NUMBER 33.

DAY WINS TWO MILE N.C.I.C. RACE GAY CAT DAY SET FOR WEDNESDAY, JUNE 3

COMMISSION SETS DATE AT MEETING HELD THURSDAY

PARADE AND CONVOCATION TO
FEATURE ANNUAL DRESS
UP DAY

PRIZES AWARDED

ALL ORGANIZATIONS TO PRE-
SENT PROGRAM AT
CONVOCATION

Gay Cat day, the annual dress up day held at the college, has been definitely set for Wednesday, June 3, according to an announcement made by Cyrii Arnold, president of the student commission, who set the date at their meeting Thursday.

In past years, the annual dress up day has been held on Friday, but inasmuch as Fridays have been used up for other purposes than class work the commission thought it best to use a day in the middle of the week.

Reasons Given

According to an announcement made by A. H. Parrot, registrar, yesterday, the following are given as reasons for setting the date for Wednesday:

"Gay Cat day has traditionally been observed on a Friday, but owing to the considerations which are stated below the change indicated above has been thought best at least for the current year. The considerations are:

First. While the Bison has been promised for May 29, the publication board does not feel that this promise can be depended upon. It does feel, however, that the Bison will be ready for distribution by June 3 and the distribution of the Bison has become one of the traditions of Gay Cat day.

Second. The annual military inspection occurred on Thursday and this was followed by the major events of the May Festival on Friday and Saturday. This arrangement of dates involved for many students the loss of two very important and much needed periods in the science and technical laboratories and to take another Friday from these students is considered neither fair nor wise.

Third. For several years and very decidedly last year, instead of staying on the campus to observe the ceremonies of Gay Cat day, students in large numbers made use of the Friday holiday to migrate to the lakes. Because of this tendency on the part of our students, Gay Cat day has more and more become what might be considered a failure. It is thought that a mid-week day will avoid this difficulty."

According to plans being worked out by Dorothy Stoudt, commissioner of social affairs, each organization on the campus will present some sort of entertainment for the convocation, which will be held in the armory commencing at 9 o'clock Wednesday morning. The annual parade will start from the college at 11 with all students in costume, headed by the band.

Dance in Evening

Prizes will be awarded for the best costumes in the parade, one boy and one girl to receive the prizes. Eugene Fitzgerald and Audrey Bradfield received the prizes last year. A dance, given by the student commission, will be held in the Armory in the evening, commencing at 8:30. Students will wear costumes to this dance the same as in previous years.

In compliance with an order made last year on Gay Cat day, no student shall be forcibly taken from the campus until after 4 p. m. of the day preceding Gay Cat day.

The 1926 Bison will be ready for Gay Cat day, according to Stewart Schlipf, editor in chief. The appearance of the Bison is traditional on Gay Cat day.

Carrie Dolphin Is Youngest Annual Head

IS FIRST WOMAN TO HEAD THE
YEAR BOOK IN THIS
INSTITUTION

The youngest editor of a college annual in the United States, and one of the very few women editors, is the unique distinction held by Miss Carrie Dolphin, who was recently chosen by unanimous choice of the Student Board of Control of Publications to head the 1927 Bison, year book of the students at this institution.

Miss Dolphin is only 18 years of age and is the first woman in this institution to hold a similar position.

Handled Satire

Applicants for all positions on student publications were considered on the basis of merit and experience. Miss Dolphin was chosen because of the creditable work she did in handling the satire of the 1926 Bison, which book will be distributed soon. Miss Dolphin also held various reporter jobs on the Spectrum.

Despite the fact that she was out of school for an entire year after graduating from the high school department at the college, Miss Dolphin is now a sophomore in the college at the age of 18.

Work Is Started

Miss Dolphin announced yesterday that plans for next year's book are going ahead and that work will commence on the publication so far as is possible. Some staff members have already been chosen, while other positions are still open. Miss Dolphin requested that all students wishing work on the staff of the next year book hand in their names at the Bison office. Several of the choicest positions are still open and it is the wish of Miss Dolphin that the staff be as complete as is possible before the opening of school in the fall, so that work on the book may be resumed as soon after the opening of school as is possible.

SENIOR BALL WELL ATTENDED SATURDAY

125 COUPLES ATTEND ANNUAL
BALL GIVEN BY SENIOR
CLASS

Trees, palms, trellises and chinese lanterns were the main decorations used for the annual Senior Ball, held in the Armory Saturday evening. A half hour of informal dancing preceded the formal program, which began at 9 with the grand march, led by J. Ogden Brauer and Leslie Narum and their partners, Misses Emma Hatlie and Edith Skurdall.

Dr. and Mrs. John Lee Coulter, Professor and Mrs. A. E. Minard, Dean and Mrs. A. D. Weeks and Dr. and Mrs. W. T. Pearce were the chaperones. The party was well attended, about 125 couples being present.

Buy Fountain

Instead of giving favors, the Senior class contributed to a fund for the presentation of a fountain to the college.

Muspie was furnished by the S. S. President McKinley Collegians. Features for the party were given by a group of girls in Miss Andrews' class in clogging.

The party was the last of the formal college parties for this year. The program consisted of twelve dances and two extras.

Committees who were in charge of the party follow:

Ball Manager: J. Ogden Brauer.
Finance: Kenneth Keating.
Decorations: Vern McCall.
Music: Donald Peet.
Programs and refreshments: Archie Gerard.
Features: Myrtle Euren.
Patrons: Elizabeth Elliott.

MANY SENIORS HAVE ACCEPTED POSITIONS AFTER GRADUATION

BRAUER, GERARD AND NARUM
WILL ENTER THE U. S.
MARINE CORPS

MANY WILL TEACH

YOCUM AND DEACH HAVE EN-
TERED JOURNALISTIC FIELD
IN THIS CITY

Many seniors at the North Dakota Agricultural college who will receive degrees in June have already accepted positions in the line of work they have been following during their college career, according to information gathered from the deans of the various schools of the college. Others have been offered positions, and have not yet decided which to accept.

Numbers of the graduates in the school of agriculture plan to return to the home farm to put into practical application the agricultural principles learned while at school. One student, Theodore Piper, has left for New Canaan, Conn., taking a calf sold by the college to an eastern stock farm. He may spend the summer there studying eastern farming methods.

J. Ogden Brauer, Archie Gerard and Leslie Narum will go into the United States marine corps in June with commissions as second lieutenants. Francis Hull will engage in business in Edgeley.

Many A. C. grads will teach in the high schools of North and South Dakota and Minnesota during the next year. Suzanne Martin, Fargo, will teach in the Garrison, S. D., high school. Lucille Thompson of Fargo has contracted to teach in the Lisbon high school. Inez Freeman will teach in the high school at Wadena, Minn. Helen Lindquist will teach at Aurora, S. D. G. W. Kappel is to be principal of schools at Galesburg, Charles A. Stroup of Williamsburg, Ohio, will be principal of schools at Rhame, and Harry Bridgeford of Larimore will be teacher and coach at Detroit, Minn.

Some of the home economics graduates who have made definite plans for the next year are the following: Mary Ross of Fargo will teach in the Dickinson public schools, Lydia Bautz of Dublin will teach home economics in the Anamoose schools, and Agnes Johnson of Christine will teach the same subject at Ortonville, Minn. Letitia Jones of Kempton will teach in Edgeley and Myrtle Euren of Fargo will have charge of home economics work in the Cooperstown high school, which will be made a Smith Hughes school next season.

Kenneth J. Keating and James D. McGlynn, graduates in the school of chemistry, have accepted posts with the Acme White Lead and Paint Co., of Detroit, Mich. Everett Metcalf will join the Sewall Paint and Varnish company of Kansas City, Mo. Carlton Rydstrom will be with the Valentine Varnish company of New York city. Einar Leifson has been given a graduate fellowship in chemistry at Iowa State college of Ames, Iowa, and will spend the next year there in study.

Harry Erps, Orley B. Lane and Sophus B. Thompson have each taken civil service examinations and have received notice that they will be certified as junior mathematicians, upon evidence of their graduation, with the United States coast and geodetic survey. Mr. Erps, though qualifying for this position, has accepted a place offered him with the Michigan highway department at Lansing.

Verle Deach has accepted the post of advertising specialist with the Knight Printing company of Fargo and has already started his new work.
(Continued on Page Three)

Thompson's Resignation Accepted by Y Board

MAY TAKE MORE SCHOOL WORK
NEXT YEAR TO GET
PH.D. DEGREE

H. J. Thompson, general secretary of the college Y. M. C. A., recently tendered his resignation to the Advisory Board and Cabinet of the association. The reason for doing so, as given by Mr. Thompson, is that he is very anxious to complete his school work, and will probably continue his studies next year for his Ph.D. degree.

Is Phi Beta Kappa

"Tommy," as he is better known on the campus, came to the college six years ago this summer. He received his B.S. degree from the Central Normal college of Indiana in 1910 and later took his A.B. and A.M. degrees from the Indiana university. He represented the latter institution at the state oratorical contest, served on the "Y" cabinet two years and was elected to Phi Beta Kappa, national honorary scholastic fraternity, in his senior year. He was general secretary at Indiana State normal and Rose Polytechnic at Terre Haute for a year, and was student secretary of the First Baptist church of Indiana university for a year. He also served as general secretary of the Y. M. C. A. at the same institution.

A committee composed of Vernon Peterson, Willis Boots and Dr. Hunsaker are making arrangements for a reception to be given Mr. and Mrs. Thompson in the "Y" building Tuesday evening, June 2. Further details of the reception will be announced in a later issue of the Spectrum.

SENIOR CLASS PLAY TO BE GIVEN JUNE 19

"THE WHOLE TOWN'S TALKING"
IS PLAY CHOSEN FOR
PRESENTATION

Rehearsal work has begun on the senior class play, "The Whole Town's Talking," which Professor Arvold is directing. The play will be given on Friday evening, June 19 at the Little Country theater.

The action of the drama revolves about the home life of the Simmons. Charles Wells takes the part of Mr. Henry Simons, a manufacturer of Sandusky, Ohio. Helen Krueger acts the wife's part. Lucille Thompson as Ethel, their daughter, plays the principal role in the three act farce. With its humorous and conflicting situations and its final climax, the dramatization should prove fascinating. The story is modern in all its aspects and has woven into it the eternal love theme.

John Emerson and Anita Loos are the authors of the drama. Mr. Emerson is chairman of the Actors Equity association of America. He has staged successes both on the stage and the screen.

Following is the cast of characters:
Henry Simons, a manufacturer.....
.....Charles Wells
Harriet Simons, his wife.....
.....Helen Krueger
Ethel Simons, their daughter.....
.....Lucille Thompson
Chester Binney, Simmons' partner.....
.....Donald Bishop
Lety Lythe, a motion picture star.....
.....Myrtle Euren
Donald Swift, a motion picture director.....
.....Ted Greenfield
Roger Shields, a young Chicago blood.....
.....Ogden Brauer
Lila Wilson, Ethel's friend.....
.....Elizabeth Elliott
Lally Otis, Ethel's friend.....
.....Ruth Talcott
Annie, a maid.....
.....Agnes Johnson
Sadie Bloom.....
.....Katherine Eddy
Taxi driver.....
.....Aubrey Hook

Act III.—9 o'clock same night.

COYOTES CAPTURE FIRST PLACE AT CONFERENCE MEET

BRIDGEFORD GETS TIE WITH
STATE MAN FOR FOURTH
IN POLE VAULT

THREE MARKS FALL

DEWEY'S CINDER AGGREGATION
TRAIL FIELD WITH 6½
POINT TOTAL

With a team of versatile track stars, South Dakota university won the North Central conference meet at Sioux City Saturday. Not until the final relay race were the Blue Jays silenced by the Coyotes 43 point total. Creighton had 40 points to the Flickertails lone score, Morningside 19, Nebraska Wesleyan 16, Des Moines 15 and South Dakota State 14½ points. Our Bison rumbled in with a 6½ point total, much out of favor with Hermes.

Bridgeford Places in Vault

Lester Day, Bison distance star, captured the only first taken by Dewey's aggregation, capturing the two mile event in 10 minutes and 48 seconds. Day's performance marked the second first place to be made by a Bison trackster in a conference meet, Benny Martin having been the first, capturing the pole vault in 1922. Day also ran fourth in the mile, which was captured by Trautman of Creighton, who reeled off the event in 4 minutes and 41 7-10 seconds. The other half point acquired by the Bison was made by Harry Bridgeford, who tied for fourth with Martin of South Dakota State in the pole vault. Redfield and Meisenholder of the Coyotes tied for first in this event at 11 feet.

The Coyotes have a full quota of dash men. They showed their speed in the century dash. Jacquith, Sterling Clark and Harney finished as named in the event with a time of 10 1-5 seconds.

Again with Creighton only one point in arrears with its 37 count, the same trio with a filial Clark added, won the meet by doing the half mile relay in 1 minute 32 5-10 seconds.

Records, however, were only broken in the field events. Wiberg, a mammoth product of Nebraska Wesleyan, grew stronger day by day and concluded with a shot put record of 45 feet ½ inch. Laemmle, from the up-state school, whirled the discus to a new mark of 132 feet 7½ inches. Last year's record was four inches less. Dunkak of the Coyote constellation threw the javelin 176 feet 9 inches. As Wiberg he accelerated his record mark made in the semi-finals.

Keane High Point Man

Creighton had a high point winner and stronghold in Keane. Keane took firsts in the broad jump and 220 yard dash. A second in the low hurdles event brought his total to 13. Bendon, Trautman, Stewart, Krasne and Nolan were other contributors to the Blue Jay's score.

Flickers Score

The Flickertails proved a grasping lot. Three firsts, a second a third tell the position of the university's cinder elites. Veigle stopped aspirants in the high jump at 5 feet 9 inches. Two minutes 8-10 seconds was Drew's time for the 440 yard dash. "Bub" Nelson could not cope with Dunkak's "Coueism" and took second in the javelin event.

A summary follows:

120 Yard High Hurdles
Won by Martin, S. D. State; Redfield, S. D. U., second; Isenburg, Morningside, third; Haakenson, Morningside, fourth. Time, 16 5-10 seconds.

Mile Run
Trautman, Creighton, first; Chadertan, Nebraska Wesleyan, second;

GAY CAT DAY

Gay Cat day has been definitely set for Wednesday, June 3. In setting a day in the middle of the week for the annual dress up day the Spectrum thinks the student commission have made a good move.

In previous years many students took advantage of the fact that the student governing body set a Friday for the event. Many who should have participated in the day's festivities hid themselves to the lakes or went home on Thursday evening with the assurance that they would be absent from but one class on Friday morning.

Every student in the college will now be compelled to stay in town to be present for his classes on Thursday morning. Fridays usually suffer more than other days in the matter of holidays, and for that reason we see another thing in favor of holding the play day on a day in the middle of the week.

Last year the commission laid down a ruling to the effect that no student shall take forcibly from the camps any student before 4 p. m. of the day preceding Gay Cat day, thereby depriving that student of the right to attend all of his classes for that day. Last year a large number of students were absent from their classes from Tuesday morning to Monday because they wished to find the president of the freshman or sophomore class. We are all college students and should learn now to be law abiding citizens, and should as such obey this edict of the commission.

Every student is expected to come in some kind of eccentric costume. Let's all dress up and make the 1925 Gay Cat day one to be remembered. If a few fail it may spoil the day for many.

WHAT'S IN A NAME?

Several years ago there was much agitation on this campus for the purpose of changing the name of this school from "North Dakota Agricultural college" to "North Dakota State."

In the "Student Opinion" column of this issue of the Spectrum there appears an article for another such move.

Why should we change the name of our school? The Spectrum believes Mr. Booth was sincere in his writing, and not trying to stir up agitation for the sake of having something doing.

Many students have gone from this institution to all states of the Union and have secured good jobs, all of which were not in the field of agriculture. Agriculture is the backbone of the state and we justly believe the state deserves an agricultural college.

We agree with Mr. Booth's remark that students are kept away from the institution because of the name of the college, but to what percentage does this amount? We think very small, if even worth recognition. It must be conceded, at least to a certain extent, that the vast majority of students graduating from high schools today know that any agricultural college contains more than a school of agriculture. Agricultural colleges today all contain some sort of industrial courses as well as literary, which fact is realized by many students. Being as our state is an agricultural one, we believe there is no necessity for a change in name, at least not immediately. Think it over.

IN APPRECIATION

In another section of this issue appears a short story to the effect that Henry D. Brown, a former alumnus of this institution, is offering two prizes to the class in advertising for the two best ads turned in by the class in a competitive contest.

We have many alumni who back the school in some particular way, to whom we also wish to make ourselves appreciative at this time.

Mr. Brown will perhaps not get the desired results in this contest, but nevertheless he is willing to take a chance with students who are attending the same institution he attended, except under different circumstances. For many of the alumni to take a similar step would mean much to the college and a strong alumni are capable of making a strong college.

Potato Bugs Cannot Be Killed By Formaldehyde

COMPOUND IS OCCASIONALLY USED FOR INSECTICIDE, SAYS DR. WEBSTER

Potato bugs cannot be killed by formaldehyde says R. L. Webster, entomologist at the North Dakota Agricultural college, in commenting on a recent report from Grand Forks county that several different parties have been attempting to sell formaldehyde to farmers in place of Paris green, claiming that it will kill potato bugs.

Occasionally formaldehyde is used for killing house flies, mixed with milk or even water, and placed where the flies will come to it and drink the mixture, says Dr. Webster. Its use as an insecticide, however, is practically restricted to this single instance.

Formaldehyde Used for Seed
Seed potatoes can be treated with hot formaldehyde for scab or black scurf, according to Dr. Wanda Weniger, plant pathologist for the agricultural experiment station.

"The solution is made by adding two pints of formaldehyde to 30 gallons of water," she explains. "The water should be heated to 118 or 122 degrees before adding the formaldehyde, and the temperature maintained between these two points while treating the seed. A good way to do this is to use a metal stock tank with a tank heater, or to dig a trench and build a fire under the tank."

Paris Green Widely Used

Paris green is most widely used in North Dakota for killing the Colorado potato beetles, states Dr. Webster. The main advantage of Paris green is its rapidity of action. Usually the effect on the insects is evident the following day. Paris green, however, does not adhere readily to foliage as some of the other arsenical poisons.

"Lead arsenate has practically replaced Paris green in most potato growing districts in the east. Although this material acts less rapidly, it adheres to the leaves much better, sticking to potato foliage even through heavy downpours of rain."

Arsenate of Lime Coming Into Use
Calcium arsenate (arsenate of lime) is coming into greater use on potatoes for killing the Colorado beetles. This arsenical adheres well to foliage and kills the insects more quickly than lead arsenate, although it is not so rapid in action as Paris green. Calcium arsenate may be purchased for considerable less than Paris green, and because of its high arsenic content, will go nearly as far as that material.

There is no advantage in using excessive amounts of any arsenical poison. Thoroughness in application, covering all the exposed foliage, is far more important than using large quantities of the poison.

SIG FORMAL IS HELD ON FRIDAY EVENING

An unusual program was presented during the evening by Miss Audrey DuBeau in a Grecian dance and Marie Early in a bubble dance. Both dances were given on the lawn during the rain and colored spot lights were cast on the dancers.

Dr. and Mrs. John Lee Coulter, Dr.

and Mrs. L. L. Carrick and Mr. and Mrs. A. H. Parrott were the patrons and patronesses. The gentlemen presented the ladies with "slickers" and roses during the evening.

Frappe was served by Misses Dorothy Christianson and Alice Putney.

James McGurren headed the general arrangements committee for the party and he was assisted by Emory Putnam and Wade Boardman. The S. S. President McKinley Collegians played for the dance.

This is the fourth annual dinner dance to be given by the Delta Kappa Sigma fraternity at the Country club.

Despite the weather the Delta Kappa Sigma party, which was given at the Fargo Country club Friday evening, was a success. Dinner was served at 7, dancing being in order between the courses and the formal program of dances began at 8:30.

LAKE PARTIES SCHEDULED FOR WEEK END

KAPPA PHIS TO HOLD ANNUAL LAKE PARTY BUSINESS MEETING

PHI OMEGA PI SORORITY PARTY OF THIRTY TO GO TO LAKE BEMIDJI

TO LEAVE FRIDAY

PHI UPSILON OMICRON WILL GO TO REED COTTAGE AT DETROIT

Three organizations of the campus plan to hold week end parties at the lake, with most of the organizations departing Friday afternoon.

The Phi Upsilon Omicron, national home economics sorority, will leave Friday morning for Detroit, where they will spend the remainder of Friday and all of Saturday and Sunday at the summer home of Miss Althea Reed. The Reed cottage is located north of Detroit. The party plan to return to Fargo Sunday afternoon.

Pis to Bemidji

The Phi Omega Pi sorority will hold their annual outing at Lake Bemidji as the guest of Miss Alice Chandler. The party will leave Fargo Friday afternoon and will return Sunday. The party will be made up of about 30 girls of the sorority.

The Alpha Kappa Phi fraternity will hold their annual business meeting on Thursday evening and Friday morning, leaving for Lake Sally Friday noon, where they will spend the remainder of the week at Fairhaven resort. A number of alumni are expected in for the annual meeting, and the number attending the annual affair is expected to reach 75. Formal installation of officers which include Ben Rumpeltes, supreme director; Ordner Trom, grand judge; Carl Baden, bursar, and Karl Schulze, recorder, will take place on Friday morning. A banquet for honorary and senior members of the fraternity is scheduled for Thursday evening at the Garner hotel, under the auspices of the alumni association of the fraternity.

ADVERTISING CLASS HOLD AD CONTEST

The class in advertising under Maynard W. Brown, assistant professor of journalism, submitted advertisements Friday afternoon in competition for two prizes being offered by Henry D. Brown, local dry cleaner. Mr. Brown is an alumnus of the agricultural college.

The prizes are \$7.50 for first and \$5.00 for second. Judges for the contest are Ralph O. Nafziger of the Fargo Forum and former instructor of journalism here, and Maynard W. Brown and Henry D. Brown.

Students submitted advertisements suitable to be used for advertising in connection with Mr. Brown's dry cleaning establishment. Awards for the contest will be made public within a few days, according to the judges.

Student Opinion

A couple of years ago a few ambitious and broad minded students got together and circulated petitions for the changing of the name of our college to one that would be more representative of the courses offered here. Their efforts were met with defeat, however, and the spirit has not been revived since. The following article is an example of what other agricultural colleges are doing:

East Lansing, Michigan.—Sixty-eight years ago a small group of young men, pioneers in the theory of agricultural education, cleared a space in a forest and erected a single building which they called "State Agricultural college." Recently that same institution, with dozens of buildings and one of the most attractive campuses in the country celebrated the anniversary by formally changing its name to Michigan State college of Agricultural and Applied Science.

With the change in name effective at once, under legislative enactment, the college, said to be the "mother institution of agricultural colleges," officially ceases to be a purely agricultural institution, although in fact it branched out into other fields in 1885, when the engineering course was added.

This leaves the North Dakota Agricultural college as one of the few remaining agricultural institutions with a purely agricultural name. If our college is to grow we must increase our student body to demand an expansion. The list of courses found in our curricula are unexcelled by those of any other institution in the northwest. We have a chemistry school that is well known all over the United States and our engineering department is comparable to that of any institution of our size. But how is the average high school graduate to know of these departments when choosing a college and allowing the name of the institution to play an important part in his choice? It is very true that we are situated in a community in which agriculture is the major industry, but very few young people are choosing agriculture as a life work. Our largest enrolment is in the school of science and literature and a large percentage of these students are residents of Fargo. Had these students not been residents of Fargo would they have chosen A. C. as their college? The fact that our graduates are from an agricultural college is no obstacle in their way in obtaining employment after graduation, for the average employer who hires college graduates is broad minded enough to know that the name of a man's college does not have a great deal to do with his ability. But we are interested in increasing our registration and to do this we must advertise our college to the high school graduate fairly and squarely and in a way that will convince him that we are not only an agricultural college but a college of applied science as well.

SALT AND PEPPER

Western civilization has long been identified with the motor type, the sort of man who runs more than he reads and acts oftener than he thinks; the sort of man who must go outside the frontiers of his own mind and spirit to find either the world of reason or of recreation; the sort of man who is externally rich but internally poor.—Glenn Frank.

Everyone is ready to complain of his bad memory, but it is the rarest thing in the world to hear a man admit that his judgment is bad.—Youth's Companion.

He is a foolish man who breaks up important business with small points about words.—Gellius.

HAVE YOU BOUGHT YOUR NEW ENSEMBLE?
Fashion favors the Ensemble for most occasions and one's wardrobe, to be complete, must have one.
First, it is a smart frock, either of plain or fancy material. Next, it is a fashionable coat which may be worn with any dress. Then, it is a most charming combination of coat and frock together in the form of an Ensemble suit.
A beautiful and most complete showing at Black's.

MEN have long wondered why writing made their hands tired. And Geo. S. Parker has answered the question by removing the cause. First came Parker's Over-size Duofold Pen with its easy, full-handed grip, and fatigue disappeared. So demand arose for the same full grip in a Pencil too. And Parker responded with the Over-size Duofold Pencil—the team-mate of Duofold Pen. Pen with 25-year guaranteed point—Pencil with Non-Clog Propeller that turns lead OUT and IN. A beautiful pair to carry—balanced, symmetrical, handsomer than gold.
