NUMBER 4.

## DR. McCRACKEN SPEAKS ON ECONOMIC PROBLEM IN ASSEMBLY THURSDAY

Lecturer Addresses Economics Classes On Agriculture And Tariff

### DATE SET FOR THURSDAY

Speaker Is Student In Fields Of Money and Banking, Labor Problems

Speaking on world monetary problems, Dr. H. L. McCracken will address North Dakota State college students in a convocation on Thursday morning rather than on Tuesday morning of this week as was previously announced.

Dr. McCracken will also speak to morning classes in economics on the subjects of tariff and agriculture. Comments from audiences he has addressed stress the fact that Dr. McCracken speaks in intelligible language on such technical themes as monetary systems and tariff.

As lecturer in economics at the University of Minnesota Dr. McCracken comes to North Dakota through the extension department of that college. His special fields are money and banking, business cycles and labor problems. He has addressed such audiences as business clubs, insurance company meetings, and bank meetings.

For a number of years Dr. McCracken served as head of the department of economics of Penn college later being invited to take the position of president where he served before coming to Minnesota.

As professor of public speaking in Hastings college, Nebraska, Dr. McCracken's students won three state oratorical contests in that many years. He graduated from Haverford college, Penn., and received his Ph.D. degree in economics from the University of Wisconsin.

## Highest Average For Spring Term Is 97.1

Jeannette Panimon, Junior In Science and Literature, Attains Honors

Figures recently sent out from the office of Registrar A. H. Parrott claim Miss Jeannette Panimon as having the highest average in the North Dakota State college student body for the spring term of 1932. Miss Panimon is a junior in the school of science and literature and has the scholastic average of 97.1. She ranks 15.5 above the general average of the college, that being 81.6.

The nine next highest collegiate undergraduate grades are as follows: Marline Cline, 95.4; Roy Simonson, 94.9; David Minard, 94.7; Gordon Johnsgard, 94.6; Howard Kilbourne, 94.6; Albert Buchli, 94.5; Vernetta Hyde, 94.3; Olive Ringen, 94.2; Raymond Cordes, 94.1. Gerald Stevens, 94.1.

Averages by schools place mechanic arts low with 79.7; pharmacy next with 80.9; chemistry, 81.0; agriculture, 81.8; science and literature, 82.4; home economics, 82.6; and education high with an average of 83.0. The statistics show a trend toward higher grades in the senior classes, a steady rise from the freshman average, as illustrated by the group average according to classes: freshman, 79.5; sophomore, 80.7; junior, 82.4; senior, 84.8. The women's average is 2.7 above that of the men's the averages respectively: 80.5 and 80.8.

### NOTICE

Board of Publications meeting has been changed to Wednesday noon, Oct. 5 at Ceres hall. Board members are urged to be present.

George Toman, Pres.

## One Hundred Ninety-Two Pledge Pins Glisten On Campus Today

Theta Chi and Kappa Kappa Gammas Lead Fraternities and Sororities In Annual Fall Pledging—Delta Kappa Sigmas And Kappa Deltas Follow In Line

One hundred ninety-two new pledge pins glistened on the campus today, as North Dakota State college's nine fraternities and six sororities climaxed the rushing period last evening with pledging ceremonies.

With twenty-three pledges, Theta Chi national fraternity led the fraternity groups for the third year in succession at the close of activities on the formal pledge night at the college. Delta Kappa Sigma with nineteen pledges was in second place in number of pledges.

Kappa Kappa Gamma led the North Dakota State college sororities in pledging last evening with fifteen new pledges listed on the chapter roll. With eleven pledges, Kappa Delta sorority came second in the number of new co-eds affiliated to the State college chapter of the sorority.

### DOROTHY FORD BEGINS DUTIES AS LIBRARIAN

Miss Dorothy Ford is the newest member of the library staff at the North Dakota State college according to Ethel McVeety, head librarian.

Miss Ford has taken her library work at the University of Minnesota where she was a member of the Folwell club, a social and educational organization for students majoring in library work. During the summer Miss Ford was associated with the State college library during which time she served an apprenticeship. Her work proper began with the school year.

## Rhodes Scholarship Application Offered To College Students

Character and Ability Listed As Basic Requirements To Selection

Applications for the Rhodes Scholarship to Oxford university, England, must be in to President Thomas Kane of the University of North Dakota by Oct. 22, according to Dean A. E. Minard of the school of science and literature. Blanks may be had in the dean's office.

Each year thirty-two students are awarded the Rhodes Scholarship which is tenable at the University of Oxford and may be held for three years. The scholarship, approximately \$2,000 per year, is sufficient to meet the student's expenses for terms and vacations.

In order to represent his college, a candidate must be high in (1) scholarship and literary ability and attainments; (2) qualities of manhood, truth, courage, devotion to duty, sympathy, unselfishness and fellowship; (3) exhibition of moral force of character and of instincts to lead and to take an interest in his school mates; (4) physical vigour, as shown by interest in outdoor sports or in other ways. Distinction, both in character and personality and in intellect, is the most important requirement and it is upon these qualities that the committee will insist.

Requirements for eligibility are (1) must be a male citizen of the United States with at least five years domicile and unmarried; (2) must have passed his nineteenth and not have passed his twenty-fifth birthday by October of the year for which he is elected; (3) and must by the first of October of the year for which elected have completed at least his sophomore year at some recognized, degree-granting college or university.

Last year Tony Faber represented this school in the competition. He was the only candidate from this school but North Dakota was not represented in the final competition.

Jerome Olson, Page, Kappa Sigma Chi alumnus, was a visitor at the chapter house Saturday evening.

This year's pledge list is the largest in the history of North Dakota State college, according to Registrar A. H. Parrott. Despite the depression and a new set of rules affecting the sorority rushing campaign, more young men and women on the campus made the decision to affiliate with social organizations than ever before.

The complete list is as follows:

Theta Chi—Paul Bibow, Anamoose; Richard Bougler, Dickinson; Paul Carrah, Birchwood, Wis.; Norman Chapek, Anamoose; Lawrence Chloupek, Dilworth; James B. Connolly, New England; Merwyn Dahlin, Argyle, Minn.; George Drakeley, Valley City; Beverly Hill, Erie; Alex Keyes, Pipestone, Minn.; Fred Leppert, Sarles; William Redmond, Devils Lake; Neville Reiners, LaCrosse, Wis.; Harold Simon, Lakota; Bernard Thiels, Bowman; Arthur Walper, Anamoose; Edwin Weeler, Drake; John Hendrickson, John Jenkins, John Myron, Victor Nordlund, John Shaw and John Spalding, Fargo.

Sigma Phi Delta (engineering)—Robert Lacy, Fessenden; J. Ogden Netland, Audubon, Minn.; Harold Spitzer, Ashley; Charles Stearns, Crystal; Hillis Trenbeath, Neche; Russell Cordes, Robert Greenshields, Harold McConnell, Leonard Moffitt, Sidney Shannon and Robert Sundt, Fargo.

Alpha Tau Omega—Edward Ballard, Moorhead; Ben Cave, Bismarck; Dan Cook, Bismarck; Irwin Dokken, Wyndmere; Kenneth Hansen, Church Ferry; Marshall Miller jr., Beach; James O'Laughlin and Robert Reimcke, Moorhead; Franklin Anders, Dave Caselman, Tom Dosen, William Gallagher, Harry Sherwood and Howard Transgrud, Fargo.

Kappa Psi—Lawrence Biden, Mayville; Elmer Bjornerud, Fosston, Minn.; Ernest Budke, Mohall; Oran Craychee, Mandan; Bjarne Dahl, Fertile, Minn.; Paul Gobel, Anamoose; Theodore Hamnes, Stephen, Minn.; Edward Hansen, Hope; George Janecy, Barnesville, Minn.; Raymond Renchin, Blooming Prairie, Minn.; Dale Simons, Bartlett, and Lieber Wells, Edgeley.

Alpha Gamma Rho—Clifford Altermatt, Lakota; Harold Artz, Antler; Sidney Bjorson, Mandan; Gorman Bond, Alexander; William Carney, Williston; Harry Engebretson, Halstad, Minn.; Warren Howard, Cogswell; Donald Nelson, Harvey; Forbes Satre, Courtney; Maynard Sholtz, Hazelton; Edward Steinhaus, Max; Eugene Thompson, Fairfield; Eugene Wiege, Golden Valley; Warren DeLa, Arthur Lee, William Purdy, Ervin Rector and Lewis Rector, Fargo.

Kappa Sigma Chi—Russell Anderson, Litchville; Tom Conlon, Eckelson; Wilbur Hanson, Eckelson; Clarence Johnson, Fargo; Maurice Kappel, Fargo; Lloyd Jordre, Oberon; Lloyd Moore, Stanley; and Wayne Owens, Englevale.

Alpha Sigma Tau—Donald Bettschen, Arthur; Edwin Erickson, Moorhead, Minn.; Paul Gorman, Bismarck; Howard Griffen, Mandan; Edward Hirsch, McClusky; Howard Mickelson, Kathryn; Howard Olson, Kathryn; Gregory Sloan, Lakota; Walter Ward, Bismarck; William Akeley, Lynn Fredrikson, Gordon Horner, Warner Litten, Roy Platt, (Continued on Page 4)

CAPT. FRANK ROSS

## Botany Class Members Make Trip On Sunday To Valley City Region

Eight Advanced Students Study Ecology of Plants In Barnes County

A field trip was taken by members of the class in Botany 401 (plant ecology) to Valley City, in Barnes county, last Sunday to study the fall aspect of the vegetation in the region. A party of eight students and two instructors were included on the trip.

The forenoon was spent in studying the layers of vegetation on the north slopes of the hills southeast of Valley City. Among the results obtained in this study was the discovery of several patches of buffalo grass, which ordinarily growth farther west.

The prairie on the hills west of town was the object of the afternoon's study. Frequency of plants was determined by the quadrat method, soil moisture and soil texture tests were made, and temperature and humidity readings taken.

Students making the trip were Horace Barnett, assistant in the botany department; Lars Jensen, Oberon; Thomas King, Starkweather; Victor Lundeen, Langdon; Gale Monson, Argusville; Greydon Owens, Englevale; Clayton Quinnild, Woods; and Robert Ward, Bismarck. Instructors accompanying the group were Dr. H. C. Hanson and Dr. A. D. Stoesz.

The class intends to make a similar trip next Sunday to the sandhills in northern Ransom county.

### FIRST CADET HOP PLANNED THURSDAY

Everyone—there is to be real fun for all Thursday afternoon as the Cadets hold their first hop of the season. . . . The line forms at four o'clock sharp. . . . Some girls say the blindfold has finally slipped from the great dame "Justice's" eyes. . . . Women no longer will forge through the yawning portals of Festival hall admitted by their peppodent smile. . . . A handsome Scabbard and Blad—er will be at the gate, his grimy paw extended for one dime. The women will pay. . . . The gentlemen receive a cut from the traditional 35 cents to 25 cents for this year. . . . This plan should meet with approval from both camps—and probably will result in better fun crowds at our Cadet Hops, which are the only really informal get-togethers of the college.—R. B.

There will be a meeting of Blue Key fraternity in Ceres hall at 6:30 p. m. Thursday, Oct. 6.

Jack Vincent, Pres.

### NOTICE

Cabinet meeting of Y. M. C. A. at 7 o'clock tonight. Important for all members to be there.

Leo Anderson, Pres.

## PHOTOGRAPH OF STATE COLLEGE RIFLE TEAM SURVIVES GREAT FIRE

Picture Is Found In Ruins of Ateneo de Manila, by Architect

### ROSS WAS TEAM'S COACH

President Shepperd Keeps Charred Picture As Souvenir Of Rifle Team

"To show you how tough your Reserve Officers Training company is, I am enclosing a photograph found in the ruins of Ateneo de Manila, a local college, which picture is marked on the back 'Intercollegiate Champions 1927-1928.'" S. D. Rowland, well known civil engineer and architect of Manila, Philippine Islands, wrote to Pres. J. H. Shepperd this week.

With his letter to the president of North Dakota State college, Mr. Rowland inclosed the charred but intact large photograph of the Bison marksmanship team which won the National Intercollegiate rifle championship for two years in a row, 1928 and 1929. Inclosed on the picture was Capt. Frank Ross, coach of the national honor winning team.

"This photograph went through the worst fire we have ever had in Manila, the great Intramuros fire on Aug. 13, this year. It was found by me during a survey to appraise the fire loss and I consider the circumstances such that they might be of interest to you or some of the men shown in the photograph," Engineer Rowland's letter continues.

"Nothing whatsoever was saved from the great fire, which destroyed three blocks in the city of Manila, except this photograph. I sent it to you to show you how close Manila is to North Dakota."

Manila's greatest fire, which started on Aug. 13, swept away three solid blocks in the Intramuros district before being checked by the combined efforts of all the fire fighting forces in the Philippine city. Among the buildings and sets of buildings demolished by the great fire was the Calle Cabildo, the St. Isabel dormitory, the Bureau of Public Works, the Ateneo de Manila college and the San Agustin convent.

The picture of the state college rifle team was in the Ateneo college buildings, listed among the souvenirs of the firing team from that college which had fired for several years in competition with the Bison. The last time the Philippine college team had fired in postal competition with the Bison was two years ago.

Starting in active national competition in 1928 the Bison team usurped the national intercollegiate title, repeating the process in 1928. In 1929 a five man team from the college won a trip to Washington, D. C. as winners of first place in the William Randolph Hearst national marksmanship trophy race.

The charred picture of the team which brought national recognition to the college is now on file at the office of Pres. J. H. Shepperd as a relic of college interest.

### SALLUME GIVES TALK ON SOCIALISM FRIDAY

David Sallume, State college student and secretary of the North Dakota Socialist party, will speak at the Labor Temple Friday evening on the "Theory of Surplus Values."

Sallume, who is prominent in the national organization, introduced the Socialist party candidate for president when Norman Thomas spoke here in Fargo last week. Sallume is a senior in the science and literature school of the college and comes here from Babson Park, Fla. He formerly attended the Battle Creek college in Michigan.

## AN ACT OF SERVICE

Something like twenty-three nearby high schools were represented in the large gathering of young men and women who attended the football game last weekend as the guests of the college.

Just like the annual May Festival, last Friday's feature was of considerable influence in turning the attentions of the high school students to colleges as a whole and to North Dakota State college in particular.

By giving the high school students an insight into some of the features of college life and a temporary role in those functions of the college, they are brought to think of college as an opportunity open to all instead of something which is talked of but not tried by the great majority. College comes to occupy a natural place in their plans for the future.

Whether the young students find their way to North Dakota State college or to other institutions throughout the country, if they have been influenced to go to college by attentions shown them by the officials of a school, those officials have accomplished good to their state and nation. By adding to the training and development of the young individuals, the way is paved for a more intelligent citizenry and a gradual progression to higher levels of living.

## TO THE PLEDGES

The pledge pins are again handed down to the new freshmen, and again the new freshmen receiving the various buttons lift their chins a little and throw open their coats to the frosty October air. It is thus every year. So be it.

This step in their lives is a big stride up or down. This may be interpreted in two ways. There are those who will be big enough to see that Greek letter is a symbol—nothing more, and that it symbolizes a principle of fellowship and brotherhood—the brothers not necessarily confined within one emblem. And there are those who will not be big enough to get the right slant on the whole thing who will find their college life a somewhat narrow affair.

One is naturally proud of the organization to which he belongs and for which he has expended much or some effort. Without that pride much of the spirit and fraternal activity is lost to the individual.

It is to be advised to all the newcomers, however, that they should not allow their natural pride in their organization cause them to lose the attitude of democratic broadness and consideration of others.

## THAT FIRST WEEK FARCE

Of all the curious phases of this whole curious business of college perhaps the most outstanding is the opening week. \* At any number of institutions it is known as registration week, freshman week, breaking in week and by many other pseudo names. If the institutions were to be perfectly frank, the first few days at the beginning of each year would be known as constituting "blah week."

Why? The following list is evidence enough. There are a series of dances, teas, receptions, and other events politely known as social. Then there is the rushing system where the new student finds himself feted and treated, and wined and dined if he is unlucky enough to possess the credentials the fraternities deem necessary. If he is lacking in these he has the feeling of being left out. Not sensing his good fortune he will perhaps become discouraged.

At a few institutions there are scenes such as one sees in movies of college life. There is nothing original about them and nothing of any value about them. Of course no college opening would be complete without freshmen. In many places instead of welcoming the frosh, a directly opposite situation prevails. The new students are put into innumerable embarrassing positions all for the benefit of the sophomores and the more feeble-minded upperclassmen. Naturally this is entertaining if one happens to belong to the right group, but woe to him if he does not. It is the most unreal phase of the entire mess of unrealities.

Blah week not only causes students who may have become scholars worthy of the name to become discouraged, but it also creates false impressions. It advertises the college as a recreational resort, with just enough classes thrown in to enable it to masquerade under the name "college." There is the possibility of formation of hostilities which will endure through the years. It gives opportunity for a lot of foppish publicity no good of which can come to anyone. Stripped of all its trappings it is just plain blah week.

No matter how glamorous it may seem or how picturesque the pictures may be painted, they are merely a shiny surface.—Manitou Messenger.

## Student Opinion

While a heavy schedule of intramural athletics has been drawn up for the student body, one fact is strikingly apparent. Nothing has been planned for the fall quarter. Basketball does not start until late in the fall term, and until then there is nothing to occupy the activities of the 'sport minded.' It is clear that there should be something to engage the boys during the early fall months, and this writer would like to suggest the formation of an intramural touchball league.

This game came into local interest during the last fall when several fraternities made attempts to organize squads, and as a result, several games were played unofficially. All contestants seemed to derive considerable enjoyment from the sport, and many comments were made expressing the hope that during this year, a league could be organized.

The game itself, is very simple to understand. The elemental rules of football apply, with the exception that no tackling is resorted to, and thus much of the "rough stuff" is eliminated. The game does not suffer any from this change, and is a much faster contest than is regular football. It gives everyone a chance to play, not making weight, exceptional speed, or unusual ability essential. It is truly a game for everyone, and the school would benefit greatly if it could be introduced as an intramural sport. This is just an idea. What do the rest of you think about it?—C. C.

## ROWDY REMARKS

Last night was the night—they've taken the fatal plunge. Everybody's pledged, everybody's happy—but there are surprises to be offered yet. Ah, yes, the fraternity is a great polishing machine, and something is going to be worn down afore long m'lads.

But now the pledge pins gleam, and it's time for the rushers to roll up their "lines", pack them neatly away in the moth-balls, and wait and hope for more fertile fields in next fall's campaign.

So we have a "spy gal" in our midst. This co-ed Mata Hari should get to work and find out who owns the college book-store.

And speaking of foot-ball games—the Kappas have a corner on the water-boys.

The Gamma Phis entertained their rushees in true Hawaiian style—to add a little realism they should have had one of their more wiry and acrobatic members splash across the kitchen sink on a surf-board.

And "When the Bermel is away the Cooper will play."

They say that the power of the press is endless. Tsk, tsk, it's just so much hooey! At least those Kappas still wear their "double-barreled monocles."

What d'yuh think of the Kay Dees and, of them, which one do you think it was who gave four of their rushees the address of a certain fraternity house as the place for their formal tea, Sunday? Perhaps it's just the good old co-operative spirit.

Last line: (Whoin'll started that gag, anyway?)

## PEACE IS RESTORED AS PLEDGING IS COMPLETED

"Everything is quiet on the Potomac", Registrar A. H. Parrott announced today with regard to the 1932 rushing season at North Dakota State college.

There were no complaints or protests registered by any representative of the college's nine fraternities at the interfraternity council meeting, held late Sunday afternoon as a grand finale before the official close of the formal rushing season. The meeting was called to pass judgment in regards to illegal rushing tactics used by any organization, as an annual procedure by the interfraternity group.

A previous meeting had been held last week just before the start of the formal rushing season which began with an entertainment by Theta Chi fraternity on September 23 and was concluded last Friday night by the entertainment given by Delta Tau Epsilon.

The Mothers' club of the Alpha Tau Omega fraternity presented the chapter with a monogrammed set of silver for 48 on Saturday.

Miss Doris Lathrop, former president of Alpha Xi Beta, has pledged Phi Mu at the University of Washington, according to word received here today.

## TEACHER CALLED HOME AT DEATH OF FATHER

Because of the death of her father, Miss Emma Dubetz, assistant professor of modern languages, left Saturday for Lakefield, Minn.

Until Miss Dubetz' return, Miss Sylvia Panimon is teaching her first year German and second year German classes, Miss Jeanette Hooper, first year French, and Dr. Leon Metzinger, French literature.

## HERE -- THERE -- THEM

I'll bet that the ducks and prairie chickens are learning a lot about Journalism these days with T. W. among the nimrods. . . There will be another national Greek-letter organization on the campus before December. . . A certain graduate chemist we know takes his girl to the Isis because it is the darkest place in town. . . We heard a girl at the last football game say that she was glad that House was a lineman and not a back. The same alum said that our cheers and songs had no zip. She led a ball here last winter. . . Did anybody see those two freshmen fall down through the bleachers at the South Dakota U. game. Both of them hail from towns where they have no bleachers. . . Has anyone noticed that Hazel Swanson is wearing a fraternity pin? Jean Pote is carrying around an insignia given her by our football captain. . . The depression has hit the Gamma Phis. I wonder if they can keep that messy dog that they did have in an apartment. The Alpha Xis have broken out with a house this year, and the

Gamma Deltas are crowding themselves into the downstairs of their mansion. . . When the Alpha Xi Beta girls were out house shopping the Delta Taus suggested that they rent the twin duplex to the Delta Tau Epsilon residence. Convenient, huh? . . . Leonard Dahl and his Gate City orchestra will furnish the music for the CADET HOP ON THURSDAY. . . The writer of ROWDY REMARKS can't claim a friend now. He has set a new mark by already insulting nine greek-letter outfits and numerous individuals. . . Johnny Fisher's little daughter had her second birthday last week.—W. W.

## COLLEGE MAN SHIPS POTATOES FOR BOARD

Here's the latest way to earn your board while attending the University of North Dakota.

Carl Peterson of St. Thomas shipped 800 bushels of potatoes to the university for which he will receive board at the commons for the rest of the year.

Peterson and a brother operate a huge farm near St. Thomas and the brother is taking a carload of 800 bushels to North Dakota State at Fargo in the hope he may obtain his board also.

Carl is employed at the university weather bureau station as a recorder of weather conditions.—Dakota Student.

Leonard Severson, alumnus of Alpha Tau Omega from Mott, N. Dak., was a guest over the weekend.

John Bjornson, Kappa Psi, was a visitor at his home in LaMoure last weekend.

Gordon Aamoth, pledge of Sigma Chi at the University of North Dakota, was a guest at the Alpha Sigma Tau house Sunday noon.

## Fritz Hanson Stars As Bison Conquer Coyote Team

### SOPHOMORE INSPIRES BISON ON TO VICTORY AFTER COYOTE SCORE

Improvement In Blocking Is Sought For By Coaches This Week

#### ENDS PLAY GOOD GAME

Hoppel, Adkins and Hanson Show Up Well For South Dakota

By "CHUCK" FRENCH

The 1932 North Dakota State football aggregation opened their conference race Friday night, Sept. 30, by defeating S. G. Backman's strong team from the University of South Dakota. The Coyotes outplayed the Bison through the first quarter, and made their only touchdown. However, the Bison came back in the second and third quarters and scored three winning touchdowns, inspired by a fleet sophomore speedster, Fritz Hanson.

To the local fans, the Bison played a much better brand of ball than was displayed against Concordia college last week. There was a great deal of improvement in the backfield performance and the line was performing with more co-ordination than before. However the need for more blocking still is a major problem confronting the Bison mentors.

#### Hanson Shows Speed

Fritz Hanson, Perham, Minn., was the individual star of the game. It was due to his fleetness of foot and co-operation from the remainder of the team that allowed him to reel off several long runs. In the second quarter, Hanson was instrumental in placing the Bison in a scoring position four times. Three times the ball was lost on downs and was returned to South Dakota. During three quarters of play, Fritz Hanson scored two touchdowns for the Bison and McKay plunged for the third. Fritz' speed and ball-carrying ability inspired the team to spurts of championship power.

The first score of the game went to South Dakota when Jacobson, who was forced to punt from behind his own goal line, had a punt blocked. This was recovered by Haag, right guard on the Coyote line. This made the score 6-0 for South Dakota and things were looking serious for the Bison. It was at this point that Fritz Hanson was given his trial which proved to be what the crowd was waiting for.

When this 143 pound halfback came onto the field the attitude of the team seemed to change and every man seemed to be working for him. The Bison outplayed the Coyotes through the second and third quarters and played them on even terms through the last quarter, spurts of brilliant playing being noticed on both teams.

#### Bison Get Touchdown

Hanson scored the first touchdown for North Dakota State in the second quarter after helping to work the ball from mid-field to the goal line. McKay and Schollander teamed with Hanson to do the most effective work. McKay rarely failed to gain on his line plunges, which, with Schollander's passes throughout the whole game instrumental in placing the team in scoring positions when completed.

It was during the second quarter that the Coyotes blocked another of Jacobson's punts which rolled out into the end zone to give them a safety and an 8-6 advantage. In the third quarter McKay romped off-tackle for the second Bison score making the total 12-8 in favor of the Bison.

#### Fritz Scores Again

The final score of the game was made by Hanson, who weaved and squirmed his way fifteen yards to the end zone. The game ended shortly after the Bison recovered a fumble on South Dakota's 24-yard line, and started another march for the goal. In all cases throughout the game the placekicks for extra points were wide, Schoenfelder missing three and Clnker one.

Larry Hanson was the most outstanding Coyote performer. He was the most active man in the backfield and could run, kick and pass with uncanny skill. His defensive work was well done too. In the Coyote forward wall, Hoppel and Adkins were outstanding. Captain Schoenfelder was the mainstay of the Bison line. Roman Meyers, who has recently been working out in

### BASEBALL PERVADES CAMPUS ATMOSPHERE

"Don't mind me, Prof., I'm a baseball fan," said a late comer at one of the classes last week.

The Wrigley baseball field is far away and the Yorker stadium still farther, but the thuds of bats and balls in the World series, and the atmosphere of excitement of baseball battle has pervaded the campus all week, even to the extent of causing discomforture to some of the local teachers.

Tardiness on the part of the male sex especially has been noted. If one had listened to the bits of conversation floating around the campus he could quickly note the cause.

"Who're you betting on today, Bill? My money's on the Yanks."

"My shekels are on the Cubs. Allen's pitching today."

"Let's run down and listen to the broadcast. I'll miss a class, but then the lecture will be dry and they won't miss me anyway."

So the conversation went. Even a member of the fair sex, with a sparkle of excitement in her eye, was heard to say, "That Lou Gehrig must be some guy. I hope his team wins today."

And now that it is all over and the idols of the diamond have either been victorious or defeated, class room doors have ceased to bang after the opening of a class session.

### FRANK SEEBART TAKES POSITION IN MISSOURI

Frank Seebart, '32, graduate of the school of chemistry, recently accepted a position with the Cook Paint and Varnish Company of Kansas City, Mo., according to word received by Dean L. L. Carrick of the school of chemistry.

While a senior Seebart received the Phi Kappa Phi award and during his junior year held the Masonic scholarship.

He will work in the control laboratory of the paint company until he picks up the routine; then, he will be transferred to the sales department. Working with him will be Charles Oliver, '27, and Herbert Zimmerman, '21, also graduates of North Dakota State school of chemistry.

the backfield and who has been shifted back to his old position at end, and Jacobson shared the line honors with Schoenfelder.

The summary of the game is as follows:

|              |    |           |
|--------------|----|-----------|
| N. D. S. C.  | le | S. D. U.  |
| Meyers       | lt | Adkins    |
| Schoenfelder | lg | Everett   |
| Jahr         | lc | Moore     |
| Paris        | rg | Dyson     |
| Orness       | rt | Haag      |
| Pirnie       | re | Hoppel    |
| Jacobson     | q  | Groves    |
| Selliken     | lh | L. Hanson |
| Fisher       | rh | Olson     |
| Schollander  | f  | Sherwood  |
| McKay        |    | Clinker   |

Substitutions: N. D. S. C.: M. Hanson for Fisher, Miller, for Orness, May for M. Hanson, C. Olson for Meyers, M. Hanson for May, Orness for Miller, Peschel for Pirnie, House for Orness, Erlenmeyer for Jahr, Marquardt for Jacobson.

S. D. U.: Martin for Dyson, Stuben for Everett, Ostlund for Moore, Lennon for Stuben, Ilsely for Ostlund, O'Connor for Sherwood, Martin for Dyson.

Scoring—Touchdowns—N. D. S. C., Hanson, 2; McKay, 1; S. D. U.—Haag, 1; Safety—Moore.

Officials: Umpire, Bill Brennan, Ames; Referee, Colvin McDonald, U. of Minnesota; Head Linesman, P. E. Mickelson, Morningside.

### Intramural Schedule For Coming Season Includes All Sports

Athletic Department Aims To Include All Students In Program

A full schedule of intramural sports is planned for the coming year, with virtually every type of sport represented in the list. With the aim of every student represented in at least one sport, the athletic department is forging ahead with plans for a full year of intramural activity.

The first sport that will come into prominence will be basketball. Interfraternity contests hold the major place in this division, but an excellent league is sponsored by the college Y. M. C. A. for non-fraternity men. In the fraternity league a pre-season tournament will be conducted to aid the coaching staff in discovering talent for the varsity squad. After Christmas the regular schedule of fraternity games will begin, and will be continued until early in the spring. The Y league will probably start immediately after the Xmas vacation and will be continued throughout the winter.

Running concurrently with the basketball tournaments will be the regular winter hockey tournaments. In this sport there are also two divisions, the fraternity league, and an independent league. The season will start as soon as the weather permits, and will continue until spring thaws force its abandonment.

In the spring there are several varieties of sport to claim the attention of the enthusiasts. Track and baseball hold the major places, but there are also tennis tournaments and golf matches for those "addicts" who desire them. The spring track meet takes place about three weeks before the close of the spring term. While the competition is mainly between fraternities, anyone may enter the meet either independently, or on the Y. M. C. A. team. The interfraternity baseball league begins shortly after the beginning of the spring term and runs throughout the quarter. The golf and tennis tournaments will be scheduled for the spring quarter, but nothing definite has been offered as yet, in the way of dates.

With this strenuous program out for the student body, it appears as though there will be enough athletic activity for everyone. The 'Forgotten man' has been remembered, at least in the line of opportunity for athletic endeavor.

Nels Brakke, Kappa Psi alumnus, visited the local chapter house Sunday accompanied by Messrs. Osmon and Fossum from McVile, N. Dak.

Percy Evander visited at his home in Underwood over the weekend.

### SORORITIES ENTERTAIN NEW PLEDGES MONDAY

After pledging services last evening the State college sororities entertained their pledges at several varied functions.

Kappa Kappa Gamma entertained in the home of Mrs. R. E. Weible, 714 8th St. So. Refreshments were served with Elizabeth Olson in general charge. Pledges of Alpha Xi Beta were taken to the home of LaVerne Dickinson, Dilworth, Minn., where entertainment was provided and refreshments were served.

Phi Omega Pi and Alpha Gamma Delta entertained in their respective chapter houses and Kappa Delta and Gamma Phi Beta entertained their new pledges in their apartments.

Thomas King, Ole Grottaden and Gordon Heggeness hunted prairie chicken near Ayr Saturday afternoon.

Earl Ellingson and Joseph Aasen, Kappa Sigma Chis, spent the weekend at Hillsboro and Hatton, respectively.

Norman Peterson, Kappa Sigma Chi, spent the weekend hunting ducks at his home near Leal.

Cleve Sorenson and Waldemar Knudson, members of Theta Chi fraternity, are now registered in college work at the University of Minnesota, taking advanced work in dairy and commerce, respectively.

"Mix and Shake—Slogan, As Students, Faculty Welcome Frosh at Reception" is headline in last week's St. Olaf college newspaper. Is Northfield out of the prohibition belt?

## Engineers' Magazine Sends Two Delegates To Iowa Convention

Number of Changes Are Made In Organization, Style Of Publication

Despite the fact that the North Dakota State College Engineer is not a member of the Engineering College Magazines association, that organization has invited The Engineer to send two delegates to their four-day convention, starting Oct. 27 at Iowa university, Iowa City, announces Edward Comm, editor-in-chief.

Comm has made several changes in the style and organization of the book. The number of columns has been changed from two to three and size of type from ten point to eight point with the spacing the same. The arrangement facilitates reading and is the form most approved by the Engineering College Magazines association.

Plans to combine dues to the Engineers' club and a subscription to The North Dakota State Engineer are being formulated so that both will be in the reach of all engineers.

Prof. Waldo E. Smith of the civil engineering department has been selected to serve on the faculty advisory board of the magazine because of valuable service he has rendered the staff since coming to the college a year ago. Professor Smith comes from Robert college, Constantinople, where he was assistant professor of civil engineering. He received his master's degree at the University of Illinois and his bachelor's degree from the University of Iowa.

Erling Hedahl, formerly circulation manager of The Engineer, has been shifted to the business managership, to succeed Gordon Strong who will not return to school this year. Hedahl is a member of Sigma Phi Delta, Tau Delta Pi and Scabbard and Blade. Paul Deal, junior in mechanical engineering, succeeds Hedahl as circulation manager.

The staff of The North Dakota State College Engineer is Edward Comm, editor-in-chief; Erling Hedahl, business manager; Oliver Blecken, associate editor; Paul Deal, circulation editor; and Milton Lee, advertising.

## Twenty-One Students Register To Practice Teach In Fall Term

Education Course Open To Those Seniors Meeting Special Requirements

Twenty-one State college seniors are registered in Education 8, a practice teaching course, during the fall term, according to Prof. P. J. Iverson, director of the training school, and professor of secondary education. Classes taught by the seniors are composed of the college high school students.

Education 8 is open only to seniors in the college who can meet certain requirements as set forth in the school of education, the main one being that no one is permitted to teach without first having taken Education 311, 317 and 319, and a course in special methods.

Members of the faculty supervising students in the various departments are Prof. C. A. Sevrinson, social sciences; Ruby Grimes, mathematics; Eloise Waldron, English; Archie Solberg, zoology; Dr. A. D. Stoesz, botany; Alice Bender, public discussion; Prof. Iverson, commercial subjects; Dr. Leon Metzinger, modern languages; Robert Lowe, men's physical education; and Dorothy Cole, women's physical education.

Students registered in the course and the subjects they teach are: Ruth Bowers, French; Jeanette Lee, Carl Miller, and Aldyth Pinkham, history; Agnes Mohr, German; Arvin Solem and Don

## NORTH DAKOTA COLLEGE STUDENTS VIEW CONSTRUCTION

Thirty junior engineering students of the North Dakota State college, Fargo, were in Duluth last spring to inspect industrial plants during their annual trip, accompanied by two professors. They are pictured above with their instructors, Prof. George Yott and Prof. Waldo Smith, of the electrical and mechanical and the civil engineering departments, respec-

tively. While there the delegation visited the steel and cement plants, the Minnesota Power & Light company plant, the Aerial-Lift bridge, Thomson dam, Northern Cold Storage company building, the municipal sewage and waterworks system and other points of interest. The delegation visited iron range towns before arriving in Duluth via the Ely-Finland trail.

Harris, physical geography; Robert Weir and Arthur Lensegra, biology; June Fredeen, shorthand and typing; Gerald Garlid, Ora Hammerud, Pearl Dahl, English; Frances Wright, public discussion; Arthur Cramer, Katherine Cramer, social science; Madeline Kaiser, algebra; Jeanette Greenshields, geometry; Frances Hedner and William Carney, physical education.

Students registered in Education 8 are also required to observe teaching work. An arrangement has been made with the Fargo public schools whereby special observation privileges have been extended to college students, according to Professor Iverson.

## You don't Need to Pay fancy Prices... for Correct Stationery

THIS note paper is correct for informal correspondence. We have supplied it for 18 years to many of America's most prominent families. It has been a favorite also among college men and women.

With the introduction of the new "450 Package" the cost of this fine note paper is made lower than ever. It actually costs *less* than cheap stationery.

It's the same style note paper we have sold for 18 years—same printed name and address—same prompt delivery—same price. *But the quantity is 50% greater!*

Send one dollar (\$1.10 west of Denver and outside of U. S.) and get one of the biggest bargains in fine merchandise offered in America. Your package printed and on its way to you within 3 days of receipt of your order. No agents or dealers. Sold by mail only. Absolute satisfaction guaranteed.

## 50% Bigger THE NEW "450 PACKAGE"

You can't buy *any* stationery at *any* price better suited to your informal correspondence than the new "450 Package." It is correct note sheet size, 6" x 7". The quality is actually better than found in many boxes of high-priced stationery.

Give American Stationery for Christmas. It's a better gift than ever this year. Make up your list now and have your Christmas shopping done—early, economically and thoughtfully.
