

THE WEEKLY SPECTRUM

The Official Publication of the Student Council

VOL. XXI—NO. 18.

NORTH DAKOTA AGRICULTURAL COLLEGE, TUESDAY, FEBRUARY 10, 1914.

FIVE CENTS A COPY.

To be Staged in Armory on Monday, Feb. 16th, under the Auspices of Edwin Booth Dramatic Club.

This novel Play of Scotch Life will come here from Grand Forks where they are to play in the Metropolitan Theatre.

First Anniversary of Student Life Special Train

JUST ONE YEAR AGO THIS MORNING TRAIN LEFT CAMPUS FOR FOUR DAYS TOUR OF STATE.

One year ago this morning at nine o'clock, one thousand students waved goodbye to their school-mates who left the campus on the Student Life Special Train for a tour of the state. The day was a stormy one, but nevertheless everyone wore a bright look and everyone was happy. The storm lasted all that day and part of the next, but the treatment received by the students at Devils Lake made them forget that there was a storm. Oh, you Devils Lake! The next day the weather was better, and when they had reached Minot, the wind had gone down and the sun had shown for awhile. It was here that Polly Foss had a narrow escape, when he nearly missed the train.

The next morning when the students awoke the sun was shining brightly and they had the finest kind of weather for the remainder of the trip. The third day was spent in Mandan and Bismarck. Some of the fellows hated to leave Mandan. Oh, you girls! The afternoon of that day was spent at the capitol in Bismarck, and after the program that night—say, remember Ebner's bowl of punch? Some dance too.

The next and the last day was spent visiting various towns along the line, Jamestown in particular, where they played a noon concert. The evening concert was given at Lisbon and then such a time as they spent on the way from Lisbon to Fargo. Colley and Mae Hooper won the medal for the long distance dance from Lisbon to Fargo. It was a sleepy bunch of students that appeared upon the campus Friday morning, the 14th. But they would have all been willing to have started out again that evening.

THE CASTALIANS

The Castalians held their regular meeting Friday evening at seven o'clock.

The members answered roll call by Lincoln quotations. They then practiced their new Literary song which was composed by one of the members. Copies of Literary yells were distributed among the members to be learned for the Hesperian and Castalian debate. The meeting was adjourned early on account of the Declamatory contest.

Edgar Olson arrived on the scene at the basketball game last Saturday night just in time to hoodoo the team. "Ole" was a guest at the Alpha Mu house over Sunday.

Athletic's Fraternity Passed Faculty

MANY REQUIREMENTS ARE MADE FOR ENTRANCE—BIG BOOST FOR ATHLETICS.

A chapter of the Sigma Delta Psi at the North Dakota Agricultural College is almost a sure thing, due to sanction given it by the faculty at their regular meeting on last Friday afternoon.

That we are to have an athletic fraternity that means the same to an athlete that the Phi Kappa Psi means to the student is now almost assured. Coach Woods will have the final report from the national headquarters the latter part of the week.

There is a faculty committee that will have charge of the new organization and these are Pres. Worst, chairman; Coach Wood, Professors Dynes, Darnier, Miller and Dr. Schalk.

The idea of the Sigma Delta Psi is to band the athletes all over the country in some closer relationship with one another. The Sigma Delta Psi was started at the University of Indiana in 1912, and since that time many schools over the United States have organized chapters. These being U. of Minnesota, U. of Indiana, U. of Maine, and Hanover, Wabash, Butler, Whitman, and Yale is starting a chapter with Dr. Anderson at the head of it. Dr. Anderson is director of Physical Education at Yale.

There are two different classes or memberships in the organization and these are the Junior and the Senior, the latter being the full membership. For admission to full membership a student must have successfully attained the marks set opposite the following events in the presence of the Committee on Certification.

100 yd. dash in 11 3-5 seconds.
120 yd. high hurdles in 20 seconds, leaving all standing.
Running high jump at five feet.
Running broad jump at 18 ft.
Putting shot (16 lbs. 30 ft).
Pole vault at 8 ft. 9 inches.
Throwing baseball 250 ft. on the fly.

Punting football 120 ft. on fly.
100 yd. swim, continuous without floating or other rest.
3 mile run in 18 min. 20 sec.
10 mile walk in 2 hrs. 30 min.
Tumbling (a) Front hand spring; (b) Back hand spring (c) front dive.
Running take off both feet; over four foot obstacle.

Requirements for admission to the junior membership, the men have the following marks to make:
100 yd. dash in 12 seconds.
120 yd. high hurdles in 20 seconds, knocking down not more than four hurdles.

Running high jump at 4 ft. 6 in.
Running broad jump at 16 ft.
Putting shot, 16 lbs., 25 ft.

Agassiz Day Wednesday International

The campaign for "1200 copies of the 1915 Agassiz" will begin with Tag Day, Wednesday, Feb. 11, and will continue until every one of that number is sold. The staff began work on the 1915 Agassiz April 1st, 1913, and the book will be completed, and the last copy sent to press by April 1, 1914. This volume constitutes one year's work and is a complete review of all college activities and student enterprises. The Agassiz portrays every phase of student life, and files, in the form of a "Memory book" a complete record of all events that are dear to the hearts of every student. It will be illustrated by pictures of every class in college, student organizations, and interesting campus scenes. Be a loyal booster for the Agassiz and the old A. C., and wear a tag on Tag Day.

SHORT COURSE DECLAM FRIDAY

On Friday evening will be held the Short Course Declamatory Contest, which should prove an event of interest to all students, for we have always noticed that this affair is usually a whole lot better than most people expect it to be. We are convinced that there is a great deal of talent in the school that doesn't receive the recognition which is due, and at this contest much of this talent is brought out, hence we urge all to attend. An added attraction will be the thirty piece Short Course Band, which has been doing a great deal of rehearsing lately and gives promise of rendering some good music that evening. Remember the time—Friday evening at 8 o'clock, in the armory.

Pole vault at 8 ft.
Throwing baseball 200 ft. on fly.
Punting football 90 ft. on fly.
50 yd. swim, continuous without floating or other rest.

Three mile run in 20 minutes.
10 mile walk in three hours.

That this organization will be a big thing for our school, is without question, the men to make Sigma Delta here will be on the same standing as the big athlete at Yale or any of the big colleges of the country as they both have to come up to the same requirements. A man with a college letter may substitute that letter for any one of the events required for admission. But he may substitute but one letter from each branch of athletics, that is, a football man may take his football letter and substitute it for any event and get out of trying out for that event, with the exception of swimming and this has to be done by all participants before they can become a member. But if that man had letters from basketball, track or baseball, he could substitute them for those events making the maximum number of events to get out of four.

Debate Thursday

MANITOBA HERE TO DEBATE IN LITTLE THEATRE ON RURAL CREDITS.

At eight o'clock on the evening of Feb. 12, occurs the most noteworthy event yet scheduled for the Little Country Theatre, namely the second international debate between Manitoba College of Agriculture and N. D. A. C. The question to be debated is "Resolved, that co-operative credit banks, under government control, afford the best system yet devised, for financing the agricultural industry in the United States and Canada." Our team who will uphold the affirmative side of the question are, Wm. Guy, Thos. Jackson, Wm. Mendenhall.

Every member is a thorough student and they have given their efforts tirelessly to research work for this debate. However, just as rooting and unstinted enthusiasm has rushed more than one team to the desired goal in athletics and won for the A. C. the victory, so does the support and presence of the student body effect the debator, and if we expect our team to do its best work on next Thursday night it is up to us to turn out and support them at this debate.

Manitoba Agricultural College is sending the team to support the negative side of the question and judging from the ability of their last year's teams these men will offer no commonplace rivalry. With support our victory seems reasonably certain, but without it? Well, what do you think?

Although their college is about one-half the size of ours, last year at Winnipeg, they assembled a crowd which filled the auditorium to the doors, and to our debators they were cordially itself.

This year our student council has decided to give an informal party in the armory after the debate, in honor of the debating teams. This party has been arranged by our students for, and in honor of students, and the plans for carrying it out have been placed in the hands of the student entertainment committee.

The fee for the debate is the nominal one of 25c. charged to help defray the expense of sending our team to Winnipeg.

Come out to the debate and to the dance afterward, and show these visiting Canadians that just as they are not able to excel the A. C. in ability or loyalty, so are they unable to surpass us in extending the glad hand of cordiality.

Al Simonitsch has been layed up with a boil for the last few days but we expect to see him around the campus again the first of the week, country.

Dean Sumner

Speaks Tonight

WILL APPEAR IN COLLEGE ARMORY AT 8:00 O'CLOCK AS FIFTH NUMBER OF CITIZENS' LECTURE COURSE.

That we will have a real treat tonight when Dean Sumner will speak from the armory platform on the subject of Social and Religious Problems as he had found them, is without question.

Dean Sumner appears on the Citizens Lecture Course series of entertainment for this year and will be the fifth speaker on the course. Dean Sumner has an international reputation as a vice smasher and also from his connection with twenty-one other penal and charitable institutions of which he is connected.

In the United States the Dean has become famous because of his findings while Chairman of the Chicago Municipal Vice Commission, which did so much to make that city a better place for the poor, and also cleaned out many of the world noted holes which were a curse to mankind. Dean Sumner is Dean of St. Paul's and St. John's Episcopal churches in Chicago, and has charge of the religious work of the Episcopal church.

He will appear here and will speak to his audience, on these conditions as he has found them and will not give us an outside view, but one from the inner and more interesting side which will give his hearers a better insight into this work for which he is famous.

LINCOLN'S BIRTHDAY

Next Thursday will be a holiday, due to the birthday of Abraham Lincoln. Two meetings are to be held for the day—one for the men in the armory at nine o'clock, at which time Dr. Nichols, the college physician will speak to the men; and at the same time the girls will hold a mass meeting in the gymnasium of Ceres Hall. Both meetings are to be held to discuss hygienic principles. At these meetings there will be little pamphlets distributed that the college has had printed for the good of the students.

A COMMENT.

An editorial in the Country Gentleman states in a mention of a recent article written by Prof. Weeks of our Agricultural College: "There may be places where conveniences are stunting the human family, but they are not in the country. The country needs more labor saving devices to reach its highest development. A body exhausted from the day's work soon puts the mind to sleep."

INTERNATIONAL DEBATE.

On February twelfth will occur the annual Intercollegiate debate between the Manitoba Agricultural college and our own college. This debate will be held in our armory at 8 o'clock sharp. We would like to urge that all students take an interest in this contest and express their interest by appearing at this debate.

These debators will be our guests here and it is up to us to treat them as such. So come to the debate and attend the little reception which is to be held after the debate.

More than this a debate of this kind gives us a comparison of our college with other colleges of the country. It promotes public speaking here and opens up a vast field for those students who wish to follow up this line of work. Work of this kind is as important in its way as are our athletics, and for this reason they require the support of the students.

COOPERATIVE CREDITS.

We wish to call your attention to the article on page six of this issue, written by Thomas J. Jackson, on the subject of Cooperative Credits. Coming as it does just at this time of the debate upon the same subject, it will give you a little previous knowledge of the subject which is to be discussed and also on one of the big problems of the day that is perplexing many nations.

Mr. Jackson has made a study of this subject, having acted for a number of years upon the investigational committee in that line of work appointed some time ago by President Worst of the Tri-State Grain Growers' Association. These investigations were carried on and various reports were made from year to year at the conventions of that association.

Read this article and then go to the debate with an idea of what they are going to talk about.

STUDENT COURT.

There is hardly a doubt but that the Friday noon sessions of the Student Court have come to be the most popular of any of the many events staged at the college each week. The dairy lunches are complaining because of the students' Friday noon rush and many of the students would rather go without their meal than miss the fun. The Philo room is not large enough to hold the crowds that now throng to the trials and last week many were turned away. It was also noticed last week that a few of the more venturesome of the coeds tried to get in but as there was not room enough they were forced to retire.

Now we like to see a big crowd out, but we would not like to see the Judge faint or any thing like that, so why not enforce the ruling of the court in regard to who shall attend these trials. Or why not adjourn to a larger room, because of the fact that we would perhaps do wrong to discourage the high school and short course men in the good work that is going on.

LET'S START ON TIME.

It has been very noticeable of late that whenever a public program of any kind is given it usually starts about fifteen minutes or one-half an hour later than advertised for. Let's start on time.

CERES HALL

Miss Olivia Wild celebrated her birthday, Tuesday evening by giving a spread. The girls that were fortunate to be present fully enjoyed it. When the birthday cake was cut, four of the young ladies had their future decided for them; Olivia Wild received the wedding ring, Marion Cox the engagement ring, Grace Shelton the penny and Hildur Sorenson the thimble.

The Y. W. C. A. meeting last Tuesday evening was followed by a party given in the Domestic Science department by Misses Hadley, Jensen and Crothers. Games were indulged in toward the end of the evening gum was passed and each girl from it was asked to make her ideal man. The ideal man took on the shape of a rat, which was won by Miss Holmes. Dainty refreshments were served and all departed, having had a lovely time. There were seventy-five girls present.

Mrs. Wild of Osabrock spent the week end with her daughter, Olivia Wild.

Misses Billie Frojen and Eulalia

Blanco served a very dainty spread in their room, Friday evening. The chief delicacy was roasted squabs. The girls surely had a fine time.

Misses Liela and Ruth Nelson spent Sunday with Elizabeth Booth at her home in Moorhead.

Miss Cecile Manikowski dined with Prof. Tibert and family last Monday evening. A six course dinner was served.

Miss Amy Whitman spent Tuesday and Wednesday with Elsie Stark.

Miss Mae Wright of Wahpeton spent the week end with Cecile Manikowski.

Miss Marie Engesather, Wednesday afternoon while returning from classes in Science hall received a very serious fall. Two of the first aid to the Injury Girls, Misses Olga Schmidt and Violet Long carried Marie into the hall. Medical aid was summoned at once, which resulted in the physician saying that Marie had a sprained knee and would have to be confined to her bed for from three to four weeks. The patient was doing nicely at the last report.

Mr. George Olen has recovered enough from his long illness and was

North Dakota Agricultural College

For Completeness of Equipment and Facilities for Instruction is Unsurpassed in the North-West.

THE COLLEGE DEPARTMENT OFFERS

Pharmaceutical Chemistry — Civil Engineering — Mechanical Engineering — Agriculture — Chemistry — General Science — Biology — Domestic Science — Education — Veterinary Science — Medicine and Surgery — These courses are available to those who have completed the equivalent of a High School training. For those who have not had such a training

THE AGRICULTURAL AND MANUAL TRAINING HIGH SCHOOL OFFERS

Complete Secondary Courses in — Agricultural — Commercial — Domestic Science — Mechanic Arts — General Science — Rural Teachers

SPECIAL COURSES

Farm Husbandry, Homemakers, Pharmacy, Commerce, Power Machinery; Special Courses are also offered

A COMPLETE COMMERCIAL COURSE

Is offered all students and its work is so arranged that it may be carried in connection with the regular work of other courses.

THIS COLLEGE offers to the young people of this state an education which is thoroughly in line with modern thought and demands. It spends no time on the dead languages or such subjects as are of little practical value. It aims to fit young men and women who can think and investigate for themselves; who can deal with social, agricultural and industrial problems of the day.

THE LABORATORIES are thoroughly equipped, and the instructors are specialists in their lines. Exceptional advantages are offered in chemistry, physics, botany, zoology, literature, mathematics, and engineering subjects.

Graduates from approved High Schools are admitted to Freshman Class. Tuition Free. Board and Room \$4.00 to \$5.00 per week.

WRITE TO THE REGISTRAR FOR CIRCULARS, CATALOG, AND ADMISSION BLANKS.—FALL TERM BEGAN SEPTEMBER 15.

That Impulse to Spend

Steady your finances with an account in this bank. Deposit your funds as you receive them and pay all bills with check. This method enables you to plan your living with care and is a restraint upon the impulse to overspend.

Merchants Nat'l Bank

FARGO, N. D. CAPITAL \$100,000.00

able to leave the hall, Wednesday, for his home in Benson, Minn.

Miss Dahlberg of Maynard, Minn., while enroute from Bismarck to her home spent Saturday with Miss Mary Hartney.

Mr. S. R. Morris of Beach spent Sunday and Monday with his daughter, Lucile, while enroute to the Twin Cities.

The girls in the hall would like to know how Mr. Joseph happened to have the "Key to the Situation" for Room 41, Friday evening.

The girls of East Corridor wish to extend to Bill Guy a vote of thanks for the brave act he performed Friday evening?

Miss Theresa Alhoun has been on the sick list this week.

Miss Lena Honett entertained Miss Helen Miller of Moorhead Normal at dinner Sunday.

Miss Ethel Canniff of Fargo dined with Miss Mildred McGuigan Sunday. Miss Ferris has been on the sick list all week, but it is thought she will be able to return to school next Monday.

Y. W. C. A. will be lead by Miss Stoner next Tuesday evening.

The Misses Shelton were delightfully surprised by Mr. Johnson of Michigan, who called Sunday and stayed over Monday with them. From Fargo Mr. Johnson returned to his home in Michigan.

Miss Louise Clayton caught a whale in her room upon returning from the Declamation Contest Friday evening?

DOMESTIC SCIENCE.

Miss Stoner, Friday evening, organized the "Fine Art Club" at Civic Center.

Miss Stoner has been asked to meet with one of the State Conference of Women's Clubs at Grand Forks, Feb. 28 and March 1.

The Home Economic department will be represented at Sanborn, Feb. 26.

Rooter Kings Christianson and Stoa got in some good work at last Saturday's game. They kept the yells going at a merry clip thruout the game. The rooting was the best we have heard so far this year, however, if more of the students would learn the yells and join in, the efficiency of our rooting would be increased a hundred per cent.

A. C. Loses To Fargo College

AGGIES ARE OFF FORM IN THEIR BASKET SHOOTING BUT SHOW GOOD TEAM WORK. FINAL SCORE 20-18. BOLSINGER STARS.

Coach Wood's Aggies met their first defeat of the season last Saturday night at the hands of the Fargo College quint. The final score was 20 to 18. In the basket shooting department Fargo College had decidedly the best of the argument during the first part of the game, but on floor work the A. C. was easily the best. They had the ball by far the greater part of the time, but seemed unable to locate the basket. Several times they had as high as five or six attempts without registering a score, and in the throwing of fouls they were also behind. During the first half things looked gloomy indeed for the A. C., the score at the end of the period standing 10-2 in favor of F. C., the Aggies two lone points coming from a field basket negotiated by Harris after two minutes of play. Bolsinger was easily the star for the A. C. His work on the floor was superb and during the last half he counted for a total of 10 points; his defensive work was also of a high order. McKee played a good consistent game after he went in, scoring twice from the field and also getting into the team work in fine shape. Wilcox and McQuillan were far below their usual form in basket shooting, but played a good game on the floor. Gulbrandson and Harris also seemed to be having an off night. Blix put up a good guarding game during the last half. O'Dell replaced Wilcox towards the latter part of the last half. He played well on the floor, but had hard luck with his basket shooting.

Pederson and Boise starred for Fargo College, totaling four and three baskets apiece, respectively. The game started with a rush. The A. C. gained possession of the ball and after barely two minutes of play Harris dropped it thru the net for the first score. Sims tried a modified flying tackle and was fouled. Wilcox missed goal. Foul on the A. C. and Murray counted on a free throw. Time out for the referee while he repaired his eye-glasses. Play was resumed and after a few minutes of fast play the A. C. lost the ball and Pederson scored. Pederson scores again on a long shot from the side lines. The A. C. got the ball and worked it down the floor, but failed to locate the basket. During the remainder of the half the ball was in F. C. territory most of the time, but after A. C. was unable to connect for any scores. Three free throws brought F. C. two more points, while the A. C. was unable to count out of four attempts. The A. C. showed better team work during this half than did their opponents, but were far off form in basket shooting.

With the second half Bolsinger went to center and Blix took his guard. Foul on F. C. Wilcox missed goal, but Bolsinger tipped it in for a field basket. Wilcox unlimbered and dropped one thru the net from a difficult angle. McKee added two points to the A. C. tally sheet. Pederson gathered one from his shoe tops and scored almost from the middle of the floor. Foul on the A. C. but Murray missed goal. Boise makes a one handed scoop and finds the basket for two more points. Boise repeats. Bolsinger scores on a pretty running shot from the side. Foul on F. C. but Bolsinger missed. Foul on the A. C. no score. Murray scored. Foul on F. C. was converted into a point by Bolsinger. McKee scored. Foul on the A. C. but Murray missed. Bolsinger scored. Foul on the A. C. and Murray made it count. Foul on F. C. and Bolsinger made it good. Bolsinger scored again and the game was over. The last half was decidedly in favor of the A. C. They scored 16 points to F. C.'s 11. Each team scored eight field baskets during the

game, the A. C. scoring seven and F. C. five during the last half.

Following is the line-up and summary:

A. C.	F. C.
Wilcox, O'Dell . . . l. f.	Murray
Harris, McKee . . . r. f.	Pederson
Gulbrandson,	Thomas
Bolsinger c.	Torson
McQuillan l. g.	Sim
Bolsinger (capt.)	
Blix r. g.	Boise

Field goals—Bolsinger 4, McKee 2, Wilcox 1, Harris 1, Pederson 4, Boise 3, Murray 1. Fouls on F. C. 10, on the A. C. 7. Free throws—A. C. 2 out of 10, F. C. 4 out of 7. Referee—Clarke. Umpire—Henderson. Scorers—Perry and Haggart. Attendance, 1,400.

Huron Snowed Under

SOUTH DAKOTANS LOSE BY A SCORE OF 53-17. GAME WAS SLOW AND UN-INTERESTING.

The touring Huron College basketball team, weakened by the loss of some of their men, proved easy prey for Coach Wood's Aggies last Wednesday night. The game was one-sided from beginning to end, being devoid of any sensational plays. The A. C. was in the lead thruout the game, Huron never showed any real basketball, but the rather loose guarding of the Aggies enabled them to connect for a total of seven field goals, their other three points coming from free throws.

To try and give anything like a coherent account of the game is beyond us. The reporter evidently became contaminated with the spirit of the evening and forgot to take any notes, or else he was kept too busy keeping tab on the score. It would be too ticklish a job to pick any stars for the A. C. For Huron Baker and Oviatt won the premier honors with three field baskets apiece. Coach Wood used his entire string of men and even offered to put in some of the cadets. Following is the line-up and summary:

A. C.	Huron.
Darrow, Wilcox,	
Billings l. f.	Oviatt
O'Dell, Harris	
McKee r. f.	Wick
Weston,	
Gulbrandson . . . c.	Mann
Armstrong,	
Bolsinger (capt.) . l. g.	Sherwood
Barchus, MacQuillan,	
Blix r. g.	Baker
Referee—Watkins. Umpire—Henderson.	

Field goals—O'Dell 3, Armstrong 4, Darrow 3, Weston 3, MacQuillan 3, Wilcox 3, Harris 2, Bolsinger 2, Gulbrandson 1, Blix 1.

Arthur Reuber, former director of athletics at the A. C., stopped off in Fargo for a few days last week. He was enroute to Outlook, Mont., where he is engaged in the banking and law business.

Rooter king elongation Christianson threatens to eclipse all former rooting records during the final games at home. Bachman's 100 piece band will not be in it at all with the rooters' club when it comes to making noise.

The Farm Husbandry team is going to make a strong bid for the basketball championship. The Farm Husbandry boys believe in doing things right, and so they bought membership tickets at the city Y for their team. They are now anxiously awaiting the opening date of the schedule and promise to put a strong team in the field.

Treasurer Remington was evidently well pleased with the attendance last Saturday night. He was wearing an unusually broad smile, even for him, and we surmised that the cash receipts at the game were the cause.

After the game last Saturday night the A. C. team and management entertained the F. C. team and Coach Watkins at the Copper Kettle Inn. The F. C. boys voiced their appreciation of this hospitality. Coach Wood and Manager Haskins were also present.

State High School Championship

FINALS WILL BE STAGED AT A. C. ARMORY, MARCH 5TH AND 6TH.

The final round in the North Dakota High School Basketball Series to determine the championship will be staged in the A. C. Armory, March 5th and 6th. The state high schools formulated the plans for this championship tournament last fall at the annual meeting of the Educational Association, and decided to hold the series at either the University or the Agricultural College. As soon as the Athletic Board of Control at the A. C. were informed in regard to this they made a proposition to the High School Athletic Committee which was accepted by them.

The state is divided into four sections and the winning team from each district will be sent to the A. C. to compete in the finals.

This is a very progressive move for the athletic management, as our A. C. students will have an opportunity to get acquainted with, and help to entertain, the cream of the high school athletes of the state and show them the good things that the A. C. has in store for the student as well as the athlete. Let all students boost for this event and give it their heartiest support, so that next year we will again be given the opportunity to bring the high school tournament to the A. C.

The teams which have been showing the best form up to date are; Grand Forks, Fargo, Valley City, Minot, Jamestown, Dickinson, Casselton and Kenmare. As yet tho, it is too early to predict who the final contenders may be.

On Thursday, March 5th, there will be two games, all four teams competing, and on Friday, March 6th, the winners meet to decide the championship.

INTER-CLASS GAMES.

The class managers have gotten together and the schedule for the annual inter-class games has been announced. There should be a great interest taken in these contests by the various classes and as every class has a good team, some very exciting games are promised. It is up to every class to be there when their team plays, get together on some class yells and help their classmates pull down the class championship. The schedule has been arranged so that every class will meet every other class and the team which comes through with an undefeated record will have a clear title to the championship. However, some of the teams, in the preliminary games, have been rather ragged in their team work, but this, according to the managers and captains will all be worked out by the time the tournament starts. The schedule is as follows and as was said before every class should be on the job when their team plays and give their class yells and help their team win. Let us see how much class spirit we can work up. Special Notice—No admission will be charged at any of these games.

- Feb. 9, Monday.
- 7:30—Freshmen vs. Power Machinery.
- 8:30—High School vs. Sophomore.

TEAM TO WAHPETON FRIDAY.

Next Friday the basketball team goes to Wahpeton where they will meet the Wahpeton Science School in the return game. The dope is decidedly in favor of the A. C. as the first game came their way by a score of 37 to 7. Coach Ward has a bunch of green material to work with this year, but nevertheless he will probably develop a strong team. The Scientists are undoubtedly stronger now than they were when the A. C. met them two weeks ago and they also have the advantage of playing on their own floor. While Coach Wood will undoubtedly bring home the bacon, he does not intend to let the Southerners spring any surprises and is driving his squad thru some stiff practice in preparation for the contest.

Last Saturday afternoon the Freshman and High School girls played basketball in the Armory. As there were no boys allowed we were unable to give an account of the game as we would like to do. It has been rumored tho, that the High School girls came away the winners.

ARTHUR RUGH

At Convocation next Monday morning, Mr. Arthur Rugh, the National Student Secretary of the Young Men's Christian Associations of China, will formally open the four day's campaign which the College Association is planning for the days Monday to Thursday inclusive. Mr. Rugh, who is well known through the colleges of the country as a speaker to college audiences will in all probability speak at this opening occasion upon the theme, The Test of Student Days. It is expected that at this time every student in the college will be present.

Mr. Rugh is at present making a trip about the country visiting many of the larger colleges and universities, addressing the students upon the subjects of character building during the days of student life. He is a college trained man of course, having taken an active part in college life in the school from which he graduated, Wittenberg College, Pennsylvania. He was president of his class in his senior year, 1901, captain of the varsity baseball team,

forward on the basketball team, a member of the college glee club, all in addition to being for two years president of the Young Men's Christian Association.

While at the A. C., Mr. Rugh's time will be given in its entirety to the disposal of the local Association. He will speak in addition to the Convocation to the men of the student body at three other occasions. Tuesday evening, immediately after supper, on Wednesday, probably at the noon hour, and again on Thursday evening.

Mr. Rugh will attempt while here to develop his message to the men here through this series of four talks and for that reason it is highly desired that the plans of every man may be made to attend all of the meetings scheduled. One hour is the time allotted for each session. There will be no other features aside from a song by the Quartet. The committee in charge is hoping that at every one of these sessions the Armory will be crowded to its seating capacity.

MINUTES OF COUNCIL

Meeting of the Student Council held at 12:45 in room 22 of the Engineering building, Feb. 5, 1914:

The report of the constitutional committee was read by Mr. Dwire, chairman of the committee. This suggested an amendment to Art. 2, Sec. 5, of the constitution, permitting the editor-in-chief of the Spectrum to be elected from the Sophomore class; also an amendment to Sec. 8 of the By-laws, whereby members should be notified at least 48 hours before the time of council meeting, through the mail. Further that the non-appearance of a council member at the meeting should cause a tax of 50c on his respective class, and lastly that the list of absentees be published in the weekly Spectrum.

Consideration of the 1st amendment. It was moved and seconded that said amendment pass its first reading. Voted on and carried.

The amendment to the By-laws was taken up. Considerable discussion followed regarding the adaptability of the suggestion.

It was moved by Mr. Bolsinger that this amendment should be reworded to contain a sickness clause; a fee of 50c charged to class unless absentee had sufficient excuse (absence from school). Further if class did not pay it would have no representation so far as that person is concerned. Seconded by Mr. Dixon. Voted on and passed.

The President called the attention of the council to the International Debate to be held here Feb. 12, and suggested that some form of entertainment be arranged for them.

Moved and seconded that this matter be placed in the hands of the student entertainment committee. Passed.

The report of the Spectrum committee favoring a 25c term tax on all A. C. students was read by Chairman Dixon. Considerable discussion followed regarding the advisability of this suggestion. It was moved and seconded that the report of Spectrum committee be laid on the table. Seconded. Passed.

Moved that we adjourn.

Bertha Camp, Sec.

Heretofore Prof. Hard has been in charge of the soil work as well as the geology end of it and as this means a duplication of work carried on by the soil division, it was thought best to separate them.

"Polly" Foss and Edgar Olson of the class of '13 were interested spectators at the game last Saturday night. Both of them will remain in the city for a few days.

Are you one of those who say that Latin is a dead language? Take a look at some of its derivatives, "Tango, tangué, turke, trottum."—Ex.

College "Y" Quartet Returns from Eldred

The College "Y" Quartet returned Friday evening from Eldred, Minn., where they furnished the music for the Dedication of the new Consolidated School, the first in Polk county. The boys were forced to take a 5:30 a. m. train on Friday morning arriving in time for breakfast.

The school building with its modern conveniences and equipment, including steam heat, electrical lighting system; current supplied by dynamo connected with a gasoline engine and stored into an arrangement of 60 storage batteries, pressure tank supplying running water to the toilet and drinking fountains, and sewage disposal by means of a septic tank, is one of the most complete in the state. The electrical current supplies power for manual training as well as heat for the Domestic Science departments.

The upper two rooms are divided by a sliding partition, which when opened affords an auditorium capable of seating over three hundred people. The seats are fastened on strips so they can be easily arranged for seating the larger room.

The program was one of especial merit. Dr. George Vincent of the University of Minnesota was the principal speaker. Amongst many other inspiring things he said; "This is the most important event happening in the State of Minnesota at this time because it marks another step in the solution of the rural problem not only for Minnesota but for the whole nation. The State of Minnesota takes off its hat to the people of Eldred.

A special train carrying over two hundred people was run from Crookston, eleven miles distant. Over four hundred people crowded the building to its utmost. A splendid lunch, served on the cafeteria plan was provided by the Domestic Science department.

The quartet report royal entertainment and splendid treatment from everybody. A deep appreciation of the work done was very evident.

Philos Entertain Pythians

TWO SEGREGATED SOCIETIES
ENJOY SOCIAL EVENING
TOGETHER.

The Philos, having for some time experienced within their hearts, a feeling of lonesomeness, a feeling that evidently could only be soothed by the gentle presence of some fair ones, decided then to forget, for a time, their segregated past, together with their lot for the future, and once more mingle in the presence of the female of the species. Friday evening was set as the time to look forward to, and the Pythians invited to share in the pleasures of the evening, with their gentlemen friends. The declamatory contest, held the same evening, somewhat infringed upon their time, and it was not until following this contest that the parties adjourned to the Philo room. Here everything was in complete readiness for an enjoyable social evening.

A short musical program, including solos and orchestra numbers were thoroughly enjoyed, as no less were the "eats" which followed. The Philos orchestra, then took their seats, and in a very pleasing manner, to those present, rendered some very choice dance music. Of course, in their modesty, the tango and the other "latest" were not indulged in by the dancers, but a few of the more conservative social pastimes, made merry the evening, until 11:00, when they all dispersed for their homes. A lusty yell from the Philos preceding their departure, marked their appreciation to their Philo friends, and many were the regrets that time should have been so limited. Prof. and Mrs. Arvold acted as chaperons for the evening.

Dr. Batt: Was ist ein mal eins.
Ruth Brown: Djei.
Do you know what it is?

Miss Gilbertson Wins Gold Medal

MISS KATHERINE LADD AWARD—
ED SILVER MEDAL—100
PIECE BAND MAKES
HIT.

On last Friday evening was held the Nineteenth Annual Declamatory Contest and a very spirited and excellent series of declamations were given, although there were only five contestants. One of the chief attractions was the Agricultural College one hundred piece band, which was the largest band ever seen in the state. The boys did nobly and were forced to respond to numerous encores, producing a volume of sound, the like of which had never before been heard in the armory. As a consequence a crew of carpenters are still at work on the roof.

The first declamation was entitled "The Little Minister" and was recited in a most vivacious manner by Miss Georgianne Allard. It was a very difficult piece to render because of the large amount of Scottish dialect in it, but Miss Allard acquitted herself very capably. The piece called for much character work and as a result took very favorably with the audience.

The second number was by Fred Lowe who rendered the selection, "A Plea for the Famine Sufferers of Ireland," which consisted of a very dramatic appeal to an American audience to assist the Irish in their great year of famine. Mr. Lowe showed decided strength and volume of delivery and successfully conveyed the meaning and significance of the appeal to his listeners.

This was followed by a delightful recitation by Miss Gunhild Gilbertson entitled, "Who's Afraid." Miss Gilbertson was winner of the first prize consisting of a gold medal, and there was no doubt in the minds of any of the audience but what she deserved the honors awarded her. The selection was in the nature of a dialogue between two little children who had just been put to bed. The little boy tells a most miraculous and impossible tale of adventure which in the end frightens both the teller and the listener of the story to such an extent that they finally cry for their mother. The impersonation and acting which a successful rendition of the piece called for was most excellently performed by Miss Gilbertson.

"The Bells" or "The Burgomaster's Death" was given by David Sonquist. It is a most tragic and gruesome selection and quite sufficed to put the auditors' hair on end. It is a tragic soliloquy of a dying man whose conscience bites him to the heart because of a murder he had committed years before. Mr. Sonquist entered into the spirit of the piece to a marked extent and won much praise from the audience.

"A Lie" was the name of Miss Katherine Ladd's declamation and as a result of her efficient endeavors she was awarded the silver medal. This selection was in the dialect of a small child and many amusing instances were brought out. Miss Ladd proved herself to be at home on the stage and put a great deal of snay and energy in her recitation, proving herself to be a declaimer of great ability.

The one hundred piece band played a couple more selections while the judges were rendering their decision.

THE HESPERIANS.

The Hesperians held a short business session Friday evening before the College Declamatory Contest. Among other things on the program were current events by Strubble, and the reading of the "Whistle" by the editor, Mr. Eriksen. Charles Palmer was voted into the society.

As the editor of the "Whistle" will be busy preparing his part of the debate against the Castalians, Feb. 20, he appointed Mr. Pettit editor until that contest is decided.

"Polly" Foss was a guest at the Alpha Mu house over Sunday. It seemed good to see Polly back again. He looks well and says that Page is one of the best places in the

MRS. J. M. WALTER

A. C. students and faculty were greatly shocked to learn of the death of Mrs. J. M. Walters, the wife of the pastor of the First M. E. church of this city. Mrs. Walters succumbed in one of the local hospitals Friday night following an operation of a severe nature.

Since Mr. and Mrs. Walters have been in Fargo they have both been intimately associated with the young people of the city especially the students. The work of Mrs. Walters with the non-resident students of Fargo and Moorhead have made her known and beloved by all. The Agricultural College students and faculty extend their heartfelt sympathy to the father and son who survive her.

THE THEATRE

THIS WEEK.

LITTLE COUNTRY THEATRE FORMALLY OPENED THIS WEEK.

The Little Country Theatre in the main building will be formally opened this week. The opening starts this afternoon and will be continued tomorrow and Thursday afternoon. The hours will be from four until six and President Worst, Prof. Arvold and Reginald Colley, the president of the Edwin Booth Dramatic club will be the speakers. Three plays will be given, these being Miss Civilization, Proposal Under Difficulties, and the Fatal Message, the first two of these plays have been given already, and the students will be glad to hear that they are again to be presented as it will enable those who were not able to attend before to see them.

Invitations have been issued and capacity crowds are expected at all of the opening entertainments.

Plays Coming Later—Watch for the Dates.

"How the Vote Was Won," by Cicely Hamilton and Christopher St. John; "Three Girls from School," by Elsie West; "Charley's Country Cousin," by K. McDowell Rice; "Which is Which," by S. Theyre Smith; "Cherry Three Farm," by Arthur Law; "The Fatal Message" by John Kendrick Bangs; "The Country Life Minstrels"; "Antigone"; Scenes from Sickens and Shakespeare, will be a few of the many short plays to be staged in The Little Country Theatre.

Lincoln Program

An Abraham Lincoln program will be given in the Armory, Thursday morning at ten o'clock, and will be in the shape of a musical program—the band, the male quartet, and the men's glee club furnishing the music.

The following program of patriotic music will be given:

1. The Sons of Veterans, March, (King), Cadet Band.
2. Group of Patriotic Melodies: (a) Hail Columbia; (b) Marching Through Georgia; (c) Battle Cry of Freedom; (d) Glory Glory Hallelujah—Cadet Band.
3. The Vacant Chair (Geo. F. Root), Colege Y Quartet.
4. Tenting Tonight on the Old Camp Ground (Kittredge); Let the Hills and Vales Resound (Richards) Men's Glee Club.
5. Uncle Tom's Cabin, a Tone Picture of the South (Lampe) Cadet Band.
6. The Boys of the Old Brigade—Y Quartet.
7. The American Patrol (Meacham) Cadet Band.
8. Finale, The Star Spangled Banner.

Mule in the barnyard, pretty and slick,
Boy on the end of a sharp pointed stick
Creeping up behind her quiet as a mouse,
Crepe on the door of the little boy's house.

Raise Bigger Crops By Tractor Farming

Plowing at the right time and the right depth more than doubled the crop and increased the profit per acre from \$3.35 to \$16.87 or more than twice as much. The Kansas State Agricultural College proved this by experiments extending over three years.

Farmers long ago learned that plowing

deep and at the right time paid big profits but the question was how to do it. Horses and mules are too slow. And you pull the life right out of them if you set your plows deep. Tractor power has solved the problem. Hot weather doesn't bother a tractor. Hard ground doesn't stop it. It needs neither rest nor sleep. Many Avery Tractor owners plow night and day. With an Avery Tractor you can do all your work in the right way at the right time, which means bigger crops.

Letters from hundreds of farmers prove that Avery Tractor Farming is cheaper than horse or mule farming. One big reason for the success of Avery Tractors is that they are the lightest-weight tractors built, considering their draw bar pull. No useless dead weight to waste power and fuel.

You can run an Avery Outfit alone. No plowman needed—save his board and wages. Avery Tractors are built in five sizes—

from a small 8-16 H. P. to a large 40-80 H. P. full from 2 to 10 plows. You can do Tractor Farming with an Avery on any size farm—large, medium or small.

Learn All About Tractor Farming With Avery Outfits

Write for Avery Selling Plan—low prices—strong guarantees—sold on approval plan. All backed up by a big, successful company. Our new book "Tractor Farming" tells how and why to farm with Tractor Power. Our 1914 catalog of Avery Tractors and Plows tells all about how they are built and what they will do. Co-operative Banks

I have been asked to tell just what Co-operative Banking System is and was limited to 800 words,—a big subject for small space.

This movement originated in Europe and has a background that must be considered first of all. The movement is as broad and deep as humanity itself as it represents the common people in particular. This movement is another effort on the part of the wealth producing classes (laborers) to even things up a little, for the ruling classes have always made the laws to favor them, of course, and when the oppressions have become unbearable for the wealth producers they show signs of uneasiness and, according to the principles in physics that motion takes the line of least resistance, the masses do that which compels action favorable to them for death is preferable to many that have been ground down to the wolfish level.

Among the thinking classes it is the concentration of wealth in the hands of the few that is ample cause of alarm for the pages of history are full of wrecks of governments which have fallen because of this thing. Persia went down when 1 per cent of the people possessed the wealth of the land, Egypt fell when 2 per cent of the population controlled the wealth of the country, Babylon when a little over 2 per cent was in control and Rome fell when 1800 men had their fangs buried in the masses to suck their blood. We hear these rich men of our own day crying for "peace, peace when there is no peace." They are willing to part with some of their millions now for world peace.—Why? Because they too have their fangs buried in the flesh of poor men, women and children and want to lie still while they continue to suck their blood.

With this introduction we can better explain what is meant by the co-operative banking system. It is a movement designed to unify the efforts of the people who have but little stirring address on "Team Play" by Dr. Geo. E. Vincent, President of the University of Minnesota

last Wednesday evening. He gave us a splendid picture of the spirit of the times but as a philosophy we cannot endorse his views. We admit that we have been driven to the extremity of unifying our efforts or go down before the greater strength which we see rolled up in this accumulation of wealth in the hands of the few in our own beloved United States of America. But deeper than that lies the remedy. The present monetary systems of the civilized world is to blame more than any other one thing for the condition which confronts us today. We want a system that will compel each able bodied man of sound mind to become a producer of wealth and to do this we must reduce the power of the dollar to a point where it can only serve in its legitimate function viz. that of the yard stick. Who wants to grab on to the mere stick that measures, though it be infinitesimally accurate.

This is the condition that must prevail even though we are compelled to demonetize the money of the aristocrat—gold. We certainly can get him that way but to be safe to all human kind we would need the co-operation of France and Germany in such a step. To what shall we go then for a basis of our monetary system? To the land, the sound land values measured by their power of production standardized to labor. Then and not before will we have the whole matter measurable by the worth of humanity itself.

This is my conception of this co-operative movement and the form it must take before any real value comes out of it for the general good of all. As it is, and the way we must work it for awhile, until we can gain strength among our selves, the present monetary standard must be accepted and there is enough good in it to justify our working as the system has compelled us to work, i. e. by fighting our brothers. We can form these co-operative banks and reduce interest cost to ourselves and by further co-operation can do something toward controlling prices but friends, suppose we gain the upperhand is there no human feeling for those we must of necessity battle down? Why can we not work out a system that will compel each man to become a producer of wealth? Then if he chooses not to work he becomes his own destroyer. We might succeed with the present system, no doubt we shall, but when we smite the other fellow our own blood will be upon our heads, like the bald headed man that waited too long to smite the mosquito that had bored through his scalp, for they have been feeding long upon the blood that should have enriched our own veins.

References to statistical matter used: "Distribution of Wealth" by Chas. B. Spahr, also Article in Forum by Thos. G. Shearman.

THOS. J. JACKSON

A girls' boarding house—an institution of yearning.

NORTH DAKOTA

(By George Fitch.)

North Dakota is a broad, flat state with a mind of its own, when LaFollette isn't using it, and about enough history to fill a souvenir postal card. It was divorced in 1780, massacred in the fifties, admitted to the Union in 1889, and has had several blizzards and a presidential primary. More about North Dakota's history would be a waste of words.

North Dakota is part of the old territory of Dakota which was taken into the Union in two gulps, viz.: North and South Dakota. The former has 70,000 square miles, which are sowed to wheat each year, and it has 577,000 people, who look at the wheat report before they look at the baseball scores. When wheat is a bumper crop North Dakota puts storage tanks around its national banks, but when the spring is dry a book agent could walk across the state without getting a chance to take out his prospectus.

North Dakota is also noted for its vast ranches and farms. Land was once worth \$5 a township, and those farsighted men who bought a few thousand dollars' worth now have farms so big that it takes four men on ponies to get the morning paper out of the R. F. D. box at the front gate before it is stale.

North Dakota was first noticed by Jim Hill about 30 years ago. He built the Great Northern across the upper end, and has since built so many branches into the wheat fields that the road looks like the skeleton of a trout on the map. Hill also owns North Dakota's other railroad, the Northern Pacific, and gets all the blame for everything that does or does not happen in the state.

Being just under the Canadian border, North Dakota is plentifully supplied with winter, which begins shortly after September and lasts until even the coal dealers are tired of it. The thermometer often drops to 50 degrees below in the state, but nobody minds it because it usually drops to this mark from 45 degrees below. The snowfall is very liberal, especially on the railroad tracks, and all summer long officials keep discovering trains which were mislaid during January.

North Dakota afternoons last until 10 o'clock in the summer, and the people spend them reading progressive literature. The state is so progressive that it regards Roosevelt as a conservative. It is growing rapidly and as soon as its great fields of lignite and gas have been opened will not have to depend on the aurora borealis for heat during the annual coal shortage.

Music and Musicians

Edited by Myron Bachman

QUARTETTE TO APPEAR IN CHURCH CONCERT.

The College "Y" Quartette will appear on the program to be given by the Plymouth Church Choir, Friday, Feb. 13th. The Sunday School Orchestra, consisting of twelve pieces, under the direction of Clair Coddling, will render several groups. The following A. C. men will be members of the orchestra: John Anderson, Fred Gram, Roger Amidon, Albert Shunk and Roy Boyd. The Fargo String Quartette under the direction of Prof. Stephens will play a group of three selections. Several solos with obligato are special features on the program.

The College "Y" Quartette appeared on an after dinner program before the North Dakota & N. W. Minnesota Implement Dealers' Assn. last Wednesday in the Masonic banquet hall. A group song of "Larboard Watch" and "Coming Thru the Rye" were rendered as scheduled and "The Song" was used in response to an encore.

A girls' orchestra is being organized in connection with the Treble Clef Club. All girls who play orchestra instruments are urged to see Miss Grasse as soon as possible. Mandolin, Guitar, Violin, Banjo, Cornet or any other instruments will be welcome.

The Treble Clef Club furnished the music at convocation last Monday.

A rehearsal was held last Wednesday afternoon for the Hundred Piece Band. About one hundred and two or three men showed up.

One of the best programs played by the Cadet Band this year was staged last Saturday night before the Fargo College basketball game.

"ONE HUNDRED PIECE BAND."
The first hundred piece band that ever appeared upon the campus furnished the music for the College Declamatory Contest last Friday night. The band was a combination of the First, Second, and Third bands with the aid of all other men attending school who play band instruments. The instrumentation consisted of thirty-two cornets, twenty-three clarinets, two flutes, eight horns, six baritones, fifteen trombones, five basses, three base drums, four snare drums, and two pairs of cymbals.

Carrol Griffon, a former band man is visiting here among his friends. "Griff" played in the first band in 1911-12.

Earl Yerrington has started in the first band on alto saxophone. Earl has had considerable musical experience and will make a valuable addition to that section.

A nine or ten day trip has practically been arranged by the Boys' Glee Club. They will probably start about the nineteenth of March.

Alumni Notes

Edited by Roy Dynes.

W. P. Stapleton, '13, has been teaching Agriculture in the High School at Akeley, Minn., since September. We have not heard heretofore as to his success in the work but we notice the following article in the Duluth Herald, which is evidence of the fact that our younger Alumni are becoming recognized:

AKELEY STUDENTS TO HAVE GARDENS.

Twenty Breeding Plots to Be Conducted This Year.
Akeley, Minn., Jan. 30.—(Special to the Herald). The first exclusive corn show ever held in Hubbard county was conducted here in connection with the Farmers' Institute which was attended by several hun-

dred farmers who are making a strong effort to increase the acre yield. There were sixty-four entries in the corn show and the product was highly praised by the lecturers from the University of Minnesota, who were engaged in the extension work.

The Akeley high school agricultural department, under the supervision of Prof. W. P. Stapleton, will conduct twenty breeding plots with farmers during the coming season. The high schools of the county have created intense interest among the farmers by practical work among them.

D. J. GLOMSET.
D. J. Glomset, '06, since leaving the A. C. has been taking medical work, and will sail for Prague, Bohemia next March to study under Dr. Ghon.

While here Mr. Glomset worked under Prof. Bolley in the general science course, after which he went to Rusch Medical school, where he graduated. He then went to Mercy Hospital, Des Moines, where he worked as Pathologist. Recently he has been elected to the American Pathologist society which is considered a high honor.

Polly Foss, '13, is spending a few days visiting friends at the college.

O. W. Dynes, '07, and W. R. Porter, '06, left for Dallas, Texas on Tuesday, where they will have charge of the North Dakota exhibit at the National Corn Show. They will return in about three weeks.

Prof. Sheppard is in receipt of the yearly reports from the various substations and these will be published as soon as possible.

E. D. Sylvester, '12, dropped in on us to see the Yankton-A. C. game Saturday night.

The Ohio Society of which President Worst, Dr. Schalk and Prof. Donegheue are members, held their most successful banquet at the Annex last evening.

A few girls in this school certainly showed their loyalty toward this institution Saturday night by their non-support of the team.

Prof. Donegheue was made director of the North Dakota Soil Survey the la. meeting of the board to succeed Prof. Hard. This will not effect the geological survey or the teaching of geology, which will continue to be under the direction of Prof. Hard.

MILITARY DEPARTMENT

Edited by Henry Brown

The question was placed before Co. A Cadets last Wednesday as to the drilling five times in the fall, five times in the spring, and having ten lectures during the winter term. It was emphasized that this was not a method to secure more hours of drilling, as they are only required to drill 84 hours during the school year, which they have never accomplished up to the present time.

There is considerable agitation among the cadets to have the Olive Drab uniform adopted by them here at the college, instead of the one now used. This has met with the approval of Lieut. Herron. For many reasons the Olive Drab is more desirable, being cheaper and more serviceable.

On February 2d, Lieut. Herren issued guns to the cadets who had not previously been assigned. These assignments are to remain permanent until the close of school.

Instead of having the regular drill on Feb. 4th in the armory, Lieut. Herren lectured to the Cadets in the Engineering building on the "Service of Information in the Army." The lecture was very interesting and instructive.

The Crack Squad composed of Christianson, Peters, Rohrke, Brugger, Amidon, Senechal, MacQuiggan, Dynes, Stoa, Dodds, Waldron, Brown, Drummond and Drillmaster Anderson, had their picture taken for the Agassiz at Jansrud's studio Saturday. What would Huerta do to the rebels if he had this aggregation to back him up. These fellows are practicing faithfully every Tuesday and Thursday in the armory.

Company B started target practice in the basement of the Chemical building yesterday. A new inducement has been offered this year in the form of money prizes and medals. These should call forth some exceptional records as the records in years past without these inducements have been very good. The money prize will be awarded to the best shot in the company and the medal to the best shot in the battalion.

Companies A and C will shoot following Company B.

Competitive Corporal drill was held last Friday. The selection was made from the way the squad drilled and the manner in which the corporal handled his men. Valandingham won out, and his squad was excused from drill on Monday. But the smallest men in the company under Corporal Ladd, gave the winners a close run. Following is a birds eye view of the drill. Brugger, some bass voice; Senechal, height of rook-leism; Valandingham, right turn on the brain; Adams, same disease;

Ross, "squad halt"; Strubble, squad lost, found in rear rank; Fromke, some walk; Honet, frog in his throat; Leslie, oh, girls, feed me gum! I'm a soldier; Emery, Halt!; Turner, tried to make a get away, but was caught by Dodds; Ladd, some quick step.

Other Colleges

Marvin Kirk

THE WEEKLY EXPONENT

Montana A. C.

The Montana farmers have just closed the most successful convention they have ever held. There was a large attendance of farmers from all over the state, and several speakers of national importance were on the program.

Those Dances.—The Student Senate passed a measure which makes it necessary for all down town people to get an invitation from some student, before they can attend the dances given in the drill hall. If any club gives a dance in the drill hall, a member of the Senate must be present to see that the dance is properly conducted. These rules were passed because the dances were being monopolized too much by people from outside the college.

THE CARLETONIA

Carleton College.

The Men's Glee club has arranged for a tour of the northwestern and west central part of Minnesota, the last of March, and the first of February. Three concerts will be given in the Twin Cities.

Eighty freshmen have been enrolled in the different literary societies.

One of the Northwestern's basketball candidates is 7 feet, 3 1/2 inches tall.

The U. of Michigan has 22,000 living alumni, which is more than any other American institution of higher learning.

All the copy which the Juniors had prepared for their annual has been stolen. This leaves the Juniors in an embarrassing position.

O. A. C. BARIMETER

The freshmen challenged the sophomores to a tug of war over the mill race.

JURY DISAGREES

VERDICT OF SEVEN FOR ACQUITTAL AND FIVE FOR CONVICTION.

Rube Larson was saved from a severe paddling by the male students of the college on last Friday when the jury failed to agree. Mr. Larson's case was brought about by his testimony while on the stand for the defense of Stephen Bjornson, in which he told of signal relations with Mr. Bjornson and this led to his case of Friday. The two witnesses brought on the stand by the prosecution were Mr. Lohn and Mr. Stewart, who had investigated the fact of being able to see Ceres hall from the window of the barber shop and they stated on the stand that they could not see Ceres. Later developments showed that they would have been able to see Ceres hall had they gotten up into the window where Mr. Larson had been, while watching for Mr. Bjornson's signals. Mr. Bjornson and Mr. Larson both swore on the stand that they had these in common and nothing was brought up by the prosecution showing this to be untrue.

The defense called the prosecuting attorney, "Scoop" Perry on the stand to testify. Perry while carrying on examination with witnesses incriminated himself and for those few statements made, the defense brought him upon the stand and there Perry became very much confused by the questions shot at him by the attorney for the defense.

The next case to be tried by the student court will take place next Friday in the court room when the second trial of Dick Bjornson will be brought up.
