

THE WEEKLY SPECTRUM

EDITED AND CONTROLLED BY THE STUDENTS OF THE NORTH DAKOTA AGRICULTURAL COLLEGE.

VOL. XXXIII. NO. 14.

NORTH DAKOTA AGRICULTURAL COLLEGE, TUESDAY, FEB. 3, 1920

PRICE 5 CENTS

LYCEUM OF ENGINEERS REORGANIZED

That the engineers of the institution are coming to life again, is evidenced by their meeting in a body and reorganizing the old Lyceum of Engineers, on last Thursday, the twenty-ninth of January. This society ranks among the oldest and most firmly established organizations on the campus and it was only due to the fact that the entire active membership was in the service, that the Lyceum became so nearly extinct. The annual electric show staged by this organization in former years, was an undertaking uneclipsed by any other student works.

Two of the former members presided at this first meeting, which took place last week, W. Underwood and Wm. Zimmerman. They instructed the new men in the deeper significance of the organization and informed them of the old customs and traditions upon which the society had been based, and thru which it had attained a large portion of its prestige.

The alumni members of the old Lyceum are ready to lend a hearty support to the new group of men as was shown by the attendance of Park Tarbell and Ernest Johnson, two of the prominent former members. Word was also sent to the boys from city engineer, Robert Jacobson, saying that he would be only too glad to aid the new Lyceum, in any way in his power.

This society numbers among its alumni many of the most successful men that the school has sent out among these being: Robert Pearson, Walter Bender, Elmer Dynes, the Boyd brothers, Edwin Hooper, Melvin McGuigan, Lloyd Kelly, Roy Dunbar, Morse Dial and many others. The honorary members among the faculty are: Dean E. S. Keene, Prof. R. M. Dolve, Prof. R. H. Slocum, and Prof. M. B. Erickson, all of the Engineering Department.

M. H. BICKHAM OF CHICAGO HERE LAST WEEK

M. H. Bickham, formerly General Secretary of the Y. M. C. A. at Chicago University; during the first part of the war Camp Secretary at Great Lakes Naval Training Station; later with the Expeditionary Forces in France, was a visitor at the Agricultural College, Monday January 26. He spoke to the students at Ceres Hall at the noon hour on "The Price of Democracy." At six-thirty in the evening he was the principal speaker at a dinner in the Association Room

of the "Y" Building. Sixty men were present, including all the Promotion Force and as guests Prof. I. W. Smith and State Secretary Blaine Curtiss. The dinner was managed by Mrs. Fuller, and was a great success.

Mr. Bickham told of the organization of the Bible Study work at the Great Lakes, where the co-operation of officers was secured, resulting in thousands of men taking up the regular study of the Bible under the best leaders in Chicago, and from surrounding cities.

CHARLES RANN KENNEDY TO BE WITH US

Of the many interesting personalities scheduled to appear on the public programs at the North Dakota Agricultural College during the month of February, nineteen hundred and twenty, none will create a more favorable impression with the general public than Charles Rann Kennedy, his wife, Edith Wynne Matthison and Lorado Taft, the noted American sculptor. From the various comments heard, both attractions will be greeted with large audiences.

Charles Rann Kennedy, the author of "The Servant in the House," and his wife, Edith Wynne Matthison, will make their appearance in the college armory on Monday evening, February ninth. Both were born in England and possess enviable records in their chosen fields. Mr. Kennedy, actor, press agent, writer of stories, articles, poems and plays is best known by his dramas, The Servant in the House, The Winterfeast, The Idol Breaker, The Rib of the Man, The Army With the Banners, and The Fool From the Hills. His wife, Edith Wynne Matthison, created the title role in Everyman, played the part of Portia in The Merchant of Venice with the late Henry Irving and Queen Katherine in Henry the Eighth with Sir Herbert Beerbohm Tree. They will present Mr. Kennedy's new play, "The Fool From the Hills," said to be the equal of The Servant in the House.

All students of the North Dakota Agricultural College will be admitted upon presentation of their registration cards. For the general public admission to each of the above numbers will be fifty cents. Reserved seats may be secured at Bout & Porterfield's drug store upon the extra payment of twenty-five cents for each number. The doors will be open at seven-thirty o'clock. The programs begin promptly at fifteen minutes past eight.

1050 DEAD ONES

RALLY HELD LAST FRIDAY

Our eleven hundred odd students were ably represented by a scant fifty at a rally held last Friday noon in the armory. In other words we are in need of a trifle over ten hundred and fifty neat little crepe roses to decorate that number of our student body, with. Some bunch, you 1,000 rots and decays—if you were eggs the college would be prosecuted for keeping you, since you are students we have to own you—for the good of our clean wholesome atmosphere he it hoped that some kind act of Providence cast you hence before the warm sun of spring gets to you. It helped some when about half of your number crawled out of their hearses for the evening performance but the facts remains that as a whole you are dead—let's have a real reincarnation of the old Aggie spirit at the next Rally.

A STATE COLLEGE AUDITORIUM

We have our new Science Building. Next summer we anticipate the construction of a new Agricultural building. We have an excellent gathering place for the young men of the institution in the new Y. M. C. A. building just completed. Now we must turn our attention to the facilities for keeping our students in the proper physical condition to take the utmost advantage of the educational possibilities of our school. It is evident that we cannot hope to give proper physical education to our rapidly increasing student body, with the equipment which we now possess.

Our armory is not properly equipped to take the place of an auditorium and general meeting place for the entire student body, such as an institution of this size should maintain.

Let us start talking up a new all-college gymnasium and auditorium—all we have now are some pretty fair acoustic properties. Let's have something real and tangible to go with these.

PROF. C. E. MILLER TO ADDRESS POLYTECH.

The Polytechnic Society is to be addressed by Prof. C. E. Miller of this institution upon the subject of "Farm Management," on which Prof. Miller is a recognized authority. This lecture is to be delivered on next Wednesday, the fourth of February, and is one of interest to all, as may be seen by the title.

MILITARY DEPARTMENT REORGANIZED

Monday, January twenty-sixth, found the Department of Military Training, under the direction of Major F. B. Carrithers, completely organized and ready for the intensive work necessary to perfect the battalion before it enters the competition drill, to be held the latter part of March and the final inspection, which will take place a month or so thereafter. In spite of the entrance of a number of cadets for the winter term; the loss of several old men, who did not return; and the heavy list of absences due to the epidemics of sickness, the progress of the battalion, under the able and energetic leadership of Assistant Instructor C. H. Pearson, has been unusually satisfactory. Good material for officering the five companies has been found among the older cadets and ex-service men, now in school. Competition for the various positions is very keen, due to this wealth of material. The list of officers is as follows:

Battalion Officers

Major, C. H. Pearson. Captain Attached, M. E. Tindall; First Lieutenant and Adjutant, Raymond Wiper; First Lieutenant and Quartermaster, Leonard Severtson.

Company Officers

Co. A.—Captain, Hugh Trowbridge; Senior First Lieutenant, George Bohlig; Junior First Lieutenant, Leigh Thornton; Junior Second Lieutenant, Philip Fitzgerald.

Co. B.—Captain, Ernest Fjelstad; Senior First Lieutenant, John Johnson; Junior First Lieutenant, George Bohnsack; Junior Second Lieutenant, George Madsven.

Co. C.—Captain, Stuart Keiley; First Lieutenant, Clarence Peterson; Second Lieutenant, Joseph Messer.

Co. D.—Captain, John McLean; First Lieutenant, Neil Tierney; Second Lieutenant, Walter Bohnsack.

Co. E.—Captain, Thordar Thordarson; First Lieutenant, Lloyd Foster; Second Lieutenant, James McCormick.

Official: M. E. Tindall, Adjutant.
By order of F. B. Carrithers,
Capt. Inf., U. S. A.

The following appointment and assignment of non-commissioned officers has been made effective this date:

Battalion Sergeant Major, Arvold Chelness; Sergeant and Battalion Clerk, Percy Eddy; 1st Sergeant, Co. A., Paul Lien; 1st Sergeant Co. B., Percy Judd; 1st Sergeant, Co. C., Calvin Christoph; 1st Sergeant, Co.

A heavy practice schedule has already been established and the entire cast is hard at work. It has not been definitely decided on what date the play is to be given; this information will be printed in next week's Spectrum.

MILITARY DEPARTMENT REORGANIZED

(Continued from Page 1)

D., John Clark; 1st Sergeant, Co. E., J. Starlingson.

By order of C. H. Pearson, Student Major.

Official: By M. E. Tindall, Capt. Attached, Acting Adjutant.

Rigid enforcement of the attendance rules is now planned and the demerit system is now in force again. Cases of delinquency or neglect of duty on the parts of cadets or officers will be placed before a military court conducted in accordance with the Manual of Courtmartial of the U. S. Army. The establishment of this court will tend not only to improve the morale of the cadet corps, but also to train the officers in the workings of a military court. Captain Ernest O. Fjelstad has been appointed Judge-Advocate. All decisions of the court will be subject to final approval by the Commandant, Major Carrithers.

The institution of this system marks a great stride in the history of the advancement and betterment of the cadet corps at this school.

North Dakota Agricultural College

For Completeness of Equipment and Facilities for Instruction is Unsurpassed in the Northwest.

THE COLLEGE DEPARTMENT OFFERS

Pharmaceutical Chemistry — Civil Engineering — Mechanical Engineering — Agriculture — Chemistry — General Science — Biology — Home Economics — Education — Veterinary Medicine and Surgery—Architecture — Architectural Engineering — Chemical Engineering.

These courses are available to those who have completed the equivalent of a High School training. For those who have not had such training

The AGRICULTURAL and MANUAL TRAINING HIGH SCHOOL OFFERS

Complete Secondary Courses in Agriculture—Mechanic Arts—General Science—Rural Teachers.

SPECIAL COURSES

Business Training, Draftsmen and Builders, Farm Husbandry, Homemakers, Pharmacy, Power Machinery. THIS COLLEGE offers to the young people of this state an education which is thoroughly in line with modern thought and demands. It spends no time on dead languages or such subjects as are of little practical value. It aims to fit young men and women who can think and investigate for themselves; who can deal with social, agricultural and industrial problems of the day.

THE LABORATORIES are thoroughly equipped, and the instructors are specialists in their lines. Exceptional advantages are offered in chemistry, physics, botany, literature, mathematics and engineering subjects

Graduates from Approved High Schools are admitted to Freshman Class. Board and Room

Y. M. C. A. SENDS FLOWERS

TO SICK MEN OF SCHOOL

The College Y. M. C. A. exhibited the true Christian spirit last week in sending flowers to the various sick students of the school. This is the first time that such a deed of kindness has been performed and the recipients of these lovely gifts feel deeply indebted to the Y for its kindness.

Friday afternoon and evening of Feb. 6, there is to be held the annual Declamatory Contest. The three groups of students to be represented will be the High School, Industrial Course, and Collegiate men

REV. FLINT SPEAKS AT CONVOCATION

"Americanism" was the subject upon which Rev. Flint of Bismarck discoursed at last week's Convocation. Rev. Flint's manner of handling this broad and involved theme, reflected much credit upon his clear thought and his ability to express this thought on subjects of such great importance and interest to the public as this one is. During his talk Rev. Flint brought out many of the ideas and ideals which are not by many people to constitute Americanism, and showed their utter falsity. After hearing this speech at Convocation last Monday no one would attempt to gainsay Rev. Flint's reputation of being one of the foremost pastors of the state.

SOCIETY

MILITARY BALL COMMITTEES ORGANIZED

The Military Ball which is to be held on the evening of March 6, is to be placed under the direction of various committees, composed of cadet officers to be appointed for this purpose by the chief executive of the dance committees. This chief executive was elected at an officer's meeting held last Thursday at 4:30 in the armory immediately after the drill period. Captain Tindall of the Cadet Corp was elected to assume this position for this year. The list of appointments of the various committees is as yet incomplete, so we will be unable to publish this till next week.

THE ACHOOTH MERMAIDS ENTERTAIN

The Achooth sorority entertained its rushees at a swimming party, which took place in the swimming tank of the Masonic Temple last Wednesday afternoon. After enjoy-

ing this novel form of indoor sport for an hour the girls betook themselves to the home of Miss Margaret Chandler, where they finished off the afternoon with a tea party. Eighteen girls were fortunate enough to be able to attend the party.

FRESHMAN DANCE SUCCEUMBS TO THE FLU.

The Freshman dance, which was to have taken place Friday night, the thirtieth of January, and which was an event looked forward to by all, with the anticipation of a good time, had to be cancelled because of the dangers of spreading the diseases prevalent at this time, at such affairs as this. The Freshmen will no doubt substitute some later date for this one they have lost and put on a still better party at that time.

Watch for the announcement of the first concert of the Girls' Glee Club. It will appear in an early issue.

A LETTER TO "DAD"

Iowa City, Iowa.,
Oct. 15, 1919.

My Dear Old Dad: It gives me pain To write this way to you again, For, now, before the month's half over
When, really I should be in clover With a good share of the big donation
You made when I resumed my education,
I find, oh terrible to relate, I've fallen in an awful state.
Which, from motives born of family pride,
I've tried, but tried in vain, to hide, But circumstances make me tell
Oh, Dad, by golly, this is h— It surely is no time to joke
For—there you've guessed it—Dad, I'm broke!
Now, Dad, don't think it of me, pray That I've gone and thrown this cash away,
That I've taken up the cup so jolly Or, spent it on some lively dolly,
I haven't been on any bat, I haven't even bought a hat,
I've just gone round my way pursuing,
While looking for a little schooling, One reason why my cash has parted
Is the big expense of getting started, My room, my grub,—say, on the level,
The living here costs like the d—, And then a bunch of be-spectacled crooks
Have made me buy a lot of books. Dry, musty things—you know the kind
Written they claim to train the mind, And those huge volumes—not worth shucks,
Have nicked me darned near thirty bucks,
Oh, Dad, I'm sure you see the reason

Why it takes so dog-gone much this season,

But I guess it does no good to squall, Old H. C. L. has got us all, So, to reach the point in question,
Allow me to make this one suggestion,

If you will send me twenty-five, I am sure that I can keep alive. At any rate, I'll struggle on
And let you know when that is gone. I hope, Dear Dad, this extra crack,
Won't make you sore nor break your back,
You bet, if ever I get through, I hand this jack all back to you,
And, meantime, keep this in your head,

I love you a lot—
Your small son,
Ed.

The above lines were written by the son of George H. Goodrich, the well-known druggist of Anoka, Minn. Mr. Goodrich takes great pleasure in showing the communication to his friends and has sent it to us in order that, through publication, others who have sons about to enter college may prepare.

LEGION SEXTETTE SCORES ANOTHER HIT

The saxophone quartet from the Cadet Band, composed of Messrs. R. Putnam, Geo. Kadlic, A. Dahlbom, and C. Dragert were again called upon to render their services to the American Legion Saxophone Sextette upon the re-presentation of their minstrel show last Wednesday and Thursday evenings. The sextette, as before, scored another big hit. Ray Putnam, as the lead man and the colored comedian, kept the house in an uproar.

Science Saves Sight

The eyes almost always seem stronger than they really are, and hence no reason is too unimportant to be neglected which points to possible trouble.

When doubt arises, the safest course to pursue is to have the eyes scientifically tested in order to prove whether assistance has become necessary or not.

Our method of testing is the most scientific and accurate yet known, and it has been the means of saving many peoples' eyesight. Avail yourself of our services—now.

DO YOU GO TO CHURCH?

It's not a question of religion—it's a question of education. You cannot afford to overlook the opportunity which attendance of the various church services throughout this or any other city gives you to broaden yourself mentally, even though we do not consider any moral benefit which you might derive from such a course; this holds true regardless of your creed or lack of such, or whether or not you believe in the doctrines and theories of modern Christianity, for the injustice which you are doing yourself, lies in your not taking advantage of the opportunities offered you, to hear men far wiser than you express their ideas on various phases of one of the most general subjects talked on in the present or any other day. From the fact alone, that so many of our greatest men (and the representation of these is as great at this time in our history as it ever was before, contrary to the opinions of many of our ill-informed religion or anti-religion theorists and writers) consider the church a fount of wisdom and inspiration unequalled by any other sociological factor in human affairs, even tho many of these men are not actual church members; one can plainly see that there must be some greater thing in this form of human activity than mere blind, narrow, fanatical worship of an unknown and possibly hypothetical deity—this last concept of modern religion being one which seems to be spreading with alarming rapidity among the minds of the younger generation, this due largely, no doubt, to those holding this mistaken belief having seen only the outward narrower aspects or customs of some of the faiths and not bothering to look deeper into the fundamental principles and true significance of religion.

From the social standpoint we must unqualifiedly admit, that religion stands alone and unrivalled, as the greatest factor in history tending to bring together the human race and to forge and weld all races and peoples together with unbreakable bonds of sympathy and stronger yet the ties of a common purpose, that to save others and themselves from the almost omnipotent, and the never-tiring powers of evil—even though the concept which these people hold of what constitutes these powers of evil and what wrong doing is, may differ radically from your ideas thereof, you must nevertheless, accord their ideas and principles the respect due their antiquity, if they be based on the ideals of some creed, and to the undoubted genius of the founders and advocates of these opinions, and give due credit to them, for the amount of reason and divine wisdom which must have been incorporated in their teachings to have gained them so much prestige throughout the course of human events in the past.

Now then, let us accord this great field of human activity the attention and study which it deserves, and for which so few of us are willing to spare the few minutes in the week that it would be necessary to expend in order to gain a few of the elementary principles of the various faiths; lest we become as warped and biased in our way as those pseudo-christians who do so much to antagonize men against Christianity by their inane, bigoted disregard of

modern ideas and the progress of civilization which has rendered obsolete and impracticable the old iron bound rules, conventions and forms of the church of their fathers, which same forms had held sway with a truly beneficial effect when religion was the one main thing in life and conditions were not as in the present day, when we now find that in the rush and turmoil of modern business, men have no time for the old meaningless forms, but can merely follow out the true basic principles of religion. Do not allow your scorn of these "howling Christians" to turn you away from religion without further consideration and investigation.

It is not well to confine your attendance to churches of one creed alone, but rather broaden your mind to the fullest possible extent, by gathering ideas from them all and then when you feel prepared to make a decision for yourself, either for or against acceptance of the Christian beliefs, or whether or not you even ever come to a stage where you feel that you must make a final decision one way or the other, you will have to admit, after looking back over your experience, that what you have gained from this expenditure of time has repaid you a hundred fold for your pains and you will agree with the sentiment of all our greatest leaders, that regardless of whether or not religion is fundamentally right or wrong, its principles are those essential to consistently successful business and life, and cannot be overlooked or cast aside, knowingly or unknowingly without having lost the greatest of all factors, tending toward success in any undertaking no matter what this activity may be.

LOOK FOR A BRIGHT SIDE OCCASIONALLY

Why always look for a clenched fist, when you feel a pat on the back? Some folks are so accustomed to receiving only abuse at the hands of this cruel world, that when the grip of friendship and goodwill is offered to them, they recoil in horror thinking that the hand is extended to wound or destroy. Other folks apparently gain some sort of a morbid pleasure from imagining that they are being insulted and abused without bothering to have any logical basis for their inane fancies. No man is worthy of the name, if he allows himself to be mistreated by any human factor or agency. You cannot afford to overlook the opportunity which attendance of he is doing it on purpose and should not be ashamed of it and if he is not abusing you, it is unfair on your part not to give him a chance to disillusion you, as he no doubt would wish to do.

ALUMNI

OLAF LINDELOW AT THETA CHI HOUSE.

Olaf Lindelow, of last year's Pharmacy Class, was a visitor at the Theta Chi house the first part of the

week. Ole is at present located in Minot, N. Dak., and has a position as Pharmacist with the Leland Drug Co., of that city. Andrew Erickson, also of last year's Pharmacy is located at Minot and has a position in the Minot Drug Co.

HERBERT GROSS BACK ON CAMPUS

Herbert Gross, Chemistry '15, has been visiting his folks in Fargo and with former classmates on the campus. Herb spent a year with the college as oil chemist after his graduation. Since then he has been manager of a paint and varnish company in the east. Herb is at present contemplating on entering the varnish game for himself. While in school Herb was a member of the

band and orchestra, holding down a chair in the clarinet section while in school and was also an assistant in the Chemistry department.

"RIP" FAIRBANKS COMES BACK WITH THE FLU.

Borne on the wings of Thursday's flu-laden Chinook, came he; straight from the ranks of the Lake Region Soil Satellites. Contrary to the idea one might gather from the title of this article, Rip came not as a victim of the flu germ but rather in company with the sweet little creature, no doubt he has some new pets to take back to the Lake Region with him. Miles only spent three days with us and was then forced to return to the wilds of Stump Lake and resume his Agrarian activities.

LT. WALTER A. ELLIOTT WRITES

A New Year's greeting was received by the Theta Chi Fraternity from Lt. Elliott. The card was written from Cologne, Germany, where the Lieutenant spent his Christmas leave. Our alumnus has decided to stay with the army life permanently, so no doubt his visits to the old school will be rare, but we are always sure of a staunch supporter in this active alumnus.

SJURSETH VISITS A. C.

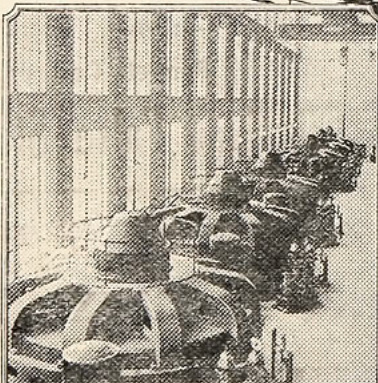

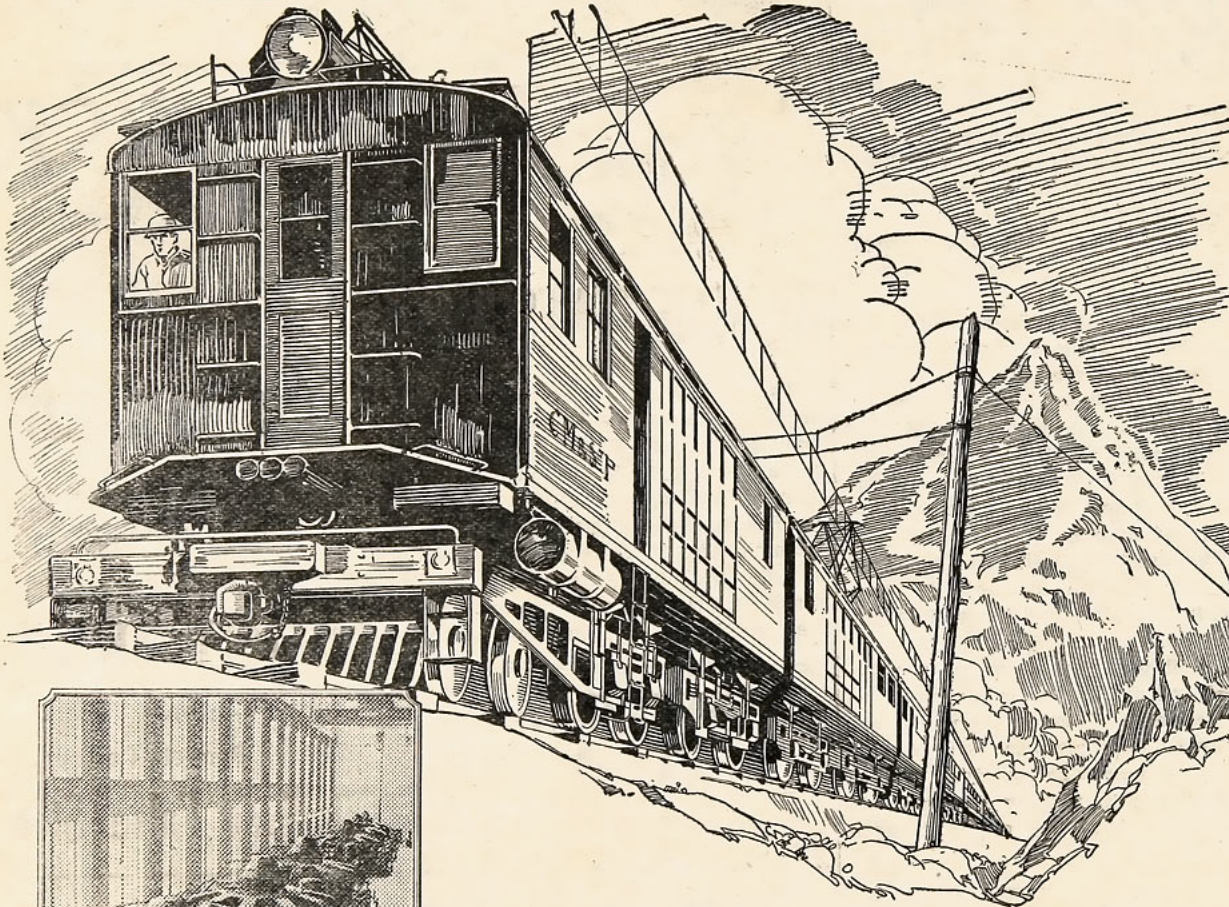

Elmer Sjurseth, a former student in the pharmacy course, was in Fargo for a few days during the last week. "Shorty" was here in '15 and '16 at which time he was famous as one of the shrewdest and ablest of the crack-shooting generals of the day. After spending a short time with his former classmates, Elmer returned to Devils Lake, where he holds the distinction of being the fastest "floor man" in the drug stores of the city.

THEY WANT YOUR SERVICES

During 1918-19 we received official requests from employers in forty-three states and four foreign countries for six thousand five hundred and thirty-four teachers. These were for all sorts of positions from Kindergarten to State University. If you want a position with the most progressive and best paying employers you must use the same service they use when in need of teachers. Experienced and inexperienced teachers needed in all lines of school work. Better write for interesting booklet, "FORWARD OR BACKWARD" today. No enrollment fee necessary when registering with this Association. We recommend only when asked to do so. This is why the best employers ask for our Professional services.

—Paid Matter

Generator room of one of the hydro-electric plants which supply power to the C. M. & St. P.

The Power of Electricity in Transportation

ELECTRICITY has leveled out the Continental Divide. The steam locomotive, marvelous as it is after a century of development, cannot meet all of the present demands for transportation facilities. Its electric rival has proved to be far superior.

On the mountain divisions of the Chicago, Milwaukee & St. Paul Railway—the world's greatest electrification—giant electric locomotives today lift an ever increasing freight tonnage over the mile-high Rockies and also make traveling clean and comfortable. They utilize the abundant energy of distant waterfalls and then, by returning some of this power to the trolley, safely brake the trains on descending grades. And their capabilities are not impaired by excessively cold weather when the steam engine is frozen and helpless.

Electricity is the power which drives the trains of New York City's subway and elevated systems. It operates the locks and tows the ships through the Panama Canal. It propels the Navy's latest super-dreadnaught, the *New Mexico*. Electric mine locomotives have replaced the slow-moving mule and the electric automobile has also come to do an important service. Such achievements were made possible by the extensive research and manufacturing activities of the General Electric Company.

Electricity has become the universal motive power. It has contributed efficiency and comfort to every form of transportation service and in this evolution General Electric apparatus has played a large part—from mighty electric locomotives to the tiny lamp for the automobile.

Some Advantages of Railroad Electrification

- Saving the Nation's coal
- Lower maintenance costs.
- Greater reliability and fewer delays.
- Ability to haul smoothly heavier trains at higher speed.
- Operation of electric locomotives unaffected by extreme cold.
- Ability to brake trains on descending grades by returning power to the trolley.

SPORTING NEWS of NORTH DAKOTA

SCIENCE SCHOOL

DEFEATED

—oo—
Last Saturday night we defeated the Wahpeton Science team in what proved to be a rather spiritless game which was the cause of the close score of 23 to 17. The A. C. team started the first half with some exceptionally fast basket ball and within the first few minutes ran up a score of ten points on the visitors who, shortly after the start of the game, resorted to the long shot method, to try to keep up their end of the score. The Wahpeton men formed a very good defense but were unable to recover the ball when the Aggies had worked it around them to their basket. During the first period of the game the State displayed some very clever team work but their inaccurate shooting kept the score down. The half ended 13 to 11 in favor of the A. C.

The start of the second half saw but little pep from either team for a few minutes, when the Aggies again struck their stride in team work and livened the game up again. Assed, a Science guard, was thrown out of the game for dirty playing and the State speeded up another notch, displaying some team work that netted them several baskets in rapid succession, and cinching the game for them.

The game was characterized by long shooting on the part of the Science School men and exceptionally poor shooting on the part of the Aggies. Schneller starred for the visitors while Movold and Hunter did the stellar work for the State team.

Line-up:—
State College Science School
Movold F Weis
Hunter F Sletten
Kraemer C Schneller
Hayes G Assed
Borderud G Skovolt

Substitutes: Anderson for Assed.
Field goals: Movold 4, Hunter 2, Kraemer 1, Hayes 2, Borderud 1, Weis 1, Sletten 2, Schneller 4.

Fouls: Movold, 0 out of 1; Hunter, 0 out of 1; Hayes 3 out of 6; Schneller, 3 out of 9.
Referee: Pete Tierney.

GIRLS START BASKET BALL PRACTICE

—oo—
Girls' basket ball has been organized and the girls are practicing hard

every evening, with the intention of putting on a snappy series of inter-class games later in the season. The High School girls devote Tuesday and Thursdays from 4:30 on, to getting themselves in condition to take an awful wallop at the Collegiate sense of superiority, when the time comes; while each Monday and Wednesday witnesses a terrific battle between the various groups of College girls.

The girls are strong believers in the best principles of true athletics and have taken for their creed the words of Dr. A. L. Johnson.

I believe my body is my house and should be kept clean as long as it is occupied.

I believe my muscles should be kept working smoothly by regular systematic exercise.

I believe this training develops the will to make the best of myself and to do greater service for others.

I believe daily exercise trains me to feel and to understand the joy of work and of play.

I believe in athletics and in taking my part in school contests, in courage, in fair play, and in good sportsmanship.

I believe I am growing in manhood and am preparing myself to be an active, intelligent, useful citizen, ready to take my part and to give the other man a square deal.

I believe in playing the game to the end with all my mind, strength and courage.

PREPS ALUMNI SHOW CLASS

—oo—
In a game preliminary to the A. C.-Wahpeton Science game Saturday evening the prep alumni defeated the A. C. Preps in a stubborn battle 24-17. The game was conspicuous in lack of team work, especially on the part of the alumni, but this was easily made up for by the fighting spirit of both teams. The Preps played more consistently, working down the floor with considerable ease, but being unable to locate the basket with a great deal of accuracy.

Peterson was the point getter for the Preps, netting four counters, while Rathje and Fitzgerald each garnered two. On the defense Bonesack was a tower of strength with his close guarding.

For the Alumni 'Eagle-eyed' G. Bonesack, playing guard, shot six baskets, most of them from the middle of the floor, while Flamer counted two.

The game was fast and rough, the Preps leading up to the last six or

seven minutes, when the alumni, thru good shooting, crept ahead.

The score and line-up:
Alumni Preps
Ladd F Peter. n
Flamer F Fitzgerald
Mares C Rathje
Latimer G Bonesack
G. Bonesack G Dyeol

Field goals: Ladd 2, Flamer 2, Bonesack 6, Rathje 2, Fitzgerald 2, Peterson 4.

Fouls: Ladd, 4 out of 5; Flamer, 0 out of 1; Rathje, 1; Fitzgerald 0 out of 6.

Referee: Lloyd Hunter.

THE STATE COMES BACK

—oo—
The N. D. A. C. basket ball team defeated the speedy Jamestown College team last Friday night by a score of 20 to 17 in the phenomenal game of the season. At the start of the first half the Aggies held the ball from the visitors for the greater part of the period, by exercising their much superior team work, but they were unable to exercise their advan-

WHO'S Ted ?

tage due to inaccurate shooting. The Jamestown Collegians shook the net six times during the first half by the long distance route; while Borderud rewarded our team work with two pretty ones. Each team free threw one and the half ended 13 to 5 in favor of the Jamestown men, with

SPORTING (continued)

Rathman doing most of the chalking.

The second half started and with it the Aggies. They romped down the field with the little brown sphere and did their duty with it, once, twice, thrice, with beautiful regularity until the J. C. lead faded into the mists of the once-was. Borderud and Hayes held the visitors to a very few shots from this time on, while Hunter, Movold and Kraemer took care of the ball.

The wonderful comeback of the Aggies made this game an outstanding one. The scoring by the state of 15 points while the visitors scored four showed the pace which they were hitting.

Line-up:—

State		J. C.
Movold	F	Rathman
Hunter	F	McLeod
Kraemer	C	Harmon
Borderud	G	Currie
Hayes	G	Thomas

Field goals: Movold 3, Hunter 2, Kraemer 1, Borderud 3, Rathman 4, McLeod 3, Harmon 1.

Free throws: Hayes 2, Thomas 1.

Referee: Pete Tierney.

N. D. U. WINS FROM DULUTH K. C.

—oo—

The North Dakota University won from the Duluth Knights of Columbus last Friday night, with a score of 44-8. The U team outclassed the fast K. C. team all through the game and in every way. Dutch Hauser of the University was the star of the game, making twelve field baskets.

7:30 TIME TO GET UP!

Hear that noise, faculty? That seven-thirty doesn't refer to A. M., it refers to P. M., and it doesn't preface an eight o'clock class, but it refers to something a great deal more important than a mere five hour class at eight o'clock in the morning, where we learn how to find the square root of the number of atoms in a Protozoa; it means that we want to know how many times you book-slingers are going to have to listen to this little gentle reminder (and its gentleness has no tendency to increase with use) before you quit skipping this most important eight o'clock class we have, wherein you learn all about the "up-anatoms" these same being different from most atoms but making a molecular bombardment look like a snail fight. Our team is going now and that is the poorest reason in the world that you should come out to the games, cause if you have the proper spirit, you will be with your team rain or shine, win or lose and that is the kind of spirit we want to see in our faculty. You know you've got this coming—if you hadn't, you'd want a come-back—come on out and do your duty to the school, so we can use this space for something that deserves it.

STATE TO PLAY ST. JOHN'S THIS WEEK.

—oo—

The team left Monday morning to play St. John's College at Collegeville, Minn., on Monday evening; then to circle down to tackle the South Dakota State team Tuesday evening; and on the way home to play the Legion team of Benson, Minn., which is reputed to be a fast bunch.

The High School took the All Stars for a beating last week, topping a score of a dozen points or so with a total of half a hundred. The High School claims that it even ceases to be interesting.

FERRO CHALLENGES

—oo—

We note by the athletic bulletin that Max Robicon challenges the entire world to wrestle for blood, money or glory. he isn't particular which; and on the same board G. F. Ferro states his willingness to uphold the honor of that world, at any time for the same reward, regardless of which of the three it may be.

PHI KAPPA PHI MEETS

—oo—

The members of Phi Kappa Phi will be entertained at the home of Dr. and Mrs. R. E. Weible, Thursday evening, February 5th, in honor of Dr. Gottfried Hult of the University of North Dakota. The meeting will be of unusual interest in that Dr. Hult will read extracts from his own play, Galileo Galilei.

The guest of honor was a former member of the faculty of the college and this scientific society not only feels it is a privilege to meet Dr. Hult again, but that each one will be greatly interested in a drama which develops the incidents in the life of so great a scientist and philosopher as Galileo.

Don't forget that the A. C. has a Girls' Glee Club this year. It is one of the best and peppiest glee clubs we have ever had, in fact.

MUSIC

CADET BAND WORKING ON NEW PROGRAM

The Cadet band has started working on a complete new program. The next program will be more of the classical nature and the public will hear some real music by classical composers.

Work was started last week on the Largo movement from Dvorak's New World Symphony, other classical numbers are several new marches.

MUSICAL CONVOCATION

Convocation next Monday, Feb. 9 will be entirely musical and will be in charge of the music department. The program will consist of numbers by the college orchestra, the treble cleff club and several solo numbers. It is hoped that a large number of the students will attend as the program will be very good.

NEW MEN IN THE BAND

Two new men have joined the ranks of the band in the personal of Cecil Tackaberry, horn; and Martin LaFromboise, tuba.

Tackaberry hails from Minneapolis. Before registering at the A. C. he saw 18 months oversea service with the 144th and the 164th Infantry bands. Tackaberry will help the horn section a great deal. Martin LaFromboise is from Fort Totten, N. D., and is also an ex-service man. He originally left Fargo with Co. B. as a bugler. He was transferred to the 164th Infantry Band (1st N. Dak.) at Camp Mills and played in the Bass section. He saw 18 months of foreign service with that band and after his discharge he made the tour of the state with that band. When the 164th band broke up he joined the Million Dollar Band and was with that organization until he entered school January 1st. LaFromboise is considered one of the best tuba players in the northwest.

SECOND BAND WORKING STRONG

The second band has graduated from the "little yellow" book. Work has started on some of the easier marches and lighter overtures and the boys handle themselves remarkably well. The second band consists of 9 cornets, 5 clarinets, a saxophone, drum, 2 baritones, a tuba, and a horn.

Trombones and horns are in demand, but it is expected that the third band will soon turn out the missing numbers that will complete the instrumentation of the second band.

GIRLS' GLEE CLUB MEETS

A special meeting of the Girls' Glee Club was held at the home of Mrs. H. E. More, which is located at 1422 12th St. South, last Monday evening at seven-thirty. Great enthusiasm was shown at this meeting. A quartet, trio, and several soloists were selected to perform at the Glee Club concert, to be given soon. The selections of music were of a nature that will appeal to any audience.

Anyone wishing to try out for the club may do so at Mrs. More's office in Music Hall. Glee Club practices are held Tuesdays and Thursdays at 4:30 in the Ceres Hall parlors.

ALLAN MCGANN VISITS THETA CHI HOUSE.

Allan McGann, who graduated from the Pharmacy course two years ago, left his drug business in Long Prairie, Minn., for a few days, while he made a short visit to see his old gang. Mac has combed out considerable hair since he last decorated the campus, but he hasn't lost any of the old Aggie spirit and stoutly claims that he never will.

FOREIGN STUDENTS DIRECTORY

This directory is published by the Committee on Friendly Relations Among Foreign Students, 347 Madison Avenue, New York City, and contains the names of over 6,000 students from eighty nations; the summary indicates the number of institutions attended, classified by states. Price twenty-five cents. For information inquire at the Y. M. C. A. office.

NORTH DAKOTA A. C. SHEEP WIN

One of the Oxford ewes of the North Dakota Agricultural College flock has been a winner at a number of fairs in 1919 in the aged ewe class. The winnings include first and championship at the Illinois, Missouri, Iowa, Minnesota and North Dakota fairs. A Hampshire ewe belonging to the A. C. won first and championship in the yearling ewe class at the same fairs. The A. C. also has a ewe lamb that stood first at the Missouri, Illinois, Minnesota and Wisconsin fairs. In addition to these the A. C. has in its flock many other fine sheep of the Oxford and Hampshire breeds and excellent specimens of the Shropshire and South Downs. The winnings at the fairs show that North Dakota has some of the best sheep of any educational institution. These sheep are used in the judging pavilion in giving the students training in judging sheep as to type and breed.—Farm Information Service, North Dakota Agricultural College.
