

Homecoming Pep Rallies To Be Broadcasted

American Legion Drum and Bugle Corp Will Take Part in Homecoming Parade

As an added feature for the gala event, T. W. Thordarson, alumni secretary, has secured the American Legion drum and bugle corps from down-town to participate in the homecoming parade and also perform on the football field during the halves. This will give the parade two drum and bugle corps, as "Doc's" will be out 100% strong.

Barbecued Bison

The bison has been secured from the Yellowstone National Park for the hungry spectators of the Bison-Nodak game. Cigars, apples, and hot "home brew" coffee will be sold with the sandwiches.

Pre-Homecoming Advertising

The two remaining WDAY hours this week will be devoted entirely to broadcasting the homecoming news over the state and thus promoting the right spirit to make the day a success.

Tomorrow evening the program will consist of talks by "Casey" Finnegan, head of the athletic department; Dr. L. R. Waldron, president of the Alumni association; Dr. A. F. Schalk, president of the athletic board of control, and "Baldy" Hayes, captain of the football team.

The music for the program will be furnished by a newly organized saxophone eleven, pep musical group. This group of saxophonists have been organized by Arthur Walde, senior chemist, for the purpose of broadcasting tomorrow evening and playing on the street corners down-town to-night and Thursday night. They will be dressed in football togs for their downtown programs. Announcers for the band will be Everett Wallum and Foss Narum.

The radio hour has been set ahead fifteen minutes tomorrow evening in favor of a political speech, the time for tomorrow evening being 7:15 to 8:00 o'clock.

Friday evening the college "mike" will be moved over to the armory and the first rally ever broadcast from North Dakota State will be broadcast that evening. Rooter King Wallum will ask for a big "Yea Bison" and it will be broadcast all over the country; also "Are we going to beat the U?" "ABSOLUTELY!"

The alumni banquet, which follows the daytime events Saturday, will be held at 6 p. m., in the Lincoln Log cabin with A. G. Arvold, head of the public discussion and social service department, in charge. It is customary that no campus organization entertain their alumni on this evening so that all of them may attend the alumni banquet.

BUREAU AIDS FARGO CLOTHING HOUSE

"It is necessary for me to have eight boys in ten minutes to distribute circulars" a Swansen Clothing Store salesman told Mrs. Psyche M. Gooden, supervisor of the Employment Bureau last week.

In less than the allotted time the class schedules had been examined and enough boys had been found to fill the salesman's car. He then distributed them all over Fargo and Moorhead and returned for more. Every few minutes he came back for extras bringing some of the first groups on the return to attend their classes. One green-capped freshman got lost on a Moorhead corner and telephoned frantically to Mrs. Gooden. Her wire was constantly in use to give directions and orders to the wanderers.

Altogether twenty-one were sent out by the bureau and a total earning of \$28.30 was made before evening.

A BISON TROPHY

With a score of 7,620 out of a possible 8,000 points the North Dakota Agricultural college senior R.O.T.C. indoor rifle team won the National Intercollegiate Gallery Rifle matches last spring. The above trophy was received by the college recently from the National Board for the Promotion of Rifle Practice, War Department, Washington, D.C. It is 22 inches high and in some respects looks like the muzzle of a cannon. Lieut. Frank S. Ross, assistant professor of military science and tactics at the college, was the coach of the winning team.

Blue Key Honors Six At Meeting

National Honorary Service Fraternity Was Started Here May 4, 1927

Six students were elected to Blue Key, national honor service fraternity, at a regular meeting at Ceres hall last Thursday noon.

Blue Key is a national fraternity for student leaders having as its object the welfare of the school primarily. It strives to see that nothing which should be done, is left undone. The local chapter was organized May 4, 1927. Only upperclassmen are eligible.

The six students honored by the chapter are: Robert Adams, Lakota; Bill McRoberts, Fargo; Frank Hannaher, Fargo; George Hermes, Wahpeton; John Johnson, Fargo; and Henry P. Sullivan, New Salem.

CHRYSANTHEMUMS DECORATE CERES HALL

Chrysanthemums in fall shades decorated the parlors of Ceres Hall for the reception which the members of the woman's Club, an organization of women whose husbands are connected with the North Dakota State College, or who are themselves faculty members, gave for the new faculty members and their wives Friday evening, October 19. In the receiving line were Dr. and Mrs. John Lee Coulter, Mr. and Mrs. C. F. Monroe, Mr. and Mrs. Fred Weeks, and Mrs. Williams. Mrs. Monroe is the retiring president of the organization, and Mrs. Fred Weeks the incoming president. Refreshments were served.

Robert Adams, Norris Olson, Milton Pemble, J. Johnson, Elmer Torkelson, and Cy Peschel were pledged to Scabbard and Blade, honorary military fraternity Monday morning.

Morris Olson and his Collegians will furnish the music for the second cadet hop to be held in the college armory Thursday afternoon from four to six o'clock, according to Ralph Erickson, captain. It is hoped that attendance will continue to be as good as at the first hop which was declared highly successful.

N.D. Dairy Team Returns From Memphis, Tenn.

Awarded Ninth Place At National Dairy Show At Memphis Tennessee

Prof. J. R. Dice, coach, and Graham Fuller, Gilbert Moun and Harold Evans, members, of the North Dakota State dairy judging team returned Sunday afternoon from Memphis, Tenn., loaded down with cotton bolls, osage oranges, black walnuts and pecans.

The team left here on the 28th of September and on the way to the national dairy show at Memphis they stopped at Waterloo, Iowa, where it took part in judging the Waterloo Dairy Cattle Congress and also inspected a number of leading dairy herds.

Evans High Man

Harold Evans was the high man on the N.D. team and was fourth in the entire contest, also taking fifth place in Ayrshires and eighth in Guernseys. The entire team placed fourth in Ayrshires with Fuller taking tenth place.

Plenty of Competition

Twenty-seven teams competed at the show and the officials in the "Ag" department have expressed their satisfaction with the showing made by the North Dakota team.

Illinois won first place in the national contest, Wisconsin was awarded second place and the Iowa State college team, Ames, placed third. The Iowa team is coached by Burton Oederkirk, a former State College student and whose parents still reside at 1311 Thirteenth st N, one of the organizers of the Saddle and Siroloin club. He was a member of the A.C. judging team which took first place at the National Dairy show in Minneapolis in 1922.

NEW CHEMISTRY PROF. IS ON THE JOB

Kenneth L. Bird, the new freshman chemistry instructor, arrived here the first part of last week.

Mr. Bird is a graduate of Drake University, receiving his B.S. degree in '21 and receiving his Masters degree from Ames in '23. While at Ames he taught Freshman chemistry. Previous to coming here he taught two years at Fort Dodge, Iowa, and two years at Kemper Military academy in Missouri.

He is a member of Phi Kappa Tau fraternity.

Big Rally!

The biggest rally ever staged at North Dakota State College will be held in the old Armory Friday night starting at 7:15. Several alumni and some notable campus speakers will augment Doc's Band in turning out the greatest Homecoming eve pep fest.

Immediately after the rally, the student body will witness the huge bonfire and engage in a few yells preceding the tour of the down town district.

For the first time since homecoming was inaugurated at the college, the rally will be broadcasted through station WDAY through arrangements made by W. C. Palmer, publicity manager.

Every true Bison will be there to help answer the important question of the hour:

ARE WE GOING TO BEAT THE U?

Everett Wallum, Rooter King.

CLASS ELECTIONS THURSDAY AT 9:40

Student class elections will be held Thursday morning, Oct. 25, 1928 at 9:40. Classes will assemble as follows: Freshmen class in the armory; Sophomore class in the Little Country theatre; Junior class in chemistry 26; Senior class in chemistry 5. All students are requested to have candidates for the various offices in mind before coming to the election. Each class must elect four officers this year: president, vice-president, secretary, and treasurer. Specially prepared ballots will be used. Each person nominating another for an office must present to the Student Commissioner in charge a certificate obtainable at the Registrar's office before the election that said nominee is eligible for election to said position.

M. FOSS NARUM
Pres. of Student Commission

Rundquist Heads "Engineer" Staff

State College Engineer Will Be Published By Engineers November 20

The State College Engineer, which is published quarterly by the students of the School of Mechanic Arts, recently announced the staff for the present school year. The duties of Editor-in-Chief are being performed by William Rundquist. William Rundquist has been a member of the staff for the past three years, and succeeds Carl Olson, a graduate of last year, who formerly held this position.

Other members of the staff are: Marcus Peterson, Business Manager; Roger Olson, Donald Best and Everett Knutson, Associate Editors. Roy Landbloom is the new Advertising Manager and will be assisted by Elmer Torkelson, Jerry Linstrom and Jack Simonitch. Percival Peightal, Circulation Manager has for his assistants: Victor Madsen and Earl Phenton. Lawrence Debing and Walter Nelson are to edit the Campus Column. Albert Nelson is to take charge of the Alumni section. Charles McKinnie and James McHugh will compose the Engineering Review.

The initial publication of the magazine is to be made on November 20. The feature article of the magazine will be by Dr. Nelson concerning the Application of Electro Physics to the Study of Organisms. William Rundquist has prepared an article on the Development of the Motion Picture. A story dealing with the Water Supply of New York City will also be contained in this issue. This will be the first of a series of articles regarding the water supply of large cities.

A large part of the magazine will be given over to the Alumni Section as the State College Engineer is largely dependent upon the Alumni for its circulation. There is also to be a story summarizing the trip through the Iron Range which was made by students of the School of Mechanic Arts last spring.

At the present time the engineering publication has a circulation over 500. The circulation of the spring issue is considerably large as a large number of copies are sent to high schools and high school students through out North Dakota and Minnesota.

The State College Engineer is to be released in November, February and June. All students taking engineering are urged to subscribe to this publication as there are a number of articles contained in the magazine which are beneficial and of interest to Engineering students.

Kappa Delta held a Founder's Day banquet at the chapter house Monday night.

Gamma Rho's Now Located In New Home

Unique Fireplace Made From N. Dak. Geological Specimens Is Outstanding

Members of Epsilon chapter of Alpha Gamma Rho, national social professional fraternity, are now comfortably located in their new home on the corner of Thirteenth avenue and Thirteenth street directly opposite the practise house. Epsilon is one of the 33 chapters which comprise Alpha Gamma Rho.

A large living room, guest room, trophy room and den constitute the first floor. The dormitories and study foorms are located on the third and second floors. Each of the three dormitories have a capacity of ten men, and for each dormitory there are five study rooms, one room being allotted to two students.

One of the most outstanding features of the new house is a fireplace in the living room. It is unique in appearance as it is built from a variety of highly colored geological specimens gathered from this state by Dr. Walster. Dean Walster has also collected a number of Indian relics which are to be found throughout the fireplace. Tomahawks, arrowheads, rattlesnake rattles, and large peices of onyx, scoria, and pertified wood are distributed throughout the fireplace.

The members of the fraternity are: Ralph Welch, Grafton, President; Wilfred Palth, Davenport; Lawrence Ranes, Lisbon; Graham Fuller, Hamilton; Lawrence De Sautel, Grafton; Virgil Sullivan, Bimidji, Minn.; Paul Abrahamson, Leal; Art Zeigler, Tower City; Paul Guertin, Deer River, Minn.; Pete Gergen, Grafton; Jesse Reynolds, VanHook; Henry Sullivan, New Salem; Martin Altenberg, New Salem; Russell, Wayne and Virgil Weiser, Hazelton; Bernie Cusey, Detroit Lakes Minn.; William Fry, Leonard; Morris Barks, Egeland; Leonard Bowman, La Moure, Linnell Johnson, Adrian; Clarence Lockrem, Harvey.

The recently initiated members are: Howard McCleod, LeMoure; Gordon Widdifield, Leal; Leonard Luther, Mandan and Ross Cook, Sranton.

The pledges are Charles Challey, Lisbon; Albert Hoerner, Mandan; Glen Lundeen, Sherwood; Roderick McMillan, Mott; Leo Thomasson, Park River; Donald Lawrence, Ellendale; and Ralph McClain, Maurice Ellingson and John Southam of Mohall.

GOOD ATTENDANCE AT ALL COLLEGE SATURDAY

A large crowd turned out to "make whoopee" and succeeded very well at the first all-college party of the season which was sponsored by the cabinets of the two "Y" organizations in the college armory.

The party was in the nature of a harvest festival dance, and music was furnished by Henry Pressler's Vagabond orchestra. The armory was appropriately decorated with corn shocks, corn and pumpkins. Cider and cookies were the refreshments.

The committee in charge were Ralph Welch, music; Esther Boyer, Florence James, Marvin Huckle, Robert Adams, and Charles Arneson, decorations; Doris Able and Glenn Smith, refreshments; and Virginia Keene, publicity. Mr. and Mrs. I. W. Smith, and Mr. and Mrs. O. A. Barton acted as chaperones.

Alpha Sigma Tau announces the formal initiation of Ronald Byler, Moorhead; John Mund, Milner; Thomas Rogers, Devils Lake; Herman Skaret, Fargo; and Bernhard Benidit of Lidgerwood. Services were held at the chapter house Sunday morning.

Harvey Steedsman went home to Larimore for the week end.

GET THE SPIRIT!

Homecoming is hardly five days away. Have you absorbed the "Beat the U" spirit up-to-date? If you haven't, get into it at once. A 100% successful homecoming, as is planned, may only be staged when every student on the campus has his or her heart and soul in the project. The student body must be just brimming over with the homecoming spirit when the alumni start to arrive and they will quickly absorb it; and then for a grand glorious homecoming, the feature of the day being the defeat of the Flick-

Our alumni secretary has not left a rock unturned for a tails, about 6 to 0.

successful homecoming. Up-to-date he hasn't come to a satisfactory agreement with the weather man, but plans on doing that in the very near future. His efforts should be and will be rewarded by the co-operation of every student on the campus. Every organization will have their float, costumed groups and clowns in the parade formation on time; every member of the student body will turn out for every homecoming event; and every student will be sociable and help welcome all of the alumni back to their Alma Mater; thus co-operating with Mr. Thordarson in putting on the kind of celebration he has planned.

HAZING DAZE

The Freshman—Sophomore tilt grows interesting. The Sophomores have organized themselves well, and they are expressing their paternal instincts exuberantly, with the good old fashioned maxim: "Spare the rod and spoil the child" as the watchword of the day.

Up-to-date the "sophs" and their leaders are to be congratulated upon the fine way they have carried on the program; no accidents have occurred and everything has progressed almost as perfectly as planned.

One small part of the old tradition seems to have been forgotten this year. Why is not the old time-worn password (button frosh!) in use this year?

Let's "BUTTON FROSH" the rest of this week.

SATISFIED AND NOT SATISFIED

We note with much satisfaction that the girl's soccer classes have been moved over to Dacotah field where the Spectrum maintained that they should have been last year.

But on the other hand we note that one organization in particular still persists in disobeying ordinance number three of the Student Commission. It reads: "All forms of athletics are restricted to places provided for them unless otherwise sanctioned by the Commission."

AT LAST A COMPOUND HAS BEEN PROPERLY PREPARED FOR REDUCING HIGH BLOOD PRESSURE.

Prevent apoplexy, paralysis, bright's disease, rheumatism, eczema, boils, pimples, and many other diseases caused from high blood pressure and impure blood.

Reduceit is a compound properly put up for the purpose of reducing high blood pressure and purifying the blood.

For advertising purposes we are offering this compound for a short time only at the reduced price of \$2.75 per box, post paid to any address in the United States.

Upon request and without cost or obligation we will gladly send you a scale showing what normal blood pressure should be at ages from 20 to 70 years.

DENVER RESEARCH LABORATORY
602-3 EMPIRE BUILDING, DENVER, COLORADO, U. S. A.

Just Comment
WISE and OTHERWISE

By Henry Presler

LOOKING FORWARD we see that this week end witnesses the premier event of the fall term—the annual Homecoming Rally. This celebration includes one of the looked-for football classics of the season, the class between our rivals from the University and the Bison. The parade, party, rally, etc., coupled with these other features, should make this week-end one that will be long remembered. Every year we hear the slogan, "The biggest Homecoming ever." It seems to us that his year will see this ambition realized in a greater degree than ever before. One has only to call to mind the additional parts that have been added to the traditional program. Mr. Thordarsen, head of the alumnae association, has planned attractions which we have not been privileged to enjoy in the past. Take for instance the addition of the American Legion Bugle and Drum Corps to the parade. Doctor Putnam has made arrangements for a gigantic band made up of present members of the Gold Star Band and the many alumnae that he has taught in his twenty-five years of service at this college. Indeed, after looking over the entire program, the conclusion is definite that those in charge are making every effort to provide a good time, a big celebration, and a great advertisement for the school. The latter of course is of first importance. Let us not forget that although we, as students, and the "alums," reap individual enjoyment out of Homecoming, the college must receive lasting benefit. Let us not make the affair personal, but rather institutional. To this latter aim every Bison must dedicate his personal efforts or the coming good times may not be a success in the final reckoning. If the student body does not take this to heart The Spectrum feels that the splendid efforts which the alumnae association are making will not be recompensed. So much for that.

AND NOW concerning how to go about it. The first requisite is that everybody attend all rallies or meetings called this week. Be sure to know at all times just what is going on and what is expected. Then make it a matter of personal endeavor to get all Fargo and Moorhead interested in the college activities of the week end. This is not a difficult undertaking.

In the past the citizens of the two cities have voluntarily given their actual and moral support to Homecoming. The bang-up out here is bound to attract attention. But let us be sure that the interest is active rather than passive, from the standpoint of the on-looker. Accomplish this last by personal approach. And finally let us make our conduct at all times worthy of commendation by the citizens of expository and all-important explanatory and dall-important.

Let every individual get out and do a lot of blowing but be sure that you say something.

Among Our Contemporaries

Don't get excited on Homecoming Day if a number of Indians swarm the campus. It will only be the "U" students who are members of the "Tribe of the Sioux," appearing in their costumes.

After witnessing the razzing which the Freshmen boys receive it is evident that the female freshies on this campus are very fortunate. Not so, however, at the South Dakota State College, where an edict was recently issued that no freshman girl should wear silk stockings. Those who did not obey this command were punished at a public demonstration in removing the silk hosiery.

FLAPPERS NOT POPULAR;
BLONDES ARE NOT "IT";
BOBBED HEAD IS IDEAL

Flappers are no longer popular with the college man, if information gained from the university students is representative. It is the intellectual type of girl that appeals to the male collegian of today, according to the answers to questionnaires which

were sent to each fraternity man on the campus by members of the statistics class of the school of commerce.

Gentlemen may prefer blondes but the college boy's ideal girl is a brunette with bobbed air and brown eyes. Long hair may be predicted and approved by Dame Fashion, but only one fraternity on the campus gave a majority of its votes for long hair. A girl need no longer starve herself in order to meet the one time demand for the slender co-ed, for today's popular girl is of mdium height and of medium, rather than slender, build.

Although the fraternity men expressed their admiration for the intellectual girl, the fact that they want her to also be a "society" type is evident in the fact that when asked what the ideal girl's outstanding interest should be, the "social" interest led, with artistic, athletic, and domestic following in second, third, and fourth places. Only one man preferred the type of girl who is ambitious for an individual career.

The facts were gathered up by Wilbur VanMetre and James Van Dyke as part of a problem required of members of the statistic class.

NEWS NOTE: Against the protests of Ceres Hall Diners, toothpicks have been banned as an unhealthy habit.

Now that they've taken our toothpicks, Another old pastime is gone. Gone is this obnoxious habit That men lose their dignity on.

Time was when men could eat beefsteak, And after the chawing was done, They'd haul out the old family toothpicks, And the kiddies would join in the fun. The clicking, the sawing, the scraping In this excavating of food Was just the caveman expression Of each individual mood.

But now that this custom has left us, I think these reformers are dumb. You can make lots of noise with toothpicks, But not a darn sound with your thumb! We think this whole idea of barring toothpicks was started by some Scotchman who wanted to conserve our forests.

We'll bet most of these reformers are those who can take out their teeth and clean 'em right.

Anyway, toothpicks can't take out the soup stains in your vest.

Well, thank hevings, we men can still pick a guitar and a fight.

The announcement in the Spectrum that the campus will be "lit up" on homecoming is a marked improvement in newspaper frankness.

But they shouldn't be so cocksure about it. What if the bootlegger broke a leg or drank some of his own stuff—or something?

Now that we learn that the Delta Sig Ford is being repaired for the year's duties, the student body can breathe easy again.

"Alumnus Hit By Auto In Chicago" flares the Spectrum. Now if he hadn't been hit by something in Chicago, that would have been news.

They're going to give a traveling cup for the best costume in the homecoming parade. If they want the cup to do some really fast traveling, just put a little wine in it.

We note with pleasure that some old fashioned square dances will furnish amusement at the Harvest Festival. If they're square dances, they must be old fashioned.

We've got to hand it to the frosh who just informed us that the Virginia Reel is used for fishing.

In answer to the query "Are we going to beat the U?", campus dieticians inform us that no one has yet been able to beat hard boiled eggs.

So there!

Bison Defeat Cadets Fifth Consecutive Time

Cadets Unsuccessfully Attempt Aerial Game

Twenty-Two Bison Were Given An Opportunity To Take Part In Fray

The North Dakota Bison swept to their fifth win in as many years over the St. Thomas Cadets Saturday, 18 to 0, behind a powerful line attack, and through the efforts of a backfield composed of sophomores, a greater part of the time. Nearly half of the Bison yardage was gained by the second year trio, May, Pariseau and Blakeslee.

The erratic Bison offense functioned twice during the contest for the drives that meant touchdowns and for shorter periods in the game that brought the spectators to their feet, as the Bison backfield gave evidence of brilliant defensive play in intercepting two of the Cadets' passes and bringing down the opposing runners.

The game started with a punting duel between the two teams with the Bison gaining on each exchange as Leo May outpunted the St. Thomas kicker. From midfield, May paved the way for the first Bison counter, running 40 yards on a split buck through a hole in the line that the State linemen kept open, to the Cadets' 11 yard line.

May and Pariseau took the ball to the two yard line and May dove over the line for the first counter of the game shortly before the quarter ended. Pariseau's kick was wide.

The Cadets then took the offense and with a flashing overhead attack carried the ball to the Bison 5 yard line where the Bison held the next three efforts of the loser with ease. May punted out of danger for the time being, only to have the Cadets return to the Bison 10 yard line where St. Thomas lost the ball on downs.

The Bison started after their second touchdown from the State ten yard line and after short runs by Peschel, Hermes and May, their efforts were given a boost by a fifteen yard penalty for roughing on the part of a St. Thomas man. A pass Peschel to Pariseau gave the Bison a gain of 58 yards; the pass being 28 yards and by clever field running the elusive Pariseau managed to add 30 more before the Cadets finally downed him on St. Thomas' 8 yard line. May contributed five yards and Peschel's thrust was stopped on the line. May dove over the Cadets' forward wall for his second counter. Pariseau's kick was low.

The Bison's third score came in the fourth quarter when Oscar Hanson plunged over the line for the last touchdown of the game. Bassett's try was blocked.

The work of Pariseau and Blakeslee, Sophomore backs, throughout their playing time was pleasing to watch. Pariseau established himself as an open field runner while his blocking and tackling were a revelation. Blakeslee came forth with a demonstration of open field running that nearly equalled Pariseau's. He tore into the line with enough drive to secure yardage and with a little seasoning he should hold down a regular berth on the varsity. Peschel and Bassett ran the team with skill while Peschel's tackling saved the Bison on many a time as he pulled down the runner from his safety position. Leo May played his same steady game throughout.

Ordahl led the center of the line in the attack most of the day with Babcock gaining some valuable experience for the game this coming Saturday on turning the players in on wing position.

During the game, 22 men saw service for the Bison while the Cadets used one less.

Sammy Westgate and Chief Pariseau went to Grafton after the game Saturday.

Home Meet For Bison Runners Is November 2

First Six Men In Meet Will Go To Conference Meet At Brookings

The Bison harriers will hold a home meet November 2, on Dacotah field. It will be the second meet of the season for the cross country squad having met Minnesota a week ago Saturday, there. It will be held in the morning as the University yearlings will meet the Bison Frosh here in the afternoon. Four place winners will be given

medals as has been the practice in the past.

The first six finishers, excluding freshmen, will probably be taken to Brookings for the North Central conference meet to be there November 10.

The new course extends from the campus to the El Zagal golf course and around the track a total distance of five miles. The men out for cross country Thursday night were Jesse Reynolds, Virgil Weiser, Wayne Clark, Roy Jordre, Christian Meckler, John Rooney, Bruce Kee, Donald Harris, Gordon Ringeon, F. J. Williams, Russell Weiser, Len Dobbert, Art. Raeshke, Howard Trileur, Ken Kilbourne, Vernon Cross, Chester Genvick, William Watson, John Mollitor, Oscar Lung, Carroll Anderson, and Harold Skalley.

BUSINESS EDUCATION

A business education is a practical education that prepares one for every-day living. It gives the training necessary for entrance into the business world where the demand for trained workers is much greater than the supply. The business world pays a salary twelve months out of the year with two weeks' vacation on full pay.

Hon. W. T. Harris, Ex-Commissioner of Education, said, "Without a thorough and practical commercial education, a man is like a ship at sea without a compass or rudder."

Take your course in business training in an accredited school. Call or write for particulars.

Use Parker Duofold Ink and Parker Duofold Leads in pens or pencils of any make to get the best results

Geo. S. Parker's "Touch-and-Go" Method

Makes Writing Twice as Easy

Touch a Parker Duofold Pen to paper and off it goes with a steady, even flow as fast as you can move your hand.

No pressure! The light weight of the pen itself—28% lighter than rubber—does it all! No effort, no fatigue.

This is Geo. S. Parker's 47th improvement. 32 pen patents are included—36 years' experience in making fountain pens.

Here is true efficiency in the Modern Style—five flashing colors, all in Non-Breakable barrels.

This master pen is guaranteed forever against all defects, so you are sure of satisfaction lasting through the years.

Parker Duofold Pencils and Parker Duofold Pens, matched in color, make handsome sets.

Look for the imprint, "Geo. S. Parker—DUOFOLD." That mark identifies the only genuine.

To prove Parker Duofold is a pen of lifelong perfection, we offer to make good any defect provided complete pen is sent by the owner direct to the factory with 10c for return postage and insurance.

A collection of French Prints have been on display in the Art Studio. They not only include costumes of the eighteenth and nineteenth century, but also some very rare Napoleonic prints done in Grecian style.

The following men were initiated at the Kappa Psi house Sunday morning: Wesley Odegaard, L. G. McDonald, Charles Holiday, Alexander Murdoch.

Don Baillie spent the week end in Valley City.

Phi Omega Pi initiated Esther Boyer, Ruth de Klinhans, and Grace Swanson.

Olaf Slinde was called home to MacVile Saturday because of the sudden death of his brother.

Katherine Dunham, Betty Farnham, Elizabeth Wooledge went to Minneapolis for home coming.

Delta Kappa Sigma initiated the following men Sunday morning: Byron Olson, Jamestown; Hoyt De Kline, Salem, Ore.; William Groves, Lakota.

Frances Ross spent the week end in Dickinson.

Ole Benson, Valley City and Ordner Trom visited the Kappa Phi house during the week end.

Hayes Stevens, Bismarck, visited the Theta Chi house during the week end.

Dorothy Rennix, Evelyn Blakeslee, Audrey Miller and Mary Hassel went to Grand Forks for the week end.

Delta Phi Beta and their pledges held a pot-luck supper in the chapter rooms Monday night before the regular meeting.

Charles McKinney will leave for Fort Snelling, Minn., this week end where he will report for an examination in an effort to get in the army aviation service.

Mr. McCullough from Alpha Phi chapter of Theta Chi at Minn. was a guest at the Theta Chi house during the week end.

It is rumored that Dorothea Ward, Sigma Theta pledge is suing Eric Tonn, a Kappa Psi "scum" for breach of promise. Mr. Tonn proposed last Thursday night and was accepted.

The following membership committee has been appointed for the Hoover-Curtis Club: Genevieve Boise, Hazel Heald, Marion Hartley, Frances Brummond, Alice Cheshire, and Minda Rudser.

Lieutenant and Mrs. Smith were dinner guests at the Kappa Delta house Sunday.

The annual bazaar sponsored by alumnae members of Sigma Theta will be held in the Gardner Hotel, Saturday, Dec. 1. The arrangement committee is comprised of Mmes. A. H. Liembacher, L. E. Sours and Miss Jean Wilson. The proceeds of the affair will go into the Irene Liembacher Fund.

Edith Byerly went home to Velva for the week end.

Alpha Gamma Rho announces the formal initiation of Leonard Luther, Mandan, N.D.; Howard McLeod, Fargo, N.D.; Ross Cook, Scranton, N.D., and Gordon Widdifield, Leal, N. Dak., on Sunday morning at the chapter house.

Mike Myrdahl visited the Delta Sig house during the week end.

The Catholic Students club will meet this evening at 7:30 at the K.C. Hall and Frank Hannaher, president of the club, urges that every member be present for the initiation of new members.

OCTOBER COLLEGE AND STATE IS OUT

College and State, the alumni magazine for all North Dakota State College graduates and former students, is out.

There were 4,000 copies of this issue printed. It goes to "grads" located in all parts of the United States and world.

The October issue is devoted to homecoming to a large extent, with considerable alumni news. Anyone interested in seeing a copy of the periodical may secure one from T. W. Johnson, professor of journalism, located in the publications department down in the basement of the "Ag" building.

JUST A LIMERICK

The "Sophs" have begun to enforce their queer rules
And of course all the Freshies think they're stubborn as mules.
But they have to obey 'em
Or the saphes, they waylay 'em
And enforce the old law with their tools.

LARGE GROUP ATTEND CHEMISTS' MEETING

About eighty members attended the first meeting of the Chemists' Club Thursday night, October 18. Milton Pemble was elected vice-president for the school year. Dean Carrick gave a short address of welcome. Dr. C. I. Nelson of the Bacteriology Department spoke on the physico-chemical aspects of Bacteriology. Although his subject was technical, it was well presented. Two musical selections by Norman Thorson and Arthur Walde concluded the program. Refreshments were served after the program.

Special features, including musical entertainments are now being arranged for the next meeting, which will be announced later.

Elrey Young, Glyndon, Minn., Leon Johnson, Hankinson; and Lawrence Reiten, Buffalo, spent the weekend at the Rho house.

AT THE THEATRES

Gregory Rogers has capitalized on the public's love of excitement and written a story around that theme, filmed as "The Midnight Taxi," which is being shown at the Fargo the first four days of this week.

Gary Cooper, the young Paramount star, who will be remembered for his good work in "The Legion of the Condemned," and who played here last week with Coleen Moore, has the stellar role in "The First Kiss," a romantic story of unsurmountable faith, which is being shown at the State theater the first half of this week.

Student Opinion

North Dakota State College is known far and wide for the good sportsmanship of its student body. It is recognized as being a school where the students are good losers as well as good winners. Perhaps some students will sneer at me when I say there are students who are not good

CALL 1242-R

I do not intend to degrade the institution or its student body but when someone will deliberately stoop to the act of "borrowing" without the owner's consent and forgetting to return the articles "borrowed" I ask, is it necessary to accept such conduct in the spirit of good sportsmanship and "laugh it off?"

I am only a green freshman but by the appearance of things or I should say disappearance of things, some students are not helping the school along the right road. They came here with the intention of getting all they could out of it. By that I mean books, paper, pencils, pens and whatever money they could remove from clothing they could censor without the owner catching them. Why must this be necessary? Is there any student attending N.D.S.C. who is so near starvation he finds it necessary to use this means of earning a livelihood? If so I am sure some one would help him get started on the straight road. The employment bureau at the "Y" will gladly help anyone who is in need and intends to "make good." There are also ways of securing loans to help out in case of necessity. If he acts in this manner from force of habit this school is no place for him. The state provides better institutions for such characters.

An English 1 text "Freshman Rhetoric and Practice Book" was taken from the Engineering Bldg, room 33 some time ago. Would the culprit kindly return it as the loser must work his way thru school and the loss means several days of work outside of school before enough money can be spared to purchase another. A book of this type would be of little use to anyone but a freshman but as other articles have also disappeared it is not altogether certain that a Frosh "borrowed" it. A friend of mine

has reported the loss of a book of the same type besides several other articles of lesser value.

Will those who have taken property not belonging to them kindly return it to the owner or leave it where the owner can claim it.

After all it is well to remember that "Honesty is the Best Policy."
—E.M. '32.

WANT-ADS

RATES—Three cents per word for two insertions. Payable in advance.

IRVIN DILLIE—Please report at the Spectrum office at your earliest convenience.

BORROWED—Will the person who removed a pair of tan pig-skin gloves from my car between 8 to 9:30 A. M. Monday please return to Foss Narum.

NOTICE—The party who took my overcoat from the Chemistry building Tuesday afternoon is known and if the coat is not returned to me or the Spectrum office at once, you will be reported to proper authorities. Kenneth Richards.

The Athlete's Friend

It's strenuous business for the athlete to keep up with his work and at the same time get the sleep the coaches demand. Many have discovered a way to do it. They use a Remington Portable for all their writing. It helps them get better marks because of the neatness and legibility of the type-written reports; and the great saving of time as compared with the drudgery of writing by hand is a welcome relief. Remington Portable is the smallest, lightest, most compact and most dependable portable with standard keyboard. Weighs only 8½ pounds, net. Carrying case only 4 inches high.

Easy Payments.
