Better Farming Ass'n and Experiment Station Combine

Thomas Cooper will Succeed Pres. Worst as Director

Merger Completed October 1st

At a meeting of the board of directors of the Better Farming association the board of trustees of the Agricultural college proposed a merger of the Better Farming association with the Extension Division of the North Dakota Experiment station.

The proposition was accepted by unanimous vote to take effect on Jan. 1. On that date the Better Farming association will become officially a part of the North Dakota Experiment station.

Thomas Cooper, former secretary of the Better Farming association, was elected director of the North Dakota Experiment station on Thursday, Oct. 16, by the board of trustees of the North Dakota Agricultural college and Experiment station. This election has come as a result of the merger of the Better Farming association and the Agricultural college and Experiment station, and marks a big step toward the perfection of the better farming movement in North Dakota.

"The board of trustees" said one of the members yesterday, "has been searching for a number of years for the proper man for this position and the Better Farming association discovered him, and for the past two years he has been acting as secretary of that association." Thomas Cooper will take up his duties as director of the Experiment station the first of the year. His duties will be to direct the operation of the local experiment station and all of the sub-stations and demonstration farms which are located over the state as well as to direct the actions of the county agents. He will also supervise all of the extension work of the institution.

On the same day President Worst tendered his resignation as Director of the North Dakota Government Experiment station. During the past eighteen years, President Worst has held the position of Director of the Experiment station as well as President of the Agricultural college, thus doing practically two men's work during all these years. The growth of the college and the merging of the Better Farming association with its station activities, made it necessary to divide the work. As a matter of fact, North Dakota is the only state in the union that required the President of the Agricultural college to be also Director of the Experiment station. President Worst had his resignation ready several years ago, but did not press the matter until the Board found a man satisfactory to fill the position.

A new division, as yet unnamed, will be organized for the purpose of continuing the work of the present extension division, the farmers' institutes, demonstration farms, and the Better Farming association.

This merger, which brings together the agricultural forces of the state into an effective and single organization, is deemed the most progressive and antagonistic movement in agriculture that has taken place in the state since the organization of the Better Farming association two years ago.

On this formation thus formed in the direction of the agricultural work will be affected and the courses

in the agricultural college will not be affected. The new work will continue to take the experiment station to the people of the state.

The present board of directors of the Better Farming association with additional representatives from the counties interested, will constitute an advisory board for extension work. It will be the duty of this board to meet quarterly, and advise and counsel with the board of trustees and the leader of extension work in regard to methods and plans.

Officers of the Better Farming association will become the officers of the advisory board. It is believed that this board, comprising representative citizens of the state, will materially assist in developing interest in progressive agriculture and enable both the experiment station and the extension division to render a greater service to the state.

This co-operative merger of the two agricultural forces in the state of North Dakota, following the co-operative agreement between the Better Farming association and the United States Department of Agriculture, as announced last spring, effectively combines the agricultural activities of the state.

All forces that have had to do with adult education away from the college will be joined together, forming practically one organization. The policy that will dominate the organization will not be announced until after the first of the year, but undoubtedly the dominant factor will be personal work with the farmers of the state to present to them the truths that have been developed at the Experiment station, the Sub-stations, and Demonstration farms.

The general purpose of the movement is to relate more closely the Experiment station, Sub-stations and the farmers.

In the Experiment station provision should be made to maintain and add to the present force of trained investigators until investigations are developed along all lines in which the farmer may require help.

North Dakota has accomplished two big feats in the past three years. It has to a very considerable degree solved the problem of adult education and proved it a very effective method. North Dakota is the leading state in the Union in this field of adult agricultural education. It has at the present time a greater number of field Agriculturalists than any other state.

It also succeeded in effectively joining this class of work with the investigational phase of agricultural development, so that we have the closest possible relationship between the experimenter and the farmer. It is predicted that in the near future several states will follow the lead of North Dakota in combining their Better Farming associations and their Experiment stations.

It is not at all probable that there will be any change in the methods of work that have been developed either by the Better Farming association or the Experiment station. It may be expected, however, that considerable additional work will be developed.

Mr. Cooper's offices, as well as the offices of the local field workers will be located at the college. It is not known as yet just what building they will be in.

FRANK STOCKDALE AT GRAND SUNDAY NIGHT

Those who heard Mr. Frank Stockdale at the Grand last year, in his illustrated lecture "The Dawn of Plenty" will be pleased to know they may again have the opportunity of hearing him.

Mr. Stockdale will appear at the Grand next Sunday night, and will speak on "The Builders." It is a story of business and no doubt will be looked forward to by those who before have had the privilege of hearing Mr. Stockdale.

The lecture begins at 8 o'clock sharp, and the Grand orchestra will furnish music for the occasion.

STUDENTS VISIT AMENIA

SENIOR AGGIES ENTERTAINED BY AMENIA & SHARON LAND CO.

The first of the trips planned by the class in Farm Management was taken Saturday when twelve students, accompanied by Professor Donegheue visited the offices and plant of the Amenia & Sharon Land Co. at Amenia. Arriving at Vance, two automobiles were in waiting to convey the bunch to Amenia, where they were cordially received by members of the firm and royally entertained the whole day. The purpose of the visit was to obtain first hand information regarding the management of the enormous holdings of the firm, aggregating forty thousand acres of fine agricultural land, and this aim was realized to a very large extent. The land owned by this company is divided up into average farms and leased to about ninety tenants. The officials of the company, one of whom, Mr. R. B. Reed, is an alumnus of this institution, were very kind and gave a great deal of information in regard to the rotations practiced on the individual farms, the system of leases and manner of settlement with the tenant, and the history of the development of the system, as well as some of the hopes and plans for the future.

Professor and students were the guests of the firm at dinner at the Amenia hotel, and after dinner automobiles transferred the delegation to the well-known stock farm owned by Mr. W. W. Brown, where another profitable hour was spent viewing the splendid horses, cattle, and hogs which are the pride of Mr. Brown. Following this some time was spent motoring through the country surrounding Amenia, and finally the entire group was taken to Casseton, where a Northern Pacific train was boarded for home.

RALLY A SUCCESS

STUDENTS GIVE TEAM A SEND OFF TO SIOUX FALLS.

Last Wednesday was held one of the most enthusiastic Rallies that we have had in years, and the results were among the best as the next morning there were fully one hundred students down to the Great Northern depot at 7:30 to see the team off for Sioux Falls. A large number of the girls were there and with the spirit that was shown we feel sure that we are to make a great showing next Saturday when we play Fargo College. If the students will turn out that way to see the team off on a trip they will turn out to the man for a game like that with the Hill school.

Don't forget to meet the band down at N. P. avenue, for from there we are going to march to the Stadium where seats will be saved for us. Be sure and watch the bulletin boards this week for announcements of rallies as we hear great rumblings up at the Hill school in the line of rallies and yell fests, and we want to be able to meet them half way.

SIX MONTHS MEN IN ANNUAL "STAG"

Entering into the spirit of the evergreen program, the new students were treated to a jolly good time, last Friday night, when the Y. M. C. entertained in their annual "stag" for short course men.

Party of stunts, always entertaining, and a general "mixer" was the order of the evening. The association quartet sang a number of selections, and a number of songs and cells were given by the men. Refreshments were served at ten, after which the crowd broke up, the new men going to their rooms, many of their lonesome feelings forgotten, and with a deeper and bigger feeling for their new environments.

AGGIES LOSE HARD GAME

TEAM REPORTS FINE TREATMENT—MET ON RETURN BY MANY STUDENTS

The Agricultural College football team went down to defeat Saturday in Sioux Falls, South Dakota, in a hard game against a heavier team from Brookings, S. D., by a score of 7 to 6. The team returned to Fargo Friday evening and were met at the Great Northern depot by a large crowd of students and supporters who cheered the boys heartily as they got off the train.

The A. C. team arrived in Sioux Falls Thursday night and had two practices the next day. They were met at the train by automobiles and treatment accorded them during their entire stay was most courteous. The members of the team remarked that they have seldom been entertained as well on a trip of this kind.

The day of the game was perfect, as far as weather conditions went, and a large crowd witnessed the contest. The field, however, was quite rough, making the footing insecure. A summary of the game follows:

South Dakota kicked off to the A. C. twenty yard line and Ostby returned twenty yards. The A. C. made the first two downs and then lost the ball on downs, giving S. D. the ball on their twenty yard line. Their punt was blocked on their twenty yard line. Jensen attempted a drop kick but missed. The ball was put in play on the S. D. twenty-five yard line. S. D. made their first and second downs and attempted a drop kick and the ball went over. S. D. held the A. C. and the ball again went over on downs. S. D. tried a forward pass, Bushy to Chappell, which netted them their touchdown. Stevers kicked goal. For the balance of the first quarter the A. C. kept the ball in S. D. territory and the quarter ended with the ball in the A. C.'s possession on S. D.'s 45 yard line.

S. I. held the A. C. at the beginning of the second quarter for no gains and Abbott punted out of danger. The A. C. got the ball on downs and a forward pass from Balsinger to Caulkins scored a touchdown. Caulkins failed to kick goal. The first half ended with the ball in A. C. hands on her own 45 yard line. Score A. C. 6; S. D. 7.

In the second half Barcus went in for Berner, going in at full-back, and Odell went to half-back. The A. C. kicked to S. D. S. D. punted out of danger. A. C. got the ball and was held for downs. During most of the third quarter S. D. had the ball in A. C. territory, getting to our ten yard line at one time, but they could not gain from there. S. D. attempted two drop kicks during the quarter but both failed.

At the end of the quarter Perry went in for Colby at end. The A. C. got the ball on her twenty yard line and Abbott punted sixty yards. S. D. got the ball on her thirty yard line and Sheik punted out of danger. An unlucky fumble prevented the A. C. from making a touchdown at this

Aggies to Invade Stadium Saturday

Fargo College Stronger than Ever. Some "Dope" on Teams.

Aggies in good Shape--Personnel of Squad

Next Saturday afternoon we line up against our old enemies, Fargo college, who have this year the fastest team that has represented that institution for several years. A proof of this is that they beat the Wahpeton Science 19 to 0, while Wahpeton held us to a tie of 0-0. This is no reason however that the Aggies are to be defeated by Fargo college.

Following is the comparison of the squads from which the teams will be chosen for the game:

A. C.	F. C.
Vance 170	Rolf 170
Gulbrandsen 173	Ray 160
Kelly 170	Neilson 190
Edwards 165	Drummond 150
Mikkelsen 171	Colby 140
Gratias 182	Carpenter 168
Abbot 183	Aivasian 190
Parizek 144	Stickney 190
Ostby 152	Sim 180
Perry 146	Murray 164
Calkins 133	Rusch 138
Odell 163	Boyce 145
Bolsinger 160	Torson 170
Berner 155	Wenm 160
Barcus 157	Nelson 160
Morstad 156	Total 2475
Jensen 156	Average 165
Mendenhall 163	
Bjornson 178	
Total 3127	
Average 164.5	

A COMPARISON.

Both schools will send onto the field next Saturday teams composed of veterans, with no advantage on either side as to weight. Fargo college plays on their home grounds, while the Aggies play on a strange field. Any advantage on the teams will be that of personal experience, speed and superior knowledge of the game, possessed by the individuals. In regard to weight the teams are more evenly matched than ever before in the history of the two institutions.

THE DOPE.

The dope artist reports hard training in both camps. The coaches wend their weary way homeward of evenings wondering what the morrow will bring forth to aggravate them. The rooters lie awake nights dopping out the game and both teams have carried off the honors in the dreams of their admirers.

Every afternoon since the season opened the Aggies have been out on Daotah field hard at work against

the second squad. Their first game was with the Wahpeton Science school at Wahpeton two weeks ago, when they held the Science school to a tie game on their own field. The field at that time was half under water and the conditions were all but favorable for proper handling of the ball or for getting under way of the squad. Luck also seemed to be against the Aggies as they were badly bruised up and many had to be taken from the game. In that game the Aggies lacked team work and have been receiving extra drill along that line since then.

Saturday they lined up against the South Dakota State college of Brookings, and while the score was against them the game is in reality a credit to the squad. They were playing against the fastest team that South Dakota has had for a number of years and a team that was in a training camp two weeks before the school opened. The Aggies played a hard game and evidently showed some "pep" during the game.

The reports from the other camp are that Fargo college has been out with a big squad daily. Over there we find a number of former Moorhead and Fargo High school stars who have taken up their abode at the Hill school. Torson, who played left half in last Saturday's game proved to be the fastest man on the field, and succeeded in carrying the ball over the line for two touchdowns. At the other half we find Wenm, another Moorhead man, who proved to be the hardest line plunger in the game. Nelson also hails from Moorhead and filled the full-back position in fine style. At the quarter back job the college has two men, Boyce and Rusch. Rusch is a former Fargo High player and has had good coaching and plenty of experience in his line. Boyce alternated at quarter last season and is a splendid open field runner and field general. Murray and Captain Stickney both come from Fargo High school and have played two former seasons for F. C. Both of these men are line artists of note.

Fargo college has been victorious in both games that she has played this season and although these victories point towards her obtaining the long end of the score next Saturday we are certain that she will have to go some to "bag dat possum." "Nuff said."

Odell, Balsinger, and Caulkins in the back field, and of Abbott in the line. Kelly also played an exceptionally good game at center.

Coach Woods, Faculty Manager Haskins, and Student Manager Nelson, accompanied the team on the trip.

ATHENIAN LITERARY SOCIETY.
A very interesting and instructive program will be given by the Athenian Literary Society on the evening of October 24th. The program committee has endeavored to present in an entertaining manner some of the problems of rural sociology.

Brookings—Stevens, rg; Nelson, lg; Weber, rt; Joanson, lt; Chappell (Capt.), le; Hanson, re; Shehan, qb; Caldwell, lh; Bushy, rh; Peterson, fb.

Although no one on the A. C. team was badly injured, Brookings was forced to put in a number of substitutes whose names could not be secured.

It would be hard to pick out the stars on the A. C. team as every man played a good game. Special mention, however, might be made of

DEBATERS NOTICE!
The try outs for the Athenian team to represent the society in the joint debate will be held Friday afternoon at 4:35 p. m., October 24. Please remember the date and the hour.

THE WEEKLY SPECTRUM

FARGO COLLEGE GAME.

We are coming, Fargo College, all of one thousand strong. This is the way the students of the Agricultural college feel about the game next Saturday, when the Aggies will line up against their old rivals, the Hill school. As the plan is now the Band will be at the corner of N. P. avenue and Broadway, where they will play a concert before the game and then the students of the A. C. are to meet them there and together they will march in a body and take the Stadium by storm with the Band in the lead and colors flying like knights of old attacking an ancient city.

Now who's going to be there? The college management has reserved a special section in the Stadium for the Aggie rooters so there will be no need of going ahead of the bunch in order to get a seat. We will want every member of the student body to meet the Band at N. P. avenue and be in readiness to march to the Stadium.

The game is going to be a closer one this year than it has been for a number of years and in order that we may make every thing work towards a successful ending we will have to have the co-operation of the students with the team. In this way the students can at least do their share towards helping push the score our way.

Get out to the rallies. Be on hand to practice the snake dance. Bring a friend along when you come to the next rally and when you see the announcement of a rally tell your friends to come along. There will probably be two rallies this week and we want to make them snappy. We have got to win, and the glory of old A. C. is stake. What are you going to do to help win?

WHY NOT?

As long as the clocks, clock bells, profs' watches and the correct time are never known to anywhere near agree, why wouldn't it be a good stunt for Ole or Mr. Tibert to give the Power House whistle a short toot at the end of every class hour? Then the classes could dismiss at the same time and prevent a whole lot of tardiness and confusion which is ever existent when we depend upon the college clocks for our time.

PHILOS CHOOSE TEAM

The Philomathian Literary society held their try-outs for the Inter-Society Debating team, last Friday evening, and resulted in a very keen and close competition for places on the team. Messrs' George Dixon, Vernon Arnold and Ward Porter, however, were successful, and will represent their society in the debate with the Athenians in December.

Clarence Walter was chosen as alternate, and the "Philos" feel sure that with the men as their representatives will be well taken care of.

BOLLEY INSPECTS

CANADIAN WHEAT

STUDIES MARQUIS AND RED FIFE, SPOKE AT INDIAN HEAD AND WINNIPEG.

Professor Bolley spent the week from Oct. 9 to Oct. 15 in various portions of the Canadian wheat growing districts, studying the characteristics and cropping qualities of Marquis wheat and Red Fife wheat, which is most commonly grown in Canada. He reports that on account of the careful methods of selection which have been fostered by the Canadian Seed Growers' association, the Canadians have undoubtedly developed the quality of those two wheats to a high degree. The common red or Scotch fife is found quite commonly in rather pure form of exceedingly high quality. The Marquis wheat Professor Bolley believes to be only a very pure type of Red Fife. It is, however, a wheat, which, because of its pure selection to one strain has many qualities which are very desirable especially for the Northern wheat growing regions. According to all reports this wheat ripens in the neighborhood of Indian Head and Brandon from seven to nine days earlier than the average best strains of Red Fife. This is a matter of very considerable importance to the Canadians because it helps them escape frost in the fall. If the Marquis wheat holds up its qualities in North Dakota and maintains its plumpness of form and yielding qualities it will also be of material advantage to our farmers for the reason that a six or seven days' earlier harvest in North Dakota means six or seven days left for fall plowing. Professor Bolley believes, from careful examination of Marquis wheat, that it is not liable to maintain its qualities, which it now possesses, under general and careless agricultural conditions. Wherever it is subjected to harsh, hard treatment, to cropping on the same old wheat stubble lands, it shows the same signs of deterioration that appear in other Red Fife strains. The Canadians hold it up to its quality of plumpness by careful bare summer fallow wherein the ground is thoroughly purified and renovated by cultivation. They raise only two crops of wheat and then cultivate an entire season. Those two crops of wheat, however, appear to produce more grain of better quality than we are able to produce on similar types of ground when wheat is raised every year. If our farmers go to the trouble to buy Marquis wheat for seed, they should make up their minds not to let it get mixed with other varieties and the way to do that is to conduct a careful crop rotation whereby no other kinds of wheat immediately precedes the Marquis. Indeed it is very evident to all wheat growers that any one who intends to keep good quality of wheat on the farm must grow only one kind of wheat. It is not possible to keep them separate when four or five kinds of wheat are raised on the farm within four or five years.

Professor made this excursion to Canada because so many inquiries are coming in at present regarding Marquis wheat. He, therefore, thought it wise to become thoroughly conversant with Canadian conditions. While in Canada Professor Bolley was called on to give two addresses on wheat cropping. At Indian Head his topic was: "Reasons for Conducting Consistent Crop Rotation." At Winnipeg he gave an illustrated address upon "Soil and Seed Sanitation." This address was given under the auspices of the Canadian Coast to Coast Land & Apple Show. A very extensive contest in seed grain production, especially in wheat and oat classes was being conducted at the Land Show. A careful study was made of their method of handling this sort of show with a view of helping the North Dakota Improved Seed Growers' Association put on their annual contest.

Some of the upper class co-eds have been delving into such deep subjects as immigration, cost of living, etc., and thereby imagine themselves to be in a class with the most profound thinkers of the age. Most college girls' outside reading, however, seems to be still confined to the Cosmopolitan, Youths Companion, and Lillian Russell's Beauty age in the Sunday papers. (No offense meant girls.)

CERES HALL

Miss Helen Millar of Mead Normal school spent Sunday with the Misses Lena Honnet and Mable. Mr. R. Sorenson spent Saturday and Sunday with his daughter, Hildur.

George and Wallace Manlske and William Vauble spent Saturday with the Manikowske girls. They were on their way home from the Industrial exhibition at Bismarck.

The Y. W. C. A. meeting this week will take the form of a Grotto service.

A treat was tendered to the members of Ceres hall Thursday evening at 6 o'clock. A picnic supper was served in the basement and a good time was reported by those present.

Miss Seneca Pederson of Bismarck spent Wednesday with Miss Stark. Seneca came out to renew her acquaintance with old spots.

Mrs. C. R. Hutchinson of LaMere, one of the delegates to the State Federation of Women's Club of North Dakota, which met in Fargo the past week, spent Saturday with her daughter, Margaret, at Ceres hall.

Miss Dorothy Keene and Thora Sears spent Wednesday night with Olive Balley and Maria Brainerd.

Miss Fern Dynes took dinner with Agnes Peterson, Monday evening.

Miss Billie Frojen dined with Barbara Heidner, Sunday.

Mrs. A. P. Peck of Valley City and Mrs. Weinrebe of Minot, delegates to the State Federation meeting, dined with Mrs. Gilbert, Friday.

The Women's State Confederation meeting which met in Fargo last week gave their annual banquet in the dining room of Ceres hall. At 7:30 o'clock 300 women left the parlors, in which a reception had been held, for the dining room. The tables were decorated with the confederation's colors, green and white, which was carried out with white carnations and green ferns. A three-course banquet was served. Music was furnished by Pntnais College orchestra. After the banquet the ladies departed for the Armory to listen to an address by Mrs. Pennypacker.

Some young men from the Training table enjoyed themselves greatly in the parlors of Ceres hall. The singing was also enjoyed very much by some of the girls of the hall.

Many of the Homemakers arrived this week.

Miss Marion Cox dined with Miss Alice Haggart at the Gardner, Wednesday.

Some of the Y. W. C. A. girls went to Fargo college, Sunday, for "Recognition."

Mrs. Wetherbee of Fairmount, D., spent Monday with Marion Co. Miss Celia Monson of Harwood spent Friday with her sister, Hele.

Misses Lily Hofstrand and Hilma Halvorson grace the school camp again with their presence.

LOCALS

Mr. Critchfield is carrying on some very successful prosecutions around Bismarck for the Stallion Registration Board.

Royal Drummond has been unable to attend classes for two weeks due to a severe attack of inflammatory rheumatism.

Amos Ewen will begin taking soil samples on the Demonstration Farms in the western part of the state this week.

Dean Sheppard and wife leave today for Shariton, Iowa., his former home, to visit for a few days, after which they go to Tulsa, Okla., to attend the International Dry Farming Congress, to be held at that place. Following this they intend to go to Texas, where Mr. Sheppard has a brother, and there to visit for a while.

Pork Production Under North Dakota Conditions, by Professor Richards, is the subject of a new farmers' institute monthly which will be off the press, and available in a short time.

Professor Dynes judged grain and gave short talks at Centre and Stanton last Friday and Saturday.

Professor Martin has just returned from a trip to Bismarck, where he judged dairy products at the Industrial exposition. J. M. Heim of New Salem scored highest in creamery butter, scoring 94 per cent. This was the end of a six months' educational scoring contest held in this state. There were ten entries that scored over 90 per cent in creamery butter and the same number scored over 90 per cent in dairy butter.

Professor Donegheue took his Farm Management class to Amenia Saturday, where they made a study of the Chaffee farm.

Professor Dynes and Thos. Cooper have been judging county exhibits and also grain, at the N. D. Industrial exposition at Bismarck.

An extension bulletin giving the report of the work of that department has just gone to press.

Professor Palmer gave talks at the Industrial School contests held at Alexandria and Shafer, Friday and Saturday.

Albert Hinc, a former student and now of Montana, visited with Theo. Stoa, between trains Friday.

Gabriel Lundy returned last Wednesday after an absence of about a week and a half, due to a death in the family.

L. E. Walter, who has been employed for the past year and a half in the Chemical department here, has accepted a position as factory manager of the Finch & Johnson

Pain He will be stationed in the to branch.

Tilet band was considerably stretched this week by the arrival a number of Industrial couren who have had quite a littldjal experience.

Odnesday evening a number of y people enjoyed a campfire picnOak grove, the occasion for the location being the birthday of Westa Boswell. Those present the Misses Windrus, Rudd, Streswell and Irick, and Messrs. Collarson, Peters, Arvold and Bacl.

Tanagement of the Citizens Leccourse has put out some very attr cards announcing the cou These are invitations of slatand the announcement is prin white script on the black slatthe lecture course people are "uphe minute" in the matter of thevertising. Read the slates.

Sody please contribute anothandbook to R. Jenson. It savm purchasing stationery.

Hd Bachman certainly enjoyed the violinist at Orpheum last wee

tle drops of acid, le grains of zinc, ed in the laboratory, ke an awful—smell.

A year of repeated trials and fail, Professor Doryland has finallyllylated the culture necessary to puce a moustache. True, the gro is rather weak and downy at, but we sincerely hope that it wnot take long before the profess becomes the owner of a luxnt and germ-laden soup str which will be the envy of eveje German Kaiser.

I. Carl Yerrington, M. D., (Milly Debilitated), has revolutiond the scientific world by his stant that a normal solution is pried by dissolving one molecule of substance in a liter of water. Thmust be true, as he claims to haben making normal solutions in it manner for the last two yein the southeast corner of Scienhall basement.

ristianson got next to The LadHome Journal over at the lib, the other day and threw so m fits upon reading the jokes the has been unable to attend sol for two days. We suggest theither he or the aforesair period be kept out of the library.

d students as well as new are hag their troubles with the new dking-fountains. Nearly everyo has got a face-wash out of it.

isses Mable Leet and Mable Hnes entertained the Chi Gamma Psorority, Saturday afternoon at a ree-course luncheon.

Osteopathy
the best and only scientific means of adjusting all spinal derangements. OSTEOPATHY, the only sure cure for nervous affections. It goes direct to the cause and removes it. If you are suffering from all health it is possible you have a luxated vertebrae, a rigidity or slight curvature of the spine causing an impingement of some of the nerves where they lead out from the spine. The symptoms caused from such lead you to believe you have appendicitis, gall stones, kidney or other serious disease requiring an operation. Your case should not be neglected. OSTEOPATHY offers you a cure.
If sick go to the **NATURAL SCIENCE SANITARIUM.** What has been and is being done for others can be done for you. Hundreds of hopeless cases have been cured without drugs or the knife.
Write or call today.

YOU Are invited to Attend the Services at the Broadway Methodist Church, corner of Broadway and Seventh avenue north. Preaching 10:30 a. m. Sunday School at 12. Epworth League at 6:30 p. m. Preaching at 7:30 p. m.

Rev. W. J. Hutcheson, Pastor.

well. He is one of the heaven in the squad and will undoubtedly develop into a powerful lineman.

Billings hails from Lisbon, and is putting in a strong end job. He is fast and doubt prove to be a valuable.

Armstrong of last year's ball team, reported for practice week. "Army" has had a few experience and possesses both and weight which he uses to advantage.

Vance and Mendenhall have promoted from the scrubs, and working hard for line jobs.

Jensen and Hansen. Who hey? They are our "Scandibod" rubbers. No, not the Goodyear, but muscle doctors, in other words, trainers.

"Dutch" Schroeder is loud-menting the fact that his line is light. If Dutch would play the line himself he would boost the average about ten pounds to the. Cheer up Dutch, there are some men coming.

Morstad from Mayville is going for a back-field job. He is fast and a hard worker, so we expect to see more of him later.

Homme, who did some fast work on last year's second squad, is trying more speed than ever this year.

Bjornson, the big (Icelandic) there when it comes to holding opponents back. For this reason has been placed at guard, but yet no one has got thru his side of the line.

PRES. WORST NEXT SUNDAY

WILL SPEAK TO Y. M. C. A. N. IN COLLEGE ARMORY.

One of the most important Y. M. C. A. meetings of the College is to be held in the Armory on Oct. 26. The speaker for this meeting of next Sunday afternoon is President, Dr. J. H. Worst. The "Y" committee in charge is very fortunate in securing the President as this time, just before he makes his long trip East, and they are planning to have an especially attractive musical program to precede the address. This occasion affords an unusually good opportunity for the new men of the Farm Husband and Power Machinery courses to get to hear President Worst, a man who has done so much to make the State of North Dakota, and one who is led the Agricultural college to a position of high standing in the country. There is no man in the State who has a deeper hope at heart to see the men of this college stand the best in moral character and citizenship. Every A. C. man, irrespective of what course he is taking, should be glad to have the chance to come out on Sunday and hear the President. There is no man on the Campus that has our welfare more at heart, and no man to whom we could better show a well-earned recognition. Let the Armory be filled with men of A. C. The time is Sunday at 2:20.

STUDENTS IN VAUDEVILLE

A. C. STUDENTS TAKE PART IN PROGRAM DOWN TOWN.

A big feature of the High Class Vaudeville program to be given by Western School of Expression at the Sons of Norway hall next Thursday and Friday evenings will be the Wild Rice Symphony orchestra, which will be composed of students of the Agricultural college and their leader, Little Clarence Putnam.

A great deal of time has been put upon the preparation of this program and as a number of the parts have been written especially for the people that are to take them the program should be a highly interesting and entertaining one. There are eleven numbers on the program for the evening and a special rate is being made for students.

EDUCATIONAL LECTURE.

Miss Jensen will discuss RECENT DEVELOPMENTS IN THE EDUCATION OF WOMEN, Tuesday, Oct. 21 at 2:30 p. m., in the Physics Lecture room. Everyone invited.

FLETCHER HERE OCTOBER 24th

The first number of the Citizens Lecture Course will be held in the Armory, Wednesday evening, Oct. 22. Thomas Brooks Fletcher, who is probably the most popular Lyceum lecturer on the platform at the present time, will appear on that evening and the indications are that a capacity house will greet Mr. Fletcher on his first visit here.

People who are acquainted with the big names in the Lyceum and Chautauqua field need no second invitation to attend the Citizens Lecture Course when they find that Thomas Brooks Fletcher is to appear. His reputation has gone before him and he never fails to "make good" and live up to his reputation. A young orator, he fires his audiences with the spirit of his youth, and drives home his great truths in a way that they will never be forgotten. He is fearless in his dealing of the great issues of the day and his message is one that all should hear.

THOMAS BROOKS FLETCHER. Who speaks at the Agricultural College Armory, Wednesday Evening, Oct. 22, as the first number of the Citizens Lecture Course.

The Lecture Course Management reports that the sale of tickets has been very gratifying but there are a number of good seats left. Get your tickets at once so you can get the benefit of the entire six numbers.

Faculty Reception Pleasing Event

LARGE NUMBER OF STUDENTS ATTEND ANNUAL AFFAIR.

Last Saturday evening the faculty of the college held their regular reception for the students, in the college armory. Pres. and Mrs. Worst and the deans of the various departments, with their wives, headed the reception line, while 500 students became personally acquainted with their instructors. The large armory was very beautifully decorated in the college colors, Green and Yellow.

Dr. Putnam's eight-piece orchestra was surrounded on the stage by a very bountiful supply of ferns and green decorations, and furnished a number of pleasing selections during the evening.

The latter part of the evening was spent in dancing and refreshments were served. The young couples looked very pretty gliding in and out over the large floor. The evening proved a very entertaining one for those present and every one departed at a late hour feeling far better acquainted with their future class mates and instructors and much more at home in their new environment.

Get Your Trunks

DIRECT FROM THE FACTORY

We make our own. They are not made like store trunks. Our locks, catches and hinges are put on with rivets, not nails.

Canvas is Glued on, not pasted.

There are a great many other points in favor of our trunks that we can explain if you will come in.
