Saalwaechter Enters Twenty Track Men In Home Meet

Saturday with four colleges represented.

The teams entered are from North Dakota State college, Valey City State Teachers college, Concordia college and Moorhead State Teachers college.

#### Track Interest Grows

Sponsored by Leonard Saalwaechter, Bison cinder coach, the meet will be the first of its type in two years. Inaugurating track activities at the college last fall with a cross country team, he has developed much interest in the cinder sport since then. More than 80 athletes competed in the intramural meet staged at the college two weeks ago.
With points won by freshmen not

counting in the meet, Bison chances of winning Saturday's are endanger-ed. Valley City coming out on top of the Bison at the tri-college meet held at Valley City last Saturday is expected to make a strong bid for

Moorhead State Teachers and the Concordia cindermen have been handicapped by bad weather. With much of the time devoted to spring football these institutions are unknown quantities on the cinder track.

# **BISON TO BE OUT** ON GAY CAT DAY

BOOK, BEING COMPLETED IN BINDERY, HAS MANY NEW FEATURES

The distribution of the1928 Bison will be one of the features of Gay Cat Day, Wednesday, May 18, according to Dick Hackenberg, Editor-in Chief. The press work was completed last week an dthe books are nw going through the bindery at the rate of a hundred a day.

The 192 8Bison will be hand-sewed instead of machine-stitched as was last year's book. The hand-sewing is a much costlier process but it insures a flat opening of the book and is therefore desirable.

An abrupt departure from the conventional is made in the division pages of the Bison this year. Each division page, such as "Athletics," "Administration," etc., carries a threecolor picture of a state industry instead of an explanatory picture of the section which follows it. This was done because the book carries a Greater North Dakota theme and it is imperative that this theme is kept before the students as they go through the pages.

There is nothing in the 1928 Bison that is superflous; no attempted alumni section; no contests; no high school and industrial section. It is first and last a college book, one which is overflowing with college spirit and which lets nothing dampen it. And then there's Ebony Blott's Satire section, that funnybone tickler, that humorous epic of college life.

#### BLUE KEY

The organization of a Blue Key fraternity on the college campus portends a new step in relationships of organizations on the campus. State College cannot afford to have its fraternities and other organizations pulling in opposite directions. In Blue Key, it will have a clearing house for ideas and principles of track instead. students who have the college interests primarily at heart.

The new organization would not usurp the executive powers of existant bodies. Its purpose is to present new ideas and to foster cooperation among students. Too much in the past and even now, the leadership and progressive thought on this campus has been centered in a very small minority. The mass of students have gone on their way with a lacking of spirit of service for their college community.

College after all is the criterion of one's later career. The student who is spiritless, self-centered or what not is very apt to be so after he graduates. He doesn't change to any degree except in age.

Our college can well utilize the services of a Blue Key organization. Progressive thought should evolve from it. When students began to appreciate their college's traditions, when they began to look about for means of improving their college life they are developing leadership in themselves and others. College is the laboratory where cooperation may be learned. Service will follow as a natural outcome.

#### COLLEGE PUBLICATIONS

The Board of Publications control will soon meet to consider candidates to fill positions on the two college publications, the Bison and the Spectrum, for next year.

In the past it has been the policy of the board to choose whom they thought best adapted to fill the positions of editors and business managers of the college publications.

Former heads of the Bison and Spectrum have been of the best, but their assistants, especially those on the Spectrum, have not. This is due largely, we believe, to the lack of proper training in journalism on the part of the staff assistants.

In most other institutions it is a requirement of students taking the journalism courses to turn in a specified amount of material for the student publications. It would undoubtedly be of benefit, if such a system were inaugurated a tState College, instead of electing to the staffs people whose sole qualification is an aspiration to become editor of the New York World, or an exaggerated idea of how much the yearbook would be improved by the addition of their name or photograph as one of the members of the staff of a student publication.

CLASS COMPETITION, CAMPUS OLSON NAMED EDITOR REPLACE HAZING

The committee in charge of Gay Cat Day wa sannounced today by F. Ralph Hollands, president of the Student Commission. It will consist of three girls, three boys, and three faculty members.

Evelyn Blakeslee, social commission er was named chairman of the committee. Other appointees are Corrine Brauer, Virginia Wright, Morris Olson, Cy Peschel, President Hollands, Dean Myrtle Gleason Cole, Coach Saalwaechter and Captain Smith.

This committee will cooperate with the Student Commission in making the day a success. Hazing of all forms will be abolished, new and finer traditions will take its place. 1928 Bison will be distributed late in the afternoon; there will be military ceremonies, a campus cleanup, stunts, songs, and an all-around good time. Inter-class athletic events will permit the Freshmen and Sophomores to give vent to their rivalry and antagonism. Coach Saalwaechter is planning a big-time on Dacotah field which, it is hoped, will enable the lower-classmen to get over their ambition to "make the campus safe for democracy" and to show their speed on the cinder

### MILLER GIVEN TROPHY BY 'SARGE' CULPEPPER

Claudie Miller, who has gained not a little prestige by his activities on the gridiron, basketball court, track, received a distinct honor Mon-day evening. He was presented with a football trophy by Sergeant Chris Culpepper o fthe military department.

Dropping around to the Kappa Phi house after dinner Monday evening, "Sarge" had the boys in somewhat of a quandary. He isn't given to visiting the Greek domiciles often, so significance was unconsciously attached to this visit. The presentation of the silver football trophy was made during the fraternity meeting and all signilcance was well warranted.

tor in agricultural education, explained the purposes and aims of the na-tional organization. A fraternity with no secret rituals or creeds, Blue Key was defined as standing for belief in God; support of the American constitutional government; and in service along evolutionary rather than revolutionary lines in college, community and state.

Emery Putnam outlined the history of the national fraternity. Founded at the University of Florida in 1925, the local chapter will be the 28th to be formed at larger institutions of the country. Blue Key, explained Mr. Putnam, is organized to work on the same basis as Rotary, and other civic clubs. It aims to eliminate any fraternal strife on a compus and foster cooperation. The insignia is a blue enamel and gold key with the emblems of an eagle, a star, and a laurel superimposed on a square base all standing for purposes of the service organization.

Prof. Walter T. Rolfe, in his talk, analyzed several of the problems that the Blue Key fraternity might assist in solving at State College.

### A Course In Style

Most college men could pass a course in good style without cracking a book-they have an instinctive flair for appearing smartly groomed—without appearing fussily "dressed up."

We've majored in college style for a long time. We've studied the college man's discriminating tastes. That's why we're featur-

#### Can You Tell If You Have Eyestrain

Maybe. If your eyes are inflamed or blood-shot, if the lids tremble or twitch; if headaches are common; if you have an unaccountable nervous feeling at times, especially after close use of your eyes, you might with reason blame your eyes. But to be SURE about it, interview us.
