NORTH DAKOTA AGRICULTURAL COLLEGE, TUESDAY, DECEMBER 14, 1926

NUMBER 21

BISON MEET VIKING QUINT HERE FRIDAY

300 DELEGATES OPEN STATE CLUB INSTITUTE TODAY

BOYS', GIRLS' CLUB MEMBERS HERE FOR 3 DAY CONVENTION

State-Wide Show, Sale Added Attraction; Commercial Club Has Banquet

More than 300 boys and girls who are members of the Boys' and Girls' club in the state are meeting at the college today.

With delegations coming from half the counties in North Dakota, record breaking attendance is indicated for the Seventeenth Annual Boys' and Girls' Club achievement being held here from Tuesday to Friday, according to H. E. Rilling, state club leader.

Stock Sale Added Feature

An innovation will be the first annual state-wide show and sale of market classes of livestock raised by boys' and girls' club members to be held at the college during the same dates as the institute. Cash premiums totaling \$750 will be offered for the prize winning animals. The purpose of the show is to give the junior livestock producers the best possible information regarding the types of animals for which the packers will pay the most money.

500 Members In State Clubs

During the past year more than 500 club members have been engaged in livestock market projects, and the best of the animals raised by the club members will compete at the show. Entries made thus far include more than 50 pigs, 14 baby beef calves and 10 lambs. The animals will be judged Thursday, Dec. 16, and will be sold at a public auction Friday morning, Dec. 17.

Spirited bidding for the prize animals in anticipated, as many inquiries have already been received by Mr. Rilling from packers, restaurants, butcher shops and business men at

(Continued on page four)

MILLER ON EVANS' ALL WESTERN HONOR ROLL

Claudie Miller, captain and halfback of this year's Bison grid team, was named on the all western honor roll chosen by Billy Evans, nationally known baseball arbiter and sports editor.

Miller has the honor of being the only North Central conference grid star to be named on Evans' honor roll. It will not be the first time that the Bison chief placed on national honor rolls. For the past two seasons Miller has been given honorable mention by the Literary Digest sports officials as well as brths on the North Central All Conference teams. Evans' citation is the first recognition ever given Miller by national sports authorities.

The designation of Miller as one of the best ten halfbacks in the west brings the college a new honor.

Waldo Fisher, also a Fargo product, is a choice of Evans for an end position on his honor roll.

CHARITY BALL DATE SET FOR JANUARY 21

Friday, Jan. 21 has been chosen for the date for the second Charity Ball to be given at the armory. The party is sponsored by the Panhellenic organization of the college. Committee for the affair, which is the first formal of the season, have been named as follows: Decoration, Eloise McArdle; Tickets, Mary Klinsman; refreshments Mavis Peterson; Invitations, Dorothy Stoudt; Frappe, Favors, Evelyn Blakeslee. Patronesses of the five sororities will act as chaperones for the party.

DEAN PEARCE GOES ON ABSENCE LEAVE

CHEMISTRY SCHOOL HEAD TO DO NINE MONTHS RESEARCH WORK IN EAST

Dr. W. T. Pearce, dean of the school of chemistry of the college, has been granted a leave of absence through the winter and spring terms, which he will spend in industrial plants in the east. He expects to return to Fargo about Sept. 1, 1925.

Dr. Pearce, in going east, is accepting the invitation of several large companies to increase his industrial experience in chemistry. Already recognized as one of the leading authorities in the production of paint and varnish manufacture experts, Dr. Pearce will spend the time studying especially such industrial chemistry as is involved in extracting the sugar from beets, cereal chemistry and other similar branches.

Many graduates of the local school of chemistry have been successful in large paint and varnish industries, receiving salaries which range from \$7,500 to \$15,000 a year.

Dr. Pearce has spent a month or six weeks each summer in visiting the big chemical plants and developing outstanding things in the industrial line, but felt that several months of research work is necessary at this time.

An instructor to substitute for Dr. Pearce has not been selected, according to Dr. J. L. Coulter, president of the college, but several applicants are being studied with respect to their qualifications for the position.

Dr. Pearce will go directly to New York. Mrs. Pearce, who will spend Christmas in the south, will join her husband in New York in January.

PLEDGES OF DELTA PHI BETA ENTERTAIN ACTIVITIES

Pledges of the Delta Phi Beta sorority of the college entertained the active members of the sorority at a dance given Saturday evening in the College Y. M. C. A.

Decorations were oriental in design. Mr. and Mrs. Ion J. Cortright, and Mr. and Mrs. A. H. Parrott acted as chaperones at the sorority party.

General arrangements were handled by Isabel Barrett.

Earl Olson's Collegians furnished the musical program.

COLLEGE PRESIDENTS FIND STUDENT ADVICE GREAT AID TO THEM

Gray, Thomsen Get Many New Viewpoints On Education At Student Congress

Suggestions for cooperation between faculty and students during the conference of the National Student Federation of America at Ann Arbor, Michigan, last week, brought forth from President Little of the University of Michigan, the admission that the most helpful group he knew of in his administration of one of our largest universities consists of from forty to fifty outstanding undergraduates who call on him informally every two weeks to discuss frankly the current problems facing the University of Michigan, according to Eric Thomsen, college Y secretary.

William Gray, President of the Student commission, and Mr. Thomsen represented the college at the Second Student Congress.

President Has Student Cabinet

The correlation of the various activities at the University of Southern California is similarly helped by the President's conference every Monday afternoon with the heads of all the extra-curricula organizations.

Dartmouth's practice of inviting a member of the faculty to speak in each Fraternity every Sunday night on some subject other than that given by him in the classroom, affords the students an excellent opportunity to meet members of the faculty on an intimate basis. It is somewhat similar, apparently, to the new policy of the College YMCA this year of inviting a member of the faculty to the Sunday afternoon teas.

Would Extend Student Government

Joint faculty and undergraduate committees were recommended on the curriculum and on the administration of discipline. The committee on Student Government at the Student Congress reported that the Student Council might extend its control over such functions as interclass contests, elections, freshman regulations, administration of its own funds, alumni entertainments, mass meetings and chapel speakers, social legislation, the control or inauguration of new organizations and activities, the superintendence of social activities, including the arrangement of a social schedule, the convergence of the faculty-student viewpoint on all matters connected with the college or university, and the judicial powers to the extent of recommending expulsion.

R. HUNTER SPEAKS ON CHINA AT WOMEN'S CLUB

Dr. W. C. Hunter, head of the history department of the college, led a discussion on "China" at the regular meeting of the International Relations class of the American Association of University Women Monday at the Commercial club.

SIGMA THETA SORORITY TO HOLD PARTY DEC. 27

Members of Sigma Theta sorority will hold their annual holiday party at the American Legion hall Monday, Dec. 27.

Alumnae members of the sorority who are to spend the Christmas vacation in the city will be guests of honor at the party.

Agnes Schlanser has been named as general chairman for the holiday function. Assisting her are Ardith Calmer, decoration; Elizabeth Powers, refreshments; Gladys Whitney, patronesses; Florence Fleming, music; Katherine Hannaher, cleanup.

BISON PUCKSTERS START RINK WORK

TWO HOME GAMES WITH TWIN CITY, OR CANADIAN TEAMS ASSURED

Hockey players at the college will get their first work on the Dacotah field rink this week with the clearing away of the snow and flooding of the rink today.

Captain Smith's puck chasers have been snatching practice sessions in the armory and on the Island Park rink down town for the last ten days in preparation for a busy winter season.

Negotiations for games at the college with invading puck teams are now underway.

Funds sufficient to cover the costs of two games have been set aside by the athletic board, according to Coach Ion J. Cortright, athletic director.

Teams being considered for the home matches are those of Fort Snelling, University of Minnesota, and St. Thomas college.

Several Canadian sextets have opened negotiations with Captain Smith in hopes of scheduling games with the Bison blademens. Fort Francis, from a typical Canadian hockey country, is one of the foremost bidders.

The flooding of Dacotah field and the race course will be completed today, according to Rae Kneeshaw, president of the Hockey club. The flooding of the track will give an ideal course for holding ice races.

JAMESTOWN STUDENTS VISITORS HERE FRIDAY

Carl Raugust, editor in chief of the Jamestown Collegian, student weekly newspaper of Jamestown college, and Robert Kroeze also a student at the college were visitors on the campus Friday afternoon.

Mr. Raugust and Mr. Kroeze were on their way to Grand Forks where they took examinations Monday for the Rhodes scholarship competition. They are competing with four other candidates for the scholarship to Oxford open to students in the state.

The Jamestown college representatives also stopped here to discuss with local student journalists, the possibilities of forming a state press conference for publications representing colleges in the state.

SAALWAECHTER TO TAKE TEAM ON TEN DAY EASTERN TOUR

Preps In Preliminary Game Friday; Fee Cards To Admit Students

Bison cagers will open their basketball season at home Friday when the Valley City State Teachers' five invades Bison haunts. The game, scheduled to start at 8 p. m., will be a prelude to a return game at Valley City a week from tomorrow and also to the long jaunt into Illini territory that Saalwaechter's crew begins the following Sunday, December 26.

A preliminary to the Bison-Viking game Friday night will be the meeting of the local college prep team and the Hope high school five.

Cards Admit Students

Students coming to the game Friday will be admitted upon presenting registration cards at the door, stated Athletic Director Cortright. In case cardshave been turned in for winter registration, regular admission tickets may be purchased at the ticket booth. Students forced to buy tickets may get the price of the ducat refunded them after winter term registration, if they sign up at the ticket window when admission fee is paid.

Inerest in the Bison nshowing at their opening game is general. It will mark the inception of a new coach and system on the Bison court. Coach Solly Saalwaechter has drawn favorable comment by the methodic practice sessions he has put the Bison quintment through in the past two weeks.

(Continued on page four)

STATE CLUB MEMBERS TO GIVE RADIO TALKS

Representative delegates of the 300 Boys' and Girls' state club members meeting here this week will speak on the college radio program being broadcast over WDAY at 6:45 p. m. Thursday.

J. R. Dice, professor of dairy husbandry in the School of Agriculture, spoke over WDAY Monday evening on the subject, "Feeds for Dairy Cattle."

"The Soils of the Red River Valley," will be the subject radioized by J. E. Chapman, soil specialist at the college on the WDAY program at 7:30 p. m. Friday.

O. A. Stevens will speak on the subject, "Sow Thistle" during the same program.

"Effect of Elevation on Corn Growing in North Dakota," will be the theme spoken on by Peter Olson, of the college plant breeding department.

E. A. Willson, rural organizations worker, will also speak on farmers' clubs.

The final program prior to the Christmas holidays will be broadcasted at 7:30 p. m. Wednesday. H. L. Bolley will speak on "Registration and Certification of Grimm Alfalfa, and W. G. Couey, potato disease expert will speak on the field inspection and certification of potatoes.

AN EARLY GREETING

As this issue of the Speitrum is the final one for the year 1926, the publication staff, in unison perhaps with the student body, looks forward to the close of the present term, and the two week vacation that has as its climax the Christmas and New Year holidays.

It is somewhat in the spirit of "shopping early," that we wish you all, students and faculty members, many holiday pleasures and a new year brighter than any previous one.

To review the year now passing would be a futile task. It is for each individual to recall events as they relate to their individual success during the college year. Doubtlessly sorrows and pleasures will be incurred in such a review. There can be few events that do not affect us in one way or another. We may chastise ourselves for shortcomings, or may gloat over certain successes.

These will stimulate new resolutions. Bright and new for a few hours or moments, they will soon be forgotten as we again become ourselves, just frail beings.

THE NATIONAL STUDENT FEDERATION

Reference is made elsewhere in this paper to the conclusions of the National Student Federation of America, assembled at the University of Michigan last week. The significance of this conference is in the national demand of students for a part in the formulation of the educational process, and the recognition on the part of such eminent educators as President Little, President MacCracken, Dr. Meikeljohn and Dr. Stephen P. Duggan of the need for educational experiment and the importance of having the students contribute to it.

The weaknesses of the system of education current in most of our colleges today are obvious. The outstanding problem, as Dr. Meikeljohn remarked in his opening address, is, "Can the average young American be liberally educated?" and he, himself, proceeds to say that "the answer so far is that he can't under existing conditions."

The difficulties in the way of changing the system are not equally apparent, but it is more than possible that joint efforts undertaken by faculties and student bodies in a spirit of mutual good will and honest objective inquiry will go far towards removing some of the most obvious obstacles in the way of making a liberal education the process whereby a person is made to think for himself and to grow—and to keep on growing in true scholarship that gives leadership.

WE APPRECIATE your past patronage and solicit your future work. When you think of laundry call the DIXON for service and quality. We darn sox and sew on buttons without extra charge.

Little International Live Stock Show To Be Jan. 19

SAM F. CRABBE'S PORTRAIT PLACED IN HALL OF FAME AT ANNUAL BANQUET

By Henry P. Sullivan

The Little International Live Stock Show will be held on Wednesday evening, January 19. The banquet will be held the following evening. These dates were chosen because the North Dakota Live Stock Breeders Association and several other associations are holding meetings in Fargo at this time and thus the men from over the state may have an opportunity to attend the Little International and the banquet.

A large number of students have already signed up for their animals, according to Raymond Douglas, manager of the show. Mr. Douglas expects that all the students who intend to take part in the show will have signed up for their animal before the end of the week. There will be more students taking part in the show this year than ever before as every student taking Animal Husbandry work will show and a large number of others have already signified their intention to show an animal.

More Prizes Offered

George Landsverk has a bigger and better group of prizes and premiums than the show has ever had before.

The Little International will be held in the Live Stock Pavilion. The pavilion is being enlarged and remodeled at present. This extra room will help to make the Little International more successful.

All the arrangements have been made for the Fifth Annual Portrait Hanging Banquet which is to be held January 20, according to Howard Lewis who has charge of the banquet. The portrait of Sam F. Crabbe will be hung at the banquet. Mr. Crabbe is a prominent agriculturist and Jersey breeder and is well known all over the state. The portrait of Mr. Crabbe will be placed in the hall of fame now located in the agriculture building. Mr. Crabbe's portrait will be the tenth to be placed in the hall of fame.

Mr. Lewis is planning on an attendance of about 200 at the banquet. Several capable speakers will be on hand for the occasion. Leroy D. Lillie will have charge of the sale of the tickets.

The little international live stock show and the portrait hanging banquet are sponsored by the Saddle and Siroin Club. The purpose of the little international is to create an interest in Live Stock work, give students an opportunity to secure practice in showing an animal and to show the people over the state the work that is being done here.

FROSH CHEMISTS CARRY ON LABORATORY WAR

Freshman chemists are having not a few thrills and difficulties, it is shown by a report that recently got beyond the laboratory confines.

The lighting of a match at the end of a hydrogen generator by a curious student prefixed a series of actions that virtually created a war panic. Dr. Smith investigated the explosion.

In the meantime, Margaret Green knocked over a bottle of acid, spilling enough to burn her arm and decompose the sleeve of her dress.

The class and Instructor Smith had just settled into tranquility when another calamity befell them. Agnes Schlanser furnished the sensation. A shower of hot acid chose to settle on her neck and shoulders. Dr. Smith, answering the third S. O. S. call, rushed up with a counteragent for the burns.

No further war bulletins reporting casualties have been received.

VICTOR ARTISTS GUESTS AT KAPPA PHI HOUSE

Bernard F. Richards and M. Arnold Connette, members of Charles Dornberger's orchestra and Victor recording artists, were dinner guests of the Alpha Kappa Phi fraternity Friday.

Mr. Connett, a former student at the University of Chicago, plays first trumpet in the visiting orchestra, whose members are enroute to San Francisco for a recording engagement next month.

Bernard Richards is a former student at Northwestern university.

Both are acquainted with Dick Hakins, former Fargo student who is now playing in a specialty in the Passing Show of 1926, they report.

Pearce Surveys Growth Of Chemistry Science

Dr. W. T. Pearce, dean of the school of chemistry, spoke before the chemists' club at their regular meeting Thursday evening upon the development and the historical survey of the science of chemistry. It was the final meeting of the club during the present term.

Alex Coutlee, president of the chemists' club, presided at the meeting.

Refreshments were served later in the evening. Members of the arrangement committee were, Archie Walde, Garnet Grieve, Peter Koval and Chris Haas.

NEW YEAR'S RESOLUTIONS

A New Year's resolution is something that people declare in the winter time so they will have ample time to forget about it by the time that Spring comes around.

THE RESOLUTION, OF COURSE, IS MADE FOR THE NEW YEAR, AND IT IS INTERESTING TO NOTE THAT THE NEW YEAR GETS OLD IN ABOUT ONE MONTH TIME.

From this we conclude that resolutions are about as effective as an injunction to stop yodeling in Switzerland, and yet every year millions wash their hands early so that they can hold them up without a qualm.

Now that it is settled that New Year's resolutions are silly and irrelevant, we'll have to get down to work to figure out some for ourselves for the coming year. It is well to bear in mind that there is absolutely no use in making resolutions concerning: snoring, doubling up with pain or laughter, vitamin consumption, moles, floating loans, turgid tonsils, love at first blight, or child care at the old soldier's home.

For practical use, the Coue system will produce better results than resolutions. Prospects are better for success if you say: "Every day in every way I am getting thinner and thinner (it is well to insert a clause here telling Coue that you wish your brains excepted)," than merely to blurt out "I'm gonna thin out this year if I have to repudiate my board bill."

It is quite probable that Kneeshaw, the campus Coolidge, will resolve that he will talk in a whisper instead of the monotone he usually discourses in.

If he does, we'll only have to wear one ear muf next year.

OUT OF THE TWELVE HUNDRED STUDENTS ON THE CAMPUS, ELEVEN HUNDRED NINETYNINE WILL SOLEMNLY VOW TO STUDY NEXT TERM. THE OTHER ONE PROBABLY WILL STUDY.

About fifteen will wake up on January second saying "now what fool resolution did I make last night?"

It is easy to make a resolution with a will if a rich relative just died.

Seven fraternities will resolve not to try to pledge anyone another fraternity wants, in 1994.

IT IS HOPED THAT THE GIRLS ON THE CAMPUS WILL NOT SWEAR OFF CHEWING GUM. GUM IMPEDES ARTICULATION.

Students who swear off anything would probably swear just as much on it.

STUDENTS WILL, AFTER ALL, DO MORE PRAYING THAN RESOLVING WHEN THEIR PARENTS GET THE MARKS FOR THIS TERM

Merry Christmas, Santa Claus, do not forget the gymnasium, Kneeshaw's lung, King's leg, and my brains.

PREP CAGERS TO PLAY HOPE FRIDAY

HICKERSON, FORMER BIMIDJI, MINN., HIGH SCHOOL STAR, COACHES LOCAL QUINT

The Prep netmen of the Agricultural and Mechanic Arts high school at the college play their first game of the season against the strong quint of Hope high school at 7:15 p. m. Friday. Their match precedes the Bison-Viking game. Hope high has a strong team as they played Fargo for the district championship last year.

Vern Hickerson, a freshman in the School of Agriculture, was recently appointed coach of the State College preps. Hickerson is from Bimidji, Minnesota where he starred in football and basketball in high school.

Hickerson has a group of veterans to work with and believes that he will have a team which will offer formidable opposition to all opponents on the schedule.

At the forward positions Bill Jaeger and Ralph Brandmeyer are working well. M.Knutson will most likely be Hickerson's choice for the center position. Grover and Craig will occupy the guard positions. Jaeger has performed well at running guard; and Hickerson states that he may shift Jaeger to this position if he finds it necessary to bolster up the defense.

Dick Batchelor, Ed. Cota, John and Bob Sturlaugson are giving the regulars strong opposition for their posts.

Games have been scheduled with Wahpeton, Hankinson, Hope, and Leonard. Arrangements will be made for games with other schools near Fargo.

Change In Party Hours Before Fraternal Body

The question of beginning college parties at 8 p. m., instead of 8:30 p. m. so as to allow closing of parties at 11 p. m., instead of the customary time, 11:30 p. m. was taken under consideration at a meeting of the Inter-fraternity council held in room 208, science hall, on Monday, at the college.

Setting ahead the party schedule one-half hour will allow girls living in Ceres hall to go down town and return before the hall is closed for the night. No definite action has been taken, but discussion in the various sororities and fraternities is being awaited before a decision is made. The council will meet again Monday.

NOBERTO CUNEO CANDIDATE FOR ARGENTINE PRESIDENT

Jose Cuneo, sophomore in the school of science and literature at the North Dakota State College, comes from a political family and now one of his brothers is preparing to become president of the Argentine republic.

The brother, who is Norberto Cuneo is a student at the University of Wisconsin, a junior studying American politics and economics. He is a South American newspaperman and politician and was sent to the United States to prepare himself for a political campaign in the Argentine.

"Experience has taught politicians to send a man away from the field of campaigning before elections take place," according to Jose Cuneo, "and my brother plans to remain at the University until the time is ripe for his return."

The political party to which Norberto Cuneo belongs intends to place him in the chief executive's seat as head of the prosperous South American Republic. If the campaign fails he probably will be given a diplomatic post, it is thought.

Norberto Cuneo and Jose Cuneo are two of the four Cuneo brothers who attended the college three years ago. Norberto at that time was an instructor in modern languages here.

ARVOLD TO BE HONORED BY JOURNALISM GROUP

Professor A. G. Arvold, head of the department of public discussion and social service at the North Dakota State College, will be made an honorary member of Gamma Tau Sigma, honorary journalistic fraternity of the college, at a banquet to be held in his honor Tuesday, December 21.

Several alumni members of the fraternity will be present, among whom are Byron Hanson, Stewart Schlipf, Edward Yocum and Eugene Fitzgerald.

Ralph Hallands, president of the college fraternity, will act as toastmaster of the occasion, and will be assisted in arrangements by Emery Putnam and Richard Hackenberg.

Professor Arvold, prior to his entry into dramatic work, was an editor on the staff of the Eau Claire Daily Leader. Besides his connections with other middlewest newspapers, he did publicity work for several national characters in the early 1900's.

M. E. CLASS MAKES CITY PLANT TESTS

Members of the senior mechanical engineering class in the School of Mechanic Arts at the North Dakota State college will conduct an eight hour boiler test at the power plant of the Union Light, Heat and Power company, Saturday, according to Prof. R. Dolve, acting dean of the Mechanic Arts school.

The test is one of a series being conducted under Professor Dolve's direction. The class conducted a similar test at the Fairmont Creamery company plant a week ago and one at the Moorhead power plant previous to that.

Tests made are complete in every particular, being conducted and reported in conformity with the test code of the American Society of Mechanical engineers.

HESPERIAN SOCIETY GETS 15 MEMBERS

Initiation services for fifteen students in the Agricultural and Mechanic Arts high school of the college were held by the Hesperian literary society of the high school in the green room at their last regular meeting.

Those who became members were, Alvin Stevens, Baker, Minn.; Mildred Stiles, Tacoma, Wash.; Eugene Grover, Glyndon, Minn.; Frank Dvorak, Center; Olive Harazin, Lankin; Monica Crawford, Argusville; Harry Remme, Drayton; Emelia Vejtasa, Fairdale; Rosaline Hanggi, Clyde; Douglas Pravitz, West Fargo; Alma Klindworth, Louise Stanley, Jordyce Ingberg, and Carl Marshal, all of Fargo.

Richard Batchelder was chairman of the initiation committee. Ralph Brandmeyer, president of the society, presided at the meeting.

Fargo Toggery

Pioneer Life Building Fargo, N. D.

Knewsy Knosey Kampus Kolumn

"Congressman" Bill Gray returned Monday morning from a session of the Student Congress at Ann Arbor, Michigan.

The Phi Omega Pi glee club sang several Christmas carols on the program of the University Women's Club at the Commercial Club Saturday afternoon. On Sunday the same group sang carols for the Christmas festival in the L. C. T.

Phi Omega Pi's will have a Christmas party at the chapter house on Friday evening after the basketball game. Each girl will bring a Christmas present for the chapter house. Esther Skjelset will have charge of the party.

Mary Warner returned to school Monday after a short absence due to illness.

Bill Howell returned last week from Chicago, and will enter school for the winter term.

Capt. and Mrs. Albert E. Andrews, and son Albert, Beatrice Sjoquist, Gladys Barton, Salley Moore, F. O. Schlipf and Stewart Schlipf were dinner guests at the Alpha Sigma Tau fraternity house Sunday.

Kappa Delta sorority held a Christmas party at the chapter house Monday. Miss Dorothy Kretschmar played the role of Santa Claus.

December 13, 1926.

Dear Torg,

Well we're all getting fine vacashun for Christmas. Nobodie aint seemed to do so mutch work so I cant see no yuse in vacashun except maybe for the profs. Purhaps theyre tired becav Iv hurd some of them say us Freshmans have been an awfull burden to them.

Lots of the boys and cowed is going hoam for the hollydays but Im having to help Flaten in his taylor joint. Hes very bizzy now fitting muffers and neckties and things for Santa Clas. Onnest Torg I never new ther was so many swell things to wear. Maybe you could come down and see me during vacashun and Ill show you the College which has been teaching me so mutch.

I cant see why foaks have to come here four years or maybe more. Ive lerned almost as mutch alreddy as olts of peepul no that have went to school for years. Youll be suprised at the change in me when you come down Torg.

Tell the foaks Mary Christmas for me Torg and tell Dad he otta have one of Flatens lownging roabs for when he lays on the lownge after supper.

Olaf.

POULTRY JUDGING TEAM GOES TO CHICAGO SHOW

The first poultry judging team of the college left Wednesday for Chicago to enter the National Poultry judging contest being held in the Coliseum Saturday.

Those who are making the trip are, Frank Moore, Fargo; Carl Ash, St. Vincent, Minn.; and Ruben Stende, Glen Ullen, Minn. Prof. O. A. Barton is in charge of the team. Moore and Stende are seniors; Carl Ash, a junior.

DAIRY PRODUCTS MADE AT COLLEGE IN DEMAND

Food products manufactured and sold at the North Dakota State college are very popular with Fargo people, according to Chris Jensen, instructor in dairy manufacturing at the college.

The dairy department is now making lacto buttermilk which is a beverage prepared from pasteurized skim milk to which a culture of starter bacteria has been added.

Demand for this product has been increasing rapidly.

A new kind of pimento cheese is also manufactured by the college dairy department. It is made of sweet whole milk to which rennet is added. A soft cheese, it is very delicious as a sandwich spread, according to dairying officials at the college.

Other products manufactured are butter, cottage cheese, whole milk products and whipping cream. The department also handles produce from other departments such as poultry, eggs, and honey which is sold in cones or by the pail.

Bison Meet Viking Quint

(Continued from page one)
Bison Visit Illinois

The local team will pay visits to new courts of quintdom when they play Loyola University at Chicago December 28. Six games are being played on the eastern trip. Outstanding will be the match with Illini Big Ten five at Champaigne on Friday, December 31. It will be a chance for the Bison to duplicate the feat of again downing a Big Ten team as they did Wisconsin last year, and incidentally of showing their strength.

Following the University of Illinois game, the Bison play Milliken college at Decatur, Ill., December 31; open the new year at Lombard college, Galesburg, Ill., meet the Bradley Polytechnic team at Peoria on January 3; and close the jaunt by playing St. Mary's college at Winona, Minn., January 5.

Regular Job Still Open

Coach Saalwaechter has had his charges hard at work for the past week in an effort to determine his regular team. Coach Solly states that as yet no candidate has out-classed his rival contenders to the extent of assuring himself a position on the team.

At the forward positions Coach for first honors. Captain Newgard and Carl Hanson, two veterans are being urged on by the opposition of Steedsman, Olson, Hahn and George Hermes.

"Hoot" McPherson and Braus, playing at the pivot position, are showing the way to other altitude conenders. McPherson is a veteran of last season's team; and Braus was a member of last year's yearling quint.

The guard positions are receiving the attention of eight contenders in Miller and Tilton, two veterans, and Millard, Wall, McArthur, Tronnes, Peschel, and Al Hermes.

Coach Saalwaechter plans upon using his entire squad in the opening game with the Valley City crew. He also states that it would be necessary for him to have two teams available on the Illinois trip and upon all conference trips to be made this season.

Frosh Games Scheduled

Thirteen first year men are bidding for positions on the yearling quint.

They are, Gergen, Hayes, Bliss, Collins, Aldrich, Hickerson, Clark, Jones, Chandler, Bower, and Eck.

Several strong opponents have been selected for the first year men's schedule and more games will be added to their schedule as soon as arrangement can be made. A few of the teams that the Frosh will meet are, Wahpeton Science, University frosh, and Bimidji, Minn., high school.

300 Delegates Open Institute

(Continued from page one)

different points in the state interested in the opportunity to support club work and at the same time secure some high class meat. The show and sale will be held in the livestock pavilion at the college. The Armour packing plant has offered to dress any animals purchased by others at a nominal charge.

An interesting program for the achievement institute is promised by Mr. Rilling and others in charge. One of the high points will be the banquet Wednesday evening, Dec. 15, when the Fargo commercial club will be host to the visiting farm young people. Programs of community entertainment will be provided under the direction of Prof. A. G. Arvold on Tuesday and Thursday evenings. The programs during the forenoons will consist of demonstrations and discussions by members of the college and extension staff on livestock, crops and home economics projects. Tours of the college and interesting points about Fargo with other recreational features will make up the afternoon programs.

A health contest will be conducted during which each delegate will be scored on physical condition and the healthiest boy and girl will be named by the judges. The club members publish their own newspaper each day during the institute. Special meetings will be held daily for the 25 adult local leaders who are planning to attend.

Counties which have reported delegations include Adams, Barnes, Cass, Cavalier, Dickey, Eddy, Golden Valley, Grant, Kidder, LaMoure, Morton, Mountrail, Nelson, Pembina, Pierce, Ramsey, Renville, Richland, Sargent, Slope, Stark, Stutsman, Traill, Walsh and Wells.

ALPHA PHI OMEGA ALUMNI CHEMISTS' BANQUET HELD

Alpha Phi Omega, honorary chemistry fraternity, held a banquet in honor of alumni chemists at 6:30 p. m. Wednesday in the chemistry building.

Guests of honor were, Henry Wangen, Ralph Eddy, John Hannaher, and Dr. William T. Pearce, dean of the school of chemistry.

Allan K. Adams, master chemist of the fraternity, gave his farewell address at the banquet. Mr. Adams graduates from the chemistry school this term and will leave at once to take a position as a research chemist with the Valentine Varnish company, New York city.

Walter Boerth, former vice master chemist, succeeds to the office of master chemist, and John Spielman becomes vice-master chemist.

Dr. Pearce, who goes on a leave of absence, also gave a short address. Chris Haas, John Spielman, and Lester Thompson were members of the arrangements committee.

Leonard Rygg Awarded Alpha Zeta Loving Cup

Leonard Rygg, sophomore in the school of agriculture, was presented the Alpha eta lovingcup offered annually to the freshman student who has the highest scholastic standing for the year. Mr. Rygg had an average of 91.6. Besides his scholastic activities, Mr. Rygg is a member of the College Y. M. C. A. cabinet, being treasurer, and also a member of the Saddle and Sirloin club.

Dean H. L. Walster gave an address at the Alpha Zeta smoker at which the scholarship cup was presented. Dean Walster's subject was, "Science and the Scientific Man."

C. B. Waldron, professor of horticulture and forestry, also spoke.
