NUMBER 34.

COLLEGE OBSERVES GAY CAT DAY

1926 BISON READY FOR DELIVERY MONDAY

LAST MINUTE MISHAP CAUSES DELAY IN DELIVERY OF ANNUAL

BREAKDOWN OF PRESS CAUSES ABSENCE OF ANNUAL ON TRADITIONAL DAY

PLANS INCOMPLETE

DEFINITE PLAN OF DISTRIBUTION WILL APPEAR ON BULLETIN BOARD

The 1926 Bison, which was promised to be distributed during the Gay Cat day ceremonies, will not be ready for distribution, according to word given out by Byron W. Hanson and Stewart Schlipf, who are in charge of the publication.

The book had been promised by the publishers to be ready for delivery two weeks after the last copy went in. The last of the copy for the annual was sent in something over two weeks ago, which would make the book due Monday night. At last reports work on the book was progressing very satisfactorily and had been promised for June 1. In order to observe Gay Cat day in the traditional way by delivering the book to the students, the student commission set the date ahead for Gay Cat day.

Breakdown Causes Delay

Monday morning word was received that the presses had broken down, necessitating a 3 1/2 day layup. Maynard W. Brown, assistant professor of journalism, got in touch with the publishers by phone in an endeavor to hurry the book along, but it was to no avail.

The copies were all run off Monday evening, but inasmuch as the books will be "green," it was thought best to withhold delivery until a later date. The term "green" refers to a technical term denoting a binding which has not yet had time to become firmly established. Suggestions were made that the book be distributed in the "green" form on Gay Cat day, but it was thought better and fairer to the students to withhold them in order that the binding might get firmly set. It was pointed out by many of those connected with the book that the students would little heed the warning that they should be careful with the binding for at least five days and as a result the book would be ruined for long keeping.

Plans Being Worked Out

The staff of the annual had not definitely worked out plans for distributing the book on Monday, but intimated that each student who had subscribed for a copy could call at the Bison office sometime during the day and get his copy. Full details will appear on the bulletin board Monday morning.

All those students who have given an order on the secretary for their deposit fee will also be entitled to their copy by calling at the Bison office, Mr Hanson said yesterday.

American colleges and universities have graduated about 825,000 young men and women, and in addition have sent out 2,400,000 without degrees.

Thompson Honored at Reception Last Evening

Members of the "Y" held a reception for Mr. and Mrs. A. M. Thompson at the association last evening. The reception was held in honor of Mr. Thompson, who has been secretary of the "Y" for the past five years, and who is leaving to get a Ph.D. next year.

The college orchestra played several numbers, and Mr. Hoff-somer and Miss Ruth Andrews sang a duet. Miss Constance Melchoir gave a reading, and Vernon Halvorson played a violin solo. Charles Wells and Lucille Thompson presented a one act play. An informal social time followed the program.

The committee in charge of the event were Willis Boots, Vernon Peterson, Vernon Trowbridge and F. C. Householder. About 250 were in attendance.

SCHOOL ON WHEELS VISITS BIG FARMS

SCHMERHORN FARMS OF 10,000 ACRES TO BE VISITED BY PARTY

A farm school on wheels is this week touring western Minnesota and eastern North Dakota. About 150 people are in the party which consists of farm managers and farm owners of the two states, students and professors of the North Dakota Agricultural college, and others.

The tour is a three day affair commencing Thursday, June 4. It is annually staged by the North Dakota Farm Managers' association, advises Cap. E. Miller, secretary of the association and professor of agricultural economics at the college. Its purpose is to acquaint the farmers and farm managers of the methods used on some of the model farms found in the Red river valley. Eight hundred members form the Farm Managers' association in North Dakota, Mr. Miller reports.

Entertainment Is Cared For

The route of the 1925 tour will include the Schermerhorn farm at Mahnomen, Minn., and several other smaller farms in the vicinity. A. J. Robinson, manager of the Schermerhorn farms, will assist college officials in conducting the tourists and pointing the most interesting features of the work done on these farms. The Mahnomen Business Men's association is co-operating with the arrangements and entertainment.

After finishing their inspection tours the party will drive to Pelican Rapids, where plows and tractors will be forgotten for a while in the enjoyment of one of Minnesota's lake resorts. Picnics and a college quartette are among other amusements planned after the tour is over.

The several farms comprising the Schermerhorn organization total 10,000 acres. Standardization is the keynote of operations on this Minnesota ranch, Mr. Miller explains. The business side of farming is especially noteworthy in the methods used here, he says. Houses, barns, crop rotations, machinery and herds and flocks are all cared for in a businesslike manner on this ranch.

The tour will be finished June 6.

SENIOR RECITAL TO BE HELD IN THEATRE TOMORROW EVENING

SMALL CROWD HEARS BAND IN OUTDOOR CONCERT FRIDAY AFTERNOON

BAND OUT TODAY

TWO SCHEDULED CONCERTS ARE CANCELLED DUE TO LACK OF PATRONAGE

Musical activities for the week will be confined to the senior recital being given in the Little Country theater tomorrow evening at 8 p. m. The recital will be given by Misses Gladys Myhre, Mildred Vold and Ruth Ekrom, pianists, all graduates of the piano department of the college. The trio will be assisted by Miss Thelma Edelbrock, violinist.

Small Crowd Out Friday
Friday afternoon the Gold Star band played a concert to a small but appreciative crowd. According to Dr. C. S. Putnam, director of the organization, the concert played on Friday was the best played by the band at any time this year.

School children had been invited as special guests to hear the concert, but inasmuch as a musical concert was being given in the high school auditorium many of the children were unable to attend.

Several Bandmen Coming
"Doc" reports that he has several good musicians lined up for next season's band, to replace the large number lost through graduation. In the fall of 1923, 24 freshmen qualified as members of the first band. Last fall 20 freshmen qualified and for his band next year Dr. Putnam expressed the opinion that he would have an even larger number than in the previous two years.

With the appearance of the band in today's Gay Cat day parade, the activities for the organization will draw to a close. The band has been rehearsing for the past six weeks on several pieces which they have never played in public before, some of which were played Friday. Inasmuch as there seems to be an attitude of indifference toward the band Dr. Putnam thought it wise to postpone the two coming concerts, which were scheduled for Friday and the following Sunday.

The complete program for tomorrow night's recital follows:
Three Part Invention No. 1.....Bach
Sonata Op. 13.....Beethoven
Adagio
Allegro
Gladys Myhre
Rondo Capriccioso.....Mendelssohn
Mildred Vold
Prelude C Sharp Minor.....Rachmeninoff
Butterfly.....Lavalee
Ruth Ekrom

Notice!

In putting contributions into the Spectrum drop box please do not write them on small pieces of paper. One sorority in particular has been very much in the habit of making their contributions in this form and as a result the slips were lost and the Spectrum had no way of tracing the lost pieces. Make the slip of paper at least three inches long, please.

Phi Kappa Lambdas to Hold Formal Saturday

The first annual formal party of the Phi Kappa Lambda sorority will be given at the Fargo Country club on Saturday evening, June 6. Miss Corinne Brauer has been chosen as manager of the affair.

Patrons and patronesses will be Professor and Mrs. A. E. Minard, Mr. and Mrs. George A. Dewey, Mr. and Mrs. N. B. Black, Miss Christine Finlayson and Miss Ida Ingalls.

Dr. and Mrs. John Lee Coulter, Mrs. Myrtle Gleason Cole and a representative member from each social sorority are to be honor guests.

BETA FORMAL HELD THURSDAY EVENING

BLACK AND WHITE LEATHER KEY RINGS ARE PRESENTED AS FAVORS

An Adagio dance on the lawn in front of the club house by Miss Audrey DuBeau and William Hurt and a costume song by Miss Lillian Cruickshank were features at the Delta Phi Beta formal party which was given at the Fargo Country club Thursday evening, May 28.

The guests of honor for the affair were Dr. and Mrs. John Lee Coulter, Dr. and Mrs. R. E. Weible, Mr. and Mrs. M. A. Baldwin, Mr. and Mrs. A. H. Parrott, Mr. and Mrs. Charles Spaulding, Prof. and Mrs. A. G. Arvola, Mrs. Mae Douglas Rindlaub, Misses Pearl Dinan, Elvira Smith, Agnes Johnson, Myrtle Euren, Carrie Dolphin and Edna Johnson.

David Fulton entertained with a Frisco jazz dance and also presented the favors, black and white leather key rings, to the gentlemen. During the last dance, which was the "Delta Phi Beta" waltz, a large "B" was formed on the lawn and lit with sparklers.

Flowers Formed Decorations

The Country club was decorated with baskets of honeysuckles and early spring flowers. White roses and the sorority flower formed the main decorations.

During the evening frappe and small cakes were served. The hours of the party were from 8:30 to 12 and the S. S. President McKinley Collegian orchestra played for the dance.

The committee for the affair was headed by Miss Ruth Talcott. Others in charge were Misses Helen Curran, Mary Ross, Edith Skurdal and Elizabeth Cleveland.

Hejre Kati.....Hubay

Olivia Edelbrock Tarbell, accompanist. Steinway piano used.

CONVOCATION MARKS OFFICIAL OPENING OF DAY'S ACTIVITY

TRADITIONAL APPEARANCE OF BISON WILL BE ABSENT TODAY

DANCE TONIGHT

ALL ORGANIZATIONS PRESENT PROGRAM AT MORNING CONVOCATION

The annual Gay Cat day opened officially with the convocation held at 9 o'clock this morning. Many students, however, opened the day with a jaunt into the country with some freshman or sophomore who happened to stray onto their path.

Each organization on the campus gave a short program after which the annual parade was held up town. The student commission will be guests at the college this evening at a dancing party in the Armory. Students must be in costume in order to secure admission.

Bison Absent

The Bison, the year book of the college, which traditionally makes its appearance on Gay Cat day, will not be released today because of last minute breakdowns of the press. While several copies of the book will be on hand it was not thought advisable to put these out at this time as the binding will not be firmly set and many books would go to pieces in a short time. According to word given out by Byron Hanson Tuesday morning the books were all off the press Monday evening, but the binders advised the staff not to put out the books until the binding had at least five days to set. Mr. Hanson expected that the book would be ready for distribution Monday and requests that all those who have ordered a book call at the Bison office some time during the day Monday and secure their annual.

Sack Rush This Afternoon

A sack rush will take place this afternoon between the freshman and sophomore classes on Dacotah field at 2 p. m. Immediately following the sack rush the second game of the series for the campus baseball championship, being played by the Gamma Rhos, National champions, and the Theta Chis, American champions, will take place.

Gay Cat day is being observed this year on a mid-week day for the first time in many years. The day has traditionally been observed on a Friday, but due to several reasons the student commission set the date for Wednesday.

Prizes Awarded Tonight

Prizes for the best costumes appearing in this morning's parade will be announced at the annual Gay Cat dance this evening. During the early part of the week several faculty members as well as several others who have been more or less closely connected with the college the past few years expressed the opinion that this year's celebration should prove to be the most successful Gay Cat day for some time. They explained that in previous years, many students took the opportunity and went to the lakes to spend the week end, which naturally weakened the celebration to at least an appreciable extent.

GAY CAT DAY COSTUMES

Today the college is observing its annual day of play. For many, especially those who are new here perhaps the significance of the day is bewildering.

Every college has its annual relaxation day, the day when all students don the most ridiculous clothes he or she can find. That is the way you should be dressed today, and the way every student expects you to dress.

The college is often criticized because they are unable to put on as good a parade as the public high school. But may we ask, "Don't we?" Even though we don't, is it any wonder? Approximately 98 per cent of the students of the high school are residents of Fargo, while our percentage of Fargo and Moorhead students might be placed at 40 per cent. Is it not a disadvantage? Nearly every high school student, then, has access to some ridiculous costume, while the college student, who is away from home is forced to rent a costume or find one around his boarding house.

While we are admittedly at a disadvantage as far as access to costumes, let's all get in the parade with the best outfits we can find and show the downtown people that we have as good, or better, parade than the high school. While so doing we will also let them know we really have a college out here. If you stay away and entice one other to stay away the downtown people can justly say we haven't much of a parade, and rightly think, not much of a college.

THE 1926 BISON

For the first time in many years the Bison will fail to make its traditional appearance on the campus on Gay Cat day, through no fault of the staff.

There will perhaps be a few who will bemoan the fact that they cannot get their Bison on Gay Cat day. A press breakdown has necessitated that the book be held up for distribution until Monday. Remember there are others who have to wait just as long to get their Bison as you do. The staff feels a lot worse about disappointing the student body than the student body feels in being disappointed, and may we ask, who has done the disappointing? "Take heed lest ye judge unjustly."

WHAT BAND?

We expect before long many students when they hear the word band mentioned will want to know, "What band?"

Friday afternoon the Gold Star band, pronounced by the officers who inspected the R. O. T. C. unit "The best band we have heard," played an outdoor concert and there were hardly 25 students and faculty members to hear the band. Encouraging, is it not? Yes, it is not.

"Doc" who is the director of the band, and who by the way, perhaps has more pep than any ten students combined, requests that the students come and hear his band play a few new pieces. But again is the band Doc's? It's yours, he is only taking care of it for you.

This is not the first occasion on which the members of the band have been disappointed, it has happened innumerable times. Next year the band is going to put on some more concerts, and if we show our appreciation, perhaps we can have them every Sunday, to kill that dead feeling we hear so much complaint about.

**Flicker Tennis Quartet
Take Meet From Bison**

TWO TEAMS MEET IN RETURN
MATCH ON ISLAND PARK
COURTS FRIDAY

Sweltering under the hottest Decoration day sun in years, Bison racquet wielders were defeated by the university tennis team in their dual meet at Grand Forks. The Nodaks won all but one of the six doubles and singles matches. Ernie Stoudt scored the lone Bison victory by defeating Maurice Ryan in their singles match with sets of 6-2, 6-3.

Many Deuce Games Played
The conference champions were forced to play many deuce games and sets to keep unblemished their victory over Des Moines university at the N. C. I. C. meet. Narum and Wright were eliminated by the Des Moines doubles entry of Garber and Anderson in the semi-finals of the Sioux City contests.

Loughin and Blaisdell, who faced one another for the singles championship at the conference meet, was a hard doubles combination for Narum and Wright to face in the dual meet. After forcing the Nodaks to an extra game set of 7-5, the Bison players lost the second set, 6-3.

Ernie and Dick Stoudt forced Host and Ryan into three extra games before conceding the first set to them at 9-7. The second set went to the university, 6-4.

Narum Forces Blaisdell
Les Narum played a hard match with Blaisdell, the conference singles champion. Blaisdell won with scores of 6-4, 11-13, 6-3.

Loughin defeated Wright in sets of 6-2, 3-6, 6-3.

Dick Stoudt took a first set, 2-6, from Host of the Flickertails, but succumbed in the last sets, 6-0, 6-1.

The Flicker and Bison court teams play a return match on the Island park courts Friday. The Bison have an excellent chance to win Friday's meet, for it was felt by the players and Coach Dewey that the Bison courtiers did not play in their best form at Grand Forks.

**FINE BUILDINGS
FOUND IN STATE**

From the Indian type, the settler's log cabin and the early frame house of pioneer days the progress of architecture has developed in the northwest until today there are as fine examples of excellent city buildings and farm homes in this section of the country as in any other, states Walter T. Rolfe, professor of architecture at the North Dakota Agricultural college.

The architect does not usually come with the pioneer for the first need of a settler is for any type of building that will furnish a shelter and a home during the period when it is necessary to wrest a living from the new land, Mr. Rolfe explained.

"In the early or formative period in the development of a country no carefully studied plans may be made but the handicap shows later when the hamlets have become towns and towns have grown into cities. Then comes the unseen lack of parking spaces, the need for amusement parks and playgrounds, wider streets and more permanent, attractive homes and residence sections.

"Some of the first public buildings found in the new towns are churches and schools, jails and power stations. Too often a jail and church could hardly be distinguished from the out-

side. And the power stations were not needed at all a few years ago, while today many of the smaller towns are equipped with some sort of power building.

"With the development of the northwest, which is the youngest child of America, will come a great influx of more residents resulting in the rapid growth of cities and villages. This will call for careful planning of cities so that the northwest may profit by the mistakes made in the congested eastern cities."

RHOS TAKE OPENER IN FINAL

THETA CHIS FALL BEFORE CRIPE IN FINAL BALL SERIES

RHOS DOWN BARRACKS NINE, 3-2, IN EXTRA INNING GAME WEDNESDAY

MEET AGAIN TODAY

GAME TO BE CALLED IMMEDIATELY AFTER SACK RUSH IS FINISHED

The Alpha Gamma Rho and Theta Chi ball nines will face each other in the second of a three game series to determine the campus baseball champions on Dacotah field this afternoon immediately following the sack rush.

Rhos Win First

Friday afternoon the Rhos downed the Theta Chis in the first game of the series, 14-0. Cripe was in fine fettle and was given splendid support by his mates. While Zimmerman did not pitch as effectively as he did in the final game against the Sigs, for the American title, his fielders did not give him as good support as in the previous game.

The Rhos won their title on Wednesday afternoon, defeating the Barracks nine in an extra inning game, 3-2. The Barracks aggregation grabbed off a pair of counters in the first inning, when a hit and two errors allowed two of the dormitorians to cross the home plate. The Rhos scored a single run in the third, and repeated in the next to tie the count. In the final frame the Rhos managed to get their winning margin when Knight slapped out a neat double to open the session. Two wild pitches by Petri, Barracks hurler, allowed Knight to romp home with the coveted marker.

Met Last Year

Batteries for this afternoon's game were given out as Cripe and Zeissler for the Rhos and Zimmermann and Johnson for the Theta Chis. These two teams met last year in the final series, the Rhos taking the series two straight.

Student Opinion

There are many different phases in considering the usefulness of a library. I will take up what, in my opinion, would be considered by the majority of people, two or three of its most valuable uses.

Assuming the library as a part of the institutions of education of today: It would be almost inconceivable for instructors of education not to realize that a building for the special purpose of reserving periodicals, books and nearly every kind of literature, was not at hand for reference. This can be discussed not only for the benefit of the instructors, but also of a vital interest to the benefit of the students. Where would the student go, what would he do, without the ready reference of a school or city library? Of course, the masses naturally begin to ask, "What did our forefathers and our early great scholars do? They did not have the convenience of our present day systemized library methods; they obtained their knowledge and reference by long, tedious methods and research work, and present to the world many shining examples of unexcelled success. But in this day and age it is different! It is an epoch of concentrated education. What our predecessors learned by hard labor they have put into volumes which can be easily obtained through the medium of our libraries.

If a student desires to know and to learn of something more concerning political, industrial, economic and international affairs of the past and the present, not only of his own country, but of foreign nations, he can do no better than to go and make use of the library.

In discussing libraries, I want to bring out especially the usefulness of our public libraries. This is an institution of unsurpassed wealth to the community in which it is located. I

do not think the public library is appreciated nearly as much as it should be by the majority of people. If those citizens who pass by the library in search of gratifying their pleasure instincts in some useless amusement, would invade and peruse a little of the contents of this "knowledge building," I am sure the welfare of the city, community, state, and even the nation would be raised to a higher standard of civilization. Every man, woman and child should feel the responsibility and make more frequent use of the libraries.

—JOHN D. WOOD.

GRADUATING CLASS NUMBER INCREASED

The graduation class at the North Dakota Agricultural college is to be larger than previously announced, reports A. H. Parrott, registrar, as 11 more students have qualified in the high school department. A total of 172 students, the largest class in the history of the school, will receive their degrees this month.

Included in the list are 10 who are receiving master of science degrees, 83 who will have bachelor of science degrees, 13 who will have certificates as graduates in pharmacy, six who will leave the college as pharmaceutical chemists. From the high school department will be graduated 60 students.

WELL SHOD

"You shall never break down in a speech," said Gladstone, "on the day that you have waked twelve miles."

"Provided," we might add, "that you have walked those twelve miles in well-fitting shoes."

Walking is the best of exercise and great fun. But it becomes an ordeal instead when one is poorly shod.

Shoes which are too large are just as bad as those which are too small. Fit, support and balance are the main essentials to shoe comfort.

It is part of Black's service to refer a patron elsewhere in preference to selling a pair of shoes which do not fit.

BLACK'S

RELIGIOUS COURSES IMPORTANT FACTOR

"Religion has had a profound influence in the development of every people and arose very early in the growth of the human species," said Dr. Walter Lee Airheart, head of Wesley college, in an interview today. Few chapters of history can be rightly interpreted without an understanding of the underlying religious ideals and it is a more potent factor in human affairs today than ever before. The college student of today has the prospect of working in a generation when a re-interpretation of religion more significant than that wrought out in the sixteenth century will be made.

"Whatever attitude one may choose to take toward religion he cannot afford to be ignorant of the facts involved and this is the reason why courses in religion are now considered an indispensable part of a liberal education," added Dr. Airheart.

The Wesley college courses in religion are planned to give the student an intelligent comprehension of the great living religion of the world, and particularly to interpret the spiritual messages of the prophets and Jesus in terms of the basic principles common to all forms of the Christian faith. Sectarian controversies are avoided and denominational attachments are left undisturbed.

Knewsey Knosey Kampus Kolumn

The active members of the Sigma Theta sorority entertained last evening at the home of Alice Benedict in honor of Miss Virginia Rosenstock, who left Fargo this morning for Seattle, Wash. After visiting with friends in the west she will go to her home in Manila, P. I. Miss Rosenstock has been a student at this school for the past two years and is a member of the Sigma Theta sorority.

Misses Dorothy Burton and Pauline Sorkness entertained a company of women at an informal party in compliment to Miss Alice Dunn, who is leaving to make her home at Minot, N. D. The affair was held at 415 Eighth st S.

Miss Marvel Nichols, former A. C. student, left May 26 for New York City, where she will be a student at the New Wayburn School of Dancing during the summer.

The Woman's club of the N. D. A. C. entertained their husbands and families at a picnic supper Thursday evening.

Carlton Rydstrom has accepted a position with the Valspar varnishing people.

The Saddle and Sirloin club held their last monthly meeting for the year at 7:30 p. m. Tuesday. Dean Walster was the principal speaker. Refreshments were served.

Fifteen members of the Hesperia Literary society enjoyed the week end at the lake. This was the final meeting of the society for the year.

The Kappa Delta sorority returned Sunday from Lake Cormorant, where they held a house party over the week end at the McArille cottage.

Misses Loretta Nilles and Mary Austin went to Casselton over the week end.

The Phi U girls returned Sunday evening from the lakes, where they held a house party at the cottage of Mr. and Mrs. Robert Reed. The girls drove to Itasca park on Saturday. Miss Minnie Anderson chaperoned the girls.

Miss Laura Lyon, Eugene Ostman, Mrs. Frank Ostman and Mrs. Arthur Ostman motored to Breckenridge, Minn., Friday afternoon to attend the high school commencement exercises.

Miss Catherine Smith was the guest of Miss Genevieve Boise last week. She attended the Delta Phi Beta sorority formal. Miss Smith is from Bismarck, N. D.

Henry Healy will leave soon to accept a position as engineer with the U. S. government at Washington, D. C.

Miss Mildred McComb spent Saturday and Sunday at Lake Pelican.

Miss Katherine McKee was the week end guest of Miss Edna Johnson at the Johnson cottage on Melissa.

Miss Marjorie Gullickson has returned to school after a week's illness.

SALT AND PEPPER

Some folks in looks take so much pride
They don't think much of what's inside.
Well, as for me, I know my face
Can ne'er be made a thing of grace,
And so I rather think I'll see
How I can fix the inside of me
So folks can say, "He looks like sin,
But ain't he beautiful within."
—Bangs.

New understanding will create new men, and new men will create new civilizations.—Glenn Frank.

"Men are valuable just in proportion as they are able and willing to work in harmony with other men."—Elbert Hubbard.

STUDENTS!

Soft-Light Lenses

Seven Advantages of These

1. They filter the light SENSIBLY, in a natural way.
2. Absorb all harmful light and transmit all beneficial rays.
3. Eliminate all annoying glare, affording greater visual comfort.
4. Relieve eye-strain caused by improper illumination.
5. Tone down all visible light rays uniformly and evenly.
6. Are never habit-forming.
7. They do not cast shadows about the eyes of the wearer, and so their tint is not noticeable.

For constant wear, the use of Soft-Lite Lenses can be determined only by a thorough eye examination.

Cannon Optical Co.

Do what Toledo did

Once Toledo had a nuisance, a tract of swamp land near the lake, a breeder of mosquitoes, foul odors and fogs.

But an automatic pumping station, equipped with motors made by the General Electric Company, turned the swamp into dry land—and abolished the menace to the city.

This is one example of what electricity can do. As you meet life's problems, think of electricity as a valiant and ever-ready ally.

Study what electricity is doing to make a better and happier America; remember that you will live in an electrical age, full of surprises, and full of new services to humanity. The monogram "G-E" which you see above is placed on the epoch-making products of the General Electric Company.

If you are interested to learn more about what electricity is doing, write for Reprint No. AR391 containing a complete set of these advertisements.
