EDITED AND CONTROLLED BY THE STUDENTS OF THE NORTH DAKOTA AGRICULTURAL COLLEGE.

VOL. XXXIII.

NO. 6

NORTH DAKOTA AGRICULTURAL COLLEGE, THURSDAY, NOVEMBER 13, 1919.

PRICE TEN CENTS

STATE COLLEGE WINS FOOTBALL CHAMPIONSHIP

POLYTECHNIC BANQUET A GREAT SUCCESS

The North Dakota Polytechnic society celebrated its twelfth season by a most enjoyable banquet last Friday night.

The viands served did great credit to the Ceres Hall cuisine, although they were a trifle hard to recognize under the names given them on the programs. For instance, it would take a real scientist to figure out that "apium graveolens" was merely our old friend the oyster cocktail. "Gallus domesticus pius" proved not to be such a sticker, since even the lady members were able to discern that it must mean chicken pie. The chemistry department, be it owned, were at a slight advantage when the last course was announced as "cof-fee arabica" with trimmings of O12 H22 O11.

The table decorations created much diversion. The members of the chemistry section had water poured from flasks into beakers and drank it thru glass tubes. Pickles were served them on large watch glasses and each guest had a small watch glass for salt. The agricultural group had a wonderful centerpiece of grains, vegetables and fruits—a fine tribute to the artistic eye of Dean Waldron. The physics and mechanics people not to be outdone, had their part of the table decorated with small anvils, cranes, and other paraphernalia of their calling. Not the least attractive was the biology collection. Professor Miller's gold fishes and salamanders disported themselves to great advantage while Professor Nelson's little red-devil flu germs, perched on the top of the aquarium, calmly sized

(Continued on Page 4.)

BASKETBALL NEXT AT STATE COLLEGE

The days of college football are now a thing of the past on Dacotah Field for this year, and our attention will soon turn to basketball. Practice will begin immediately upon Coach Borleske's return from Detroit and the prospects for a championship team are very favor-

able. The schedule is now being arranged and it will soon be ready for the athletic boards approval.

It is the Coach's desire to have every class on the campus represented by a basketball team this year and providing the right spirit is shown by the different classes a large number of interesting class games is promised.

There is no reason why every able bodied student in the college should not be engaged in some form of athletics and basketball will furnish an opportunity for everyone.

A SQUARE DEAL THANKSGIVING

As the Thanksgiving Season approaches we are all given to thoughts of the vacation we shall have, and the short while at "home with the folks," but just here a question arises which has come up before the students for a number of years. In accordance with the custom of the past several years, we presume it is the design of those in authority to give us the usual Thanksgiving holiday, and hold school the Friday following. This plan sounds fair enough, and would be were it worked in this way, but for the out-of-town student the temptation to remain away the Friday following

SATURDAY'S VICTORY IS FIFTH IN RACE FOR STATE TITULAR HONORS

Thanksgiving Day is too great and he usually fails to report for duty until the next Monday. According to custom, then, he secures his Leave of Absence excuse and thinks no more of it. For the student remaining in the city, however, this part of the transaction has not always seemed exactly fair. He has attended his classes Friday, according to order, with no opportunity to fall back on a Leave of Absence excuse were he absent from those classes. Plainly this is not giving local students an equal position with those leaving the city for the vacation, and the one has as much right to absent himself Friday as the other. To make this a fair and square Thanksgiving for all may we ask those who are parcelling out our vacations to regulate the matter on an equal basis for every one. Either all the students or none of the students back for classes Friday. This will mean an equal working basis for all parties concerned.

"The Lord hates a quitter,
But he doesn't hate him, son,
When the quitter's quitting something that
He shouldn't have begun."

COACH BORLESKE'S MACHINE WINS FROM FARGO COLLEGE BY 6 TO 0 IN CLOSELY FOUGHT CONTEST—SPIRIT KEEN.

Remaining unbeaten in 6 contests and with 5 victories to their credit, the State College eleven last Saturday proved their right to the title of State Football Champions by defeating the last of the contenders for the coveted position.

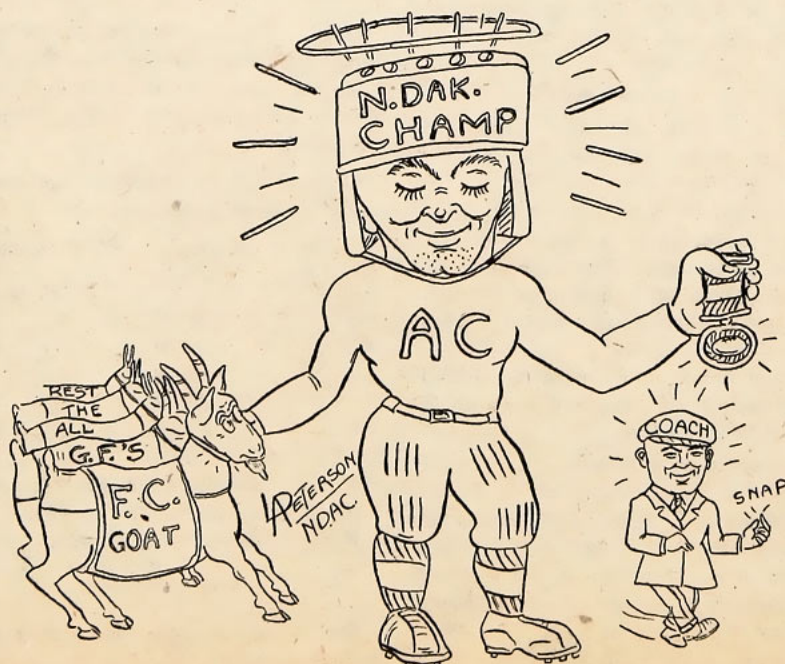

None of the five victories were easily secured but they were all earned by clean football, and the squad representing our College can feel well satisfied in the possession of a clear title, and we can congratulate them because of this, since such title is often difficult to secure in our state.

The game with Fargo College Saturday was a repetition of the old-time spirited "scraps" always seen between the Pilots and the North-siders. Both teams were well matched, altho the weight preponderance leaned a bit toward the home team. Both were well drilled in the tactics of football, but for some reason the bigger punch of the game seemed to be with Coach Borleske's men. The South-siders had been well prepared to intercept aerial work, but were unable to stop the line-smashing tactics employed by Quarterback "Curley," while they themselves were not very successful in effecting passes or in making large gains thru the line. Ulrich carried eleven, they taking turns at runs of the gains, while Chaney also did some excellent ground gaining work. Weinberger and Murphy made the most ground for the State College eleven, they taking turns at runs thru and around the lines. A fake play by Movold gave us our only touchdown in the end of the second half, and with but a few seconds to complete it. The Pilots came back strong but were unable to gain ground consistently and had to resort to punting, Murray excelling in this feature of the game.

The stellar work of Movold and Peterson in this their last game on Dacotah Field showed up well. Huey, Monkeby, Rosatti and Latimer helped to make the home line that of stone. Underwoods luckily

(Continued on Page 2.)

"KINDA" ROUGH ON THE GOATS!

**STATE COLLEGE WINS
FOOTBALL CHAMPIONSHIP**

caught pass at the end of the second quarter, enabled the team to make their touchdown a moment later. The work of our four backs was the best we have seen this season. Murray, Keye and Ulrich of Fargo College, were the visitors best men.

Some 3,000 spectators were reported to have witnessed this historic contest and braved the mud and snow of the north end of town to get early seats. A fine rain settled down on the field of action toward the end of the game making it ugly for players and spectators alike. Without doubt, however, any discomforts experienced were easily recompensed by the interest taken in what was happening before our eyes.

First Quarter

Fargo College won the toss and decided to defend the east goal. Rosatti kicked off to the Pilot's 10-yard line where Chaney received it and returned it 20 yards. Chaney tried right end but lost 1 yard. Ulrich tried left end and made nothing. Melchoir then tried center and gained nothing. Murray punted 55 yards and Curley received. As he started to return it he slipped and loss of 2 yards. Curley punted 40 right end but Keye nailed him to a loss of 2 yards. Curley punted 20 and Chaney drew nothing around right end. Melchoir hit the line for 1 and the Pilots got first down on a 10-yard pass, Murray to Keye. Ulrich fumbled but recovered, losing 1 yard. An incomplete pass, a penalty of 5 yards for off side, and a blocked drop kick gave the Aggies the ball on their 20-yard line. Movold punted 30 yards and Melchoir returned it 10. Ulrich made 10 yards around left end, but on the next play Chaney lost 4 yards around right end. A pass was then tried but failed. Ulrich gained nothing and they drew a 15-yard penalty. With the ball on the 50-yard line Murray punted 40 and Curley brought it back 20. Weinberger then began and on three line smashes made 12 yards. Murphy then took his turn and in three more smashes he made 9 1-2 yards. Peterson recovered a fumble, giving the A. C. first down on the 50-yard line. Murphy drew 5 more around right end and a penalty for the Pilots made it our ball on the 30-yard line. A. C. was then penalized 5 yards for off side. Weinberger lost 1 yard thru the line and Curley lost 2 more. Melchoir intercepted a pass on his 31 yard line. Chaney tried right end for 2, Murray hit center for 5 and Melchoir tried left end for nothing. Murray punted 25 yards. A pass, Curley to Hayes for 2 yards, ended the quarter with the ball on the 48 yard line.

Weinberger made it first down by hitting the line for 3 yards. Weinberger again hit for 2 yards, Murphy for 4, and Weinberger for 2 more. F. C. was penalized 15 yards for

holding. With the ball on the Pilots 20-yard line Weinberger got 2 around right end and Murphy tried it twice for 4 yards each. F. C. was penalized half the distance to the goal for off side. The Aggies had four tries for 5 yards but the F. C. line stiffened and we made only 3. Murray punted 40 yards and Curley returned it 5. After an incomplete pass, Weinberger gained 1 thru the line. Another pass was tried but failed. Curley then punted. Murray punted back and Weinberger hit the line for 7. Curley gained 3 around left end and Weinberger got 10 in the same place. Curley tried a drop kick but failed. With the ball on their 17 yard line, Murray punted and Curley returned it 10 yards. A. C. penalized 15 yards for holding; then two incomplete passes. Curley punted and Murray punted back. Three passes, Movold to Weinberger—8 yards, to Underwood—5, to Underwood 22, gave us the ball on F. C. 7-yard line. Curley then slipped thru for a touchdown. On the punt out the ball was missed so we lost our try at goal. The Aggies kicked off and the half ended with the ball in the center of the field. Score 6-0.

Second Half

The second half was a repetition of the Aggies line plunging abilities and Murray's punting. During the last quarter the Pilots tried desperately to score and tried pass after pass. The Aggies simply broke them up and waited for them to punt when they would march back up the field.

The game ended with the ball in the center of the field and in the A. C.'s possession.

Line-up as follows:

A. C.	F. C.
Latimer c	Robertson
Munkeby rg	Torson
Rosatti lg	Murie
Peterson lt	Thomas
Huey rt	Wells
Hayes le	Keye

**INTERESTING APPLICATION
OF HEAT**

—oo—
A recent issue of the General Electric Review describes a method of heat shrinking for fitting part of of heat shrinking for fitting parts of The method overcomes various difficulties experienced with press fittings. Water or steam heating is used for flywheels and couplings, while for armatures and field systems, conveniently situated heating resistances answer the requirements. In one case mentioned, i. e., a large armature, the shaft was 35 inches in diameter. Cold pressing would have required a maximum pressure of 600 tons. By heating the armature to about 80 degrees C., however, the shaft could be pulled in with a five-ton chain hoist.

Y. M. C. A. LAUNCHES CAMPAIGN FOR ANNUAL BUDGET

FACULTY AND STUDENTS MEET AT DINNER TO DISCUSS NEEDS AND LAY PLANS.

Fifty men, members of the faculty and students, will meet at a dinner in the Association Room in the new Y. M. C. A. Building Thursday evening, Nov. 13th, to discuss the needs of the Association and to determine the amount of money necessary to carry on its activities and cover the running expenses for the current school year. Plans will be laid to give every man on the campus, both student and faculty, an opportunity to have a part in the work. Determination will be made of the proportional amount necessary to be raised from the student body and faculty in order to run the Association one year without debt. Teams will then be organized to call upon every man personally.

NEEDS OF THE ASSOCIATION

Among the items of a necessary budget will be the following:

Printing and Supplies, including room registration blanks, employment blanks, stationery for the reading room and office, etc, Stenography and Office Help; Speakers; Books and Magazines for the reading room; Game Room and Athletic supplies; Supplies for Check Room; a small sum for sending representatives to national and state conferences; Socials; Sick Visitation, and Community Service

The program of the Y. M. C. A. will include Sunday afternoon meetings, campus Bible classes, deputations to small communities, socials, and athletic program. The bowling alley will be installed as soon as possible. Professor Brown of the woodwork department is now making tables for the game rooms. When the building is complete there will be something each week for every man on the campus, no matter what his needs may be.

CLARENCE JENSEN, '22
Membership and Finance.

THE PURPOSES OF THE Y. M. C. A.

The management believes that every man on the campus will want to have a part in carrying out the following objectives:

- (1) To provide friendly surroundings for the new men students, and make them feel at home in student life.
- (2) To assist students, both old and new, to secure clean comfortable rooms.
- (3) To aid men who are supporting themselves, either wholly or in part, to secure employment.
- (4) To promote the development of wholesome social life for every man on the campus.
- (5) To inspire men with that spirit of service which will encourage them to become leaders in the better things of life, in the communities to which they will go after leaving college.
- (6) To unite men of the institution for the maintenance of a positive moral and religious atmosphere.
- (7) To win life devotion of students to the purposes of Christ for the evangelization of the world.

THE COACH

Last spring there was no little apprehension and stir caused in the State College by the loss of Coach Paul Davis to the University. To many of the friends and supporters of the institution this move by our well known director of athletics was looked upon as being no less than fatal to the sport outlook for this institution. Many of us said a last farewell to football, basketball and baseball championships for at least a year. The Athletic Board, however, were not inclined to be so pessimistic, and immediately began the search for a man who would be capable of filling the Athletic Director's shoes at our College in a style in keeping with the records of the place. They found it no ordinary task and were obliged to look over a large part of the country before they struck the man they believed they wanted. The results on the athletic field since the opening of school have certainly vindicated their choice, and we are pleased to assert the opinion of the students and faculty that Coach Stanley E. Borleske has proven well worthy of his hire. That the Coach has "made good" here was well demonstrated on Dacotah Field Saturday and at the University a week ago. He has succeeded in building up a football machine this fall able to compete successfully with the best in North and South Dakota, as well as with the pick of the college teams of Minnesota. We are proud to own Coach Borleske as Athletic Director of our College, and are more than pleased to recommend him to prospective athletic stars as the best coach in the state. May the Coach continue in the favor of his teams and the students.

One of our readers wants to know if the College dances are really going to become Public Dances, and if we are to have all that accompanies one of those affairs. This is a serious question for every student to consider, inasmuch as it involves the reputation which our institution is to hold in Fargo and the state, and we cannot afford to pass over it lightly. It would appear that some form of control of those who should be al-

SPECIAL COURSES OPEN OCTOBER 20.

lowed to dance at our social gatherings should be organized. Likewise, it should be made known in the school and in Fargo that students of this College only, shall be preferred at our gatherings—the attendance of outsiders is very much questioned and makes those in their escort responsible for their actions. A floor committee, appointed by the Commissioner of Social Affairs, could politely but firmly enforce the rules of conduct appropriate to the occasion, and would be an excellent means of maintaining the necessary control of the College dance floor. Let us attend to this matter immediately.

Not many of us who have forgotten the incidents that made a year ago Tuesday one of the big events of our lives. Not many of us who have forgotten the sirens, the shouting and rejoicing, and for those who were "over there" then the almost insane joy of the celebration of peace. The last salvo of "hate" at eleven o'clock, and then it was all over. At the time it was difficult for us to realize that such was the case, but now that the world has seen the process of demobilization and the return to peaceful pursuits we know the world has had a new birth of freedom for every man. The eleventh of November will ever be a great day in the history of the world.

POLYTECHNIC BANQUET A GREAT SUCCESS

up the guests and determined upon which ones they would pounce for their next victims. Doodle-bugs—or bugs, anyhow—ran races with cooties up and down the table-cloth. Just as an afterthought, let it be known that cooties were not really truly ones—merely red paper. Nevertheless they did their bit toward

rounding out the scheme of scientific decorations.

Supper over, the banquet was converted by fairy magic into a court of justice wherein science had to appear and answer for its many sins. President Katherine Jensen presided as Justice and opened the trial with a denunciation of chemistry which Mrs. Shepperd ably refuted. During the course of her reply Mrs. Shepperd disclosed many enlightening facts in regard to the source of the feminine complexion. Justice then proceeded with a scathing accusation of Veterinary, charging him with being old, useless and out-of-date, to which Veterinary, personified by Dr. Schalke, pleaded "Guilty with Reservations," and forthwith produced evidence to show his excuse for being.

In the case of "Biology vs. Blessedness," Prof. Nelson showed with much Biblical detail how the study of biology had originated with Eve and been carried down thru the ages, and how Job was really the institutor of bacteriological studies.

When "Agriculture vs. Aggrandizement" was called Dr. Trowbridge rose up in outraged wrath and flayed the other sciences and industries for their aggrandizement at his expense.

Miss Adah Lewis demonstrated that Home Economics and Health instead of being opposed to each other were really dear sisters, and that the case should be thrown out of court.

The court closed its session with "Science vs. Civilization" as the last case on the docket. President Ladd, representing Science, gave a brief resume of the many good things Science has done and is doing for man.

The final address of the evening was delivered by President Evjen, of the Mayville State Normal, on the subject "Are We Done With Culture?"

Happenings Around Us

Among the alumni members seen around the campus the past week was Bill Stewart. Bill came down to see us trim Fargo College and while here has been visiting at the Alpha Kappa Phi fraternity of which he is a member.

Basket ball 'll soon be the main subject of conversation and preparation here—in fact, it has been at the College for some time. North Dakota State College is going to have the best in the field. U just watchem.

A large number of the College alumni were present at the big affair last Saturday and we wish we had been able to obtain the names of them all. Among those we saw were Al Sorenson, Orris Catlin, "Billy" Willson, Ruth Brown, Mr. and Mrs. John deJong, Helen Lewis, Floyd Slingsby, Fern Briscoe and "Doc" Winberg. Most of the above and many more were out to the College dance in the evening.

The big blizzard Monday was a gentle reminder of what may happen in North Dakota any time. It ev'rybody's dug out by the time this appears in print we miss our guess, and if ev'rybody's recovered from the spill they took on Administration's steps we miss it again.

The Kadona last Thursday is reported as being a big success, and as giving the season a big start.

The Power Machinery Club was organized recently and work for the coming year begun. The following officers were elected: President, Paul Pasley; Secretary-Treasurer, Wm. Fraase. Meeting of this organization will be held every other Friday night in the L. C. T.

"Merry Merry Cuckoo" is the name of the play that will be put on by the class in Play Production next Tuesday evening at 6:45, in the Little Country Theatre. This is the first of a number of these plays put on each year by this class.

PAT STILL AT IT

Reports from Missoula, Montana, would indicate that our old friend "Pat" Keeley is still on the job with his usual rousing methods of stirring up school spirit. He is now reported as being Quarterback of the University eleven at that place, and is winning most of his games. We often wish he were still with us to help stir up a little "kick" in this old place.

Americans returning from Germany report that schools of all kinds there are literally packed by students. The release from the old militaristic system has made schooling possible for youths who formerly would have been obliged to enter the army.

A NEW SILK WORM ENGAGED

Tremendous sensation. Many more freshmen enrolled the next term. Now don't laugh. This is exactly what happened at the Union University of Nanking, China. The announcement that the head of the department of entomology of a great American University would give a course on the culture of silk brought students from fourteen of the eighteen principal provinces of China.

CERES HALL

Mr. and Mrs. Vie visited their daughter, Clara, last Sunday.

Dolores Smith entertained her mother and sister, Vera, last week. Esther Foster spent Saturday night with Bernice Derby.

Miss Alice Barr spent Sunday with her sister, Myrtle.

The Burke girls made ten girls very happy last Thursday night by giving them a real home-made spread. There was fried chicken, nut cake, cookies, candy, doughnuts, n'everything. After the spread, which of course was the main feature of the evening, the time was spent in telling about the most horrible experience I've ever had. At the appointed hour, which came too soon, the girls wended their way homeward reconciled, for the time being, to Ceres Hall fare.

Christy: "My goodness, Fran, what ever is that noise?"

Doc: "Oh, that's just Alice, falling out of bed."

Dick Falkenstein is indeed a far-seeing man, for he has already realized the spiritual needs of the Ceres Hall gang. So on Sunday afternoons he boldly walks into the parlors, breaks up the dancing party, by singing a few hymns and light operas. May this custom never die, that at least the hungry souls of the eighty fair inmates of Ceres Hall may be satisfied.

Last Thursday there was a party in the Junior cooking lab. At this party a big white cake was the chief attraction. Then, too, Esther and "Gundy" were there. Wonder what it all means, anyway.

(Air: Ja Da)
Have a, have a, have another bean on me.
Have another bean before the kettle gets dry,
Have another bean or you'll get it in pie,
Have a, have a, have another bean on me.

(Air: Th We Meet Agan)
Smile the while you chew your meat anew,
Thank your stars you've got some thing to chew,

Or 'twill come again to you
Down in Ceres Hall, my dearies,
Dinner bells will ring so noisily,
All the girls rush in so hungrily,
Stung, oh stung, oh stung so bitterly,
Girls, It's stew again!

"BLUE BIRDS IN CAMP"

—oo—

Down in the far Southwestern corner of our country the gentle breezes from off the great Pacific playfully rustled the flaps of more than five thousand tents. The July sun, with its dazzling orange glow, had gone to bed in the restless sea to dream that it, too, was a rookie and must rise at reveille and be taught to salute the second "looey".

The first sergeant and myself, supposed-to-be-company-clerk, were busy deciphering tomorrow's badly muddled detail list. Bugler Judd entered the orderly tent and said in a quiet and confidential tone, "Say, Jack, I've heard some real dope." Sergeant Baker laughed.

"No, its no blue bird this time, it's the real stuff, I say" affirmed the bugler."

"Well what is it?"

"We're goin' to Siberia. I heard the Colonel tell the Major up at headquarters this afternoon. Don't tell anybody, Jack, 'cause I might get in bad for tellin'." Hearing another bugler blowing the call to quarters, Judd hurried out to his duties. In stepped Sergeant White and the news was shared confidentially with him.

Next morning at "chow", Siberia was the predominating word to be heard in the buzzing conversation of the mess room. Everyone was eagerly expressing his view—how reasonable it was, since we were on the Pacific coast and nearer to Russia—how cold it would be in Siberia—how disappointed because of little probability of seeing action if we went to Russia. Day by day the enthusiasm died away. "It's only another 'blue bird'", the soldiers remarked in disgust. Other rumors were started but we had learned more and more to recognize the little "blue bird" and not be excited by his tales. Nevertheless, we liked his song and listened and passed it on, but we know that the future was not for a soldier's concern. The story of the few who did not learn this is not a good one to read.

The day came when the company mechanics began to stencil boxes, "A. E. F." For three days a train had left every two hours, the boys asking "Where do we go from here?" Companies F and G finally did get started—for where, who knew or cared?

As we were crossing the semi-desert parts of Texas, we saw a blue barracks bag tumble down the embankment as the train sped along. Later, I was instructed by the first sergeant to show the following change on the morning report: "Private Blank detached from company, in hospital at Ft. Worth, Tex."

"The 'blue birds' must have got the better of him and we had to lock him in the baggage car. When we opened the door to give him air he started to unload the barracks bags".

My moral is plain. Ye soldier lads, beware of the "blue bird" for he's sure to get you, if you don't watch out.

THE ODD 25

If, out of every one hundred people in civilized lands, seventy-five were minus one hand, one foot, one eye or one ear, every one would marvel.

Yet it is a fact that today seventy-five people in every hundred are defective in what is undoubtedly our most precious gift—the faculty of sight.

There are only twenty-five people in every hundred who have perfect sight. The remainder are—or should be—wearing glasses in order to correct the deficiencies of their vision.

If you are not absolutely positive that you have perfect vision, call and let us make a careful, scientific examination of your eyes.

WHY GO ELSE-
WHERE?

When you break your glasses or need a new pair, let us take care of your needs. First-class service and satisfaction assured.

ISMS OF THE GAME

—o—

Dacotah Field will know "Curley" and "Happy" no more as far as football is concerned. Saturday's contest was the last these two old-time football heroes will play with us. The game was a fitting termination of four years of faithful and hard service, and we can say we saw them at their best—"Curley" as the cool fighting general, and "Hap" as the pillar of strength on the line. Thus pass two of our football heroes, Ralph Movold and Paul Peterson. May their memory remain long at the College.

"Where's Louie?" was the question heard most often in the College bleachers, and undisguised apprehension for the junior member of the Movold-Duerner duo was seen in every face. U. N. D.-College football injuries are not easily nursed into obedience, however, and the hero of the game at the Forks was obliged to sit on the sidelines and see his team mates do the winning this time. He'll have three more tries at Fargo College later on, and may his successes be repeated in those future frays.

Poor "Billy" had a long and adventurous trip up from the south hill, but after he got here he did his duty in great style in helping the team win the game. He likewise, found himself the center of a great deal of attention between halves, but stayed with the fray as any hero would. We are hoping he is one of a large family of very condescending (to the State Collegians) "Billies" that is being raised at F. C.

The mud was rather thick, all right, but what's mud when a state championship's "hanging fire?" If "Frankie" Chaney could only have seen himself when he was wadin' thru, he'd have had material for SOME funny paper. Eh what? Frank?

THETA CHI'S ENTERTAIN

—oo—

Last Saturday night, November eighth the Theta Chi fraternity entertained the students and alumni of the college at their annual all-college dance in the Armory. Frappe and wafers were served during the evening. The patrons and patronesses were Pres. and Mrs. E. F. Ladd, Dean and Mrs. E. S. Keene, and Major and Mrs. Carrithers. The Theta Chis are known as royal entertain-

ers and this party will certainly help keep up that reputation.

CERES HALL HYMN

—oo—

That's where our money goes
To buy our waiters clothes;
We buy them everything,
And keep them in style.
It buys our beans and greens
And oleomargarine;
Oh, girls! That's where our money
goes.

STUDENT OPINION

—oo—

Is our campus to be a public highway? Are we who are attending this institution to remain so ignorant that we will not allow the beauty of our campus to spring forward?

We have attending this college nearly 700 students. The faculty is composed of nearly 100. Besides this we have several hundred others daily going to and fro across this campus. The state has donated the college a large sum of money in years gone by to beautify the campus. Why not help keep it so?

Cattle in a pasture continually keep making paths. Perhaps this is due to the fact that no one has ever given them sidewalks. Are we to have our campus look like a pasture or do we want the best looking campus in the state? It is up to you to decide.

Jawn. '21.

AT THE FRATERNITIES

—oo—

The Theta Chi boys showed what "stuff" they had in them last Saturday night. They sure gave us a party that we won't forget for awhile at least.

But their party hasn't held the entire attention. Some of their alumni members have been visiting them, many of these with gay tales of their won loves, etc., etc. They say Bolsinger has been telling them that he intends to get married the last of the month to some lucky girl, a Miss Edith Rusk. Adrian Foley was visiting here last week with his wife. It seems that the above happened only three weeks ago. Edgar Olson, Parizek and Carl Lolland were here to visit the boys. Letters from Lidgerwood tell us also that Glen Livengood has also been married, and surprises of surprises, they say Heidner was married last Tuesday and that he intends to bring his wife to Fargo on the 20th. While here he may take a business course, and later return to his hardware business in Idaho. Walter Elliott, an old alumnus is still with the army. He is now stationed at San Francisco, Cal. According to his letters he has of late become papa to a daughter.

The Alpha Kappa Phi boys have their president of last year, "Doc" Winberg, with them for a few days. He's still the same good old sport.

SCOPE OF THE FOURTEENTH CENSUS EXTENDED

—oo—

Washington, Nov. 12 — That the Fourteenth Decennial Census, on which the actual enumeration work will begin January 2, 1920, is to be the most important ever taken is shown by the fact that the Act of Congress providing for this census expressly increased the scope of the inquiries so as to include forestry and forest products, two subjects never covered specifically by any preceding census.

The inquiries to be made relating to population, manufactures, mines, quarries and agriculture were also

extended in their scope by Congress, the keenest interest over the forthcoming census having been shown by the members of the census committees of both the House and Senate while the law was under consideration.

The statistics gathered on mining will include all oil and gas wells. Many startling developments in this important branch of the nation's resources are looked for by census officials. The figures gathered in Texas, Oklahoma and Kansas will no doubt prove to be those most eagerly sought for, as shown by inquiries already received by the Census Bureau.

The compilation and gathering of forestry and forest products statistics will be in charge of a special force of experts. The accurate and comprehensive figures gathered concerning this vital natural resource will be much in demand, and the comparisons made with conditions existing before the war will be of interest.

Agricultural statistics will likewise be the subject of special effort on the part of the Census Bureau as the importance of farming is being realized by the average citizen far more than ever.

"ALL WORK AND NO PLAY—"

—oo—

There are some of us who always loaf,

And some who always work;

Then there are those who mix the two

Altho they never shirk.

Now the man who's always shirking
Is the man who fails to rise,
And the man who never stops to rest
Like the fire-fly quickly dies.

But he who works and plays by turns,

Whose work is done his best,

Is king of all, for he has brains
Made strong by work and rest.

Puss—'23.

Y. M. AND Y. W. C. A. PARTY

—oo—

On Friday night, November seventh, the Y. M. C. A. and Y. W. C. A. entertained the students and faculty of the college at a party in the new Y. M. C. A. building. This marked the formal opening of the building and was for that reason doubly interesting. The first part of the evening was spent in getting acquainted and in going thru the building from basement to attic. Then an excellent program was given in the large auditorium. After the program a hand shaking contest took place which lasted until a delicious lunch was served. The whole evening was thoroughly enjoyable and bore witness to the fact that the associations on this campus are not merely names, but live, powerful forces in our college.

See Dragert for violin lessons. Phone 3636.

HESPERIAN LITERARY SOCIETY

—oo—

The Hesperian Literary Society, men's literary society of the high school, met and organized for the year last Thursday evening. Seven new members were initiated making a total of nineteen in this live organization. The society is planning to make this one of the liveliest years of its history. More members are wanted but only 'live ones' need apply. Following are the officers for the year: Pres. S. Thorfinnson; V. Pres. Fred Hulett; Secy-Treas. Walter Biggs.

SPEED

—oo—

The speed of submarine telegraphy illustrated by the fact that five minutes are usually sufficient to cover a complete buying and selling operation between the London Stock Exchange and Wall Street. The distance between these two points is about 4,000 miles and it takes the message less than a minute for the journey.

Wednesday evening the football squad departed for Detroit, Mich. to play their last game of the season with Detroit College. They will not do directly to Detroit but will stay for a day at the U. of Michigan where they have been granted use of the clubhouse and field for rest and practice. From there they will go on to Detroit where the game will be played Saturday afternoon. A day or two will be spent in seeing the city and resting before they return home. Sixteen men besides Coach Borleske made the trip and the following men were the fortunate ones to go: Latimer, Ball, Mares, Underwood, Peterson, Hunter, Murphy, Hayes, Borderud, Wiper, Reis, Møvold, Weinberger, Munkeby.

SOME FIELD

—oo—

In the Fargo Forum's writeup of the A.C.F. C. game, we find this sentence: "A cloud hung over the field, which during the second half let out a sleety shower." If our field can do such wonderful things as that, why not make a second Yellowstone Park of it?

The Achoth sorority entertained nine guests at a Halloween party, Wednesday October 29. Swimming was enjoyed at the Masonic Temple from four to six. The party then adjourned to the home of Frances Sim, 1013 Fifth street north, where a delicious dinner was served. The dining room was cleverly decorated in Hallowe'en colors and a Hallowe'en menu was carried out.

The first number on the Polytechnic Society program will be given on the night of November 19th, when Prof. A. E. Minard will lecture on the subject, "Materialism vs. Religion." The meetings will be held in the Physics Lecture room as usual this year.

Office of True Friend.

To know that you have a friend concerned in your struggle robs it of half its hardness. Disappointments that would assume bitter proportions lose their edge in the friend's smile. He helps us see that matters might have been worse. Emerson is never tired of extolling the merits of the nurse of his childhood who always helped him belittle his petty hurts by being glad they were not much more painful. And that's the office of the sincere friend. His office is to bring out our best and make us manly.

Ivory in the Middle Ages.

In the middle ages ivory was extensively used for writing tablets. One of Chaucer's characters has "A pair of tables all of ivory," and again the same writer speaks of ivory chess men: "The chess was all of ivory, the meyne fresh and new." Ivory was also much used for making caskets and mirror frames during the middle ages, and these were often elaborately carved.

Of Latin Derivation.

Corps is a French word derived from the Latin corpus, a body, either civil or military, as a police corps, marine corps, etc. It does not signify any particular number, but an organized body. In the United States army a corps consists of two or more divisions, each containing three brigades and each brigade three regiments. The term first came into use in this country during the Civil war period.

Being a Politician.

You cannot help being a politician. You cannot live for an hour without being a politician. But what a man generally means when he says that he is not a politician I am afraid is this—that he has been all his life enjoying his political privileges and grossly neglecting his political duties.—Rev. Hugh Price Hughes.

They're So Common.

"The trouble with being a hero," says a soldier, "is difficulty in acting up to the part." Which reminds us of what Admiral Dewey said in the height of his fame. "It is very pleasant to be a hero, but a continuous performance is hard on the nerves."—Boston Transcript.

The People's Taste.

Who are by way of eminence the poets of all mankind? Surely Homer and Shakespeare. Now Homer formed his taste as he wandered from door to door, a vagrant minstrel paying for hospitality by song; and Shakespeare wrote for an audience composed in great measure of the common people.—George Bancroft.

So He Had to Help.

"Some fellows seem to think it is smart to forget to mail the letters their wife hands 'em," said the matrimonial martyr, "but I had my lesson. I forgot to mail one my wife wrote to her mother asking her to postpone her visit till we got our housecleanin' done."

Fabrics From Peat.

Experiments with peat have been considered successful in producing the following articles: Fibers which can be used for carpets, draperies and clothing; artificial wood for paving, railroad ties, etc.; stuffing for mattresses, pillows and cushions.

OH FUDGE

SPARKLERS, EH?

We notice that one of our esteemed contemporaries down town came out last week with an announcement of a banquet to be held by the "North Dakota Pyrotechnic Institute." Evidently lots of fireworks were expected—and just between you and us, they were there too, even though they were of the verbal variety.

NOT GLOOMY, HOWEVER

Speaking of the last three dances at the Theta Chi party, Solomon the Second rises to remark: "They were just like moonlight waltzes, with the clouds over the face of the moon."

IT CAN NEVER HAPPEN AGAIN

Still speaking of the same subject, how does that equare with your definition of the end of a perfect day? We beat Fargo College and firmly established our championship, then we had a good supper and each took a sweet little lady to the Armory and danced—and danced—and danced * * * * * And just at the close, the lights went out! Oh boy!

THE STRIKING FUTURE

Wife: Isn't my new hat a perfect bird?
 Hubby: Yes, but don't you think it has a rather prominent bill?

F. C. TEAM

Fargo College,
 Hall of Knowledge,
 Praise is due.
 Albeit lamely,
 You fought gamely,
 Here's to you.
 Stub (Not so nutty as usual.)

STOCK JUDGING

TEAM PICKED

The winners in the contest for the honors of representing the College at the International Stock Show at Chicago were announced this week, by Prof. Thompson of the Ag Department. Among the ten or a dozen candidates six were chosen. Those who were found best capable of being our representatives are: George Hanson, Percy Lowe, William Bina, Charles Struble, Hamlet Larson and Monroe Kirk. The team will leave about the 20th of the month for a trip to several large stock farms and Ag schools previous to their week at the International. Their two weeks' jaunt should give them wonderful experiences.

There are some 90 Freshmen taking the course in Library Methods this term. The extra work required by Miss Pearson this fall in taking care of so many is expected to be made up in the four years following when the Freshies will be able to take care of themselves among the "stacks."

INTERIOR LUMBER COMPANY

AGASSIZ STAFF PICK OUT BY EDITOR

An Agassiz this year of superior quality seems an assured fact with the announcement this week by Editor Ralph Baker of his staff of helpers. The list includes a number of the ablest Juniors and Seniors.

Work has begun on the Annual and such things as price estimates on cuts and printing subscribed for. Considerable work will be accomplished before the holidays.

Following is the 1921 Agassiz Staff:

- Ralph W. Baker, Editor in Chief.
- Stewart Kelley, Ass't Editor.
- Ralph Matters, Ass't Editor.
- Roy C. Reis, Business Manager.
- Culver S. Ladd, Ass't Business
- Culver S. Ladd, Ass't Business
- Louis R. Croal, Ass't Business Manager.

Associates:

- G. E. Andrews, Music
- W. S. Underwood, Athletics.
- C. H. Pearson, Military.
- W. P. Mortenson, Departments.
- E. W. Frost.
- Gladys Engle.
- Mathilda Thompson.

Y. W. C. A. NOTES

Girls, remember our weekly meeting next Wednesday, when Mrs. E. S. Keene will speak on the social problem. Then "The Sunbeam Choir," directed by Mrs. Williams, will also sing for us. Be sure to come, and bring your friends.

At our last meeting Mrs. H. L. Bolley gave one of her interesting talks on the development of social welfare work in this country. Her speech certainly brought home to all those who heard it many of the present day needs and conditions of society. As a special number, the Misses Ethel McGuigan and Bernice Noyes played a piano duet.

If we had suddenly stepped into fairyland last Friday evening we couldn't have been more delightfully surprised than we were when we saw the Y. W. C. A. room in the new Y. M. C. A. building. It seems almost too good to be true. And, girls, make use of it. It's there for you. Step in while you're waiting for the car instead of freezing on the corner. If you've been there once, you'll want to come again.

BEST MEAL IN TOWN.

Miss Harriet Pearson of the library staff returned Wednesday from Valley City where she was in attendance at the State Library Association meetings being held in that city the 10th and 11th of this month. She reports good meetings in spite of the rather inclement weather. She says the Valley City folks had arranged a boat ride on the Sheyenne river for Monday, but that it was decided to postpone this enjoyable event to some more favorable occasion.
