

## Dr. Shepperd Defends "Cut" Ruling

### Concert Classics Are Promised by Gold Star Band

Selections From Good News and the Desert Song to Be Played

Band Will Play for Scottish Rite Banquet Thursday Night

"Doc" Putnam and his 82 piece band will soon be ready to present the general public with a new brand of music. In spite of the crowded conditions, the band members are working hard on several new selections.

The band will appear four or five times during the year. The following will be played: "The Barber of Seville" by Rossini; a Symphonic poem, "Marsch-Macbre" by Saint Saens; "The Indian Love Song" by Laurence, and selections from "The Desert Song" and "Good News", two light operas. About a year ago, one of the concert numbers was "The First Movement Northward", out of Eric Cottes' Suite "Four Ways." Since that time, the entire suite has been published and this year the band will play the other three parts from "Southward", "Eastward", and "Westward". These will be interspersed among popular numbers.

Thursday night, Nov. 7, the band will give a short concert program in the Masonic temple at the banquet of Scottish Rite. "Doc" hopes to have some of the numbers ready for this occasion.

### LEONA REINECK NEW LIBRARY ASSISTANT

Miss Leona Reineck, graduate of Marquette university, is the new assistant on the North Dakota State college library staff. With the rapid growth of the library, another helper becomes necessary, according to Mrs. Ethel McVeety, librarian.

Miss Reineck started her new duties at the fall opening of school. She attended the Library School of Wisconsin and Marquette university at Milwaukee, being graduated in 1928. Before coming to Fargo, Miss Reineck worked in the public library at Wisconsin Rapids, Wis. Her work at the North Dakota State college library will be general student assisting and part-time teaching in Library Methods classes.

### AIRHEART STUDIES RELIGIOUS PROBLEMS

A Reconstruction of Religious Education was the topic for study of Dr. W. L. Airheart, head of the school of religion, and his associates at the University of Chicago this past summer. Dr. Airheart states that there is a narrowing of religious education in the independent school and a broadening of this particular study in the state universities and colleges of the United States.

"Practically everyone knows that the teaching of religion is the task of the church, and all of our colleges and universities are encouraging cooperation from the churches by making a place for religious education in the curriculum," Dr. Airheart states. The increase in enrollment in the school of religion at the North Dakota State college this year is 33 percent over that of last year. The students enrolled at present number 123, while last year there were 96.

### POPS CARRY OUT HALLOWEEN THEME

Halloween was the theme carried out in the decorations at the Phi Omega Pi informal dancing party, given for their pledges at the Masonic temple, Friday night, Nov. 1. Miss Ruth McKinnon had charge of the party; Eleanor Erickson, the music; Grace Swanson, refreshments; and Helen Carstenson, the programs. Chaperones were Mr. and Mrs. Fred Olsen, Mrs. Mabel Anderson, and Mrs. Esther Latzky.

### ATTENTION JUNIORS

The Bison of 1931 is on the way to completion. It should be known by all juniors that the Bison is produced each year by the junior class and that the book is the official yearbook of the institution. That places a tremendous responsibility on the class, so it should be the desire of every member to help make the 1931 Bison more than merely a success.

In order to have the annual reach its objective it is a necessity that it must be a representative organ. No annual can be representative unless every individual makes the necessary arrangements to have his picture in the classes section of the publication. Remember your duty, and remember that the Bison is your book.

Horace McGrath,  
President of the Junior Class.

### Architects Leave For Twin Cities

Granite Works And Marble Foundry Are On Itinerary

Students of the architectural department left Saturday for a week's inspection trip of the Twin Cities. Twenty students with their instructor, Paul Jones, plan to visit buildings of architectural note in Minneapolis and St. Paul and will visit various factories which have a connection with the study of architecture.

The granite works in St. Cloud and the marble foundry in Minneapolis are included in the itinerary. They will make a complete inspection of the Minnesota theater.

This is an annual trip made for the purpose of acquainting the students with architecture in the larger cities.

### CEREAL CHEM. DEPT. SAMPLES N. D. WHEAT

Mr. T. H. Hopper, agricultural chemist, is acting chairman of the department of cereal chemistry of the North Dakota State college's experiment station during the absence of Mr. Mangels on his sabbatical leave. Mr. Mangels is now taking post graduate work in Bio Chemistry at the University of Minnesota, leading to a Ph. D. degree. After nine months at the university he will return to resume his duties here. Mr. Mangels has been manager of the milling department of this college for the past seven years.

The work of the cereal chemistry department is the investigation of the problems of wheat quality and the study of the milling value of wheat and the baking quality of flour resulting from them.

During the past few years the department, in co-operation with the county agents of the agricultural extension division, has made an early protein survey of the wheat crop and given the general public information as to the protein value. The protein content is now a factor in marketing wheat. A premium is paid for wheat having a high protein content.

In the investigational work of the year about 500 samples of wheat are milled and the flour baked in order to determine and compare the value of wheat produced, in the breeding experiments and in the variety trials run here at the college and at the substations at Williston, Dickinson, Hettinger, Edgeley and Langdon.

### NOW SHOWING AT THE THEATERS

"Why Bring That Up?" to show at the Fargo theater all week, introduces to the motion picture public the two best known entertainers, perhaps, in the country today, the "two black crows", who have become familiar through their phonograph records and the radio.

The State is presenting a duo of pictures in "Her Private Life", starring Billie Dove, and "The Greene Murder Case", famous stage success.

### ALPHA XI BETAS GIVE PLEDGE PARTY

The Alpha Xi Beta sorority gave an informal dancing party for their pledges Friday night, Nov. 1, at the Waldorf hotel. Twenty-five couples attended the party. The Bluejay orchestra furnished the music.

Dean and Mrs. H. T. Walster and Mrs. Groves, Alpha Xi Beta house mother, were chaperones.

### Rifle Team Starts Practice January 1

Seven Men Out Of Fifteen Are Lost Because Of Graduation

The North Dakota State College Rifle team, coached by Lt. Frank S. Ross of the military department, will begin practice about Jan. 1, according to Mr. Ross.

There are openings for good rifle men on this year's squad, seven out of the squad of 15 being lost through graduation and absence from school. The North Dakota State Rifle team has been United States champ for two consecutive seasons. With some of the best men being lost to the squad this year, the outlook for another championship team is not as promising as has been the case in former years. In spite of this handicap Lt. Ross believes that there is enough good material on the campus to build up a strong team.

### Employment Bureau Aids 600 Students

Only Three Complaints Have Been Registered With Mrs. Psyche Gooden

Dean I. W. Smith reports that between 50 and 600 students have been placed in regular or odd jobs by Mrs. Psyche Gooden, director of the employment bureau at the Y. M. C. A., and that no student has had to leave school for lack of employment.

These students show an admirable spirit in not refusing any job. Out of all the students employed, there has only been three complaints, all of which resulted from a slight misunderstanding, and not from any breach of trust.

The service clubs, especially the Masonic Grand lodge, under the leadership of Ralph Miller, have been very fine in their attitude. The business men have also aided in securing jobs for the students.

"The type of students at the college is unusual in many ways," Mrs. Gooden stated. "Even though they are short of funds they turn down work at the mid-term period in order to devote time to their studies. The democratic spirit shown by the students is wonderful. No one is ostracized from social activities because he works."

### Bison Journey Into Montana

Finnegan Will Take Squad Of Twenty Men To Meet Mt. St. Charles

The Bison will journey westward this weekend into Montana, where they will meet Mt. Saint Charles at Helena on Saturday. Coach Finnegan plans to take a squad of 20 men on the trip. He is still uncertain whether May will be able to make the trip because of his recent injury.

Mt. Saint Charles is known as the Notre Dame of the west. Last year Mt. Saint Charles was the only school that defeated the University of North Dakota, North Central conference champion. St. Charles is coached by a former Notre Dame star and uses Notre Dame plays in their football attack.

Casey seemed quite satisfied with the results of the Morningside game and declared that the Bison were going to make a determined effort to conquer the conqueror of the University of North Dakota.

### CHOOSE

A crowded room, hats, coats, books, and humans flung here and there, or draped inelegantly around some article of furniture—or—a large cheery room, well lighted, well equipped, hatless, coatless, and cozy; smooth topped tables that do not make your writing look like a sample of Egyptian hieroglyphics. This is the aspect of the library reading room as compared with the new Study room on the second floor of Science hall, rooms 217 and 219. As yet, many of the students on the campus seem to be unaware of the existence of this boon to study. The admission is less than nothing, which in itself should be an attraction. However, it is urged that students make use of the new study room any time of the day.

### Dean Bolley Assigned South American Work

Will Probably Leave Sometime During Next Summer

Prof. H. L. Bolley has been assigned to a study of economic plants and their diseases in South America for a year or during such time as in his judgment seems advisable.

This arrangement was made by the Board of Administration several weeks ago, but announcement has been withheld until the details of the plan and travel expense arrangements could be worked out.

Professor Bolley will not be on a leave of absence but is assigned to this piece of work on full pay and will continue in his present position upon his return to the college, at which time it is planned that he shall carry on an extended investigation upon the plants which he will have gathered during his explorations and studies in the southern hemisphere.

The professor will choose his own time for leaving to start his southern explorations and has indicated that he will probably sail in the late spring or early summer of 1930.

### STATE GROUPS ASK AID IN PAGEANTRY

To the department of public discussion and social service come requests from all over the state for suggestions in home talent stunts and plays, according to Miss Bertha Strand, assistant in the department. Various homemakers clubs and parent-teachers associations throughout the state send in requests for one-act and longer plays which can be given in home talent programs. The requests usually are for plays having only one or two outdoor or indoor scenes and which do not require elaborate stage settings and costumes.

About twelve such requests come in each week besides as many as 25 for stunts, indoor circuses, carnivals, minstrel shows and readings for numerous occasions. At this time of year a great many requests come in for ideas and plans for festivals. The department receives calls for debate material all through the school year.

The majority of requests come from small town clubs and associations which have small means. Prof. A. G. Arvold, head of the department, has such material and scenes as would be available to any small community desiring to put on a home talent program. From this material Mr. Arvold is able to fill the requests that come to the department.

### KAPPA PHIS HOLD DANCING PARTY

The Alpha Kappa Phi fraternity entertained at a dancing party held in the Elks hall Saturday evening. About 60 couples were in attendance.

Informal dancing from 8:30 to 9:00 and then formal dancing for the rest of the evening was the program. The patrons and patronesses were Dean and Mrs. Sudro, and Dean and Mrs. Minard.

## Invisible Government Mentioned

Dr. Shepperd Addresses Editor Hinting That The Spectrum Is Cause of Recent Criticism Appearing Against So-Called "Cut" System.

### COLLEGE COUNCIL CITED

Tone of Letter Is Fair To All Sides; States Regulations Affecting Excuses; Honors Signatures of Parents, Mothers, Landladies.

Editor's Note: Of interest to every student is the reply of Acting President J. H. Shepperd to recent criticism of the cut-system which has appeared in the columns of this publication. This criticism has taken the form of statements signed by students of this institution. At this time I wish to make no comment other than to say that I feel that the letter should have been addressed to the student body rather than to me, since The Spectrum has reflected, with two exceptions, the general attitude. We wish, however, to express our appreciation of the generous attitude the letter implies.

### TO THE EDITOR OF THE SPECTRUM:

Under the heading, "Students Continue Their Views on Cuts", in The Spectrum of Tuesday, Oct. 29, I read some surprising statements credited to the editor-in-chief, Henry Presler. Since I am as new in strictly teaching matters at the college as the freshman class, I resort to the college records relative to the enactment of the faculty's rules covering the excusing of students from classes.

The college records show that on June 7, 1929 the Student Activity committee of the faculty consisting of Registrar Parrott, Deans Carrick, Dinan, Smith and Sudro, and Professors Arvold, Schalk, and Cole considered some matters which concerned student activities and discussed the advisability of rewriting several of the regulations then in force.

The following day, June 8, this committee presented their suggestions to the College Council, duly assembled, and the matter was deliberated upon by that body. The Council approved their propositions and asked President Coulter to appoint a special committee to make a thorough study of the matter and report their conclusions later.

President Coulter appointed as this special committee—Dean Minard, chairman, Deans Dinan, Smith and Sudro and Professors Arvold, Hunsaker and Slocum.

Special Committee  
During the summer session this special committee spent many days reviewing the regulations and practices of other representative colleges and universities. After due consideration, this committee took the pains to have its recommendations type-written and made available to all members of the College Council. On the afternoons of July 11 and 12, according to their records, the College Council assembled and deliberated (Continued on Page 2)

### ART CLUB WILL ASSIST SHOPPERS

The Art club held a meeting recently, and at this meeting it was decided that Christmas shoppers ought to be assisted during the approaching busy days, about the middle of this month.

In about three weeks the club plans to give an exhibit and sale of Japanese prints. These are procured from a New York firm. The exhibit will be held in Science hall in the Art studio, located on the third floor.

Definite plans have not as yet been completed, nor has the special committee been appointed.

The sale will be open to the public, not only for those who would like to buy, but those who wish to examine these prints.

## INVISIBLE GOVERNMENT MENTIONED

(Continued from Page 1)

upon the committee's report and after amending it in several places adopted it and provided for the establishment of the committee on excuses.

The report as amended and as it now stands, the records show, received the unanimous approval of the College Council.

### Further Consideration

Since I plan on having regular monthly meetings of the College Council, they will have an opportunity to again consider it as an early date in the regular course of their work.

### Outside Activities

I think the evidence concerning repression of student activity must focus on particular cases instead of upon extra curricular activities, for twice since I have occupied the tower room Registrar Parrott has come to me for approval of this committee's recommendations for excusing the student body—first, for preparing for Homecoming, and again, for going to Grand Forks for the University-College game.

A team of college boys recently returned from a dairy cattle judging trip and contest and arrangements are made for two other teams to be off on similar extra curricular activities during the next 60 days.

I do not know the plans for debating teams, plays, and musical organizations, but it will be strange if they do not show proficiency and have requests which will take them away from the college as its representatives before the public.

The football squad has recently been away on several occasions; the track team has gone, and a basketball squad will soon be active and out

of town on sanction of the Faculty committee.

### Function of Committee

As I see it, the function of this faculty committee is to hold up scholastic standards to a point which will make every student justly proud of his credits from the college. It is but natural that the faculty, through its committee, should look into postdated requests for leaves of absence and ask assurance that they are emergency cases in point of fact. To absent oneself without request is reasonable in case of illness, since that cannot be foreseen, but to leave for the purpose of attending a public event, the date of which has been known for some time, is another matter and one which naturally throws the person making the request upon the defensive.

### Illness

No member of the faculty wants a student to attend class when ill. They are your friends and your interest is their interest. It is easy to allege sickness, however, and naturally the faculty committee must check such cases as closely as that is possible to do. Statements of parents, attending physicians, landladies, house mothers, etc., are considered adequate unless such cases show inconsistency.

### Leniency

The students and friends of the institution do not want the faculty to be lax in the matter of excuse granting lest the college lose standing and you lose respect for it. I realize that this entire discussion is intended as a request to the faculty and its representative committees to be fair and I am sure the Spectrum writers would not for one moment make a request that they be lenient.

The students at this college have never asked for easy tasks and that, in my opinion, is the reason they have been so successful after graduating from the institution. It sieves out the weak and the lazy and develops the strong and I am certain no one wants to see its traditions lowered by undue leniency.

## A. C. BOOK STORE

### "Sales Talk"

A prominent Judge on the bench in this state told me that the law does not hold a salesman to the exact meaning of the terms which he uses and that over-claims for an automobile or other object offered for sale by the owner is known in law as "sales talk."

### Freedom of Editor

An editor in like manner should be given some latitude. I speak advisedly, since my first job when out of college was that of an editor under a man who had been trained by Horace Greeley.

A newspaper must secure the interest of its readers and so must have an issue to debate and discuss.

I take some of the drastic sentences penned by Mr. Presler and his associates as the type of "trade talk" which forensic teams use in debate and consider that they are made use of to argue out an interesting issue.

### Invisible Government

If there is an invisible government at this institution I shall be glad to join with the Spectrum writers to bring it out into the open.

I am like the Sunday school lad who when asked who led the children of Israel out of Egypt? replied, "I don't know, mam, it wasn't me, we just came here last week from Missouri."

### Monthly Meetings

I saw President Coulter for about five minutes after my first inking that I was to occupy his chair in the tower room. He is busy and I have depended upon the records on file here rather than to trouble him with voluminous correspondence. I therefore have no memory of previous ac-

tion, for while I was on the grounds I was a research man and rarely attended even a departmental faculty meeting or a college committee. I am a Rip Van Winkle so far as the general college teaching activities are concerned, returning after 15 years. I expect to set a regular and publicly known time in each month for the College Council to meet and consider the problems which arise from time to time.

### Dr. Shepperd's Stand

I consider myself as the representative of the faculty, the one set out to call them together for deliberation and to give out and to put into effect their plans. I can say for them that they will give any problem affecting the students of the college reasonable consideration.

Yours very truly,  
J. H. Shepperd,  
Acting President.

Correction: At this time we wish to correct an error made in a recent issue of The Spectrum as follows: In the article concerning the Pharmacists' petition for excuses it was asserted that Dean Sudro sanctioned attendance at the Rexall convention. Mr. Sudro did not approve the attendance, but requested the Committee on Excuses for their approval and recommended that it be given.

## HONORARY FRATERNITY RECOGNIZES SCHOLARSHIP

It should be of interest to freshmen in agriculture to know that a silver loving cup is awarded annually to the freshman attaining the high-

est scholarship in the freshman class in agriculture during the year.

This cup is awarded by the honorary agricultural fraternity of Alpha Zeta in their endeavor to stimulate scholarship.

The cup is awarded during the fall term of the year following its winning. The awarding of last year's cup will soon be made.

## KELLY, ZWERG, AND COMEAU WIN PROBLEM COMPETITIONS

Eleen Kelly, sophomore, Fargo, is the first girl to win a first medal in any architectural design problem. Al Bordleau, Fargo, won second. The problem was a "Stone Bridge Over a Bridal Path." Miss Kelly's presentation of the bridge in a winter scene is most striking.

In the junior competition, "A Tunnel", Henry Zwerg, Sheboygan, Wis., won first and William Bowers won second.

The senior problem, "Town House", was won by Chester Comeau, Lakota, second place by Donald Best, Fargo.

## Ebullitions of Ebony Blott

By Everett Wallum

"Foreigners Think America Is Heaven," says Spectrum headline. Probably because we're always harping about something or other.

They said this knowing all about our cut system.

But they haven't seen our Senate yet.

THE MOST SURPRISING THING OF THAT HEADLINE IS THE FIRST TWO WORDS.

If this is Heaven, where are we going when we die?

Probably to England.

WE NEVER SAW ANYTHING IN THE BIBLE ABOUT ANGELS USING LIPSTICKS.

Judging by the falling off in church attendance, a lot of people feel the same as these foreigners.

WE'D RATHER TAKE THE FOREIGNERS' OUTLOOK THAN TO FEEL LIKE THE DEMOCRATS.

If this is Heaven, where did our Frosh come from?

They ought to keep this announcement away from our business men. Prices are high enough as it is.

We bet St. Peter is Santa Claus.

NO DOUBT THE EUROPEANS THINK OUR GULLIBLE TRAVELERS ARE HEAVEN SENT.

We may not be harp players at this college, but there are many potential ones—the way some of these politicians pull strings.

THIS CAN'T BE HEAVEN, FOR THERE IS NO PARTYING THERE.

We always thought Heaven was up at the University.

We'll bet it's just a lot of Republican propaganda.

We wish a lot of these American Angels would quit flying off the handle.

NOW IF THE RESTAURANT PROPRIETORS WOULD ONLY TAKE THIS SERIOUSLY, AND GIVE US SOME REAL ANGEL FOOD CAKE.

Anyway, they can't accuse this effort of being a hell of a column.

## Morningside Downed by Driving Bison

Blakeslee Acts As Big Gun  
For Clan Of  
Finnegan

Touchback In First Quarter—  
Wet Field Fails To Slow  
State's Attack

In a field made muddy and slippery, as the result of heavy precipitation, the Bison stamped through the heavy Morningside eleven-to the score of 21 to 0.

The heavy Maroon forward wall was ineffective against the hard charging Bison line. The slippery underfooting did not seem to hamper the Bison backs from clouting through the large holes opened up by the line for large gains.

Blakeslee, who heretofore had acted in a blocking position, was the big gun of the Bison attack. His terrific off-tackle plunges accounted for many gains, making him a threat every time he started with the ball. His fine offensive work and usual good defensive work stamped him as the star of the contest. Lonsbrough also aided in the ball-carrying contest while backing up the forward line on Morningside's offensive gestures.

The first Bison tally was the result of a safety early in the first quarter. Goodwin drove a punt deep into the Morningside territory and it was grounded on the Bison's 5-yard line. A bad pass from center was fumbled and was smothered by four Bison linemen.

Fairhead made a sensational return of Crippen's long punt and returned it to the Maroon's 40-yard line before being downed.

Through the combined efforts of Blakeslee and Lonsbrough the ball was finally taken over by Fairhead on a quarterback sneak. The final score came as the result of fine gains by Blakeslee, who, starting on the Maroon 46-yard line careened, whirled

and plunged over the goal line. He was aided in his brilliant runs by fine blocking.

The play of Frank Dvorak was sensational and he ranked second to possibly only to Cod Ordahl in breaking up Morningside's attack. Crippen, and Vanderwilt were outstanding in the Maroon backfield, while Hutchinson performed creditably in the line.

The summary:  
N. D. S. C. Morningside  
Goodwin le McLarnan  
Hanson lt Gottlobb  
Dvorak lg Lewis  
Ordahl (c) c Nash  
McMillan rg Potveis  
McGrath rt Hutchinson  
Hilts re Hall  
Fairhead qb Crippen  
Gergen lh Goldberg  
Blakeslee rh Smith  
Lonsbrough f Vanderwilt

Subs: N. D. S. C.—Skaret Kauffmann, Friberg, Raymond, Hovland, Bollman, Pariseau, Thomasson, Smith. Morningside—Allan, Raun, Gehrt, Haviland, Andrews.

Scoring: Touchdowns—Blakeslee 2, Fairhead. Safety scored by N.D.S.C. Point after touchdown, Lonsbrough, from scrimmage.

Officials: George Lynch, St. Cloud, referee; C. H. Kimball, South Dakota, umpire; P. E. Michelson, South Dakota, head linesman.
