

# WEEKLY SPECTRUM

The Official Publication of the Student Council

VOL. XXII—NO. 3.

NORTH DAKOTA AGRICULTURAL COLLEGE, WEDNESDAY, OCTOBER 7, 1914.

FIVE CENTS A COPY.

## Burke Critchfield Enters New Field

Will Leave State Employment and Take up Stock Raising at Williston. Has Secured Large Range.

Burke Critchfield, well known at this school through his work as head of the Registration Board, has decided to leave that work and take up the raising of Percheron horses and Shorthorn cattle near Williston. He will be associated with former Governor Burdick under the firm name of Burdick and Critchfield. The land on which they will operate is located along the north Missouri river bottom, southeast of Williston. A large amount of land at this point is owned by the firm and range rights have been secured to a twenty mile strip, which will make it one of the finest pieces of range in western North Dakota.

Mr. Critchfield will probably stay with the state until the first of January when the work will be taken up by Mr. Tompkins. Although his friends will be sorry to see him leave Fargo, the splendid prospects ahead of the new firm will be a source of pleasure to all.

## Mark Keeney Married

An Old A. C. Student Captured by Cupid.

The following clipping from the Fargo Forum brings the news of the marriage of Mark DeVere Keeney, who graduated from the A. C. some years ago. Mark has many acquaintances at this school who will be interested in his fall from the ranks of the bachelors, and who will wish him all happiness in his new venture. Getting married seems to be a popular pastime among A. C. graduates:

"Word was received by friends in this city Thursday of the recent marriage of a former Fargo resident, an account of which is given as follows in the Los Angeles Examiner: "Last Minute War News:" Young Dan Cupid has been on a scouting excursion to San Diego and Coronado beach. Consequences—another arrow battle with two hearts taken prisoner. Los Angeles society directly affected by the loss. This time the youthful warrior, who goes into battle with a beguiling smile and condemns every prisoner to lifelong bliss, reports the unconditional surrender of Miss Josephine Norma Campbell and Marcus DeVere Keeney, the latter of San Diego. The service was held in the St. Paul's Episcopal church with Rev. Charles L. Barnes officiating, and was followed by a wedding breakfast at the U. S. Grant hotel. The bride was attended by the bride's sister, Miss Natalie Campbell, and Mr. Keeney's best man was Leslie S. Robinson of Bakersfield." Mr. Keeney is the son of Gordon Keeney, one of Fargo pioneer citizens, now a resident of San Diego.

## SPECIAL FOOD DEPARTMENT BULLETIN ISSUED ON STORES.

Special Bulletin No. 10 of the Food Department is out and it is a comprehensive review of the conditions involved in proper sanitation of bakeries and butcher shops. The common question of "Why is meat tough?" is briefly and clearly answered.

The attack of the Farmers' General Service Company upon Professor Ladd and the findings of the sanitation investigation of Valley City are published, with the scores of the various concerns. The results of a similar investigation at Hillsboro are published as well as the results of the bacteriological investigation of the Fargo city water supply. The last investigation was undertaken to find if the typhoid epidemic was traceable to impure drinking water. The findings report that there is no truth in the belief.

Blessed are ye who expect to funk. You shall never be disappointed.

A little bit of writing Scribbled on a cuff Helps a guy remember Lots of important stuff.

—Ex.

## Students—Take Notice!

Report comes to me that quite a number of Freshman caps have been stolen. Those in possession of these caps will please return them at once to the matron, Mrs. Gilbert. Otherwise steps will be taken to discover the persons guilty of taking these caps. Please attend to this at once as this is a serious matter.

J. H. WORST,  
President.

## Lycum Redeption for Freshman Engineers

Everybody Out—Interesting Talks and Motion Pictures—Highly Delightful Time.

The reception to the Freshmen Engineers, given by the Lyceum of Engineers on last Thursday evening, was a very successful affair in both numbers and enthusiasm. Practically every student in the department was present and all of the faculty. The meeting was in charge of Vice President Kelly, who introduced the speakers of the evening. Dean Keene, on behalf of the engineering faculty, welcomed the new students, and told them of some of the plans of the department for the coming year.

Professor Dolve gave an interesting talk on the value of experience secured during the summer vacations and showed how such experience aided the students after graduation.

Professor Slocum's talk contained some excellent pointers on the best way to get value received out of the work which was offered and also told of the recognition which the work of the school was receiving from big engineering societies.

At the close of this part of the program, the party adjourned to the Physics Lecture Room, where they enjoyed some moving pictures, run off by Mr. Corbett. The films were some secured from the Great Northern Railway and showed the recent A. A. Glidden Tour, from St. Paul to Glacier National Park. Two reels of the big Montana "Round Up" were also greatly enjoyed. Upon returning to the Lyceum room light refreshments were served, after which the party broke up.

## MUSICAL PROGRAM PLEASES AUDIENCE

Professor Orr's Work Makes Big Hit at Convocation—Students Enjoy Rare Treat.

Those who had not heard Professor Orr, head of the Musical Department, received a rare treat on Monday morning at convocation, when he rendered an excellent program of nine numbers, assisted by Miss Grasse at the piano.

He opened the series with the rollicking "Rolling Down to Rio," by German, an old favorite of his and one which is always in demand wherever Prof. Orr is known. The contrast afforded by the next number, "Fairy Pipes," by Brewer, gave ample proof of the versatility of his voice. "The Charge of the Light Brigade" by Bergen was an impressive rendering, and the power and tone displayed easily dominated the swinging crash of the accompaniment which would have overwhelmed a less powerful voice.

The crowd was kept in a state of suppressed merriment by "The Stuttering Lovers" and insisted on an encore till Prof. Orr promised to sing it again—some day. The silence that followed the last notes of "When the Roses Bloom" was eloquent testimony to the splendid interpretation given this beautiful selection. Another laugh provoker followed, "Irish Names," by Hilton.

Homer's haunting melodies were represented by two numbers, "The Banjo Song" and "Uncle Ronce."

## CITIZENS' LECTURE COURSE

Splendid Array of Talent—List Includes Schildkret's Hungarian Orchestra—The Kellogg-Haines Singing Party—Strickland W. Gillilan—Lorado Taft—John G. Wooley—Edward A. Steiner.

Vigorous Season Course Ticket Campaign Started Monday—Results Most Encouraging—Ticket Sellers Hope to Dispose of One Thousand Tickets.

The Citizen's Lecture Course for the past several years has been a medium through which many of America's greatest statesmen, scholars, social workers, scientists, musical artists, humorists, cartoonists, authors and world travelers have been brought to this community. The policy of the community in charge has always been to secure the best available talent and give it to the people at cost price. The increased attendance at the course each year is evidence of its growing popularity. This year the list—Schildkret's Hungarian Orchestra, The Kellogg-Haines Singing Party, Strickland W. Gillilan, Lorado Taft, John G. Wooley and Edward A. Steiner—is a guarantee that the same high standard will be maintained. Every number is a headliner. Four of the six attractions are listed in Who's Who in America.

October 22, 1914 (Thursday) Schildkret's Hungarian Orchestra will open the course with a two hours' concert. Samuel Schildkret and his orchestra are perhaps better known today than any other Hungarian orchestra in this country. They have not only scored triumphs in New York City, Boston, Washington, Philadelphia, Chicago, Denver, San Francisco and Seattle, but they are also favorites with many of the nation's social leaders—Mrs. Potter Palmer, Mrs. Marshall Field, Mrs. Harold McCormick, Mrs. Alice Roosevelt Longworth and many others. As a flute soloist Samuel Schildkret has few equals. The program the orchestra will render will consist of selections from the standard operas, medleys, late popular music, violin and flute solos.

Although Sidney Homer's works are well known at this school, they were never more effectively presented. The last number was a fitting climax to a well balanced program: "To Horse! To Horse!" by Ward-Stevens. The strength of the piano accompaniment was noticeable and formed a background for the vocal part, which displayed the flexibility and control of Professor Orr's voice in a striking manner. Any college function at which Professor Orr can be persuaded to appear may well call itself fortunate.

Dr. Guild of the Courier-News is the next convocation speaker and in all probability will speak on the subject which he recently discussed before the Polytechnic Society, The Cause of the Present War.

## New Lights for Drafting Rooms

NEW LIGHTS FOR DRAFTING ROOMS.

The drawing rooms on the third floor of the Engineering Building have been rearranged and lights installed in such a manner that their efficiency has been greatly increased. The desks have been shifted in such a manner that they face one another in pairs. Drop lights have been hung over the room in such a manner that each light serves two desks. Some fine shades have been provided and everyone who has occasion to use the drafting rooms are reveling in the prospects of excellent light on dark winter days.

November 17, 1914 (Tuesday) The Kellogg-Haines Singing Party, one of the standard attractions in the lyceum world today will present a program consisting of quartet selections, songs of the sixties and parts of the grand opera, "Il Trovatore" in elaborate costumes. Every member of the organization is a recognized soloist. The party has appeared in every state in the Union, Canada and Mexico.

January 26, 1915 (Tuesday) Strickland W. Gillilan, humorist, often called the logical successor to Mark Twain, will give his classic lecture "Sunshine and Awkwardness." He is best known as the author of "Off Agin, On Agin, Gone Agin, Fin-nigin." His verses are frequently published in The Ladies' Home Journal, The Saturday Evening Post, Current Literature, Leslie's Weekly, The Ladies' World, The Nation; Magazine, Civic Forum, Associatee Sunday Magazines, Judge, Life, Puck and scores of others.

February 1, 1915 (Monday) Lorado Taft, the great American sculptor will be the attraction. His subject "A Glimpse of a Sculptor's Studio," will be demonstrative in its nature. Mr. Taft's sculpture includes the statue of Schuyler Colfax at Indianapolis, General Grant at Fort Leavenworth, and figures on various military monuments throughout the country. He has modeled busts of many writers and educators of this country. In ideal sculpture he has produced figures of "Despair" and "Knowledge," and the impressive group, "The Solitude of the Soul," which won a medal at Buffalo. Mr. Taft is an easy and fluent speaker, full of spontaneity and humor.

## SORORITY RECEPTION

BIG SOCIAL EVENT IS WELL ATTENDED.

One of the social events of last week was the reception given in the gymnasium of Ceres Hall by the Delta Phi Beta Sorority. The guests were the girls of the college and high school, the teachers of the Home Economics department, and the wives of the deans. The gymnasium was beautifully decorated with ferns and banners and vases of white roses, the Sorority flower. Across one end of the hall was a large Delta Phi Beta banner of black and white. The Sorority girls and Miss Stoner, each wearing the Sorority flower, stood in the receiving line and welcomed over a hundred guests. During the afternoon, solos were rendered by Mrs. R. W. Darner and several delightful selections were read by Miss Katharine York. At the east end of the hall, at three prettily appointed teatables, the Misses Genevieve Grover, Gunhild Gilbertson and Ruth Brown served tea. This is the first of several parties planned by the Delta Phi Beta's and the girls were complimented for the way in which they tried to get all the girls acquainted.

Those active in the Sorority this year are Genevieve Grover, Gunhild Gilbertson, Ruth Brown, Clara Dolve, Edith Gross, Katharine Keye, Cora Hoag, Suly Grest, Katharine Ladd, Rizpah Ladd, Lucille Morris, Mae Howe, Alette Knatvold, Myrtle Johnston and Helen Lewis.

## JOINT LITERARY MEETING.

The first joint literary meeting was held last Friday evening in the

February 18, 1915 (Thursday) John G. Wooley, one of America's ablest citizens, great orator, writer and world traveler, will give one of his masterful addresses. What Gladstone was to England liberty, what Bismarck was to German imperialism, what Wendell Phillips was to the cause of human freedom, John G. Wooley is to the doctrine of American citizenship. As an orator he has no equal in America today.

March 19, 1915 (Friday) Edward A. Steiner, eminent sociologist and lecturer, will be the last number on the course. An intimate friend of the late Tolstol, he has been the author of many valuable works on the subject of immigration. A little over a year ago he spoke to over 3,000 people in Orchestra Hall, Chicago and created a magnificent impression. His subject, "On the Trail of the Immigrant," is in book form and has been declared by competent critics to be a masterpiece.

The cost of a season course ticket—good for the six numbers, seat reserved for the entire season, is one dollar and fifty cents. All the numbers will be given in the North Dakota Agricultural College Armory. Seats will be on sale and reserved at Fout & Porterfield's Drug Store on and after Monday, October 12, 1914. Special street car service will be provided for each attraction. Courteous student ushers in military uniform will be at the door to greet you and see that you get your right seat. In short, no pains will be spared to make the Citizen's Lecture Course, Season 1914-1915 a banner one in every respect.

Little Country Theatre. The Pythian, the Athenians and the Philomathian Literary Societies were well represented in members and in participants on the program.

Mr. Jaqua was elected temporary chairman and the program was started by yells and songs from each society. The histories of the three societies were then given in a manner to give the new student some idea of the society that he would like to join. The presidents of each society gave a short talk in which they showed the merits of their respective societies. Each society gave special music and a literary number.

The meeting adjourned for a five minute recess and convened for a business session, in which the matters pertaining to the three societies were discussed and finished.

Hr. Arvold gave a splendid talk on the work to be carried on in his department this year. He outlined the great work to be done by the literary societies if they were to produce the material to adequately represent the college and state. He also outlined the policy of making suitable awards to the society winning the most points in a year's contests.

The Athenian and Philomathian societies voted unanimously to make the Pythians co-ordinate with themselves in all contests.

Walter Baumgartel gave a snappy short talk on points to be observed in making better societies.

Hereafter the joint debate will include a series between the three societies, the third society debating the winner of the debate between the two other.

The Philo—Athenian debate will occur Dec. 4th and the Pythians will debate the winning society in the earlier part of January.

A graduated scale of points will

## DAIRY BUILDING RECEIVES FINISHING TOUCHES.

The new Dairy Building is at present receiving the finishing touches on the inside. On the outside, the sidewalks have been placed and the fill around the building dressed off into shape. The brick work and the windows have all been cleaned and now it is emerging from the dirt and confusion incident to construction, it is causing much comment from those who have gone over it carefully. When opened it will make a valuable addition to the equipment of the school.

## OPENING ANNOUNCEMENT

of the Weekly Motion Picture Shows of the Engineering Department.

The first exhibition of Dean Kean's Industrial Motion Pictures will be given Friday afternoon, 4:45 to 5:45 p. m., in the Physics Lecture room, of the Engineering Building.

These first reels are more of an entertaining nature than industrial, but having been taken in this section of the country, they are of local interest. The titles are as follows: "Montana Round-up" in two reels, in which some of the best riders and horses perform for our entertainment.

The Twin Cities-Helena Auto Tour" or "The Little Glidden Tour," in one reel, which passed through our state last summer. One of our upper classmen, Mr. Tarbell, had a relative in this tour, and who was one of the prize winners.

"Blazing the Trail" in one reel, showing a party passing through one of the U. S. National Parks, amid beautiful mountain scenery, glaciers, etc.

There is no charge for admittance to these shows, and everyone is welcome. The Spectrum will print the program of each week. One of the feature films to arrive about the first of the year, will be one showing how the paper on which the Spectrum is printed, is made the complete operation, from the cutting of the logs in Northwestern Minnesota, sawing at International Falls, to the final manufacture of the wood pulp into long strips of paper.

## Many New Books On Different Subjects

The following list of books is only a part of those received during the summer months. There are books of interest to all for the list covers all subjects and most of the different subjects taught in this school have their reference facilities enlarged by a few volumes.

The book which will probably be of widest interest just now is the "Rules of Land Warfare," issued by the War Department. This is a compilation of the various international rules under which our army would carry on a war similar to the present war should they become embroiled in one.

Ries and Watson ..... Engineering Geology.  
Hohlenberg, Chemistry and Its Relation to Daily Life.  
Eakle ..... Mineral Tables.  
Kearny, A Slave Holder's Daughter.  
Willson, John Brown, Soldier of Fortune.  
Brownleigh, Mathematics for the Practical Engineer.  
Houghton, Concrete From Sand Molds.  
Krans ..... Linear Perspective.  
War Department, The Rules of Land Warfare.  
Stoddard ..... Lectures  
Wells, Steel Bridge Designing.

McLaughlin, My Friend, the Indian.  
Seager, Introduction to Economics.  
Cotton Seed Association, Value of Cotton-Seed Products in the Feeding of Farm Animals.  
Ashburn ..... Military Hygiene  
Thompson ..... The Railway Library  
Scott ..... Works  
Hardy, Thomas ..... Works  
Dumas ..... Works  
Hugo ..... Works  
Gilbert, What Children Study and Why.  
Abbott, Principles of Bacteriology.  
Armsby, Principles of Animal Nutrition.  
Murray, Chemistry of Cattle Feeding.  
Park and Williams, Pathogenic Micro-organisms.  
Levison ..... Study of Trees.

## First Crack Squad Tryouts Held

Twenty-three Men Out With Only Nine Vacancies—Plenty of the Best of Material Among Candidates.

The first tryout for positions in the North Dakota Crack Squad took place in the Armory on Thursday of last week and the turn out was surprising. Owing to the fact that there were a number of old members who did not return to school or who were obliged to leave the squad on account of work, the number of vacancies to be filled was nine. This is about the largest number that has been taken in at any one time and the quality of the new men assures that the positions will be well filled.

Twenty-three men turned out at the first meeting to strive for a place on the squad and the contest will be one of the merriest fights for places that the squad has ever seen. Drillmaster McGuigan states that they all show ability to fill positions and that the biggest difficulty lies in picking out the cream of the lot for the few places open.

The Squad is looking forward to a very successful year and prospects are very bright.

## PROF. BELL SPEAKS

SUNDAY AFTERNOON MEETING IS ENJOYED.

Dr. Bell of the Biology department was the speaker at the third of the Sunday afternoon meetings held by the Y. M. C. A. in the college armory. He used for his subject "The Scholarship Demands of Today" and before entering fully upon this subject dwelt at some length upon the scholar of years ago. He told of the well read scholar with somewhat limited experience who took more delight in following up his fancies than in research work for the benefit of mankind.

Then he spoke of the present day scholar, alert, energetic, and possessed with a knowledge which aided him not only in his own line of work, but also in being able to know where to look for material in regard to many other interesting subjects. The alert scholar keeps in touch with the present day demands and affairs and in touch with the passing conditions, he is a man who goes into the details of his work and by using system brings about that condition which goes for the greatest efficiency in his work.

He particularly urged the students to use system in their school work and during their study hours. Have regular hours for their regular work. In speaking of athletics he stated that the was very much in favor of athletics not only for those who were able-bodied, but also for those who were not, and suggested different forms such as cross country hikes, jaunts, etc.

In closing he referred back to the main points of his talk and stated that it would be well for them to keep in mind the fact that knowledge, system, attention to details, athletics and, know your limitations, were the scholarship demands of today.

THE WEEKLY SPECTRUM

Published every Wednesday of the school year by the students of the North Dakota Agricultural College, at the Ulsaker Printing Co., 311-315 Broadway, Fargo, N. D.

In cases of non-delivery, change of address, or change of ads. please notify the Business Manager. Office on the first floor of Francis Hall. Subscription rate \$1.00 per year. Single copies 5 cents.

Entered at the Post Office of the Agricultural College, North Dakota, as second class mail matter.

THOSE CAPS!

The reception which the notice from the President on the bulletin board, received, is typical of the sentiment that pervades the campus regarding the "disappearance" of a number of green caps.

A fine, nice, brilliant trick, that! When things get to such a point that a man who is living up to the college traditions like a good sport to the best of his ability, has to suffer because a few school-girls, (who ought to be wearing their hair down their backs instead of the Freshmen!) haven't anything better to do than steal caps, we think that some of the terms of condemnation applied to those who did this, exceptionally mild.

The one redeeming feature of this episode is that the guilty ones are so well known, that unless restitution is made punishment can be inflicted which is suitable to the brainlessness of the act.

ORGANIZATION DUES.

The lot of the treasurer of any student organization is apt to be a very hard one. Especially so is this true of the various class treasurers, for a class is such a loosely knit organization that it is difficult to collect dues.

It would seem a wise move to try and settle this by cutting the dues down to a very moderate amount and insisting on a prompt payment of every members dues at the beginning of each term.

REFLECTIONS OF A SENIOR

Concerning Organizations.

The multitude of desirable activities which face one upon entering college makes up one of the most puzzling problems the new student has to face.

At some college affair, a representative of a literary society makes some sort of an address and admiring the fluent ease of his speech and the poise of his manner, you feel strongly drawn to the literary work that you may obtain like aplomb.

As there are plenty of caps for everybody the little green ribbons won't go as a substitute anymore. Considerable complaint has been made about the green caps being stolen at Ceres Hall.

Military Department

The military work of the past week has been mainly on parade, and review, and on the company movements. The battalion as a whole, is improving, but some of the movements are pretty ragged as yet.

The new uniforms have not yet arrived, but should be here soon. It will greatly improve the appearance of the battalion, when the men all get their uniforms.

RULE FRESH WITH IRON HAND.

Hereafter, the Freshmen are to be ruled with an iron hand, because the upper classmen said so last Wednesday at a mass meeting of the men from the three upper classes.

Previously, the Sophomores have had the entire responsibility of persuading the Fresh to don the emerald lid. Everything went well till a few of the Freshies took inventory and found they outnumbered the Sophs about two to one.

As there are plenty of caps for everybody the little green ribbons won't go as a substitute anymore. Considerable complaint has been made about the green caps being stolen at Ceres Hall.

Of course, the upper classmen can't help it if somebody steals the Freshmen's caps; and as the articles of alliance call for enforcement of the law without fear or favor, it behooves the Freshie to hang on to his cap.

A MOTOR BOAT JOY RIDE.

Dope Box—By H. G. L. Saturday afternoon at 4:30 p. m., a small party of A. C. students left Ceres Hall. A few of the most eager ones ran ahead while the rest trailed along behind.

After the ride the girls all hurried back to Ceres Hall, where they found the doors all open and Mrs. Gilbert, patiently waiting their arrival.

Coming Events.

Saturday, October 10.—Football, State Science School vs. N. D. A. C., Dacotah Field.

Monday, October 12.—Registration for Industrial Courses begins.

Thursday October 15.—Hear Dr. Exner.

Friday, October 16.—All College Reception. Armory, 8 p. m.

Saturday October 17.—Football, St. Thomas vs. N. D. A. C., Dacotah Field.

Saturday October 24.—Industrial Course Stag. Football, Macalester vs. N. D. A. C., Dacotah Field.

Saturday October 31.—Football, Fargo College vs. N. D. A. C., Dacotah Field. All College Hallow'een Party.

MOTION PICTURES.

During the college year, the Engineering Department will conduct weekly motion picture exhibitions, descriptive of various manufacturing processes and industries.

These entertainments will be given in the Physics Lecture Room for students in Engineering. Other students—to the capacity of the room—are cordially invited to attend.

The operation and management will be in charge of R. A. Corbett. The engineering faculty will contribute lectures to accompany the pictures as occasion demands.

NOTICE.

The first meeting of the orchestra will be held Thursday afternoon at 4:30 in the music hall. All interested in this work are requested to see Mr. Orr before that time.

NOTICE.

The choir is in need of more members especially tenors. Those who sing are requested to make themselves known to Mr. Orr, and to arrange to be present at the next meeting Tuesday afternoon at 4:30 in the music hall.

Notice!

I wish to call the attention of the class presidents and all members of the various classes of the college to the fact that the time has arrived for the election of your representatives to the Student Council.

Because of the fact that there are a number of new students at the college this year, I wish to call their most careful attention to the list of Faculty Rulings printed in the College Y. F. and Y. W. C. A. handbook. A few minutes spent this way may save you hours of difficulty later on.

NOTICE.

If you are at all interested in Bible study, you will be very much interested in the new Bible study groups which the Y. M. C. A. is starting this week.

It is hoped that a large number will signify their willingness to take up this course, and drop into the Y. M. C. A. room for any information you may wish about it.

- BERNHARD'S ACADEMY FOR SELECT
DANCING. At the Mansion, Sons of
Norway hall, No. 309 Broadway, Fargo,

North Dakota Agricultural College

For Completeness of Equipment and Facilities for Instruction is Unsurpassed in the North-West THE COLLEGE DEPARTMENT OFFERS

Pharmaceutical Chemistry — Civil Engineering — Mechanical Engineering — Agriculture — Chemistry General Science — Biology — Home Economics — Education — Veterinary Medicine and Surgery — Architecture — Architectural Engineering.

These courses are available to those who have completed the equivalent of a High School training. For those who have not had such a training

THE AGRICULTURAL AND MANUAL TRAINING HIGH SCHOOL OFFERS Complete Secondary Courses in — Agricultural — Mechanic Arts — Draftsmen and Builders — General Science — Rural Teachers

SPECIAL COURSES Farm Husbandry, Homemakers, Pharmacy, Power Machinery.

THIS COLLEGE offers to the young people of this state an education which is thoroughly in line with modern thought and demands. It spends no time on dead languages or such subjects as are of little practical value.

THE LABORATORIES are thoroughly equipped, and the instructors are specialists in their lines. Exceptional advantages are offered in chemistry, physics, botany, zoology, literature, mathematics, and engineering subjects.

Graduates from approved High Schools are admitted to Freshman Class. Tuition Free. Board and Room \$4.75 to \$5.00 per week.

WRITE TO THE REGISTRAR FOR CIRCULARS, CATALOG, AND ADMISSION BLANKS.—FALL TERM BEGAN SEPTEMBER 14.

The College band is planning to give a masquerade ball in the drill hall in the near future.—Montana State.

Although winter is almost here, the freshmen are still keeping the campus green.

Dr. Libby—"When did the revival of learning begin?"  
Cole—"Just before the exams."

# Athletic Activities

## Wahpeton Science Coming

First Game of Season to be Played on Dacotah Field Next Saturday Afternoon

Next Saturday afternoon the students of A. C. will have their first chance to see the team in action. The team will play the fast Science team from down the river and a fast game is expected. Barring accidents the Aggies will have a formidable lineup and will undoubtedly give the visitors a good run.

Wahpeton has the heaviest team in the history of their school and it is also the fastest, they having back a number of last year's stars and with a great abundance of young material they will have a lineup that will make us shiver at times. Last year we were not able to score on the Scientists nor they on us, but

this year things are expected to take a different turn and a much faster and better game is anticipated.

Coach Wood is drilling his men in a number of new puzzles this week and is also perfecting the plays given out earlier in the season. The same line up as that which was used at Jamestown will probably be worked Saturday and the rooters can be assured that they will be given a game royal.

Everyone be there.  
Where?  
Why, Dacotah Field next Saturday at 2:30.

## Aggies Win from Jamestown

First Game of Season Won by 19-7 Score. Catlin and Porter both put the ball over the goal by the air line.

On last Saturday the team took a journey up to Jamestown and played their initial game with Jamestown College, taking them into camp with a 19 to 7 score. The game was the first game to be played on the Allen field, which was in excellent condition. Straight football was used by both sides with a mixture of open plays as a diversity.

The game of last Saturday gave Coach Wood a good chance to look over his men and find the weak spots of the team. Many fumbles were made but as a whole the team worked like a big machine and things went off with a steady purr.

**First Quarter.**  
The Aggies kicked off to Jamestown in the first quarter and the ball was returned 30 yards. Jamestown lost the ball on the second down on a fumble. The Aggies, with a series of line smashes and end runs, brought the ball dangerously near their goal. McQuillan made a 12 yard gain around end and on the next play carried the ball through center for the first touchdown. Caulkins missed goal. The Aggies again kicked to Jamestown, who returned the ball 20 yards and lost it on downs. Another series of line smashes and end runs brought the ball up to Jamestown's 4 yard line,

when McQuillan again carried it over for another touchdown. Catlin kicked goal. The quarter ended with the score 13 to 0 in favor of the Aggies.

**Second Quarter.**  
In this quarter Jamestown kicked off to the Aggies who returned the ball 35 yards and by employing straight football carried the ball to Jamestown's 20 yard line. Here Jamestown took a brace and held the Aggies to three downs and on the fourth down Catlin fell back and made a beautiful kick from placement. Jamestown again kicked to the Aggies who returned the ball to Jamestown's 10 yard line when time was called, ending the half with the score 16 to 0 in the Aggies' favor.

**Third Quarter.**  
Jamestown kicked to the Aggies who returned the ball 30 yards. For a time neither side had the advantage until the Aggies took a spurt and smashing Jamestown's line hard and fast, together with end runs, carried the ball to Jamestown's 30 yard line when Porter fell back and placed a kick directly within the goal posts. This quarter ended with the score 19 to 0 for the Aggies.

**Fourth Quarter.**  
Jamestown came back with a rush in htsi quarter, holding the Ag-

gies to downs and regaining the ball. Their line seemed to take a brace and with a series of line smashes and a 25 yard end run they brought the ball within a short distance of their goal. A well executed forward pass, Captain Mitchell to McLeod, put the ball across. Mitchell kicked goal. Final score being 19 to 7 in favor of the Aggies.

## SHORT COURSE STUDENTS TAKE NOTICE!

**FACULTY RULINGS.**  
Regarding Student Rooming Houses Now in Effect.

No student shall room in other than approved rooming houses.

Under no circumstances will men students be permitted to room in residences where women students of the Agricultural College, or any other institution, girls employed in or about the city, or any girls or women not members of the housekeeper's immediate family,—are rooming.

Housekeepers must rent their rooms to men students only, or to women students only.

Students shall not be permitted to room in "bachelor" quarters without the consent of the Faculty, which consent will only be granted when requested in writing and approved by the rooming house committee.

No student shall fail to notify his housekeeper, in advance, of an absence over night, a trip out of town, or a vacation trip, stating where he or she may be reached by telephone during such absence, and the length of time the absence will continue. The Registrar must also be notified in the same way regarding absences.

The girls in Ceres Hall shall be governed by the rules adopted by the Student Government organization of the girls at Ceres Hall.

Dormitory rules for women students, regarding calls and calling hours shall apply to all students in the rooming-houses.

All girl students under seventeen years of age, not living in Fargo or Moorhead with their parents or guardian, are required to room in the Girls' dormitory.

In the case of students who are living in the city with their parents these rulings obviously do not apply in every detail; the college, however, reserves the right to require any man or woman student whose indiscretion reflects upon the good name of the college, to come under college rules, or to withdraw from the institution.

Any failure of a student to comply with these regulations will be regarded as an occasion of direct violation of college rules and may involve an appearance before the Discipline committee.

All matters of detail pertaining to the observation and operation of these rulings should be brought to the attention of either the Social secretary, in the Young Men's Christian Association office, or to the Physical Director for women whose office is in Ceres Hall. Official lists of approved rooming-houses may be found in these offices.

### TO THE STUDENT.

The Committee, with the authorization of the Faculty, has outlined the following detailed regulations which the student is to observe; or as it may be stated:

**What the Housekeeper Has a Right to Expect From the Student.**

Quiet in the rooms after 7:30 o'clock on school evenings and after 10:30 on other evenings.  
Lights turned off when out of room.

Care to keep room door closed when outside window is open, so as to prevent loss of heat (in cold weather) from other parts of the house.

No use of other parts of the house without the consent of the housekeeper.

Remuneration for all damage done to room or its furnishings outside of ordinary wear or tear.

No laundering in the bathroom. Porcelain in both bath tub and wash-bowl always to be left clean.

Payment of room rent on the first day of month, or first day of the week, or explanation at that time.

Unless otherwise arranged at the time room is engaged rental will continue through all vacation or recess periods of the school year, except Christmas.

Unvarying courtesy.

### TO THE HOUSEKEEPER

The Committee likewise with the authorization of the Faculty, has outlined the following detailed regulations which the housekeeper is to observe; or, as it may be stated: **What the Student Has a Right to**

**Expect From the Housekeeper.**

Daily care of the room.  
Fresh linen at least once a week.  
A thorough cleaning of the room at least once a week.

Minimum furnishings in a room for two—of a full-sized double bed (or two single beds), study table, dresser or chiffonier, adequate carpet or rugs, two straight-backed chairs, one rocker, electric light bulbs of a required strength or other lamp, linen and bedding, fresh towels supplied regularly (a separate towel for each roomer), soap, a good mirror and at least one storm window which may be opened outward, hinging at the top or arranged with a large sliding glass section.

Light, not less than the forty-watt electric bulb, or its equivalent.

Heat, sufficient to keep the temperature, at times when the room is occupied, at 65 degrees Fahrenheit or better.

No objection to ventilating the room over night and during the early morning hours, provided the room door is kept closed.

Use of bath tub and hot water at least once each week.

Hot water daily in cold weather, and at other times of the year as requested (for shaving, etc.)

Reasonable attention to mail, telegrams, telephone calls (leaving 'phone calls for the student noted on a slip of paper and placed with student's mail); care to inform them also of deliveries of laundry, pressed clothes, packages, etc.

Reasonable quiet in the residence on school evenings during study hours.

That sickness, injury or misfortune which befalls a student be reported by telephone immediately to the Registrar, and in the case of women students, to the Physical Director for Women, who will see that proper help is supplied whatever the case may be.

That, in houses of women students, the use of a reception room be provided, with reasonable frequency, on Friday, Saturday and Sunday evenings, when requested sufficiently in advance.

That in all cases where there has been sickness of a contagious nature prior to the time the room is rented, a thorough disinfection of the room and all bedding, furnishings, etc., be made under the supervision of an authorized health officer.

### THE APPROVED LIST.

The Faculty is certain that student life in the rooming houses will be more satisfactory to both students and housekeepers when definite regulations are accepted and followed by all. Requirements, therefore, have been made that rooming-houses must be on the approved list before students are allowed to live in them.

**JUST A THOUGHT FOR YOUNG MEN.**

You will probably work for others before you are "your own boss."  
Where will you work and what will you do?  
You should work for people who know more than you do, so you may benefit by their experience and superior knowledge. But such people are busy men and want you to come to their offices with a fair degree of proficiency.

**Dakota Business College**  
Makes a specialty of training young people for office positions—as clerks, bookkeepers, stenographers, cashiers, credit men, secretaries and managers—its graduates advance through these stages to businesses of their own.

**Equipment.**  
The school is run like an office. It is equipped with roll top desks, adding machines, loose leaf books, card ledgers, cash registers, billing machines, filing cases and other things for illustrating and teaching business, order and system as they are practiced in first class offices.

**Teachers.**  
Its teachers are EXPERTS who have earned BIG SALARIES out in the business world DOING the very things they are now TEACHING. These people can teach you more than other teachers.

**The Expense.**  
It costs very little to take Dakota Business College course, compared with taking a course in medicine, law dentistry, engineering etc., yet a D. B. C. graduate has a greater earning capacity than a young man just out of Harvard or Yale. (This statement can be proven beyond question.)

**Good Positions.**  
Dakota BUSINESS COLLEGE has a large number of business men and firms that have virtually contracted to take every graduate it can turn out. By taking a course of training at D. B. C. your future is sure—you take no chances.  
Think these matters over very carefully and then drop in some day and talk your future over with

**Practical Value of Seed Work is Shown**

**Rust-Resistant Wheat Makes Remarkable Showing—Seed Is Very Popular With the Farmers of State.**

The attached clipping is an account of the value of the work in developing pure seed and seed which can resist rust. This work is carried on under the direction of Dean Bolley of the Botanical Department. This investigation has produced seed which is deservedly popular with the farmers of this state and the incident mentioned is a typical one.

The account of the rust-resistant wheat raised in this country printed some weeks ago in the Alert has attracted state-wide attention. The following further information is given in regard to the wheat by the grower himself:

LaMoure Chronicle: In response to The Chronicle's query, James Murdock writes as follows regarding his experience with rust-resistant wheat:

Wimbledon, Sept. 5, 1914.

H. R. S. Diesem, LaMoure, N. D.:

Dear Sir: Your letter of the 21st received. I was pleased to see the clipping from the Alert. I have been quite interested in the wheat, and took good care of it, and kept it clean and free from other wheat. This is the second season that it has resisted the rust.

In 1911 I procured 120 pounds of this wheat from Professor Bolley of the agricultural station, and seeded it. My bluestem wheat rusted and went eleven bushels to the acre, and right along side of it my new wheat went twenty-eight bushels, and weighed sixty-two pounds per bushel. I seeded it in 1912, and got thirty-two bushels per acre and in 1913 it went twenty-seven bushels to the acre. What I have threshed this year has gone nineteen bushels per acre. There are a good many farmers that have some of this wheat and they have yields from fifteen to twenty bushels per acre, while other wheat is yielding from five to twelve bushels. It is a strong grower and resists the rust.

The farmers that have the wheat are well pleased with it, and decided to call it the Murdock wheat. It is

known on the records at the experimental station as N. D. R. 5

We are getting No. 1 durum at the elevators. I will have two or three thousand bushels for seed, and would like to have some of the farmers in your locality try it. It is a sure product.

Yours truly,  
JAMES MURDOCK.

**Many Hear Knapp's Talk**

**Speaks on Needs of Agriculture—Makes Powerful Plea for Support.**

A number of station representatives and men interested in agriculture, from the school heard the Hon. Bradford Knapp deliver a speech fairly charged with hard common sense and valuable advice on the one crop farm evil and on the finance of farms. All who heard him were enthusiastic in their praise of his address. He has been in charge of demonstration work for the government in the Southern States and has had the same one crop evil to combat as here. He made a powerful plea for better support for those who are trying to bring about the education which will stop this, notably the agricultural colleges of the various states. He also paid a tribute to the business men who are backing this institution.

**DELTA PI STAG PARTY.**

Last Friday evening, at the home of Park Tarbell, an informal stag party for the members of the fraternity was enjoyed by all. An impromptu glee club and a whist tournament furnished amusement for the evening and the excitement was produced when Hooper tried to break up the meeting. He was subdued, however, in time to allow those present to enjoy the bachelor refreshments which disappeared like smoke in a high wind. All members and some of the alumni were present, and appreciated the geniality of their host to the utmost.

Pig skins, mole skins and peeled skins are running a close race for supremacy on the gridiron these days.

**Ceres Hall Notes**

Mr. and Mrs. Engle and son attended to Fargo Sunday and spent the day with their daughter, Maud.

Miss Elsie Stark went to Hunter Saturday to judge bread, butter and sewing at a contest and to give an address on Domestic Science. She returned in the evening after having spent an eventful day, including waiting two hours on the prairies for the train to come along.

Misses Dorothy Price and Gladys Plath spent the week end with Mr. and Mrs. Plath at Davenport. They returned Monday in time for school.

Miss Agnes Hutchison went to Hillsboro to spend Saturday and Sunday with her parents.

Miss W. Tunell, the Y. W. C. A. secretary who has been at the College working with the Y. W. C. A. girls left for the general office in Minneapolis, Wednesday evening. The girls regretted to have her go but they hope she will be able to return again in the near future.

Wonder, why Stoa looked so sad (?), Saturday. Some say it was due to a girl.

Misses Lejla Koeford and Alfhild Larsen from Morhead Normal spent Saturday and Sunday with Miss Mary Hartney. A very warm reception (?) was extended to them by "Ole."

Miss Lylith Rusk took dinner Sunday with the Misses Hartney, Clayton and Wild.

An auto ride was enjoyed by six girls and six boys of the College Sunday. Have been wondering how one lone car could accommodate such a crowd.

Miss Hoff of Casselton went home Saturday to spend the week end with her parents. Having about twelve minutes to dress and make the car some good deal of excitement was caused before she departed.
