COLLEGE TO HAVE NEW LABORATORY

SCHOOL OF MECHANIC ARTS TO BE PROVIDED WITH NEW FACILITIES

The School of eMechanic Arts will obtain additional class room space with the approval by the State Board of Administration of the erection of an additional laboratory building. The new building which will occupy the former site of a lumber storage room south of the old mechanic arts building, will ease the crowded conditions of the school's classrooms. Being 30 by 54 feet in dimensions, the laboratory will add 1,620 feet of floor space, stated President Coulter.

No additional buildings have been provided during the last four sessions of the state legislature while the number of students during the last six years has increased more than two hundred per cent. The total enrollment this year, including vocational short course students, summer school students, and other groups, is expected to run over 2,200.

The School of Mechanic Arts is most severely crowded for room. The enrollment in this school has increased from 57 to 175, an increase of 200 per cent, and the present laboratory facilities have been inadequate to suit the needs of the present enrollment.

SUMMER SCHOOL BEGINS JUNE 14

The summer school catalogue has recently been published, with a complete outline of courses being offered at the college during the summer. Summer school begins June 14 and continues until July 22, with Dean Arland D. Weeks, head of the school of education, in charge of the summer courses.

Dean Arland D. Weeks, head of the school of education, has outlined an education program this year particularly stressing the teaching of sciences in secondary schools. Such methods in teaching chemistry, biology and other courses will be given.

Several nationally known educators are also being scheduled for lecture courses. Among these are S. C. Larson of the University of Wisconsin, who will specialize in lectures on "Education measurements in psychology."

GAY CAT DAY PLANS DISCUSSEN AT JOINT MEETING WEDNESDAY

Commission, Faculty, Students
Would Ban Hazing, Build
Up Traditions

Representatives of different organizations, members of the faculty, and of the Student commission unanimously voted at their meeting Wednesday night to appoint a committee for considering the type of program to be held on Gay Cat day.

The committee will consist of three men students, three women students and three faculty members.

The work of the committee will be to formulate a program of student activities for the annual holiday.

Hazing Disapproved

Those present at the meeting were in favor of eliminating undue hazing of the "pineboard" variety. The belief was general that the day should be given over to a constructive program that would build up the traditions of the college and aid the freshmen to maintain them.

Many ideas were presented at the meeting for consideration. The commission president Ralph Hollands will name a program committee and the student governing body is to meet at 2 p. m. Sunday in the Bison-Spectrum office to again consider any plan or plans that have been presented.

Many Suggestions Made

Among suggestions made at the Wednesday meeting were, the holding of a campus clean-up day, the awarding of honors to students on that day, the staging of a sophomore-freshman track meet, giving a band concert and military review program, discussion and preparation for care of incoming freshmen classes, and others.

The suggestions are intended as additions to the program of annual costuming and parade of students on Gay Cat day.

Notice has been received from the War Department by Captain Thomas S. Smith that Captain W. W. Millard and Lieut. Frank S. Ross, of the college military department, will serve on a local examining board to hold examinations for students desiring commissions in the army.

CHILD HEALTH TO BE THEME FOR MAY DAY

Suggestions for May Day programs to promote child health in North Dakota are contained in an outline issued by Dorothy Loudon of the Extension division at the college.

Homemakers clubs in North Dakota have received the outline and many of the clubs are planning programs in observance of the day. Pageants, parades and school programs will be held at which health messages will be presented.

Farm women of the state through the homemakers clubs are cooperating a drive with objectives that there shall be no child in North Dakota that does not live under hygienic conditions, that ever suffers from under-nutrition, that does not have prompt and efficient medical attention, that does not receive primary instruction in the elements of hygiene and good health.

There are contests open to all bona-fide high school students in three distinct groups, athletics, industrial and literary.

In connection with this festival of contests, there will be the industrial arts exhibition, which will bring together hundreds of exhibits from high and consolidated schools, as well as displays from state institutions.

A PRAYER FOR TEACHERS

By Glenn Frank, President of Wisconsin University

O Lord of Learning and of Learners, we are at best but blunders in this godlike business of teaching. Our shortcomings shame us, for we are not alone in paying the penalty for them; they have a sorry immortality in the maimed minds of those whom we, in our blunderings, mislead.

We have been content to be merchants of dead yesterdays, when we should have been guides into unborn tomorrows. We have put conformity to old customs above curiosity about new ideas.

We have thought more about our subject than our object. We have been peddlers and prophets of abundant living. We have schooled our students to be clever competitors in the world as it is, when we should have been helping the into creative co-operators in the making of the world as it is to be.

We have regarded our schools as training camps for an existing society to the exclusion of making them working models of an evolving society. We have counted knowledge more precious than wisdom. We have tried to teach our students what to think instead of how to think. We have thought of our business to furnish the minds of our students, when we should have been laboring to free their minds.

And we confess that we have fallen into these sins of the school room because it has been the easiest way. It has been easier to tell our students about the motionless past that we can learn once for all, than to join with them in trying to understand the moving present that must be studied afresh each morning. From these sins of sloth may we be freed.

May we realize that it is important to know the past only that we may live wisely in the present. Help us to be more interested in stimulating the builders of modern cathedrals than in retailing students the glories of ancient temples. Give us to see that a student's memory should be a tool as well as a treasure chest. Help us to say DO oftener than we say DON'T. May we so awaken INTEREST that DISCIPLINE will be less and less necessary. Help us to realize that, in the deepest sense, we can not teach anybody anything; that the best we can do is to help them to learn for themselves.

Save us from the blight of specialism; give us reverence for our materials, that we may master the facts of our particular fields, but help us to see that all facts are dead until they are related to the rest of knowledge and to the rest of life. May we know how to "relate the coal scuttle to the universe." Help us to see that education is after all but the adventure of trying to make ourselves at home in the modern world. May we be shepherds of the spirit as well as masters of the mind. Give us, O Lord of Learners, a sense of the divinity of our undertaking.

WE APPRECIATE your past patronage and solicit your future work. When you think of laundry call the **DIXON** for service and quality. We darn sox and sew on buttons without extra charge.

BERNTSON HURT IN INITIAL SCRIMMAGE

Byron Berntson, stellar guard on the Bison eleven, suffered a fractured collarbone in scrimmage Wednesday afternoon. Berntson's injury occurring at the first scrimmage of the spring grid campaign was the first casualty on the squad of more than fifty candidates. Coach Cortright will not be without the junior guard's services next fall, however.

After ten days of kicking, passing, and signal drill, Cortright divided his squad Wednesday and staged 30 minutes of scrimmage. Prospects loom brighter for the fall campaign with several husky linemen reporting for duty.

KNOCKER IS FOUND BY ROOKIE HAYES

The knocker will always be with us. It remained for Taylor Hayes, Delta Sig rookie, to disprove the statement but from latest reports his success seems to have been only temporary.

Mr. Hayes and his brother members and rookies are given to sleeping on the third floor of the Delta Sig house. Far from the madding crowd and incessant backfence cat brawls, the slumberers had experienced perfect quiet until a week ago.

About five o'clock Tuesday morning the third floor residents were awakened. There was a steady rat-tat-tat on the roof that kept everyone from sleeping.

Rookie Hyes was delegated by the active brothers to investigate the disturbance. Given a shoe, Rookie Hays started out the attic window. After wriggling up the gable and escaping the chimney, Mr. Hayes found the trouble. A woodpecker was sharpening his bill for breakfast.

Latest reports are that the woodpecker has since changed his tune and is now sounding reville on a rain spout.

ART CLUB FORMAL TO BE SATURDAY

Members of the college Art club will hold their annual formal party at the art club studio in science hall on Saturday night. About forty couples are expected to attend.

Guests of honor for the evening will be President and Mrs. John Lee Coulter, Dean Myrtle Gleason Cole, Mrs. Mae Douglas, Miss Dorothy Hatch, Mr. and Mrs. Rudolph Otterson, and Mr. Eaton.

CAMPUS POLICE FIND 22 TRAFFIC VIOLATORS

Marshals Kneeshaw and Cramer began their drive Wednesday for the observance of parking and trespass laws placed in effect last week by the student commission.

The day's activities showed 22 cases of illegal parking of cars and other violations of the college statutes, reported Kneeshaw.

The marshal added that he was showing no favoritism because of past experiences he had had. Mr. Kneeshaw, it is said, once served as a motorcycle policeman at Devils Lake. Going three months without a single arrest of speed violators was too charitable the authorities deemed. Marshal Kneeshaw in consequence was "canned."

No set fine has been determined by the commission for violators of the law. Rumors have it, however, that persons failing to respect the laws may be put to work on the weed gang with a fine of "one hour of picking dandelions on the campus" handed down.

E BULLITIONS OF EBONY BLOTT

By Everett Wallum

Hail to our campus cops, Kneeshaw and Cramer, the two biggest departments in our college.

AS BOTH OF THEM ARE SENIORS, A COUPLE HUNDRED EXTRA FRESHMEN CAN BE CROWDED IN NEXT YEAR.

The Governor intended to let us have two new buildings next year but, when it was learned that these massive magistrates were to graduate everything was off.

If Rae covered as much space as does his voice, the legislature would have to give us ten sections of land to house the senior class, no allowance made for faculty.

Any student defying the iron arm of these locomotives must be trying to do one of these things:

1. Forget about mother-in-law.
2. Have his breath scared away, and thus save buying a bottle of Listerine.
3. See how fast he can run the mile.
4. Catch a train.
5. See the pretty nurse.
6. Recover his memory.
7. Win Carnegie medal.
8. Settle the Immortality question.

There's only one thing Cramer likes better than to arrest a campus trespasser. To arrest two of them.

If you are awakened in the midst of your slumbers by a loud deep sonorous voice, it is probably Kneeshaw, two miles away, telling you to come to court tomorrow.

IT'S SOMETHING LIKE A KANGAROO COURT: YOU HAVE TO JUMP TO KEEP OUT OF IT.

Objection is more strenuously made to men walking on the campus. The shrieking of their socks seriously disturbs the mental status of dandelions in their lair.

Judging from our campus, about this time of year, you'd think this college was a dandelion experiment station.

CRAMER HAS BEEN DELVING INTO DETECTIVE LORE THE PAST WEEK IN ORDER TO IDENTIFY THE HEEL OF THE DESPOT.

The student commission, we hear, has adopted the enforcement song: "Put Your Feet Where They Belong, or Cramer Gets a Fee."

And Kneeshaw presented, with a concluding curtsy, the thunderous oration "Place a Tootie on Yonder Green, adn You Sball Pay My Mag-dalene."

Twenty minutes is the time allowed for parking a car in front of Main. Officials are uncertain whether or not Ralph Hollands' pulsating perambulator may be classed as a car.

Anyway, the officials won't be able to abuse the "collegiate" busses. The latter speak for themselves.

The human strife cycle tells us that the officer who tags a car for parking may get tagged back by the same car some time when he crosses the street.

We have arrived at the conclusion that the chicken crosses the street not merely to reach the other side, but to see if anyone will pick her up.

IF HANS TRONNES HAS LATELY ESCAPED FROM PRISON, HE SHOULD DISPOSE OF THE COAT FROM THE UNIFORM.

Festival May 11-14

Literary Contests

There will be a number of literary contests, in charge of Mr. Arvold. These will include: story telling contest; declamation contest; dramatic contest, consisting of one-act play; newspaper and annual publication contest; extemporaneous speech contests, and miniature stage setting contest.

The periodicals contests, in which high school periodicals or publications are entered, has become one of the big events of the festival. The weekly newspaper contest, confined to weekly papers published by the high school or under high school supervision, is divided into two parts. One is for papers published in towns of 4,000 or more, and one for towns under 4,000.

The manual training and mechanical drawing contests will be in charge of Walter T. Rolfe. There will be two classes of manual training, one for mechanical drawing and one for community hall designing.

Art Contests

Miss Lois Hatch will be in charge of contests in art. The subjects will be: drawing in black and white; poster in colors; design for original bookplate; modern costume designed from German, Russian or Scandinavian peasant costumes; designs in color for an interior room; piece of batik or block print; pottery, metal and leather work.

All high schools and consolidated schools are eligible to send entries to the contest.

There will be automobile tours about Fargo, a children's story hour, receptions, a May party, an interpretive dance recital, band concert and many other entertainment features in addition to the regular program of events.

The exhibits will be shown in the Little Country theater, Ceres hall, engineering building and armory.

If more than 150 attend over one line of railroad fare and a half will be granted by that railroad for the round trip.

There will be student guides to direct all visitors to various points of interest about the college campus.

ENGINEERS' QUARTERLY FOR APRIL NOW OUT

The April number of the State College Engineer, quarterly journal of the students in the school of mechanical arts, was released this week.

Marking the final issue of the publication under the editorship of Harold Hulett, a new staff will collaborate with the old staff in issuing the June number of the magazine.

The current issue surpasses former ones in having several unusually well illustrated articles. Architecture is

the department emphasized in the issue with articles and illustrations submitted by Prof. Walter T. Rolfe, head of the architecture department, by acting dean R. M. Dolve, Prof. C. L. Swisher, and others. The architectural drawing reproduced are work of students in the college department.

FARMERS BRAWL WILL HAVE RUSTIC SETTING

The "Farmers' Brawl," given as an all-college party by the Saddle and Sirloin club will be held in the armory Saturday evening. Members of the club plan to hold a "Farmers' Day" at the college in conjunction with the party and make the two, annual events, stated Allen Mortenson, chairman of arrangements, yesterday.

Each Friday before the "Brawl" will be observed by all students in agriculture dressing up in rustic costumes.

Unusual events and sights are scheduled for the party, according to Robert Burns, head of the decorations committee. Such necessities as animals, hay, and straw will make up the setting. He also reports that guests will be taught the "second story act" as balcony entrances are to be used.

Howard Lewis and Craig Montgomery are in charge respectively of favors and refreshments. Favors will be edibles and refreshments, cider, they report.

Music is being furnished by two orchestras. Earl Olsen's "Collegians" will play and another organization, according to Byron Berntson and Clyde Challey in charge of entertainment. Robert Adam and Hjalti Thorfinnson have charge of publicity.

Chaperons for the occasion will be: Dean and Mrs. H. L. Walster, Dean and Mrs. J. H. Shepperd, Prof. and Mrs. J. R. Dice, Prof. and Mrs. E. J. Thompson, Prof. and Mrs. A. L. Severson, Prof. and Mrs. Cap E. Miller, Prof. and Mrs. L. E. Jackson, and Mr. and Mrs. George J. Baker.

COMMUNITY CLUBS TO BE HERE NEXT WEEK

Community clubs of the towns of Amenia and Hope will come to Fargo Tuesday and Wednesday to stage programs in the Little Country theater. Conferences will also be held during that time, according to A. G. Arvold, head of the public discussions department.

The Amenia club will hold its program at 8 p. m. Tuesday and the Hope Community club will give an entertainment at 2:30 Wednesday.

THE FACT OF LIVING

The miser thinks he's living when he's hoarding up his gold;

The soldier calls it living when he's doing something bold.

Oh, the thing that we call living isn't gold or fame at all!

It's the fellowship and sunshine and it's roses by the wall.

It's evenings glad with music and a hearthfire that's ablaze.

And the joys that come to mortals in a thousand different ways.

It is laughter and contentment and the struggle for a goal.

It is everything that's needful in the shaping of a soul.
