

THE SPECTRUM

EDITED AND CONTROLLED BY THE STUDENTS OF THE NORTH DAKOTA AGRICULTURAL COLLEGE.

VOL. XXXII, NO. 4. NORTH DAKOTA AGRICULTURAL COLLEGE, THURSDAY, JANUARY 30, 1919.

PRICE FIVE CENTS.

TWO SORORITIES GIVE "HOP" PARTIES

Two sorority dancing parties marked the highwater social events of our college the past week. The first of these was the Delta Phi Beta sorority party, at which were entertained the Phi Upsilon Omicron fraternity, the Achoths sorority and some of the new girls, on Friday evening, January 7. The event was held in Ceres Hall dining room. The room was beautifully decorated with ferns and the orchestra was surrounded by a charming white fence, each post topped by a fern. Sorority letter blanket was used in decorating and pillows and blankets of the Sorority formed inviting cosy corners of the evening. Miss Clara Pearson acted as frappe and wafer waitress of the evening. The Rag-time Twins furnished real live, peppy music for dancing, the kind that makes you have the good time every one declared he had enjoyed.

Oh, have you heard about the Phi U party? The Phi U's entertained the Delta Phi Beta's, the Achoths and some of the new girls at a dancing party Friday evening at the armory. We all had the best time possible.

The platform was placed in the center of the armory and a white fence was placed around it. Ferns were used for decorations. Incidentally the orchestra was on this platform.

I suppose the next question of interest to you is, "who was whose?"

First and foremost the head waiter of Ceres Hall dining room was there with Edith Challey, who says that altho she is not the head of a table she IS the foot. That's the most important part of the table anyway, isn't it Edith?

And speaking of Mutt and Jeff what better example could you wish to find than Anna Jorgensen and Karl Frojen.

Right here I must tell you about the girls who swapped—not saying what they swapped. You know it was rather an inconvenient time for a sorority party since the girls had all summoned up courage, only one short week before, to ask boys to another party. And then they had to do the same thing all over again. To make a long story short—there happened to be two girls who wanted the same two boys that they had asked to the first party to be at this one. Since they didn't think it would be perfectly proper to ask them again they settled the difficulty by exchanging boys (only the boys didn't know about it).

Of course Esther and Harold were there. No party would be complete without them.

Oh yes! and Tom Aikley and Marian Addison were there tripping the light fantastic.

You know the saying, "Everything comes to him who waits." Ask the waiters of Ceres Hall, they were well represented.

Dancing began at 8:30 and ended at 11:30.

Yes, Alice, we all agree with you. The armory was built too near to Ceres Hall.

The chaperons were Mr. and Mrs. Schlichting and Mr. and Mrs. Randlett.

Ruth Briscoe and Clara Pearson served frappe during the evening.

BARNHART TEACHES US TO SING

Harry Barnhart, noted community song leader of New York city, spent Saturday, Sunday, Monday and Tuesday of a week ago with the college, leading us in some college and community singing that has been an inspiration to everyone in Fargo and the A. C. who had the opportunity of hearing and being led by him. Mr. Barnhart came as the first number of the Citizens' Lecture Course, but employed his time here a great deal more than in just the one lecture and demonstration Tuesday evening. He, of course, favored the college with a great deal more attention than outsiders because we were more favorably located for his purposes.

Mr. Barnhart first demonstrated his ability in Ceres Hall dining room, and was there with the students on several occasions. He led the crowd in a sing before a Festival Saturday evening, and again Sunday afternoon led off in a big community demonstration. He held a practice chorus Monday afternoon and his big demonstration Tuesday evening. Mr. Barnhart also proved himself a capable singer as well as leader and

AGGIES TAKE FIRST THREE AND LOOK LIKE MORE

THE INGATHERING A BIG SUCCESS

The postponed Harvest Festival, 'The Ingathering,' held in the college armory the evening of the 18th, was a success equal to any those participating and leading it could wish for. Mr. Arvold and Miss Lieberg with their assistants had worked faithfully to make the production what it was and its success is due in great measure to them.

We wish it were possible to give a detailed description of the theme of the festival, its development and the characters it contained but lack of room forbids this. Suffice it to say, however, that dances of the children were indeed well worked out and that the solo and interpretive dancing was very fine, too. The part of 'Pan' taken by Harold Phillips and the interpretive dance by Miss Sell and many others were especially well worth mentioning. Besides the acting Mr. Arvold had worked out the decorations and color scheme very well and while the stage setting was simple it held the appearance of the strength which was so necessary in a festival of that kind.

After the festival the floor was cleared and the young people of the college enjoyed themselves in a session of dancing.

We wish that he could be with us longer as there is no doubt but that he would stir up an enthusiasm and spirit thru singing in our college that would surprise us all.

Scrappy Team Work and Hustle Prove Too Much for Jamestown, Concordia and Wahpeton Science.

A. C. SCORES WIN ON FIRST.
The final tally of 31 to 19 by no means indicates the ease with which A. C. took the honors from Jamestown College in the first game of the season last Friday evening. At no time during the evening did the visitors threaten us and it was only in the end of the last half when A. C. began sending in substitutes that the J. C. quint started to score persistently and even then at no great increase.

We cannot mention any particular star work on our team because none stood out much above the other, however, our boys played a good consistent game in which the beginning or strong team play is showing well. We believe this augers well for our teams future as a unit—a strong team rather than a collection of individual stars.

Rathman and Thomas were Jamestown's best, these two men ringing up all but one point for their team. Rathman persistently slipped thru the guards and shot baskets from most difficult positions.

First half of the game was far faster than the last, the score at this stage being 19 to 5. Jamestown had started with a rush but soon winded themselves never fully recovering. The second half was tied, 14 to 14.

We believe the work of Coach Movold is showing up very favorably and that our fellows have the winning stuff in them. We know, too, that with such a start our team deserves the unqualified support of the entire student body.

Following is the lineup of the game:

Ag. College vs. Jamestown College	
Reis ----- f -----	Badger
Gardner ----- f -----	Rathmann
Anderson ----- c -----	Landis
Horne ----- g -----	Thomas

(Continued on page 2.)

Y. W. GIVES THE COED PROM.

The third annual Coed Prom, slated for the evening of Feb. first, will this year be given by the Y. W. C. A. of the college. This is one of our big annual events and judging from the preparation going on for the affair it will be history making. The only trouble the college men find with the Coed Prom is that they are not invited—not wanted, in fact. The fact that our college has some live young ladies will be amply demonstrated next Saturday night, we wager. Gocher costume Reddy?

TO GET YOUR SPECTRUM.

There has been considerable confusion in the past in getting the Spectrums to the students, and the management has therefore adopted the following policy of distribution. Spectrums will be delivered to Ceres Hall and the four fraternity houses, the quota for each being the number of students making their campus headquarters at these places. A table will be placed under the Organization Bulletin Board in Main Building lobby and any one not otherwise receiving a of the Spectrum will be entitled to take one from there. The students taking papers from this table will be asked, however, to take but one sheet and not to throw it on the floor when thru reading it. The table will be left in this place from Wednesday afternoon until Friday morning. The regular subscribers of the paper will receive their copy thru the mails.

It is certainly true that a great number of our students found a joy in song last week which they had not known before. Our visitor, Mr. Barnhart, if 'turned loose' would soon create in us a college spirit few of us realize exists on our campus. We are sorry he could not be with us longer.

It is right now when our college is starting on the upgrade again that we need care in the selection of our activities, and especially is this so with regard to activities in which the entire student body is interested. What we need most is an event in which everyone will participate on a common basis, for there is nothing which will tend to tear down college spirit quicker than a system of castes among its students. We think of no event which reaches more of our students than does our old-fashioned Cadet Hop, and we know there is none which democratizes our school more. The Spectrum sincerely hopes we may have this event this year and that the Hops may be started in the very near future.

While the matter of nationwide prohibition does not concern our college directly we believe it will not be amiss to make mention of this forward step of our country. Prohibition for the entire country has been inevitable for a number of years and its final adoption last week as a constitutional amendment has been expected for several months. There is no doubt but that this will have a direct bearing on our colleges of the country, and while not so directly in North Dakota as in other states, yet it will ultimately mean a larger and better class of young men entering our institutions of learning. Therefore let us rejoice in seeing our fellowman take this step of benefit for himself and for our country.

We believe that to be true students of our college our Industrial and Short Course men should know our songs and yells—they should know them as well as a regular collegian. No college crowd is fully behind its teams until it knows how to yell for those teams and with but one-third of the students yelling any team would be justified in losing. We suggest, therefore, to the men and women of these courses that they learn our regular college yells and join with us next time our team plays. The Spectrum staff is ready at any time to get copies of these

yells for use among the students. Now, let us have some action in this matter, and some rousing yell practices.

We wish it were possible for every student of old A. C. to read a letter recently received from Coach Davis, our present school athletic leader. Coach, as he always was,—just full of college spirit and pep,—is just as much so now, and even though he may be in Camp Taylor, Ky., he is just as desirous of seeing our college prosper as he ever was. In fact, he is continually planning for our future, and it was just along this line that he wrote. He says: "Give them a lot of dope all the time about how the old spirit at A. C. is on the boom again," and also. "Let everyone thruout the state know that A. C. is planning BIG things NOW and FOR THE FUTURE." He further adds that he will be with us by the spring term, and that he is going TO DO things at that time for next year. Now, every one of us who has ever seen what Coach Davis has done in the past, who has seen the life and vim he has put into his teams knows that he means exactly what he says. We can leave the matter of a team to the Coach and we know we will have a real team. If we could leave the matter of our college fight and pep to the Coach we know there wouldn't be a dead student on the campus. But unfortunately we cannot leave this matter to our Athletic Director but must assume the responsibility ourselves. In other words, if we are to be known as a college with a kick we must get right to work and raise that kick and do it ourselves. We must forget a few of our petty animosities and get out and dig. We will need leaders and we have them, we will need good live students and we have an abundance of them. We do not lack opportunities to prove ourselves, and therefore let us understand it is up to us. What will we do to help Coach Davis put A. C. back on the map and keep it there?

Declamatory Contest On.

The twenty-fourth annual College Declamatory contest will be held in the Little Country Theatre on February seventh at eight o'clock.

All wishing to enter the contest are asked to hand their names immediately to Mr. Arvold, Room O, Main Building.

EXTENSION WORKERS HOLD ANNUAL MEETING.

The annual meeting of the Agricultural Extension workers of our state was held on our campus on the 16th to the 22nd of the month. This was a very important meeting and over 65 of the workers in this service were here. The meetings were held in the Little Country Theatre for the most part, while the address by Pres. W. O. Thompson of Ohio University was listened to at the Fargo auditorium.

This conference is one of the big events of the extension workers and we are glad to welcome to our campus and institution such an array of workers for the state's good.

Aggies Take First Three

(Continued from page 1.)

Heldner ----- g ----- Curry
Field shots: A. C.: Heidner, 4;
Horne, 4; Anderson, 3; Reis, 2;
Lofthus, 1.

Jamestown College: Rathmann, 4;
Thomas, 3. Foul shots: A. C.: Heidner, 3; J. C.: Rathmann, 4; Landis, 1.

A. C. DEFEATS CONCORDIA 31 TO 10.

The Ag. College basketball team journeyed to the Viking stronghold at Concordia College, last Wednesday evening and brought home the Ludefsk. The game was slow and rough due to the slippery floor. Although Concordia was behind from the start the rooting was never let up by the Concordia students. Even after the game they rooted as much as ever.

Reis, for the Aggies, being of Viking descent, was the star of the game, getting six baskets and playing a good floor game.

The second team was sent in in the second half, and all of the men showed up remarkably well. The men are mostly freshmen, and with another week of "Curley Movold's" coaching, it will be hard to tell which team is the first.

The lineups and summary is as follows:

A. C.	Pos.	Concordia
Reis -----	f -----	Estby
Gardener -----	f -----	A. Tanner
Anderson -----	c -----	Lee
Heidner -----	g -----	Reiton
Horne -----	g -----	Lawrence

Substitutes—Lofthus for Anderson; Chaney for Horne; Borderude for Reis; Severson for Gardener; Munkeby for Heidner; I. Tanner for Estby.

Field baskets—Reis, 6; Heidner, 4; Horne, 3; Severson, 1; Lee, 1; Lawrence, 1; I. Tanner, 2.

Free throws—A. C., 3; Concordia, 2.

Referee—Holzer, Moorhead.

A. C. DEFEATS SCIENCE SCHOOL, 25 TO 11.

Saturday evening, Jan. 25, saw one of the fastest and most exciting games played for some time in our armory. The game opened fast and continued speedy thruout. A. C. scored first, Horne making the basket, and our men continued to score steadily all evening. Both teams were in excellent condition as was shown by the speed held during the entire game. The team work of the Aggies outdid the Science School, however, and was the feature of the evening.

All spectators were delighted by the passing and fine headwork of our players.

Heidner and Reis starred for the Aggies, altho all the boys showed up fine, while Storey and Sletter scored for the Science School.

In the second half Beals went in as substitute for Lofthus, and Chaney for Horne. Both Beals and Chaney are first year men and give promise of being valuable material for our team.

The game was rather marred by fouls but these were probably due to

Lineup was as follows:

Reis -----	f -----	Storey
Loftus -----	f -----	Early
Anderson -----	c -----	Everwind
Heidner -----	g -----	Sletter
Horne -----	g -----	Mickelson

Baskets were made by Reis, 5; Loftus, 1; Anderson, 1; Heidner, 2; Horne, 2; Storey, 1; Early, 1; Everwind, 1.

Free throws: Heidner, 3; Sletter, 5.

Referee: Peter Tierney.

The student body showed up very well as a whole, and we demonstrated the fact that we have the spirit if it is only aroused in the right manner. It should be the duty of every student to attend these games and do his bit in arousing school spirit and "pep". We were glad to see "Pat" back at his job as yell leader and hope to see him continue there. It was fine to have our College spirit aroused again.

Quite a number of Wahpeton Science students attended the game—altho they did not get a very cordial reception. We are wondering where "Doc" and his band were as we missed them.

LOCALS

Anyone wanting work for board and room or by the hour, see Esther Woldy, Pres. of Y. W. C. A.

Mrs. Woldy of Edmore is here visiting her daughters, Esther and Alice this week.

Sgt. Major John Pease, from overseas, will give us some personal war experiences at next Monday's convocation.

Miss Irick, of our college book store is enjoying a month's vacation, at Oak Park, Ill. Miss Laura Gerard of Fargo is taking her place while she is gone.

The prospects for one of our best Junior Proms are becoming larger every day. If everyone of us will take hold there is no reason why our school cannot have an event this year which will go down in the history of our school well remembered.

Have you your declamation ready for the Annual Declamation contest, Feb. 7th? This is one of the important school dates for the year, and if it were possible all of us could afford to take part. Miss Ethel Touley won first honors last year.

One of the most welcome of recent visitors on our campus has been Walter Baumgartel of the class of '14 of A. C. He was on his way home from Camp Greenleaf, Ga., where he has been in the psychologists corps. 'Smiles,' when he had last heard of him, had been leading the gay life of a bachelor in the Extension Service out in Montana and we were doubly surprised when we found he had been included in the nation's service flag. He says he has found no one as yet who has been able to induce him to say Yes to some certain 'magic words' we've heard of but that we must never base our expectations for his future career on his past performances. Well, good luck to you, Walter, no matter who she is.

WHAT DID YOU DO?

Dr. W. T. Pearce of the chemistry department is one of the latest to succumb to the activities of the 'flu bug.' His assistant Vernon Ladd, has also been taken down by the same little worker and the Freshmen chemists are apparently making good use of their enforced vacation. The Doctor will be back in a short while, however.

At the recent meeting of a group of representative agricultural workers in Washington, D. C., Dr. Ladd was appointed along with several others as their representative in France to be there during the Peace Conference. At the present writing, however, he has not received his passeports and may not be called upon to go.

The Spectrum receives quite a number of exchanges and a file of these will be attempted in the library. If you are interested in some friends in another college make use of our exchanges.

A number of our alumni were in attendance at the Extension Workers conference held here last week. Among them we saw Mr. and Mrs. Grove Edwards, William Guy, Ray Babcock and others. Chas. Clark of the Bureau of Serial Investigations, Washington, was here also.

Lieut. George Mayou, '18, was a visitor on our campus last week, spending a few days at the end of the week at the Kappa Phi house. George was one of our last year seniors who had the opportunity of finishing his course and graduating and then because the reserve force he was enlisted with gave him no action he decided to go with the draft men. He was stationed at Camp Jos. E. Johnston most of the time while he was gone and altho he did not have the opportunity of crossing the 'pond' he got what he was after mainly: action. We certainly approve of George's policy.

If we happened to be one of those who ever knew him we were more than pleased to welcome Henry Holt back to our campus last Thursday. Hank's been at the Naval Training Station at Municipal Pier, Chicago, training for a commission in the Navy, but he decided that to finish up his course at A. C. was to be preferred above honors in the Navy so left the school and is now with us for the rest of the year. He looks as trim as the best little destroyer that ever sailed the seas and appears trained enough to handle an entire fleet of U-boats, if he ever met 'em.

At a recent meeting of the Country Life Association the Short Course students decided to lead off in the matter of our college yells and song. Not a one of the collegiate students but is pleased to hear of this, for we have felt for some time the lack of lots of spirit from this department of our school. The Short Course young men and women are to be congratulated upon their attempt at becoming more one of us. We can ex-

pect to be agreeably surprised in the near future.

Percy Lowe, one of our good looking sophomores, has been spending the last two weeks teaching in Fargo High, where several of the teachers have been sick.

The Theta Chi fraternity initiated and received into membership the following men Saturday evening: Kenneth Clark, George Beals, Jack J. Banks, and Leonard Sivertson.

We know the entire student body is well pleased at the prospects for the continuation of our Cadet Hops. The first one is promised for us in the near future (Friday afternoon) and no student of our college should miss these get-acquainted and informal events.

Our campus has been quite free of flu thus far this term and it has been only in the last few days that new cases have put in their appearance. It is to be sincerely hoped that the malady will not again gain the foothold here that it had before the holidays. No one is seriously sick and the best can be looked for.

Peter McKenzie, one of our old students but called into the service last spring, was a visitor with us last week. He came in to see the Jamestown game. He has been stationed at Camp Zachary Taylor at the artillery officers' training school there and was discharged recently. He returned to his home at Fergus, N. D., but will be with us in the near future to continue with his course.

We are pleased to see the interest being taken in the college social functions this winter. This only goes to show that we have more of the old A. C. spirit in our veins than we had thought for. The opportunity has been and will be presented all this term for us to show our school 'pep' and 'fight' at some of our basket ball games, and for a large number of us and for most outsiders this is the one best method of showing our school 'colors.' At all events we feel that our college is surely regaining her footing, and that it will be only a question of time before we will be as 'live' as any of them.

'Tis reported on good authority that one of our well-respected language teachers attempted the Immelman Turn, or was it the Diving Corkscrew, in class one day last week, but that just at the critical point of the maneuver the gyroscope failed to respond or the power stopped and he was carried with his conveyance to cold solid earth. As fortune would have it the distance was not great (some two or three feet) and he managed a landing as light and graceful as operating conditions and conformation of the terra firma thereabouts would permit. 'Tis reported also that the members of a certain French class went about the campus that day with an expression closely resembling a whole flotilla of joyous and well-fed hippos.

ATHENIANS HAVE RE-ORGANIZED FOR WORK

Just to prove that all the free-will organizations on our campus have not expired and more to prove that we still need a literary society the Athenians met and held their first meeting of the school year on the evening of the 16th, and also met and held a regular program on the evening of the 23rd of the month. It was indeed a joy to the older members to see the life and pep which the meetings exhibited.

At the first meeting a short program was held on which numbers by Harold Schlichting, Helen Holl, Rudolph Frigstad and Hugh Robinson were rendered, and a short business meeting held afterward. The officers for the winter term who were elected at this time were: Pres. Nettie Thompson; Vice Pres. Harold Schlichting; Secretary, Delia Askegard; Treasurer, Wm. Bina; Sgt. at Arms, Hugh Robinson.

The meeting on the 23rd consisted of the following program: Talk, 'Aeroplanes', Harry Hoffman; Vocal Solo, 'Mother Machree', Clarence Jensen; Talk, 'Helps for Athenia', Mr. Arvold; Guitar Solo, 'The Palms', Richard Falkenstein; Talk, 'How Athenia Touches Our Campus Life', William Bina. This was an especially live meeting and especially so since prospects for a continuation of the same kind were so good.

The other college literary societies could well afford to follow the example set by the Athenians, reorganizing and pushing ahead in spite of war conditions.

AGGIES HAVE SNAPPY SCHEDULE TO PLAY

Coach Movold and Athletic Manager Billy Willson have arranged a snappy and heavy schedule for our team this year. We are to have some real basket ball games before the season is over, and A. C. fans may look for some treats in this line. All of the games listed are with teams whom A. C. has fought before and we know what we are saying when we say our team will fight this year as never before. This is the comeback year in more ways than one. We as students, must realize and fulfill our duty to the fellows by getting out and showing them that we appreciate what they are doing for us.

- Following is the schedule:
- Feb. 1—Battery F, here.
 - Feb. 3—St. John's, there.
 - Feb. 5—Wahpeton Science, there.
 - Feb. 7—Another game on this same trip.
 - Feb. 8—St. John's, there.
 - Feb. 11—Concordia, here.
 - Feb. 15—Jamestown, there.
 - Feb. 17—Fargo College, there.
 - Feb. 22—U. of N. D., there.
 - March 1—Fargo College, here.
 - March 8—U. of N. D., here.
- The last four of these dates are red letter events and don't forget them.

The Alpha Kappa Phi's are contemplating putting in a boarding table in their house sometime in February. This is the first time this fraternity has attempted anything along this line and they are to be congratulated on the project.

LET'S SEE, WHO'D THEY SAY WAS INITIATED.

PROPOSED REVIVAL OF OLD ORDER

Not so many years ago there existed on this campus an order with a high purpose—at least its members always looked up and ever attempted to observe that part of mankind most closely related to his mental (or supposed mental) region. This order, however, had a most curious habit, a habit which sometimes caused trouble but which also often caused the most sudden and startling transformations—and, too, these transformations were always in the upper regions (another indication that the order had a very lofty purpose and ideal). Its members would slip quietly about the campus always looking upward, and often with pencil and paper would make notes, whereupon they would as quietly disappear for consultation, and for those who knew it when they saw it, evidences of this curious habit of the order would appear about the grounds in a very pronounced manner within a day or two. And, oh yes, we forgot to mention the name of this strange brotherhood—S. F. E. was emblazoned on their caps, but they called themselves the Honorable Order of Superfluous Foliage Extractors. Now, you will say, that foliage pertains to earthly and lower things and that there can be no high and noble purpose connected therewith, but, my friend, I am sure you will grasp the connection when I say that the symbols of the organization were a pair of clippers and shears closely draped about the S. F. E. insignia. Yes, the high and lofty purpose, that strange and troublesome habit and those curious actions all hung on those clippers and shears as 'live as a cold lobster, while the Superfluous Foliage—well, as we remarked before there were transformations on the campus, sudden and pronounced (it wasn't on the hedge in front of Ceres that it happened either) where Shorthorn didn't recognize his Shorthorn pal and Freshie had to be introduced to Freshie again before the two were on a common basis. In other words, we had a pretty well trimmed crowd at A. C. that year, and the barber had no excess profit taxes to pay, either. Now, my Shorthorn and Freshie friend, you understand the argument I'm sure, and there are plenty of older students hereabouts to direct you to the nearest red, white and blue pole if you but ask them. Else we may have to start the S. F. E. order again, and mind, those initials might likewise stand for Sudden, Fast and Energetic.

Fred Corbett, an old student of the Agricultural College was listed among the Missing in one of last week's papers. He was in our school during the winter of '14-15. His home is in Fargo.

The Short Course students were so desirous of keeping up with the times that a number of them volunteered for military drill and are now taking three hours a week of this form of exercise. Pat Keeley has been acting captain of their company.

Y. W. O. A. HOLDS YEAR'S FIRST MEETING.

The Y. W. had its first meeting of the year, January 15th. Miss Esther Wolody gave a helpful talk on "Friendship" which all enjoyed very much. Two musical numbers were rendered: a piano solo by Laura Kelley and a vocal solo by Margaret Chandler.

The next meeting will be held January 29th and will be a recognition service for the new members. Tuesday and Wednesday of this week there will be a campaign for new members who will be taken in on Wednesday evening.

The cabinet met Friday, January 23 for its regular meeting. It will meet every Monday, alternating at 5 and 1 o'clock.

PLAYLET MAKES BIG HIT.

"George Washington's First Defeat," the first of a series of eight plays which are to be staged under the direction of the members of the class in Play Production, was given Tuesday evening, January 28th at 6:45 in the Little Country Theatre. For a play of its nature it was a decided success.

Cast of Characters.

George Washington—Thomas Ageley
Lucy ————— Katherine Blake
Maid ————— Nell McCarthy

Our term 'conditions' were held Saturday, at which time a number of poor marks were cleared up and some past records straightened out. The term's grades will be out for our next issue.

The game here Friday night—A. C. vs. Moorhead Battery. E—is going to be one of the closest fought games of the season. Our fellows have won everything so far and we are confident they will win this game, but it is up to us to get out and support them. We will hold a rally this week, and Yell-leader Pat Keeley will give us a few pointers on 'How to Clear a Dusty Throat,'—a class no one in A. C. can afford to miss. Bring a tin horn, bring a dish pan, bring a lemon and if you don't like the address of the day use them.—then Saturday night bring anything else you like that will make a noise. The main point is to USE them.

The Alpha Kappa Phi's initiated and gave the fraternity's obligation to the following new members Saturday night and Sunday afternoon: Herbert Zimmerman, Clarence Jensen, Leonard Bilden, Joseph Sorkness and Rushby Divet. The faculty members of the fraternity—Dr. Schalk and Professors Minard and Sudro—were present at and superintended the Sunday afternoon's events. 'Tis said the boys enjoyed baths in all temperatures of water from zero up, that they slept (if that was possible) with mustard plasters on tender parts and otherwise enjoyed themselves as best they could while in close connection with the business ends of several paddles. N. B. See another part of this issue for a more graphic illustration of this important event

CERES HALL CELEBRATES FOR MISS FALLYER.

The faculty members of Ceres Hall dining room planned a very successful surprise party for Miss Fallyer, after the basket ball game, Friday evening, the affair being inspired by her birthday. A delicious repast was served, of which a magnificent birthday cake was the main part. Miss Fallyer's future was revealed by clever poetry and suggestive gifts.

Marjory Leiberg was a Sunday guest of Esther Talcott, at the Waldorf.

Dagna Rasmussen spent Sunday last, in Moorhead, visiting at the home of her Grandfather.

Miss North went skating at the popular Island park rink, last Saturday afternoon.

Mr. Fiebiger visited his daughter, Anna, who has been ill the past week.

Mrs. Wm. Furlong of Colgate visited her daughters, Lena and Mae, at Ceres Hall this week.

The Ceres Hall house committee held a meeting, Monday night, and now some of the East corridor girls are proud possessors of points.

Popularity is divided between Moorhead trips and laundry work as light occupations for Saturday afternoons of Ceres Hall girls.

Marie Kirk and Cecil Van Hook gave a spread Saturday evening; about fifteen girls were guests. The chief form of amusement and excitement was the appearance of the uninvited guest, a wee mouse, who had evidently smelled the feast for he has haunted the corridor since.

Ethel Evingson was a week end guest of her sister, Keziah, in Ceres Hall.

Marian Pannebaker made her usual trip home, to spend the week end holiday.

The hospital corridor was well tenanted, last week, every room being occupied by a victim of the influenza.

Grace Kotchian was the guest of her sister, at the Gardner, last week.

Miss Mildred Copeland, of our staff, has been a little under the weather lately due to an attack of the 'flu', but is now reported on the mend.

A note from Wm. Mortenson lately gives him as enroute to Camp Dodge. He says he expects to be mustered out soon and will be with us immediately after. 'Bill' has been out among the lumber jacks on the Pacific coast helping cut our aeroplane spruce. He ought to be a full-grown man by now and quite fit to take up his work where he left off a year ago.

Miss Harriet Pearson of our library has been the guest of honor at two parties this week, the occasion being her birthday. The first of these was given by Miss Fallyer Thursday evening and consisted of a sleigh ride party and spread afterward, while the second was given by Miss Pearson's mother and was a juvenile party held at her home. Miss Pearson will probably not forget this anniversary for some time.

R. O. T. C. Officers Appointed

Major Steele of the military end of our College made the following appointments of officers—commissioned and non-commissioned last week. These men are now acting in their assigned positions. Following is the order:

The following appointments and assignments in the battalion are announced:

Major and Assistant Military Instructor—C. H. Pearson, 2nd Lieut. Inf. U. S. R.

First Lieut. and Adjutant—Alan A. Shively.

First Lieut. and Quartermaster—Andrew Erickson.

Company A.

Captain—Patrick E. Keeley.
First Lieut.—Hugh Trowbridge.
Second Lieut.—Louis Anderson.

Company B.

Captain—Fred Ball.
First Lieut.—Owen Lofthus.
Second Lieut.—Anton Flamer.

Company C.

Captain—Stewart H. Kelly.
First Lieut.—Robert Maree.

Corporals—George Madsven, Snorri Thorfinson, John C. McMillan, Otto Heidelberg.

Company C.

First Sergeant—Howard Johnson.
Sergeants—Walter E. Arnold, Hugh Scott, Allen W. Leemon, Robert Heine.

Corporals—Harry A. Hagerot, Kenneth Johnson, Roy Williams, Ivan Ebner.

The basket ball warriors of the A. C. and M. T. High School journeyed to Barnesville, Minn., Friday night with 'blood in their eyes' and returned—with more blood in the same place. The Barnesvillians robbed them of victory by a score of 21 to 8.

Capt. Ward Porter, one of our graduates, was a visitor on our campus last week. He was just recently married to a Minneapolis young lady and was taking a short vacation in this part of the country. Capt. Porter went back to Texas Thursday where he is stationed.

Lieut. Hutzler Metzger returned to school this week after about a year's service in California, Texas and several other points where he has been training to fly. He did not have the opportunity of getting into service in France, but, we believe, our returned friend would have made the Kaiser's best sit up and take notice.
