## Tri-State Association Originator of Rural Credits Movement

HUGH J. HUGHES, FORMER STUDENT HERE, ONE OF PRIME MOVERS.

Will Be Discussed This Year.

The present day Rural Credits movement which is creating so much comment and upon which so many men are expending their efforts, originated at the Tri-State Grain Growers Convention of the Northwest. This may seem a surprising statement to many, because of the fact that the work has progressed by leaps and bounds until it is now a national one and has been called to the attention of the executives of our great nation.

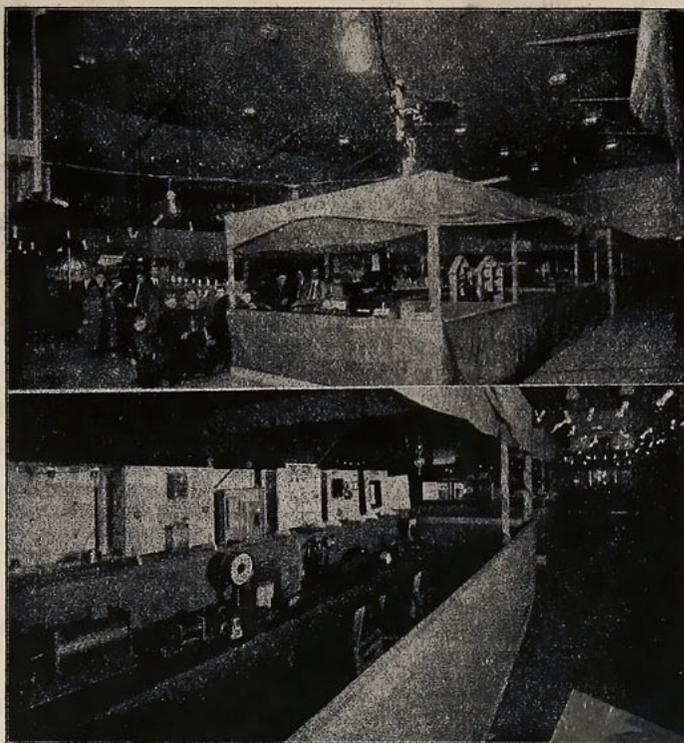

The convention this year will spend much of its time discussing this and other questions along this line, as the idea of rural credits originated with the Tri-State Convention prior to 1912 and since that time has been one of its greatest problems. Moreover, many of the prime movers of the convention have taken an intense interest in this problem which faces the farmer.

Hugh J. Hughes, of the Farm Stock and Home of Minneapolis, and formerly a student at the North Dakota Agricultural College has really done more than any other one man to bring this matter of rural credits to the attention of the people. In 1912 a standing committee of six men was appointed by Pres. J. H. Worst of the Tri-State Association of which Hugh J. Hughes was a member. The other members of this committee were Carl Rackow of Wheatland, Pres. F. L. McVey, of the University of North Dakota, A. Stonehouse of Larimore, John Mills of Hanaford and Thomas Jackson, student at the North Dakota Agriculture College.

Since that time Pres. McVey, who is to speak on the program at the convention this year has completed an economic survey of the state, and will speak on Social and Industrial Problems in the State of North Dakota. Pres. Worst in his annual address will discuss Agriculture, Our National Economic Problem, The Necessity and Benefits of Organization Among Farmers will be the subject of Oliver Wilson, Master of the National Grange of Peoria, Ill. All of these facts are indications of the general trend of sentiment along this same line.

After the matter was first brought up at the Tri-State Convention it was brought to the attention of Prof. Spillman of the Department of Agriculture, who realized that nothing had been done in a comprehensive way to ascertain the rural credits situation. He then took over the plan which Hugh J. Hughes presented at the Tri-State Convention in 1913. From this source the work was carried to the United States Department and thus to the Tri-State Association is due the credit for instituting the Department of Investigation of Rural Credits. It was also due to this action that the American Commission secured the appointment of committees throughout the various states to report on the agricultural and rural credit situation. Hugh J. Hughes became a member of the Minnesota Committee which was appointed.

Thus we find that the preliminary work of rural credit investigation in the United States was begun here by the Tri-State Association. In the meeting which was held here in January, 1913, the report was made of the first thorough study of conditions in the Northwest or in the United States, and following this appeared a little booklet which was published by the Farm Stock and

TWO VIEWS OF ELECTRICAL AND INDUSTRIAL SHOW LAST YEAR.

## Many New and Attractive Features at Electrical and Industrial Show

Tomorrow evening, Wednesday, the 21st, the Armory will be opened for the Third Annual Electrical and Industrial Show, given by the Lyceum of Engineers. The show will continue the remainder of the week, afternoons and evenings, and it has been the main object of those in charge to make this show the most interesting of its kind ever held. There will be about thirty booths, each containing an exhibit of educational value and demonstrations will be made and any questions will be answered by the students in charge.

Among the most interesting exhibits will be the new Nitrogen Lamp, a Tesla Coil capable of giving a spark 30 inches long with a voltage of about 200,000. Motion Pictures, Oxy-acetylene Welding, Wireless Telegraph, X-ray, Tesla Steam Turbine with a speed of 14,000 revolutions per minute and numerous other interesting features.

The Nitrogen Lamp is of just recent discovery, having been discovered within the last three months, and will be the first of its kind exhibited in the northwest. The lamp is so recent that it has not yet been placed upon the market. It is similar to the ordinary Tungsten Lamp, the only difference being that its filament is suspended in nitrogen gas instead of in a vacuum, thus giving eight times the amount of light.

The Tesla Coil will make it possible to pass a current of 200,000 volts through the human body without the slightest harm being done. The current is taken from the city circuit and sent through this coil which steps the voltage up to some 200,000 strong; thus the amperage will be reduced and the current becomes harmless to the body. A spark can be forced across a thirty inch gap by this coil and can be either so strong that the eye can hardly stand the light or so slight that it fades away into a misty vapor.

Motion Pictures, with all the apparatus necessary in their produc-

tion, from the taking of the pictures to the projection upon the screen, will be exhibited. The four films that will be shown are a Panama Canal picture "Across the Isthmus," the "N. D. A. C. Student Life Special," the N. D. A. C.-U. N. D. Football Game 1913," and a comedy.

The Oxy-acetylene Welding exhibit will consist of demonstrations in the welding and cutting of metals with an Oxy-acetylene torch. Many demonstrations will be of a practical nature. The equipment is taken from the Engineering Laboratory, and will be in charge of a student.

Two complete wireless stations will be in operation at different parts of the Armory, and taking advantage of the fact that very few persons in this part of the country have ever had the occasion or even a chance to send a message "via wireless," the management of the Electrical Show, invites everyone to send a message at the designated sending station and then proceed to receiving station, where the message which was sent through the electrical medium will be handed to the sender on a Radiogram sheet, which can be retained as a souvenir of the show.

An X-ray machine will be in operation and special attention will be given those desiring an examination. This should be an interesting feature as the rays have a great penetrating power.

A Tesla Steam Turbine, made and designed in the college laboratories by Prof. M. B. Erickson will be on exhibition. This small turbine is about fourteen inches high and travels at an average speed of 14,000 revolutions per minute. This speed is so great that a point on the circumference of the shaft, 3-4 of an inch in diameter, if traveling in a straight line, would cover a distance of over half a mile in one minute.

Another exhibit that will prove of interest to everyone attending the show will be an Automatic Electric Light Plant, which has been loaned to the show through the courtesy of

the Warner Lamp Company of Daventry, Iowa. This plant which is entirely automatic, consists of a self-contained gasoline engine, an automatic dynamo, an automatic switch-board and storage batteries. The feature of this plant is that no attention is required after the storage batteries are once charged, except to occasionally oil or clean certain parts, the gasoline engine being started by the dynamo acting as a motor whenever the storage batteries are to be charged. The plant which will be on exhibition at the show will be a 150 lamp type using 30 volts.

A special booth will be arranged for smaller electrical farm appliances and this will contain also articles which are of interest to the household such as electric toasters, vibrators, wringers, churns, coffee makers, warming pads, tea pots, bread mixers, fans, flat irons, stoves, heaters and incubators. In regard to the latter, there will be an incubator from which chickens will be hatched during the show.

There will also be exhibits from the Engineering Departments which will include Mechanical, Civil, Chemical and Architectural Engineering.

The Armory will be decorated with bunting in the college colors and with numerous electric lights, presenting a most effective appearance. A feature in the decorating is an electrical fountain, ten feet across, which will be placed directly opposite the entrance to the Armory.

On Wednesday evening only, the N. D. Crack Squad will give an exhibit drill. This will prove very interesting as those who have seen the Squad in their fancy drills will vouch for. It will be their first appearance this year.

Under a separate head in this issue a program will be published of the concerts which will be given each evening by the Cadet Band.

With a Motion Picture show, an Electrical show, an Industrial show, a Band Concert and a Fancy Drill Exhibition, a very entertaining and instructive affair is assured.

## First Play Makes Hit.

RUSSIAN HONEYMOON STAGED TWO EVENINGS TO ENTHUSIASTIC AUDIENCES.

"A Russian Honeymoon," the first play to be held in the Little Country Theatre, was a decided success in every sense of the word and if succeeding entertainments are of the same calibre as this, the success of the novel project is assured. The imported scenery was an innovation in theatricals at the college, and the gorgeous costumes added much to the dramatic effects of the production. Careful and efficient training of the cast was evident, and all the actors impersonated their parts in a most admirable manner. Miss Genevieve Grover as Countess Poleska proved to be the star of the cast, portraying the part of a haughty and proud noblewoman and holding up in the difficult portions of the play in a very dramatic manner. Louise Fitzgerald as sister of the count was likewise very good in representing the aristocratic and overbearing royalty in their relation to people of lesser rank, and deserves much commendation for her work. Royal Drummond as a master shoemaker had perhaps the most difficult role to enact, but acquitted himself most remarkably, aiding greatly in forwarding the action of the play, his recalling of old proverbs in appropriate places being very humorous. Reginald Colley, acting Count Alexis Petrovitch, did well in the double impersonation of count and peasant, playing a heavy part in the many vicissitudes of the plot. G. A. M. Anderson an attendant with an unpronounceable name attracted much attention not only because of his garb and physical build, but because of his ability to bring out the minor details of his part and make them stand out equal to the rest of the part.

Katherine Keye as Micheline and William Arvold as Osip, carried the secondary love affair, both carrying their parts through with the utmost ease and thus won the hearts of the audience.

Roy Dynes and Harold McQuiggan acted as guards and while having only minor parts, carried them out to the slightest detail. The Messrs. Williams, Porter, Sonquist and Yerington took the parts of Russian peasants and sang a couple of toasts which took very well with the audience.

## "Miss Civilization"

At Little Country Theatre in Main Building Friday and Saturday Evenings.

Next Friday and Saturday evening in the little country theatre will be staged the play "Miss Civilization." Those who attended the play last week, know now what the little theatre means to the college and they have become the biggest boosters of the novel project.

Miss York and Prof. Arvold have been working hard to get the plays that will be presented during the winter into shape for presentation and the cast of "Miss Civilization" will be coached to the very minutest detail before the curtain goes up Friday evening. The play is a comedy in one act, and everyone is guaranteed their money's worth.

Alice Gardner, daughter of Jas. K. Gardner, president of the L. I. & W. R. R.—Laura Taylor.

Uncle "Joseph Hatch" alias Gentleman Joe—Dan Darrow.

Buck Meakin, alias Reddy the Kid—Roy Dynes.

Harry Hayes, alias Grandstand Harry—Charles Amidon.

Capt. Lucas, Chief of Police—William Williams.

Home of Minneapolis, which was placed in the hands of practically every economist in the country. The workers on the Tri-State Committee secured a general survey through the department of rural credits and

general credit conditions throughout the United States. They also secured indirectly through the American Commission, the work done by the state on rural credits, which in the main coincides with the findings of

the Federal Department of Agriculture, which in turn substantiates fully and completely the idea advanced in the 1913 report of the Tri-State convention.

WHAT CONSTITUTES AN EDUCATION

At an institution of this nature it appears at times as though we mold our occupations and our lives too much upon one special phase of human existence to the exclusion of other and broadening influences, the summation of which constitutes the realization of life and enlightenment for which all should strive. Education consists in understanding and appreciating those relations of human achievements which one must meet with if he seeks to know the world, and one is not educated unless he knows the world. If a man knows nothing for instance but the movements of the heavenly bodies, no matter how involved or deeply scientific is his knowledge, he is not educated. Neither is a man educated who knows naught but the eternal combustion engines or the principles of dry farming. In those limited surroundings his mind becomes dwarfed, the summit of his desires is to best handle his crop that he may make more money to raise more crops. The resulting narrowness may lead us into the adoption of habits and an attitude of mind commonly possessed by those who have not had an opportunity to observe the actions of achievements of their fellowmen. We who material prosperity is uppermost in our minds catch the vulgarity as inevitably as the rustic catches revival meeting religion. Get that world wide attitude and assume that the world is yours, then make some inter-stellar investigation. It is one's obligation to know what has transpired and is going on in the world, to grasp and appreciate the manifold endeavors which humanity is constantly delving in and to realize the subtleties, the hopes, the loves, the intelligence and the beauties of the world, all built up into a mental ambrosia, the taking of which makes one broad, intelligent and loving, and the rejecting of which makes him ignorant, narrow and close to his animal nature. Look well then, O coming generation, while opportunity is at your feet, to meet what you can of the intellectual and artistic efforts of the human race and become a part of all that you have met—make a life as well as a living, for it is thus that one becomes a cognizant of the supreme glories and pulchritude of man and nature, and can enjoy his waking hours in a manner undreamed of by those who profess to see no use of art or literature, but continue, in the rut, to raise hogs and pray for rain.

Build thee more stately mansions, O my soul
As the swift seasons roll!
Leave thy low-vaulted past!
Let each new temple, nobler than the last,
Shut thee from heaven with a dome more vast,
Till thou at length art free.

"ROOT"

Basket ball season has started again and it brings back to the older students on the campus the thrill that always accompanies a season of intense interest when every one is going about with the very latest report on the games at other schools and how they are to affect our future. But the future of our basket ball team does not depend alone on what the other teams are doing or on what our own team is doing but it does depend to a great extent on what the students are doing or are going to do when it comes to one of our big struggles.

Walter Christie, the University of California track coach, states that it has been his experience, based on twenty-five years of observation that one fourth of the efficiency of track men comes directly from the cheering of the rooters. The athlete he says must have music and noise to keep him going. He claims that in the Intercollegiate races on the coast California men invariably slow down while passing the rival rooters, but that upon reaching the other side of the grand stand they speed up because of the proximity to the rooters for their own school. "The principle involved is said to be one well known to psychologists as 'Crowd Contagion,' and is a recognized factor in determining the strength of the constituents." It is stated that a man breaks quickly into his reserve of strength when a thousand throats are helping him wield the battering ram. A show of abnormal strength is usually coincident with a loud cheer from the bleachers.

Thus we find that we can help our team greatly in their coming struggles this winter if the entire student body will get out. Now, I don't mean, just simply to be there but to root as well. Think it over and the then root.

Every thing has a history and one of the most notable changes that ever took place on the Agricultural college campus has been accomplished by a short history running back to the second of December. On that day the Freshmen issue of the Weekly Spectrum appeared and the next day the campus was buzzing with talk by the upper classmen and also by the faculty and lower classmen, this talk was caused by the appearance of an editorial in the columns of the Spectrum on the subject of smoking. The next week appeared some loud yellow posters laying down a code of rules to the Freshmen and also bringing the upper-classmen within the net, the rules prohibited the use of tobacco on the campus, it also started the student court. From that day on the use of tobacco on the campus was a minus thing with the exception of a few times and all of the offenders have duly suffered.

North Dakota Agricultural College

For Completeness of Equipment and Facilities for Instruction is Unsurpassed in the North-West.

THE COLLEGE DEPARTMENT OFFERS

Pharmaceutical Chemistry — Civil Engineering — Mechanical Engineering — Agriculture — Chemistry
General Science — Biology — Domestic Science — Education — Veterinary Science — Medicine and Surgery
These courses are available to those who have completed the equivalent of a High School training. For those who have not had such a training

THE AGRICULTURAL AND MANUAL TRAINING HIGH SCHOOL OFFERS

Complete Secondary Courses in — Agricultural — Commercial — Domestic Science — Mechanic Arts
General Science — Rural Teachers

SPECIAL COURSES

Farm Husbandry, Homemakers, Pharmacy, Commerce, Power Machinery; Special Courses are also offered
A COMPLETE COMMERCIAL COURSE

Is offered all students and its work is so arranged that it may be carried in connection with the regular work of other courses.

THIS COLLEGE offers to the young people of this state an education which is thoroughly in line with modern thought and demands. It spends no time on the dead languages or such subjects as are of little practical value. It aims to fit young men and women who can think and investigate for themselves; who can deal with social, agricultural and industrial problems of the day.

THE LABORATORIES are thoroughly equipped, and the instructors are specialists in their lines. Exceptional advantages are offered in chemistry, physics, botany, zoology, literature, mathematics, and engineering subjects.

Graduates from approved High Schools are admitted to Freshman Class. Tuition Free. Board and Room \$4.00 to \$5.00 per week.

WRITE TO THE REGISTRAR FOR CIRCULARS, CATALOG, AND ADMISSION BLANKS.—FALL TERM BEGAN SEPTEMBER 15.

Students Accounts Invited

On the books of this bank are the accounts of many students. Although these accounts are usually small, we are glad to have them for we know we are doing a real service to the community when we educate young men and women to bank their money and pay by check.

Open your account here that we may extend this service to you.

The Merchants Nat'l Bank FARGO, N. D.

BUSY WEEK.

This is to be a busy week for a great many of the students, especially for the Agricultural students who are interested in the problems which are to be discussed at the meetings of the Tri-State Grain Growers Convention. Many are interested in poultry and will want to take in the Poultry Show. Others will be attracted by the Corn Show and the grain exhibit which will be held there. These attractions will all be worth attending and the Agricultural students should plan on so arranging their time as to be able to see the shows and hear the speakers.

Some of the speakers that the students should plan on hearing are Oliver Wilson, who speaks upon the Necessity and Benefits of Organization Among Farmers. Dean A. F. Woods of Minnesota. Gov. L. B. Hanna; Dr. George E. Vincent, U. of Minn.; Pres. J. H. Worst; Prof. Bolley; Thomas Cooper; Prof. H. R. Smith and Gov. Eberhard of Minnesota.

UNUSUAL

The Y. M. C. A. meeting last Sunday afternoon was conducted in a manner somewhat out of the ordinary. Instead of having an out of town speaker as is the usual custom the chairman, George Gustafson, arranged for a number of short talks by prominent students on the general subject of the Y. M. C. A.'s work in the college. There was special music and good men's singing as usual.

## AGGIES WIN ANOTHER

### GAME WAS SLOW—ROOM FOR MUCH IMPROVEMENT

Last Tuesday night the city Y. M. C. A. basket ball team, thirsting for revenge, packed their traveling bags and boarded an A. C. bound car. At 8:15 p. m. Coach Watkins of Fargo College sounded the referee's whistle and the game was on. It is impossible for us to give a coherent account of what happened. Poor passing, poorer basket shooting, much fouling, and a tendency to shoot for a basket from any place on the floor seemed to be in order. The A. C. team did not get together as they should. They would invariably try for baskets from any angle or distance and as a result they missed a larger percentage of baskets than they otherwise would have done.

The Y were the first to score, dropping in a field basket after about three minutes of play. Capt. Bolsinger tied the score with two free throws, and Wilcox added four points to the A. C. tally column with two field baskets. MacQuillan and Blix added two more. The A. C. then evidently decided that they had earned a little vacation, so the Y took the ball and after juggling it for a few minutes Nesbit slipped in a field basket. This seemed to wake up the A. C. and Bolsinger got his eye on the circle and dropped in another field basket. About this time one of the Y men challenged an A. C. player and they started a wrestling match, but the referee caught them in the act and called a double foul. Neither team counted. Nesbit again slipped over a field basket, and some more gymnastics resulted in another double foul. Both teams missed. A few more acrobatic stunts resulted in fouls, but these did not count in the scoring. Bolsinger limbered up again and shot a field basket. McKee followed his example with another and Wilcox added two more points to the A. C. side of the score sheet. Slingsby counted again for the Y and the first half was over, A. C. 18; Y 8.

Beginning with the second half Barchus replaced MacQuillan and Harris went in for Wilcox. The half started with two fouls in rapid succession on the A. C. Nesbit scored for the Y. A. C. fouled again and the Y made good. Harris scored. Y missed another free throw, but scored from the field. Some more fouls and the Y scored again.

Weston replaced Bolsinger at center and O'Dell goes in for Barchus. Weston scores. Armstrong in for Darrow and Billing for Blix. Y shoots two baskets in succession tying the score. O'Dell came to the rescue with a field basket, but the Y came up with another, tying again. Armstrong broke the tie and the game ended with the final score 28-30 in favor of the A. C.

A. C.—McKee, Darrow, L. F.; Wilcox, Harris, R. F.; Bolsinger Capt., Weston, C.; MacQuillan, Barchus, O'Dell, L. G.; Blix Billing, R. G.

Y. M. C. A.—Shaw, Slingsby, L. F.; Nesbit, R. F.; Beard, C.; Jones, L. G.; Peterson, R. G.

## AGGIES SWAMP INDIANS

### TEAMS DISPLAYS MARKED IMPROVEMENT—SCORE 52 TO 11

The A. C. basket ball team showed a marked improvement over the two preceding games last Saturday night, when they led the Wahpeton Indians into camp by a score of 52 to 11. In fact the only weakness exhibited by the Aggies lay in their basket shooting, which was probably due more than anything to the number of long shots undertaken. During the first five or ten minutes, the A. C. were seemingly unable to strike their pace. The play was fast throughout the game, but toward the last the Indians showed evident signs of weakening, while

the A. C. team, composed almost entirely of fresh substitutes, romped along shooting baskets almost at will. O'Dell won the scoring honors, connecting with the ring for a total of seven baskets. MacQuillan came second with four field goals. Harris and Wilcox got three apiece, Bolsinger, Blix and Gulbrandson connected twice each, and McKee contributed two points.

The fouling was quite frequent on both sides, but both teams showed a weakness on free throws. The A. C. totaled four fouls via the foul route while the Indians gathered five points in the same manner.

The fouling was quite frequent on throw after only two minutes of play. Wilcox scored from the field and Gulbrandson followed his example. Indians fouled, but the A. C. missed goal. Gulbrandson scored again. Indians fouled twice in succession but the A. C. missed both free throws. MacQuillan dribbled down the floor and added two points to the A. C. score. Tanner shot a basket from the center of the floor. Double foul, both sides missed. Foul on the A. C. was made good by White. Another double foul, the Indians missed but Harris counted for the A. C. Another foul on the Indians but the A. C. missed goal. Harris scored from the field. Foul on A. C. netted the Indians one point, another on the Indians brought the A. C. one point. A. C. fouled again, but the Indians did not count. Harris scored again. MacQuillan and Bolsinger scored the field. Foul on A. C. brought the Indians another point. Wilcox made a pretty running shot scoring the final basket of the first half.

The second half opened with a series of fouls, but none of them were turned into points. Harris started the fireworks by slipping in a field goal. MacQuillan scored. McKee goes in for Harris. MacQuillan scores again. Tanner scored for the Indians. MacQuillan tried to take a slide off on of the Indians and stood on his ear. Blix goes in for MacQuillan. McKee scores. O'Dell goes in for Gulbrandson. Tanner got lost in the crowd and game was delayed for three minutes. Bolsinger scores Foul on A. C. O'Dell starts by dropping one through the ring. Indian fouled. Wilcox scores. Armstrong goes in for Bolsinger. O'Dell scores again. More O'Dell. Weston replaces Wilcox. Two fouls on the A. C. net the Indians one point. O'Dell scores again. Darrow goes in for McKee. O'Dell again. Ditto. Still more O'Dell. Barchus and Billing replace Armstrong and Blix. Tanner scores and the game was over. Scores by halves. First half, A. C. 24; Indians, 6. Second half, A. C. 28; Indians 5. Final, 52; Indians, 11.

Referee, Henderson. Umpire, McLean.

A. C.  
R. G. Bolsinger, Capt., Armstrong, Barchus.  
L. G. MacQuillan, Blix, Billing.  
C. Gulbrandson, O'Dell.  
R. F. Wilcox, Weston.  
L. F. Harris, Darrow.

## TEAM LEAVES FOR LONG TRIP

### MANY MINNESOTA SCHOOLS TO BE VISITED

Yesterday morning the members of the basket ball squad, left for a trip into Minnesota where they will meet St. Olaf college at St. Cloud and Carleton college at Northfield. As this is the only big trip of the year the men have been out and putting forth their best efforts. The rivalry for the positions on the team this year is very keen and no man has had a definite position assigned to him as yet.

The trip was originally scheduled so that they would play So. Dak. University, and S. D. A. C. but due to pecuniary difficulties the trip had to be changed at the last moment. They are to play this afternoon and

a battle royal is assured as Carleton has all their last year's stars back and some new finds. Last year we won from them by a narrow margin. This year Carleton so far has a clean record and the boys have a problem on their hands in order to dim it.

On the following day they take on their old rivals St. Olaf who was their only stumbling block in the way of an undefeated record last year and the one purpose of the squad is to settle that score of last year.

Of the two games the boys are looking for the harder struggle at St. Olaf due from the smallness of the floor on which they play and the fact that St. Olaf has a team of Giants who have a distinct advantage where the men cannot break loose from their guards.

The men expect to go from Minneapolis to Northfield on the Dan Patch Electric line, playing the games in the afternoon also will give the men a chance to be in the Cities for one whole day and they will return home on Wednesday evening.

The following basket-shooters will make the trip accompanied by Coach Woods and Student manager Frank Peters.

Bolsinger, Capt., MacQuillan, Gulbrandson, Blix, McKee, Wilcox, Harris, O'Dell, Armstrong.

## College Football Was First Played In 1869

### PRINCETON AND RUTGERS IN EAST—MICHIGAN AND NOTRE DAME IN WEST

"Of the thousands of persons who see the annual foot ball games between the large college elevens in different sections of the country only a few know when and where the great college sport was organized. It is safe to state that a few persons who have graduated from the various institutions can name the year in which the game was first played in their respective universities or colleges," says an old-time lover of the college foot ball game. "Rutgers and Princeton were the first to take up the game, and it is interesting to note the number of games which have been played by the leading universities and colleges since the game was organized at various institutions of learning. Following the advent of foot ball in Rutgers and Princeton in 1869, Yale was the next university to fall in line. Old Eli organized its first eleven in 1872. Two years after Harvard took up the sport, and its example was followed the next year by Wesleyan. In 1876 Pennsylvania students took to the game, and two years later Amherst and Brown joined the ranks.

"Foot ball was seen in the west for the first time in 1878, when a team was organized at Michigan. Since that time the Wolverines always have been a factor in the grid-iron game, and the prowess of the players on the chalk field is too well known for comment. Notre Dame was the next of the large western universities to play football, and the South Bend institution was represented by its first team in 1887. Illinois organized an eleven the following year.

"Wisconsin, Minnesota, Iowa and Missouri took to the game in 1890, and Chicago had its first foot ball eleven in 1892, when the university was founded. The other institutions dropped into line during the interval between the time Michigan first played the game and Chicago joined the ranks. Of course, the brand of foot ball was crude, and few attempts were made to develop the game to its present high point of efficiency. There were stars in those olden days who would compare favorably to the great players of the present day. The old gladiators did not have all the paraphernalia that is used for protection by players of the present time, but the games were just as bitter fought. The flying wedge, used to tackle and

hurdle back formations was used, and it was worth a man's life to get in front of some of these attacks." —Weekly Kaimin.

How about that rooters club? So far we have not heard any organized rooting at the games. A few Coeds emitted some spine-creeping shrieks during the latter part of the Y game, but no attempt at organized rooting was heard. Not a single yell was given. Lets get busy and work up a little spirit and show the team that we are all behind them.

### CLASS MANAGERS!

Any class or departmental teams having outside games would confer a favor upon the Spectrum by handing in written reports of such games to the athletic editor. Same should be in not later than 3 P. M. on Sunday.

Dr. Frank Lawler from the U. of Minnesota has been secured to coach the Montana Aggie's basket ball team.

Hop Miller, star half back on Gilmore Dobie's University of Washington foot ball team, was selected by Herbert Reed as alternate half on his All-American Eleven printed in Harper's Weekly, the issue of December 27. This is the first time

in history that any player west of the Mississippi has been placed on this roll of honor.

Fargo College beat the Wahpeton Indians by a rather narrow margin last Wednesday night. The Indians held the hill school on even terms during the first part of the game but towards the end Fargo College drew away from them. Coach Woods of the A. C. refereed.

Student Manager Peters has begun work on next springs base ball schedule. He says it will be the best that the A. C. has had for several years. It will include games with three or four of the Minnesota colleges and all the North Dakota institutions of higher learning.

Thor Gulbrandson returned Thursday from Albert Lee, Minn. where he was called several days ago on urgent business.

A couple of our energetic young men, both very willing and capable of demonstrating the art of self-defense, have decided to give instruction to aspiring pugilistics during the winter term. Very likely some new white hopes will be unearthed during the next few months.

## Faculty and City "Y" Teams to Class Here

**SERIES OF INDOOR BASEBALL  
GAMES TO BE STAGED IN  
A. C. ARMORY.**

We all know that A. C. students are great boosters of good athletics, all kinds of sports, baseball, basketball, and track, as well as football, but in these contests the teams are always picked from among the men students. This winter term, in fact, beginning next Saturday night the A. C. faculty is going to get into the game. Baseball will be formally opened for the indoor season at that time when the faculty all-stars will meet for the first game of their series with the picked team from the city Y. M. C. A.

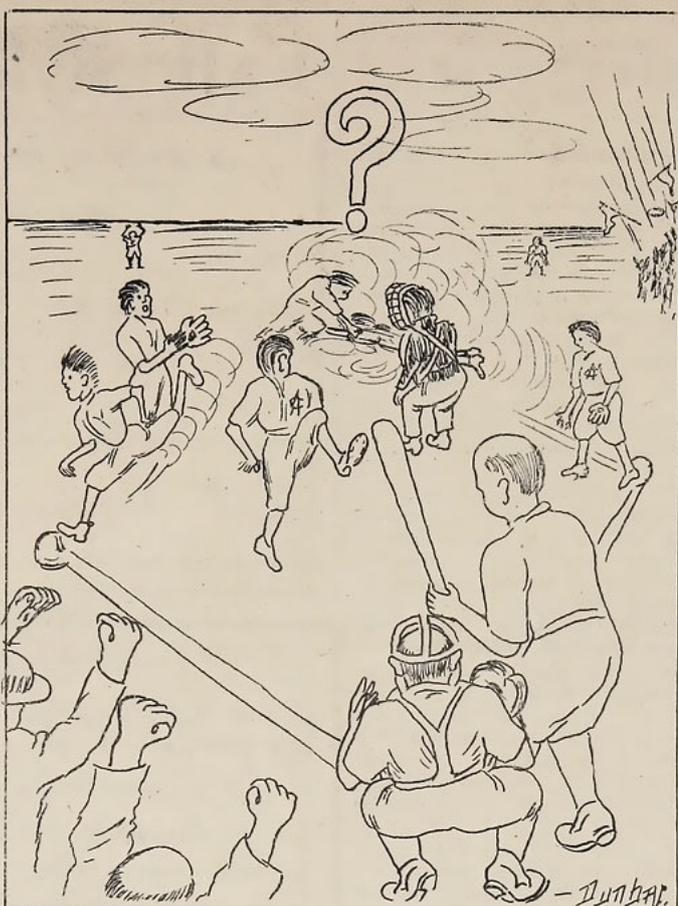

All during the Fall term the faculty have been getting into condition for this series, and under the able leadership of Dr. Shalk, Bert Haskins, and our Registrar, Mr. Parrott, a very fast nine has been developed with plenty of able substitutes. Haskins and Professor Darnier have been developing some tremendous curves and speed during the last few weeks, and with Dr. Shalk behind the bat there ought to be some fun watching the city men line up against them. However, in spite of the splendid material which the faculty have, the games will be hard fought because of the many strong veterans from which the city Y team will be made up. Physical Director Henderson has been working up his team lately and expects to make it interesting for the "profs."

To anyone who has not seen many games of indoor baseball this series will be unusually interesting. One would ordinarily suppose that the game could not be played hard and fast on a gymnasium diamond, but with the large ball, and the light bats, the two shortstops, and other features of the indoor game, there is an equal chance for fast work and clever playing.

These games were first suggested by members of the faculty team who thought that they would be able to put up a good interesting series of games that would really be worth seeing. The students who were approached on the idea took up with it immediately and planned at once to make these games some of the biggest attractions of the year, in the line of college "get-togethers." Arrangements have been made to play most of the series of five games in the A. C. Armory where large crowds can be accommodated. At every game there will be special features that will be put on first as "curtain-raisers." It is being planned now to have an "opener" at the time of the first game out here, Jan. 29th, between the men of the Farm Husbandry and the Power Machinery courses. The details of this will be announced in more detail in next week's Spectrum. The special features for the later games will be announced next week. These will especially interest short course men.

Tickets for these games may be secured from any of a large number of students after Wednesday. It has been planned to have a fairly large number of reserved seats placed on sale at this same time. The general admission to these games will only be ten cents, the price being put at this amount so that every student will be able to be present. These are the only games of the year in which you will get to see the faculty in action, and it will be a rare treat. Imagine Dr. Shalk sliding for second, or Mr. Parrott circling the bases for a home run. Bald-headed and fat men are not barred, for as a matter of fact they will, in addition to furnishing abundant good fun for the crowd, be among the best players on the team. Certainly every one ought to plan early on being out to these games. They are to be called at eight o'clock. The first one of the series is to be held in the city Y. M. C. A. gymnasium, Saturday, January 24, and the first game at the A. C. on January 29, Thursday night, at the same hour, the curtain raiser starting not later than seven-thirty.

Every student who attends these contests may be interested in knowing that the proceeds which come from them are to be devoted to the use of enlarging a permanent fund of money known as the Lake Geneva

A.C. Faculty - City Y.M.C.A. Series

### HESPERIAN MEETS.

The Hesperians held their regular meeting Friday, 7:15 p. m. in Room "N" main building. Three full hours were devoted to business, literary program and general discussion for the good of the society. The following candidates were voted on and ballots found favorable: Percy Evans, Wm. McLeod, Terrece Murphy, Henry Pederson, Chas. Struble and Cliff Wilson. Cliff Wilson being present was initiated.

Roy Luttrell was elected critic for the balance of the winter term. Sivert Eriksen was elected reporter. It was unanimously decided to edit a society paper and Sivert Eriksen was elected editor.

After some discussion regarding our debate with the Castilians a team composed of the following men were elected to debate the girls, some time in February: Arthur Biles, Roy Luttrell and Sivert Eriksen.

Business over, a live program followed.

### SIX DOLLARS A MILE.

A half dozen of our athletically inclined scholars with plenty of red blood in their veins discovered a motorcycle on the campus the other day and mounting the beast they hid themselves off to the green fields and far away, setting a merry pace and leaving a sinuous, dust-covered trail. After five miles of this exciting locomotion, the vehicle was replaced and the joy riders dispersed with many pleasant recollections. The next day they all had sudden calls from their classes and

## Jenson Convicted

JURY FINDS DEVERE JENSON  
GUILTY AFTER BEING OUT  
THREE MINUTES

First court session for 1914 was held last Friday in the court room in the library, the defendant in the case was Devere Jenson who was being tried for smoking on the campus. Although the prosecution did not have any witnesses on the stand but "Scoop" Perry, who acted as Bailiff, Prosecuting Attorney and witness the noble jury found grounds to convict the defendant. The next case to come before the court will be that of the North Dakota Agricultural Colleg Students Court versus "Dick" Bjornson, the prosecution has Mr. Bjornson up for smoking on the campus. Ward Ported and George Dixon will be the defendant's attorneys while Geo. Knutson will carry on the prosecution. The court will convene at 12:30 noon Friday, Jan. 23, in the regular court room.

Pres. Worst addressed a farmers meeting at LaMoure last Wednesday.

We are glad to learn of the much improved condition of George Olen, who was taken so seriously sick almost two months ago. We hope to see George up and around in a short time, but it is not likely that he will be able to resume his studies again this year.

J. C. McDowell, one of our former professors, but now connected with the Department of Agriculture, will be about the campus again this week, and to confer with Cal Hennis relative to the work of his department. Prof. McDowell at present is Chief of Farm Demonstration Work in the north central states.

Harry Britton, for some unaccountable reason came to his Veterinary class on time Friday morning.

Prof. Van Es in Veterinary: There is nothing worse for an abscess than a darned needle with seven aunts at the end of it.

Because of the mild weather companies A and B drilled outside all last week.

Lieut. Herron has been confined to his bed for the last week, due to a severe attack of bronchial rheumatism.

# NOTICE!

Fund, loans from which are made each year to the college men who represent the Agricultural College at the large conference of college and university men who assemble each June at Lake Geneva, Wisconsin, under the Auspices of the International College Y. M. C. A. Committee. The A. C. has always had a good representation there, but this year special efforts are being made to have a larger number than ever before made up of the strongest men in college. These games should not only draw every one to them on account of the good fun it will be to see the faculty men playing and to see the special humorous features of the evenings, but also because the thing which the games are promoting, as a benefit, is of so much value to the whole college. Let every A. C. man plan to be out. A great many men will, of course, come alone, or at least with other fellows, but special reserved seats are being arranged for those who are contemplating bringing the ladies.

### NOTICE

ALL COLLEGE STUDENTS who wish to enter the NINETEENTH ANNUAL COLLEGE DECLAMATORY CONTEST to be held Feb. 6, 1914, will kindly hand their names to Mr. A. G. Arvold, Room O, Main Building before January 26, 1914.

Lucile Morris has taken Miss Ruff's place as pianist in the college orchestra.

### COMING

On February 17, 18 and 19 the Christian Association is planning on having a man from New York, Mr. Arthur Rugh, who for seven years was one of the leading student Y. M. C. A. secretaries in China, here at the A. C. for a series of addresses to the men of the student body. Mr. Rugh's work in China was chiefly among the men of the larger colleges and universities. He was liked there specially well, and it is with much pleasure that the local Association announces that he is coming to the A. C. The committee in charge of preparations for Mr. Rugh's meetings ask all the men students, and the organization also as far as possible to hold these dates open.

Prof. Randlett  
(Who has charge of Corn Show)

were all given another rapid ride (this time in a four-wheeled vehicle) to the village across the Red, where they were persuaded by his honor to donate generously to the coffers of the Moorhead city treasury. They all walked home and are still walking.

### ATHENIANS LAY PLANS FOR ROUSING YEAR

A "Roll Call" in which all members of the society responded to their name, with a New Year's resolution, marked the opening of the term for the Athenians last Friday night. Other interesting numbers prepared for the evening's program were as follows:

A woman's chances for success in a city—Edith Shelton.

The call of the city—Clarence Williams.

Recitation—Katherine Jensen.

A country girl's glimpse of the city—Olivia Wild.

The high cost of living in the city—Emil Morstad.

Current events—Harold Rasmusson.

Locals—Mr. Nichols.

Music—Harry Britton.

### NOTICE

All College Students who wish to enter THE NINETEENTH ANNUAL ORATORICAL CONTEST to be held Feb. 27, 1914 will kindly hand their names to Mr. A. G. Arvold, Room O, Main Building, before Feb. 10, 1914.

## CERES HALL

Mrs. J. V. Brainard entertained at a dinner party at Pires, Thursday evening. The Misses Olive Bailey, Thelma Sears, Audrey Farley and her daughter Marlon composed the party.

Miss Nora Girinson dined at the Waldorf Friday evening with her brother. Mr. Girinson was here attending the Auto Show and meeting of the Shriners.

Miss Maude Hample has been on the sick list this week.

Alma Soliah's brother from Hatton spend Friday with her, returning home on Saturday.

Misses Lucile Morris and Winifred Pope dined with Prof. and Mrs. Pope Tuesday evening.

Miss Anna Huber attended school again this week after an absence of a week due to sickness.

Miss Alberta Sloan, a former resident of Ceres Hall was married to Mr. Joseph Sullivan, Thursday.

Misses Audrey Farley, Thelma Sears and Marion Brainard held a private luncheon at Pires Wednesday evening.

Y. W. C. A. will be lead by Miss Guernsey, Tuesday

Miss Fanny Morris, Student Sec. from Minneapolis Field Office will visit the College Association between the 23 and 24 of January.

Audrey Farley received a box this week, for particulars see Farley. The \_\_\_\_\_ has proved fatal.

Misses Lucy Sprague and Elsie Stark spent Saturday and Sunday with Miss Seneca Pederson of Moorhead.

Misses Boletia Frojen and Edith Shelton attended a party Wednesday evening given by Miss Mildred Wheeler for the Kansas City Delegates. A delightful time was reported.

Miss Flossie Harmon of Mandan while enroute to Canada Thursday spent the time between trains with Elsie Stark.

Wallace Maniskowkee of Mooreton spent Tuesday with his sister Cecil.

Theresa Howland spent Saturday and Sunday in Jamestown as the guest of Miss Lucile Peake.

Y. W. C. A. will have a Candy Booth at the Electrical Show from 21 through 24 of January.

Miss Olive Wild attended a dance given by the D. B. College at the Knights of Columbus hall Friday evening.

Miss Gladys Plath spent Sunday with Mrs. Leonhard of Oak Grove.

The State Educational Com. dined at Ceres Hall Wednesday at 12:30, with Pres Worst. The out of town members present were Pres. McVey of U. of N. D.; Pres. Hilyer of Mayville Science; Pres. Smith of Wahpeton Science; N. C. McDonald, Head of Rural Schools of N. D. and W. C. Taylor, State Superintendent of Schools. A three course dinner was served. The tables were decorated with pink and white carnations.

Don't forget the Y. W. C. A. Candy Booth at the Electrical Show.

Miss Winifred Pope has changed her residence. She is now staying with her brother, Prof. Pope on 10th St.

Miss Thelma Sears entertained the six members of the S. S. S. S. Club Girls of Ceres and their escorts at her home in Moorhead, Friday evening. The chief feature of the evening was that each one present was required to perform a characteristic of themselves. A dainty three course lunch was served at a late hour. The guests all departed after having spent a delightful evening.

Mrs. Gilbert ate her first meal in the dining room Sunday since her absence due to sickness. It looked very nice to see her about again.

## PHILOS ELECT FOR THE COMING YEAR

At a recent business meeting of the Philomathian Literary Society held for the purpose of electing officers for the coming term, the following were the favored members:

President, Clarence Wolsted.  
Vice President, Ward Porter.  
Secretary, George Gustafson.  
Sergeant-at-arms, Dave Sonquist.

Mr. S \_\_\_\_\_ was retained as the official s \_\_\_\_\_ lix collector, and Fred Lowe \_\_\_\_\_ oosen as member at large o \_\_\_\_\_ committee of programs.

## Try This Outfit On Your Own Farm

If it doesn't do the work, it's our outfit, not yours. We sell Avery Tractors and Plows on approval.

We don't want any man to keep on farming with horses or mules because he doubts Tractor Farming.

So we offer to prove Tractor Farming with Avery Outfits—on your own farm.

We can make this proposition safely because we have behind us the experience of thousands of farmers who are today making big successes with Avery Outfits.

# AVERY "ONE-MAN" OUTFITS

"Light-Weight" Tractors and "Self-Lift" Plows

One Avery owner writes—"I bought the tractor so my boys could farm the new way as I expect there will be as much change in a few years as there was from the old reapers to the binders."

He's absolutely right. Tractor power is cheaper than horse or mule power. Tractor Farming also means bigger crops.

You can run an Avery Outfit all alone. The Avery plow is "Self-Lift." Pull a cord at the end of the furrow. Power from the plow wheel raises or lowers the plow. Avery Tractors are the lightest-weight Tractors considering their draw bar pull. They don't waste fuel or power. They don't pack the ground to injure crops. The simplest tractors built.

Five sizes—8-16 to 40-50 H. P. They fit any size farm—large, medium or small.

Learn About Tractor Farming and the Avery Sold on Approval Plan

Our new book "Tractor Farming" tells why and how to farm with tractor power. Our 1914 Tractor and Plow Catalog explains Avery Trial Plan, Low Prices, Strong Guarantees and Avery Construction. Write, telling how many acres you farm and how many horses you use and get both books FREE. Address

**Dr. Bell Speak Next Sunday**

SUBJECT ONE OF INTEREST TO ALL STUDENTS

On next Sunday afternoon the Y. M. C. A. is planning to have one of the best things it has had the opportunity to offer for many weeks. At the regular meeting time, two-thirty in the afternoon Dr. W. B. Bell of the Zoology department will address the men on the subject of The Modern Conception of Evolution to Religion.

While it is true that there are far fewer men today worrying about the relations of these matters than in former student generations, it is very important nevertheless to hear from one who is qualified to speak just how these great lines of truth do arrange themselves about one another.

It hardly needs to be said that Dr. Bell will plan on presenting this matter so that the average man in college in any of the courses will be able to grasp the trend of the thought. Let us think of this not as a highly technical address which no one save biologists could understand. But, let every man who would know something of truth from both the scientific and religious standpoints come and hear Dr. Bell Sunday afternoon.

**DOG SHOW DOWN TOWN**

One of the big attractions held down town this week is the coming Dog and Kennel show. This is the fifth annual show and will be held in the Wheelock Garage.

The show this year will be the largest in the history of the association and there will be many famous dogs on exhibit that have won places in some of the largest shows of the country. Among these entries there will be a string of prize winning Airedales from Chicago and also a number of Boston terriers from the twin cities. Winnipeg has an exhibit of fifty dogs that they are sending down and among these are many champions of different breeds. Mr. Fletcher the well known dog fancier of Winnipeg will be on hand with his string of rare foreign dogs. He also has a rare specimen of the canine species known as the Timber Wolf Collie, which animal is the only one of the species in America. There are many lovers of dogs among the Agricultural college students as is shown by the number of pets that stroll into different class rooms and this show will give all of the students a good chance to see some of the best dogs in the country.

The band boys are working hard preparing a suitable program for the electrical show.

**PREPARE FOR THE CHICKENS**

Prof. O. M. Dynes, assistant secretary, and a small army of assistants were busy today receiving consignments of pure blood "biddies" and their consorts which will be on dress parade in the Gaar-Scott building on Front street, around the corner east of Broadway.

The 1914 feather styles at the annual exhibition of the North Dakota State Poultry association, when the aristocratic wearers were presented for admiration yesterday morning, and show very little variation from

Professor Dynes  
(In charge of Poultry Show)

the styles prominent in 1913, but white is the prevailing color. There is almost every other hue, prominently displayed, but white is the color. Most every variety of hen has adopted it, but Plymouth Rocks, Leghorns, Orpingtons and a few others are its principal exponents.

Secretary Canniff, who judged the exhibits at the Kindred show yesterday, says a splendid display was there, one that had many attractive features about it, and one of which the promoters have every reason to be proud. The Kindred exhibit will be sent to the Fargo show and will arrive at the show rooms this evening and there will also be a big exhibit of blue ribboners from the recent shows at Valley City and LaMoure. E. G. Roberts of Fort Atkinson, Wis., and his assistant will begin the scoring of the birds tomorrow at noon.

**SPECIAL NOTICE TO SHORT COURSE MEN**

Beginning about a week ago the Y. M. C. A. has put on a special Bible Class for all men taking the short courses. The weekly meeting of these men occurs on Sunday mornings at nine o'clock in the Little Country Theatre in the Main building. A large number enrolled on the first Sunday and many new men were out at the second meeting. These sessions will continue through February, and the part of March that the majority of the men are yet here.

**MISS BARDEN NEW LIBRARIAN**

Bertha R. Barden, who has taken the place as assistant librarian, recently vacated by the resignation of Miss Griffin, comes to this institution from St. Paul, where she gained much practical experience as an assistant in the public library at that place.

Miss Barden's training is in line with her chosen vocation, and after graduating from Vassar College in 1905; and the following year securing her masters degree from this place, she attended the Western Reserve Library School, at Cleveland, Ohio, graduating there in 1907.

Following her completion of this course she was elected assistant librarian and instructor at that school—a position which she held until last September, when she secured the position in the public library in St. Paul. Resigning the latter at the beginning of the year, and taking up her present duties with us. We welcome her here to our institution and wish her an abundance of success in her work.

**NOTICE**

All Students Registered in THE FARM HUSBANDRY, POWER MACHINERY, HOMEMAKERS OR SPECIAL COURSES who wish to enter THE FIFTH ANNUAL SHORT COURSE DECLAMATORY CONTEST to be held Feb. 13, 1914 will kindly hand their names to Mr. A. G. Arvold, Room O, Main Building, before Feb. 1, 1914.

We are especially anxious to have the

**MALE GLEE CLUB ORGANIZED**

Rehearsals Being Held — Officers Elected.

A forward step that promises an added interest to musical outlook at the A. C., was taken by the young men of the college during the last week. The need of a Male Glee Club has been long felt and finally crystallized in the present organization. Over 40 men tried out and 22 fulfilled the requirements. These men met in the Music Hall on Thursday afternoon adopting a constitution and elected the following officers: George Knutson, President. Milton Wilson, Vice President. Fred Gram, secretary and treasurer. Harold Bachman, Manager. D. E. Sonquist was appointed director. Alfred Matters, Accompanist.

The membership of the club is limited to 24 men, or six men on a part. Try-outs for those desiring them will be held from 1:00 to 1:30 daily in the Music Hall. Men better qualified than any of the present number will secure the position. A waiting list will be fed so that in any case a member finds it impossible to attend, the first man on the above list will take his place. The first rehearsal was held on Saturday afternoon with 18 members reporting. The result was exceedingly satisfactory and much can be accomplished by faithful attend-

ance at rehearsals. Tuesday evening from 7:00 to 8:15 and Saturday afternoon from 4:30 to 5:45, have been set by the club for regular rehearsals. Fines have been imposed for tardiness and absence without sufficient excuse.

**New Members for Band**

This years short course has drawn valuable men for the First Band. Mr. Johnson from Kulm, N. D. is holding down one of the first cornet chairs. Mr. Johnson has had experience in other bands and makes valuable addition to our cornet section.

Mr. Wamberg a piccolo player is also a Short Course man who will probably come back next year and register for a long course. Bob Pearson who played in the band four years ago is again in the ranks.

Harry Lawson from Morton, N. D. has been enrolled into the clarinet section.

Percy Evans, snare drum, has been promoted from the second band to the first.

The Short Course girls are showing an unusual amount of interest along musical lines this term. They are at the present time taking piano and vocal work under Miss Grasse

The Misses Elenor Kindred and Mertle Johnson were taken into the Treble Clef Club last week.

**Alumni Notes**

Edited by Roy Dynes.

Charles Hammond.

**ALUMNI SPEAKERS AT GRAIN GROWERS CONVENTION**

Charles Hammond '13 will attend the Grain Growers Convention Jan. 23-25. He will deliver an address before the convention on "Agriculture in Secondary Schools." Mr. Hammond is head of the agricultural department of the new Minot Normal school which is a recent addition to the educational facilities of Minot.

Mae Hooper

Mae Hooper '13 will also appear on the corps of speakers at the convention. She will deliver an address on "Home Economics in Secondary Schools." Miss Hooper is instructor in Home Economics at the Valley City High School. She has been very popular in public speaking circles while a student and is a forceful speaker.

He claims that the scenery in that section is the best in the world due to the fact that the mountains are in the immediate vicinity and that his favorite pastime is that of picking winter jessamines.

Eugenia Ruff '13 who has just completed her course at the end of the fall term left for her home in Chicago before the holidays. Miss Ruff will remain at her home the remainder of the year. It is rumored that the wiles of cupid are exerting an influence on Miss Ruff although we have no authority as yet for this statement.

Fern Dynes '12 came in from Casselton Friday evening to spend Sunday with her parents on 13th street north.

That our alumni are in demand and are being scattered into various parts of the United States, is evidenced by the fact that they extend to the sunny clime of North Carolina.

Clarence Waldron

Clarence Waldron '12 left for North Carolina in August. According to recent reports Clarence seems to have become adapted to the climatic peculiarities of the south and may eventually be transformed into a real southerner. His aversion for these people has undergone a gradual change due to the fact that he has found it poor policy to engage in a second civil war. Clarence is engaged in the Department of Agriculture at Raleigh, North Carolina. His work in the department is plant breeding and seed analysis, where he is engaged in special work on corn, cotton and wheat.

### MILITARY DEPARTMENT

Edited by Henry Brown

Major Anderson is one of the busiest men around the campus nowadays due to the illness of Lieutenant Herron.

Due to the beautiful weather that has been bestowed upon us this winter, the Cadets of the College had a chance to do all their drilling outside and they are fast rounding into shape and it is the opinion of those in charge that the inspection drill next spring had ought to be the best drill that has ever been put on at any inspection since the beginning of the college.

That Lieutenant Herron's office was a busy one last week needs no comments as Dr. Nichols had about fifteen in there all the time taking the physical examinations that have been made possible for the students by a recent faculty action.

It is no wonder that Maj. G. A. M. Anderson has been kept humping lately as he has three companies, a signal and hospital corp, an awkward squad, crack squad and his dramatic and social work to do to say nothing of the work required by all students at the college.

Under Corporal Sands the signal corps has been fast rounding into shape learning the codes which are used in military work. The codes that are being learned are the International, the Morse, Wig Wag and Semaphore codes.

The hospital corp has also been progressing rapidly under the direction of O'Rourke and Campbell, both men of whom are members of the hospital corp of the North Dakota National Guard and hold the position of sergeants.

At present there are about 340 men engaged in the military department work at the N. D. A. C.

Maj. G. A. M. Anderson announced last Friday that there would be no drill for any of the companies this week but that the awkward squad would be required to show up for all drills.

The officers of all the of the battalions and the non-commissioned officers of Co. A sent some beautiful potted plants to Lieutenant Herron on last Saturday to enlighten his room during his sickness.

Miss Grasse's private pupils are preparing for a recital which will be staged in the Little Country Theatre about the first of March.

About one half of the college orchestra played for the Russian Honymoon Thursday night and the other half Friday night.

### Panatorium for Students

PRESSING AND CLEANING ESTABLISHMENT STARTED UP ON A. C. CORNER.

Another industry has been added to the many already established on the corner opposite the college gate, in the form of a cleaning and pressing establishment which is to be run by Lee McConnell, a college student. Mr. McConnell has had quite a bit of experience in this line and will be located in the little building just back of Huset's Confectionery store on 12th avenue.

There has long been a need for such an establishment here at the college, and Lee McConnell has been the first student to discover this fact. Look up his ad in another part of this issue and see what he promises you there. He states that he will guarantee satisfaction and will be on hand ready for customers from 12:30 to 1:15 each day at noon, and from 4:30 to 6:00 o'clock each afternoon of the school days, and also all day Saturday.

DEVERE JENSEN Smoking!

Dick Bjornson the next culprit to be tried.

### CONGESTION IN SCIENCE HALL

Pure Seed Men Having Troubles of Their Own.

Owing to the rush incident to the Pure Seed Show, Professors Bolley and Bjornson have had to place the exhibits in all the available as well as unavailable spaces of noble old Science Hall. The halls are heaped high with bags of golden grain, and one has to dance the sword dance in order to get from place to place. The stenographers perch themselves on a stack of sacks while Prof. Bolley from below hollers up his orders through a megaphone. The office help climbs in through the window when they go to work, and Mercer has been lost in among the piles of grain for three days, although the searching parties have high hopes. The only one who can navigate in the office is Christianson, for he is thin enough to crawl between the sacks, and long enough to jump from the chandelier to the transom. The zoological department is in constant fear of the ceiling crashing through, while Prof. Reynolds has decided to hire a hall. It sure looks like a prosperous year for North Dakota farmers.

### Cadet Band To Appear

WILL PLAY EACH EVENING AT ELECTRICAL SHOW

The Cadet Band will make its first public appearance under the new Director Harold Bachman at the Electrical Show which is to be held this week. The band has been at work since the first of the term preparing a number of selections to be used at these programs as it is planned to have a number of different selections for each evening. The band has gone into the work this term with a great deal of vigor and "Pep" and they are turning out first class marches and several fine concert numbers. They have not given up the idea of the trip to California and they are also working hard in order to be in shape for their trip through our neighboring state, next spring.

The Sophomore class planned on entertaining the Freshies Friday night but the faculty, for some reason or other, denied them the privilege of using the armory.

There will be no drills this week because of the armory being used for the Electrical show.
