coast guard in the air. Frances Farmer and John Howard play the leads. W. C. Fields, famed comedian of two continents is back with a carnival of laughs in "Poppy" April 18-19. The intriguing story of a society in a gangster's world is the theme for "Yours for the Asking" at the State April 20-21. "China Clipper" an exciting story of the growth of American airlines is the weekend attraction at the State showing April

PECTRUM PORT **PECULATIONS**

By BUD THORWALDSON

Lyle Sturgeon, the Bison's 265 lb. tackle, has signed to play with the Green Bay Packers. Sturgeon was named to the All-Conference team last fall, and played for the West in the East-West Classic at San Francisco last winter. The Packers are good pickers. Bob Saunders is another Bison athlete gone profes-sional. He will play with the Fargo-Moorhead baseball team this sum-

Finnegan reports that there have never been so many fresh-men out for either football or track as this spring. Enthusi-asm for athletics is looking up. A share of the credit for all good football teams from this school should go to Dinwoodie, Gor-man, and Lewis of the Extension Division. The results of their continued search for talent has provided material for many a

There's still plenty of time to enter the tennis tourney. Either Dana Leslie of the engineering department, or the Spectrum office will receive hopeful rack-eteers. Bill Stewart will probably win the singles cup.

Seems the coed tennis players suffer no end of discomfort at the hands of jibing male spectators during their Thursday afternoons. They claim the boys stand on the side-lines to jeer and leer. Well, coaches say the best athletes develop under a handicap. We'll prob-ably have a couple of Moodys on the campus within a month.

City College, New York, will be the destination of Dr. Osmund P. Breland, instructor in zoology, who will attend the summer session there to work on insects.

38 Racqueteers Meet Today

With 38 racqueteers clustered in two brackets, the NDAC tennis tournament will swing into action the NDAC tennis building, according to Dana Leslie, general manager. Eight doubles teams have been entered.

Seeded No. 1 in the drawings is Bill Stewart of Fargo who lost in five sets to George McHose in the North Dakota state championship finals last summer. Emory Wester-lund of Moorhead, who has figured prominently in local play, is seeded No. 2 in the lower bracket. Bob Brandenburg of Bismarck and Thad Fuller of Fargo are the other seeded players. In doubles play the Stewart-Westerlund and Brandenburg-Gerald Monley teams are given No. 1 and 2 posts, respectively.

Weather will not hamper the tournament's progress as all games are scheduled for the Field House. Finals in both singles and doubles will be reached within two weeks. Championship matches will be scheduled as a night attraction, with winners, if upperclassmen, to automatically represent NDAC at the NCI meet in Grand Forks.

Meet drawings are posted on the athletic department bulletin board. Leslie urges all contenders to play off first and second round matches

within the next 10 days.

First round drawings are: Francis Ladwig vs. Robert Keith; Monley vs. Dick Cook; Walter Schranz vs. Robert Beck; Wallace Bjornson vs. John Carlisle; Edgar Peterson vs.

First round doubles matches are Stewart-Westerlund vs. Hamlet and partner; Carlisle-Ladwig vs. Monely-Brandenburg; Wichmann - Fuller vs. Brainerd-Edell, and Peterson-Erickson vs. Nelson-Critchfield.

Bison Track Team Commences Second Week Of Hard Drill

Friedrichs, May, Rorvig, Hamilton Will Feature In Dashes

By SAM TOLCHINSKY

The track team swung into its second week of practice with the outlook just as dark as it was when the first call was issued. With most of the varsity prospects alternating between football and track the team weakened still further. Coach John Smith has declared that the competition for posts on the team is still wide open and it is not too late for anyone interested to report for track.

The best chance for the AC to win points will be in the dashes where Gil Friedrichs, Emil May, Dick Hamilton and Carl Rorvig comprise a formidable group. In the distance runs there are three foremost candidates; Lancelot Montgomery, Sylvester Dittbenner and Russel Botsford. The three who are in front in the middle distances are Jim Elwin, Bill Olson and Ernie Wheeler. Ernie is also competing in the field events as is Howard Fraser and Norman Olson.

But there are 25 Frosh out for rack who comprise a powerful outfit. In the dashes there is a great deal of rivalry among Lloyd Troseth, Ted Whalen, and Maurice John Carlisle; Edgar Peterson vs. is keen competition between Emil Walter Hines, and Hugh Anstett vs. Mattson, Bernie Bermann, Vern First wound die Anstett vs. Johnson and George Man. Benz. In the middle distances there Johnson and George Moore. The distance runs claim Henry Elvik, George Dike, Wm. Dick, John Whittlesee, Bruce Ellingson, Taylor, Frank Murphy and Bob Els-berry. Speeding over the hurdles will be Herman Kuehl and Walter Schranz. There are some good prospects in the frosh field events among George Strum, James Mahoney, James Maxwell, Merrill Green, Paul Dahl, Gordon Swanson and

The biggest worry is at the tackle posts, but with 11 aspiring tackles it is possible that Finnegan and Lowe will be able to work up a stronger combination than that of Sturgeon, Millar, and Welch, all of whom graduate this spring.
