

THE WEEKLY SPECTRUM

EDITED AND CONTROLLED BY THE STUDENTS OF THE NORTH DAKOTA AGRICULTURAL COLLEGE.

VOL. XXXIV, NO. 27,

NORTH DAKOTA AGRICULTURAL COLLEGE, WEDNESDAY, MAY 19, 1921,

PRICE 5 CENTS

SOPHS ELIMINATED IN PRELIMINARY GAME

Last Monday afternoon the first baseball game of the class series was played between teams representing the Sophomores and the Freshmen. About three-thirty the two teams, and rooters of the two classes, began to assemble on the field for the bloody battle that was about to take place.

The contestants were clothed in various costumes, resembling most anything from a Mexican bull fighter to a burlesque show toe dancer. The Froshs, however, presented the better appearance when the managers of the respective teams, after successfully settling to many disputes, lined their teams up for action. When Latimer and Trowbridge, battery for the Sophs stepped into their places and began to warm up there was a howl of disappointment from the crowd. Due to a false rumor circulating around the campus (absolutely without foundations of truth) that the renounced Romeo of the Campus, "Fat" Nichols was to pitch for the Sophs, many of the spectators were very much chagrined, but upon learning that he was not going to play, they soon forgot their disappointment, however, as soon as the combat began to rage. The game was called promptly at 1 o'clock by Major Carrithers who rendered decisions thruout the entire period that were very satisfactory.

The clear eye, strong back, and heavy bats employed by the Frosh batters, to the optimum of efficiency was the cause of considerable grief for the Soph battery and fielders.

The would-be sluggers (Froshs) failed to score the first inning, although they did succeed in getting two men on bases, but Latimer realizing the delicacy of the situation, used his famous "Climax Special" and fanned the last man up to bat.

Everyone was very much surprised, when Ahlness, the well-known pilmixer, stepped into the pitchers box, but before many minutes had elapsed he proved beyond all doubt that he was the logical man for the position. In rapid succession the batters were retired before what was rumored to be a curve ball known as the "Pharmaseudical Medicine ball." Hull, the heavyweight backstop, worked in perfect unison with the Frosh pitcher, while the fielders exhibited the results of thorough coaching and careful training. The Sophs failed to get a man past first base and the first inning ended with neither side getting any runs.

The three following innings were somewhat different, as far as scores were concerned, for at the end of the fourth inning the score was five to one in favor of the jubilant Freshmen. Mr. Nichols, the manager of the Sophomore team was nigh frantic. With tears in his eyes he ordered Bohnsack, the reliable third-base man to warm up and relieve Latimer, who went to left field, while Tripanier shifted from field to third base. Bohnsack experienced some difficulty in finding the exact location of the plate and allowed one run. It was in the fifth inning that Tripanier, apparently forgetting his surroundings mistook his bat for a billiard cue and literally turned the small end toward the ball and much to his own surprise, as well as all the spectators send the sphere past the pitchers box. This feat is considered one of the most remarkable of all "trick plays" in the realms of the baseball world. During the sixth inning Bohnsack "found himself" and pitched an exceedingly clever game but at the end of the seventh was forced to quit pitching because of a sore arm and Foss, the meat cutter from the "Vet" department faced the confident Frosh batters who had by this time made eight runs. The Sophs chalked up one when Duerner made a smashing hit to the outfield, let a man in, while

he was caught out at home. No longer were the over-confident Froshs blessed with the good fortune they had enjoyed hitherto. One at a time seemed hardly fast enough. No sooner did they stop to the plate than they were rapidly either struck out or called out at first. Foss' speed and control was more than Greenside's unsophisticated disciples could unfathom and the Freshmen made no more runs. If Foss would have gone into the pitchers' box at the beginning of the game the outcome would, without a doubt, have been different. The Sophs were successful in bringing in two more runs but were unable to overcome the large lead gained by the Froshs during the earlier part of the game. The game ended with the score of eight to four in favor of the Freshmen. Much credit is due Mr. Nichols and Greenside for the manner in which they handled their respective teams and the latter will have an opportunity to play and display his team next Saturday when they will play the winners of the Junior-Senior game. The lineup of the two teams was as follows:

Freshmen.	Sophomores.
Ahlness	P. Latimer, Bohnsack, Foss.
Hull	C. Trowbridge
McDonald	1st B. Heising
Ray	2nd B. Wilson
Bridgford	S. S. Foss, Tripanier
Else	3rd Base Bohnsack
Odikirk	L. F. Latimer
McGraw	C. F. Duerner
Coit	R. F. Benson, Flamer

DISABLED AMERICAN WAR VETERANS GAVE DANCE MAY 7TH

Saturday, May 7th, the Fargo Chapter of the Disabled American Veterans of the World War gave a dance at Stone's Hall. The dance was given to assist in sending delegates to the first National Convention which is to be held in Detroit, Michigan, June 27th to 30th.

This dance was the first attempt of a social event by the Fargo Chapter gives due credit to the students of the Agricultural College for their loyal patronage. The Chapter is closely affiliated with college activities due to the large number of members who are attending the Agricultural College.

The Fargo Chapter announces that they will give another dance about the first week in June. The exact date will be announced later. The revenue of the next dance will be for the same purpose, to help send delegates to Detroit.

The Federal Board for Vocational Education has announced that the men who attend the First National Convention will be granted a vacation on full pay for the time required to attend the convention. This vacation will not be deducted or interfere in any way with the regular summer vacation to which the men may be entitled.

The delegates who represent the Chapter will be elected at the next regular meeting Tuesday, May 24th. The Chapter will send as many delegates as is financially possible and will pay the full necessary expense of each delegate it sends. This, however, does not prevent any member attending as a visitor. Visitors will also receive the benefit of the reduced railroad fares. Any disabled man is welcome to attend this great convention, the greatest of its kind ever held in the history of the world.

Social Athlete: "Hasn't my dancing improved?"

Debutante: "Wonderfully! it has everything skinned, including my ankles."—V. R.

"This job is a snap," said hubby, as he fastened his wife's gown up the back."

Baseball Team Leaves On Extended Trip

Varsity To Oppose Nines In Three States

Coach Borleske and his squad series. They will next meet St. Olaf and Carleton college at Northfield, Minnesota. Captain Jenson, Kraemer, and Van Arnum represent a trio of pitchers that will keep the best of them guessing as to just where and when to strike. Borderud behind the bat, with his almost superhuman whip from stealing bases. Johnson, at first can be depended upon to stop anything that is reachable while Butte at second uses his speed to a good advantage in catching the slow runners napping.

Benchoof at shortstop likes "hot ones" and Gass at third keeps them hugging the bag at all times. — Trumbull, Steward, and Bagrud in the out field would make a race horse think he was standing still if he could see these boys move when a high one is knocked out. Our team has not been defeated yet this year and we only hope that they will return with as good a record as they started. At the end of this trip they will be a seasoned ball club and any shortcomings, if any, will be shown up.

Coach Borleske and his squad series. They will next meet St. Olaf and Carleton college at Northfield, Minnesota.

Coach Borleske and his squad series. They will next meet St. Olaf and Carleton college at Northfield, Minnesota.

Coach Borleske and his squad series. They will next meet St. Olaf and Carleton college at Northfield, Minnesota.

DAVID HARUM IN ENDERLIN

Mr. Arvold left last Tuesday morning with the cast of "David Harum" for Enderlin, where they will play under the auspices of the Federation of Women's Clubs. The play was very well received at the various towns at which they played on their last trip and it will without doubt, also please the people of Enderlin.

BETAS ENTERTAIN

The members of the Delta Phi Beta Sorority were hostesses at a tea last Saturday afternoon in honor of the High School girls and teachers participating in the May Festival. The Ceres Hall Parlors, where the tea was served, were decorated with plum blossoms and flowering almonds. Tea was poured by Mrs. A. H. Parrot and the Misses Marjorie Lieberg and Pearl Dinan. About eighty guests were present, including alumnae members Miss Alpha Stine and Miss Bertha Everhart.

FORMER STUDENT ORGANIZATION REVEALS OBJECTS OF FORMING.

Some time our paper had an editorial asking the former student organization the reasons for its formation and also who the committee in charge was. Since then the committee in charge has seen fit to call the editor in conference and set forth their views.

The committee in charge consists of Miss Ethel Walker, assitant secretary of the Fargo Commercial Club, Messrs Elmer May, secretary of the Cornice and Ornament Co., and George C. Mayon of the Extension Department.

The committee in charge has stated that the object of forming is to include a greater number of former students than the Alumni Association and have representation in all sections of the state. The purpose is to obtain greater appreciation, an increased attendance, gain favorable opinion toward the institution throughout the state, to work for better athletic teams, and to have a

PAGEANT POSTPONED

The pageant, the "Master Builder", which was to have been given on the campus last Saturday evening, was postponed on account of the cold weather, and will be given either Thursday or Friday evening of this week, providing the weather permits.

COMING EVENTS.

- May 21—Junior-Senior High School Banquet and Party.
- May 26—Peg O' My Heart, Edwin Booth Dramatic Club Play.
- May 27—Track Meet; Carleton vs Agr. College.
- June 9-10—High School Commencement.
- June 8-10—Examinations.
- June 11-14—College Commencement.

"They say Jack studied abroad for two years."

"He must have learned a lot about be-in that time."

Cline: "What is the difference between an elephant and a mosquito?"

Oderkirk: "What is the difference?"

Cline: "The shape."

real homecoming day. They will keep in touch at all times with former students and our Alumni so that they are continually informed of the needs of the college. With such an organization they are in hopes that within a short time our college will become the leading one in the state.

At the present time the committee in charge has sent out a list of names to the former students in the state asking that they vote for three of these and the three receiving the largest number of votes will form a temporary committee whose duty will be to elect a permanent committee.

With the objects of this organization fully before the student body, we should all get behind the organization and boost for its growth since there can now be no doubt in anyones mind that they are working not for any individual or organization but for their and our Alma Mater.

FARGO HIGH WINNER IN FESTIVAL TRACK MEET

Despite the fact that adverse weather conditions prevailed last Saturday during the finals of the May Festival track meet some excellent marks were made. Fargo High made a clean sweep, taking the meet with a total of 7½ points, besides winning the half-mile relay with a safe margin.

Jamestown took second place, scoring 35 points with Valley City third, 14½, Wahpeton fourth, 11; Bismarck, fifth, 10; and Moorhead, sixth, 2 points. Casselton and the Agricultural College preps. failed to score in any events.

EDWIN BOOTH TO PRESENT "PEG O' MY HEART"

The Edwin Booth Dramatic club has picked as its spring term production the comedy, "Peg O' My Heart, written by J. Hartley Manner. The play is divided into three acts and normally requires about two hours for its performance. It has been staged most successfully in United States, Canada, and England but has not been available to amateurs until this year.

The cast of characters is as follows:

- Mrs. Chichester ----- Amy Euren
- Footman ----- Ogden Brauer
- Ethel, Mrs. Chichester's daughter--
- Katherine Blake
- Alaric, Mrs. Chichester's son -----
- Henry Nichols
- Christian Brent ----- Frank Laeky
- Peg ----- Edith Challey
- Montgomery, Hawkes solicitor -----
- E. Rowan
- Maid ----- Ethel McGuigan
- Jerry ----- Hubert Wolfe

CHEMISTRY FOR THE SIMPLE-MINDED.

Solutionville, State of Dissociation, May 2, 1921.—Mr. and Mrs. Molecule of this city have just received word from their daughter, Mrs. Atom, of the birth to the Atoms of twin Ions, of equal weight and volume, one named Negative and the other Positive. Their father claims that they will be heavy charges when older. Mrs. Molecule was quite broken up over the matter, as she fears that her grandions will paint the litmus re when they grow up. Both of the twins are already in love, little Positive, being attracted to Miss Ann Ode, and the young Negative to Miss "Kath" Ode. Both young ladies are Poles. Mrs. Atom considers this base action. Although she is bringing great pressure to bear against Mr. Atom, he is maintaining his equilibrium. The twins are neutral.

ARCHITECTURAL EXHIBIT ATTRACTS MUCH ATTENTION.

A great deal of interest was shown by those attending the private showing of the architectural exhibit from the Massachusetts Institute of Technology, which was held in the architectural drafting rooms, Tuesday evening, May 10.

The exhibit consists of architectural drawings, work of the students of the M. I. T. and was brought here by Professor Stanley A. Smith as one of the attractions of the May Festival.

Mrs. Stanley Smith, with the assistance of Mrs. Archer Norcross, Miss Pauline Blake and Miss Luella Johnson served refreshments, while the Glacier Park Orchestra furnished music during the evening.

The exhibit is now open to the public and may be seen at any time during the school hours in the architectural drafting rooms on the third floor of the engineering building.

COLLEGE SPIRIT.

Yes, we have exhibited small amount of it this year and it would be similar to only half-completing any task if we should fail to continue the good work. Let us have a 100 per cent attendance at the track meet next week and show the Carlton Athletics, that we have a live wide-awake student body. Furthermore, it is about the only means we have of expressing our appreciation to our fellows who have sacrificed time and effort that our Alma Mater should be represented in this branch of Athletics. Are you with us?

IS IT POSSIBLE?

Within a short time now the college year will close. Many of us no doubt will be happy others will leave with a little regret. In a few short months we will again be returning to college. Always when we return we will miss familiar faces but at the same time new faces will be seen on the campus taking their place. How many Freshmen will there be next fall is something we should think about this summer. In our home towns no doubt many are finishing high school this year and at least 50% of them will be going to college somewhere next fall.

Where they will go may depend upon each one of us when he returns home this spring. Suppose each student were to influence at least one high school graduate to come to the A. C. next fall our attendance would be doubled. Can we do it? It is now time to begin the campaign of bringing a new student to our college. Let's all pull for the biggest Freshmen class the A. C. has ever had next fall.

EXPERTS VISIT CITY DUMP.

Last Sunday afternoon a delegation of experts from the College took a journey out to the city dump west of town in the interest of science. The delegation was composed of an engineer, a chemist, and an agriculturist, so the situation was investigated from several important angles. Although the investigation was only a preliminary one and more or less hastily made, the experts have given out a little advance information regarding the present situation and possible future developments.

The Agriculturist stated yesterday that although he did not have his putrefactometer with him, he could detect the presence of decaying animal and vegetable parasitic fungi would continue uninterruptedly and indefinitely, as long as garbage and refuse should be continued

to be deposited in the vicinity. He also noted the super-abundance of Epemys rattus, Mus musculus, Musca comestica, and other species of Deptera genuina.

The engineer reports that there is available a large supply of latent energy in the form of ashes, wood, potatoes, and empty beer bottles, which could be easily be utilized if the proper machinery was provided for the purpose. He noted some new developments in machiney, and found several choice gears and wheels which he has donated to the collection of apparatus used in the physics laboratory.

The chemist of the party states in his report that he ascertained the presence of phenylalanyl-glycylglycine, p-oxyphenyl-a-amonopropionic acid, oxybenzylmethylenglycol anhydride, and tryptophane in the residuum on the surface of the ground. He says, further, that considerable saponification of some of the higher glycerides had taken place accompanied by the liberation several of the more important monobasic carboxylic acids of the alipratic series. Numerous aromatic compounds were also noted, and several double and triple bonds were seen, which had been broken.

All three of the scientists agree that the city dump presents an important economic problem to the future generations of Fargo.

A FAMILY MIX-UP.

A man committed suicide because of a melancholy conviction that he was his own grandfather. Here is the note he left behind:

I married a widow with a grown-up daughter. My father visited our house, very often, fell in love with my step-daughter and married her; so my father became my son-in-law and my step-mother my mother, because she was my father's wife.

After my wife had a son he was my father's brother-in-law, and my uncle, for he was the brother of my step-mother. My father's wife, that is, my step-daughter also had a son. He was, of course, my brother—and at the same time my grandchild, for he was the son of my daughter.

My wife was my grandmother because she was my mother's mother. I was my wife's husband and grandchild at the same time, as the husband of one's grandmother is his grandfather, I was my own grandfather.

608 Bond, A. R.
 B64 Inventions of the great war, 1920.

With the submarine, the airplane and the machine-gun to America's credit, the writer gives interesting descriptions and narratives of inventions of which he says the tank was the greatest.

820.9 Cambridge history of Eng-C14 English Literature, 1907-1916. 12v. A thorough survey of the development of the English language and literature from the beginning through the Victorian age. 921 Carnegie, Andrew. W34c James Watt, 1905.

To the account of the achievements and life of the inventor, the author has added many personal comments on the conduct of business.

323.443 Chafee, Zachariah. C34 Freedom of speech, 1920.

The object of the book is to inquire into the proper limitations upon freedom of speech by way of ascertaining the nature and scope of the policy which finds expression in

the first amendment to the U. S. constitution and then to determine the place of that policy in the conduct of war.

Parkinson: "That butcher is an awkward fellow."

Hulett: "res, I notice his hands are always in his weigh."

Northwestern University

THE JOSEPH MEDILL SCHOOL OF JOURNALISM.

—ANNOUNCEMENT—

Northwestern University will offer beginning Monday, September 19th, 1921, a two year course, on the Evanston Campus, in the Joseph Medill School of Journalism, leading to the degree Bachelor of Science in Journalism.

The School of Journalism enjoys the hearty co-operation of the various Chicago newspapers and periodicals, and provides definite practical and professional training for those who wish to enter this field of activity.

Candidates for admission to the School of Journalism must have completed two years of work in a college, professional or scientific school of good standing.

For bulletin describing the courses in the School of Journalism, address

News of the Campus

S. K. "Dick" Bjornson, a Gamma Rho alumnus, was a visitor on the campus last Monday. Dick is now in the insurance business and makes his home at Chicago. A business trip to the western part of Canada brought him up this way and he decided to stop off here and look the old school over again.

H. E. Kjolrie spent Saturday and Sunday at the Lakes at Pelican Rapids, Minn.

George Hanson was a visitor on the campus last Friday and Saturday.

The fraternal officers of the Alpha Kappa Phi Fraternity for the year 1921-22 were elected last Wednesday evening at the regular business meeting. The election resulted in the election of the following men: President, Harry E. Hoffman; Grand Judge, William B. Gass; Treasurer, Earl J. Heising; Secretary, Ralph W. Irick.

Carl C. Winberg who is now engaged in the contracting business at Hillsboro, North Dakota, spent Sunday at the Kappa Phi house.

George C. Mayoué is out of town on business and his "line" is certainly missed around the house.

The regular weekly meeting of the Delta Phi Betas was held at the home of Miss Hedvig Sand last week.

Lloyd W. "Spike" Engle, a Theta Chi Alumnus, drove down Sunday to see old friends again. He says he is lengthening his chain of stores, now how about it, Spike?

Reginal Colley is now able to be about on two legs again.

Andrew Erickson, now employed at Grand Forks with the Dakota Pharmacy, spent the week end with the boys at the chapter house.

MEET.
Stuart H. Kelly of Fargo has returned from the farm, but still retains some of his former traits. He seems quite possible that he may obtain his old standard by crushing up a little on problems of culture.

Vida Colwell and Anna Vengli spent the week end at their respective homes in Gardner, N. D.

Ruth Briscoe is a new Ceres Hallite. She is tasting the sweets of dormitory life for a few weeks while her mother is on a visit with relatives in the east.

Olga Grueh and Rea Davis spent Saturday and Sunday at their homes in Buxton, N. D. Ella Radcliffe also found it no longer possible to remain away from her parental roof, hence retired to Leonard to enjoy the Sabbath calm. Gladys Lyster, succumbed to an attack of homesickness and betook herself to Buffalo, N. D., last Friday evening, but returned in time to resume her scholastic duties Monday.

There will be an all-college dance following the Junior-Senior High School banquet Saturday evening in the college armory.

Maxine Salisbury spent the week end at Lake Cormorant—see Dan for particulars.

'Tis truly said we know not how truly, that Ted missed making his daily call in Ceres last Thursday. Accidents will happen to the best of us.

The past few evenings have been more conducive to studying than to seeing the "mooshine" than was last week, and the instructors report that an unusually large number of the "night hawks" come to class with their lessons fully prepared.

It has been rumored that Ceres Hall has been overrun with high school girls, callers, and mice the past week—all three interesting and entertaining but only the first two were welcome.

Cat-owners, Beware! The Zoolgy class needs about thirty cats in the near future, to be secured by the students, so keep that pet cat locked in the basement.

The summer term offers a number of extremely interesting courses, both practical and theoretical.

The annual election of the Theta Chi Fraternity was held Wednesday evening, May fourth, resulting in the election of the following: President, Matthew E. Tindall; Vice President, James I. Ballard; Secretary, E. Vernon Ladd; Treasurer, Leonard R. Severson.

George Dixon of Grand Forks was elected a delegate of the Kiwanis Club to the national convention at Cleveland, Ohio.

The Delta Phi Beta Sorority was entertained Monday evening, April 24th, at the home of Mrs. A. A. Lorschough, 9th street north. The regular business meeting was followed by a social hour and refreshments.

Miss Marjorie Lieberg's home was the place of meeting for the Betas, Monday evening the second of May.

It certainly looks good to see so many out on the tennis courts. Playing tennis is one form of exercise that is hard to duplicate—to say nothing of the fun.

"Jens" and "Bordy" are showing better form than ever this spring. Some day they might be playing together in the "Big Leagues".

After watching our base ball squad practice it is easily seen why our upstate friends failed to produce a baseball team. They were evidently following the theory of, "If I can't be it I won't play."

The Alpha Kappa Phi Fraternity announces the pledging of Henry Nichols.

It is the unofficial report that the Excelsior team composed of Jimmy Ballard and Harold Kelly won the seventeenth Annual horseshoe Tournament on the grounds at the site of the Theta Chi house last week. No games are scheduled for this week on account of the weather.

The Y. M. C. A. have just completed the building of a sidewalk leading from Thirteenth street to the Y. W. entrance on Twelfth Avenue.

Profs. Reynolds and Nelson are now training for their annual bicycle tour.

Last Sunday the inhabitants of the town of Page were blessed by the appearance of two of our baseball stars. Bill Benchoff and Earl Butte played with Page against the fast Hatton aggregation.

Borderud and Gass were in action Sunday playing with Moorhead against Lisbon.

The inclement weather that prevailed last week prevented the Lyceum of Engineers from staging their "Auto Show".

Hear Ye! We have in our midst a secret organization setting forth the loftiest of ideals. But the name of this organization—Husa! another secret. Let every student continue to conduct himself so that the activities of this club may be as abbreviated as its name.

COLLEGIAN CLOTHES FOR COLLEGE MEN

The pick of our New Spring Collegian Models are now here. Learn the new styles. Prices are lower than for several years past.
