

THE WEEKLY SPECTRUM

EDITED AND CONTROLLED BY THE STUDENTS OF THE NORTH DAKOTA AGRICULTURAL COLLEGE.

VOL. XXXIII.

NO. 12

NORTH DAKOTA AGRICULTURAL COLLEGE, TUESDAY JAN. 20, 1920

PRICE 5 CENTS

LIVE YOUR SCHOOL LIFE RIGHT

Messages carried to students by Dr. Ladd at convocation Monday, Jan. 12.

A thorough education for a young man and woman must be complete in three separate and distinct but inseparably correlated branches, namely, mentally, physically, and morally. Any one of these without the support and foundation furnished by the other is robbed of half its value because the human machine or mind so trained and educated is not broad enough to function with anywhere near its maximum efficiency.

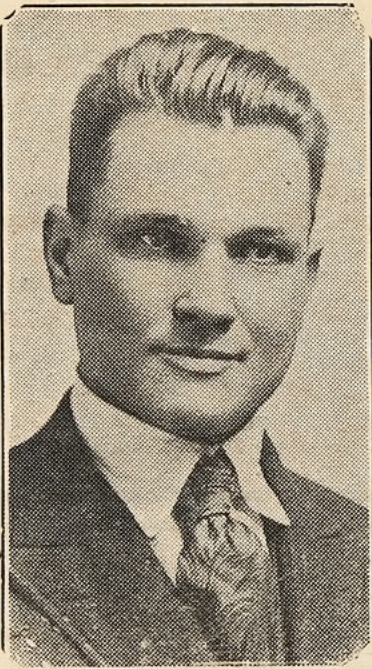

The above is the gist of the eloquently but infinitely effective address delivered to the student body at the convention on last Monday by the President of the institution. Pres. Ladd emphasized his points by showing the loss in time and efficiency which so many of our modern young men suffer due to afflictions of harmful habits and various excesses. This loss being not only mental efficiency but in the physical capacity of the individual to perform the tasks either mentally or physically that otherwise he would be able to perform with the greatest of ease and facility.

One who is morally weak is hopelessly crippled mentally due to the narrowing of his mind capacity as well as the actual direct harm done to him because of his lack of proper moral education. No man can hope to maintain a standard of high mental efficiency without being in good physical condition as a diseased body can no more hope to support a healthy mind than a rusted wheat plant can produce the best grade of wheat.

Thus we may see as Doctor Ladd brought out so forcibly in his helpful talk of a week ago, that one must put to practice the best educational principles upon each of these three main factors of his scholarly existence in order to make the most out of himself and his life which is in reality every one's duty to himself and his fellowmen.

JAMESTOWN TAKES FIRST GAME OF SEASON

In game with the Valley City Normal played Saturday night the tenth on the Jamestown floor the Jamestown lads took their opponents for a score of 17 to 8. The game was characterized by the long shots and individual playing which were faults indulged in by both teams.

Coach Stanley Borleske

BORLESKE'S BASKETBALL PROSPECT

Coach Borleske's aggregation of basketball material returning to school after the Christmas holidays has now settled down to the long hard gruel of the hardening training of the earlier part of the season. During this past two weeks they have taken up the elementary principles of the game perfecting their passing and shooting and conditioning themselves by incessant practice.

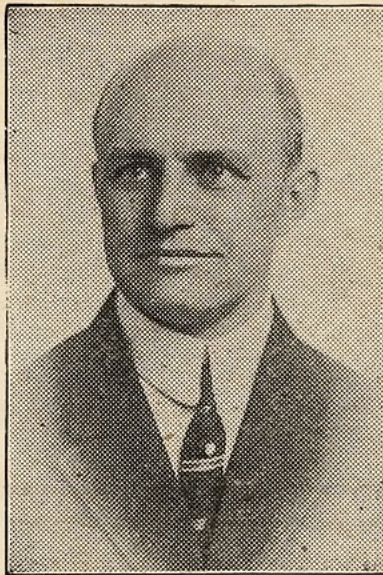

The prospects for another championship team look very sanguine with men of the ability characterizing Captain Reis, Peterson, Movold, Hayes, Murphy, Hunter, Kraemer, Flim, Sivertson, Borderud, Trowbridge and Hildre. The school is extremely fortunate in having three veterans back who were on our championship team of 1917 and also among the squad we find three former captains, Movold, Hayes and Reis.

The schedule for our team is complete with the exception of three open dates which Coach Borleske is keeping open hoping that some dark horse combination of phenoms will come forward to claim the dates.

Our Schedule

- Jan. 10—Moorhead Normal at A. C.
- Jan. 14—Y. M. C. A. at A. C.
- Jan. 17—Jamestown College at Jamestown.
- Jan. 21—Moorhead Normal at Moorhead.
- Jan. 23—Y. M. C. A. at Y. M. C. A.

"Dad" Elliot

PEACE TREATY AND LEAGUE OF NATION

On Monday, January 12, the student body at convocation was requested as far as it cared to do so to express itself with regard to its attitude on the Peace Treaty and the formation of the League of Nations. Two hundred and eighty-six students voted as follows:

For adoption of Peace Treaty and League of Nations as it now stands Adoption with reservations..... 185
For rejection..... 34

The faculty had previously voted as follows:

For adoption of Peace Treaty and League of Nations as it now stands..... 25
For adoption with reservations.... 25
For rejection..... 5

COMEDY TO BE STAGED BY EDWIN BOOTH FOR WINTER TERM PLAN

Altho the title of the play that the Edwin Booth Dramatic Club intends to produce for the winter term play has not been officially announced yet it is understood that the Club will follow its old policy of producing a comedy during the winter term. The play will be staged on the afternoon and evening of February 22 as has been the custom for the past several years and will be one of the big events of the season.

Among the numbers offered for

PHYSICAL TRAINING FOR ALL

After investigating thoroughly the various physical education systems in use throughout the country the heads of the athletic and military departments have combined the best elements of all of these systems into a fixed schedule for athletics and physical training which, when it goes into operation it will during the coming term, will provide an excellent physical education for every student at the institution and there is not the slightest doubt but that this plan will at once show its value by a decided increase in the efficiency and ability of the students.

The following is the outline of the plan as it now stands, completed:

Department of physical education.

A. Military—under supervision and command of Major F. C. Carriethers. Divided into four branches:

1. Regular military drill three hours per week.
2. Competitive sports.
3. Individual strength tests and building up exercises.
4. Calisthenics and corrective work.

B. Non-military—under supervision and instruction of Coach S. E. Borleske. Divided into two main

(Continued on Page 2.)

W. K. WARNER GIVES TALK

W. K. Warren one of our nationally famous economists and farm management authorities delivered an hour and half talk on, "Prices of Farm Products," last Friday night in the Little Country Theatre. The talk was invaluable to an agricultural student and would have been of great interest and instruction to anyone regardless, of his course but unfortunately there were only fifty or sixty men in the institution who had enough of the future to attend the lecture. Ninety out of a hundred students are throwing away a large part of the education they might be getting by passing up these opportunities to hear the best men in our nation talk on subjects which they have studied for years and have compiled information of inestimable value to college men in their future work whatever it may be.

selection there are some of the best comedies in the English language and it is certain that the chosen play will be well worthy of the best efforts those who are fortunate enough to be amongst the cast.

**DEDICATION OF Y. M. C. A.
BUILDING TO TAKE PLACE
JAN. 25**

The Y. M. C. A. building will be dedicated Sunday, Jan. 25 at 3:30 p. m. A. J. Elliott familiarly known as "Dad" Elliott to thousands of College students will be the speaker of the day.

Members of the faculty and student body who intend to hear the dedication address should plan to come to the building early, in order to procure seats. The service is being very widely advertised not only in the Fargo papers but in some score or better of other publications in this vicinity thus we can expect a large out of town attendance.

The following facts concerning the life of "Dad" Elliott will be of special interest to college people:

Born near Gilman, Ill., Oct. 18, 1875.

Graduated from Grande Prairie Seminary in 1892.

Graduated from Northwestern U. 1902.

Played left end on Varsity team for four years.

Made All-Western end in 1909.

Captain of Varsity Track Team spring of 1901. Made records of 10.1 in the 100 yd. dash and 21 ft. 3 in. in the running broad jump.

Won school of Oratory appointment.

Member of the Delta Tau Delta fraternity.

President of the Y. M. C. A. during his Junior and Senior years.

Appointed Class Marshall by the faculty for commencement week.

Member of several honorary fraternities.

Served in the Y. M. C. A. after graduation.

Has personally interviewed over 2000 students on life problems.

Was one of our most popular camp speakers during the war.

**PHYSICAL TRAINING FOR ALL

For Completeness of Equipment and Facilities for Instruction is Unsurpassed in the Northwest.

THE COLLEGE DEPARTMENT OFFERS

Pharmaceutical Chemistry — Civil Engineering — Mechanical Engineering — Agriculture — Chemistry — General Science — Biology — Home Economics — Education — Veterinary Medicine and Surgery — Architecture — Architectural Engineering — Chemical Engineering.

These courses are available to those who have completed the equivalent of a High School training. For those who have not had such training

The AGRICULTURAL and MANUAL TRAINING HIGH SCHOOL OFFERS

Complete Secondary Courses in Agriculture—Mechanic Arts—General Science—Rural Teachers.

SPECIAL COURSES

Business Training, Draftsmen and Builders, Farm Husbandry, Homemakers, Pharmacy, Power Machinery. THIS COLLEGE offers to the young people of this state an education which is thoroughly in line with modern thought and demands. It spends no time on dead languages or such subjects as are of little practical value. It aims to fit young men and women who can think and investigate for themselves; who can deal with social, agricultural and industrial problems of the day.

THE LABORATORIES are thoroughly equipped, and the instructors are specialists in their lines. Exceptional advantages are offered in chemistry, physics, botany, literature, mathematics and engineering subjects

Graduates from Approved High Schools are admitted to Freshman Class. Board and Room

PRIZE OFFERED TO STOCK JUDGES

A new incentive has just been added to encourage our stock judges of next year, who are fortunate enough to be sent to the International Live Stock Show at Chicago in 1920 by the generosity of one of our former students Mr. McLain Cooper, who has offered a cash prize of \$50 to the highest standing student in the sheep judging contest.

Mr. Cooper is one of the prominent Hampshire Down Sheep breeders of this state and is located at Hillsboro, N. D. His interest and support of the student activities is typical of the unfailing loyalty and never diminishing spirit which the A. C. should and usually does instill into its students.

MILITARY DEPARTMENT TO STAGE INTER-COMPANY BASKETBALL TOURNAMENT

—oo—

The companies of the Military department have elected managers who are making arrangements for an Inter-Company basketball tournament which will be staged in the near future. From the enthusiasm shown among the Cadets the undertaking will be one of great success. The High School company has already started to organize a squad which promises to be a fast aggregation. They have a little advantage over the other members of the High School team.

The managers elected by the companies are as follows: Co. A, Joseph Messer; Co. B, Geo. Bohnsack; Co. C, John Hammond; Co. D, Charles Ranibow.

largest number of points during the year. The cup is won permanently by any class winning the championship for three consecutive years. The following is the list of points won by placing in their respective events:

Feb. 9—St. Olaf at A. C.

Feb. 13—South Dakota State at A. C.

Feb. 17—Fargo College at A. C.

Feb. 21—North Dakota U at Grand Forks.

March 5—North Dakota U at A. C.

March 9—Fargo College at Fargo College.

March 12—St. John's at A. C.

CLASS HELD AT Y.

—oo—

A series of Bible Study Classes is planned to be held at the College Y. M. C. A. beginning Wednesday evening, Jan. 22 at 7:00 p.m. The class will be instructed by some of the foremost Bible students in the institution for the most part members of our faculty. After the evening discussions are over athletic work will take place in the gym.

NEW PROFESSOR OF DAIRYING

The man selected as the head of the Dairy Department, J. R. Rice is a graduate of Michigan Agricultural College, having specialized in dairying. He has had experience in practical work on dairy farms and also has worked in one of the large condensers in Cleveland, Ohio. He was connected with the University of Maine in the Animal Husbandry Department; took his Master's degree at the University of Missouri under Professor Eckles, who gives him a very high recommendation; is at the present time in charge of dairy work at the State School of Agriculture in New York, and comes to this institution highly recommended.

A HELUVA POME

They say sometimes it's cold as hell,
Sometimes they say it's hot as hell!
When rain hangs on it's hell they cry,

It's also hell when it is dry.
They hate like hell to see it snow,
It's also hell of a wind when it starts to blow.

Now how in hell can anyone tell
What in hell they mean by this word hell?

'Hell yes,' 'Hell no,' and 'O hell!' too,
'The hell you don't,' and 'The hell you do,'

And 'What in hell,' and 'The hell it is,'
To hell with yours and to hell with his.

'Now, what in hell, and 'O hell, where?'
And 'What in hell do you think I care?'

And the hell of it is, and it sure is hell,
We don't know what in hell is hell.
—(The Rattle)

POLYTECH, ADDRESSED BY C. M. CORRELL

Mr. C. M. Correll gave an address before the Polytechnic Society on January 7, entitled "Bolshevism and Democracy" why the two were linked in the title is not known but at any rate the linking ceased with the title as far as Mr. Correll's talk was concerned and he brought out some very interesting information throwing some new sidelights on these two great topics of the day. After hearing so much of the inane vaporizings of the long haired mob rulers, as we have been, for the past few months it is relief to hear one talk just plain common sense Democracy without trying to flavor it with extract of anarchy just to satisfy the jaded political tastes of the ever-present malcontent population, let's hear more of it.

The next meeting of the polytechnic society takes place on January 21 and will be addressed by Dr. A. L. Leathers on "A New Theory of the Origin of The World."

GIVE YOUR AID TO THE AGGASSIZ STAFF

Editor Baker and his assistants are working continually to gather up the frayed ends of the Aggassiz management and get everything moving. Everyone must do his or her part to make this annual a success as it is by the appearance of this, our, annual that we will be judged and compared to other colleges, by prospective students and others interested in our college.

In the first place it is necessary that you juniors and seniors see E. B. McCrackern, the official photographer, and have him imprison your likeness in his little black box in order that a page may be numbered in the Aggassiz for you so your folks won't have to thumb the whole book over to see the most supremely important thing contained therein. Do this at once as it is necessary to send the cuts to the engraver at once in order that we may get the best work done with the least expense, and in the shortest length of time.

If any of you have anything worth printing or any good ideas let us hear of them, everything will help in this work. Any suggestions you may have send them to the Spectrum or drop them in the slot of the door of the Spectrum office.

The present plan for securing individual writeups and material for writeups is to send out blanks with space for filling in necessary data to each Junior and Senior, which they will kindly fill out as quickly as possible and return to the Aggassiz. Blanks will also be sent to friends of these individuals to secure any added data which the individual might, through coyness or absent mindedness, forget to put down. This plan should be put into operation about the first part of next week.

HURRAY FOR THE PROFS

The board of Administration held a meeting on Tuesday, January 13th, at the College, and revised the salary schedule, as follows:

Directors of Divisions.....	\$4000
to	\$4500
Deans and Heads of Schools.....	\$3000
to	\$4000
Professors and Heads of Departments	\$2500 to \$3500
Associate Professors.....	\$2000
to	\$3000
Assistant Professors.....	\$2000
to	\$2500
Regular Instructors, of two years	\$1500 to \$2000

They classified the employees of the Experiment Station and Extension Divisions and gave substantial raises to the several groups, which including the raise made July first and the present raise, gives averages as follows:

Deans and Heads of Schools	26.99%
Professors and Heads of Departments	30.1%
Assistant Professors	38.4%
Instructors	36.88%

Hart, Schaffner & Marx SUITS and OVERCOATS

Ask For
CHANEY-EVERHART CANDY CO.'S CANDIES
Made in North Dakota
THE PURE FOOD KIND.

Clerks and Stenographers.... 23.06%
Janitors and Employees..... 25.95%

The above schedule is based upon twelve months employment with one month's leave of absence. Some of the members of the teaching faculty preferred to elect nine months rather than be on the twelve month's list, so that their percentage of increase will be slightly lower. A few were not included in the above groups since they were temporarily employed or were newly for the present year.

THE COTTAGE OF YOUR LIFE

Are you building your little cottage
With lumber that's hard and strong,

Making it graceful and charming
That not a line be wrong?

Are you setting your little cottage
On the rocks or in the sand;
Making a firm foundation
Which against the storm will stand?

Are you giving your little cottage
Ample windows clean and wide
To let the warm and cheerful sunshine
Enter in on every side?

Are you filling your little cottage
With mirth and gaiety
With a gladdening, joyful atmosphere
That will welcome friends to thee?

And lastly has your little cottage,
The cottage of your life,
A room of love where fellow-men
May find sweet refuge from the strife?

Your Appreciation
of Anything
Depends on Your

 CLARENCE JENSEN ----- ORGANIZATION

Remainder of Staff as yet unappointed.

HERE'S THE DOPE ON THE NEW REGIME

Our former editor Edward Falkenstein, after serving the school in that capacity for a year or more has found that the pressure of his school work forces him to drop some of his activities which have been usurping the time that he should have for the proper execution of his scholastic duties and consequently, believing that he has fulfilled his duties to the college in this service, he has shifted this part of his burden to other shoulders or possibly fingers and I happening to be the unlucky devil that walked under the ladder at this particular time got plastered with this divinely (in lieu of profanity) thankless job. Anyhow we've got to admit that Ed has done a wonderful work and deserves the heartfelt thanks of the student body for so ably expressing them in this, their mouthpiece and by the same token he also is entitled to an apology from them for the lack of aid and support which he has received during the past term which is as evident as the lack of appreciation which we, who are so deeply indebted to him have shown. Here's hoping that Ed tops the list of those with the high averages for the next term now that he has the advantage of the use of the time which we have been so shamefully stealing from him. In regard to the paper and its immediate future I can but say that it would be preposterous to attempt to eclipse the former work on the paper and hope less to try to even equal Editor Falkenstein's masterful work under the present handicaps, but we can carry on the good work until some time when some stroke of good fortune enables us to enlarge our paper and improve it till we have to the place where it should stand—as a leader of the college papers of the world and still onward.

FLU ECLIPSED

That terrible malady known as the Spanish Influenza is practically unheard of this winter and one hears of no other horrible disease spreading amongst us and taking out the best of. But say there's one coming and it has already showed up; it hasn't had a good chance yet so lots of us haven't noticed it but it is here is nevertheless. A curious phenomenon related to its cause and ill-effect is that it is not caused by germs but by lack of them and these germs have never been seen under a microscope and why not, one might ask? The only reason is that when these germs are really alive they move too fast to be seen and when they are dead they aren't worth looking at. What a mystery, did I hear some one whisper? Ah no, far from it, would that it were, but it most certainly is not. I'll tell you, the disease is los sof AGGIE SPIRIT and the little germ we're losing or liable to, is pep. There's no doubt about it at all—nearly half the student body are afflicted with ossification of the lower jaw and those who are blessed with healthy jaws haven't got them synchronized with each other. How in the world do you suppose your team can fight the proper kind of a battle unless you yourselves throw up the proper kind of a barrage? Come on you yell leaders, call a mass meeting and teach our little friends from the fallow how to yell in an efficient and gentlemanly manner in order that they may raise their lusty voices and make that much needed joyful noise in tune with the rest of the horde. Let's go AGGIES, nobody stammers around here. We can all talk to them and we will.

WANTED

A decent representation of faculty at the basket ball games for the rest of this term.

The Spectrum has crabbed about this matter before with the same amount of success that no doubt will attend this venture. Nevertheless we are going to register our kick before and after and in between each and every game that our team plays whether it be a hard inter-collegiate game or a mere practice scrimmage such as we had last Wednesday with the city Y. M. C. A. Consider the effect upon the morals of the school alone, ye worthy, but unutterably spiritless expounders of learning. Think of the fifty odd, enthusiastic but more or less unsophisticated fair ones of our school screaming their sweet dainty pink little lungs to gory sponges in an effort to encourage our athletes to outdo themselves in the strife, and all these young ladies alone and unchaperoned in a company with several hundred blood-mad enthusiasts decorated (more or less) with those emblems of iniquity, men's clothes. Forsooth 'tis enough to make one spill one's tea. Speaking of tea, if one half of the number of the faculty that joined in the mad scramble up the stairs of science hall to revel in the latest pink tea held therein would give their inborn American sporting blood a chance to force some of that tea out of their veins and would get out to see the athletic games take place and while they were seeing them just let go and stamp their feet and holler like a kid for just one night out every three weeks or so they'd have crust enough to demand a raise every ten days till even the milk man would have to take off his hat to them.

Now don't just get sore and assign five more references for next week's lesson, but get sore at yourself for abusing said self in such a shameful manner all this time and come on out to the next game—and say, put on leather heels so when you stamp your feet we can hear you and know your WITH us.

Students in the ADMINISTRATION BUILDING are requested in buying candy at the BOOK STORE to see that the papers and wrappings are not thrown on the floor. Waste baskets are provided in the halls and it is far from tidy, as one passes through the halls, to find the floors littered with rubbish.

THE DES MOINES CONVENTION

—00—

The ninth Quadrennial Convention of the Student's Volunteer Movement was held at Des Moines, Ia., Dec. 31 to Jan. 4. The following students represented the North Dakota Agricultural College: Misses Amy Euren, and Tillie Thompson; and Messrs. Wm. P. McKinstry Percy T. Judd, Richard E. Deltma and R. Dell Stewart.

About fifty delegates attended from the State of North Dakota. The total number of delegates at the convention exceeded 7,500, representing forty different countries and one thousand Colleges and Universities thus making this convention without a doubt unparalleled in the history of the organization.

John R. Mott who helped to start the movement at Mt. Hermon Boy's School of Mass. presided at all ses-

sions. Among the prominent men were Sherwood Eddy, Bishop Trousis, J. McConnel, Robt. E. Speer and hundreds of others.

The delegates from this school gave a report of their trip in a joint meeting of the Y. M. and Y. W. C. A. held Sunday Jan. 11. Each one of the delegates showed a great deal of enthusiasm. As a result of the convention a class for the study of the needs of the people of foreign

countries has been at the Y. building each Tuesday at 3:30 p. m. Membership is limited to fifteen.

A PI-BRAINED COLLECTION OF UNRELATED PHENOMENA

—00—

Give up thy brother that which thou wouldst not have for thyself and thou wilt be eternally cursed with a mind unceasingly covetous.

The cry of the masses is no longer "Give us bread" but "Give us dough."

Heed not temptation lest thou copy from the wrong paper. He who lies and gets away Will live to try another day.

If a man lives in Moorhead should he be permitted to attend convocation?

Discuss the economic relationship between nine tons of hot air and three yards of statistics. Varies directly with the ability and nature of the producer and the size of the exits.

Now that we are rid of John Barleycorn, Emma Goldman and her little playmate Aleck we can turn our attention to the beauties of our political mother Nature and watch the progress of the sun of life and red-blooded sportsmanship as it fades some of the blue out of our state's Sunday code.

Care should be taken in matching new nickles not to become bull-headed lest one's opponent become suspicious.

Chew Smackum Chewing gum—it cracks at every stroke.

If pity is a kin to love I've got over some good stuff comin'—huh Slim?

FRANK HENNING RETURNS FOR CHRISTMAS

—00—

Cadet Frank Henning of the United States Military Academy at West Point dropped off for a very short visit with some of his old classmates while enroute from West Point for his home in Lakota, N. Dak.

Frank graduates this spring and will of course take up army work for the next few years. Many of us can well recall the days when Frank was a power of the campus. He was noted, while attending school, for his unceasing activities in the services of the college as he edited the Spectrum for over a year besides carrying an exceptionally heavy schedule and instructing classes in the physics department. Frank is still an enthusiastic Aggie even after his three year's absence and has not forgotten the old school any more than it can forget him.

Tower clock wound automatically by one-half horse power motor.

Electric monorail crane for hoisting coal.

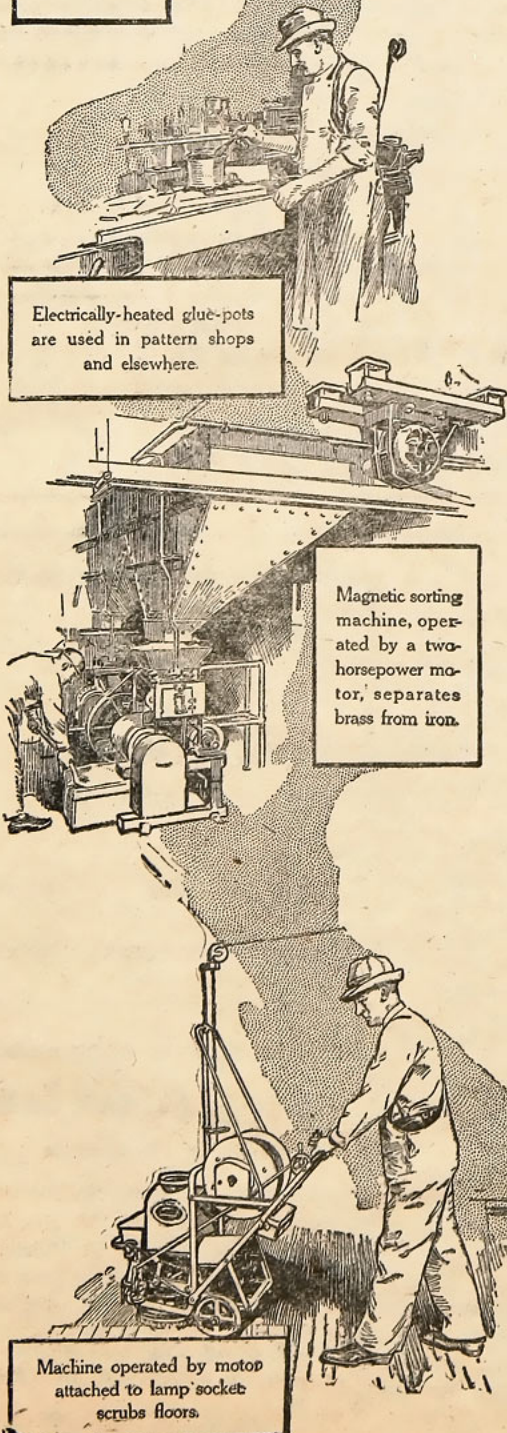

Motor-generator set mounted on crane supplying power for lifting magnet.

Electricity—the Master Force in Manufacturing

THE marvels of electricity have revolutionized our manufacturing industries. With belts and pulleys replaced by electric motors operating automatic—almost human—machines, many a slow and tedious process has been eliminated. The factory worker's task of yesterday is made pleasant by his command of this magic power.

The Crane Company's plant at Chicago—electrical throughout—is a model of industrial efficiency. Its 10,000 horsepower of driving energy is brought by three small wires from a distant power plant. Then electricity drives the machinery which handles the coal for heating, cuts the steel, sifts the sand and sorts the material—in fact does everything from scrubbing the floor to winding the clock.

Such an institution is marvelous—superhuman—made thus by the man-multiplying force of electricity. The General Electric Company has been instrumental in effecting this evolution. First, by developing successful electric generating and transmission apparatus to furnish economically this modern form of power. Secondly, through many years of active co-operation with hundreds of manufacturers, it has mastered the art of applying the use of electrical energy to a multitude of needs. And finally, through branch offices and other distributing channels, its products are made accessible to all.

Electrically-heated glue-pots are used in pattern shops and elsewhere.

Magnetic sorting machine, operated by a two-horsepower motor, separates brass from iron.

Machine operated by motor attached to lamp socket scrubs floors.

SOCIETY

THETA CHI'S GIVE INFORMAL PARTY

On Saturday evening after the Moorhead Normal-A. C. basketball game, members of the Theta Chi fraternity held an informal house party, about thirty-five couples participating. Tables, rugs, chairs and the cat were thrown out and the dance was on, music being furnished by Burdahl and Deech. At 11:30 everyone repaired to the "Blue Rooms" in the old Engineering building, where refreshment consisting of sandwiches, ice cream, coffee and SUGAR were served under the supervision of Kenneth Clarke and Leon Hayes. Alumni brother Geo. Dixon assisting in transporting a second helping of ice cream to his fair one. At twelve o'clock the boys banded together and sang the girls a couple of Frat songs, to which the maidens responded with a gentle hand clap. What agony they endured during the singing may never be determined, at any rate the girls told the boys, they had enjoyed the entire party immensely.

Alumni members of the fraternity present were: George Dixon, Ray Bolsinger, Alex Nemzek Jr., Reginald Colley, Dr. Frank Darrow, and Prof. R. M. Dolve.

FACULTY HOLDS PARTY

The ladies of the faculty entertained the men of the faculty on the fourth floor of Science Hall Friday evening. About one hundred and twenty-five people enjoyed the affair. A short program was rendered early in the evening:

Community singing led Dr. C. S. Putnam.

Mrs. H. E. Moore accompanist. Negro dialect story and song by Mrs. Brown.

Two song numbers by Mrs. H. E. Moore

Vivian Moore accompanist.

After the program the faculty enjoyed a number of games, after that a bounteous luncheon followed. The remainder of the evening was spent in dancing to a four piece orchestra led by Clarence Draggert.

Pres. Emeritus John H. Worst and wife were among the guests present. Pres. Worst is a present State Immigration Commissioner.

Everyone reports a very enjoyable evening and plans are being made to have these little faculty entertainments real often during the winter term.

FARM HUSBANDY DANCE NOTABLE SUCCESS

The Farm Husbandry Students entertained themselves in the armory Friday night, January tenth. Spectators claimed that the sight of the happy laughing couples caroming hither and thither across the mirror-like surfaces of the metamorphosed armory floor, was one

never to be forgotten. From the hour of eight-thirty until eleven-thirty the fifty odd couples made merry with never abating enthusiasm until the last strains of music from the final dance died out and then trooped gayly home, happy and contented with the ending of a real evening of revel and a day well spent.

MAN HUNTER'S STAGE LEAP YEAR DANCE

Last Tuesday evening fifty lonely A. C. maidens held a genuine Leap Year party at Stone's auditorium, Mr. Ray Bolsinger and wife officiating as chaperons. One of the novelty dances of the affair consisted of a fishing dance in which the poor fishes were herded under a balcony over which hung fifty tantalizing hooks baited with,—well we don't exactly know what they were baited with, but we do know the poor fishes bit—swallowed hook, line, sinker and all and glad to get it.

The auditorium was decorated with banners and pennants in a very attractive style. Confetti and Serpentine were used for the favor dances and delicious frappe was served by the Misses Alice Chandler and Mable French. Music by Watchie and Smith was enjoyed from nine to twelve. Everyone reports the affair as an unusually successful one—except Professor Smith.

RUSHING PARTIES HELD

On Friday night January ninth the various social fraternities on the campus entertained the prospective fraternity material among the non-fraternity men of the campus at theatre parties and thereafter at their respective homes. After twelve o'clock freshmen, with the proper qualifications, were eligible for pledging and each of the fraternities pledged some of these men. As all of the official lists of pledges have not been turned in, it is impossible to print the list in this issue.

ALPHA ZETA INITIATES

Thursday, Jan. 8, the Fraternity of Alpha Zeta initiated five new men into their chapter, these men are: Wm. Bina, George Hanson, Hut el Metzger, Theodore Thorfinson and Hugh Trowbridge.

The initiation ceremony was held at the Gardner Hotel at 5 o'clock in the afternoon. After the ceremony a banquet was served and a very enjoyable evening was spent by all. Twenty-four Active, Alumni and honorary members were present.

Several interesting talks were given, the ones receiving the most applause during the evening were given by Roy Dynes and Dean Soper, who spoke respectively on, "A Peep Into The Future," "A Peep Into The Future," and "Alpha Zeta from Observation."

AT LAST

—oo—

At last the lowly worm has turned;
The profs are organizing;
Their wages, it appears, they learned
Have not for years been rising,
While prices for their daily bread
Each morn. and night were soaring;
No wonder they are seeing red,
Regretting and deploring.

The prof must burn the midnight oil
For years before they slip him
His sheepskin, then, for all his toil
Can earn him, merchants gip him.
His coat is shiny on the back;
He cannot pay a barber,
And so, wears whiskers, brown or
black,
That germs and microbes harbor

SENIOR CLASS MEETING

—oo—

The Seniors met for the first time this term last Tuesday and discussed plans for the coming term. Committees were appointed to take care of the various problems which arose. A decision was made to have all pictures taken for the Agassiz by the end of next week.

ALUMNI

AL SORENSON VISITING THE RHO'S

Al Sorenson is spending a few days at the Alpha Gamma Rho house revisiting the scenes of his never to-be-forgotten college days and banishing from his mind, for a short time the dull cares of the Lake Region form. Al Sorenson is an example of the kind of graduate that helps to make our school a real school, because he does not forget about his school the minute they hand him a sheepskin. Let future graduates retain as much of the old college spirit as Al has and the benefit to the college resulting from it will be inestimable.

LEW BIRD BACK ON THE CAMPUS

Lew Bird, a well known graduate of the Agricultural course of this school, is again associated with his alma mater and is lending his efforts to help our practical agricultural department to regain its prewar status and continue as a leader among the Agricultural institutions of the States. Lew's high scholastic record while a student here show him to be an extremely valuable man and the school is to be congratulated upon its selection of such a man.

J. H. WORST LECTURES AT GARRICK

"A Bigger North Dakota", is to be the theme of the lecture to be delivered by Dr. Worst on Sunday evening, Jan. 18, at the Garrick theatre. Dr. Worst knows North Dakota as but few other men know her, he has studied the conditions in the state and affecting the state—for the last three decades—part of this time, as you all know, he was at the head of this institution a position which offers a practically unequalled opportunity to study this state from every point of view.

Dr. Worst's subject is one of vital interest to every citizen or future citizen of our state and the theatre will undoubtedly be packed and we certainly hope that a large percentage will consist of the members of our student body.

OLD AGGIES RETURN TO TAKE UP COLLEGE WORK

Emil Sandquist has returned to school after a year's absence and is taking up his books again with all of his former industry. Emil is a member of the Alpha Kappa Phi fraternity and no doubt will be as prominent a figure among the students here in a very short time as he was prior to his leaving.

George Maroney also a member of the Alpha Kappa Phi fraternity has resumed his school activities and has stepped at once into his former place among the students of the institution.

Chester Shells has obtained a leave of absence from his engineering duties at Valley City, N. Dak., and is assimilating the fundamentals of commerce, between meals at the Theta Chi House. Chetty's prowess

in mastering the Spanish language suggests pirate precedents (ancestrally) but quien sabe?

JOINT MEETING OF Y. M. AND Y. W. C. A.

Our Des Moines delegates have returned and will report the big convention Sunday, January 11th at 2:45 p. m. at the Y auditorium. The following delegates will appear on the program and speak upon their chosen subject:

R. Dell Stewart—A full size view of the convention.

Miss Amy Euren will speak on "responsibility of women"

Miss Tillie Thompson—"The Students of America for world betterment."

Richard Dittman, "The new world movement in the east."

Wm. McKinstrey—"The part our colleges are playing in meeting the needs of the world."

Percy Judd—"The opportunity for young men with industrial training in the world's forward movement."

A cordial invitation is extended to all students and faculty members and the people of Fargo.

SEED SHOW AND FAIR TO BE HELD IN FARGO

The North Dakota Improved Seed Growers' Mid-winter contest will be held at Fargo from Jan. 20 to 24 in connection with the Tri-State Grain Growers' Convention. The Association has offered over \$2000 in premiums. The best samples will be placed in storage and held till summer to be reentered at the North Dakota State Fair for 1920 thus giving the contestants a chance to win

twice on the same entries. Such contests as this are of great value in keeping our state in its position among the leaders of the Agricultural states.

BIG CONCORDIA GAME NEXT SATURDAY

Every body out, faculty, students and extension we want all of you to come and back our Aggie team that is going to clean the Northwest. Come on and yell with us. Our team is feeding on goat meat this year again and they don't enjoy it unless it's seasoned with a lot of good hearty yelling from their col-

lege. Let's go, the Vike Preachers are meat for us.

SPORTING NEWS of the NORTHWEST

A. C. TAKES BEATING

Jamestown College Basketball team handed the Aggies a well deserved beating last Saturday night at Jamestown to the tune of 24-22.

The Jamestown team started with a rush and got several baskets within the first few minutes play and held them thru out the entire game.

The Hill boys played a very clean snappy game of ball, working the ball to within easy shooting distance of the basket.

In the first half the Aggies players seemed to be lost and unable to cover the fast Jamestown players.

When the second half started the State team had found themselves and displayed a little real basketball and fought hard, but the lead that the opponents had gained in the first half was too big for the State men to over come. During the latter half of the game the State tossers hit a stride that was almost unbelievable from the showing made in the fore part of the game.

For Jamestown, McLeod was the big man, caging 7 pretty counters and working in all of the plays on defence and offence. Rathman the fast little right forward managed to convert 3 shots into baskets for his team.

For the State team no individual showed up to standard and the erratic playing and poor judgment was the cause for the Jamestown victory. The fouls were converted into points by the Jamestown team while the State team missed 3 trys from the foul ring.

Lineup:
 Jamestown State
 Rathman F Movold
 Harmon F Kramer
 McCloud C Hunter
 Currie G Hayes
 Thomas G Peterson

Substitutes:
 Flem for Peterson; Murphy for Kramer.

Field goals:
 Rathman 3, McCloud 7, Harmon 1, Movold 4, Kramer 2, Hunter 3, Hayes 1, Murphy 1.

Free throws:
 Rathman 2 out of 2, Movold 0 out of 3.

Referee: Ross, Jamestown.
 Place: Jamestown.

AGGIE PREPS SCORE HEAVILY ON BARNESVILLE HIGH

The game played last Saturday night on the Armory floor between Barnesville high school and the A. C. preps was an overwhelming victory for the preps the final score being 34 to 8 in our favor. The A. C. out played Barnesville in every way throughout the game both in passing and basket shooting. Peterson our prep right forward was the star of

the game scoring up sixteen points for the preps. The Barnesville center outshone his team mates by scoring four out of their eight points on field goals.

Lineup:
 Preps Barnesville
 Peterson R.F. C. Aamodt
 Fitzgerald L.F. R. Tweeton
 Rathje C. O. Aamodt
 Bauer R.G. F. Solum
 Bohnsack L.G. Will Tully
 Referee—Borderud.

AGGIES TAKE "Y" GAME

The State team defeated the speedy Y five in fast close game last Wednesday night by a score of 29 to 23. The game was an exceedingly interesting one on account of the phenomenal bursts of speed that first one team and then the other would show. The first seven minutes of play passed before either team dropped a basket when Van Arnam dropped one from deep center. Movold followed with a free throw a minute later which put both schools in the scoring columns. The first half was featured by the offense that the Y team displayed while handling the ball and the ability to score on their long shots. The short shots were broken up by the Aggie guards which kept the visitor's down during the first half. The half ended with a score of 9 to 11 with the Y in the lead.

The second half started with both teams battling like fiends and scoring quite frequently, the lead alternating several times. We took the lead at first only to have Van Arnam take a long one by wireless and with it the lead. The last four minutes of play found the Y in the lead again, by four points when a pass from Hayes to Movold started the Aggies on a burst of scoring, Hunter, Murphy and Movold again, shooting three baskets in quick succession after the first, and pulling the State score out of danger.

Van Arnam was the individual star of the center of the floor. Long shots were a feature of the Y team's game, which method of scoring they were forced to follow due to the infallible guarding of Peterson and Hayes. Boyce and Smith the Y guards also forced the Aggies to adopt this method at times as they covered their respective zones in an excellent manner.

Movold was our strong man on the offense. He shot four field goals and wrecked havoc with the Y defense with his wonderful dribbling and floor work.

Bolsinger one of our former phenoms was a foundation for much of the score built up by the Y team during the time he was in the game his work both on the offensive showing all his old-time speed and ability.

Lineup:
 State Y
 Movold R.F. Van Arnam
 Hunter L.F. Messer
 Murphy C. Dawson
 Peterson R. G. South
 Hayes L.G. Boyce

Substitutes—State Flim for Peterson. Y. Bolsinger Messer, Hagen for Boyce.

Field goals—Movold 4, Hunter 2, Peterson 2, Hayes 2, Dawson 4, Van Arnam 4.

Free-throws—Movold 3 out of 8. Van Arnam 5 out of 8.

Referee—Pete Tierney.
 Place—State Armory.
 Attendance—800.

NORTH DAKOTA STATE TAKES OPENER

The Aggie quint met and defeated the fast Moorhead Normal five in the opening game of the season for the A. C. team, last Sunday night to the tune of 32-12.

The game started with a rush with the Normalites counting first but after the first five minutes of play the out come of the game was easily seen by the class of team work displayed by the two teams. The Aggie score was held down by the inability of the men to count after displaying wonderful team work in carrying the ball through the Normal defense.

The Normal squad could not get near their basket due to the air tight guarding of Peterson and Hayes, and were compelled to resort to the hi-tension route.

The Aggies scoring was done during the first half of the game, which ended 21-4 in favor of the State Team. Murphy was the star of the game, chalking up 5 baskets to his credit in the first half. Movold's floor work was good but his basket shooting was off color with the exception of the foul shooting, which he counted eight out of ten trys. Captain Reis displayed his old form in his ability to help his team mates in the team work and at the same time working in the defense breaking up the long shots that the Normal team had to resort to.

The start of the second half found every second string man doing his bit and demonstrating his fine qualities. The second team played exceptionally well and easily outclassed the Normal quint. The game ended 32-12. Following is the lineup:

N. Dak. State Moorhead Normal
 Reis (Capt.) F D. Gates
 Movold F Preston
 Murphy C Bjorkkuist
 Hayes G D. V. Gates
 Peterson G Paxton

Substitutes: N. Dak. State; Hunter, Kraemer, Sivertson, Borderud.

Trowbridge, P. Hilder, O. Hilder, Flem.

Field goals: Murphy 5, Reis, Movold, Hunter, Peterson, Hayes, Hilder, Gates, Preston 2, Paxton.

Free throws: Movold 7 out of 10. Bjorkkuist 1 out of 2, Gates 1 out of 4.

Normal School: Williams, Paxton Carlander, Stafne.

Referee: Pete Tierney.
 Place: N. Dak. State Armory.
 Attendance 800.

JAMESTOWN WINS OPENER

Jamestown, N. Dak., Jan. 12.—Jamestown College won the opening game of the season from the Valley City Normal quint in what proved to be a very listless game of basketball. Neither of the teams showed the class that they are capable of displaying and the first half ended 8 to 4 in favor of the locals. In the second half the College team showed a little real basketball at times but the passing was very poor, with inaccurate shooting held the score down. The game ended 17-8 in favor of Jamestown. Wright of Jamestown and Dersonius of Valley City were the principle point getters

SPORTING (continued)

FARGO COLLEGE TAKES FIRST GAME

—oo—

In Fargo College's first basket ball game of the season she demonstrated her championship calibre by defeating the fast Concordia team to the count of 33-11. From the first sound of the whistle both teams fought hard and seven minutes of the hardest kind of playing passed before either team registered in the scoring column, when Fargo College counted a pretty one from the center of the floor. After this Fargo College never lost the lead throughout the game.

Fargo College won on its ability to develop team work and carrying the ball through the fast Concordia guards. Fargo College displayed wonderful team work on their first game of the season and will be a strong contender for the State championship when the season nears the final games.

For Fargo College, Murray, a former Fargo high player did the stellar work raging five field goals. Keye and Burns the fast Fargo College guards played a stellar game and held Concordia's forwards down to four field goals.

For Concordia, Martinson and Reitan played the star game, Reitan showing up very strong in his ability to shoot free throws.

Following is the lineup:

Fargo College	Concordia College
Aamott	F Estby
Murie	F Rafshol
Murray	C Martinson
Keye	G Reitan
Burns	G Sheie

Substitutes: Carlson for Aamott, Ward for Murie, Baer for Keye, Ulrich for Burns, Larson for Estby, Quam for Rafshol, Laurence for Sheie.

Field goals: Murray 5, Aamott 2, Muir 3, Keye 1, Burns 1, Carlson 2, Ulrich 1, Estby 1, Rafshol 1, Martinson 1, Quam 1.

Free throws: Reitan 3 out of 4, Murray 3.

Referee: Dick Holzer.

Place: Concordia College Gymnasium.

FARGO HIGH QUINT TAKES PREPS INTO CAMP

—oo—

The fast Fargo high basket ball quint defeated the heavy Prep team last Wednesday night in a preliminary game before the Y. M. C. A.-Varsity battle.

The Fargo high team proved too fast for the heavy Prep team and outplayed them the first half, while the second half of the game was a very close match. The Fargo high quint handled the ball cleanly and worked the ball down the floor fast, outguessing the fast Aggie guards. The first half ended with Fargo High 9, and the A. C. Preps 1.

During the second half the Preps

held their own and at times played the high school team off their feet, but the large lead that Fargo gained in the first half proved too much for the Preps and they lost 17-9.

For the Fargo High, Rae was the star man, with Richmand working in well in all the plays, carrying the ball down the floor. Brockmueller at center was the point getter for the midgets.

Peterson and Fitzgerald were the big men for the Preps, Peterson doing the scoring for the Prep team.

Following is the lineup:

Fargo High	Preps
Rae	F Fitzgerald
Richmond	F Peterson
Brockmueller	C Ratchie
Berdahl	G Bohnsack
Weingarten	G Brauer

Substitutes: Sander for Richman, Chapman for Rae.

Field goals: Brockmueller 2, Richman, Weingarten, Chapman, Peterson, Brauer.

Free throws: Peterson 5, Rae 4, Referee: Pete Teirney.

Place: N. D. A. C. Gymnasium.

ADE FOLEY VISITS THETA CHI

—oo—

The Lake Region was forced to stagger along without the aid and counsel of one of its foremost citizens during the past week while this citizen forgot the dull cares of real life for a few days and again lived in the land of the lotus-eating students for awhile, with nothing to do but listen to woeful tales of scholastic hardships and wonder how he ever kidded himself into thinking that way when he was going to school, with nothing to do but a few lessons. The pleasure of listening to the line of his old sidekicker Johnny Kelly, of course made things seem still more like the good old days when—Ah but what's the use you know the things we used to do as well as I and how we did 'em an' where an' who was in on it, huh gang? But anyhow all the alumni are coming back to do the old stunts over the next reunion day and then again at commencement cause that's the kind of stuff that helps make the school a real school.

VOLUNTEER DRILL FOR SHORT-COURSE MEN

—oo—

A course of instruction in the elements of military drill has been offered by the Commandant for those men in the short course curriculum that care to take advantage of this rare chance to receive military instruction benefiting you physically as well as mentally at the expense of the government. It is anticipated that there will be a large number of students that will wish to take advantage of this offer and all those intending to enroll will find it a good plan to let the Commandant know of their decision at once in order that he may be able to make ample provision for a staff of instructors

JACK NOLET COACHING JAMESTOWN COLLEGE

—oo—

Jack Nolet a former all-star Aggie basketball man is now at the head of the Jamestown College Athletic Department. John went to school here before our time but many of the alumni about the campus were classmates of his and consequently we have often listened to tales of his athletic prowess here's luck in the new position John Nolet.

BASEBALL PROSPECT

—oo—

One of the students, who has returned to the State College this term is Edward Jensen. Perhaps some of you will recall his pitching for the College when Coach Paul Davis was here. His pitching is in the same class as his brother Clarence, and the two will form the nucleus of the pitching staff that will give us everything and then some.

Ed. Jensen was overseas with the 122 Engineers and played ball there. His pitching helped Leeds, N. D. beat their closest rival, Brinsmade and thusly winning the State Championship last year.

SPECIAL CLASS IN SPANISH

—oo—

Dr. Metzinger the head of the language department has again displayed his heartfelt interest in the wishes and welfare of the student body by consenting to instruct class of some ten or fifteen students who

wish to take Spanish at a special hour—this hour being from 4:30 to 5:30 p. m., makes the time granted for this class quite a sacrifice and the students appreciate this and feel deeply indebted to the Doctor therefor.

PHI U's SLING SLEIGH PARTY

—oo—

On the night of Friday the ninth those of us who chanced to be on the streets during evening, caught occasional glimpses of a sight that reminded us of the good old days at home, when one of the most popular of the light occupations of the evening, was an old-fashioned sleigh ride. Judging from the shrieks of laughter pealing out from the crowd of girls one would find it hard to believe that they could have enjoyed themselves half as much in any other way.

A Great Record.

Gen. John Brown Kerr, who was born in Kentucky seventy-two years ago, was the hero of what the late General Miles declared to be the most daring exploit in the history of Indian warfare. In 1891 Kerr, at the head of a brave band of 20 men, found himself surrounded by more than 100 South Dakota Sioux Indians. Out-numbered five to one, Kerr and his men fought so valiantly and handled their guns with such effect that many of the braves were killed and the remainder surrendered.

See Dragert for violin lessons. Phone 3636.

MUSIC

Notice Band and Orchestra

The following is the schedule for band and orchestra rehearsals:

Cadet band—Monday, Wednesday and Friday 3:30-5 p. m.

Intermediate band—Tuesday and Thursday 4:30-6:00 p. m.

Beginners band—Monday, Wednesday and Friday 5:00-6:00 p. m.

College orchestra—Tuesday evenings 8:00 p. m.

Please remember these dates and everybody turn out for rehearsals.

—oo—

Cadet Band at Grain Growers Convention

Wednesday night, January 21s 7:30 p. m. at the Auditorium, the cadet band will play its annual concert before the annual convention of the Tri-State Grain Growers Association. The college has a real band this year and this concert should prove a treat to all music lovers.

—oo—

Instrumentation of Orchestra Nearly Complete

Due to the wealth of material among the college students, this year the instrumentation of the College Concert Orchestra is nearly complete, the missing members being the flute and string bass. Dr. Putnam is very anxious to include these instruments in the orchestra and wishes that anyone who can play or would like to take up these instruments would see him at once.

The orchestra, this year, is composed of twenty-eight talented members, for the most part college students. Standard works are being studied as well as some of the lighter and popular numbers of the day.

Clarence Draggert, first chair violinist for the past three years, has been appointed concert master of the organization to succeed Prof. Hendrickson who has been compelled to give up his work in the orchestra this year because of his many pupils.

—oo—

New Men in the Cadet Band

The beginning of the winter term brought three new men into the ranks of the Cadet Band. These men will greatly benefit the band, and it is hoped that more new men may be secured for the organization.

Walter Allan of York, N. Dak., soprano saxophonist, and Arthur Dahlbom, tenor saxophonist are new men in the saxophone section. Dahlbom saw two years of foreign service with an army band. This makes five saxophones in the band and one of the cleverest saxophone sections that the state has ever produced.

Edward Falkenstein has entered the band and orchestra and will play the bassoon. Falkie is an old member of the band, having played alto saxophone with the organization for three years. The band is certainly very fortunate in being able to secure a man for the bassoon, as performers on this instrument are very rare.

—oo—

Cadet Band Men in Legion Sextet

The American Legion Sextet is composed of four men from this year's Cadet Band and one Cadet Band man of former years. These men are Putnam, Kadlic, Dalbom, Draggert, and P. Tarbell. This organization made a big hit at the Legion Minstrel Show and were engaged to play a dance last Thursday night. They will be again featured in the Legion Minstrel show Wednesday and Thursday nights. They are also engaged to play a four night contract in February at the Home Products Show at the Auditorium.

Music Hall Crowded With Students

Never before in the history of the college has the work in the various musical organizations of the college been so crowded. Every inch of space, every instrument, and every sheet of music is being put to use; instructors and assistants are working overtime. More pianos had to be secured to accommodate the many piano students in Mrs. Moore's department.

Prof. Hendrickson of the violin and string department is so rushed with work that he has named Clarence Draggert as assistant. Draggert has a number of students working with private lessons.

The rush in the beginners section of band work has been so great that C. S. Campbell, first chair trombone, of the cadet band has been named as an assistant, he having charge of the trombone section of the beginners bunch. The reed section is in charge of Ray Putnam, cornets in charge of G. E. Andrews, and Doc. Putnam has charge of the drum section. Work in this band is carried out in sections until the men have developed enough to play a medium grade music, they are then transferred to the intermediate band. It is from the beginners and intermediate bands that much of the material for future positions in the first band is obtained.

Need for Both Law and Sword.

In all government there must of necessity be both the law and the sword; laws without arms would give us not liberty but licentiousness, and arms without laws would produce not subjection but slavery.—Colton.

DRAMATICS

Edwin Both Tryouts

Tryouts for the winter term play to be staged by the Edwin Booth Dramatic Club will be held in the Little Country Theatre on Tuesday afternoon, January 20, from 3:30 to 6:00 p. m. All the college students who have talent in this line are urged to be present. Everyone knows the brand of plays this organization presents and should consider it an honor to have an opportunity to display his or her dramatic talent in such company. Don't feel that you are not needed or that your powers of performing are too insignificant to be of consideration or of value to the club as you may be just

the proper person with the proper temperament for some certain part in a play and the school needs every bit of talent that it has. Get into line next Tuesday and give your talents a chance you owe to the school as well as yourself.

Female Executioner.

According to the London Sunday Times of February 15, 1829, the hangman who executed Burke had a wife whom he had instructed in the art and mystery of hanging. Dressed in man's attire, while he was executing criminals in one part of the country, his lady was giving effect to the law in another. Burke, it may be recalled, was an Irishman, who was in the habit of suffocating his victims and selling their bodies to the anatomists. He was hanged at Edinburgh on January 28.
