Campaign for Boy's Dormitory Progressing Committee to Get Out Circular--Plan of Campaign

The Boy's Dormitory Committee in charge of the Bushel of Wheat campaign are planning on taking the farmers of the state by storm this winter and are preparing a circular which it is planned to get into the hand of nearly every farmer of the state. The progress made since the beginning of the campaign has been rather encouraging and a large number of subscriptions have been received. Many of the prominent men of the state are heartily in favor of the plan and the newspapers of the state are all behind it and boosting. The circular as it will be run is printed in full as follows.

BUSHEL-OF-WHEAT DORMITORY

What does this mean? Simply, Mr. Farmer, that the boys in attendance at the Agricultural College have no dormitory where they can live under the oversight of the college authorities. They are compelled to find boarding places in town, many of them not such as you would sanction. This isn't pleasant, neither is it always safe for young fellows away from home. The boys, therefore, are giving you the opportunity of donating the price of one bushel of wheat (\$1.00) toward building a boy's dormitory at the Agricultural College so that farmers can send their sons here and know that they will be both comfortable and safe. That's what the Bushel-of-Wheat Dormitory means. Will you assist to the extent of one bushel of wheat, in building it?

Such a dormitory will last for fifty years and make a comfortable home, in the aggregate, for thousands of boys during that period. One bushel of wheat from each farmer will build it. Will you be one? If so, please fill out the blank below.

Donations are Coming: Some farmers have already donated as much as 50 bushels; others 25 and so on down to one.

There are easily 200 farmers who could give 25 bushels, 1000 who could give 10 bushels and 5000 who could give 5 bushels with not one who could not give at least one bushel—and scarcely feel the sacrifice.

The boys attending college believe the farmers of the state will take this much interest in them and in the college. Every dollar will be accounted for. Mr. S. S. Lyon, cashier of the Merchants National Bank, has been designated as treasurer of this fund.

It is Your College: The Agricultural

College is distinctively the farmers' school. It is your college. Its mission is to aid agriculture, the mechanic arts, household economy, and such other vocations as are directly related to rural life. The idea is to train boys and girls for the farm and other rural pursuits; to make country living more profitable, desirable and attractive. The boys attending the Agricultural college are preparing themselves to help you bring about better social and economic conditions for the farmers of the state.

Private Colleges: Nearly all the private colleges—and they are many—are built, equipped, and supported by private donations. Why? Because those interested in the education such schools offer consider it worth while. Why shouldn't the farmers of this great commonwealth think their Agricultural College more than worth while? Why not, like the other colleges just mentioned, unite in making this greatly needed improvement, which can be had at an expense to each farmer of the price of one bushel of wheat?

The State Should Build it: Some say the state should build a dormitory for the boys. That is true, but the state has not built one. Twenty-two years have passed with no near prospect of a boys' dormitory. For this reason the boys ask you, Mr. Farmer, personally, to give them this trifling aid. If you build it, it will stand as your monument.

In Conclusion: In conclusion we wish it distinctly understood that this is to be a purely voluntary donation on your part. You are asked to give the price of one bushel of wheat because you want to; because you take that much interest in the comfort and moral welfare of the boys; because you would rather the boys enjoyed living in a comfortable dormitory than to have one more bushel of wheat in your granary.

If this proposition meets with your favor please hand your donation to some member of the Farmers' Institute Corps right now.

Respectfully and Hopefully
The Boys' Dormitory Committee
Agricultural College, N. D.

Bushel-of-Wheat Pledge

I will give (one or more) bushels of wheat for the Boys' Dormitory.

BASKETBALL NEXT.

Basketball Material Looks Promising Many of Last Years Squad Back---New Men to Fill Vacancies

The close of the football season marked the passing of the mole-skin clad husky. The heroes of the gridiron are being gradually forgotten as the students turn their attention to the next red letter date on the athletic calendar, namely, the first basketball game. From now on until the middle of March, the scantily attired artists of the sleeveless jersey, will hold the center of the stage.

While looking over the available material we find our spirits soaring heavenward. Heading the list we find Bolsinger, captain of the team, "Bolly" needs no introduction to the old students, he plays at guard and is held in high respect by opposing forwards. Blix, also a member of last year's team, will be on hand to put in a bid for the other guard position, while Armstrong, also a member of last year's team, will be out at guard assuring us that these positions will be well filled.

For the forward jobs we will have

"TEAM" TO CASSETON

Over next week end a number of A. C. men appointed by the Community Service Chairman, Mr. David Sonquist, are to be in Casselton where they are giving stimulation there to a boys Forward Movement. This movement is designed to organize the boys in the local high school into a group which will work for the upbuilding of a stronger moral life, better amusements, and a wider stronger development of athletics for all boys in the town.

A local committee in Casselton of which Mr. Wm. Kettel, president of the First National Bank, is chairman is co-operating in making arrangements there.

The men who will go from A. C. are George Gustafson, Dave Sonquist, Theodore Stoa, Dean Mendenhall, Alfred Matters, Ward Porter, Clarence Williams, Earl Yerrington, Wm. Mendenhall and the secretary.

SORORITY INITIATES.

The Chi Gamma Psi Sorority held their initiation Saturday evening at Mrs. Whitman's, North Broadway. The Misses Bertha Camp, Bertha Gunderson and Louise Fitzgerald were taken in. A three course dinner was served. The house was beautifully decorated in the autumn colors. Miss Elsie Stark assisted Amy Whitman as hostess.

John Fenno has registered for the Commercial course.

McKee and Darrow from last year's squad, and if scholarship difficulties are overcome Gulbrandson will be seen at the pivot job again. Among the new men Ross Jensen, captain-elect of S. D. State for 1914, Billings from Lisbon High, O'Dell of football fame, Berner and Slingsby from Fargo High, DeVere Jensen from Souix Falls, S. D. and Wilcox, last years captain of the U. N. D. team, are the ones who have declared their intentions to try out, undoubtedly too, there will be a large number besides the ones mentioned who will put in a bid for a berth on the squad.

Coach Wood has not yet issued his call for candidates, but he will probably do so in a day or two. He is not the kind to let any grass grow under his feet and he fully realizes the advantages of an early start. The schedule is not quite completed as yet, but will be published in the Spectrum as soon as it is completely arranged.

PROF. RICHARDS TAKES LEAVE

As has been previously mentioned in these columns, Prof. Richards, whose health has been falling for some time, has found it necessary to retire from active work until he can recuperate. He has asked for a years leave of absence, which the board has granted him, and which took effect last Saturday.

Prof. Richards has no definite plans for the year to come, other than to remain indefinitely in this city, retired from active service.

Prof. Thompson will take complete charge of the work in the Animal Husbandry department during his absence, and will be assisted by Amos Ewen, who at present is connected with the demonstration farm work.

N. D. A. C. WELL REPRESENTED.

The North Dakota Agricultural College and Experiment Station was very well represented at the Annual Meeting of the American Association of Agricultural Colleges and Experiment Stations which was held in Washington, D. C., last week. Our President Worst was one of the speakers on the program and delivered an address before the meeting on rural life. Profs. Ladd, Keene, Waldron, and Randlett represented the college and station.

ANNOUNCEMENT

An illustrated lecture by Dr. Stearns of Fargo college, will be the feature of next Sunday's Y. M. Meeting, at 2:30 in the armory.

Honors Divided at Literary Society Festival

Philos Win First Prize for Play---Athenians Win in Yells

Last Friday evening in the college armory occurred the Third Annual Literary Society Festival. Fully four hundred people were present to enjoy the plays and hear the songs and yells and partake of the prizes which the winners received.

Miss Katherine Ladd of the Pythian Society won the first place of the contest for the best individual acting and received a box of bitter sweets as a prize.

The Philos sang themselves to first place with the play entitled "An Opera." For this honor they received a huge bunch of bananas which was soon disposed of by the many Philos present. The Castilians won first place for the high school societies with the play "A Business Meeting." They received a box of apples. The Athenians won out in the yell contest and were presented with a boiled ham.

The cast of characters in the Philo play was to large to make complete mention of but the men in the audience lost their hearts when the "girls" in the kimonos appeared upon the scene. Dave Sonquist was in his glory as he was able to give vent to his pent up feelings in motion. Fred Gram proved a most charming heroine seemingly willing enough to die in Dave's arms and let the flames devour them together. George Knutson made the hit of the evening when he came in in his pajamas to inform the panic stricken singers that they would have to fly.

Katherine Ladd deserves special mention for the wonderful acting of the part of the "Aunt" whom she was impersonating in the play entitled "Our Aunt from California." Her actions were good, she was composed at all times and her voice carried to all parts of the armory. The change in her manner from the part of a vivacious college girl to that of a modest tho stern maiden aunt was very well accomplished.

"A Business Meeting" was as enthusiastically received by the audience as any play of the evening and the young ladies deserve great credit for the play which was worked out well and which contained no hitches from the start to the finish. The score between the Hesperians and the Castilians was very close. It is hard to say which indicates regards individual acting, as to regards to individual acting, altho Miss Herzer and Miss Radcliffe might be mentioned.

In the song and yell contest the

Athenians took the audience by surprise when they presented a five minute opereta, in which Miss Eugenia Ruff, Miss Ruth Nelson, Carl and Earl Yerrington appeared as real grand opera stars. The little opereta was overflowing with rich Irish and Dutch humor and beautiful harmony.

In presenting a scene from the "Rivals," Ernie Bailey, Dean Brown and Carl Lolland representing the Hesperian Society showed remarkable dramatic ability. Ernie Bailey as Sir Anthony played a difficult part in a very effective manner.

This is the first year that the Pythian Society has entered into the contest and they did not enter in vain as Miss Katherine Ladd carried off the individual honors. Their play was a very well selected play for a girls segregated organization and the way in which it was presented spoke well of the ability possessed by the members of the society. Each member of the cast had her part well in mind and carried it out well.

"Sunset" was the name of the play presented by the Athenian Literary Society. Love and self sacrifice were the outstanding motives which made the play hold the attention of the audience as it did. The acting of the entire cast was above par and Miss Mildred Wheeler displayed some of the best individual acting shown during the evening.

As Lois, an elder sister who sacrificed her love for the happiness of her younger sister, Miss Wheeler successfully accomplished a difficult role. William Guy as Ezariah Stodd an awkward farmer youth furnished the humor for the scene. Miss Lucille Morris the vivacious younger sister just returned home from Paris, Mr. Dill Clemens, the handsome lover, Ray Lawrence and Mable Ewen as father and aunt supported the leading characters in a creditable manner.

The two high school societies did not enter into the song and yell contest. The Pythian Society presented their Pythian song in a very novel manner. Dressed in clown suits of the Pythian colors purple and white they danced their way onto the stage and into the hearts of the audience and exclamations might have been heard here and there "Isn't Kitty Cute." After the presentation of their song the girls per-

(Continued on page four.)

Engineers Make Extensive Plans for Show

Third Annual Electrical and Industrial Show---Jan. 21--24

Preliminary plans are already under way for the 3rd Annual Electrical and Industrial show which will be held at the Agricultural college armory on January 21, 22, 23, 24.

W. E. Emery has been elected general manager and an executive committee consisting of G. T. Olen, R. T. Jacobson, I. S. Nelson who will act with Mr. Emery in planning the details of the big show.

The plans this year have been greatly changed from last year, giving more room for exhibits and a more attractive showing.

A large number of outside concerns have expressed their willingness to put on exhibits with a man in charge. This guarantees the public the best of consideration along an educational line.

The show is held as an educational feature only. Put on by the students who do all the planning and placing of exhibits, it takes considerable time to develop such a show. In 1912 the first show was held in

the Engineering building for only one night. Even tho the weather was at its worst the show was a great success. Last year it was necessary at its worst the show was a army because of the room needed. Even then all of the floor space was used. This year a more compact place has been arranged and a larger number of exhibits with a better arrangement will be insured.

Electrical companies from Minneapolis, Chicago, St. Louis and New York have already made arrangements for floor space for personal exhibits of educational value.

The industrial end of the show has not been overlooked. This has been greatly enlarged from last year. The monorail car will be on exhibition demonstrating the mysterious qualities of the gyroscope. This will be the first and only exhibition of its kind in the northwest.

A thousand interesting features will be shown with plenty of music and free for all.

The First Annual Inter Class Cross Country Run and Punting Contest

The first annual Cross Country Run will be pulled off on Friday, November 21st at 4 p. m. The course is about two miles and a half long. The start will be in front of the Main building, southeast through the college gateway then north for half a mile. The course then swings west almost a mile to the big slough when it turns south-east along the edge of the slough past the mound on the rifle range and then through the gardens, keep close to the outside hedge next the slough all the way. The road then turns east bringing up in front of the Main building. Red guide stakes are placed at each turn the runners must keep to the right of the stakes. Every foot of the course follows a hard road.

Entry Rules and Regulations

1. Any regularly classified student of the college is entitled to enter. The first runner at the finish will receive a prize of a loving cup donated by Professor Dynes, President of the Athletic Board.

2. The following classes or groups of students may enter teams; 1st, Seniors; 2nd, Juniors; 3rd Soph-

omores; 4th, Freshmen; 5th, High School; 6th, Farm Husbandry; 7th, Power Machinery.

3. A team must consist of at least five men. No limit is placed on the number of men from any class. The first five men to finish count in the scoring. Each man is ranked in the order of his finishing and the team having the smallest number of points wins.

4. The Athletic Board has offered a medal to each member of the winning team and a banner to the class.

5. Each class or group must elect or appoint a class manager who shall be responsible for selecting his team. The names of every man competing must be handed in to coach Wood before Thursday, November 20th at 4:00 p. m. The class managers must present a written list of their teams at this time with the endorsement of the registrar as to proper classification.

During the period from about 1897 to 1904 it was the habit of the boys at the Agricultural college to hold a kicking contest, or rather, a punt and drop kicking contest for

(Continued on page two.)

"DOC"

It is indeed with regret that we come to face the fact that Dr. Putnam is to leave us. "Doc" who has become such a fundamental part of our Cadet Band, Orchestra and all things musical at the college. For ten years he has been here at the college developing the raw material from the second band into the first and then has gone forth with his Cadet Band and won a great reputation for our college all over the state.

"Doc" always got along so well with the fellows in the band, and there was hardly ever a time that he would call upon them that they would not respond in a body and appear at what ever function he asked them to.

For his sake we are glad he has received this opportunity and most sincerely hope that it will prove all that he hopes for, but nevertheless it seems hard, after having come to know him the way we do, to see him preparing to leave us.

GOOD BOOST

The successful production of Walker Whiteside in "The Typhoon" that was presented here at the college last Tuesday evening has done much to warm the hearts of the townspeople towards the students of the college and also towards the college itself. It brought many people into our armory and to our school that had never been there before, it proved to many that we have a school and a student body that is striving for the best in everything.

The Edwin Booth Dramatic Club and Prof. Arvold are certainly to be congratulated upon their success and for what they have accomplished for the college.

CROSS COUNTRY

Get busy fellows and line up for this cross country run and punting contest. You all have a chance. There will be five individual prizes awarded so get in the running.

No more stumbling about in the dark on the campus walks. The posts have been put in position wired and painted in a weeks time and in another week the little lights will shine.

Hello Bill! Some morning eh? This and many others were the cheery expressions that were heard the other morning after the little snowfall. Strange what a congenial feeling a nice little snow storm at this time of the year puts into a young person. It was certainly noticeable twice last week.

CROSS COUNTRY RUN AND PUNTING CONTEST

(Continued from page one.)

distance. For this purpose Professor Bolley, had made a solid gold medal costing, approximately, twenty dollars which was awarded from contest to contest to the man holding the highest record in distance covered on an eligible punt or drop kick. This medal was placed into the contest at each time and thus it was held by a number of different students.

For some reason or other these contests proved very valuable inas-

much as they helped to develop one of two of the best drop kickers and punt managers which the institution has ever had, namely, Messrs. James McQuigan, L. B. Green, M. H. Fallis, and others. An editor of the Spectrum called upon Professor Bolley to ascertain by whom this medal is now held, but was unable to get definite information. Professor Bolley has now forgotten to whom the medal was last awarded.

As Coach Wood is now contemplating putting a kicking and forward passing contest into operation again, anyone who happens to know to who has charge of the punt and drop kick medal mentioned would confer a favor by giving that information to Professor Bolley who will try to get the present holder to put the medal back into open contest again. No doubt the present holder would be glad to do this in order to again develop the spirit of long distance and proficient kicking and handling of the ball. Perhaps the most successful of our drop kick manipulators was Mr. L. B. Green, who spent a great deal of time practicing for these contests. When Mr. Green was in the game, the enemy's goal was always in danger if he was any place inside of the forty yard line. Let us, before another year, develop some high class passing and kicking.

This contest will be held on the Football field, Thursday afternoon, at 4 o'clock.

Walker Whiteside Pleases Large Audience

PRESENTATION OF THE TY-PHOON WAS A BIG SUCCESS.

NEARLY ONE THOUSAND PEOPLE WITNESSED THE PERFORMANCE.

Over 900 people, representing theatre goers from practically the whole state of North Dakota, witnessed the presentation of The Typhoon in the college armory last Tuesday evening. Walker Whiteside scored a big success in the role of Tokeram, a Japanese diplomat in Berlin, and he was forced to respond to a number of curtain calls after each act. Florence Fisher, who had the leading feminine role in the play shared almost equally in the praises of the audience. Hubert Wilke who played the part of the German artist also merited much commendation. The acting of the entire company was almost perfect and the scenery was gorgeous. The Edwin Booth Dramatic Club have received many congratulations on their first presentation of a great actor here and the people of Fargo and vicinity will anxiously await their next presentation.

Tokeramo was representative of the whole Japanese race. The play showed how Japan sends its brightest men out into the world to gather knowledge and make the wisdom of the world hers so that she may in time become the ruling empire of the world. Tokeramo pictured the nature of the Japanese perfectly and no one left the audience not feeling a greater interest in our little neighbors in the Orient than he ever had before.

After the performance, Walker Whiteside was introduced to every member of the Edwin Booth Dramatic Club. He said that he felt it a great honor to be an honorary member of that club and that he enjoyed his visit in Fargo and at the Agricultural college very much. Following this reception on the stage the great actor and his leading lady, Miss Florence Fisher, paid a visit to the model Little Country Theatre in the Main building. They expressed themselves as being very much pleased with the plan, and said that this little theatre would be of a great benefit to the people of North Dakota, and that they felt happy in being able to help along such enterprises. Walker Whiteside will send his enlarged photograph to the Edwin Booth Dramatic Club to be hung up in the Little Country Theatre.

A sum of \$100 was realized by the Dramatic Club on the production of the Typhoon and this money will be used in buying seats for the Little Country Theatre, which is being entirely remodeled. The members of the Edwin Booth Dramatic Club feel especially grateful to C. P.

Walker for his kind assistance as it was largely through his instrumentality that they were able to secure Walker Whiteside for Fargo.

The story of the production of The Typhoon in the Agricultural college armory and of the Little Country Theatre will be written in New York, Chicago and Boston papers, besides numerous papers throughout the state of North Dakota.

It is hoped that other great actors will soon appear at the Agricultural college under the auspices of the Edwin Booth Dramatic Club.

CERES HALL

Misses Edna Steedman and Mary Thompson former students of this institution spent the week end renewing old acquaintances.

The Recognition Service of Y. W. C. A. will be held in the "Gym" Tuesday evening at half past six.

Mrs. W. G. Howland of Staples Minn. spent Wednesday and Thursday with her daughter Theresa.

Miss Thelma Sears of Moorhead will be the guest of Marion Brainard and Olive Bailey for two weeks at the hall.

Miss Gladys Plath spent the week end with her parents at Davenport. Misses Marion Brainard and Audrey Farley spent Sunday at Dilworth.

Misses Liela and Ruth Nelson received a surprise box from home Thursday, which resulted in a feed. The chosen few enjoyed it.

Miss Lucy Sprague returned Sunday. Miss Sprague is to assist Mrs. Rindlaub in the Art Department.

Misses Boletia Frojen, Eulalia Blanco, Lena Honett, Mable Leet, Lucy Sprague and Elsie Stark dined at the Annex Sunday evening at half past six. A four course dinner was greatly enjoyed by the young ladies.

Mrs. Goodman of Dawson spent Thursday and Friday with her daughter Jennie.

Mr. R. Sorenson called Thursday upon his daughter Hildur while upon his way to Webster from Minneapolis.

PROFESSOR SHEPPARD

IN TEXAS

STUDIED SOILS OF LOWER RIO GRANDE RIVER

The following is a clipping from The Brownsville Herald of Brownsville, Texas:

The soils of the Lower Rio Grande Valley and the soils of the Red river of the North so far as that stream affects North Dakota show a great similarity, according to J. H. Sheppard, dean of the faculty of the Agricultural college of North Dakota, at Fargo. Mr. Sheppard is in the Valley on a visit to his brother who once was a professor of psychology in the Drake university of Iowa, but is now a farmer of the Donna section.

Messrs. Sheppard, Mrs. J. H. Sheppard, and Miss J. L. Sheppard, who is in charge of the domestic science department of the University of Minnesota, comprised a party that went to Point Isabel on a short trip today, expecting to return tonight.

Professor has been greatly interested in what he has seen in the valley, especially so since he is connected with agricultural work in his far northern home. He has observed in the valley soil closely and states that he has found it of high quality.

The principal crops in his section are wheat, flax and barley.

A. C. ALUMNI IN WASHINGTON, D. C.

EIGHT A. C. GRADS WILL WORK ON AGRICULTURAL INVESTIGATION.

There will evidently be a lively time when a bunch of A. C. Alumni gather in Washington, D. C., to spend the winter months.

Although this gathering has been rather small in recent years there has been a gradual increase from year to year, due partly to the fact that some of the younger alumni have joined the ranks and have made their initial trips to the capital city and then there is an occasional addition to their ranks through the matrimonial bureau, so

North Dakota Agricultural College

THE COLLEGE DEPARTMENT OFFERS

Pharmaceutical Chemistry — Civil Engineering — Mechanical Engineering — Agriculture — Chemistry — General Science — Biology — Domestic Science — Education — Veterinary Science — Medicine and Surgery
These courses are available to those who have completed the equivalent of a High School training. For those who have not had such a training

THE AGRICULTURAL AND MANUAL TRAINING HIGH SCHOOL OFFERS

Complete Secondary Courses in — Agricultural — Commercial — Domestic Science — Mechanic Arts — General Science — Rural Teachers

SPECIAL COURSES

Farm Husbandry, Homemakers, Pharmacy, Commerce, Power Machinery; Special Courses are also offered

A COMPLETE COMMERCIAL COURSE

Is offered all students and its work is so arranged that it may be carried in connection with the regular work of other courses.

THIS COLLEGE offers to the young people of this state an education which is thoroughly in line with modern thought and demands. It spends no time on the dead languages or such subjects as are of little practical value. It aims to fit young men and women who can think and investigate for themselves; who can deal with social, agricultural and industrial problems of the day.

THE LABORATORIES are thoroughly equipped, and the instructors are specialists in their lines. Exceptional advantages are offered in chemistry, physics, botany, zoology, literature, mathematics, and engineering subjects.

Graduates from approved High Schools are admitted to Freshman Class. Tuition Free. Board and Room \$4.00 to \$5.00 per week.

WRITE TO THE REGISTRAR FOR CIRCULARS, CATALOG, AND ADMISSION BLANKS.—FALL TERM BEGAN SEPTEMBER 15.

at the present time the benedicts are equal in numbers to the single men.

There are eight men, Harold McKinstry, Rex Willard, Ray Towle, John Thysell, Allen Clark, Charley Clark, Ray Babcock, and Arthur Ogaard, who represent the various substations throughout the state, all of whom are working in connection with the bureau of plant industry during the winter months, but will return early in the spring.

Harold McKinstry '10, who has been located at the Hettinger station throughout the summer months will continue his work in the office of Dry Land Agriculture.

Rex Willard '08, who has been

doing station work in Texas will be connected with the office of Farm Management.

Ray Towle '11 of the Edgeley Station will work in the office of Dry Land Agriculture.

John Thysell '08 of Dickinson will also work in the office of Dry Land Agriculture as will Arthur Ogaard '13, who since his graduation has worked at the Williston station.

Allen Clark '10, of Dickinson, and Ray Babcock '08 of Williston, will work in the office of Cereal Investigation, whereas Charley Clark '08, will do special work on flax investigation in this office.

With this delegation from the A. C. in the capital city we feel that the college is certainly well represented.

LOCALS

Mrs. Vance visited her son during the week.

Bolsinger in Veterinary: It is perfectly possible that the perforans perforates the perforation made by the perforatus.

Rourke enjoyed a visit from his father last week.

Prof. Palmer gave a talk at the Industrial School Contest held at Forman on the 15th.

A slaughter house has been erected just north of the seed house and will be used by the farm department.

The last edition of the Extension contained a summary of the work done by the extension department during the last year. It tells of the aim and scope of the department. This issue also contains articles on the Farmers' Institute Monthly, the Industrial Contests, the Boys' and Girls' Institute, Child Culture and the North Dakota Country Life Conference to be held in December.

Company B, which consists of the farm husbandry and power machinery men, has grown so large that it has become impossible to drill the 150 or more men in the armory at one time. A division was made last Thursday so that half of the company will drill at 2:30 and the other half at 3:30 as usual.

Prof. Palmer attended the corn contest at Ashley on November 10, where he judged the agricultural products.

The botanical department has purchased a photo-micro-graphic apparatus from the Bausch and Lomb people, which is to be used in making chart drawings.

In the coming issue of the Extension will appear a series of articles for the assistance of school teachers and pupils. The Extension will be edited by Prof. Hollis hereafter and he aims to give as much space as possible to the writing of subjects which are of vital interest to the school teachers and pupils alike.

A new brooder house has been built just west of the present chicken houses.

Last Saturday night the Alpha Mu Fraternity initiated into their order, Dan Darrow, Joe Dwire and Gilbert Stafne. They were forced to cross the hot sands and pass thru the valley of shadows and grave doubts.

The board of trustees had a meeting last week and because of the growth of the college which has brought on the added use of water they deemed it advisable to appoint a committee to look into the advisability of a pumping station and

water system of our own here at the college. Not long ago the college found it necessary to install their own lighting system and this they put in connection with the heating plant. If the college continues to grow this way we will have a little city of our own out here.

The freshman class held a meeting during the past week and elected Mendenhall and Bjornson to put out the Freshman Issue of the Weekly Spectrum. A regular staff was elected to work with these two and they are planning on putting out their issue on December 2. Many of the upper classmen who have been thru the mill before them are waiting anxiously to see what they will produce.

Prof. Keene of the Engineering department is going into winter quarters and is having his office fixed over in preparation for the coming event. The front end of the hall on the second floor of the building is being partitioned off because of the increase in the work of the department and this new office will be given over to Prof. Mathews of the Architectural department.

A complete system of indirect lights has been installed in the library, resulting in a vast improvement over the old system. With the new lights the reading and stack rooms are evenly illuminated and there is no strain whatever on the eyes, either from facing the lights or in reading in the stack rooms. Now if they could only install a drinking fountain everything would be sublime.

After considerable delay in waiting for their building stone, the construction on the new dairy has again been resumed. The work is now progressing rapidly, and the structure is taking on some definite form—the first story already being completed.

Mr. Henis will deliver a paper on "Investigational Work in Farm Management in North Dakota," at the convention of representatives from the Agricultural colleges of the United States.

The Mockler boys' parents have moved to Fargo from Bismarck and will remain here during the school year.

Jessie Smith of Walhalla has entered the second year High school.

Mrs. Goodman of Dawson, N. D. is visiting her daughter Jennie.

Ada and Grace Allen of Walcotte, N. D. visited Miss Kaufman Thursday evening.

Dr. Dolt is bewailing the fact that after having gone to the expense of securing a seat in the bald-headed row at "The Typhoon," that the most beautiful lady got killed off in the second act.

Osteopathy

the best and only scientific means of adjusting all spinal derangements. OSTEOPATHY, the only sure cure for nervous afflictions. It goes direct to the cause and removes it. If you are suffering from all health it is possible you have a luxated vertebrae, a rigidity or slight curvature of the spine causing an impingement of some of the nerves where they lead out from the spine. The symptoms caused from such lead you to believe you have appendicitis, gall stones, kidney or other serious disease requiring an operation. Your case should not be neglected. OSTEOPATHY offers you a cure.

If sick go to the NATURAL SCIENCE SANITARIUM. What has been and is being done for others can be done for you. Hundreds of hopeless cases have been cured without drugs or the knife.

COLLEGE "Y" QUARTETTE PROVES POPULAR

HAVE FILLED NUMBER OF ENGAGEMENTS—OH! YOU SERENADERS.

No organization on the campus has been kept so busy for the last few weeks as the college "Y" Quartette. Daily rehearsals have already improved in them a unity that speaks well for future accomplishments. The Quartette have had enthusiastic receptions at every appearance.

The first regular appearance before the students was made at Convocation, October 27. The hearty applause showed the appreciation of the numbers received. On the following Friday, the quartet attempted the arrangement of James Witcomb Riley's "The Goblins' Git You" at the Faculty Hallowe'en Reception, with marked success.

On Thursday, November 6, they furnished the music at the banquet of the Wisconsin Alumni Association. The impromptu parodies on members present brought forth a great deal of merriment. The following morning the Quartette sang before the North Dakota Educational Association. This was without doubt the best appearance so far. The selection rendered was "The Heart Bowed Down" from the Bohemian Girl, after which they were forced to respond to two encores.

The Quartette appeared at the Thanksgiving Concert in the armory last Sunday and will be at the regular Sunday afternoon meetings in the future.

HIGH SCHOOL DECLAM FRIDAY NIGHT

The fifth annual Agricultural and Manual Training High School Declamatory Contest will take place in the Agricultural college armory Friday evening, November 21st. There will be six contestants and the interest taken in the event far surpasses that taken in any previous High School Public Speaking contest. The following will compete for the honors with the selection named. Grace Luttrell, "The Ride of Jennie McNeal." Mary Radcliffe, "The Boston Girl." Ruth Luttrell, "A Matter of Oranges." Carl Lolland, "The Common Laborer." Thomas Buxton, "How the Elephant Got His Trunk." Lenna Rutch, "A Soldier of France."

The program will begin at eight o'clock promptly. The high school should be encouraged by a large attendance.

COMMENT ON THE FOOTBALL SEASON

(By Professor H. L. Bolley)
Every one at the Agricultural College ought to be thoroughly well pleased with the way our football team conducted itself in the University contest. I think, from the spectator's viewpoint, nothing could be finer to observe than the fight they put up.

It may be well, however, to think a little bit on the point, "Why did we lose?" Probably every one who saw the game will have a different idea about the matter. A good team is likely to lose a game at any time. The writer thinks we lost the season's contest because of the poor schedule of games which preceded it. I am not saying this in criticism of the management, but feel confident that had our line had an opportunity to have two more weeks of football contest before they played the championship game, matters might have been wholly different, or even had they had the opportunity of playing in one or two hard games before they came into that contest.

It is only a suggestion, but the writer feels free to make it, namely, that if in the future we wish to be successful in the final games of the season, we must build a schedule each year which will give our team a thorough tryout before the final games, especially the line men. We will always have plenty of good, strong, muscular men to make a good line, but one year with another, there will be as there were this year, a number of men in that give them a very hard workout in perience while going through high school. When they come in contact with a line made up of players who have had three or four years high school experience previous to their university training, they will always be at a great disadvantage unless we give the ma very hard workout in the preliminary games so that they may gain real experience in combat.

It is the writer's belief that next year this schedule should be so arranged that, at least, two of the better Minnesota teams and, at least, one of the better South Dakota teams shall meet our team before the final games with Fargo College and the University are staged. These two games are the games in which the public and the two schools are particularly interested. Fargo, however, has always shown itself extremely willing to come out to a game between the Agricultural College and St. Thomas, and either Carleton or Hamline. Why, then, not do as we used to do in the early years of the institution, schedule games with these excellent college teams? Let us have at least two of them here on the grounds next year and every one will be surprised at the attendance which Fargo will furnish at the games. Let the University of North Dakota game close the season about November 15th to 20th. If the weather man wins, that is his business. Sometimes he gives bad weather in September and October. Let's quit the weather prophet business when making football schedules and see to it that the team gets a chance to play a few real games before it is called on for the crucial exhibition of the year.

formed a Jumping Jack Stunt that was very well received.
An original song was presented by the Philos, written by Max Waldron and David Sonquist. This contained some very clever allusions to their rival societies. Ward Porter sang the solo part of the song and was aided in the chorus by the entire society. Some novel yells were introduced into the song, under the leadership of Ted Stoa. The best yells of the evening issued from the lungs of the young men at the close of their stunt.
The Philomathian Orchestra composed of the Messers. Boyd, Lee, Liudahl, Matters, Anderson and Boyd furnished music during the entire evening. They also played the accompaniments for the Philomathian Opera and Song. The orchestra received many compliments upon their playing during the evening.

EDUCATIONAL LECTURE.

Dr. W. N. Stearns will give an address Tuesday, Nov. 18th, at 3:30 p. m., in the Physics lecture room. Subject: The Reading of Teachers.

Walter Baumgartel was suddenly called home last Friday, due to the serious illness of his mother.

Mrs. Myolsner visited her daughter Tillie Tuesday.

DAVENPORT WILL SPEAK HERE

NOTED AGRICULTURIST SECURED TO ADDRESS COMMENCEMENT.

Eugene Davenport, dean of the Agricultural department of the University of Illinois has been engaged to give the address at the Industrial Course Commencement on the 16th of next March. This announcement, which was made by the committee on commencement programs, will be gladly welcomed by all of our agricultural students and faculty, as well as by the Farm Husbandry and Industrial Course graduates. Prof. Davenport is well known in the field of agriculture, having held a number of important positions before, he took his present responsible position at the University of Illinois. He is a prominent contributor to various agricultural journals besides being the writer of a number of bulletins, both in Michigan and Illinois. He is also the author of a book, "Principles of Breeding," which is in quite general use as a text book in many agricultural colleges, including our own.

The committee on commencement programs is to be congratulated upon securing such a prominent man to address the Industrial Course graduates. It is expected that the members of our faculty from the University of Illinois will make elaborate arrangements to entertain Mr. Davenport during his visit in Fargo.

Raymond Powell was a Grand Grand Forks visitor Saturday and Sunday. He saw the Grand Forks and Park River football game.

Colley, Gulbrandson and Berner went to Minneapolis Friday night to see the Minnesota and Chicago football game.

The population of the seventh ward has been recently augmented by the arrival of healthy, howling hopefuls at the homes of professors Bell, Donaghue and Stevens.

HONORS DIVIDED AT LITERARY SOCIETY FESTIVAL
