NUMBER 7

BISON TO DES MOINES TODAY SENIOR ENGINEERS VISIT MODERN PLANTS

OTTERTAIL COMPANY PLANTS AT FERGUS FALLS ARE STUDIED

OTTERTAIL COMPANY'S PLANTS FURNISH EXCELLENT OBJECTS FOR STUDY.

GROUP STUDIES MODERN HYDRO-ELECTRIC PLANT

EIGHT MEMBERS OF SENIOR MECHANICAL ENGINEERING CLASS MAKE TRIP.

Professors Rush and Dolve, accompanied by seven seniors, students in the department of mechanical engineering, spent Tuesday in Fergus Falls, Minnesota, as guests of the Otter Tail Power Company, whose main office is located in that city.

The purpose of the trip was to make a thorough inspection tour of all of the company's plants located at Fergus Falls. The study of these plants gave the class somewhat of an idea of the type of construction of modern hydro-electric plants and the conditions under which these plants are operated. The first plant visited was at Hoot Lake, the plant here being operated under a combination of steam and water power. The Hoot Lake plant is the largest operated by the Otter Tail organization.

Visit Plant Under Construction.

The second plant visited was one six miles east of Hoot Lake on the Ottertail river. This plant is now under construction, and completion of the project will be concluded soon. Here the students were able to gain a further insight into the type as well as the method of construction of a modern hydro-electric plant. This plant was perhaps the most interesting of the six plants visited.

Three other plants visited were located at Wright Dam, Dayton Hollow, and Pisgah Dam. All of the plants visited are within a radius of eight miles of Fergus Falls, and the source of power for each is furnished by the Ottertail river.

All members of the class, composed of Tom Regan, Alex Dickie, Norman Jones, Syvert Gunness, Walter Booth, A. M. Ingebretson, and Wayne Watts made the trip.

N. D. BOYS AND GIRLS RANK HIGH AT SHOW

North Dakota Boys' and Girls' Club members again scored high when the dairy cow culling demonstration team won second place at the National Dairy Show, Indianapolis. The team from Iowa having won first place in this particular event of the Boys' and Girls' Club work demonstration.

The North Dakota team included: Eimer Hoel, Abercrombie; Melvin Johnson, Wahpeton; accompanied by their coach, R. C. Dynes, county agent of Richland County.

ANIMAL HUSBANDRY CLASS TO INSPECT PAGE FARM

A. E. Thompson, professor in animal husbandry, will leave tomorrow morning with the members of his stock judging class to inspect the blooded herds at the W. W. Brown stock farm at Amenia, and the Hartly farm at Page.

At the Brown farm, student judges will have an opportunity to appraise pedigreed shorthorn cattle, Shropshire sheep, Percheron horses and Poland China hogs. Mr. Brown, owner of the farm, plans to send entries to the International Stock Show, held the first week in December at Chicago.

The Hartley farm is stocked with Aberdeen Angus cattle, which will give the students in animal husbandry further experience in judging work.

BOXING CLASSES TO GET UNDER WAY AT Y

NEWGARD AND KNAPP TO HAVE CHARGE; FIRST LESSON STARTS MONDAY.

A course in boxing of twelve lessons will be given at the college "Y" again this year. The success of last year's lessons and closing tournament warranted their continuation. The boxing classes will be in charge of instructors Knapp and Newgaard. As the lessons commence on Monday of next week, "Jug" Newgaard desires that those interested apply at the "Y" or see either himself or Jack Knapp at once as the classes are limited to 20 members this year. Hours, however, will be arranged for private lessons and class schedules are as yet tentative until hours are set.

Last year a very successful tournament for amateurs in the various weight divisions was held. Boxing is now an established "letter" sport in the larger universities. With possibility of the sport becoming a minor sport at best, its worth has caused it to be sponsored by the named instructors for the last few years. "Jug", besides being a letterman in two sports, is an amateur boxer of local note. Knapp was runner-up in the amateur field at Ft. Snelling R. O. T. C. camp two years ago.

Several likely looking embryo boxers have already asked for admittance to the classes and with these men already enrolled, indications point to one of the most successful tournaments ever held on the campus.

BISON TO SPONSOR LIMERICK CONTEST

A limerick contest sponsored by the 1927 Bison staff will be a regular feature in each edition of the Spectrum, commencing with the November 3 issue. Prizes for the best last line will be awarded monthly, with the awarding of a grand prize upon completion of the contest.

The prize limericks will be carried as a special feature in a section of the Year Book, according to Miss Carrie Dolphin, editor of the publication. Complete particulars of the contest will be carried in a later edition of the Spectrum

EDWIN BOOTH CLUB TO PRESENT FALL PLAY NOVEMBER 18

"THE COLLEGE WIDOW", A COMEDY OF COLLEGE LIFE BY GEORGE ADE CHOSEN.

MARJORY GULLICKSON PLAYS LEADING ROLE

SIXTY EIGHT STUDENTS ANSWER CALL FOR TRY-OUTS AT FIRST REHEARSAL.

A cast of characters has been chosen and rehearsal work is now in progress on "The College Widow", a four act comedy written by George Ade, which will be presented by the Edwin Booth Dramatic Club on Wednesday evening, November 18, in the Little Country Theatre.

Sixty-eight students answered the call for "try outs" which were given by Prof. A. G. Arvold, Friday of last week. From the quota of promising material, twenty-five students were picked to make up the cast of the first play of the year.

To college students, the title of the play should connote interest. Being written by one of the foremost humorists of the country, "The College Widow" can hardly fail to bring out a colorful and modern picture of present day life.

Depicts College Life.

As in so many present day institutions the play brings out the struggle of a college to uphold honors on the athletic field. Atwater College is characterized as "a quiet Presbyterian school", but its reserve is soon forgotten when Billy Bolton, All-American half-back, stops off on his way to Bingham, a rival college. He quickly puts in the background a "Silent" Murphy, who had to date been the outstanding grid prize gleaned from the "sticks." Murphy had been picked up in a foundry. Technically, he was matriculated in a "four-hour art course", but, ostensibly he was the year's sure bet for center on the eleven.

At every graduation, Jane Withering (Continued on Page Three)

ANNUAL "Y" MIXER TO BE HELD NOVEMBER 7

The annual "Y" mixer will be held in the college Y. M. C. A. Saturday evening, Nov. 7, according to Eric Thomsen, general secretary of the association.

A complete program of entertainment is now being prepared and unusual measures will be taken to provide for refreshments. Mr. Thomsen and his committee are making preparations to make this year's mixer the finest all-campus party ever held in the "Y."

All students of the college are invited to attend the party, which is sponsored to get the students better acquainted with each other and to make new acquaintances.

Professor and Mrs. I. W. Smith, and Professor and Mrs. W. T. Rolfe will be chaperones for the party.

COLLEGE RADIO STATION TO BROADCAST BIG PROGRAM

W. P. A. K., the college radio station has scheduled three programs for next week according to word given out by Professor E. S. Keene, who is in charge of the station.

On Monday, Oct. 26, Ion J. Cortright, athletic director, will broadcast a talk on the present football situation as regards North Dakota.

Wednesday the weekly market review will be broadcast, O. A. Stevens, connected with the department of agriculture of the college, will broadcast a talk on "The Fall Migration of Birds."

The regular schedule of broadcasting news from the U. S. Department of Agriculture, weather reports, and news from the U. S. Department of Health will also be broadcast.

FROSH PLAY FIRST HOME GAME TODAY

MAYVILLE NORMAL TO FURNISH YEARLING OPPOSITION ON DACOTAH FIELD.

Bison Frosh will make their initial bow before a home crowd on Dacotah Field this afternoon at 4 o'clock, when they meet the Mayville Normal grid squad.

Very little is known of the prowess of the Northerners, but according to information reaching here, the Normalites boast a strong aggregation of ball toters and also claim somewhat of an impregnable defense.

Catlin's team will probably line up with Fisher at center. Blair and Smith as guards, Sullivan and Kelly or DeScutel at tackle, Engh and Hoster at ends, Cy Peschel at the pilot post, with George Hermes and Sweeney as ball toters at halves, and Al Hermes at fullback. Narum, Calkins, Early, Tronnes, Howell, Steedsman and Elerding may also see service before the completion of play.

George Hermes has been doing the stellar work in the ball-lugging department, proving to every team the frosh have met thus far that he is a classy open-field runner. Al Hermes has been doing the passing and kicking, with Tronnes as an assistant in the booting end of the game. The frosh line is especially strong from tackle to tackle, very few gains having been made against the yearlings through their forward wall.

Students will be admitted upon presentation of their athletic books at the gate.

ALPHA KAPPA PHI TO HOLD DANCE

The Alpha Kappa Phi fraternity will entertain its rushees at a dancing party to be held at The Prado, Ninth Street and Second Avenue South, tomorrow evening. Hours of the party have been announced as 8:45 to 11:45. Music will be furnished by the Collegian Orchestra.

Professor and Mrs. Al Severson and Mr. and Mrs. George Mayoue will act as chaperones. The committee in charge of arrangements for the party consists of Earl Olsen and James Dusabek.

TWENTY MEN LEAVE WITH CORTWRIGHT FOR TIGER CLASH

BISON WILL ENDEAVOR TO EVEN DISASTROUS DEFEAT BY TIGERS SUFFERED LAST YEAR.

BISON MAY FEATURE STRONG AERIAL GAME

ST. THOMAS GAME PROVES DES MOINES AGGREGATION ARE DANGEROUS GRID CREW.

Coach Cortright and a squad of twenty gridmen entrain this afternoon on Northern Pacific train No. 2 at 2:09 for Des Moines, where they will play their fourth conference game of the year with Des Moines University. With their escutcheon unblemished to date, Cortright's men will face a team that holds a win over them from last year, and one whose showing with the St. Thomas Cadets at St. Paul last Saturday, promises a battle for the Bison. Returns on Des Moines-Bison battle are to be shown on the "gridograph" at the College Armory tomorrow afternoon as the two teams are playing.

Gridsters who are scheduled to make the trip are: Miller, Augustine, Griffith and Clausen, halves; Rumpeltes and Hanson, fullbacks; Arnold and Mach, quarterbacks; Captain Thompson, Stoudt, centers; Keltner, Baillie, Regan, guards; Kneeshaw, Marks and Gorder, tackles; Newgaard, Tilton, Blakely and Wall, ends.

Bison Strong.

The conference tilt has shown the the Bison eleven to be one of the strongest of the "Little Eight" teams. There record of a game in the win column, Morningsides expense and of two knotted ones, a tie each with Creighton and South Dakota State, both of which topped the loop last year; indicates the power of the Bison.

Cortright's men came through their battle with the Bunnies last Saturday with slight damage to old hurts. Arnold and Kneeshaw will be in excellent shape for battle, a fact which should further their stellar bid for all Conference choice.

With two teams resorting to an aerial game as shown in their recent games, play Saturday should uncork some excellent field gains. The Iowa (Continued on page 3)

"AD" DEWEY COACHING MULTNOMAH CLUB FIVE

George "Ad" Dewey, former basketball and track coach here, is now coaching the Multnomah athletic club basketball team at Portland, Oregon, according to the "Winged Bulletin", official publication of the club, received recently at the Spectrum office.

According to the Bulletin, several likely men are amongst the crew now being given their first practices. Dewey is now selling insurance on the coast and doing coaching for the Multnomah club on the side.

THE ENGINEERS' TRIP.

The story carried on the front page of this issue is just indicative of the class of instruction being offered in this institution. The engineering class each year make a series of trips to points of engineering interest, and in the department of agriculture the various courses are given with instruction from a practical viewpoint.

The class room cannot teach all the parts of any subject, but where it is augmented by a practical illustration of the topic being considered, the student is given a further insight into what he has been studying the fundamentals of in the class room. Some courses cannot be accompanied by a practical illustration, but wherever possible the college has given practical instruction as well as theoretical. All in all it appears that this institution is not confining its courses to lectures which mean little in many of the courses.

TEAM SUPPORT.

This afternoon the Bison leave on Northern Pacific train No. 2 for Des Moines where they play the Des Moines University football team. There are doubtless many students who have no class between noon and 3:00 o'clock. To those students who have no classes at these hours will be able to meet the train which arrives at 2 p. m. and departs at 2:09. The team received a fine sendoff when they left for Creighton three weeks ago tonight. Why should they not receive equally as good a one this afternoon. If you haven't a class at the hours the train leaves, spend it at the N. P. depot and see the Bison off.

THE Y. M. C. A.

The other day we chanced to drop in the Y. M. C. A. and made the acquaintance of Eric H. Thomsen, the new general secretary. In Mr. Thomsen, the association has secured a man whom we believe is very capable. Mr. Thomsen has already created a large circle of friends amongst the students and faculty of the college.

Needless to say, for the past few years something has been wrong in the college association and we saw for ourselves where most of those have been remedied and others are being remedied. Mr. Thomsen intimated to us that he intends to make a social place of the "Y" for all the students of the campus, and not cater to the few who had leanings toward the method it had been run under in the past.

Mr. Thomsen believes the same as we do, that the Y. M. C. A. can be an influence for good and serve a much needed want on the campus. Everything can be overdone in one direction or another, and to meet the needs of all the new secretary proposes to strike a medium whereby the association will attract every class of student, and not the one class which has been catered to in the past.

Fraternity men have been negligent in their support of the "Y" activities, not because they wished to see it removed from the campus, but because it did not offer any sort of attraction to draw them away from their houses. Mr. Thomsen expects to provide entertainment of a variety that will attract all men of the campus. In order to do this he believes it is not necessary to forsake the main objects of the association, but to add other forms of recreation in order that all will be attracted to the organization. The Spectrum stands ready to give support to anything Mr. Thomsen may wish, for we believe the college has secured a man to fill a much neglected office. In conclusion the Spectrum urges every student to drop in at the "Y" and get acquainted with the new secretary, and we can confidently say that each will never be sorry for an acquaintanceship he has made in one of the best liked men of the campus at the present time.

THE FROSH.

This afternoon, college students will have their first chance to get a glimpse at the Bison freshmen football team. This team is as much a representative of the institution as is the varsity, and likewise command as much respect and support. If you are a loyal supporter get out this afternoon and help these boys who are in their first year of college. They expect support from the student body and there is no obvious reason why they should not get it. True, they do not play the class of football the varsity does, but in their class they are every bit as good. They lack experience as do many of their opponents, and in a game where two evenly matched teams are battling, the game should attract considerable attention. Get out this afternoon and see who is in store for future Bison teams, give these men what they rightfully deserve while defending Bison colors before a home crowd for the first time.

Indian Rock Paintings May Yield Historic Secrets

PUBLIC ASKED TO ASSIST IN SEARCH FOR SURVIVING INSCRIPTIONS.

New York, Oct. 19.—That valuable and surprising information about the prehistoric inhabitants of America may be obtained from the paintings and inscriptions known to exist on rocks in various parts of the country was the idea urged here Saturday by Dr. E. E. Free, Science Editor of The Forum. The public is asked to supply information of the locations of such examples of prehistoric American art, so that these examples may be photographed and studied scientifically before they disappear or are defaced.

Rock Pictures in Arizona.

Last year in the Northwestern corner of Arizona, a scientific expedition headed by Mr. Samuel Hubbard, of Oakland, California, found some remarkable rock pictures supposedly made by prehistoric man. One of these pictures looked much like a dinosaur, one of the long extinct reptiles which geologists have reconstructed from fossil bones. Others looked like the ibex, an antelope-like creature which lives in Asia but is not known, even in fossil form, in America.

If these are really ibex, where did the ancient artist see them? Has the Pacific coast experienced some pre-Columbian visit from Asiatics, like the ancient visit of Lief Ericson to our Atlantic coast? This is by no means impossible. Early settlers in California relate a story of the finding, years ago, of a complete Chinese junk, buried in the gold gravels.

Rock pictures and inscriptions are known to occur in many places in the United States. They have always

been ascribed to the present day Indians, which is no doubt quite correct for the majority of the examples. But possibly some of them are more ancient and more important. The paintings on the walls of gorges and caves in Spain and France were neglected for years. Now the scientists are reading much ancient history from them. Possibly we are neglecting a similar asset in the United States.

May Be More Paintings.

Many of the localities where rock paintings occur are recorded in the scientific reports but there must be hundreds of others, Dr. Free thinks, which have never been described scientifically and are known only to individuals. The Forum has undertaken to collect information of all such paintings which can be located. Scientists will then visit the more important ones and endeavor to decipher what they mean and who made them.

All persons who know of prehistoric

inscriptions or paintings which deserve study and record are urged, therefore, to send brief descriptions of them, with exact directions for finding the locality, to the Science Editor of The Forum, 247 Park Avenue, New York City. Such information will be gratefully acknowledged. It may prove of great value to science.

AGRICULTURE — ARCHITECTURAL ENGINEERING — ARCHITECTURE — BIOLOGY — CHEMISTRY — CHEMISTRY AND ENGINEERING — CIVIL ENGINEERING — EDUCATION — HOME ECONOMICS. — MECHANICAL ENGINEERING — PHARMACY — SCIENCE AND LITERATURE

All Curricula Fully Accredited by North Central Association of Colleges and Secondary Schools and by Regents of New York.

These courses are available to those who have completed the equivalent of a High School training. For those who have not had such training

SPECIAL COURSES

Business Training, Drafting and Building, Farm Husbandry, Homemaking, Power Machinery THIS COLLEGE offers to the young people of this state an education which is thoroughly in line with modern thought and demands. It spends no time on dead languages or such subjects as are of little practical value. It aims to fit young men and women to think and investigate for themselves; to deal intelligently with the social, agricultural and industrial problems of the day. THE LABORATORIES are thoroughly equipped, and the instructors are specialists in their line. Exceptional advantages are offered in chemistry, physics, botany, literature, mathematics, engineering and the social, economic and political sciences. Graduates from Approved High Schools are admitted to the Freshman Class. Board and room \$6.25 to \$7.50 per Week.

COLLEGE OFFERS MAIL COURSES

THIRTEEN SUBJECTS OFFERED BY SCHOOL OF AGRICULTURE

COURSES TO BE MADE OF GREAT BENEFIT TO NORTH DAKOTA FARM PEOPLE.

SMALL FEE CHARGED TO COVER EXPENSES

BULLETINS AND CIRCULARS TO FURNISH MUCH OF MATERIAL FOR COURSE OF STUDY.

If the people of North Dakota cannot go to college, the college will go to them

Thirteen subjects are now offered by the School of Agriculture, North Dakota Agricultural College, to farmers, farm managers, town dwellers who cultivate land, prospective settlers and many others desiring specific information on the production of farm crops and animals, or the conditions of successful agriculture in North Dakota. These subjects, which are to be offered by correspondence, will cover poultry, beekeeping, fruits, vegetables and trees; forage crops; dairying; sheep husbandry; beef cattle; small grains; farm instructors; farm management; introduction to marketing and introductory survey of scientific agriculture. The last course is planned to be especially adapted to real estate men, bankers and large land holders.

Credits Given.

In such courses of study, specialists in the School of Agriculture faculty have been enlisted. According to T. W. Thordarson, director of the school of agricultural correspondence, credits will be granted in the farm husbandry courses upon completion of any of the courses listed. And upon completion of the course or courses in a satisfactory manner a certificate of completion will be issued the student, states Thordarson.

It is the plan of those in charge of the correspondence courses of agriculture that the courses be given free except for an incidental enrollment fee of \$2.50 for each course taken, or \$4.00 for two courses taken at the same time. This enrolment charge, says the director, is made to cover part of the cost of mimeographing, mailing, postage and the clerical work keeping the books.

Reference texts will not usually be required with the courses, but a list of the best texts and periodicals on the subjects will be furnished with each course of instruction. Also a list of the various free bulletins and circulars of the United States Department of Agriculture and the State experiment stations, will be furnished with the courses.

One year will be allowed for the completion of the course, according to the rules of the School of Agriculture. "This is the first attempt at giving agricultural courses through the mail," says Thordarson, "and there are great possibilities in store for such courses in instruction."

Twenty Men Leave With Cortwright For Des Moines

(Continued from page one)

team's game with St. Thomas, an avowedly strong passing team brought their strength. A defeat by such a small margin as 12 to 7 spells another threat to conference championship aspirers. The more so, as the St. Paul Cadets mercilessly trounced Kalamazoo Normal 34 to 0 a week before.

On the other hand, the Bison showed a pleasing assortment of aerial stuff against South Dakota State, Saturday. Had not the breaks gone against them at the critical moments, the scoring would not have remained sole-

ly in the field goal class. Cortwright's wing men showed a pass snatching ability that was pleasing. When Tiltten picked a floater out of the air just before going out of bounds a goalward march was in vogue that only Dame Fortune had been able to stop, after Rumpeltes had went over.

With a passing backfield and a grasping pair of wingmen, Bison score columns are not likely to be thwarted from breaking into the touchdown class. Arnold, Augustine, Miller and Rumpeltes have all demonstrated their ability at negotiating gains via the pass route. Against Morningside, much of the yardage was made in this manner. But the running and plunging game proved still to be the chief stay of the A. C. eleven. Miller's 75 yardage and Rumpeltes' 68 in consecutive downs, of fifteen and thirteen each were due to the running and plunging tactics they exemplify.

Tiger's First Conference Try.
Des Moines will enter its first conference joust when they meet the Bison. The Iowa eleven, led by Captain Little has shown well against foreign teams, despite some reverses. Their ability to score on the St. Thomas aggregation gives fans and supporters of the Bison school an opportunity to compare the two. St. Thomas' gridders are also dated up with the Bison for the November 14th game.

The defeats suffered by Des Moines have no bearing on their conference standing, and starting late in the race against the A. C. eleven which hopped off to a comparatively early start in the tilt. They have the experience and enured state that will make it tough for the Bison veterans. With the handicap of not being able to include Des Moines in the Conference Dope bucket, the Bison can only expect to meet another determined crew who will strive to repeat over them as last year. Creighton and South Dakota State, who meet as well tomorrow, have both been faced by the Bison. Singularly enough, both games were ties. It remains for the two Southern schools to unseat the other for a lofty position in the race. On the other hand, the eleven tutored by Cortwright must keep pace with the pace with the North Dakota University and the winner of the Blue Jay-Bunnie tussle. Incidentally, Coach Davis' team upstate has hown very well and it is not sure but what the Bison leaves a formidable rival behind him on his invasion into the Corn State.

KAPPA DELTA NATAL DAY COMMEMORATED

LOCAL CHAPTER INSTALLED AS SIGMA PSI OF KAPPA DELTA IN MAY.

Members of Kappa Delta Sorority are wearing white roses today in commemoration of the Sorority's National Founder's Day.

The sorority was founded at Virginia State Normal School, October 23, 1897. The organization now has 54 active chapters at various colleges and universities throughout the country, with forty alumni chapters.

The local sorority, Gamma Kappa Psi, organized in 1923, was formally installed as Sigma Psi of Kappa Delta May 1, 2 and 3, of last year.

A meeting will be held at the home of Eloise McArdle at 6:30 this evening at which time the regular Founder's Day exercises will be held.

spoon, the College Widow, leaves a host of disappointed suitors, hence her title. The part will be handled by Marjory Gullickson

The ultimate result of the meeting of the "Coleg Widow" with the star halfback, Billy Bolton, is that the latter plays for Atwater instead of Bingham. Wade Boardman plays that part of the favored Billy Bolton.

Throughout the four acts the aspect of modern college life are pictured. When Bolton, Billy's father and a monied railroad executive acquires an alphabet of college degrees from Bingham an Atwater undergraduate aptly accounts for it by saying: "Every time he puts up a new building they give him a new degree."

An omission was made in the last issue of the Spectrum in announcing the appointments to the Bison-Spectrum staffs. The Board of Publications also announce the appointment of Carl Schulze as assistant business manager and Eugene Ostman as advertising manager. Schulze will also act in the capacity of sales manager.

A. F. Hunsaker, professor of social and economic sciences, has been a patient at St. Luke's hospital since Monday, Oct. 12. Professor Hunsaker is slowly recovering after an operation for acute appendicitis and complications.

Mr. John W. Darling, instructor in English, has been absent from his duties because of a severe cold.

The Pharmacy Club held its annual picnic on Thursday, preceding the Bison "Roundup" and had a fair attendance despite the distracting week. After the picnic proper which lasted from four to eight, the students attended a demonstration of "window trimming" given by a representative of the Dennison Crepe Company at the Commercial Club.

Miss Florence Early will be hostess to the active members and pledgees of Sigma Theta Sorority.

Phi Omega Pi Sorority entertained at a breakfast at the Chapter House for the after members and the out of town guests Sunday morning at 10 o'clock.

Student Opinion

It seems that some attention should be called to the great lack of school spirit shown, not particularly by any class, but by the student body at large. There is nothing singular about it. It exists everywhere on the campus. That is the matter of crossing the campus grounds where there are no walks. If you have the faintest spark of real school spirit you wouldn't do such things. What is the matter with you? What is lacking? Are you proud of your school; its campus, and its buildings; or is it merely a place to which you can come, stay a while, and then leave? Surely, no real, honest-to-goodness student wants to see his or her campus criss-crossed by crooked cow paths, or crooked snake tracks. Now, wake up, cometo your senses and see if you can't kindle that spark of loyalty to your school to such an extent that you will delight in its beauty, rather than its ugliness. Come on, be a booster.

WILLIAM RUNDQUIST.

"Y" SECURES NOTED ATHLETE'S SERVICES

HAROLD SVEINBJORNSEN TO BE TEMPORARY PHYSICAL DIRECTOR OF ASSN.

Athletic enthusiasts, who indulge in more strenuous exercise than that of warming bleacher seats, will be interested to learn that Eric Thomsen, new "Y" secretary, has procured the services of Harold Sveinbjornsen, graduate of the famous Danish physical education school directed by Niels Bukh, for a tentative term as physical director at the College "Y".

Mr. Sveinbjornsen, in giving an exhibition of muscular control at the Y. M. C. A. last Monday night, drew the praise of all spectators, many of whom avowed that his exhibition was the most extraordinary of its kind ever seen.

The Bukh graduate comes from one

of the world famous athletic institutions of today. Danish gymnastics have always held a pinnacle in their field and the record of the Bukh Institute is assurance enough of the type athlete the new "Y" physical instructor exemplifies. In the Olympic games of 1920 the Bukh team was an outstanding feature in the games. So much so that a demonstration team toured the United States in 1923.

Secretary Thomsen has obtained the services of Sveinbjornsen until December 1. Unless a contract with the University of Nebraska is released students will not have the advantages of his personal supervision after that time. Possibilities are for his permanent installation here, however.
