AGRICULTURAL COLLEGE, NORTH DAKOTA, WEDNESDAY, FEBRUARY 20 1924

NUMBER 17

## Yea Bison! - "Every Body's Going to the Games" - Yea Bison!

### N. D. Chapter of A. A. E. Is Host To Joint Meeting of Engineers From All Over State and Nation

Two days program is planned for Fri. and Sat. this week will be entirely devoted to subject of "Lignite" and its problems; Large attendance is expected;--Local boys will do their best at entertaining.

The Joint Annual Meeting of the North Dakota Society of Engineers and the North Dakota Chapter of the A. A. E. will be held here Friday and Saturday, the local student chapter being hosts to visiting engineers from all over the state and country. Advance reports indicate a large attendance and a record program.

#### START EARLY.

Early Friday morning, eight o'clock probably, the body will meet at the Commercial Club down town and from there will come out to A. C. in the busses to take part in the program planned for the day.

#### ROADMAKING FIRST DAY.

Friday's program will be given over to roadmaking and associated problems state the executive committee. Fine speakers of repute as engineering experts will do the talking and lead in the discussions.

#### LIGNITE THE BIG THING.

Saturday's program will be entirely devoted to the subject of Lignite and its mining and disposition. Under Dean Babcock, and his staff, new combustion methods, strip mining as economies and problems, will be discussed.

(Continued on page 3.)

### Little International Is Stirring Keen Rivalry; Milkmaids Will Clash

With everything set for the big evening program of the Second Annual Little International Livestock Exposition, members of Saddle and Sirlin are feeling that they have something mighty good to offer their guests and the Polytechnic Society whose auspices they are entertaining under. Agricultural students have done all the work, all the fitting, and all the essential planning of this event, and how all they ask is your attendance; they feel confident of giving you something worthwhile.

#### THE BEST A. C. HAS.

The best animals of the college herds and flocks have been fitted for showing this evening. Prize winning stock is being awarded silver medals by the Club. In addition to medals, the Saddle and Sirlin Club is giving three silver loving cups, W. H. Magill and Company, The Interstate Seed and Grain Company and the North Dakota Livestock Breeders Association, each are giving one piece making

(Continued on page 3.)

### Reappointments Are Out For Cadet Organizations In Spring Term Work

Leo D. Osman was named as cadet major in command of the R. O. T. C. organization at the college in the recent reappointments of cadet officers made this week. Francis Hull is Major, second in command; Capt. Kenneth Keating will act as adjutant, and Capt. Sagmoen assistant adjutant. Company commander are: A. Captain Frank N. Leakey; B. Capt. Allen O. Bagrud; C. Capt. Walter C. Bohnsack; D. Capt. U. Oliver Thoreson; E. Capt. Herbert W. Herbison; and Machine Gun Company is being commanded by Capt. Logan M. Taylor.

The noncommissioned staff include: Jack Knapp, sergeant major; Robert Sanderson and George Balroy, color sergeants.

The band includes second lieutenant

(Continued on Page 3)

### Morningside Goes Down To Double Defeat In Hard Fought Conference Games With A. C.

#### Students Must Exchange Cards For Coming Games

In order to exclude the large number of people who hold A. C. registration cards, but who do not attend school, from the "U" games, Athletic Director Bortleske has devised a method of restriction for the Bison-University basketball games here on February 29 and March 1.

#### SEE THE REGISTRAR.

In order to get in to the games the students will present their cards at the registrar's office and have it checked and secure two tickets for the games. The student will have to present his registration card and one of these tickets at the door on each night, the ticket or the registration card being of no use separately.

#### GET BUSY NOW!

Tickets can be secured by presenting the card at Mr. Parrott's office after next Monday during regular hour. Students not presenting their card by Saturday noon will be unable to secure entrance except by the cash route.

#### THE WEST DOOR, PLEASE.

Students, and students only, will enter the West door at the Armory and seat themselves on the North and West sides of the Armory. Cash customers and people outside the school will be seated in the south and the east end is reserved for the University if they reserve a section for the A. C. students this week end.

Non-students, people from the U, and downtown will enter the east door to the Armory. Students will not be admitted at this entrance.

### Student Volunteers Still Up And Going

Although more than a month has passed since the return of the delegates from North Dakota Agricultural College to the ninth International Volunteer Convention the delegates are still much in demand for reports of the great gathering to be given at various churches in the city.

Since their return the delegates have made a total of seventeen reports. Other reports are scheduled for the immediate future.

The enthusiasm of the delegates over the main issues of the Convention namely: War, Racial Relations, Foreign Missions, and Industrial Democracy has caused many of them to extend reading along these lines, and the reports being given are unusually well prepared and interesting.

### Gamma Kappa Psi Formal Is Saturday

Saturday, February 23, has been announced as the date for the formal party to be given by members of the Gamma Kappa Psi sorority of the North Dakota Agricultural college. The affair will be opened with dinner at the Gardner hotel at 7 p. m. and later the guests will be entertained at the Prado with a program of formal dancing.

President and Mrs. John Lee Coulter, Mrs. Myrtle Gleason Cole; Dr. and Mrs. C. S. Putnam; Messrs. and Mmes. H. L. Bolley, E. M. Grimes, W. F. Sudro, and E. H. Jones will be patrons and patronesses for the party. A number of out-of-town guests will come to Fargo for the affair, and it is expected that 35 couples will be entertained.

Purple and white, colors of the sorority will predominate in the appointments for the dinner and the decorations of the Prado. White roses, the sorority flower will be used on the banquet table and the Prado will be transformed into a wisteria garden.

Morningside cagers were given a disastrous reception by the Bisons here last Friday and Saturday the Bisons winning both contests and making it four straight from the Maroons. The first was 33-19 and the second 34 to 18. Previous to their appearance here the Maroons had won from the Flickers at Grand Forks in a closely played game, 21 to 18.

#### FIRST A DANDY.

The first contest was probably the most interesting to watch. Dewey did not start the regular lineup on either occasion but Greenfield and Arnold were sent into both contests and their presence strengthened the lineup. In the first contest the Bisons led all the way although at one time in the second half the Maroon crept up to with the Bisons the score standing 23 to 19 with but a short time to play.

#### 34-19 SCORE.

A rally netted five counters in short notice and the game ended 34-19.

In the second contest the Bisons played their best ball in closing of the first half. Greenfield and Cy Arnold were sent in after 12 minutes of play. In the closing eight minutes Arnold

(Continued on page 2.)

### Coyotes Split Double With Jackrabbit Five

(From The Volante.)

The fighting Coyotes, out to avenge the first of a two-game series with South Dakota State college Thursday evening, but were forced to take a drubbing in the last game on Friday evening. The first game, ending with a score of 18 to 17 was the fastest and most spectacular game that has ever been played on the local floor. The game throughout was an exhibition of the highest caliber and was especially featured by the strong defense put up by both teams.

A 24-10 score in State's favor decided the second contest. Although the Fighting Reds put up a plucky fight to duplicate their performance of the night before, it was evident from the start that they were off on their marksmanship. At no time did they show the speed and cleverness so evident in the first game.

### Blind Student Working For Degree Gets High Average

### Percey M. Lowe, Eyesight lost in Explosion, Works to Become Lecturer; Makes High Average for Fall Quarter; Unruffled by Handicap

We print herewith the following feature taken from the Minnesota Daily written around one of our graduates from this institution who is now doing post graduate work at Minnesota University. The story follows: "A talkative, galosh-flopping campus poulation of co-eds and men hurrying for their mail before morning classes leads ever but one way—to the University postoffice.

Following them on this tested theory, Percy M. Lowe, blind graduate student in agricultural economics, daily makes his way alone to the School of Business and to the Farm's Administration building. He is working to receive his M. A. degree in June, then to become lecturer in economics.

#### Attended Summer School.

Since June, 1923—a year following a dynamite explosion on his farm at Brainerd, which caused his blindness—Mr. Lowe has been a graduate student at the University. At the summer sessions of the Business school,

(Continued on page 2.)

### Gold Star Military Ball Comes March Fifteenth

The annual Military Ball, the most exclusive and elaborate social event of each college year, will be given in the college armory the evening of March Fifteenth. This year's ball is to be the first "Gold Star Military Ball" in the northwest, and the decorations and arrangements will be painstakingly carried out to be in keeping with the nature of the event, states J. Ogden Brauer who has charge of the successful planning of the festivities. Decorations, music, and mess are being stressed to the finest detail this year, states the committee.

The University of North Dakota held their military ball last week and invited four members of our Cadet Organization to attend. Mr. Brauer, in commenting on the entertainment given them up there, says that it was the finest party of its kind he had ever had the pleasure of attending and he praises the way the boys up there entertained them. Mr. Brauer further states that our

(Continued on page 4.)

### Unusual Accident Is Lot Of College Truck Driver

Andrew Thull, the college truck driver, is home from the hospital this week following serious injuries incurred in cranking the Ford mail truck he has been driving. At present, he is doing as nicely as can be expected but still remains in a critical condition.

The details of the accident are hard to get at; it seems that the motor kicked back while Thull was cranking it, and the impact or sudden recoil had enough whallop to split Mr. Thull's spine. Mr. Thull was immediately taken to the hospital and his body put in a cast to insure against any disarrangement of the vital nerve centers.

Mr. Thull's predicament is a strange one and the student body sympathizes with him at this time. It is the hope of the many friends he has made here that he is looking on the job again this spring and backing after the delivery of our mail as per usual.

### Bison Basketeers Set To Leave For University Friday Morning With Four Hundred A. C. Fans

One win from Flickertail outfit will put the Bisons ahead of the University in N. C. I. Conference Standing. The coming games are crucial for both quints for they mean that one of the two will hit the skids in Conference circles; The Band will make both games.

### Fargo High Midgets Crack Frosh Basketmen

North Dakota Bisons fresh opened their season with a game against the Fargo High Midgets at the armory last Saturday in a preliminary to the Bisons-Maroon tilt.

The Midgets whipped the Frosh in an interesting game with the final whistle showing the Midgets leading by a big margin, 65 to 27.

Captain Rusch with 10 baskets and Fisher with 9 were the Midget big guns. Owens and Hanson, also former wearers of the Midget uniform were the Bisons best.

### Creighton Wallops Des Moines Outfit

Creighton University took the first honors in the North Central Collegiate Track meet held at Omaha, Nebraska, Friday evening. Creighton scored 37½ points, followed by Des Moines University. The Bisons did not send down a team.

North Dakota university with but two men entered scored 2½ points. Sauvain tied Ryan of South Dakota U for third place in the high jump, while Hanson was fourth in the 880-yard run.

All members of the conference except North Dakota State were represented in the meet.

Total points are as follows: Creighton 37½; Des Moines 30½; South Dakota State 22; South Dakota university 21½; Morningside 4; North Dakota university 2½ and Nebraska Wesleyan 2.

### Novel Farm Course Is Coming, Says Waldron

How to build inexpensive farm structures such as shelters, straw barns, pit and trench silos will be explained in a short course on farm structures and equipment and grain cleaning to be given at the North Dakota Agricultural college in the week commencing February 25, announces C. B. Waldron, dean of agriculture.

The advantage of cleaning grain at the threshing so that the farmer may have clean grain to sell and the screenings to feed his livestock will be demonstrated during the latter days of the same week. R. H. Black, of the United States Department of Agriculture will be present to explain the late inventions and methods intended for use on threshing machines.

"On most farms, the keeping of more live stock means additional buildings," says Mr. Waldron. "Practical and comfortable structures can be erected at little cost if one knows how. This course is designed to furnish that information."

"The next important step in farm operation is the cleaning of grain at the separator. This problem is being solved and the U. S. Department of Agriculture is sending Mr. Black to make demonstrations of this process, and all who operate threshing rigs or raise and market grain will be greatly benefitted if they can arrange to be on hand during these demonstrations."

Dope means little when applied to the North Dakota Bisons annual battles with the State University. comparative scores, of little value at any time, place the teams on a practically even basis. Even though the Morningside team trimmed the Davis quint while Dewey's men were giving the Maroons a neat lacing it means little. The defeat will be an added incentive to the Flickers.

#### WE'VE GOT TO WIN!

In the games this Friday and Saturday at Grand Forks, the Bisons, if they continue to play the ball they have shown in late workouts, will win both contests.

The reasons for predicting Bison victories are several. For one the Bisons have a better defense, and when on, their offense is faster and superior in their scoring ability to that of the University. Unless Coach Davis shifts Captain Burkman to a guard position the Flickers will not have a defensive man who can score consistently. The Bisons are a five man scoring team. In nearly every game every man has scored at least once from the field. The U scoring burden rests on three men at the best, Harris, Busdicker, and Burkman. In three of the four games last year Harris was held in check by Cy Arnold and the Bison guard with added experience he has can cover the tall Flicker.

#### BISONS HAVE RESERVES.

And also the Bisons have much (Continued on page 3.)

### Bison Coeds Are Given Varsity Positions Today

Gladys Flem, Grace Bayliss, Agnes Peterson, Edna Sommerfeld, Edith Skurdall, Dorothy Loudon, Nellie May Root, and Lillian Hoveland were today chosen as members of the Girls Varsity Basketball Squad. Miss Ruth Andrews, physical director, Frances Root, her assistant, and Myrtle Euren, basketball manager, elected the squad.

#### WILL MEET MOORHEAD.

Three games have been scheduled with the Moorhead State Teacher's College, the first one to be played Thursday evening at Moorhead. Tonight, the varsity squad will meet the Independents, a team including Ruth Andrews, Dorothy Anderson, Christine Rud, and Myrtle Euren.

#### SOPHOMORES WIN TOURNEY.

The class tournament closed Friday afternoon with the Sophomore team leading, and the upperclassmen second in the race.

Emphasis in women's athletics, this year, has been placed on intramural sports and every effort is made to reach as large a group as possible according to Miss Andrews. Basketball is the major sport now but competition is provided for women who do not make the class teams by games between rival groups within the various sections. Competing teams in one class are engaged in a series of hit-pin ball.

"Captains are appointed to manage the competing teams in the regular gym classes," Miss Andrews says. "Each leader feels responsible for the success or failure of her group. If a team is consistently losing, the captain must discover the reason and often a shift in the lineup will change the fortunes of the team. This is valuable training in leadership."

REMEMBER THE TEAM FIRST!

Twice now in recent games has the A. C. team been fouled because of the crowd's loudly protesting the decisions of the referee. Whether he is right or wrong, the referee is there to run the game. That is his business, while to protest his decisions is the right of only the captain or the coach. For the crowd to attempt to change his rulings by yelling at his decidedly out of place and the referee is entirely justified in fouling the home team because of the rooter's attitude. In the four home games previous a point or two was of little consequence, but in the crucial series with the University this week and next every point will be contested and it will be an easy matter for an unruly mob to give the victory to the University. You noisy one's you've seen the team fouled several times due to your yelling. You've had your lesson. Now be careful.

Dr. Winship Tells Us  
Of Opportunities Today

(Continued from page 1)  
In the last 10 years, were emphasized by the speaker.

Business Requires School.

"Today there is nothing attractive in city life as a business that doesn't require a high school education," he said. "The stenographer, office girl, clerk, all must have high school education. For the first time the country child really must have it. Ten years ago he could go to the city and do many things. Today, without an education, about the only things open to him are places as chauffeur, elevator boy or bellhop. There is nothing that the girl can do as a business in which she can have a first class chance unless she is a high school graduate. The present scare over the morals of the country girl in the city is almost wholly due to the changed attitude of department stores and other business places toward one who doesn't have a high school education."

The high school attendance, he pointed out, has doubled in 10 years, bringing in, in addition to the original bookish students who desire a scholastic education, a second half. The changed conditions, he said, "necessitate a different kind of high school course for the last half."

Schools Increase.

"Ten years ago one could study medicine or law or enter the preparatory department of a university or normal school without a high school education. Five years ago only 15 normal schools in the country required a high school education and offered a four year course beyond them; today there are 92.

"Biology, astronomy, chemistry, physics and kindred sciences have entirely changed in the last 10 years. We recognize the possibilities of the airplane, the radio, and a few of the big things, but we don't realize the even more striking problems in science. We are making silk out of wood; absorbent fiber better than absorbent cotton, and many things out of forests undreamed of 10 years ago.

"Until five years ago soft coal in the Allegheny mountains was used chiefly for making coke. Now we are making dyes, sugars, remedies and perfumes out of the smoke, gas and pitch, worth many times as much as the coke, and the coke is as good as ever. One plant in Pennsylvania invested \$36,000,000 just to make the

exquisite things out of the smoke, gas and pitch of coal.

Opportunity for All.

"All of this means that science is revealing processes by which we can give every boy and girl an opportunity to do as much and as well within their range of intelligence as the bookish boy or girl does. The demand for the high school has come from the people and not from the schools."

Besides speaking at the agricultural college at 11, Dr. Winship addressed students at the Moorhead State Teachers college at 8:25 and spoke to members of the Lions club at their visiting noon meeting today. He is visiting a number of normal schools and universities on his speaking tour.

Morningside Goes Down  
To Double Defeat

(Continued from page 1.)

scored four times and Greenfield twice to take the score from 6 to 1 to 20 to 4 for the Bisons. In the second half the Bisons became lax and the scoring was even both teams scoring. 14 points to make the final 34 to 18.

ARNOLD THE STAR

Individual honors in the series go to Cy Arnold, Bison who scored six times from the field in the closing contest and who also was an important factor in the Bisons floor game. Arnold was followed closely by Captain Greenfield and Blakely. Minor injuries handicapped all three of the auburn topped Bisons.

Captain Honi Rogers was the visitors best.

Student Census Takers  
Are Canvassing Fargo

(Continued from Page 1.)

of more than 30 religious organizations of this city. A separate card is made for each individual roomer or employe, and a Family card for families where the entire group prefers the same church. In case members of families prefer different churches separate cards are made out.

About 30 A. C. students are engaged in the work and the 10 others making 40 in all coming from the various schools of Fargo other than A. C. Approximately 6000 call will be made using a total of between 8000 and 10,000 cards and listing between 20,000 and 25,000 persons.

When completed the cards will be distributed to the various church organizations of the city. The census is under the supervision of the Fargo Ministerial Association.

Blind Student Working  
For Degree Gets High--

(Continued from Page 1.)

he received grades of two A's the second session, and two B's the first. His record for 11 hours work in the fall quarter stood three A's and one B.

At his home last night this student extraordinary—whose hearty laugh as well as his scholarly prowess has won scores of friends for him among faculty and classmates alike—revealed some of his success secrets.

Complete avoidance of postoffice mobs is one of them. Collisions with buildings, posts, automobiles, and persons—"eternally the fair sex", according to him—have been frequent, but "experience has a way of teaching" and he "hasn't yet injured any objects involved.

Gets Lectures Without Notes.

One offensive bush on the campus

has got in his way so often that he has its location spotted exactly. The numerous by-paths of the knoll puzzled him long, but he has discovered them as he has become familiar with the steps and position of buildings which he attends.

"I detest counting steps, and find I can learn their extent and the distance between buildings successfully without it," he said.

"A chain of reasoning throughout economics" alone makes it possible for him to retain lectures without notes, and he seldom carries a pencil, even for notation of assignments.

"Catch questions" in examinations are his pet bane. "Fine distinctions in phrasing pass right over my head, when I can't have a written question before me," he explained. All his quizzes must be oral. Written reports, graphs, outlines, and solution of problems are not required of him. A reader is furnished by the state Re-educational division, of which he is a trainee.

Mr. Lowe was a graduate of North Dakota Agricultural college at Fargo in 1921. There he was a member of Alpha Gamma Rho and Alpha Zeta fraternities. A short period of army service interrupted his sophomore year. He was a member of North Dakota's intercollegiate debate team during his senior year, an International livestock judge at Chicago in 1919, and treasurer of his graduating class.

He was married during his last year at college. Mrs. Lowe is a graduate of the state normal school at Moorhead, and he worked as herdsman before taking a farm of 120 acres at Brainerd, and while blasting stumps from his land in September, 1922, an explosion of dynamite cost him his sight and left thumb. He is 25 years old.

Heads of the Fargo school, when interviewed by him, referred Mr. Lowe to the Minnesota Graduate school and made possible his study

in preparation for lecturing through the aid of the division of re-education and the state Blind Relief.

Johnson Source of Best Laugh.

Yvonne Lorraine, a 15-month baby girl, is his confessed hobby, and sawing wood his "favorite" outdoor sport.

Magnus Johnson, when he addressed a farm audience recently, was the source of his "best laugh", and a record number of two convocations attended have interested him. "The

farm short course and a number of other activities would have interested me if I could have known about them," he said.

"Minneapolis is an easy city to get around in, and everyone I've met has been very considerate in offering assistance," he declared. "All I have to do is ask questions, and all are willing to direct me." Mrs. Lowe admitted that he can tell her more about where she is in downtown districts than she can herself."

(Continued from page 1.)

stronger reserve material than the Flickers. In Thompson the Bisons have an aggressive guard who has size and who is an excellent long shot artist. Duncan, handicapped all season by injuries plays his best ball in the Bison-U games. He CAN be counted on to deliver if called on. Rumpeltes is a versatile performer and can be used in any position if the need arises. He is a big fellow and can take a world of punishment in addition to scoring at least once or twice from the field.

**GREENFIELD A COMER.**

In their regular combination the Bisons have an edge on the Flickers.

Greenfield, the tall Bison leader on another that is at his best against Davis crew. The Bison captain is easily the equal of any Flicker forward with the possible exception of Captain Burkman. Blakely has already outplayed Busdicker and should repeat. Arnold and Miller are better than anything Davis can offer in the defensive line. Newgard is an unknown quantity for the Bisons, in previous games he has shown well. What he will do under the fire of U games is not known but he has the ability to come through with baskets in most any contest.

**IN SUMMARY.**

Thus with better reserves, defense, and scorers we say the Bisons should and will WIN both games on the Flicker floor.

**The probable lineups:**

Bisons	Flickers	
Newgaard	f	Harris
Greenfield	f	Burkman
Blakely	c	Busdicker
Arnold	g	Olson
Miller	g	Mayer

## Knewsey Knosey Kampus Kolumn

### A UNIVERSITY HOMEMAKER.

If you were a woman, sixty-three years old, and wanted a house, would you build it yourself?

"I want a house and I am going to build it myself," says Mrs. J. R. Baker, 63-year-old student in the Manual Arts Department of the University; and I am back at school to learn."

Mrs. Baker plans to begin on her house this summer and will build on her land in Michigan. She is one of five women taking work in Prof. Bollinger's shop, according to the "University Student."

### DELTA'S PI'S PLEDGE.

The Delta Pi Fraternity announces the formal pledging of Harold Hulett, of Pretty Rock, N. D., and O. R. Jagd of Bismarck.

### KAPPA LAMBDA'S PLEDGE.

The Phi Kappa Lambda sorority announces the pledging of Virginia Rainville and Lucille Piper, both of Fargo. Pledging services were held at the home of Catherine Cockrell last week end.

### HOME EAGAIN.

Misses Eva and Helen Wilner, and Carrie Jasperson spent the week end at their respective homes in Tower City and Buffalo.

### VISITING.

Miss Olga Gruah entertained her sisters from Supton at the Phi U house over Saturday and Sunday.

### SOME PARTY

The boys who went up to attend the University Military Ball are loud and long in their praises of the social event. Speaking of moonlights, Archie says all the light they had was from phosphorus hearts and headbands but they threw them away; seven were injured in the crush for the corners.

### FARMERS DANCE.

Alpha Gamma Rho Fraternity entertained at informal dancing at the Powers, Saturday evening, following the game. Twenty five couples enjoyed the diversion.

### SIGS ENTERTAIN.

Members and pledges of Delta Kappa Sigma entertained their lady friends at a house party Saturday evening in the celebration of the win over the Maroon visitors. Informal dancing was the evening's diversion.

### BRIDGE AND CANDY.

A successful candy sale, and a bridge party were events swung by Gamma Kappa Psi sorority Saturday. The latter was given at the home of Mrs. Bolley.

### MUSKRATS FOR SALE!

Phil Boise, the well-known Bison Business Manager, has been laying plans for selling muskrats on a large scale. He has discovered that these creatures make splendid pets, especially for ladies

OUR Rest Rooms ARE ALWAYS OPEN Meet Me -AT- The Merchants National Bank

and children. "Fill" plans to start a business equal to the famous rabbit project which was started in Fargo several years ago. For further details see Bob Carlson, Mr. Boise's general manager.

### WE WERE TOLD.

The Dean had just finished saying, "A fool can ask more questions than ten wise men can answer," and Keating piped up with—"Yes, I guess that's the reason I flunked my last exam."

### A SICK MAN.

"Cy" Gorder, freshman from Grafton, is under the weather down at St. Johns Hospital. Cy is being troubled with internal injuries received last fall in scrimmage, but to date is coming along nicely after two weeks of confinement.

### TED GREENFIELD SAYS:

"When you see a fellow dash under the ice cold shower; when you hear him gasp for breath; see him rub himself to keep from freezing to death, and when he comes out alive and says, 'Gee! that was great! well, don't call him a liar; just don't believe him.'"

### LONG TIME NO SEEUM—

Meritt Hoffman, of Courtney visited the boys at the Delta Pi house, while on his way to Detroit, Michigan. He has accepted a position with the Tulison Steel Company of Detroit.

### THE ENGINEERS' YELL.

"Transits, Levels, Valves, and Gears N. D. A. C. Engine Ears!!!!"

### KNOW THEM AS SUCH!

Civil Engineers are "Ditch Diggers"; Mechanical Engineers are "The Oilers"; The Architects are "The Nail Pounders"; and the Chemical Engineers are "Paint Mixers".

### PROGRAMS FURNISHED

Standardized programs for farm meetings have been prepared at the college and can be obtained by any organization on application to E. A. Wilson of the extension department.

### WOULD BANISH FORMALS.

Fraternities and sororities of the University of North Dakota are thinking seriously of cutting out the formal parties planned for the remainder of the university social season and substituting informals in their place. For their reason, advocates of the plan point to the great expense and elaborate planning in preparation for and putting over these parties and it is their belief that with times as hard as they are over the state it is not good practice to give the state's taxpayers any cause for criticism of their foolish expenditures. An active

The Four Great Principles Cleanliness Quality Service AND MODERATE PRICES (Booths in Connection)

Have your Luncheon at the VIRGINIA CAFE 618 Front Street.

stand will be taken within the next week by the Pan Hellenic and Inter-fraternity bodies, according to the Student.

### WHERE WOULD WE PUT THEM?

Two hundred and fifty couples attended the annual Junior Prom given at South Dakota State College last Friday evening. The "Collegian" describes the event in brief as "A snow filled sky and snow covered mountains formed a great outdoor ballroom of the armory, giving it an arctic effect was further carried out by Esquimo booths at the corners and centre of the north side of the armory, these igloos were quite popular, especially with the older guests—ets."

### THE LAST STRAW.

About the meanest trick that has happened lately was when a student borrowed another student's clothes and told his "girl" they were his own. The next time the girl saw the owner of the clothes she thought he was wearing borrowed clothes. And being a true feminist, she isn't keeping the secret.

### A BOY BISON.

John Lawrence, a fine new husky Bison prospect, was born to Mr. and Mrs. John J. Howe, February 7. The young fellow weighs seven pounds and seven ounces.

### ALPHA ZETA'S PLEDGE.

Alpha Zeta, honorary Agricultural fraternity, announces the pledging of Richard V. Cripe, and William Freeman.

### Creighton Wins Fast Indoor Conference Meet

Playing same brand of basketball that has brought victory to perch on their banner in 9 out of 11 games, the Creighton university basketballers Friday night, on their own floor, walloped the undefeated Des Moines Tiger by the score of 33 to 19.

The Blue Jays and the Tigers played on practically even terms during the first half, but when the final period started the birds got going and soon, with a streak of team work and passing that more than puzzled the visitors, scored 10 points before the Tigers tallied a point.

## Discussion Groups Are Proving Popular Classes

Discussion of vital up to date issues are being conducted in the 'Y' building each Sunday afternoon. These discussions are for men and an interested group of fellows have met each Sunday for the past three weeks to take part.

The first three discussions have covered the following subjects: The World a Neighborhood, Tolerance, and War.

The purpose of this is to give the men a more understanding mind of the world situation today. The first discussion brought out the increasing number of friction points resulting from vastly increased trade and ease of communication. The second one brought out the situation which na-

turally arises from the situation demanding each man to allow for the validity of his neighbor's point of view in so far as such point of view does not conflict with his sense of right and wrong. The third discussion brought out the fact that would peace is apparently as much an un-realized dream as it was before the World conflict.

In the discussions every student is given the opportunity to give his personal opinion. All men are invited to attend.

## Alpha Kappa Phi's Formal At Waldorf

The first Fraternity Founders Day dinner party of the season was given by members of Alpha Kappa Phi fraternity Friday evening who entertained their ladies at the Waldorf Hotel.

A dome of red and black streamers, fraternity colors, and red hearts bearing the fraternity letters in black, combined the Valentine and society ideas in the decorations. Dinner was served at 8 o'clock at individual tables arranged under the dome with covers

laid for 100 guests. Red bosoms centered the tables and the places of the ladies were marked with tiny colonial wrist corsages.

Little Miss Dona DeBeau, dressed in a fluffy Valentine costume danced as one of the features of the evening and Miss Gladys Tennyson of Mayville gave several vocal selection.

The dance program opened at the close of the dinner and continued until 1 a. m. Tiny hammered silver perfume flasks in the form of lavalliers, emblazoned with the fraternity crest were presented the ladies during the favor dances of the evening.

## Gold Star Military Ball Comes March Fifteenth

(Continued from page 1.)

Gold Star Ball will surpass the Military Ball at the University. One hundred and twenty-five tickets for the Ball will be on sale the first week in March, states the treasurer of the affair. Four tickets will be allotted to each cadet officer and he will see that they are distributed among members of the corp and students.
