

THE SPECTRUM

VOLUME XLV.

STATE COLLEGE, NORTH DAKOTA, TUESDAY, SEPTEMBER 30, 1930

NUMBER 1

Thundering Bison Herd Stomps To 21-13 Win

Kappa Sigma Chis, Betas Head Spring Term Honor Roll

Kappas, Kappa Deltas, Alpha Gamma Delta Make Very Good Averages

WOMEN AVERAGES HIGHER

Sigma Phi Delta, Beta Chi, Sigma Tau Lead Fraternities

Alpha Xi Beta sorority with an average of 85.3 led the social sorority and fraternity honor roll for the spring term. Kappa Sigma Chi led the fraternities with an 85 average.

Kappa Kappa Gamma was second among the sororities with 84.6; Kappa Delta, third with 83.9; Alpha Gamma Delta, fourth with 83.7; Gamma Phi Beta, fifth with 83.6; and Phi Omega Pi, sixth with 81.7.

Sigma Phi Delta placed second among the fraternities with 83.6. The ranking order of the remaining fraternities is: Beta Chi, 83.4; Alpha Sigma Tau, 83.1; Alpha Gamma Rho, 82.3; Delta Kappa Sigma, 81.6; Theta Chi, 81.3; Kappa Psi, 80.8; and Alpha Kappa Phi, 80.0.

Sorority women ranked higher than non-sorority women with 84.1 against 81.9. Fraternity men led the non-fraternity men 81.2 to 80.5.

Bowman Recovering From Auto Accident

Clifford Bowman, junior in the School of Chemistry, is reported to be recovering from an automobile crash which occurred west of Valley City, September 21.

Bowman was on his way back to school from Manning where he had been spending his vacation with John Rooney on the latter's farm. Bowman is said to have been knocked unconscious by a telephone pole which the car hit in its descent down an eight foot grade. The State College student was immediately rushed to a hospital in Valley City. Rooney was uninjured in the crash.

Bowman is a member of Theta Chi fraternity.

FEDERAL ENTOMOLOGIST LEAVES CITY FOR TEXAS

W. G. Bruce, federal entomologist, who has been located here since last May doing research work with the cattle grub in this territory left last week for Dallas, Texas, where he will take charge of the Federal Station of the Bureau of Entomology.

"If our present plans materialize," stated Mr. Bruce, "I shall be back in Fargo next May to continue my research work on the cattle grub. Because of two unusually dry summers just past it is necessary that more work be done with the cattle grub project in order that more reliable data be obtained."

The territory adjacent to Fargo is one of the very few cattle grub free areas in the United States, and due to this condition Mr. Bruce has been making his studies to determine what makes the area cattle grub free.

COLLEGE BUYS INTEREST IN NEW HOLSTEIN BULL

The purchase of a half interest in a new Holstein bull for the dairy herd of North Dakota State College is announced by J. R. Dice, head of the dairy department. According to the terms of the transaction the college will have exclusive use of the bull for three years.

Dean Pansy Ormsby Piebe, the new bull, is a member of the family long noted for type and production. His six nearest dams averaged 945 pounds of butterfat in a year, which is equivalent to 1,181 pounds of butter. His sire's dam made a record of 963 pounds of fat as a three and one-half year old, the highest record for the year 1926.

Dean Pansy traces three times to King Pieterje Ormsby Piebe, the youngest sire to have 15 daughters that have produced over 800 pounds of butterfat in a year and said to be the world's greatest sire of show ring winners. The bull was purchased from an Iowa breeder.

LUTHER PRESIDES AT PEP RALLY FRIDAY

Pep talks, yells, and band music formed a pep rally Friday morning for the Davis-Elkins game. Leonard Luther, president of the student commission, was chairman.

Jack Knight, Fargo; and Paul Faber and Robert Graham, Bismarck, freshmen, led the assembly in college yells.

Short talks were given by C. A. Williams, '14, representing the alumni; Casey Finnegan, coach; Leo May and Cy Lonsbrough, members of the football team.

Dr. C. S. Putnam led the band in college songs and introduced a new song to the tune of "Anchors Aweigh," the navy song.

Alpha Zeta Has Highest Average For Spring Term

Phi Beta Nu Second With 89.5; Senior Staff, Phi Gamma Nu Aso High

Alpha Zeta led the campus organizations for spring term averages with a 90.3 average. Phi Beta Nu was second with 89.5. Senior Staff was third with 89.1, Pi Gamma Nu, fourth, with 88.9; and Alpha Phi Omega and Rho Chi tied for fifth and sixth with 88.4.

Other organizations on the campus ranked in the following order: Lincoln Debate Club, 88.0; Kappa Tau Delta, 86.8. Edwin Booth Dramatic Club, 86.6; Phi Upsilon Omicron, 86.3; Gamma Tau Sigma, 86.0; Y. W. C. A. Cabinet, 96.0; Woman's Senate, 85.9; Spectrum Staff, 85.8; Bison Staff, 85.7; Scabbard and Blade, 85.6; Saddle and Siroloin, 85.5; Panhellenic Council, 85.3; State College Engineer Staff, 85.1; Student Commission, 85.1; Chemists' Club, 84.6; Y. M. C. A. Cabinet, 84.6; Blue Key, 84.5; American Institution of Electrical Engineers, 84.4; Delta Psi Kappa, 84.1; Woman's Athletic Association, 82.8; Engineers' Club, 82.7; Guidon, 82.7; Ateloir Chat Noir, 82.3; Kappa Epsilon, 81.8; Newman Club, 81.4; and N. D. A. C. Pharmacy Club, 80.4.

Orientation Week Acquaints Neophytes

September 19 marked the beginning of a four day Freshman Orientation program. The college neophytes were introduced to the faculty, became acquainted with the campus and were initiated to the traditions of North Dakota State. The Orientation closed on September 23.

Registration, the Football Game, and the First Freshman Mixer started the series of events. President Shepherd addressed the class on courses, friendship, and explained many of the most difficult Freshman problems. The Y. W. C. A. in cooperation with the Y. M. C. A. served three meals for the students on Sunday, and Mr. Williams between courses led with college songs. The new students were shown the city on Sunday afternoon. The first rally on Sept. 22 came before the placement examinations in Chemistry and English. The All-College Hop on Monday at 4 p. m. was sponsored by the Student Commission in order to give the new students a chance to become acquainted with the upper classmen.

The program was continued on Tuesday with a Physical Education Program and a talk on Social Problems by Dean Sudro. The President of the Student Commission, Leonard Luther spoke on the Student Activities, and brought to a close the Orientation Program for the Freshmen.

SEED AND GARDEN CLUBS HAVE INCREASED IN N. D.

4-H pure seed and garden clubs in North Dakota have increased both in club numbers and in club membership according to E. G. Booth, extension agronomist at the State College.

At present 674 club members in 61 clubs are working on crop projects in the state. Last year 26 clubs with a total membership of 318 were functioning in pure seed and garden growing.

Dr. Booth says that the 4-H seed club are serving an additional useful purpose as field demonstrations of pure seed to interest many more farmers in pure seed and garden growing.

RUSH MAN RUSH

Rushing days are here again, with their herds of new freshmen renewed hostilities and the endless miles of bared teeth. From behind drawn curtains come many hollow shrieks and much detached hair. Charming coeds, and otherwise, sally forth, precariously balancing the chips on their respective shoulders, and just daring anyone not to knock it off.

Instructors are actually demanding one's presence in class, when one has so many things of greater weight on one's mind, and we marvel at their guileless optimism in passing out the deluge of assignments in this hectic day. One sighs and anticipates the time when everyone is properly pinned up and settled down.

The poor freshmen bewildered at this unforeseen primitive savagery have acquired a wild look in their eyes, and a certain hunted shiftiness. Alas, poor freshmen, the worst is yet to come. You have yet to be torn limb limb, to run the gamut of the fraternities 2 1/2 minutes before silence, being flogged pitilessly at each step by one's tears, the next one's threats, by their tender entreaties and the rosy promises.

Heed not the jibbering of a succumbing rusher. I am not one to advise, but my counsel is to keep stiff the upper lip. Order will succeed this chaos, and their will be peace on earth, although I can't promise good will.

New YWCA Secretary Creates Activities For State College Women

Mrs. Carl A. Teet Comes Here With Four Years Work at Minnesota

Mrs. Carl A. Teet, a graduate of the University of Minnesota and a member of the university campus Y. W. C. A. cabinet for four years, comes to the North Dakota State College to the position of secretary of the Y. W. C. A. which Mrs. T. Worden Johnson held last year.

Following her graduation from the University of Minnesota, Mrs. Teet served as Girl Reserve Secretary at Green Bay, Wisconsin for four years.

Mrs. Teet has many ideas, new to the college, which she intends to put into practice. The big sister movement has already been enlarged. This year outstanding junior and senior girls have been chosen to act as big sisters to the freshman girls. The Y. W. C. A. is also holding for the first time a second-hand book exchange which any student may use.

Plans to Organize
Plans are now being made to organize an office committee of underclassmen, who will be in charge of the Y. W. C. A. rooms when the president and secretary are absent. This committee, Mrs. Teet believes, will give underclassmen an opportunity to get acquainted with the Y. W. C. A. and to give service.

Mrs. Teet and Marjorie Beatty, president of the Y. W. C. A., will soon create a freshman and sophomore commission which will consist of a limited number of girls who are interested in Y. W. C. A. work and who will be trained to be leaders in the work. Discussion groups will be held to which all college girls will be invited.

Greatly Impressed
"I was greatly impressed by the wonderful attitude shown to the new incoming students. Other schools of this size and larger could profit by the example set by this college," says Mrs. Teet. "We are looking forward to a most interesting and successful year for the Y. W. C. A. and we hope that the girls will make it their campus home."

ENROLLMENT SHOWS GAIN OVER 1929-30

The total enrollment at North Dakota State College is considerably larger during the first week of school than that of last year over the same period of time, A. H. Parrott, Registrar, stated.

The Freshman class is the largest class on the campus, having 490 members. By the end of next week the total enrollment of the college is expected to be 1450.

DICE SAYS WHEAT USED IN DAIRY COW RATION

Prof. J. R. Dice, head of the dairy department, states that wheat can be used to advantage as a substitute for any of the farm grown grains or for wheat bran in the dairy cow's ration.

For good results any grain should be mixed with at least one other grain, and this is especially true of wheat when it is used in the ration for milk cows.

Trials were made to determine whether wheat was palatable and proved that the cows would eat it readily. It was discovered in trials to compare ground wheat to barley that while the cows averaged less pounds of milk they averaged to produce more pounds of fat.

Solberg, Jorde Led State Students In Spring Averages

Don Beaudine, Edwin and Lois Minard Tied With a Count of 93.8

Archie Solberg, a senior in the School of Education, with an average of 94.1 led the spring term honor roll. Roy Jorde, junior in Agriculture was second with 93.9.

Donald Beaudine, a sophomore in Mechanical Engineering, Edwin Minard, senior in Chemistry, and Lois Minard, junior in Home Economics, tied for third, fourth and fifth places with an average of 93.8.

E. Hoyt deKleine, senior in Science and Literature, placed sixth with 93.7. Hartley Eckstrom, freshman in Chemistry and Engineering and Inez Jahr, junior in Education were tied for seventh and eighth places with 93.6 averages.

Virginia Lundquist, junior in Chemistry was ninth with 93.5 and Gerald Garlid, freshman in Science and Literature with 93.4 was tenth, completing the honor roll for the spring term.

Canniff Heads Big Sister Movement

Miss Jane Canniff, vice-president of the college Y. W. C. A. and chairman of the big sister movement, headed the 23 junior and senior girls chosen to assist freshman girls during the Orientation week, Sept. 20 to 23.

The big sisters maintained information booths, aided the freshmen in registering, and acted as hostesses at the social functions given for the freshmen.

Big sisters were: Myrtle Allen, Amy Oscarson, Dorothy Smith, Maurine McCurdy, Jane Barton, Marjorie Beattie, Kathryn Engebretson, Ethel Renwick, Eleanor Erickson, Lorissa Sheldon, Bernice Beaudine, Ethel Kraft, Ruby DeOtte, Jane Canniff, Doris Lathrop, Lois Minard, Eleanor Johnson, Cally Berrigan, Kathryn Knerr, Elizabeth Woolledge, Grace Hunkins, Dorothy E. Smith, and Irene Hudson.

FRATERNITY PARTIES PLANNED FOR RUSHING

Several parties for rushees of the fraternities here are being conducted by the men's Greek letter organizations. A schedule for the social affairs for rush week was adopted by the Inter-Fraternity council.

Kappa Psi and Sigma Phi Delta inaugurated the rushing parties, entertaining their rushees last Friday. Delta Kappa Sigma members were hosts to their rushees at a banquet Saturday night, and Alpha Sigma Tau held a smoker Monday night.

Continuing the social events, Kappa Sigma Chi and Delta Tau Epsilon will be hosts to their rushees tonight. Theta Chi and Beta Chi are scheduled to entertain Wednesday; Alpha Gamma Rho, Thursday; and Alpha Kappa Phi, Friday.

Saturday, Oct. 4, will be open to all fraternities. Formal pledging will take place Monday, Oct. 6.

DELTA TAU EPSILON ENTERTAINS TONIGHT

Delta Tau Epsilon will entertain this evening at a duck dinner in honor of freshmen guests. This will be followed by a smoker at 735 College St. The ducks are a result of a hunt in Minnesota by Orville Call, Fred W. Piper and Verne Volden.

Lonsbrough Runs Seventy Yards For First State Score

Bright Suited Team Present Flashy Offense in First Half

CAPTAIN MAY KICKS WELL

Blocked Punts Account for Two Touchdowns in Final Period

The Great Spirit of the Plains did not extend a very cordial welcome to the three Indian chiefs and their comrades from West Virginia when the Scarlet Hurricane met their masters in the Thundering Herd of the North Dakota prairies. The close of the titanic struggle found State at the long end of the 21-13 score.

Most of the names in the State College lineup aren't Irish, but they must have had a great deal of Finnegan in that game with Davis-Elkins.

Lonsbrough Runs 70 Yards

Lonsbrough provided the feature of the game with a 70 yard run for a touchdown in the third period. It is hard to understand how Cy happened to run so fast, especially for such a long distance. However, he had enough drive left at the end of the run to drag a tackler over the goal line with him.

A crippled hand meant nothing to Paul Bunt for his presence in the struggle was quite evident to the Red Clad Boys. One of the passes Bunt received from Lonsbrough he carried to the Davis-Elkins' 2 yard line. The next play resulted in the Bison's second tally.

May Kicks Well

That educated toe of Leo May's gained an advantage for the Yellow and Green time and again. His punting saved the Bison from numerous tight places.

Schoenfelder was outstanding in the Bison forward wall. Besides smearing many line plays he had an uncanny ability for getting the safety man after a Bison punt.

As a unit the State College squad was entirely different from the one that faced the Concordia eleven a week before. The line functioned like a group of veterans after a few miscues in the first half.

Irvin and Fields did a very effective piece of ground gaining for the Davis-Elkins during the first half while the New York Sun's All-American center in 1928 and 1929, Hawley, was outstanding in the line. The bright suited team presented a flashy offense in the first half which made things look bad for the Bison, but the second period told an altogether different story.

Whitfield Scores

The first score of the game came in the second quarter on Davis-Elkins' second march down the field. From the 4 yard line Whitfield carried the ball around his own right end for a touchdown. Hawley's placekick was good and the half ended, Davis-Elkins 7, Bison 0.

Shortly after the beginning of the third quarter Lonsbrough broke thru his right tackle and ran 70 yards for a touchdown. May kicked goal and the score was tied, 7 to 7.

Before the quarter was over the Bison had scored their second counter. They were stopped after a march from their own 40 yard line to the Davis-Elkins' 21 yard line. An exchange of punts found the Bison only one yard farther from the goal. A pass, Lonsbrough to Bunt, put the oval two yards from the goal where Cy crashed through center for the second score. May's kick was good and the third quarter ended with the score, Bison 14, Davis-Elkins 7.

Each team counted one touchdown in the final period as the result of blocked punts. The Bison gained an extra point when May's third placekick was good. The game ended with the ball in the Bison's possession on the Davis-Elkins' 14 yard line. The final score: Bison 21, Davis-Elkins 13.

DELTA SIGS HAVE GUESTS

Herm Herland, alumnus of Delta Sig, has been a visitor at the house the past week.

Fred Mudgett, Sigma Chi from North Dakota, was a guest at the Delta Sig party Saturday night.

The SPECTRUM

Official publication of the students of North Dakota State College. Published every Tuesday and Friday during the school year. Address all communications to the Editor-in-Chief.

Subscription rate: \$2.00 per school year.

Entered as second class matter at State College Station under the act of March 3, 1879.

Spectrum Telephones: Day 4903; Night 5525.

MEMBER NORTH CENTRAL PRESS ASS'N.

WELCOME!

For the past ten days over five hundred freshmen have endeavored to find their way about State College campus. Their first welcome and introduction to the life of the college came during the Orientation program and gave the yearlings an insight to this institution of higher learning.

Now, in this first issue of the Spectrum, the entire staff joins with the rest of the college in extending the glad hand to the collegiate neophytes. This is your paper. We want you to contribute to it, to show an interest in its future by applying for a staff position if it is your fortune or misfortune to be possessed of journalistic ability.

This paper is a mirror of life on the campus, but only with the help of the student body can we expect to picture the actual life of the college. Signed opinions are the foundation of the student thought and are desired by members of the staff. Freshmen as well as upper classmen are asked to reveal their impressions of any phase of college life through this medium.

There is no need for us to advise the frosh of a good start because they are at the age of intelligence where they have figured this out for themselves. We can and do, however, wish the members of the first year class a very successful school year.

A SORROWFUL PASSING

The college, the city, and the entire state mourns the passing of Francis Sheldon Bolley, beloved wife of Professor Bolley. Nothing we can do or say can alleviate the sorrow of the Professor, his family, and her friends, but the entire college extends its most heartfelt sympathy.

RUSHING

Fraternity and sorority rushing is occupying the attention of a large percentage of the college student. Little fraternity groups line the sidewalk from Main to Science so the even the most evasive rushee has not a single chance to escape. The sorority women have gone into this rushing business as if it were a life and death matter, parties, teas and banquets mark their activities.

Our advice to the fraternity or sorority rushee is to look them over and if they hand you quite a line, try and make them prove it. To the rest of the school who are not being occupied by the Greek Letter activities feel thankful that you do not have to neglect your studies for social obligations. If you are not pledged there is nothing to feel badly over, for many of the best men and women are picked up after the fall rushing. If you have the stuff in you any organization is going to be glad to claim you for a member.

UNDOUBTEDLY

We feel that the Bison victory on Saturday evening was an outstanding achievement for Casey Finnegan, The Thundering Herd, and the State supporters. On a whole the triumph was unexpected and therefore all the more gratifying. The highly touted Davis-Elkins aggregation went to bed that evening with the realization the prairies must be the natural home of football players.

Proud? undoubtedly. Tough? undoubtedly. Conference champions? undoubtedly.

THE SOPH-FROSH ARGUMENT

Each year the annual Sophomore struggle with the Freshmen becomes more of a farce than ever. Last year the second year men reached the height of their apathy and never a green cap of a Frosh was molested. We do not care to see the innocent leader of the green horde mercilessly beaten by a gang of upperclass roughnecks nor would we

like to see the Sophomore president stretched over a fence and beaten by a group of maddened yearlings, nevertheless, the old antipathy is not what it used to be.

Many of the upperclass remember the days of "Roughhouse Schrader", the fighting marine who led his class to the fray. It seemed that that year the Frosh prexy was given a ride into the country from whence he returned minus the larger part of his clothes. Anything like that now is out of the question but it would be entirely in keeping to see a bit of friendly rivalry this year.

The freshmen are supposed to wear their green caps everywhere. They are supposed to bring wood for the big Homecoming bonfire which has been smaller each year. They are supposed to observe the rules set down by the second year men. The big question is, what will be the result of the Frosh-Sophomore argument.

Kampus Key Hole by Peeping Pete

We see the cow's husband season is on again. Old Main is fairly cluttered with Homburg hats, brown ensembles, back slappers and what have you!

TIME: Most any.

PLACE: Any fraternity house.

CONDITION: In no condition.

Characters: Ye Olde Rusher and Luckless Louie.

Rusher to Louie:

"Here's how she stands, Louie. When we wuz eatin' this noon some a th' fellas poked me in th' ribs an' giv' me th' hi sign t' take y' up stairs an' put th' blocks t' yu. Course we're not like th' Theta Chi's that's gotta pledge a lotta men t' fill up that hotel they got. Now get me straight, Louie. I'm not insinuat' nothing, only houses have t' make it a payin' proposition, you know that. Then there's the Sigs—but you ain't the Sig type. Course they got the class—there's no gettin' around it—but, you can't learn all the things they do th' first year, wearin' them noisy heels, long droozly coats, and them funny banged up hats with no brim on 'em. Then too, ya gotta be a good friend of Bob Olsen so yu' c'n getta a ride home with him at noons in that Ford roadster of his. Now the Kappa Phi's gotta a nice place, no gettin' around it and it would look sorta nice t' come down the walk with Cy and some o' th' other big guns, but you don't play a mouth organ, smoke a pipe, or play football. You wouldn't work in with th' boys.

Hand me a glass of that giggle water, Louie. Now as I was sayin' you gotta pick your fraternity 'cordin' to what they're goin' t' do. Th' Sigma Taus m' ht go S. A. E., then again they might not, all dependin' upon whether th' kalsomine job they put on this summer keeps on for awhile. I know that fella. Ross Cone sure knocks you guys dead with that giggly laugh of his. I thought I'd die th' first time I heard it. Las' Fall some o' th' Sig and Tau boys wuz chasin' one another around'—(hic) in big cars—lookin' for pledges in Detroit Lakes. Of course the rushees went th' way they wanted to after it wuz all over, but th' fraternity boys had a nice ride down and back an' nobody expects yu' t' go t' class th' first few weeks anyway. Besides the fraternity boys could excuse their absence by sayin' they was "rushin'" and charge the gasoline bill t' th' house.

Now Louis, I've tried t' give yu' the low-down on th' proposition an' we'd like t' have yu a brother of Poo Doopa Doop. Wadya Say? Congratulations, boy! Now we'll just put this Pil pin inside your vest pocket here where no one will notice it. Hic!"

"N. D. STATE"

"N" stands for "No Cut System" and say, is it a wow?
"D" stands for "davenport", our hopes, our dreams and how!
"S" stands for "stigmatism" derived from earnest work
"T" stands for "text books" which none of us ever shirk.
"A" stands for "accidents" of cupid's thrilling hand
"T" stands for "thinking" (if we don't we'll soon be canned).
"E" stands for "everything" my philosophy may have missed
So let your imagination wonder to things I haven't guessed.

"A STUDENT'S DREAM OF OLD STATE"

Don't to the front of us,
Can't's to the left of us,
Mustn't's to the right of us
Blurted and thundered,
Stormed at with lashing tongue
Till the last cat is hung.
And our faint hearts are wrung;
Someone has blundered
Into a keyless jail
With no one to furnish bail
And now I tell the tale
Of the 15 hundred.

Students Earn Way At State College

Over 700 Applications for Work Received at Employment Bureau Here

The college where young people work their way through—that is the nation-wide reputation of North Dakota State College if letters of inquiry received from far and wide and personal applications at the office of Mrs. Psyche M. Gooden, secretary of the college employment bureau, are taken into consideration.

More than 700 young men and women entering the college this fall have applied for odd jobs in Fargo and on the campus at the college employment bureau and have been listed in the files, according to Mrs. Gooden. This figure will be greatly increased, she points out, as every day scores of students apply for work. Since Sept. 1 there has been a steady stream of young people passing in and out of the employment bureau from early morning until late at night.

Students Not Particular

Students applying for odd jobs are not particular as to what they get, states Mrs. Gooden. To illustrate her point she relates one case where a young man wished to milk cows on a dairy farm within walking distance of three miles from the campus. One elderly lady who had studied at Columbia University applied for general housework in order that she might pay her way while taking a degree.

Board and room jobs are in greatest demand, for the majority of students discover that when these two items of college expense are taken care of the rest are comparatively easy. Odd jobs in general are not as plentiful this fall, however, states Mrs. Gooden.

WIFE OF DEAN BOLLEY DIES IN BUENOS AIRES

Mrs. Frances Sheldon Bolley, 64, wife of Professor Bolley who died in the English Hospital in Buenos Aires, Argentina. Death followed two paralytic strokes, the first on August 13, and the second on August 16.

Mrs. Bolley, in addition to teaching in Fargo College for a number of years was active in social and club work both in Fargo and the state at large. She was president of the Fine Arts Club for three years and vice-president for two years. She was also

parliamentarian of the North Dakota Federation of Women's Clubs and was interested in the Florence Crittenton Home in Fargo.

State Defeats Concordia In Grid Opener

Contest Typical of First Game of Year; Cobbers Play Good Ball

In the opening game of the season and the first contest under the floodlights the Bison defeated Concordia 6 to 0. It was a typical season's opener, marked by numerous fumbles and misplays, the Bison throwing many chances for good gains.

The Cobbers outfought the Bison throughout most of the game but did not have the punch to put over a touchdown. However, since the struggle was the first under the lights, it was interesting to watch.

An absence of college students was responsible for the lack of pep at the game. The Davis-Elkins contest last Saturday night had more of the real color for the opening of school brought a fair representation of students to the game.

The season's schedule for the remaining eight games is as follows:

- Oct. 4—St. Thomas at Fargo.
- Oct. 11—South Dakota U. at Fargo.
- Oct. 18—Morningside at Sioux City.
- Oct. 25—Homecoming—North Dakota U. at Fargo.
- Nov. 1—Moorhead State Teachers at Fargo.
- Nov. 8—Michigan State at East Lansing.
- Nov. 15—South Dakota State at Brookings.
- Nov. 22—Mount St. Charles at Billings.

Engineer's Form New Honorary Fraternity

Simonitsch, Payne, Hughes, and Simonson, Officers for School Year

The school year of 1930-31 manifests a new campus activity. Tau Delta Pi, a new Greek honorary, was organized during the closing days of school last spring by a group of eight engineers, then Sophomores in the School of Mechanic Arts, for recognizing distinguished engineering possibilities in the upperclass students of engineering.

The organization took place on Memorial Day, May 30, 1930, under the acting chairmanship of Dean R. M. Dolve in the Engineering Building. Those present were Max Hughes, M. E.; Jack Simonitsch, M. E.; Ralph Simonson, E. E.; Fred Payne, E. E.; Orville Isley, M. E.; Hjalmer Johnson, M. E.; Carl Hoyem, C. E.; and Clarence Bryant, M. E., all of whom are charter members of the new honorary.

Dolve Is Adviser
At this meeting Dean Dolve of the School of Mechanic Arts and Mr. J. George Lynch, superintendent of the Fargo division of the Northern States Power Co., were elected advisers.

Candidates for membership are to be picked from Junior and Senior students regularly enrolled in one of the several engineering courses of the school and consistently ranking in the upper fourth of their classes during

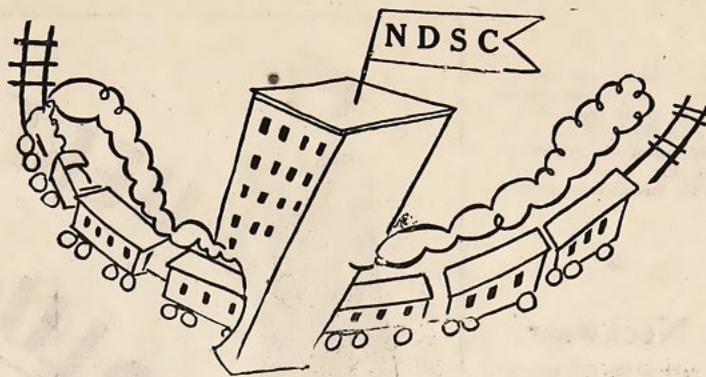

their Sophomore and Freshman years. The officers for this year are Jack Simonitsch, president; Fred Payne, vice-president; Max Hughes, secretary; and Ralph Simonson, treasurer. Tau Delta Pi was sanctioned May 15, 1930 by the College Council.

KELLOGG RECEIVES PERMANENT POST AS ASST. PROF. IN SOILS

Dr. C. E. Kellogg, elected temporary assistant professor in soils at North Dakota State College during the past year, has been permanently appointed to this position, according to Dr. H. L. Walster, dean of the School of Agriculture. Dr. Kellogg resumed his duties as assistant professor of soils the beginning of the regular fall term of college.

Taking his undergraduate work at Michigan State College, Dr. Kellogg received a bachelor of science degree there in June, 1925. He received his Ph. D. degree at Michigan State in June, 1929, just previous to coming to North Dakota. While pursuing his advanced work at Michigan he majored in soils and minored in horticulture. Dr. Kellogg's practical experience includes work on the Land Economics survey in northern Michigan, research assistant in the department of soils at Michigan State College, and in charge of soil mapping of Land Economics survey in northern Wisconsin for the Wisconsin Geological and Natural History survey.

Instructional work in soils at the college was under the supervision of Prof. J. E. Chapman previous to the past year when Dr. Kellogg was secured while Mr. Chapman studied at Cornell University. Mr. Chapman is now doing research work in soils, with laboratories and office located in the basement of Agricultural Hall.

WE GET THEM Coming and Going

Every Fall twelve hundred or more students come to North Dakota State. Every Spring these twelve hundred go back to their homes, to their occupations, to their vacations.

Upon her arrival here, the North Dakota State co-ed invariably comes to Herbst's. It may be because Herbst's is Fargo's largest department store. It may be because we have a reputation as being the Northwest's fashion center. It may be because quality isn't high priced at Herbst's. But we really think that Reason Number One is because Herbst's is a store with a youthful spirit. It's progressive, it's collegiate, it's friendly. We like to have you around, whether you buy or not. We like your company. Herbst's is an old institution, but North Dakota State co-eds make us feel a lot younger.

Next spring, the students leave the campus, leave Fargo, but they never forget Herbst's. Herbst's is the downtown club for every North Dakota State co-ed. You'll find your friends here, your classmates, your sorority sisters

Herbst's merchandises direct from New York, Paris, and Berlin. Yet Herbst's prices are no more than you will be asked to pay elsewhere, and oftentimes decidedly less.

It is a statement of distinction to say to your friend, "Meet me on Herbst's Thorofare."

Incidentally, listen in at 11:45 every weekday morning to hear Dick and Manny, Herbst radio artists, over WDAY, as they attend North Dakota State. You'll like their collegiate programs.
