Philo-Pythia Debate-- Literary Society Stuntfest To Be Held In The Little Country Theatre

Small Admission Fee To Be Charged

### OFFICIAL PROGRAM

#### PART ONE

Debate—Subject: "Minimum Wage."

#### Affirmative

"Pythia"  
Rosella Ladd  
Mary Gibbens

#### Negative

"Philo"  
Houghton Harrington  
George Dixon

#### PART TWO

#### Stuntfest

Symphony Orchestra ----- Athena  
Mysteries ----- Philo  
The Spirit of '76 ----- Pythia

## Spring Work On Farm Started

Seeding on the Demonstration Farm at the College started last Wednesday and is now well under way. Five four horse teams have been at work for over a week now putting the soil in condition to receive the seed. The now manager of the farm says that all farm work can now be done in the fields.

The significant fact of the seeding on the agricultural farm is that it sounds the notes of spring and that thousands of farmers throughout the state await the beginning on this farm before they start their spring work.

Reports from several different sections of the state show that snow remains to a small extent but it is disappearing rapidly with these nice sunny days, while in other parts of the state where there was very little snow all winter work has been in progress for some time.

With the opening of an early spring and a good amount of moisture the conditions seem to indicate a very successful year for the agriculturists thruout the state.

## Mrs. Ladd Entertains Katherine York

Mrs. F. E. Ladd entertained a number of friends, last Tuesday evening in honor of Miss Katherine York who left Wednesday for Ferguson Falls where she will coach the senior High School play, later going to Chautauqua work with the Red Path Company. The members of the college faculty present, were Misses Taylor, Dinan and Grasse and Messrs. Thomas, Norman and Hurlbert. The other guests were friends of Miss York from the city. Cards were enjoyed during the first part of the evening and after a delicious supper was served. Dancing was enjoyed until a late hour.

## High School Play Huge Success

The three act comedy "A Scrap of Paper" was presented in a most able manner by the Senior Class of the A. M. T. H. S., Friday afternoon and evening. The scene is laid in chateau of the old naturalist Brise-mouche, whose character was played by Arthur Biles in a most comical and efficient manner. Carl Lolland and Winnifred Pope in the parts of Prosper Couramont and Madlle. Suzanne De Ruseville did excellent work as they were both obliged to do quick maneuvering and skilful playing. Miss Fern Briscoe as Louise De La Glaciere and her husband Carl Peterson as the Baron De La Glaciere were characteristic of the period and vividly pictured a girl's inability to settle affairs for herself. The part of Louise's younger sister, Matilda, was played by Marie Kirk. This with Warren Hayes as Anatole, (an ardent admirer of Matilda's) made a very clever and amusing love scene between the two, especially as Mademoiselle Zenobia was so persistent in her efforts to separate them. In this character Katherine Herzer assumed such a mixture of old maid oddity and matronly vanity that the audience was kept in constant uproar. The part of Baptiste, Francois, Madame Dupont and Pauline were played by Charles Strubble, John Freeman, Marie McLeod and Irene Haugeberg.

The play was entirely successful and to the Senior class there must be attributed a great deal of credit for their efforts in making such a splendid presentation.

### DELTA PHI BETA SORORITY ENTERTAINS

A very enjoyable social affair took place on Friday at the home of Prof. E. F. Ladd when the active members of the Delta Phi Beta Sorority entertained the Alumni members who have been spending their vacations in the city. The Alumni members who were present are: Isabel Rose, Mildred Wheeler, Laura Taylor, Agnes Halland and Alma Leebey.

## PROF. AND MRS. HOLLIS DOING GOOD WORK THROUGH THE STATE

Professor and Mrs. Hollis who are connected with the Extension Department of the College left last week for Colgate where they will be present at the dedication of the new consolidated schools of that place. Gov. Hanna will be the main speaker on the program but both Mr. and Mrs. Hollis will have a part to fill. Mr. Hollis has just returned from a trip thru the southern part of the state where he has been holding meetings. On this trip he encountered several different meeting places of the people of that particular district.

One of these meetings was held in a pool room at Millerton said place acting as a church, dance hall, and general hang-out. At this meeting the proprietor cleared away the tables and hung a sheet at one end and immediately Professor Hollis gave his illustrated lecture.

Another lecture was given in the feeding room of the Johnson chicken farm near Marion. The chickens numbering 5000 were taken out and planks and boxes were set up as temporary seats and a goodly number of people listened to the lecture on Consolidated Schools.

## Polytechnic Society Holds Regular Meeting

At the regular meeting of the Polytechnic Society on Wednesday evening, Mr. O. A. Stevens, of the Experiment Station, will present a paper upon Alfalfa Problems. This will include a survey of recent work and the present status of several important questions: (1) Inoculation, with particular reference to the botanical classification of native and cultivated legumes; (2) Fertilization of the flower by bees and otherwise; (3) Germination of the so-called hard seed; (4) The parasitic dodder plant, its various kinds and distribution. The speaker will illustrate his talk by specimens of characteristic native legumes and different types of native bees, dadder plants, and the germination of hard seeds.

Another paper will be given by Dr. M. L. Dolt, of the Agricultural College, upon the subject, The Place for the Physico-Chemical Sciences in Agricultural Investigations. The application of the laws of solutions, thermochemistry, photochemistry, chemical statics and dynamics, electrochemistry, radiochemistry, colloidal chemistry to soil and plant chemistry, and the part played by modern organic chemistry in certain investigations. This meeting occurs on the 14th inst. at 8 o'clock and all interested are invited to attend.

### DR. BATT EXTENDS INVITATION TO STUDENTS.

The students of German in Fargo and Moorhead are cordially invited to attend the fifth annual illustrated lecture in German given by Dr. M. Batt at the Agricultural College, in the Physics Lecture room, Engineering Building, Friday evening, Apr. 16, at 8 o'clock.

The subject this year is entirely new. Many beautiful views will be shown, illustrative of "Die schoene deutsche Stadt" (The German city beautiful). The trip will be taken from the northeast to the southwest of Germany, passing thru such cities as Koenigsberg, Danzig, Hildesheim, Frankfurt, Heidelberg etc. No admission will be charged.

A number of the students were at the station on Wednesday morning when Miss York left for Ferguson Falls. The students are very sorry that Miss York will not be here this term and are looking forward to having her with us again at the opening of the fall term.

## Little Country Theatre Wins Tribute

A photograph of the Little Country Theater shown in the April issue of Country-Side Magazine. The article describes the theater and its task of producing such plays and exercises as can be staged in a country school house or in the basement of a church, or a room in a large farmhouse.

It also gives the Little Country Theater the honor of being first thing of its kind in existence and portrays the good which anything of this kind can do in breaking the monotony of the long winter months in the rural districts.

### SUMMER SESSION TO BE GIVEN AT THE A. C.

The summer session at the Agricultural College opens June 9th and continues until July 16th. The work of the summer session as planned is for teachers especially.

The summer session is under the management of the North Dakota Agricultural College, the state department of public instruction and the superintendent of Cass and Ransom counties.

The schedules have been so arranged as to allow the student to do a maximum amount of work in the short time allowed. This system is especially advantageous to those who wish to study intensively one of the newer subjects or for one who is working for a professional certificate.

Work satisfactorily completed in the summer session will receive quantitative credit toward graduation from the Manual Training High School of the College or from the Agricultural College. Courses in Agriculture, Nature Study, Agricultural Botany, Botany for Teachers, Domestic Art, Manual Training and Education are offered in the summer session.

## Dr. Davis Gives Stirring Address

Dr. Ozora Davis, president of the Chicago Theological Seminary, addressed college men and women in the Little Country Theatre Sunday afternoon upon Gods Gift to Man and Man's Gift to future humanity.

He said that there are two important factors which go to make up the universe. One is "What anything is" and the other "What anything is for." We are constantly brought before a race of curious people who will inquire into our affairs. If we would bear the inspection it is only fitting and proper that we observe the laws of humanity.

Dr. Davis said that our greatest gift from God is self and that our greatest gift to humanity is self. Unless we can so mold ourselves as to become valuable to others we have not developed our gifts. What we need today is workers who are human. The success or splendor of the work depends upon the human efforts. "We have today," so he says, "three perfectly organized systems; namely: The Roman catholic church, The Standard Oil Company and the Young Men's Christian Association." Thru personal and individual efforts these have been so thoroughly systematized that all other organizations have been unable to cope with them. They each leave a mark upon society and upon humanity which can not readily be ignored.

Dr. Davis spoke especially of the work of the Y. M. C. A. This has been so organized as to be of such special benefit to the community centers as is rarely found in any other line of work. The problem of today is not one of a job for a man, but it is rather one of a man for a job."

### PROFESSOR KEITHLY INSPECTS CREAMERIES THRUOUT STATE

Returning last Saturday from a ten day inspecting trip of the creameries, Prof. Keithly of the Dairy department reports that the dairy interests thruout the state are in first class condition and are preparing for the influx of dairy products which they will receive during the spring and summer months.

Prof. Keithly on this trip, visited about ten dairies all of which he reports to be in first class condition. However he reports too that the creameries at Valley City and vicinity stand out somewhat from the rest. These are both property creameries and are doing a very extensive and lucrative business. These kind of creameries are the ones that should be encouraged thruout the state and which will do more to build up the dairy industry than any one thing.

Prof. Keithly left again Monday to resume his inspection of the rest of the state and of the dairy industry in general. It is his purpose to cover all the state and pick out the best points in each large dairy herd and best points of each of the creameries located over the state so that on his return he will have a larger working knowledge of the state dairy industry which he can impart to the students of the various dairy classes which are now under his control and primarily those that he will instruct during the coming year. His chief facts that he will carry in mind with a view of receiving more necessary facts will be those of dairy manufacture and production. These facts will be important factors in his future classes.

It will be seen that with a thorough knowledge of the North Dakota dairy industry at his fingers tips, Prof. Keithly can give facts that are based on a sound foundation and that man valuable hints can be gleaned from the inspection. He also will be able to point out the weak points and can give valuable instruction in ways to avoid their faults. It is of utmost importance to the future students of the institution that Prof. Keithly is able to take this trip.

There are approximately seventy creameries now located at various points over the state. Barnes county, the northern counties and the great Golden Valley have at present the largest percent of creameries.

## Senior Plan Social Events For Spring Term

### Graduating Class Hard at Work on Class Play and Senior Ball

### SENIOR BALL

Next on the docket in the line of social functions comes the Senior Ball, which is to be held in the Armory on April 30th. The committee has been at work since the middle of last term making preparations for this event and this will be the last chance that the seniors will have of entertaining the students and they are determined to do it right. Invitations and programs have been ordered from a large concern in the Twin Cities who make a specialty of novelties in this line and the styles selected by the committee will be certain to please.

Not only will the invitations and programs be up to the minute but by dint of careful management and planning the seniors state that they will be able to decorate the large Armory in a manner that will delight and surprise their guests. Light refreshments are to be served and Bearstein's popular orchestra has been selected to furnish the music for the occasion.

As the party is to continue past the midnight hour special arrangements are being made with the Fargo and Moorhead Street Railway company for specials care, one to go around each of the lots, and one to Moorhead. The price of the party has not been definitely set as yet but the seniors are in hopes of being able to make it very reasonable.

Of these three localities the last named seems to have the greatest future in the dairy industry as the natural conditions seem to be better.

At the present time there are 339,000 milch cows in the state showing an eleven percent increase over that of last year. The total increase for the U. S. is only 2 1/2 per cent over that of last year. North Dakota's showing is therefore not to be looked lightly upon as it shows that improvement and work has been done. The total increase is larger than the total increase in population and this same increase in milch cows is larger in previous years.

There is no question but what the dairy industry will assume mammoth proportions in this state. In previous years very little attention has been given to this end of the farmers income, but with the introduction of the silo, corn and alfalfa and with creameries springing up over the state the industry is bound to assume immense proportions. Present indications seem to show that the raising of wheat is not at all profitable, the raising of livestock, the dairy and poultry industry will be added attractions to the young farmers life and a steady sure income can be assured by proper handling.

### Y. W. C. A. INSTALLS OFFICERS

The Y. W. C. A. Cabinet for 1914 installed the new Cabinet, which are to serve for the coming year, on Friday. After plans for the future

The close of the school year is not far away and in view of this fact the Senior Class has held a number of meetings recently to round out and complete their plans for commencement. As is always the case the senior class play demands a large part of the discussion at Senior meetings this time of the year. The play selected by the seniors this year "Bridging the Chasm" is characteristic of the Senior class, in that it is original, having been written by Charles G. Carlson.

The class of 1915 is attempting something big this year, and will direct, stage and produce the play themselves. Al Simonitsch of local fame as an amateur actor, has been selected by the class to act as director of the play, and under his capable direction the play will be staged. Charles G. Carlson, author of the play will assist in the directions, staging, etc., of the play. The cast has not as yet been definitely decided upon, but the class has a wealth of material and the parts will all be well taken. A feature is that all of the members of the class will appear upon the stage, in one of the large scenes of the play.

Written as it is about the graduating class of an Agricultural College, with the scenes laid upon the campus and in the college buildings, it is certainly appropriate for the occasion on which it is to be presented. Not only is this a feature but the main characters of the play are the members of the graduating class of an Agricultural College, bear in mind that it is our senior class that is to present the play and you can readily understand why this play is not only appropriate but absolutely unique.

The parts are to be handed to the different members of the cast this week and work will begin immediately upon the preparation of the play. The first rehearsal is to be held in a short while and the seniors are determined to spare no efforts in their attempts to make this play a decided success. The play will be given during the commencement season.

work of the association had been discussed a lovely supper was served in the Y. W. C. A. rooms at Ceres Hall.

The new officers of the association are:

President ----- Boletha Frojen  
Vice President ----- Mary Gibbons  
Treasurer ----- Rosilla Ladd  
Secretary ----- Theresa Howland  
The other members on the cabinet who are the chairmen of the various committees are as follows: Ruth Olsen, Marion Johnson, Florence Lane, Dorothy Price, Myrtle Waechter, Maud Engle, and Clara Dolve.

J. Divy Jensen, the ninth muse made a melodious hit with his latest selection, "The Kadona Hesitation," which was rendered at the last Kadona. "Divy" is very modest in his success. We hope to hear more of his "dope" later on.

## IMPROVED SEED COMMITTEE HOLDS MEETING IN MINNEAPOLIS

The committee on improved seed production of the Minnesota Canners Association of which Professor Roe E. Remington is a member held their regular meeting Thursday, April 8, in Minneapolis.

The committee on improved seed production consists of three members who were chosen at the last meeting held in December.

This committee has for its object the production of a new strain of Crosby sweet corn especially adapted to the Northwest conditions: for as J. J. Hill says "The farther north, the sweeter the corn." The committee is co-operating with C. P.

Bull of the agronomy department of the Minnesota experiment station and breeding plots have been established at Moorhead, Kokato, Olura, Monticello and LeSueur.

The seed to be used on this plots is a strain of Crosby's sweet corn bred at Cakoto, this strain having been pronounced by the experts of the U. S. Department of Agriculture as "the best strain of Crosby's sweet corn known."

Professor Remington has been carrying on an experiment on corn canning for the past four years, the results of his work being of great value to the committee.

THE WEEKLY SPECTRUM

The Official Publication of the Student Council.

Published every Tuesday of the school year by the students of the North Dakota Agricultural College, at the Ulsaker Printing Co., 311-315 Broadway, Fargo, N. D.

In cases of non-delivery, change of address, or change of ads. please notify the Business Manager. Office on the first floor of Francis Hall. Subscription rate \$1.00 per year. Single copies 5 cents.

Entered at the Post Office of the Agricultural College, North Dakota, as second class mail matter.

EDITORIAL STAFF

Table listing editorial staff members and their roles: R. C. Powell (Associate Editor), Charity Finney (Associate Editor), Worth Couey (Agricultural Department), etc.

CAMPUS SPIRIT.

As spring is now at hand it is time for the students of the College if they have any "Campus Spirit" at all to take a little pride in keeping the campus looking as it should.

There are men in this institution who have spent years in trying to make this a pretty campus, their efforts have been rewarded, now let each student take it upon himself to instill a little "Campus Spirit" into his best friend and "Let the grass grow."

A WORD FROM THE PRESIDENT.

THE PASSING MARK.

To just make a "passing mark" indicates a low standard of scholarship. Students satisfied with such marks manifest neither pride nor ambition. Such meager preparation is no recommendation for a position either as a teacher or for a place in any industry demanding expert service.

Then some students indulge in the habit of complaining. The subjects are dull, the instructors are unsympathetic, or the rules are too strict.

The student with a grouch seldom develops into a leader of men. It is the student with broad vision and a cheerful disposition that makes college life enjoyable and gives promise of future leadership.

Remember it is a great privilege to be a student under any circumstances; for there are thousands who do not enjoy this privilege, though they yearn for it.

It is never too late to make amends. If your standard of scholarship has been low, you have no one to blame but yourself. Then take a new grip on your work and demonstrate your manhood and womanhood by rising far above the passing mark.

INTER-HIGH SCHOOL MEET.

Saturday May 5 will occur the eighth annual Inter-High School Field and Track Meet and Declamation Contest given under the auspices of the North Dakota Agricultural College.

The contest is open to all North Dakota and western Minnesota High Schools. Each year a larger number of high schools are represented in the track meet and declamation contest, until at the present time these events make up one of the "big days" of the school year.

The Agricultural College is a point of interest to everyone and by means of these contests an opportunity is afforded many to visit the College and see for themselves just how the work is carried on.

On the afternoon of May 5 the Track meet will be held on Dakota Field, consisting of fourteen track and field events.

Prizes of Gold, Silver and Bronze medals will be awarded to the winners of first, second and third places. A suitable prize will also be given to the team winning the relay race and another to the school winning the greatest number of points.

At 8 p. m. Saturday the Declamation Contest will be held in the College armory. At the Declamatory Contest last year a great deal of interest and enthusiasm was shown, in fact more interest is being taken in work along this line than ever before.

Professor E. S. Keene has charge of the Athletic Activities and Professor A. G. Arvold has charge of the Declamatory Contest. It is expected that at least fifteen High Schools will be represented at the meet.

A great deal of interest is manifest at the College in the various public speaking programs which are given each year and all those participating in the declamation contest are assured of a royal welcome at the Agricultural College.

ATHLETIANS.

The Athenians held a special meeting April 5. The following officers were elected for the coming term:

- Clara Dolve President
Gordon Vallandigham, Vice President
Maizie Gilmore Secretary
Marion Johnson Musician

Mr. Marshall will continue to hold his office as treasurer until next fall. The Athenians have lined up another

interesting terms work. Last Friday preparations were commenced for a stunt which will be given on Stunt Night next Friday.

Wisdom.

It is easy enough to appear wise when one is dealing with a lot of immature college youths, but the professor that's fine is the professor who can shine in a mixed company of adults far away from the academic atmosphere.

Alumni

Word has been received from E. W. Anderson, who has since graduation in 1914, been located at Soo Pass, Montana. "Andy", in partnership with his brothers, is in the Improved Seed Growing business.

It will be remembered that "Andy" was a good worker while in school, and was also a "fusser" of some little note. His affiliation with the Home Economics Department in this manner have been of invaluable aid to him in his new capacity as chief "Cook and Battle washer" on the ranch during the past year.

Dean Mendenhall graduate of last year, who while in college was probably as well known as any one on the campus because of the active part which he took in the Association work and other student activities.

Dean has since last September held the position of instructor in agriculture in the high school at Barnesville, Minnesota. In spite of the great handicap that he has had to work under this year his work has been highly complimented and we are happy to learn that he has been employed for the coming year which in itself speaks well for his work.

He also has charge of the demonstration farm that is being conducted in connection with the Agricultural department of the school. He has organized a corn growing contest among the boys of the vicinity. Thirty of the boys are engaged in planting and caring for an acre a piece of corn during the summer.

Dean was here at the college the night of the South Dakota debate and to hear him discuss the Minimum Wage the next morning one could not help being convinced that he is a strong believer in "Women Suffrage".

Military Department

Officers:

- Major, Royal Drummond.
Adjutant, Buck Carlson.
Quartermaster, Charles A. Palmer
Officer of the Day, Warren Dodds.
Commander of the Guard, M. A. Thorfinnson.
Chief Bugler, W. S. Woodard.
Co. A.
Captain, Melvin McGuigan.
1st Lieut. (Cyst) Wm Mendenhall.
2nd Lieut., Monroe Kirk.
Co B.
Capt. A. M. Christiansen.
1st Lieut., Adrian Foley
2nd Lieut., Martin S. Hagen.

The battalion has been considerably reduced since the Industrial Course students left. There are now only two companies left of the five. This gives more room for drilling in the armory, but drilling will be mostly outside after this.

Last Monday the companies were given some strenuous drill in extended order out on the parade grounds. Wednesday being rainy the armory was used, but on Friday drilling again took place outside, and this time guard mounting taking up most of the time.

HAROLD BACHMAN LEAVES TO JOIN KRYL

Harold Bachman left last Saturday evening for Chicago where he will join Bohumir Kryl's Chautauqua Band which is to tour on the Redpath Vawt circuit during the coming chautauqua season.

Mr. Bachman directed the cadet band of this school until last Christmas after he had been at it just a year. He decided to quit the duties of band director for the good of his health and in order that he could carry on his school work more successfully. During the past winter he devoted his main energy to his class

work as a Junior. He has taken a prominent part in college activities during the three years that he has been in the Agricultural Course and on account of his popularity the student body will miss him during the present term of school.

THE LAST KADONA DANCE.

Saturday evening at the Knights of Columbus Hall occurred the fifth and last of the Kadona dances for the year 1914-15.

The Kadona Club was organized during the fall term by Mr. Roy Bolsinger, an A. C. student, well known in social and athletic circles. Mr. Bolsinger is to be congratulated upon the success of the undertaking, every member of the club having expressed themselves as having a most enjoyable time at the Kadona dance during the past year.

Mr. Bolsinger expect to promote a series of dances next year based upon a somewhat different plan

MEAT MARKET.

If you favor war, dig a trench in your back yard, fill it half full of water, crawl into it and stay there for a day or two without anything to eat, get a lunatic to shoot at you with a brace of revolvers and a machine gun, and you will have something just as good, and you will save your country a great deal of expense.—Appeal to Reason.

DARNER ELECTED HEAD OF FARGO TENNIS CLUB.

R. W. Darner was elected president, John Martin, vice president, and H. H. Woledge, secretary-treasurer, at the meeting of the Fargo Tennis club held in the Commercial club rooms yesterday afternoon at 3 o'clock.

NEW BOARD OF TRUSTEES FOR A. C.

The new board of trustees organized at a meeting held at the College last week. The meeting was held for the purpose of getting in shape for more work to come later; aside from the routine business there was nothing.

The board consists of J. F. Jensen of Westhope and Alex Stern of Fargo who are hold-over members, Peter Elliot and August Hanson both of Fargo being reappointed as members of the board; while the new

North Dakota Agricultural College

For Completeness of Equipment and Facilities for Instruction is Unsurpassed in the North-West THE COLLEGE DEPARTMENT OFFERS

Pharmaceutical Chemistry — Civil Engineering — Mechanical Engineering — Agriculture — Chemistry — General Science — Biology — Home Economics — Education — Veterinary Medicine and Surgery — Architecture — Architectural Engineering.

These courses are available to those who have completed the equivalent of a High School training. For those who have not had such a training

# Athletic Activities

## BASEBALL

The team has finally taken to the outside, and every night they can be seen in action on the parade ground. Coach Woods has been giving each man some individual coaching for the first part of the practice, then such practice as bunting, catching flies, picking up grounders and base running is gone thru with. The squad is divided later on and a short practice game is played. This sort of work brings out the weak and strong points of each player on the field and hence will give the coach an idea what he is going to have this year.

Among the new men who have made their appearance in a suit this week are Winney Crouch, who promises to make good material. He has played on the class teams for several seasons and can handle the job behind the bat in good shape. "Buck" Carlson, is a rangy fellow, with a god deal of experience. His position is on the mound or can hold down the initial sack in as good style. Foley, has the makings of a ball player and with a little more experience should make good. Porter is fast and can grab them off in great style in the field, and should make a strong bid for a job. Woodard and Benson are new contenders here this year and look good. In all we have a squad of some 20 men and all are working hard for a job on the "varsity."

The schedule has just been completed and looks to be the hardest in years. It represents some of the best teams in the Northwest and should prove to be a good drawing card and also a stimulus to make the men work harder. The schedule includes a trip to the "Twin" Cities and also short trips to Wahpeton and Grand Forks. The following are the games and the dates:

Wednesday, April 21—Moorhead Normal at A. C.

Tuesday, April 21 Moorhead Normal at Normal.

Saturday May 1 — Wahpeton Science at Wahpeton.

Tuesday, May 4 — Wahpeton Science at A. C.

Thursday, May 6—Park Region at Fergus Falls.

Friday, May 7—St. Thomas at St. Paul.

Saturday, May 8—St. Johns at Collegeville, Minn.

Wednesday, May 12—Fargo College at A. C.

Saturday, May 22—U. N. D. at Grand Forks.

Tuesday, May 25—Fargo College at Stadium.

Thursday, May 27—St. Thomas at A. C.

Monday, May 31—U. N. D. at A. C.

Park region will also be met on Dakota Field but as yet no date has been arranged. There will be a couple of early season practice games with Concordia college from across the Red, and will probably come next week some time. Watch the bulletin board for these games. This means that we will see 7 games on the home grounds, one at the F. C. stadium and two in Moorhead.

## TRACK

With the coming of the warmer weather the track men will soon be able to take to the cinder track on Dakota field. There is no better track in the Northwest, and taken together with the men we have out this year we ought to make a good showing in our dual meet with the University and at the big Northwest Conference meet, which is to be held at the Forks this year. In former years our team has had to make long journeys to South Dakota and by the time we got there the men were not in a fit condition to enter a meet. This year it will be different, as we will not only have a short distance to go but the athletes from the other schools will have to make the journeys we had to. Coach C. J. Roberts will have charge of track this season and as he has had some experience at Earlham University, ought to be a great help to the team. Coach Wood will also devote some of his time to track work.

Of the last year's men we have Mikelson, Bolsinger, Barchus, Porter, McKee, Gibbons and Bjornson. The new men the Movald, Hamilton, Nelson, Peterson and Pope. There will be many new men report in a short time and then things should go along in good shape.

Mikelson handles the hammer and discus and is a sure point winner in these two events. Last year he took a first and second place at the Conference meet and will be able to repeat again this season. Bolsinger takes care of the shot, pole vault and sprints. Last season he was beat out of first place in the shot put by one inch, by Nilles of the U. He tied for first place in the pole vault with Schlosser of the University. Barchus is a broad jumper of no small ability and with a little training can take first place in the Conference meet. Porter is a fast quarter miler and can also run the sprints. Bruce McKee jumped into the lime light as a mile and two miler in the class meet last season and can be called upon to take care of those two events. Gibbons is also another quarter miler and if he would get busy and train hard he would make it in good time. "Dick" Bjornson swings the hammer with Mikelson and can be relied upon to place in the dual meet.

Among the new men Movald is a sprinter and pole vaulter and should make a good running mate with Bally. Hamilton and Nelson are distance men are are out working hard to place this spring. Peterson is a weight man and should do things right as he has the right build and a lot of muscle. Pope is a hurdler and distance man and is also out training hard. The old men that haven't been out yet are Jensen the high jumper and Roberts the hurdler, but they will be seen in a short time.

## Side-Lights

The South Dakota State, College Athletic association is dickering with the city commercial club of Watertown, S. D. in regards to the playing of the football game with the N. D. "Aggies" at Watertown next fall. Two years ago we played S. D. A. C. at Sioux Falls and it was a good game. It came out good financially for the commercial club of Sioux Falls and they treated us royally. We hope that the Watertown authorities will see fit to have us meet S. D. State there next fall as we would like to meet our old rivals again.

Here are the basketball champions of the four Northwestern states: Minnesota—Hamline University of St. Paul. North Dakota—North Dakota University of Grand Forks. South Dakota—South Dakota University of Vermillion. Montana—Tied between Montana A. C. and Montana University.

Jamestown College expects to have a good team this year as they have booked up a heavy schedule and have Stanley Dougan former Grand Forks Northern Leaguer for their coach. They have thirty men out in suits and all are working for a strong team. Her's luck to you Jimtown.

Hamline University is bemoaning their prospects for a good track team. They have lost the services of four of their star athletes in Anderson, Crays, Ballentine and Hermann. This quartet is their relay team also and a new team will have to be developed. Chances do seem small for Hamline to take the Conference meet again this year with such men as these out.

The University of North Dakota has again signed up Fargo College on their football schedule for next fall. That's more like it U. N. D., your championship claims will more likely be accepted when you get to playing more state schools. This will also help out F. C. on her schedule as she has been playing only two games in the last four years; the Aggies and Wahpeton Science.

We are wondering if Concordia will spring the same surprise on us in baseball as they did in basketball. They were undoubtedly loaded for us in basketball and nearly took us into camp in the early season. It makes it rather mean for us not to know just who they will get to go to school over there.

## Steals and Hits.

The boys have been learning to play baseball on the parade grounds during the last two weeks and they could be seen swimming around and diving after the ball in great shape. The bal field has been too wet to go and hence Coach had to take the boys in the best available place.

What next? Have you seen the latest specimen on the field trying out for a place on the team? We are not mentioning any names but he used to direct the cadet band and has a brother that is a ball player. Maybe said person thinks it runs in the family.

The work of Sam Crawford behind the bat is attracting the attention of the student fans. Sam is certainly grabbing them off in nice shape and handles himself like a big leaguer. He and Cat should have a nice time scrapping for the job. Coach Woods is "some umpire." Its a good thing that we haven't got him to contend with in a real game. The reason for his poor sight is not directly known, but maybe he can't see over that "Redwood bush" in front of him.

If you want to hear some bum humor go out and watch the ball team practice. Happy Peterson will soon be there and he has got the original dope and keeps up a continual chatter with Coach Woods.

Capt. Foley is a ball player too, did you ever know that? Foley played ball down at St. Thomas last year and has aspirations of making the team here so he can "be on the bunch" that beat St. Thomas.

We now have seven pitchers working out every night. They are Ottis, Bachman, Gullickson, Hein, Woods, Thorinsson and Kruger. It seems like we ought to strike at least three stars out of that bunch.

## PHILOS.

The Philos postponed their program last Friday. The evening was given over to a discussion of stunt to be given next Friday. Every one was present and much enthusiasm was shown. It is evident that the Philos expect to rank among the best in the stunt contest.

Steinhouse certainly is clouting the ball this season. Every night in practice he lands a few near Science hall. If Steiny can keep this sort of work up thruout the season he will be batting above the 300 mark.

# SOCIETY

Miss Addie Wilson has been on the sick list the latter part of the week but she is improving and will soon be around again.

Miss Agnes Hutchinson took dinner on Wednesday evening with Mrs. P. D. Gilger of Fargo.

Miss Elsie Stark left for her home at Mandan Wednesday morning. She will make an indefinite stay at home.

Miss Ethel Poole has gone to her home at Steele. Owing to her poor health she will not return to school this year.

Miss Olive Wild returned Tuesday from her home at Osabrook.

Misses Myrtle and Ivy Waechter entertained sixteen girls at an Easter spread Saturday evening. Good eats were served and everyone had a fine time.

Mr. John Horn received a box of cats from home Friday and he entertained the Misses Ewen, Flamer,

Baden and Bassingthwait and the Messrs. Stewart, Wolsted and Erickson.

Miss Blanche Miller had her tonsils removed at St. Johns hospital. She is improving slowly and may not return to school.

Mr. George Manikowski of Wahpeton, visited with Miss Cecil Thursday night.

Someone took Cecil Manikowski's peanuts. Would they please return them?

The Misses Leila and Lillian McLeod of Valley City Normal spent the week-end with Miss Marie McLeod.

Miss Grace Cook of Cavalier visited with Miss Bina Foster.

Miss Katherine Herzer spent Friday night with Miss Winnifred Pope. The High School Senior girls took Saturday breakfast in Miss Winnifred Pope's room.

### Entomology Class.

Prof. Waldron:—"How did the expression "booze fighting" originate?"

Ray Powell:—"Probably originated from the yachting term "trimming a schooner."

Hank Brown:—"Who was the classy dame I saw you with Friday?" Larry:—"My cousin." Hank:—"Very distant." Larry:—"Not with me."

### A Bald Fact.

Dick:—"When I was a tiny boy with long golden curls they called me Archie."

Nellie:—"And now they call you Archibald?"

### You Can't Beat the Irish.

Will Coburn:—"Do you know, every time I go home they kill the fattest calf for me."

Rookie:—"That's nothing, when I go home the old man shoots the bull."

### Terpsichorean Dept.

Prof. McArdle:—"Isn't that dance just awful, tho?" Margaret Keene:—"Yes, they actually stand two inches apart."

### Fraternity Dept.

Bolly:—"This being a fraternity man isn't what it's cracked up to be."

Chief:—"Why, in particular?" Bolly:—"Oh, everytime I come home at night they count my pins to see if I'm still heart free."

### Cross Country Dope.

Otis:—"I got this cup for running."

Coach Roberts:—"Who 'ja beat?" "Crumb":—"The owner and six policemen."

### Music Dept.

"Divvy":—"Let me make the songs of a nation and I care not who makes its laws."

George Dixon:—"Well, have a treat. Many people seem to think there's room for improvement in both just now."

### Rural Economics Class.

Prof. Trimble:—"Why do farm crops cost more than they used to?"

Bill Guy:—"When a farmer is supposed to know the botanical name of what he is raising and the entomological name of the insect that eats it, and the pharmaceutical name of the chemical that kills it, somebody's got to pay."

### News Item.

"Ching" Challey has returned from a pleasant trip over the state pursuing advance registry records of dairy cattle. "Ching" looks so fat and happy that we seriously doubt whether he drank most of the milk or only the greater part of it. Never mind, "Ching", we are only jealous. We would do the same ourselves if we had the chance. You know the only trouble with our milk here is that it is great,—(cream isn't in it).

## LOCALS

Dean Ladd has not yet returned from Washington, D. C., where he has been attending a meeting of the National Pure Food and Drugs commission.

Everybody present enjoyed the military hop held last Friday after drill hours. This was the third hop held this year. For the first time in the history of the institution there were not enough boys to go around. There are several reasons offered for this, but for political reasons and for fear of becoming drawn into the European war, this editor does not care to state them at this time.

It would not be impossible to hold the hops oftener and some at least think the idea would be a good one.

After a long hard job, Ed Hooper and his helpers have succeeded in erecting both poles for the aerial apparatus. Ed was observed to be rising in the world at various times.

P. S. Mary Ball has received word that "Jake" has arrived safely at his Indian reservation in Tokyo.

Madeline Turner of the University, Dorothy Dalrymple and Addie Williams both of Fargo, were guests at the hop last Friday. Come again.

"Dutch" Schroeder was seen around the campus the last few days. He is looking over the ground at La Moure in regards to a teaching proposition.

The track and diamond are being prepared for use now. The boys would have been practicing on the diamond had it not been for the last rain. The bleachers have been moved from the gridiron to behind home plate.

Director Cooper of the experiment station has returned from a county examination in regards to tax levies towards the funds for 1915.

He has been in the northern part of the state and as far west as Williston and reports that seeding is general although it is dry in the extreme western counties. He reports that all sub-stations have started the spring work.

## MUSIC

The Cadet Hop put on last Friday was attended by only a fair-sized crowd but everyone present "hopped in lively style to the spirited music furnished by the band.

The band gave a short concert down town Monday afternoon to increase publicity of the afternoon and evening concerts of the Minneapolis Symphony Orchestra. With the help of some of the Old-timers the band made a good showing. After making a parade, playing some of their favorite march selections, they were given seats in the Auditorium and there enjoyed listening to the excellent music rendered by the Symphony

### Found In the Dope Pot "ACHT DU LIEBER".

The other evening one of our popular students perchanced to enter the realms of fantasticism. He immediately proceeded to fascinate the maidens fair, with tails of strange wooing, and as he seeing their about one was wont to note the agility and gracefulness of our hero. Of course, everyone knows Doc's ability along this particular line. After the hop our friend was noticed hailing several female stagers — but each time notes of disapproval astonished the onlookers and what more our noble veterinarian was sadly disappointed and was left standing meekly at the entrance of the Broadway dairy lunch. Why Doc should break away from the straight and narrow path so suddenly no one seems to know.
