

BISON ENTRAIN FOR CREIGHTON

SPRING TERM AVERAGES RELEASED

JUNIOR CLASS PLACE 6 AMONGST HIGH TEN COLLEGE STUDENTS

Agriculture Curricula Are Highest in Course Averages.

FLAMER IS LEADER

Fraternity and Sorority Members Lead Non-society Members.

Six juniors, three sophomores, and one senior comprise the group acquiring the ten high grades of the college according to statistics released by Registrar A. H. Parrott yesterday. Marie Smith, leader for five consecutive terms dropped to third place, while Violet Flamer and Byron Hanson take the two upper positions. The junior science and literature class lead all curricula with an 86.5 average. The Agricultural group show the highest standing for all classes with 83.4. The women lead the men for the general institutional average with 82.4. The fraternity and sorority students lead the non-fraternity and non-sorority women, the margin of fraternity men being greater than sorority women. In the high school department the men lead the women with a 79.6 average, while the women have 79.2. Laura Sturlaugson leads the high ten in the high school department with a 96.9, being far in the lead over others in this department.

The report as given out by Mr. Parrott follows:

Student Grades for the Spring Term 1925

General Institutional Average (all men, all curricula)	81.6
All students, all curricula	81.1
All men, all curricula	82.4
All women, all curricula	82.4

General Average	81.8
All undergraduates	80.8
All men	83.0
All women	81.9

Averages by Groups and Classes

School or Group	Average
Agriculture	83.4
Chemistry	82.4
Education	81.9
Engineering	80.7
Home Economics	81.6
Pharmacy	78.3
Science and Literature	82.7
Veterinary Science	76.9
Class Average	81.9

The Ten Highest College Grades (Undergraduates)

Name	Grade	Class
Flamer, Violet	97.7	Junior
Hanson, Byron	96.5	Junior
Smith, Marie	96.1	Junior
Ross, Grace	95.6	Junior
Rydstrom, Carlton	95.4	Senior
Seigel, Gertrude	95.0	Junior
Lillie, Leroy	94.4	Sophomore
Metzinger, Mary	94.3	Junior
Boardman, Wade	93.8	Sophomore
Reed, Clarence	93.8	Sophomore

High School Department

General Average	79.4
All students	79.6
All men	79.2
All women	79.2

Averages by Classes, all Courses

First Year	76.4
Second Year	76.8

(Continued on page 3)

REGISTRATION MARKS SHOW DECIDED INCREASE

Registration figures as given out by A. H. Parrott yesterday show a substantial increase over last year. 820 students had registered by noon yesterday and later registrations should bring this mark up to 850. An increase of 10 per cent over last year's registration is looked for by officials of the college.

The science and literature course leads the field at the present time in numbers while a 50 per cent increase is shown in the freshman agricultural courses. The high school shows a loss of about 40 students due to the abolishment of the first year in this department. The industrial and short courses should swell the mark to about 1,200 and the late registrations should have a total of about 1,250. The short courses had a total registration of 92 last year, but Mr. Parrott expressed the belief that 150 should register this year due to the increased economic conditions.

NINE FORMER A. C. STUDENTS PLEDGE TO NATIONAL SOCIETIES

7 Pledge at University, One Each at Northwestern and Wisconsin.

Nine former students at the A. C., four girls and five boys were pledged to national sororities or fraternities at three different institutions. At the University of North Dakota, four girls were pledged to national sororities, Marie Smith, Alpha Phi, Helen Olson and Helen Bowers, Delta Gamma, and Elizabeth Doyle, Kappa Alpha Theta, comprising the group. All are from Fargo and are members of Delta Phi Beta sorority.

Edward M. Yocum, editor of the Spectrum last year, and Harold Peterson were pledged to the Alpha Tau Omega fraternity at the University of North Dakota, while Robert Hallenberg was pledged to Sigma Alpha Epsilon at the same institution. At the University of Wisconsin, Byron Hanson, business manager of last year's Bison, was pledged to Kappa Sigma fraternity. Harold Hansen was pledged to Delta Tau Delta fraternity at Northwestern University. All of the above boys are members of the Alpha Kappa Phi fraternity here.

WORK ON 1927 BISON IS ALREADY STARTED

Many Good Positions on Staff Are Still Open Says Editor.

Work on the 1927 Bison has already begun, according to Carrie Dolphin and Emery Putnam, editor and business manager.

Contracts to the engravers and printers were let during the summer, the engraving contract going to the Brock Engraving company of Madison, Wis., and the printing contract to the Knight Printing company, Fargo.

THIRTY-FIVE MEN REPORT FOR BISON FROSH GRID SQUAD

Four Games Scheduled for Yearlings; Open at Wahpeton October 19.

HAHN TO HOSPITAL

Three Wahpeton Backs Form Nucleus of Ball Toters; Sullivan Good.

With 35 freshmen reporting for daily football practice on Dacotah field the future North Dakota Agricultural college football prospective outlook is promising. These are sentiments expressed by football fans who are watching the A. C.

May Be Doubled

There is a possibility of doubling the numbers on the 1925 yearling squad, according to coach I. J. Cortright, athletic director. During the 1924 season there were approximately 20 of the first year men out for daily practice.

Among the yearlings are such prominent ex-high school stars as three of the four "4" Horsemen of Wahpeton and Mike Sullivan of Bemidji wanted by nearly every college and university in this section. Sullivan was sent down to the A. C. by Buck Robbins, late football and basketball star of 1923, who is now coaching at Bemidji.

Bob Hahn, one of the most likely looking back candidates who has entered the A. C. in some years, was stricken with acute appendicitis on Tuesday and is now confined to St. Luke's hospital, where he will likely be for at least three weeks, according to the attending physician. Hahn's speed, passing, and kicking is a near revelation and provided he is able to carry his work this term, he should be the leading back candidate on next year's varsity squad.

The lineup on the frosh football squad is as follows: Hans Tronnes, Al Johnson, Horace Jones, Frank Calkins, Bill Howell, E. Elerding and John Blair, Fargo; M. Altenburg, Judson; Jacob Wahl, Denhoff; Peter Peightal, Coleharbor; Bob Billings, Lakota; Harry Slaughter, Marmarth; Martin Sweeney, Milnor; Gerald Barney, Casselton; Harvey Steedman, Larimore; Alfred Doer, Ashley; George Hermes, Al Hermes, Cyril Peschel and Jud Fisher, Wahpeton; Walter Hoster, Valley City; Warren Huff, Ralph Smith, Martin Engh, Moorhead, Minnesota; Mike Sullivan, Bemidji, Minnesota; Don McArthur, Hancock, Minnesota; Harold Dow, Kent, Washington; Walter Hoffman, South Bend, Indiana; Edward Bryant, Elgin, Illinois, and DeSautel, Grafton.

Four Games Scheduled

Four games have been scheduled for the yearlings with outside schools. The Wahpeton Science School, Wahpeton, will play the A. C. frosh team at Wahpeton on October 9. Another game has been booked up with the Park Region Luther college, Fergus Falls, Minnesota for October 16, at Fergus Falls. Tentative plans are to have a game with Valley City Normal on October 24. The University of North Dakota sends their frosh team to Fargo for a final tilt with the A. C. frosh on October 30.

WAR IS ON! FROSH BUYING GREEN CAPS AT BOOKSTORE

"Say, Bill, does this fit?" "How do you wear the darn thing?" "I'm glad my kid brother won't get a chance to see me in this!"

Such remarks as these circulate freely about the bookstore at the North Dakota Agricultural college these days, as the freshman makes his annual reluctant purchase, demanded of him by tradition and the terrible sophomore—the bright, bright green freshman cap.

Threateningly on the bulletin board glares the sign: "All freshmen wear green caps! Beware!" signed with the one fearful word: "sophomore!"

Will some wily freshman, full of guile, slip by the vigilant eye of the sophomore and appear in normal head-gear? The next few weeks will decide this much mooted question.

The war is on.

N. D. A. C. JUDGERS ARE WELL UP IN LIST OF CATTLE JUDGERS

Team Is Now Visiting Dairy Farms in Wisconsin and Illinois.

At the Dairy Cattle Congress, Waterloo, Iowa, the Dakota judging team won over eleven other teams, first place in Brown Swiss classes; tied for fourth place as team; fourth place in Jersey classes; and Martell placed eighth out of the 33 representatives as individual judge of cattle.

The team, composed of North Dakota Agricultural college seniors, is as follows: Ray Harding of Midway; Ted Martell, Bismarek; Floyd Ryall, Crary, and William Toussaint of Leonard as alternate.

After the Dairy Cattle Congress the team will spend several days visiting and practice judging on prominent dairy herds in Wisconsin, Illinois and Indiana, according to Coach J. R. Dice. The team judges at the National Dairy Show which is held at Indianapolis October 10.

BUNNIE GRIDDERS TAKE NARROW MARGIN WIN

By Windsor A. Straw

Brookings, S. D., September 26.—The State Jackrabbits won a grimly fought battle from the Dakota Wesleyan eleven on the local field by a lone touchdown scored in the final quarter.

A drizzling sky overhead and a slow field underfoot made for straight football throughout the tussle. Ekern, Cornell, and Starbeck blocked three Wesleyan punts during the game, which was marred by considerable fumbling by both teams.

With the opening of the final period the Westmen started a 50-yard march down the field which terminated when Welch went over to score on an off tackle slant. Captain Kelley got away for two 20-yard runs and was largely responsible for bringing the oval to within scoring position.

JIMMIES TROUNCED 47 TO 0 IN OPENER BY CORTRIGHT TEAM

Continuous Rains Force Coaches to Keep Charges Off Grid.

CREIGHTON TOUGH

Gorder and Wall May Push Vets for Regular Positions.

Coach Ion J. Cortright and twenty three Bison footballers left over the Northern Pacific in a special Pullman coach for Omaha where they will usher in the N. C. I. season against Creighton. The team will arrive in Creighton Friday evening and will have their car side-tracked, and will use it as sleeping quarters until their return to Fargo.

Work Is Light

Creighton, considered one of the strongest teams in the country last year, will prove a tough trial horse for the Bison in their conference play. Cortright has taken no chances of injuring his men this week, and on account of the wet gridiron has done but very light work, confining the heavier work to other parts of the field.

Men who are making the trip are: Arnold, Miller, Rumpeltes, Tilton, Wall, Gorder, Stoudt, Fuller, Clasen, Griffith, Regan, Marks, Augustine, Blakely, Newgard, Bill Gray, "Bugs" Grey, Davidson, Mach, Keltner, Baillie, Thompson, and Hanson. Coach Meadows will also accompany the team.

The Bison exhibited considerable class in trouncing Jamestown College last Saturday, 47-0. Cortright's backfield demonstrated that they will be hard to stop, for they can threaten with any kind of a running attack, and also have a good passing team in the making. Miller and Arnold can run the ends, while Rumpeltes and Augustine exhibited a fine bit of plunging.

Cortright made many changes in his lineup and tried various combinations. Several men looked especially pleasing in their positions and several of last year's veterans will be pushed hard for their places. Johnny Mach and "Bugs" Grey were the only men to come through the fray with injuries, but both will be ready for service in tomorrow's contest against Creighton.

On the first play after the kickoff, Miller ran the ball through the entire Jimmy team for a touchdown. Miller, Rumpeltes, and Augustine each crossed the line twice. Hanson, a sophomore, crossed the line once.

On the line the play of Newgard, Thompson, and "Bugs" Grey was outstanding. Wall and Gorder, both of whom were late in reporting looked good for so early in the season, and both may make regular positions on the squad.

The lineup:

STATE--HAZEL EDEN in PERSON :- MAZIMOVA in "MY SON" ORPHEUM--"THE LOST WORLD"

LET'S SEE YOU GO FROSH!

To you who are entering college for the first time, do you know why you are here? Why go to college? Do you need a college education? Well, frankly, you don't need a college education, but nevertheless you will be none the worse with as big an advantage as a college education when the time comes for you to make your own way.

Because you have attended college does mean that you have received a college education; there is more. You will get out of an education only so much as you put into it, and what you get out of it is all left to you.

The college student does not get all his education in the classroom. Your social life, your activities, and your study all go to make up the broad field known as the college education. In short, a college education purports to make of each and every collegian a leader, and if you are to be a leader there is no better time to start than now. Forget your high school days and ways for the present, you are a college student now and will sooner or later have to get away from these ways and you may as well do it now.

A career may depend upon your college life, and the success or failure of this career depends upon yourself; no one else can shape it for you. Start in now, be collegiate.

THE DROP BOX

Inside the entrance to the postoffice will be found the Spectrum drop box. This box has been placed there for a purpose. We expect to find contributions from students in order that the Spectrum may be the voice of the student body, not that of the editor or his assistants. If you have something you want to tell the student body, something the student body should be reminded of, there is no better place to let it be known than through the columns of the student paper.

In the past we have found many things such as waste paper, chewing gum wrappers, hairpins, and money and other numerous articles. Although we have no objections to finding money in the box we would also be very appreciative if someone would stuff the box with contributions of interest. What have you?

THE BISON

Last Saturday afternoon we had our first real squint at the Bison under fire, and what a sweet aggregation of football toters Coach Cortright and his assistants have molded together. In fact, we think right now they are the equal of any in the North Central conference.

Who's going to help them be the best in the conference? Each and every one of us can at least do a small part toward helping attain the goal of the championship. Yell leaders will be appointed shortly, convocations and rallies held, and there are songs and yells to be reviewed or learned. If you are 100% in doing your share, there will be eleven husky Bison on the gridiron who can be depended upon at all times, and there are at least an equal number on the bench who can replace them, so that leaves the job to you. The team must have support and the student body must give it to them. Will you be one?

Tomorrow afternoon, in Omaha, the Bison will be meeting a team reputed one of the strongest in the country last year, namely, the Creighton Bluejays. Perhaps the Bison will win; if so, it is a time for rejoicing, but if they should lose it is no time for wailing and booing, but right then is the time to get back of the team and help them along by cheering. Let's get a good start and keep it up. All right, where's the pep?

Redditt, Poultry Head Gives Method for Care of Canaries

Sodium Fluoride Powder is Best Eradicator of Body Insects.

Canary birds have their troubles with body insects as well as the farm flocks. This has been discovered through the recent inquiries as to best treatments, which have been submitted to the North Dakota Agricultural college poultry department by North Dakota housewives.

Apply With Filler

According to J. R. Redditt of the poultry department of the college, sodium fluorid powder, obtained from the corner drug store at 30 to 60 cents per pound, is the most effective eradicator of the canary's troubles. In telling how the powder should be applied, Redditt states that it should be applied very lightly. Take a little between the two fingers and dust the powder under the feathers until it comes in contact with the skin of the bird.

As sodium fluorid is very poisonous to internal organs care should be taken to apply only on the outside; and to safeguard against disastrous results the poultryman suggests that the powder be mixed with road dust, cement, ashes or even talcum powder at the rate of one part sodium fluorid to four parts of the filler powder.

Always buy Remington Portable

It is the outstanding choice of students everywhere, because it is the lightest, smallest, and most compact of all standard keyboard portable machines. It fits in a case only four inches high. You can carry it anywhere and use it anywhere—and when not in use, you can tuck it away in a desk drawer or bookcase. You'll find it a great time-saver throughout its years and years of service. Let us show you the many decisive advantages of the New Remington Portable and explain our easy payment plan.

The College Department Offers

AGRICULTURE — ARCHITECTURAL ENGINEERING — ARCHITECTURE — BIOLOGY — CHEMISTRY — CHEMISTRY AND ENGINEERING — CIVIL ENGINEERING — EDUCATION — HOME ECONOMICS — MECHANICAL ENGINEERING — PHARMACY — SCIENCE AND LITERATURE

These courses are available to those who have completed the equivalent of a High School training. For those who have not had such training

THE AGRICULTURAL AND MANUAL ARTS HIGH SCHOOL OFFERS

Complete Secondary Courses in Agriculture — Commerce — Domestic Science — General Science — Mechanic Arts — Rural Teachers.

SPECIAL COURSES

Business Training, Drafting and Building, Farm Husbandry, Homemaking, Power Machinery
 THIS COLLEGE offers to the young people of this state an education which is thoroughly in line with modern thought and demands. It is not a dead language or such subjects as are of little practical value. It aims to fit young men and women to think and investigate for themselves; to deal intelligently with the social, agricultural and industrial problems of the day.
 THE LABORATORIES are thoroughly equipped, and the instructors are specialists in their line. Exceptional advantages are offered in chemistry, physics, botany, literature, mathematics, engineering and the social, economic and political sciences.

Graduates from Approved High Schools are admitted to the Freshman Class. Board and room \$6.25 to \$7.50 per Week.

NEW GREEK LETTER PROFESSIONAL GROUP ADDED TO A. C. FRATS

Definite Outline of Work by Group Not Outlined As Yet.

Admittance Makes Three Honorary Professional Fraternities Here.

The faculty council, at its final meeting in the Spring term, approved the petition of a group of nine students interested in establishing a Greek letter professional journalism fraternity. The fraternity, Gamma Tau Sigma, held its initial meeting on May 5 with Paul Revell, Bruce Rindlaub, Emery Putnam, Stewart Schlipf, Edward Yocum, Byron Hanson, Hugo Thompson, and Eugene Fitzgerald of Fargo, and Richard V. Cripe of Spokane, Washington, as charter members. At the present time but five of the members are in attendance at this institution, the others having graduated or matriculated at other institutions. Maynard W. Brown, and Ralph A. Nafziger, both former instructors in journalism here, were named associate members.

Has Met Once

Inasmuch as the group has met but once, no definite outline of the work to be done by the fraternity has been made as yet. It is expected that several of the outstanding students in journalism will be taken in within the near future. The group requires that a scholastic average be attained and that the student be a member of a major staff of the Spectrum or Bison, or have completed three terms of journalistic work in the classroom before eligible for pledging. Gamma Tau Sigma's appearance on the campus marks the inauguration of the third strictly honorary professional fraternity, Alpha Zeta, national agricultural, and Alpha Phi Omega, local chemistry, being the other two of a like nature.

Officers elected at the initial meeting are: Stewart Schlipf, president; Emery Putnam, vice-president; Eugene Fitzgerald, secretary, and Paul Revell, treasurer. The new group is an outgrowth of the Press club, which was in existence here for some time, the members of which felt that more could be accomplished through the organization of a Greek letter fraternity.

Work on 1927 Bison Is Already Under Way

(Continued from Page One)

There are important positions on the staff open to applicants at the present time, it is announced. Those who would like to help in the work of putting out the student annual are invited to see the editor.

Staff positions yet unfilled are: associate editor, satire, organizations, classes, military, high school and industrial, dramatics and administration editors. There will be a special editor for the senior section, who will be called "autobiography editor," and who will furnish short and informal "paragraphs" on each senior's history.

Some staff members were chosen and approved by the Board of Publications last spring. These are: athletic editor, Carlton Lindquist; women's athletic editor, Anita Mary Blake; activities, Ralph Holland; art editor, Ruth von Sien, with Florence Fleming, "Red" Blakeley and "Bill" Hurt as staff artists; publications, Wendell Phillips; campus life, Wade Boardman; music, Betty Sheldon.

When rural service lines bring electricity to the farmer's door, many of his labor troubles are at an end. Motors, large and small, will do the many chores of farm and farm house for a few cents per day.

The Farm Electrical

Of the six and a half million farm homes in this country, only half a million have electricity.

Still, the advantages of electricity are widely known. But there is more to farm electrification than the installation of motors, lights and heaters. Current must be brought to the farm, and that means many miles of transmission line, supporting poles, transformers, and adequate generating equipment.

Slowly but surely the electrification of American farms is taking place. As farmers learn how to use electricity, rural service lines reach out farther and farther into open country.

Six million farms to be electrified! Here is a vast and virgin field for the application of electricity, with countless opportunities for college-trained men in the technical and commercial phases of this undertaking. And for the agricultural college student and others planning a future life in rural sections, it means a better, bigger, happier life-time now in the making.

Since its inception the General Electric Company has pioneered in the various fields of applied electricity. Today G-E engineers are co-operating with various State agricultural committees in the study of farm and rural electrification. These committees include members of the agricultural college faculties.

A new series of G-E advertisements showing what electricity is doing in many fields will be sent on request. Ask for Booklet GEK-1.

HELP WANTED!

The Spectrum is in dire need of at least twenty men and women for work on its staff. No previous work in journalism is required. If you are interested in securing a place on the staff see editor in the Spectrum office or leave your name in the drop box and arrangements will be made to have you placed on the staff at once. At the present time several good positions are open, the post of assistant business manager, two desk editors, society editor, and numerous reportorial positions being vacant. Here is a good chance for freshmen and other students to get into some kind of activity, and the kind of an activity that will be of use to him or her even after graduation. We need help!

Theta Chi fraternity will be hosts at an informal party at the chapter house Saturday evening.

Shannie McNeas, a former student of the college will leave soon for Oakland, California, where she will make her home.

The Inter-sorority council will hold a tea in Ceres Hall for the women of the college Saturday afternoon.

Delta Kappa Sigma will give a dancing party at the house Friday evening.

Alpha Kappa Phi entertained a number of men of the freshman class at a theater party Wednesday evening.

Bill Bina, a Kappa Phi alumnus, was a visitor at the house the first of the week.

Delta Kappa Sigma fraternity are now enjoying the new decorations at their house.

Harold Peterson visited his fraternity brothers at the Alpha Kappa Phi house Monday on his way to enroll at the university. "Red" was pledged to membership in the Alpha Tau Omega fraternity at the "U" on Tuesday.

Miss Catherine Sheiler, Hope, N. D., who was formerly a student at Fargo College, is now enrolled at the A. C.

The Delta Kappa Sigma entertained the members of the student body at a smoker Wednesday night.

The Alpha Kappa Phi fraternity will entertain at an informal dancing party at their chapter house Friday evening.

THE FRESHMAN FULLBACK

Chester McNutt was a fullback, A freshman at our own A. C., And Chester was a pretty good plunger, He had a hard head don'tcha see!

Now Chester gained recognition As soon as he entered the school; The very first practice he played in He knocked three men for a goal!

But that wasn't all, he could pivot, Such a pivot that one seldom sees! He pivoted about all his rivals And scored touchdowns by twos and threes!

The day before we met Jimtown The regular man suffered a cut, and the only other available fullback Was our hard-hitting Chester McNutt.

By mutual consent of the coaches The freshman was allowed to play, And Chester was there in the line-up When the team assembled next day.

Well, the Bison kicked off to the Jimmies, And the first quarter rolled by. The fighting of both teams was furious and it ended a scoreless tie!

The second period began with a bang And the Jimmies pushed over a score! The teams lined up beneath the bar And a drop-kick added one more.

A Bison rally started the third. "25..... 46..... 105..... 54" A yellow streak swept down the field And Claudie Miller evened the score!

Through the battle at the fullback post Stood dauntless Chester McNutt, A hard-hitter and a good interferer, Chester was nothing else but!

Started the fourth and the score a tie, Three minutes of time yet to play. Claudie Miller was stopped in his tracks, He was a marked man that day!

The quarter's voice rolled o'er the field, Chester's signal came with a crack! And fast and true the football sped To our dauntless freshman fullback.

Chester dashed around the end But the Jimmies divined the play. McNutt stopped not at all for them, 'Twas his duty to save the day!

'is running reached perfection As he also reached some mud. There two tacklers awaited him; hey hit him with a thud!

ut Chester saw them coming And got his pivot under way. The Jimmies grazed his whirling form And hit the ground to stay.

Yet Chester reck'ed without the host. He was on slippery ground; His pivot merged into a whirl And he went 'round and 'round.

Like all tops, when the speed is spent, Poor Chester must run down, He whirled till he could whirl no more, Then plopped down on the ground.

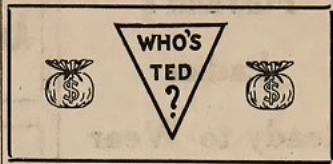

Gradually his dazed mind cleared; He beheld a distant cross-bar, 'e rose, and in so short a time I've never seen a man run so far!

The whistle blew; the game was o'er. The crowd rushed at Chester McNutt! A mouth has passed; and in St. Luke's The freshman fullback can now sit up!

For the crowd wreaked vengeance on Chester that day, And so did the Bison eleven, 'Cause Chester ran over the wrong goal line, And Jamestown won 9 to 7.

—DICK HACKENBERG
S and L 1929.

Nosey Trumbull and Leonard Severson were amongst the new arrivals in school the latter part of the week.

Welcome Bison!!
We Expect Your Business
BECAUSE— We give you the best of values for your money.
BECAUSE— We aim to give you the best of service.
BECAUSE— We are convenient for you to make your purchases.
BECAUSE— We extend courtesies and services which no outside concern can possibly do.
BECAUSE— You have an unlimited exchange service.
BECAUSE— We are familiar with the products we are selling.
BECAUSE— We carry the latest modes and fashions.
BECAUSE— Should the merchandise you buy here fail to give satisfaction, we'll adjust satisfactory to you.
