## Glee Club Crack Squad And "Y" Quartette Returned From Very Successful Trip

Last Wednesday afternoon the group of students who comprise the party making the trip returned to the city after five days of highly successful performing in various towns of the state. Barring the bad weather that marred several days, though the trip was all that could be wished for, as the two messages at the end of the article would indicate. The party left here the evening of the 19th and played that evening in Casselton.

### CASSELTON.

The program was put on in the gymnasium of the High School and a fairly good crowd turned out to greet the boys. Although the crowd was not large it was enthusiastic enough to make up for the deficiency. All the numbers were very well received, especially those of the quartette and the group of three Southern songs by the Glee Club. Mr. Porter's solos made a big hit. The Crack Squad was forced to drill on the gymnasium floor, directly in front of the stage, as the size of the stage made it impossible to drill on it. The floor was excellent and the way in which their work was endorsed proved the worth of the drill. An informal dance was given for the visitors after the program.

### McVILLE.

From Casselton the boys went to McVillage, to put on an afternoon program. They expected a splendid crowd in McVillage from the reception that the McVillage crowd gave to the Special Train last year, and they were not disappointed, for the house was packed. They closed all the stores, let the schools out and turned out in force. All the numbers made a hit and Mr. Porter had an awful time in getting off the stage. Ward used to be principal of schools in McVillage and they were sure glad to see him back again. The Crack Squad was rather hampered by the size of the stage but nevertheless made a hit. Drummond lost half of his colors and McConnell left a trail of broken hearts behind him. Pretty good for about four hours' work.

### ANETA.

From McVillage the route led to Aneta for a program the same evening. The weather had been growing steadily worse and by the time Aneta was reached it had become a fair sized blizzard, and this combin-

ed with a show the night before resulted in the poorest crowd that was countered along the trip. They were all enthusiastic, however, and gave the boys a good send-off.

### CANDO.

En route to Cando, the boys stopped for an hour in Devils Lake and arrangements were made to stop off coming back. A big crowd met the train at the depot in Cando and gave the bunch a hearty welcome. The house was packed in the evening and was one of the most appreciative audiences encountered on the trip. Mr. Porter's solos made the hit of the evening and the other numbers were all well received. The Crack Squad were again hampered by a small stage but as they were getting used to drilling in confined space by this time they readily overcame the handicap. The party stayed over Sunday in Cando and none of them regretted the fact that they had to. The Glee Club and the "Y" quartette sang at the two churches at both the morning and evening services. The letter at the end of this article from the pastor of one of the churches indicates how their efforts were appreciated. Monday morning the quartette went up to the high school and sang several numbers for the students. All during the stay in Cando, the people of the town did their best to show the boys a good time and treated them royally. A number of A. C. students were encountered in this town, among them Mr. Ellingson, who was a member of the first Crack Squad.

### CHURCHS FERRY.

Monday afternoon when the bunch arrived in Churchs Ferry they found that the town had been covered by a special edition of the local newspaper advertising the evening's program. This courtesy was due to Mr. C. E. Harding, the editor of the paper through whose efforts the success of the visit to Churchs Ferry was assured. This was the first nice day that had been encountered on the trip and the afternoon was utilized in pulling off a fake battalion parade and an impromptu baseball game. Both of these created much merriment among the natives and doubtless accounted for the large evening crowd. Everything made a hit here. The Squad drill was a varia-

tion of "Sailing, sailing, over the bounding main." The stage floor was very springy and swayed so much that the drill master got seasick and the crowd was in mortal terror that every minute the whole bunch would go straight down through. After the program the young people of the town held an informal dance for the boys of the Squad. The hard-hearted director of the Glee Club refused to let his wards stay up and dance.

### DEVILS LAKE.

This was a morning program but the crowd was good considering the short time in which the advertising was done. The schools were all dismissed and the younger children let in free. Although the heavier work of the Glee Club was not appreciated the way it should have been, the lighter work of the quartette made a big hit with the school children, although the song "The Goblins 'll Get You" scared some of them stiff. The Crack Squad had a good solo stage that was plenty big enough and put on a drill that showed what they could do when they had the room. The prompt way in which the visitors from the public schools came onto their feet when the "Star Spangled Banner" was sung showed how they had been trained. After the program the boys adjourned to the Great Northern Hotel, where they were the guests of Mr. Ompdahl, Miss Grace Briscoe, and Mr. Clark Kelly, at dinner. Miss Briscoe and Mr. Ompdahl made a few short remarks after the boys had voiced their appreciation by some vigorous yells. Mr. Kelly also kindly made arrangements so that the boys were not compelled to lug their suit cases through the parade and to and from the trains. Anyone from the A. C. always seems to find a hearty welcome in Devils Lake and it certainly is appreciated.

### LAKOTA.

This was the last program on the trip and all determined to make it the best, which they certainly did. This is the home town of Mr. Tommy Baird and out of compliment to him, Mr. Sonquist sang the song by Mr. Baird, "When Thou Art Nigh," which has become very popular. Every number brought a roar of applause from the crowd and the "Y" quartette was forced to respond time and time again. The rural comedy was the cause of laugh after laugh and the Crack Squad drill fairly brought down the house. The singing of the two songs by the Club in conjunction with the drill made a hit wherever seen, this will be a regular feature when these two or-

(Continued on Page 4.)

## Big Circus Opens On April 3rd

### CALL.

All musicians, performers and workmen are requested to note that Barnyard & Balledhay's great circus opens April 3 and 4. Everybody will please report for a full dress rehearsal in the Armory, Thursday afternoon, April 2, at 3:30 p. m.

Reports from the great circus indicate that everything is coming along in fine shape and everything points to the biggest thing that has been put on this year. The entire program is published elsewhere so that an idea of the magnitude of the project may be gained. None of the performers have been injured in the preliminary training which insures that all the acts will positively be seen as scheduled. High Muck-amuck Bachman informs us that there will also be a number of extra attractions which have not been placed on the program as yet. It is promised that the eye-bewildering, kaleidoscopic whirl of color and picturesqueness which is obtained in the Grand Entree will far surpass anything of the kind ever before attempted. The clowns have been especially trained and educated to suit the critical taste of the audience before which they appear and the same may be said of the other acts, many of them imported from foreign lands for this exhibition. There will be strange and wonderful animals, spangled athletes to baffle and amaze, trained animals of all kinds and last the hair-raising, death-defying High Dive from the ceiling of the Armory into a tank of water below.

### Grand Free Street Parade.

On Saturday morning at 10 o'clock there will be a magnificent spectacle over four blocks long which will wend its serpentine way down town to dazzle the eyes of the villagers. Leading the parade will be the usual police escort. In the line of march will appear twenty attractive girls mounted on beautiful horses. There will be some splendid floats, the different organizations of the school will have attractions on parade, several weird and unknown animals will appear including the Sacred White Lion, stolen from the holy temple in the capital of Atalassa, and the Holy Ox which commands the superstitious adoration of thousands of the

inhabitants of the mountainous country of Lahmato which lies near Tibet. Also there will appear an elephant, the military and closing the procession, a callope. This will be a spectacle that will be worth going long distances to see and it is expected that the streets of Fargo will be fairly jammed by the crowds which turn out to see this.

Below is given the complete program of the big circus. After the main show will be given a concert by the minstrels and the three bands, white, clown and colored, who will also appear in the big parade.

### Part One.

Display No. I. Grand Entree.  
Display No. II. Crowning of the Circus Queen.  
Display No. III. Burlesque on Grand Entree by Clowns, ending with the crowning of a clown queen.

### Part Two.

Display No. IV. George Gratas in a strong man act. Lifting eight men on his back, biting a spike in two, holding three men up by his teeth, bridging, and other features of strength.

Display No. V. Ring No. 1. Tumbling by boys from the city Y. M. C. A.

Ring No. 2. Tumbling acts. Storland and partner.

Display No. VI. Gratas and Barcus in wrestling exhibition.

Ring No. 2. Wasgatt and partner in boxing exhibition.

Display No. VII. Clown Burlesque on Woman Suffrage. (Center of floor.)

Display No. VIII. Elephant Leaping act. Employed Boys' Class from City Y. M. C. A.

### Part Three.

Display No. IX. Scoop Perry's Trained Elephant. Center of floor.)

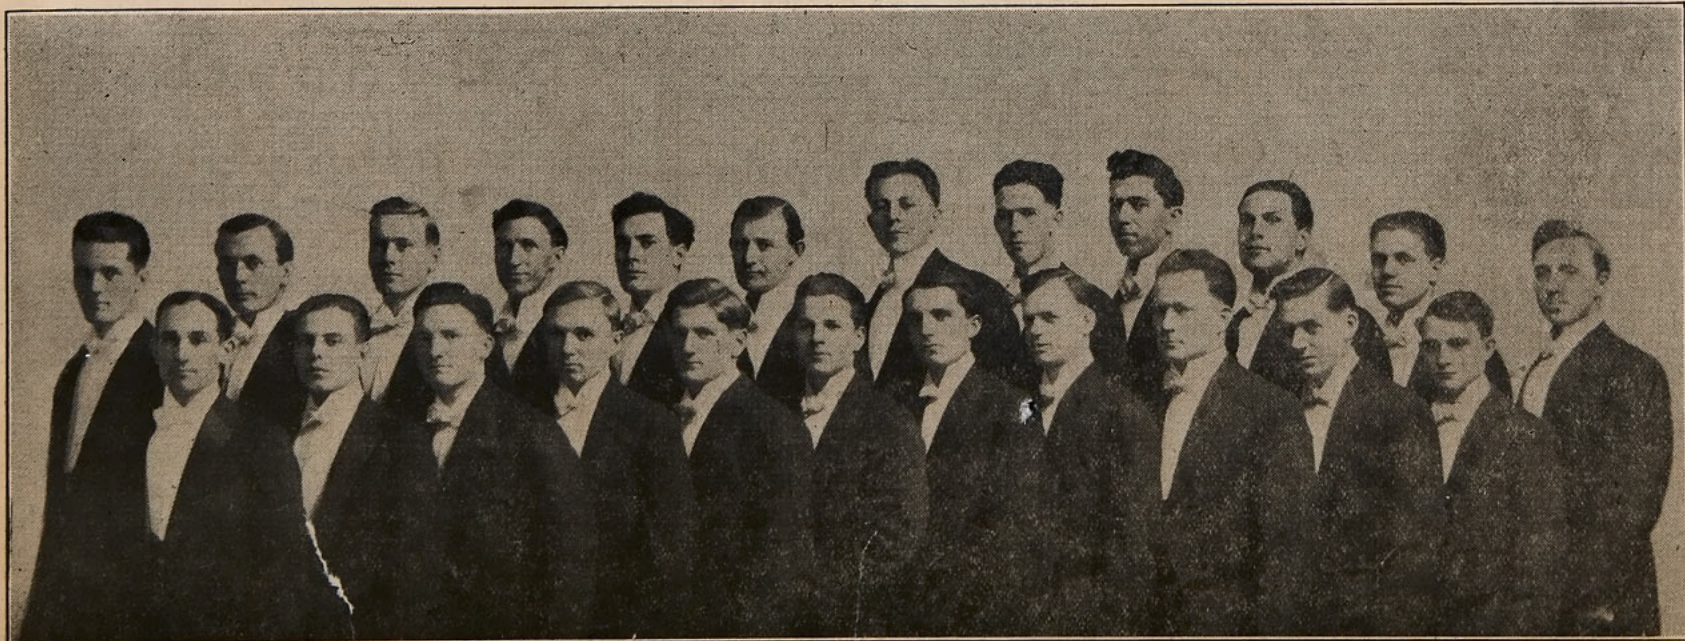

Display No. X. Ring No. 1. Goodwin's Trained Dog in ball catching, leaping, walking on hind legs, and other feats of intelligence and skill.

Ring No. 2. Matson's Trained Dog in various feats and tricks in-

Special Editor EDWIN HOOPER, '17

This issue is the first one which comes out under the direction of the new Editor-in-Chief, and he feels that there is due to the readers of this paper a word of explanation in regard to the aims of the new administration.

There will be no radical changes in either the form or contents. Such a procedure would be foolish, in view of the satisfaction which the previous issues of the year have given. What changes are made will be made gradually and made only as time shows them to be judicious and necessary, and the Editor sincerely hopes that when the students deem and chafe wise, they will freely express their views on the subject.

This paper is the organ of the school and should contain such matter as will give the casual reader an impression of the aims of the school and a true reflection of the attitude of the student body on questions of importance. The Editor of the staff cannot accomplish this alone, but it can only be brought about through the united, loyal support of the student body, whose mouthpiece it is. There is no reason why the Spectrum should not be aided by the interest of the students and the Editor hopes that the coming year may see a development of popular interest in the Spectrum which will result in the building up of a paper that will be a model for other papers of like character.

THE DOPE BOX.

Use that dope box! It wasn't put there for ornament but for the use of anyone who has kicks, comments or remarks to make on anything from solar myths to empty sardine tins. And incidentally if there is a joke on yourself that is too good to keep, put it in, and have the satisfaction of having contributed to the gaiety of nations and possibly of having beaten some one else to it.

It is desirable, but not necessary, that all communications of any length be signed. However, if unsigned articles present a new or valuable phase of any question, they will be published regardless of the attitude they take. The principal thing to remember is that the dope box is there to be used. There are about fifteen members on the staff and the perversity of chance makes it impossible for them to see and keep track of all the things about the campus which are of interest.

ADVERTISING THAT PAYS.

Those who have read the letter from the pastor of the Methodist church at Cando relative to the impression left by the A. C. Students on their recent visit there, cannot but be impressed by the fact that it is not a student's ability that counts most, but his character. And that is the way that it was all along the trip. Invariably in every town where they appeared, the strongest and most approving comment was not what they did on the stage but what was done outside and what a fine, manly set of fellows they were.

The people in those towns are going to remember the North Dakota Agricultural College as a place that trains men and gentlemen, and when it comes to sending their boys and girls away to school, this institution will be immeasurably the better off as a result of the advertising gained on this trip. Some of us, perhaps, are liable to forget that wherever we go and whatever we do we always carry with us something which we have no right to forget or neglect, the honor of the school, and it may gain or lose much by some trifling act of ours. The recent Glee Club trip was a splendid example of what can be done for the school in this way and we all have a right to feel proud of the thirty-two men of this institution who have done this for the school.

CERES HALL

A surprise party was given Wednesday in Moorhead for Miss Isabelle Booth, the occasion being her birthday. The guests consisted of A. C. girls, Normal girls and Moorhead people. A three course dinner was served, after which games and music were enjoyed for the rest of the evening.

Miss Lilly Horstrand returned Monday from Brinsmade to commence High School work. Tuesday she came down with measles and has been isolated in the hospital section. She will, however, be out Sunday.

A slumber party was given by the Misses Stark, Honett, Leet, Frojen, Sprague and Blanco to the Misses Jessie Lommen, Hazel Petrie, Hazel Fitzgerald, Sully Crest, Bertha Gunderson, Seneca Pederson and Louise Lee on Saturday evening. Before retiring a lunch was served. One of the rooms was converted into a sleeping room and another changed into a dining room. There was little sleep for the wicked that night, and the righteous who did sleep awoke the next morning to find that their faces had been blackened with shoe blacking during the night. The offenders were given a ducking to pay them back. Breakfast was served consisting of oranges, poached eggs on toast, jelly fruit, nut cake and coffee. Everyone present had a very enjoyable time.

Miss Lucile Morris spent the vacation with Miss Ruth Olsen, at Hanaford returning Monday evening.

Miss Clara Dolve spent the week end with her brother at Portland.

Miss Myrtle Johnston visited her parents at Forest River, Saturday and Sunday.

Miss Isabelle Booth attended a party, Friday afternoon in Moorhead which was given in honor of her sister Beatrice.

Mrs. W. H. Cox and daughter Margaret spent Saturday and Sunday with her daughter Marion. She returned to Fairmount Sunday.

Miss Hilda Bormen of Abercrombie spent Thursday evening with Miss Schmidt. Miss Lena Schmidt also spent Saturday with her sister

THE COLLEGE DEPARTMENT OFFERS

Pharmaceutical Chemistry - Civil Engineering - Mechanical Engineering - Agriculture - Chemistry General Science - Biology - Domestic Science - Education - Veterinary Science - Medicine and Surgery These courses are available to those who have completed the equivalent of a High School training. For those who have not had such a training

THE AGRICULTURAL AND MANUAL TRAINING HIGH SCHOOL OFFERS

Complete Secondary Courses in - Agricultural - Commercial - Domestic Science - Mechanic Arts General Science - Rural Teachers

SPECIAL COURSES

Farm Husbandry, Homemakers, Pharmacy, Commerce, Power Machinery; Special Courses are also offered A COMPLETE COMMERCIAL COURSE

Is offered all students and its work is so arranged that it may be carried in connection with the regular work of other courses.

THIS COLLEGE offers to the young people of this state an education which is thoroughly in line with modern thought and demands. It spends no time on the dead languages or such subjects as are of little practical value. It aims to fit young men and women who can think and investigate for themselves; who can deal with social, agricultural and industrial problems of the day.

THE LABORATORIES are thoroughly equipped, and the instructors are specialists in their lines. Exceptional advantages are offered in chemistry, physics, botany, zoology, literature, mathematics, and engineering subjects.

Graduates from approved High Schools are admitted to Freshman Class. Tuition Free. Board and Room \$4.00 to \$5.00 per week.

WRITE TO THE REGISTRAR FOR CIRCULARS, CATALOG, AND ADMISSION BLANKS.—FALL TERM BEGAN SEPTEMBER 15.

Oiga, while en route for Abercrombie.

Miss Audrey Farley recovered from the mumps very nicely and returned to her home in Cando, Thursday. She will not return to school again this school year.

Gladys Plath, on account of sickness, has returned to her home at Davenport where she will remain until fully recovered.

Miss Olive Wild spent Friday evening with Miss Rusk of Fargo.

Miss Theresa Howland spent her vacation with her brother Garth in Minneapolis. She returned Thursday to resume her studies at the school.

Miss Edith Shelton, who was operated on at St. Johns Hospital about four weeks ago is doing nicely. She is up for a little time each day and will be allowed to return to Ceres Hall some time next week.

Misses Edna Stedman, Agnes Peterson and Grace Shelton spent Friday at Casselton. Miss Stedman went to judge a bread contest. The girls reported a grand time.

HESPERIA.

The first meeting of the term was held Friday evening, March 27.

The following new officers were installed:

President—Roy Luttrell. Vice President—Eugene Ross. Sergeant-at-arms—Chas Palmer. Editor of the "Whistle" and Spectrum reporter—Carl Peterson. Critic—Arthur Biles.

Robert Froemke and Carl Peterson were elected members of the judiciary committee. The programme committee as appointed by the president, are Carl Peterson and Leon Petit. The following new members were voted on and taken into the society, Conrad Wiley, Donald S. Martin and John McLean.

Arrangements have been made for a competitive Literary Festival with the Castilians for Friday evening, April 24. Each society is to furnish the following numbers: One act play, stunt, Musical number and a declaration.

After short talks by each of the new officers, the following program was given:

Future Politics of the U. S. Chas Palmer Does the Rural Creamery increase

AGRICULTURAL CLUB.

At the last meeting of the Agricultural Club, the following program was given.

A Reading Grover Riebe. Discussion of Hog Cholera Dr. Schaek. Club Paper Happy Strand. Campbell Method of Farming H. W. Anderson

Debate—Resolved that dairy cattle are more profitable than beef cattle in North Dakota.

Affirmative, Mr. Magill Mr. Reedon.

Negative, Mr. Lamb, Mr. Atwood. The decision of the judges was in favor of the affirmative.

The attendance was very good considering the weather and the other attractions about the campus. The programme was considered a very instructive one and was appreciated by all present.

# Athletic Activities

Edited by S. K. BJORNSON.

## U. N. D. Defeated In Final Game

UNIVERSITY MEN WERE OUT-PLAYED THROUGHOUT THE GAME. BRILLIANT TEAM WORK AND SHOOTING BY THE A. C. WERE FEATURES OF THE CONTEST. FINAL SCORE 41 TO 17.

On Saturday evening, March 14th, Coach Wood's Aggies finished the basketball season in a blaze of glory by defeating the fast U. N. D. aggregation by the overwhelmingly one-sided score of 41 to 17. At no time during the contest did the University prove seriously dangerous. Captain Bolsinger was shifted from guard to the pivot job and although new to the position he outplayed the much touted Murphy in every department of the game and gathered in a total of 23 points for his team. Wilcox and McKee both put up a good game as forwards. They both played hard consistent ball and connected for three field baskets apiece, while their men did not get any. Harris and MacQuillan at the guard positions proved themselves invincible and the U. forwards found it practically impossible to get by them. Lowe, Robinson and Cook were the stars for the U. Their whole team, however, played good ball and the game was faster than the one-sided score would indicate.

### The Game.

Harris started the scoring after two minutes of play. Foul on the A. C. was converted into a point by Robinson. Double foul and both sides counted. Bolsinger tears loose and shoots three field baskets in as many minutes. McKee broke into the scoring list with a clerely executed field basket. Foul on the U. was counted by Bolsinger. Robinson shot a field basket from difficult angle. Cook scored. Wilcox dribbled the length of the floor and scored. Wilcox again. Foul on the A. C. made good by Robinson. McKee scored on a perfectly worked, out of bounds play. Foul on U. and Bolsinger counted via the free throw route. Foul on the A. C. counted by Robinson. Foul on the U. brought the A. C. another point. A. C. fouled again and Robinson counted. Half ended, A. C. 22, U. N. D. 9.

Three fouls were called on each team during the first few minutes of the second half. Robinson missed one, but Bolsinger none. Bolsinger scored. Wilcox scored. Wilcox hurt but resumes play. Cook scored. Bolsinger ditto. Foul on the U. brought the A. C. another point. McKee scored, closely followed by MacQuillan. Foul on the U. was made good by Bolsinger. Smith goes in for Murphy. Foul on the A. C. counted the U. a point. Foul on the U. evened things up. Bolsinger scored. Foul on the A. C. but Robinson missed goal. Smith hurt and

Thexton replaces him. Play resumed and Cook scores. Cook hurt, time out. Play resumed and U. fouls, but Bolsinger missed goal. Harris scored. Two fouls brought each side a point. Game ended, A. C. 41, U. N. D. 17

Following are the line-ups and summary:

A. C.	U. N. D.
Wilcox,	L. F. Lowe
McKee	R. F. Cook, Smith
Bolsinger (Capt)	C. Murphy, Cook
Harris	R. G. Robinson
MacQuillan	L. G. Murray

Field goals: Bolsinger 7, Wilcox 3, McKee 3, Harris 2, MacQuillan 1, Robinson 1. Free throws: Robinson 9 out of 10, Bolsinger 8 out of 11. Referee, Clarke. Umpire, Foster.

## Spokane Trip For Foot Ball Is Assured

CONTRACTS ARE SIGNED WITH "U" OF MONTANA AND GONZAGO UNIVERSITY AT SPOKANE. MONTANA AGGIES AT BOZEMAN MAY ALSO BE INCLUDED.

The contracts have been signed with the University of Montana at Missoula and Gonzago University at Spokane, fixing the dates for next fall's trip. Negotiations are also under way with the Montana Aggies at Bozeman, and if satisfactory arrangements can be made a game with them may be included on the trip. At any rate this trip will be the best that any North Dakota team has ever had, and coming as it does at the end of the season it will give the men something to look forward to and work for. Arrangements are under way to return via the Yellowstone National Park, and if the weather is favorable to give the men a chance to view some of the natural wonders in that famous beauty spot of the west.

That this trip will help greatly in developing a team goes without saying. The things required of the football men are hard work and faithful training. During the football season they have to go through a steady grind and must forgo many of the pleasures indulged in by other students, but the one thing that will discourage the players quicker than anything else is a poor schedule. This year, however, the A. C. will have the best schedule it has ever had. Four good games are billed for Dacotah Field, and four, or probably five away. Jamestown College will be played at Jamestown on October the third. Then the Wahpeton Science School, St. Thomas, Macalester and Fargo College will appear in the order named on Dacotah Field and on November 7th the U. N. D. will be met at Grand Forks. On November 13th, the "U" of Montana will be played at Missoula and on the 18th Gonzago University at Spokane, Washington.

## Macquillan Will Lead Aggies

STURDY GUARD ELECTED CAPTAIN OF NEXT YEAR'S BASKETBALL TEAM.

On Sunday, March 15th, the basketball team met to have a group picture taken and also to elect a captain for next year. The unanimous choice of the team for captain was Herbert F. MacQuillan. This is Mac's second year on the team and the players showed their confidence in his ability by their selection. His playing has always been of a high order, and his ability, experience and genial good fellowship make him singularly well fitted to lead the A. C. basketball aspirants of 1915 to victory.

Here's luck to you, and lots of it, Mac.

## Four A. C. Men Get Position on State Team

BOLSINGER, MACQUILLAN, HARRIS AND WILCOX ARE NAMED. OF THE OTHER FOUR TWO ARE U. N. D. MEN AND TWO FROM FARGO COLLEGE.

Following the U. N. D.-A. C. game Coach Wood of the A. C., Coach Watkins of Fargo College and Coach Archer of the U. N. D. got together and selected an all-state college basketball team. Each man made up a list of eight men, who in his judgment were the best in the state. Strange to say, the three men selected exactly the same men on their first ballot. These were as follows: Robinson, U. N. D., guard and captain. Bolsinger, A. C., center and guard. Harris, A. C., guard. MacQuillan, A. C., guard. Wilcox, A. C., forward. Murray, F. C., center and forward.

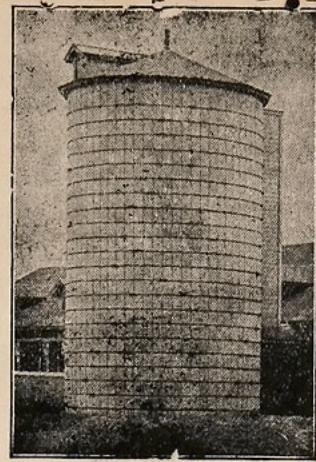

Lowe, U. N. D., forward. Haggart, F. C., forward. Robinson of the U. N. D. was given the captaincy because of his experience and accuracy in foul shooting. He is a fast, shifty player, a good passer and a sure basket shooter as well as a good guard. Bolsinger is probably the fastest man in the state on a basketball floor. He is a dangerous basket shooter and guards his man closely, while his ability to go up in the air is remarkable. Harris is beyond a doubt the cleverest man in the state at handling the ball and also displays marvelous footwork. He guards closely and is an adept at breaking up plays for the opposition as well as a sure shot. MacQuillan is fast and shifty, a clever shot, sure passer and one of the closest guards in the state. Wilcox played his first year at forward this season and demonstrated his ability by proving himself one of the best in the state. His floorwork is above par and his shooting, passing and ability at handling the ball puts him in a class by himself. Murray of Fargo College is one of the cleverest shots in the state as well as a good passer and foul shooter. Lowe of the "U" is a fast shifty man on the floor, a sure shot and a good passer. Haggart is an experienced veteran, a sure basket shooter from any angle on the floor, a good passer and a clever floor worker.

### HASKINS TO COACH BASEBALL.

Bert Haskins, faculty manager of athletics, has been chosen to coach the baseball team. Haskins is ably qualified for the position. He played on several championship teams during his college days as well as some of the fastest independent teams of the Northwest. He stands for clean athletics, has always been popular with all who know him and possesses all the essentials of a good coach. The team under his direction should develop into a championship aggregation. Mr. Haskins has expressed himself as being well satisfied with the material in sight, and if hard work and good coaching will bring any results, the A. C. will be represented by a fast team.

This arrangement leaves Coach Wood free to devote all his time to the track men and football. Coach Wood has an enviable reputation as a track coach and will undoubtedly bring unusual results in that line. As soon as the weather permits the aspiring baseball and track athletes will be shoosed out into the open, and the football men will start their spring work shortly after.

Coach Haskins has about twenty-five baseball candidates working out in the Armory. This makes it rather crowded and hard to work, and the men are all anxiously waiting for the outside practice.

124 Broadway

GLEE CLUB, CRACK SQUAD AND "Y" QUARTETTE RETURN FROM VERY SUCCESSFUL TOUR.

(Continued from Page 1.)

ganizations appear together. After the program the floor was cleared and a very enjoyable dance held the boards until the wee small hours. There was a big crowd at both the program and the dance and everybody had a splendid time. Much appreciation was expressed of the courtesy of the Owl Club in turning their attractive club rooms over for the entertainment of the boys during the afternoon and evening. Lakota is a town that will be hailed with delight if it ever appears on the itinerary of another trip. (P. S. There was a blizzard but it was almost unnoticed in the good time that we had.

The trip as a whole was certainly satisfactory, although the financial part was not all that could have been wished for. This was due to the bad weather encountered in places where large crowds were expected. As far as an advertisement for the school went the two messages below testify to its success. The telegram from McVilleville was sent to all the towns where a later appearance was made. A similar one was sent out from Aneta also.

DAY LETTER.

McVilleville, N. D., March 3, 1914. To President Commercial Club, Devils Lake, N. D.

North Dakota Agricultural College Glee Club, Crack Squad and Quartette favored us with an afternoon entertainment yesterday.

We take this opportunity to highly recommend them to you.

Any effort upon your part to make their entertainment in your city this evening a success will be greatly appreciated by these young gentlemen. McVILLE COMMERCIAL CLUB, O. N. Tyler.

Cando, N. Dak., March 23, 1914. President J. H. Worst.

Dear Sir: Pardon a word of commendation which I feel constrained as duty to write you in regard to the "Fargo Agricultural College Glee Club" that rendered in an excellent manner their program on Saturday evening in this city. I wish to thank you, sir, for the influence that you and your faculty have in the Agricultural College over these young men; in the elevation of their ideals as well as the acquisition of knowledge that will place competent men on our farms and in our schools in this resourceful state.

These young men have done more to advertise the worth of your College than all the literature you could have flooded this community with; they are of clean character and keenly interested in the moral forces that enrich civilization and which adds real worth to the commonwealth. On Sunday they helped the churches with the music in an unselfish and unpartisan manner with great credit to themselves, the

Other Colleges

Marvin Kirk.

\*\*\*\*\* THE INDUSTRIAL COLLEGIAN, S. D. State College.

The March 3, number of the Collegian was a special "Awful Number." It contained twelve pages of vivid "Yellow Journalism," printed in green ink, on yellow paper. The tales told of the startling events that have happened on the campus recently, are certainly hair raisers. Here are a few of the headings: "Ku Klux Klan Frat is Laid Bare;" "Ned Ansen Succumbs;" "The Peerless Tragedy;" "Strife Among Faculty;" and "Collegian Reporter Unearths Mystery."

The Y. M. C. A. gave a circus, with all the tight wire, trapeze, tumbling and other stunts.

The men of the State College have pledged \$500 a year for three years, toward the support of the Y. M. C. A.

The Engineers put out the March 17 issue of the Collegian. It consisted of twelve pages, and was gotten up in a way that would do credit to any organization.

The C. A. C. BAROMETER, Oregon A. C.

An intercompany track meet has been proposed, and prizes have been offered to the winning company and also to the winning battalion.

In the annual Soph-Freshman tug of war, the Sophs won, and the largest and most prominent rooks "went beneath the briny."

The Barometer will issue a "Yellow Sheet" April first, and the contributors have been requested to save all their scandal until that time.

THE ORGEON HERALD, University of Oregon.

The student council plan has now been adopted by the students at Oregon.

In a recent issue of the Daily which was edited by the law students of the University of Washington, the students criticised the faculty a little too strongly and now the regular editor will be held responsible for all articles appearing in special editions in the future.

The senior men have nearly all signed a petition to abolish caps and gowns for their class.

The issue of the Emerald will be put out by the Y. W. C. A. at an early date.

Company K, Wyoming National Guards, and the two companies of Cadets of the U. of Wyoming are now having joint drill in battalion formation, each week.

There are eighteen young women enrolled in the law school at the U. of Oregon.

NEW Y. M. C. A. PERSONNEL.

In accordance with the constitution of the College Young Men's Christian Association the president, Clarence E. Wolsted, '16, after consultation with the vice presidents and many influential members of the student body, wishes to announce the makeup of the Association cabinets for the new fiscal year, April 1914 to April 1915.

The men selected as chairmen for the College Cabinet are as follows: Administration—John L. Horne. Finance—Urban Ebner. Headquarters—Roy Lawrence. Building—Theodore Stoa. Religious Education—George F. Stewart. Mission Study—Walter K. Marshall. Sunday Meetings—Marvin Kirk. Recruiting Service—Harold Bachman.

Campus Service—William Mendenhall. Employment—John L. McConnell. Visitation of Sick—Walter Bendler. Socials—Stanley Abbott. Faculty and Student Socials—William Guy. Handbook and Literature—Halvor Aakhus. New Student Work—Raymond Powell. Community Service—Ward H. Porter. Music and Concerts—J. Earl Yerrington.

The men who will act as chairmen of divisions of the Promotive Committee are, John L. Horne, William Mendenhall, Halvor Aakhus, John L. McConnell and Alonzo Nichols.

The Industrial Courses Cabinet will be as follows: Hugh H. Brown, Second Vice President and Chairman.

Administration—Edward L. Vinje. Finance—Earl Nichols. Religious Education—John Murphy.

Recruiting Service—Lawrence J. Erb. Campus Service—Chester Bartz. Socials—Cecil Baker. Employment—Walter Dunwoodie. Visitation of Sick—Howard Brandenburg.

Community Service and Study of Rural Social and Religious Problems—Nathaniel Crockett.

The chairmen of Promotive Committee groups will be, Edward Vinje, Lawrence Erb, Nathaniel Crockett, Earl Nichols.

The makeup of the Preparatory Cabinet for 1914-15 is Conrad S. Wiley, Third Vice President and Chairman.

Administration—Monroe Kirk. Religious Education—Sivert Ericksen.

Campus Service—Carl Peterson. Community Service—Arnold Heidenr.

Recruiting—Paul Hemple. Promotive Committee, Chairman Conrad Wiley, Paul Hemple and Sivert Ericksen.

With these groups of men at the leadership of the Association work for the coming year it is hoped that the organization may be able to carry out its largest service among the men of the student body. Within the next month the heads of the five departments in the Cabinets will be asked to present the policies of work which they expect to carry out next year, these policies will be considered by the Cabinet as a whole and when finally accepted will be granted appropriations according to the needs of the work planned.

On May 1, 2 and 3 there will be held in Fargo a conference of all of the officers of student Associations in North Dakota; all of the above mentioned men are asked to be present. Then in June, about ten days following the close of college, as many of the above men as can find it possible to attend will go, with other A. C. men who plan to go, to Lake Geneva, Wisconsin, where they will meet with Y. M. C. A. workers from all the Middle Western Associations at the Annual Student's Conference.

The first meeting of the new College Cabinet will be called for Wednesday or Thursday of this week.

Thor Gulbrandson will not be in school this term. His absence will leave a big hole to be filled at the initial corner on the diamond.

A. C. MEN.

Make the new Young Men's Christian Association Room in the Main Building your headquarters. On the door to the large basement room in the Administration building, just under the President's office is a sign bearing the above words. Through the kindness of the Administrative officers of the College the Y. M. C. A. now has a headquarters in which the men of A. C. will find a real social center. Drop in and see how you like it. Remember it is for the use of all A. C. men, every man is welcome; make it headquarters; drop in and write a letter, play a game of checkers, read a magazine; see a friend; anything in that line. It is for use, the Association is glad to keep it up and make it as attractive and serviceable as possible.

COUNTRY THEATRE RECEIVES BOOST.

The Little Country Theatre has been receiving some flattering advertising in the shape of requests for articles for publication in some of the large magazines. The latest request was for a two-page article with pictures to accompany it to go into the Technical World magazine. Among some of the other magazines which have asked for articles are Everybody's The Saturday Evening Post, The Worlds Work and the Survey. That magazines of this class consider this project one of national interest is not only an advertisement for the Theatre but for the school also.

EASTER CONCERT IN ARMORY.

The Y. M. C. A. will give its annual Easter Sacred Concert in the Armory on Sunday afternoon, April 5th, at three o'clock. On this program will appear the Men's Glee Club which has just returned from a most successful six day tour of the State. This will be the first opportunity afforded to hear the Club after making the trip. The College "Y" Quartette will sing several groups of songs, some of them being songs first used on the recent trip. As soloists the committee in charge will secure some of the best local talent. The program will be both vocal and instrumental. Both men and women of the College and the city are invited to attend. There will as usual be no admittance charged or no collection of any kind taken.

CRACK SQUAD ELECTION.

At the last meeting of the Crack Squad, the following officers were elected for the coming year:

Drillmaster—Melvin McGuigan. President—Warren Dodds. Vice President—Private O'Rourke. Sergeant-at-Arms, Manager and Janitor and Secretary-Treasurer—Stally Amidon.

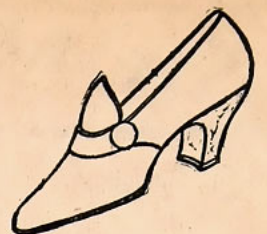

We were somewhat doubtful as to some of the titles used, but our reporter assures us that they are all correct. Sounds like the Crack Squad, anyway.

WORK RESUMED ON THE DAIRY BUILDING.

Since the snow cleared off there have been a number of men at work around the new Dairy Building, clearing off the ground and getting things ready to complete its construction as soon as possible. The new building will be an architectural addition of note to the campus and may relieve some of the congestion which now hampers the school. Director Cooper of the Experiment Station states that Architect Crabbe informs him that the construction will be completed inside of a couple of months. The barn which was to accompany the Dairy Barn will not be commenced until some time next year. If these two buildings are completed, the Dairy department will be housed in a way that they may well be proud of.

NOTICE.

There will be an important meeting of the Spectrum staff in the office Thursday, April 2 at 1:00 p. m. All staff members urgently requested to be present. Editor.

### MINUTES OF THE STUDENT COUNCIL

Meeting of the Student Council held Monday, March 9th, at 4:30 in Room 22 of the Engineering building.

Meeting was called to order for the purpose of electing officers for the ensuing year.

Moved, seconded and carried that the reading of the minutes of the preceding meeting be dispensed with. Roll was called, all members present.

Mr. Hess, treasurer of the Council, gave a report of our finances, this indicated that all dues have been paid.

The election returns were as follows:

Council.  
President—Homer Dixon.  
Vice President—Theo Stoa.  
Secretary—Amy Whitman.  
Treasurer—Geo. Knutson.  
Faculty Manager of Athletics—Mr. Haskins.

Athletic Board of Control—Mr. Abbott; Mr. Caulkins; Mr. Bolinger; Mr. Parizek.

Public Speaking Board of Control:

President—Geo. Stewart.  
Wm. Mendenhall, Barbara Heider, Walter Baumgartel, Wm. Guy.

Spectrum:

Editor—Royal Drummond.  
Business Manager—U. S. Ebner.

Mr. Ruben Larson, present business manager of the Spectrum, gave a report on the present financial condition to our school paper which was accepted.

Adjourned.  
BERTHA CAMP, Sec'y.

### SEED CLEARING HOUSE.

The clearing-house system of disseminating information with regard to the location of pure seed and the amounts of it for sale, which Seed Commissioner Bolley instituted several years ago has been more active than ever before during the past year. Thousands of bushels of seed have been sold through this system and it not only means the sale of seed but the sale of pure seed. Any one having seed of any kind for sale, sends in samples to the department to be tested. If the seed comes up to the standard, that is, seed although it may not be absolutely clean is nevertheless capable of being cleaned without difficulty by the average man, it is placed on the list. A man desiring pure seed writes in stating the kind of seed he desired. He is sent lists of those having seed of that kind for sale which is of good quality. The service which this system renders, not only to the buyer, but also to the seller is exceptionally valuable.

### HIGH SCHOOL NOTES.

Miss Simmons was unable to meet her classes on the last Friday of the Winter Term, on account of the death of a relative.

The high school Camp Fire Girls met at Mrs. Ziefles last Monday. All of the members were present and a pleasant hour, listening to some Indian legends, which were very well told by Glade Kaufman.

### THE BOYS DORMITORY.

It is to be hoped that the campaign for a dormitory for the boys of this institution, will not be allowed to die down after the vigorous start that was made last term. Some people have gained the impression that the work has been all done and that nothing is left to do except to let the contract and proceed with the construction. There is a lot left to do and it will take solid and earnest work all through the summer to finish this in the way that it ought to be finished. The men who have it in direct charge have been proceeding steadily with their advertising campaign and the whole student body should back them up in every way in which it is possible to aid them.

On account of a frozen water main, the miniature lake which had been forming opposite the Main building has been steadily growing until it covers almost all of that part of the campus. It has become so troublesome that it will probably be taken care of by putting a ditch across the main road and allowing it to escape through the north ditch. Even at that, our campus roads are dreams of dry delight compared with Twelfth Avenue and College Street.

## You Can't Turn a Switch and Stop a Horse Eating

With a tractor it's entirely different. It eats only when it works. When you are through, turn a switch and your expense stops.

Horses or mules eat three times every day, 365 days a year, whether they're working or not. Government statistics show that farm horses average only 100 full days' work a year—265 days' feeding all for nothing.

Every owner reports that tractor plowing costs them less than half what horse or

mule plowing does. Also big saving on other work—disking, harrowing, drilling, harvesting, hauling, etc.

Tractor farming means bigger crops, too. Three year tests made by the Kansas State Agricultural College gave an increase of more than double the ordinary crop by plowing at the right depth and at the right time.

You can't plow fast enough or deep enough with horses or mules—it takes a tractor to do it.

## AVERY "ONE-MAN" OUTFITS

Light-Weight Tractors and "Self-Lift" Plows

Hundreds of farmers have proved that Tractor Farming with Avery Tractors and Plows is a great success.

The reasons are—they are the lightest weight tractors built, considering their draw bar efficiency. Also the simplest. And with an Avery "Self-Lift" Plow one man or one boy alone can run the entire outfit. Avery Tractors are built in five sizes, from 8-16 to 40-80 h.p., and pull from 2 to 10 bottoms. Fit large, medium or small size farms.

Avery Tractors and Plows Are Sold on Approval at Low Prices and Fully Guaranteed

Test out an Avery Tractor and Plow on your own farm. After acceptance we back you up with strong guarantees. Avery prices are also low. The new Avery book "Tractor Farming" tells why and how to farm with tractor power. The 1914 Avery Tractor and Plow Book gives all the facts about Avery "Light-Weight" Tractors and "Self-Lift" Plows. Both books sent FREE. Write for them. Address

Edited by Joe Alexander.

Joe Alexander.

Now that exams are over we can once more take an interest in life, breathe freely, sleep serenely, and eat three "squares" a day. Incidentally, we may well occupy our leisure by studying the new faculty ruling or observe,—and inventing means by which it may be broken with impunity. (Some word, that last one.)

## MEDICAL DEPARTMENT.

Prof. Trimble has discovered a sure cure for the "Con." Before exams he gave his students in Agriculture History printed outlines of the work that would be covered in the final. Each member of the class took the treatment and pronounced it a complete success.

## OUR NEW EDITOR.

"The editor sat in his sanctum, his feet they drummed the floor, His mien was fierce and vicious, his eyes were full of gore, His hair was tousled and matted, his pencil sawed the air, He really was not crazy, nor was he wild from booze,— But the 'Spectrum' could not go to press because there was no news.

(Editor's note: It went just the same, so we worry.)

## WELCOME HOME, BOYS.

The Crack Squad and the Glee Club must have had some time on the state tour just completed. Dan Brown did not once get homesick; it was even rumored that on one or two occasions his letters to D. D. did not exceed ten pages. You deserve a medal for sincerity, Danny.

Max Waldron proved himself to be the original little heart breaker of the troupe. The way he took the Cando girls by storm was really nothing short of marvelous. Shame on you, Max.

George Gratties provided much entertainment for his fellow actors and the admiring villagers of Cando when he said "goodbye" to his milliner friend at the station. The farewell was touching to say the least. For more specific information

Duncan McLeod, formerly of the A. C., is some popular boy in Lakota. According to Ray Powell's most conservative estimate, Mac took six real fairies to the show. Now who can doubt the value of a college education

Brown and Amidon entertained a large audience with their new dance, the "Broadway lurch." The indulgent spectators pronounced it great. Probably Prof. McArdle would not be of the same opinion if it was given at the next faculty party.

Warren Dodds turned out to be the original little entomologist of the party. He became so highly enthused over his subject that he stay-

ed up all night at Lakota and studied the habits and environment of the "Ostermoor Turtles" that disputed the possession of his bed with him. Congratulations, Dodds, we hope you make a name for yourself in the field of science.

Curran Rourke entertained the boys with his short, spicy verses. The original one about Aphrodite, written by our Irish friend while on the train, caused much unrestrained mirth. After much detective work we finally unearthed the following: There was a sculpture named Phid-

ius, Whose statues were utterly hideous, He sculpted Aphrodite, Without any nighty, And shocked the ultra-fastidious.

## "HELLO, ETHEL!"

Sammy, Lieut. Herren's young son, is still wondering why everyone—except Ethel—laughed when Sammy called Miss Peterson Ethel Thompson. What could have been the reason for the levity? Information will be well received.

## MORE EVIDENCE.

At the Alpha Gamma Pho banquet Ethel Peterson did her best to get away with a spoon. Hope you succeeded, Ethel. You know a variety in silverware is positively the latest fad. Besides the cost is an important item, isn't it Tommy?

## ABBOT'S WATCH.

Stanley Abbot is minus his Ingersoll! The question now is, did he have to deposit it at Ceres Hall when he got his laundry, or did the young lady who presides there simply ask him for his "time?" Please explain, "Boob."

## BIG MYSTERY SOLVED.

We have discovered what was in Floyd Kelley's package, and the mystery is solved. It contained a pair of Nell's gloves carefully mended, tucked away inside of a loaf of real bread. The only clue as to the identity of the sender was the enclosed card from "Your Little Homemaker." Probably Audrey could help us out.

Dick Bjornson Bought a Can of Tobacco. WHAT IS GOING TO HAPPEN NOW, DICK?

Waiting for lunch or breakfast  
Is a trial so hard to bear;  
Waiting for car or carriage  
Makes the victim sometimes swear.

Waiting for a friend or loved one  
Makes life a mournful wreck;  
But there's nothing racks the system  
Quite like waiting for a check.

I rose up in a car—one day—  
To give a girl my seat,  
'Twas a question whether she or I  
Should stand upon my feet.

## QUESTION.

"Why does he call his girl 'Revenge?'"  
"Probably because she is so sweet."

## ILLUSTRATED LECTURE ON STEEL MAKING

An exceptionally interesting lecture was given Friday evening, March 13, in the Little Country Theatre, on "Steel Making," by H. A. Squibbs, of the American Steel and Wire Co., of Chicago. The lecture was under the auspices of the Lyceum of Engineers and the Delta Pi Fraternity and was illustrated with about five thousand feet of motion pictures.

The pictures shown were the best and most complete that have ever been seen in this part of the country. They showed how the ore was mined from the open pit mines near

Duluth, Minnesota, and then conveyed to the ore docks, where the ore was loaded automatically on large ore vessels and carried to the base of the blast furnaces. The ore was then unloaded and put into large blast furnaces where it was converted into pig-iron. The pig-iron was then converted into steel and made into large ingots. At this point the difference between the so-called open-hearth process and the "Bessemer" process was explained. According to the lecturer there is no difference between steel made by either of the processes. The pictures then showed the steel ingots which were taken through rolling mills and rolled cold into rods about the size of an ordinary lead pencil. These

rods were then heated or annealed by passing them through a bath of molten lead. They were then rolled to the size required, some for nails and others for wire for different uses. The process of galvanizing was also shown and clearly explained. It consisted of passing the wire through a tank of diluted sulfuric acid in order to clean the surface of the wire and then passing it through water to stop the action of the acid. The wire was then passed through another tank of molten tin, giving it the well known coating which renders it practically rust-resisting. The machines for making nails and woven-wire fencing were also shown in every detail. The various types of mesh were also shown very clearly and a demonstration, showing how to properly erect and stretch a woven wire fence, was also shown in the pictures. This ended the entertainment for the evening, which, during a period of about an hour, had taken the audience from the mines, then to the blast furnaces, then to the rolling mills and finally to the factory where the finished products were manufactured ready to be paced on the market.

The films shown are the property of the American Steel and Wire Company. They were run through the motion picture machine which belongs to the Engineering Department, by Messrs. Corbett and Emery, who proved to those present the value to the college of a motion picture machine. The fact that the college has a motion picture machine of its own, alone, making possible the lecture.

## ATHENIAN ELECTION.

At the last meeting of the Athenian Literary Society, the following officers were elected for the spring term.

President—C. M. Yerrington.  
Vice President—Miss Hutchinson.  
Secretary—Harry Britton.  
Sergeant-at-Arms—William Mendenhall.  
Critic—Miss Ethel McVeety.  
Musical Director—Miss Liela Nelson.

At their meeting on Thursday, the Treble Clef Club elected the following officers:

President—Clara Dolve.  
Vice President—Helen Lewis.  
Secretary-Treasurer—Myrtle Johnston.

We are especially anxious to have the

**Alumni Notes**

Edited by Roy Dynes.

Our alumni who have spent the winter in the Department of Agriculture at Washington, D. C., are now returning to their various positions on the substations. Ray Towle '11, who returns to the Edgeley station, is spending a few days in New York on his way back. Harold McKinstry '09, left for Hettinger on Monday where he will assume his duties for the summer. Arthur Ogaard '13 will return to the Williston substation while Allen Clark '09 and John Magill '08 have returned to Dickinson, N. D., where they will continue the work at that station.

Oliver Ellingson, who graduated from the two year pharmacy course and who was a member of the first Crack Squad, is in the drug business with his uncle in Cando, N. D. Mr. Ellingson has spent the winter attending a school of Pharmacy in Minneapolis, and has recently passed the state board examination.

To Grace Briscoe '12, a great deal of credit is due for the success of the glee club and crack squad trip and their entertainment in Devils Owing to the fact that the management of the Opera House at Devils Lake was not desirous of booking these organizations for a night performance as they had originally promised, it was impossible for them to appear at that place. However, through the efforts of Miss Briscoe a morning appearance in the Opera House was arranged for. After the concert Arthur Omdahl, an old student, and Clark Kelly, president of the board of trustees, entertained the entire delegation at dinner in the Great Northern hotel.

Carl Hofstrand '13 attended the concert given by the Glee Club and Crack Squad at Churchs Ferry, N. D., last Monday night.

W. Maxwell, F. H. '10, is stationed at Devils Lake, where he is en-

gaged in farming on the Indian reservation.

Mae Englehorn '13 greeted the A. C. students at Churchs Ferry while on their trip. Miss Englehorn is at home this year and is thinking somewhat of returning to finish next fall.

Frank McGuirm, a graduate of the two-year pharmacy course, is located at Churchs Ferry, where he owns a drug store. Mac is thinking seriously of leaving soon for the West.

S. E. Drummond, 1910 was in the city for several days during the early part of this week. He stopped off on his way to the main offices of the G. N. at St. Paul, where he had been called to take charge of a party on physical valuation work for the company. He has declined this offer and has returned to his work as Resident Engineer on construction of a portion of the Montana Northeast line of the G. N. The construction is the heaviest that has been done in North Dakota. He is in charge of twenty-eight miles of line near Schafer in the heart of the Little Missouri bad lands. The steam shovels used on this work were taken overland, a distance of sixty-five miles from a railroad in order to reach this location. Numerous difficulties were encountered, mostly from severe earth slides. Some idea of the magnitude of the work may be gained from the statement that Mr. Drummond directed a minimum expenditure, for the twenty-eight miles under his charge, of \$25,000 per month.

Chas. Ruzsika '11 left for Williston, Friday, where he will assume the position of superintendent of the Williston substation. He fills the position left vacant by the resignation of Ernest Schollander, who is going into business for himself.

**Music and Musicians**

Edited by R. Y. Boyd.

**GLEE CLUB TO GIVE  
A HOME CONCERT.**

The home concert of the Boys' Glee Club will occur some time during May. All who have seen much of the club's work lately, will look forward to this concert as one of the biggest musical events of the year. When the club, with sixteen of its members, made such a favorable impression on their tour of the state, the entire club of twenty-four members will certainly please the students of the A. C. and the citizens of Fargo. The members of the club could have received no better training than that of appearing before seven different audiences of this state, and a still better program will

be rendered here than the last given in Lakota.

**BAND BOYS HARD AT WORK.**

Director Bachman opened this term's rehearsals last Wednesday afternoon. The musical plans for the circus were briefly discussed and some of the music was run over. The boys are receiving a line of work quite different from that of marching or concerts, but one which many of them will be thankful for when they meet the real circus band playing. Although the band has been by the loss of a number of special course men, there still remains about thirty old veterans who will lay the foundation for the reputation which our band has always maintained.

**BOOKS RECENTLY ADDED TO  
THE LIBRARY.**

Palmer, George Herbert—Life of Alice Freeman Palmer.  
Masefield, John—Salt Water Ballads.  
Eastman, C. A.—Old Indian Days.  
Johnston, Mary—Hagar.  
White, Stewart Edward—The Blazed Trail.  
Wister, Owen—The Virginian.  
Puffer, J. Adams—Vocational Guidance.  
Stevenson, Robert Louis—The Letters of Robert Louis Stevenson.  
Mackaye, Percy—The Civic Theatre.  
Roosevelt, Theodore—An Autobiography.  
Andrews, Charlton—The Drama of Today.  
Munsterberg, Hugo—Science and Idealism.  
George, W. L.—Woman and Tomorrow.  
Thomas, Augustus—As a Man Thinks.  
Burtor hard—The New American

Wallace, Alwred Russel—Social Environment.

Nearing, Scott—Social Religion.  
Rowland, Eleanor Harris—The Right to Believe.

Johnson, Owen—Stover at Yale.  
Johnston, Mary—Cease Firing.  
Marrison, Henry Sydnor—Queed.  
Harrison, Henry Syrnor—V. V.'s Eyes.

The above list includes the more important of the works which have been placed in the library in the last three weeks. Fiction-lovers will probably be pleased with the additions to that part of the library as the works of fiction in this list include some of the latest and best of modern American fiction.

The March 13 number of the Huron Alphomega was a "Classical Number." One of the most interesting items was a play, "The Captivi of Plautus," written by L. A. Borah, of the class of '13.

The Montana State college won its ninth consecutive basketball championship this season.

## MILITARY DEPARTMENT

Edited by Henry Brown

Since the beginning of the Spring term, the Military department has shown signs of its annual shrinkage. "A" Company has lost almost four full squads but even at that rate there are still enough left to make up two good companies for inspection. It was hoped that it would be possible to commence out-door drilling with the beginning of the spring term, but the last blizzard effectually put the quietus on those hopes. However, as soon as possible, work will be begun outside and pushed rapidly.

Inspection this year will come about ten days earlier than last, which will necessitate some hard work to round the battalion into shape in the short time at their disposal.

Belts and guns were re-issued on Monday, and a permanent division of two companies effected. This will mean a number of promotions and transfers, all of which will be announced later.

Although hampered by the amount of water which usually covers the outdoor target range in early spring, the excellent work done on the in-range practice will be commenced as soon as possible, and in view of door range during the winter, it is expected that there will be several records made before the season for outdoor shooting is over.

### MAJOR ANDERSON LEAVES.

All members of the Military department received with regret the announcement that Cadet-Major G. A. M. Anderson would leave the Military department in the spring term to take up his work as private secretary to Mr. Cooper, Director of the Experiment Station. When Mr. Anderson took up his duties as Major here, he entered upon a peculiarly difficult task. Mr. Ogaard has just resigned the position and Lieut. Herren was on the sick list, so "Andy" was left in complete charge of the Military department.

By the introduction of the demerits system, the liberal use of the bulletin board and the hearty co-operation of the men and officers, he had the battalion well on the way towards inspection-day form by the time Lieut. Herren was able to resume his duties.

This year Mr. Anderson has kept the battalion and the Crack Squad of previous years, and we greatly regret that he cannot stay with us until inspection time.

Professor R. H. Slocum recently received some publications of the Water Conservation and Irrigation Commission of Sydney, Australia, which contained several items of interest. Among these were several references to Merrimans Hydraulics, an American text-book which is used in this school. Of interest also, are some odd words and phrases used. "Shewn" and "shewing" are unusual to our ears, and many of us would puzzle quite a while before we discover that the phrase "stand out 1-4 in. proud," simply means "projects 1-4 in." They mention a method of bidding on contracts which has the merit of preventing large variations in the amounts of bids. Briefly, it is as follows. The parties letting the bid give out a certain figure, (which probably corresponds to an engineer's estimate), and the contractors bidding make their bids as a certain per cent plus or minus on this standard bid.

Elmer Peterson, of Carleton, won first place in the state oratorical contest, between Carleton, Gusavus Adolphus, Hamline, St. Olaf and Macalester.

### BRILLIANT OUTBREAKS FROM THE DOPE BOX

Prof. Hard. "Why is a rich man's son disgusted with idleness, like an evening in which the humidity is 99 per cent?"

P. G. S. "Because he is almost on the point of dewing (doing) something."

Prof. Erickson says:—"The reason why poor children are healthy is because they sit in the fireplace and eat charcoal." Also, "After a lengthy conference with myself, I decided to use this note book."

### MRS. REMINGTON ENTERTAINS.

Sunday afternoon, Mrs. Remington gave an informal reception for her students at her home on College Street. A number of A. C. students were present and all report a very enjoyable time. The time was passed very pleasantly in listening to a number of readings by those present. After these had been given a dainty lap-lunch was served. Among those present from the school were Mrs. McVeety, Miss Ethel McVeety, Miss Eleanor Kindred and Messrs. Drummond and Colley.

### ALPHA MU HOLIDAY PARTY.

During the intermission terms, the Alpha Mu Fraternity gave a party at their house, at which about thirty people were present. The evening was passed very pleasantly in games, candy-making and music. The candy-making was the chief attraction of the evening and was the source of much merriment. After the candy-making had been finished, a fire was started in the grate and some time spent in toasting marshmallows. Dr. and Mrs. Schalk were the chaperones for the evening.

### SPECTRUM LATE.

This week's issue of the Spectrum is late in coming from the press. This was due to an unavoidable breakdown of the Mergenthaler machine which consumed two days in repairs. It is not yet completely in

shape, but it is expected that it will be repaired so that no more delays will be necessary in getting out the next issue.

### IS IT SO?

There has been a rumor afloat on the campus for the last two or three days, whose accuracy or truth has not been vouched for, to the effect that Brother Berg has joined the ranks of the lost and that he will shortly assume the matrimonial yoke. It is said that the young lady comes from "Augsust's" home town which accounts for the fact that nothing was heard of it before. If this is so it doubtless accounts for his shameless desertion of his classmates at this stage of the game. He will receive many congratulations(?) from his class mates if it is so.

During Dean Davenport's visit here he was entertained as guest of honor at a banquet given by the Illinois Alumni of Fargo. The banquet was held at noon on the 16th of March. There were a large number present and the formation of a North Dakota Illinois club took place at that time. A program of toasts was given after the banquet, with Professor Keene acting toastmaster. Dean Davenport closed the list of toasts.

Coach Woods was a Grand Forks visitor the latter part of last week.

### ALPHA GAMMA RHO ANNUAL BANQUET.

Last week, on the anniversary of the installation of this chapter, the Alpha Gamma Rho Fraternity held its annual banquet at the Annex. About twenty couples were present. After the banquet, all adjourned to the Sons of Norway Hall, where informal dancing passed the remainder of the evening very pleasantly. Dr. and Mrs. Schalk were present as chaperones.
