Increase in Sophomores

The increase in the number of sophomores is due to the fact that more students are returning to college after having taken a year or two off.

In order that the rally as well as the game be a success it is necessary that the students support the teams and work hard in the interest of the university.

College Education For the Few

We are informed that a college education is rapidly becoming essential for an intelligent people. We feel sure, however, that any student who has been thrilled by Virgil, has read some of Cicero's, and even those who have struggled over the translation of Caesar's, must admit that not only one of the most beneficial, but also one of the most essential experiences they have ever had. For this reason, we should like to see a course in Latin offered soon here in our school under the watchful eye of an enthusiastic teacher.

The Mysterious Monument

By Harriet Pearson

The rock of granite standing on a small knoll east of the library was inscribed with the words, "We honor the memory of the young men who had long been associated with the institution and who had given their lives for the cause of Freedom." The inscription is still legible, but is now surrounded by weeds. This monument serves as a memorial to the men who gave their lives for their country.

Letter of Requests

To the Yappe Kangas

Student body representatives have submitted the following requests: 1. That the college publish a yearbook to be sold at 50 cents each. 2. That the college provide a library for the use of students. 3. That the college establish a physical education department.

Student Opinion

Every college today has its own students, and State College is no exception. The student body is an important part of the college, and it is important that students be involved in the governance of the college. It is important that students be given a voice in the decision-making process of the college, and it is important that students be given the opportunity to express their opinions and to participate in the governance of the college.

Bannon Folly

As this issue goes to press, the whole campus is in a state of suspense. We await the outcome of a decision made by the Board of Regents. The decision has been made, and the outcome is now known. The decision was made, and the outcome is now known. The decision was made, and the outcome is now known. The decision was made, and the outcome is now known.
