The Official Publication of the Student Council

VOL. XXI—NO. 3.

NORTH DAKOTA AGRICULTURAL COLLEGE, TUESDAY, OCTOBER 7, 1913.

FIVE CENTS A COPY

## COACH RUEBERS RECORD GOOD

### FORMER COACH OF AGGIES LEAVES FINE RECORD—REPORT OF GAMES.

Something that will be of interest to every member of the A. C. and the alumni will be a report on the athletic games played under Coach Rueber from 1909 to 1913. You all know that under Coach Rueber's administration as coach, everyone had the greatest confidence in his teams and in his coaching, and no one ever had the feeling that the A. C. was to be beaten when they met their next opponents. This same feeling is stronger than ever this year disregarding the fact that a new man has charge of the athletics.

In the state of North Dakota there are three teams from as many schools who are considered as the conference teams of North Dakota. These are the Fargo College, North Dakota University, and the Agricultural College. For the past four years the A. C. has won more athletic events against these two institutions than these two have won against the A. C. Following is a report or percentage table giving the number of games played with these two institutions and the per cent of games won and lost:

Football		Science Fargo	School College	U. N. D.
Won.....	3	2	0	
Lost.....	1	2	2	
A. C. won, 5; lost, 5; 50 per cent.				
Basket Ball		Science Fargo	School College	U. N. D.
Won.....	8	7	6	
Lost.....	0	1	2	
A. C. won 21; lost 3; 87 per cent.				
Baseball		Science Fargo	School College	U. N. D.
Won.....	7	3	6	
Lost.....	0	4	0	
A. C. won 16; lost 4; 75 per cent.				
Total		Science Fargo	School College	U. N. D.
Won.....	16	16	16	
Lost.....	4	4	4	
Tied.....	1	1	1	
Forfeited.....	1	1	1	
Average—76 per cent.				
Total in All Sports		Won	Lost	
Football.....	5	5		
Basket ball.....	21	3		
Base ball.....	16	4		
		42	12	

A. C. won 75 per cent.  
 Science School met 20 times; won 18; lost 1; forfeited 1; 92 per cent.  
 Fargo College met 19 times; won 12; lost 7; forfeited 0; 63 per cent.  
 U. N. D. met 18 times; won 12; lost 5; tied 1; 66 per cent.

### DRAAMATIC CLUB MEETS.

The Edwin Booth Dramatic Club held two very enthusiastic meetings during the past week and big plans are being made to put on some first class dramatic productions this year. Miss Gannon, who has been in Chicago for the past summer studying the drama, is very interested in the club and is doing all that she can to help them. Miss Katherine York is back and will take an active interest in the play.

The club adopted a new constitution and by-laws and spent considerable time at their meetings discussing plays. The following officers were elected: Reg Colley, President; Eugenia Ruff, Vice President; Genevieve Grover, Secretary; Will Arnold, Treasurer; Roy Drummond, Stage Manager; Adolph Anderson, Master of Properties.

The French engineer who started the building of the Panama Canal claims that it wasn't lack of skill that caused them to give up, but the lack of funds.

### GIRLS HAVE QUARTETTE.

Miss Edith Grasse, leader of music, has held the try outs for the high school quartette, and chose the following: Thelma Sears, Eulalia Blanco, Ferne Biscoe, and Dorothy Keene. They will make their public appearance the 12th of October, at the big musical entertainment which is to be held in the armory.

## PROF. LADD BACK FROM TRIP

### ATTENDED THE INTERNATIONAL CONGRESS OF COLD STORAGE—SPOKE AT "U" OF ILLINOIS.

Professor Ladd returned last week from an extended trip thru Illinois and Iowa where he visited many of the largest packing houses and Wholesale Grocery concerns of the United States. While visiting at the University of Illinois he had an opportunity to see the workings of that institution and also to have a good visit with Dr. Noyes. It was here that he spoke before the Chemical Seminary of the University which is made up of about 200 members. The members are the professors, instructors and advance students of the department.

Professor Ladd attended the International Congress of Cold Storage Products at Chicago and also visited the International Exhibition of Cold Storage Products. Several of the different establishments in Chicago that prepare foods which are sold in North Dakota were also visited and among these perhaps the most interesting was the Packing house of Libby, McNeal & Libby. Professor Ladd was permitted to visit any and all parts of this establishment and to inspect their products. He also visited Swift's Packing house and the Stock Yards.

Before returning to Fargo, Professor Ladd visited the Chicago Northwestern Medical College which is located in Chicago. All in all Mr. Ladd reports a very interesting trip and a later issue of the Spectrum will contain an article on his observations in the Libbey, McNeal & Libbey Packing house.

## SCIENCE GAME SATURDAY

Who said Wahpeton? Are you going? Saturday morning the team leaves for Wahpeton and it is up to the students to get busy and go along. Our team has only a few games this year and they need all the encouragement that we can give them to help make up for the hard work that they have to do.

It is reported that the Science School has a powerful team this year and our men are going to play them on their home grounds and what is more it is our first game this year. If our Aggies win this game they will have to hump their backs and play real football. For this reason then if for no other, they should have some of their comrades there to help cheer them on to victory.

This will be about the only chance that the students will have to accompany the team on a trip this year as the U. N. D. is to come down here. The only other trip the students can take is the one across the town when we play the Hill school.

The list of men who will go to Wahpeton on the team has not been made out as yet but Coach Wood will probably take about fifteen or sixteen men. If the band goes along that would mean thirty more. The fare is only about three dollars, round trip and meals, and the trip is made in one day. If a number of the students would get together and go down the A. C. could make quite a showing and no doubt "bag the game." Let's go!

## A. C. STUDENT HONORED

### EDITH SHELTON HAS STORY PUBLISHED IN LITERARY MAGAZINE.

In a recent issue of the Westland Educator we notice that Miss Edith Shelton, a student of the Agricultural College, is the author of one of the leading articles. The article is entitled, A Country Child in the City School, and gives the many trials and achievements of a country child seeking an education in a city school.

The article is accompanied by an editorial by Professor Weeks of the Department of Education and in this he says: "It seems to me to be a most human document. Reading between the lines one finds an argument for consolidation. The social nature of the country child should be recognized and the sensitiveness of intelligent country children should not be outraged by their being sent away to the village schools, when by the proper efforts, suitable school facilities might be established in every country community. To me this paper is of great significance."

### ALUMNI JOINS THE MATRIMONIAL RANKS

During the vacation month, just passed, another member of our worthy Alumni has wended his way across the narrow path, and joined the ranks of matrimony. The chief offender this time is Levi Thomas, a '09 graduate.

The pretty wedding took place Sept. 10th, and a clipping from one of the local papers details the ceremony somewhat in full:

The home of Mr. and Mrs. W. H. Mahans, 160 Ninth street south, was the scene of a very simple but pretty wedding Wednesday afternoon at 4 o'clock, when their niece, Miss Leona Gilchrist, was united in marriage to Mr. L. M. Thomas. Rev. John M. Walters read the impressive ring service in the presence of a few relatives and intimate friends.

Mrs. J. M. Walters played the wedding march from Lohengrin as the bridal couple, who were unattended, took their places under an artificial bower of green and white, arranged in one corner of the living room. The bride wore a gown of white crepe de chine and carried a bouquet of bride's roses.

After the ceremony a four-course wedding dinner was served, with covers laid for ten guests. The dining room was artistically decorated in pink and white, asters and sweet peas being used in abundance.

The bride, who has been prominent in church and social circles, is well known. The groom is an expert of the United States Agricultural department, and has been stationed in Fargo for some time.

Following the wedding ceremony, Mr. and Mrs. Thomas left for Ashland, Ore., the home of the groom's parents, and there to spend their honeymoon.

The Spectrum, at this time, joins in with their many friends, who wish them a long and happy married life.

### PHILOMATHIAN LITERARY SOCIETY.

The hustling Philo's had a very enthusiastic meeting on Friday night. The society has decided to incorporate into their vocabulary and life, the word 'pep', so prevalent on the Campus since Coach Wood's advent upon the grounds. Five new members were voted upon and accepted into the organization. The following five were the lucky individuals: Dixon, Knutsen, Porter, Lowe and Couey. The society limits its membership to 35. The old members together with the newly elected ones almost reach the limit, so all students desiring membership in this live organization should apply at once.

No damage was done to the Panama Canal by the slight earthquake which visited that zone last week.

## NEW MEMBERS FOR EXTENSION WORK

### PROFESSOR RANDLETT SECURES SERVICES OF PROMINENT PEOPLE FOR HIS DEPARTMENT.

Prof. A. P. Hollis, former Vice President of the Valley City Normal School has accepted a position with the Extension Department of our college and will come here Nov. 1st to take up his duties. Professor Hollis will have charge of the public school end of the Extension work and in this capacity he will visit the teachers' and directors' meetings of the state and there will organize clubs and push along the various movements of the Extension Department connected with the public schools. He will also do considerable press work along different educational lines.

For the past thirteen years Professor Hollis has been connected with the Valley City Normal School and has been concerned actively with the growth and development of that institution. He has always taken an active interest in the affairs of Valley City in so far as they pertained to things educational and has been an active booster of the Chautauqua which is located there. For these and various other reasons, Professor Hollis comes to our Extension Department very well prepared to carry out the work required of him.

Miss Julia O. Newton, formerly of the Ellendale Normal School faculty and previous to that for six years the principal of the Moorhead High School, has also accepted a position with our Extension Department. Miss Newton is a graduate of the Minnesota University and will have charge of the Extension Work in Household Affairs. Although at present a member of the Extension Department, Miss Newton has been granted a leave of absence for one year, during which time she will take up graduate study at Cornell "U" in New York. She will take up her active duties here next fall.

### CHESS CLUB TO BE FORMED.

Can you play chess? If so get busy and get in as a charter member of the Chess and Checker club which is to be formed in the near future. Chess is one of the greatest games of the present time and has been for a number of years a great game among thinkers and now we are to have such a club here at the A. C.

Waldemar Riecker of the Sophomore Class holds the title of State Champion of North Dakota in Chess and is one of the boosters for the organization of a Chess club here. Professor Reynolds is also interested and all those who desire any information in regard to the club may seek for information from either of these two persons mentioned.

### BUSHEL-OF-WHEAT.

The BUSHEL-OF-WHEAT proposition is attracting attention a long ways from the Agricultural College of North Dakota, and where different men over the United States have noticed the movement very favorable comment has been sent in and in many cases financial stimulus has accompanied these comments. This was true in the case of a letter received by President Worst the other day in which the price of a bushel of wheat was enclosed. This came from Southwestern California, the donor being Charles Cristadoro of Point Loma, Calif. He says: "You are doing a good work."

At the faculty meeting on last Friday night a provision was made for a somewhat restricted form of physical inspection, recommending the establishment of a committee that shall take charge of a series of physical examinations for each student. This committee is to be composed of the college physician, the director of athletics (Chairman) and the director of physical training for women.

## POLYTECHS TO BANQUET.

Tomorrow evening will occur the first meeting of the Polytechnic Club and will be in the form of a banquet at Ceres Hall. Professor Minard and Miss Stoner will be the main speakers of the evening.

## CADET INSPECTION SUCCESSFUL

### REPORT OF 1913 INSPECTION PRAISES CADETS—LIEUTENANT HERRON IS COMMENDED.

The report of the Inspection of the Cadets and Band held last spring and in sent in by W. H. Raymond, Captain in the General Staff of the United States Army, is a very favorable one, and is published in full below:

**General Remarks.**  
 I inspected 115 cadets organized as a battalion of two companies, field, staff, and band. Owing to the large fluctuations in attendance at this college, due to the seasonal demands upon the cadets in connection with farm work, the second company is practically non-existent at the season when these inspections take place, and the remaining company is larger than usual.

With but three company officers present, this large company was divided into two provisional companies for the purposes of battalion drills and parade. Despite this handicap the general appearance was excellent, the marching and manual very good, commands and execution of movements at battalion drill very good.

Inspection and review was followed by battalion drill, company close order and extended order drills, Butts' Manual to music by battalion, and battalion parade.

Uniforms were neat and well fitting, arms and equipments in excellent condition.

Knowledge of the rifle was very good.

There were a few mistakes at battalion drill that would in all probability not have occurred had the proper number of cadet officers been present.

Company close order drill was very good. Company extended order drill was good, though restricted to the simplest movements. The rifle drill to music was very good, and the battalion parade was very creditable.

Climatic conditions render fairly regular instruction in outdoor exercises very uncertain, and the long winters greatly curtail the total possible amount of it.

In view of the difficulties that have to be overcome in attaining any progress in military instruction under the conditions inherent with the climate and the occupational requirements on the time of so many of the students, the instructor is to be commended for the excellent results shown at this inspection, somewhat too limited in scope though they necessarily are.

Gallery and range practice have been regularly held, and considerable interest was developed in this work among the students. A number of excellent scores were seen on the original targets.

Office, records, and store-room were inspected and found in good order. The gallery range is not very well located, but there seems to be no remedy at this time for that condition.

W. H. RAYMOND  
 Captain General Staff,  
 Inspector.

Montana University claims to have the largest enrollment it has ever had in the history of the institution.

The South Dakota Aggies have about thirty signed up for the band already and expect some real music in a short time.

## HILL SCHOOL HAVE SPEEDY TEAM

### MANY OLD MEN ARE BACK FOR PLACES—STICKNEY MAY PLAY IN F. C. VS. A. C. GAME.

We notice that our friends over on the other side of the city are fast rounding into shape as the season progresses. Inspired by their new Stadium and also by the addition of an old head at the football game who is acting as assistant coach, namely R. P. Robinson, formerly of Fargo High School, the team is shaping up and considerable comment has been heard as to the style and ability of the men on the team. A number of the old men have returned and the new men who are out are plugging hard for positions. It is reported that Captain Stickney's arm is healing fast and he will probably be able to get into the game before they meet our Aggies.

Of last year's eleven, Jack Nielson is on hand huskier than ever, so they say, and Alvazian is showing up in better form than last year. Torson, Murray, Boise and Rolf are all back at their old positions and it is expected that they will be strong and aggressive players for the Hill School. Drummond is back and is working hard. Several of last year's Moorhead Normal stars are on the list of new men who have taken residence at Fargo College this year and of these Weum and Nelson are working hard for places. Billy Enoch, the former Fargo High star quarter-back, is out for that position, and it looks as if he was going to land "de possum."

All in all the prospects for a good scrappy game between the two schools is likely.

## PRESIDENT WORST

### TO LECTURE AT GRAND THEATRE, SUNDAY, OCT. 12.

The eighth season of Sunday Evening Free Lectures will begin Oct. 12 at the Grand Theatre in Fargo. These lectures are under the auspices of "The Grand" Free Lecture Association, and as in past years, no admission will be charged.

Pres. J. H. Worst will open the season, Sunday evening, Oct. 12, at 8 o'clock, with an address entitled Man's Struggle With Nature.

Other speakers that will appear in the course, and whose subjects will be announced from week to week in the columns of the Spectrum, are: Jeannette Rankin of Missoula, Mont.; Frank Stockdale of Chicago; Lincoln Steffens of New York City; Charlton Andrews, Valley City; Sidney A. Teller, Chicago; Arthur Le Sueur, Minot; S. F. Halfyard, Grand Forks; Chas. A. Eastman, Amherst, Mass.; Mrs. H. R. Nye, Moorhead; Jerome H. Raymond, Evanston, Ill.; Dr. Margaret Walker, Waterloo, Ia.

### FACULTY MEETING.

Formal approval was given to the course of lecture on Library Practice and Study Methods, as provided by the faculty last spring. There are to be six lectures on Library Practice and Six on Study Methods, and these lectures are to be required of all Freshmen without credit. Provision has been made for excusing certain students from certain of these lectures but such relief is to be by special action of the faculty.

Owing to the fact that the number of lectures on Study Methods has been reduced somewhat from those required in the original plan, these lectures will be given regularly on each Tuesday, but for the coming week, the lecture is to be on Thursday.

### NOTICE!

There will be a meeting of the Junior Class in Room M, main building, at one o'clock sharp tomorrow noon, Wednesday, Oct. 8th.

H. E. DIXON, Pres.

# THE WEEKLY SPECTRUM

Published every Tuesday of the school year by the students of the North Dakota Agricultural College, at the Ulsaker Printing Company, 515 Second Avenue North, Fargo, N. D.

HOMER E. DIXON '15..... Editor-in-Chief  
REUBEN M. LARSON '14..... Business Manager

**LOOK WITH OPEN EYES.**  
Don't forget the "DOPE" BOX which we have so conveniently placed for your especial benefit in the Main Building. All little contributions of real merit will be thankfully received.

Most institutions of learning have a legislative and executive body which is composed of students. It is the duty of this organization to enforce certain laws and rules which are of vital importance to the student body as a whole.

At the A. C. we have, acting in this capacity, a student council which is composed of 20 students of college rank, 8 of high school rank, and 3 from the special courses.

The object of this organization is to represent the entire school life as nearly as possible, and should have in view the idea of benefiting the entire student body rather than a few individuals or a certain organization.

There are certain responsible positions that are elective through this council, such as the Editor and Business Manager of the Spectrum, and other positions fully as important. But in order to secure the most able and efficient men for such responsible positions, those who possess the greatest ability should be considered in preference to the man who may be the most popular but does not possess the ability of leadership.

The student who has the proper initiative will make a success in practically any line of student activity, and this is the type the class should select for their representative to the Council. Select those who are most capable of working for the benefit of the class as a unit, those who will consider it their duty to find out the opinion of the majority of the class that they represent. If this is not done they frequently vote on a proposition in a way that the majority of the class will not approve of.

We realize that as the year progresses student politics will become more evident. Wouldn't it be a good suggestion that we forget all about our party affiliations and work, all together, for the benefit of the students as a whole. The one main accomplishment of an education is that it gives one a broad conception of human life, and so let us work for a broader and better student life and a bigger and better A. C.

Two weeks from next Saturday our Aggies are to meet the Fargo College team on their own field for the biggest and hardest game of the year. Our team is going onto that field to win and to do so they will have to train hard in advance, play hard and fast on the field and perhaps suffer injury, as a result of the contest. What are we going to do? Are we going to let our team go down there without any support. Will they have to fight through that long game without the students to lighten their labors by loud lusty cheers? Let's hope they will not. Let's be with our team this year and go down to the new Stadium prepared to do the very best kind of yelling. Let's practice up before hand. Let's each copy or cut out the yells from this issue of the

Weekly Spectrum. Let's learn them. Let's go to the next rally instead of loafing around doing nothing. Let's have our band out and with it in the lead march in a body to the college and like the knights of old, with our banners flying, take their Stadium by storm. In other words, "Let's go."

You will notice by this issue that we are to have a lecture course this year that will far surpass those of previous years, and we are very glad to notice the announcement made. A lecture course is a great thing for us, for our school and for the city of Fargo, as it brings to us some of the greatest talent of our country, that we would otherwise be unable to enjoy. It brings to us the men and women who have accomplished great things in this world and we are given a chance to see and appreciate their personality.

We read of great men, new inventions, wonderful singers, entertainers, politicians, poets, authors, and actors, and we wish that we could see or hear them. The lecture course brings them to us and fulfills our wish and in this way plays a distinct part in our education that we should appreciate. We are grateful to this lecture course in the past for bringing such personalities to our college as Judge Ben Lindsey, Maud Ballington Booth, Ople Reed, Benjamin Chapin, Edwin Vance Cooke and Senator Gore, and we are glad that this same lecture course has provided such a fine series of programs for our entertainment this year.

## BETTER SEED FOR NORTH DAKOTA

The last session of the legislature passed an amendment to the North Dakota Pure Seed Law which instructs the State Seed Commissioner to investigate the claims of all those parties who claim to be growing pedigree or improved seed for sale as seed for growing purposes. If such seed is found to be of high merit, such as to justify the claims of the grower and to reasonably meet the requirements of the Pure Seed Law, the State Seed Commissioner is instructed to publish a list of the names of all such growers, the variety of seed they are growing, and the amount produced. This list is to be printed on or before March 1st of each year. Our method of publishing this list will be to set up a list which will be available any time after the first of November for any parties who wish the same. The list will be sent to all parties inquiring regarding the purchase of seeds. This will help the grower get in touch with the seed houses and other parties wishing to buy seed of the character they are offering. It should be of great benefit to the state because it will put the growers of good seed and users of good seed in close co-operation, and thus largely tend to insure the use of good seed on the lands of the state and develop a market for good seeds, in this region so that those who take the trouble to grow them may have a fair remuneration.

I am writing this notice to call attention to all parties who think they have grown seed of high quality, which would meet the requirements of the Seed Law, and which are of pure type of strain, that is, consist of one variety of seed, that they should, at the earliest date possible, send a fair representative sample of this seed to the Pure Seed Laboratory. State how much they have for sale and the original origin of the seed. The Seed Laboratory will then be in position to further investigate the merits of the seed and prepare a proper listing.

All parties interested in selling improved or pedigree seed should send for application blanks for sealing and certification.

H. L. BOLLEY,  
Botanist and State Seed Commissioner, Agricultural College P. O., N. D.

## CERES HALL

Miss Stoner was at Lisbon, Oct. 2nd and 3rd, taking part in the program at the Corn Show.

The Senior girls in the Home Economics department met with the Civic Center committee, Saturday, Oct. 4th, to arrange classes in practice teaching and demonstration work.

Miss Jensen was to Tower City Saturday on extension work.

The Misses Seneca Pederson, Louise Lee, Lena Honett and Elsie Stark motored to Dilworth and Glyndon Saturday. A very pleasant trip was reported.

Walter Botsford was seen around Ceres hall the forepart of the week. I wonder why? Don't you?

The Student Government Organization of Ceres held a meeting Monday evening in the parlors for the purpose of electing the Vice President and Proctors. The election resulted in the following members being elected: Vice President, Elsie Stark; Proctors, Agnes Hutchinson, Sella Nelson; High School Representative, Mary Radcliffe; Freshman Representative, Louise Clayton.

Somebody at Ceres received a telegram Friday, but it did not prove serious as was discovered when George Else was found in Ceres parlor in the evening.

The Misses Mable Ewen, Ethel Wingert and Gail Nichols dined with Mary Frank Sunday.

George Else came in — ? last evening.

We have been wondering who made Alma so Happy and have decided it was someone "Else."

The Misses Henrietta O'Hara, and Bessie Binon were guests of Agnes Peterson and Irene Haugeberg, Sunday, at dinner.

The Misses Siela and Ruth Nelson spent Sunday on the South side, visiting Mrs. W. W. Keene.

Miss Elsie Fraase was on the sick list this week.

Miss Carolyn Plath was the guest of Eulalia Blauer, Friday evening.

The Misses Hallan and Hubert spent a delightful Sunday with Miss Wehrkamp.

Miss Anna McCrady of Hendrum, Minn., was the guest of Mrs. Gilbert Monday. She was on her way to the Valley City Normal, where she will resume her studies.

Mr. Norris of Beach visited with his daughter, Lucile, Wednesday and Thursday. His visit resulted in a Prairie Chicken Feed which was enjoyed by many of the girls.

Celia Monson returned home Monday from a visit with her sister, Helen.

Mr. D. Fraase was in the city Thursday, visiting with his daughter, Elsie.

Miss Ocella Hallan was very happy Friday owing to the arrival of Mr. M. Abeeggler of Sioux Falls, Minn. Miss Lillian Monson was the guest of her sister, Martha, Wednesday evening.

Miss Anna Buchstad spent the week end at her home in Finley.

Miss Howland spent the week end with her parents at Staples.

Mrs. Frederickson, the new Ceres Hall nurse, has arrived.

Miss Harriet Mather dined with Miss Clayton, Thursday.

Wallace Manikowski, Wm. Bergman and the Misses Harriet Bagg and Evelyn Schinenski motored from Moorhead and were the guests of the Manikowski girls Sunday.

Seven A. C. girls entertained at a luncheon at the Annex Saturday at 1 o'clock in honor of the Misses Agnes Webster, Alice Hillman of the Minnesota U, and Miss Best of the Moorhead Normal. The table which was decorated with Chrysanthemums and Autumn leaves was spread for fourteen. A four-course luncheon was served. The Misses Webster and Hillman took part in the play, "Back to the Farm," which was given at the Moorhead Normal the same evening, by the Agricultural Department of the University of Minnesota.

Eight Ceres Hall girls were the happy recipients of an invitation to a Birthday party given by Ruth Nelson and Eulalia Blanco in the dining room Friday evening. At the usual hour Mrs. Gilbert and Miss Carolyn Plath, guests of Miss Blanco, joined them and lead the way to the table, decorated with Autumn leaves and Carnations, and a Birthday cake with candles, how many — ? After the supper, the girls spent a few minutes in Miss Nelson's room and at 7:30 went to the Grand. The hostess received several beautiful remembrances.

## JUNIORS ELECT OFFICERS

The members of the Junior class got together in Room M last Friday and after settling the last year's business on hand proceeded to elect the following officers: Homer Dixon, president; Mable Leet, vice president; Guenhilde Gilbertson, secretary; and Urban Ebner, treasurer.

# North Dakota Agricultural College

For Completeness of Equipment and Facilities for Instruction is Unsurpassed in the North-West.

## THE COLLEGE DEPARTMENT OFFERS

Pharmaceutical Chemistry — Civil Engineering — Mechanical Engineering — Agriculture — Chemistry — General Science — Biology — Domestic Science — Education — Veterinary Science — Medicine and Surgery. These courses are available to those who have completed the equivalent of a High School training. For those who have not had such a training

## THE AGRICULTURAL AND MANUAL TRAINING HIGH SCHOOL OFFERS

Complete Secondary Courses in — Agricultural — Commercial — Domestic Science — Mechanic Arts — General Science — Rural Teachers

## SPECIAL COURSES

Farm Husbandry, Homemakers, Pharmacy, Commerce, Power Machinery; Special Courses are also offered A COMPLETE COMMERCIAL COURSE

Is offered all students and its work is so arranged that it may be carried in connection with the regular work of other courses.

THIS COLLEGE offers to the young people of this state an education which is thoroughly in line with modern thought and demands. It spends no time on the dead languages or such subjects as are of little practical value. It aims to fit young men and women who can think and investigate for themselves; who can deal with social, agricultural and industrial problems of the day.

THE LABORATORIES are thoroughly equipped, and the instructors are specialists in their lines. Exceptional advantages are offered in chemistry, physics, botany, zoology, literature, mathematics, and engineering subjects.

Graduates from approved High Schools are admitted to Freshman Class. Tuition Free. Board and Room \$4.00 to \$5.00 per week.

WRITE TO THE REGISTRAR FOR CIRCULARS, CATALOG, AND ADMISSION BLANKS.—FALL TERM BEGAN SEPTEMBER 15.

JANUARY 30, 1914—The Military Girls.  
FEBRUARY 18, 1914—Alton Packard.

**The White Way**

The College campus will be electric lighted throughout the year.

Seats on sale at Fout & Porterfield's Drug Store on and after October 15, 1913

**\$1.50--Season Course Tickets--\$1.50**

# CITIZENS LECTURE COURSE 1913-14

## THOMAS BROOKS FLETCHER

MOST POWERFUL DRAMATIC ORATOR ON AMERICAN PLATFORM—WILL OPEN CITIZENS LECTURE COURSE, WEDNESDAY, OCTOBER 22, 1913, AT 8:15 P. M.

Thomas Brooks Fletcher is one of the few great men on the American platform today. He is the youngest of the great lecturers who fill today the places held on the rostrum a generation ago by Henry Ward Beecher, Wendell Phillips and others of the "great ones gone forever and ever by." He was a success as a journalist and newspaper writer and met immediate recognition when he left journalism for the more untrammelled field of the platform. He is a dynamo of earnest thought with a marvelous gift of conveying his thought to his hearers. There is no

THOMAS BROOKS FLETCHER.

doubt that Mr. Fletcher is one of the few truly great orators of the time with a message of paramount importance. He has been described as a man who would go through a stone wall if it stood between him and an ideal or conviction.

Here is a typical acknowledgment from a prominent lecture course in Pennsylvania:

"We have had such men as General Z. T. Sweeney, Russell H. Conwell, and Senator LaFollette, but Fletcher was the climax of them all. His intense earnestness charmed them all. No lecturer on the Grove City College Platform has caused so much favorable comment as has Thomas Brooks Fletcher. The fact that he will appear here this season to fill the vacancy of Booker T. Washington, to the entire satisfaction of the people would be sufficient recommendation for him to appear on any course."

Another says: "His talk awakens in his hearers their slumbering moral convictions and inspires a feeling of justice and righteousness. He appears sincere, has snapping black eyes, heavy black hair, a face full of character, and a pleasing voice. His theories sometimes are startling, yet always to the point, clear and logical. His keen humor brightens his talk and his refreshing originality is a relief."

Mr. Fletcher will open the Course here Wednesday, October 22.

ALTON PACKARD.

## MONTRAVILLE WOOD

NOTED SCIENTIST AND INVENTOR TO BE HERE IN DECEMBER—THE MAN WITH THE GYROSCOPE, MONORAIL CAR, AND ULTRA-VIOLET RAY WILL GIVE DEMONSTRATIONS.

One of the big features of the Lyceum Course this year will be the Scientific Lecturer and Demonstrator, Montraville Wood. Mr. Wood is one of America's foremost inventors, particularly in the electrical field. Nearly one hundred patents have been awarded to Mr. Wood, the majority of which are in practical use today. Every time you turn on your lights with the familiar two button switch, you can think of Mr. Wood as the inventor. Mr. Wood is already known to scientists and inventors throughout this country.

In 1889 he was appointed district engineer of the Edison Company for the Pacific Coast, and in 1890 was in charge of the engineering department of the North Pacific Exposition in Portland, Oregon, where the honor of opening the exposition was bestowed upon his young daughter, Miss Allene M. Wood.

While Mr. Wood, in 1904, was perfecting the process of welding copper at the great works of the General Electric Company, at Schenectady, New York, he became interested in the gyroscopic actions of large moving bodies developed in steam turbines by this company. Knowing that many had failed in harnessing this enormous force did not prevent him from carrying on his experiments, and Mr. Wood had practically solved the problem of controlling the processional movements of the gyroscope. His discovery consists in adding the floating gimble to the regular frame of the old style gyroscope, making it possible to make the gyroscope change its plane of rotation automatically. On seeing one of these large gyroscopes, which is lying down at an angle of forty-five degrees, raise itself bodily into the air, get up on its feet and turn around, you cannot help but think that there is something supernatural in its workings.

Mr. Wood's program will consist of demonstrating features with the gyroscope, monorail car, ultra-violet ray and many other things too numerous to mention, in the scientific world.

Mr. Wood is an excellent speaker and a scientist. He was appointed aerial postmaster in Chicago about a year ago. He believes that there is no question but that the time will come when mail will be carried over certain routes very extensively in the future and that these routes will be established as soon as safety appliances are installed in aeroplanes.

At the Panama Canal celebration in San Francisco in 1915 a complete canal 2,000 feet long, is to be built to represent the Panama Canal. Three boats are to ply on the waters of this canal and automatically open and close the gates and fill and empty the locks. The boats will be twenty feet long. Mr. Wood did the engineering and took out all the patents on this model.

The committee in charge of the course believe that they have secured a great number in Mr. Wood. He will appear in the Armory on Tuesday, December 16, 1913.

## ALTON PACKARD

THE MASTER AMERICAN CARTOONIST—LAST NUMBER OF THE COURSE—SCHEDULED TO APPEAR FEBRUARY 18, 1914—HAS ENVIABLE RECORD.

The name of Alton Packard is familiar to practically every American who is interested in cartoons. A term of public service extending over a dozen years, as a newspaper cartoonist, illustrator, humorist, and lecturer, has made the work of Alton Packard familiar to millions. He is a keen wit, a genial humorist, a fluent speaker and a great artist as acknowledged by hundreds of press and personal testimonials from all parts of the country.

In his style and method he is so wholly original that his imitators seem never to quite succeed in their

## OFFICIAL PROGRAM

### Citizens' Lecture Course

N. D. A. C. Armory, Fargo, N. Dak.  
Season 1913-1914

#### FIRST NUMBER

Thomas Brooks Fletcher, Wednesday, October 22, 1913

#### SECOND NUMBER

Montraville Wood - Tuesday, December 16, 1913

#### THIRD NUMBER

Bohumir Kryl and His Two Daughters, Saturday, January 10, 1914

#### FOURTH NUMBER

Dean Sumner - Thursday, January 15, 1914

#### FIFTH NUMBER

The Military Girls - Friday, January 30, 1914

#### SIXTH NUMBER

Alton Packard - Wednesday, February 18, 1914

Cut above schedule out and post in a conspicuous place. In case dates are changed, same will be published in Daily papers.

Seats on sale and reserved at Fout & Porterfield's Drug Store, on and after October 15, 1913.

Season Course Tickets reserved for entire six numbers—One Dollar and Fifty Cents. Single Admission Tickets will be Seventy-five Cents for each attraction.

Special Street Car Service—Extra cars will be stationed at the corner of the Campus for the people in attendance at each attraction.

All programs will begin promptly at 8:15 P. M. Courteous student ushers in military uniform will be in attendance at each number. Student guides will escort crowds from Campus entrance to College Armory. The College Campus will be electric lighted.

difficult task. He carries all his accessories, easels; draws and sketches on enormous sheets of paper over seven feet square. Each season all of his time is eagerly taken up and numerous return engagements are, perhaps, the strongest testimonials to his popularity and success.

He has appeared in nearly every large city of America and people have thronged by the thousands to see him work.

He began his career by winning a contest prize in 1888 on the Minneapolis Journal, a paper on which he afterwards worked. He has worked on such papers as the Chicago Record-Herald, Times, Chronicle, Cincinnati News, has done illustrating work for "Life," "Judge," "Harpers" and scores of other magazines. His coming is being looked forward to with much interest.

The date of his appearance will be Wednesday, February 18, 1914.

"Kind Friends and Other Kinds:  
"In writing an appreciation of Alton Packard and his work, I feel compelled to speak the truth and say that, after hearing him over three thousand times I have never once seen him attain to the high pinnacle of artistic success that I had hoped for him.

"There are times when I think him almost great, and again, he seems an almost hopeless case. I know he means well and therefore I forgive him many of his faults, and I still have hopes.

"He aims high, work hard and enjoys the work; that is much. If he ever accomplishes what he is trying to do, I shall be the first to appreciate the fact and I will let you know about it.

"Yours nevertheless,  
"Alton Packard."

## DEAN SUMNER

CHICAGO'S VALIANT CITIZEN AND EMINENT SOCIAL WORKER WILL BE HERE ON THE CITIZENS' LECTURE COURSE THIS YEAR.

His Great Fight Against Vice in Chicago Has Attracted Nation Wide Attention—Magazines and Newspapers Have Commented Most Extensively on His Work.

Few men in all the Middle West are more in the public eye than Dean Sumner of Chicago. He has charge of the religious work of the Episcopal church in twenty-one of the penal and charitable institutions. His fight against vice in Chicago for several years extending down to the recent crusade, has brought him particularly into prominence. Magazines and newspapers have commented most extensively on his work.

Many of America's greatest men have also spoken of him and what he is doing in most enthusiastic terms.

Dr. Frank Gunsaulus, often referred to as the "World's greatest preacher," in the Chicago Record Herald, not long ago had this to say:

"Many months ago a commission was appointed in Chicago. Its head was the most valiant Dean Sumner—easily our most outstanding man of sagacity and heroism in treating the social evil problems of Chicago."

Dean Sumner is a member of so many bodies and organizations—civil, social and religious, that only philanthropists who give all their time to social effort such as Jale Addams, Mary McDowell and Prof. Graham Taylor, eclipse his record in this regard.

The twenty-one penal and charitable institutions in which Dean Sumner has charge of the religious work of the Episcopal Church include the County Jail, the County Hospital, the Poor House, the Insane Hospital, the Bridewell, Home for Incurables, Refuge of Girls, Home for the Friendless, etc. He is assisted by three clergy and three deaconesses and the Sisters of St. Mary.

Dean Sumner is also a member of the following organizations:

- Chicago Board of Education.
- Chairman, Chicago Municipal Vice Commission appointed and financed by the Mayor and City Council.
- First Vice President and Executive of Juvenile Protective Association.
- Chairman, General Advisory and West Side Advisory Committees of the United Charities.
- Instructor, Western Theological Seminary.
- Committee on Charities and Corrections of City Club.
- Director and Treasurer of Wendell Phillips Social Settlement for colored persons.
- Secretary, Church Association in the Interests of Labor.
- Trustee Church Home for Aged Persons.
- Chairman, Diocesan Social Service Commission.
- Chairman, Tribune Lodging House for Unemployed Men.
- Joint Committee on Payment of Prisoners.
- Joint Commission on Loan Sharks.
- Association of Commerce, Committee on City Housing Plan, etc.
- Advisory Committee, Citizens Health Association.
- State Representative, International Prison Congress.
- Joint Committee on Child Labor.
- Advisory Committee, Chicago Children's Benefit League.
- Etc., etc., some 48 in all.

The reader and flutist of this company is Miss Fae Pettit, already known to the American platform. The soprano and pianist is Miss Gladys Pettit, who first appeared on the chautauqua circuit. The violinist is Miss Allene Pettit.

This number has been scheduled as one of the popular numbers of the Course, especially for the great student body that will be assembled in Fargo at that time. During the past summer, the Military Girls have appeared in the states of Kansas, Missouri, and Texas in chautauqua work and have scored an unusual success.

The date of this number is Friday, January 30, 1914.

## BOHUMIR KRYL

AND HIS TWO DAUGHTERS TO MAKE A TRANSCONTINENTAL TOUR—WORLD'S GREATEST CORNETIST TO APPEAR AS THIRD NUMBER ON COURSE SATURDAY EVENING, JANUARY 10, 1914.

The announcement that Bohumir Kryl, world-famous cornetist and band master, will make a transcontinental tour the coming season, accompanied by his two talented daughters, will be enthusiastically received everywhere.

Kryl is today known as one of the five great band masters of the world. According to the Los Angeles Times, he is beyond any question the greatest cornetist in the world.

This now famous band master was working as a sculptor and as such had achieved no little fame, when he laid down the chisel and took up the cornet at the suggestion of no less a personage than John Phillip

BOHUMIR KRYL.

Sous. Kryl's last piece of sculpture consisted in the preservation of the features of the author of "Ben Hur" in marble.

Since he began his career as a musician he has directed his band in nearly all the large cities of America, besides making cornet tours with his daughters. He has crossed the continent several times.

Josephine Kryl is a daughter of Bohumir Kryl. She was born in Indianapolis, made her first tour over this country three years ago, and was a great success wherever she played. A short time ago, her father purchased for her a famous Stradivarius violin.

Marie Kryl, also daughter of Bohumir Kryl, with careful assistance of her teachers, Henriette Levy and Madame Blochfeld-Zeissler, has included in her repertoire compositions, which men like Paderewski, De Pachman, Busoni feature as their greatest numbers, and she plays them in a manner which quite comes up to the standard of the great masters mentioned.

It is quite apparent that a program by these three artists will be a musical event of the year in every city they visit in their transcontinental tour. The following comments on the work of each of the artists will give an idea of only of the quality of their work, but something of the nature of the selections of which their programs are composed.

The New York Times comments: "A number that struck the fancy of the Metropolitan Opera House audience was 'Souvenir de Moscow'—cornet solo by Bohumir Kryl. Kryl is complete master of the difficult instrument."

The Commercial Tribune, Cincinnati, speaks of the work of Marie Kryl as follows: "Marie Kryl made a positive sensation in her debut last night. She faced a audience perfectly unabashed out the slightest sign of a shyness. She looked extremely pretty in her pink dress and was very young for her age. She looked before her. Miss Kryl astonished her hearers with her playing of Liszt No. 12, 'Rhapsodie.' Skilled pianists audience were amazed at the technique and temperament."

## THE MILITARY GIRLS

AN ORGANIZATION WHICH WILL PRESENT PATRIOTIC AIRS, ALSO SKETCHES FROM FRONTIER LIFE—FRIDAY, JANUARY 30, 1914.

The Military Girls' Company, which is to appear on the Course this year, comprises six attractive young ladies who will give a program in three parts.

They will appear in one act as a

THE MILITARY GIRLS COMPANY.

five and drum corps in military drills playing patriotic airs.

As an orchestra and as vocalists, they will present both popular and classical music. One is a reader and there are several individual soloists.

In the third part of the program, the girls dress in costumes of the frontier and tell stories of frontier life and some of the romance and sentiment of early days of American development.

## LOCALS

\*\*\*\*\*

Miss Grasse entertained the women of the faculty Saturday afternoon. Talks on music took up most of the afternoon with a very delightful lunch served at 5 o'clock.

Miss Anna Bjugstad from Finley was called home on account of the illness of her mother.

Terrance Murphy of Bordulac, N. D., is a new addition to the Senior Class of the High School this past week.

The High School Class in American History under Professor Kirschman are doing extensive reference work in the A. C. library.

Prof. A. P. Hollis, formerly of the Valley City Normal and a future member of our faculty, delivered an address at the laying of the Corner Stone for the new County Agricultural School at Maddock, N. D., last Saturday.

Harold Bachman is back with us again and we all welcome him.

Harold Aackus registered last week and has taken up his duties as a Sophomore.

Mr. Erickson, who attended the A. C. two years ago and the University last year, is again back here taking work in Agriculture.

Harry Britton and Halvor Aackus are a few of the late arrivals, which adds a few more members to the Sophomore Class.

The concrete work for the lighting system is completed.

Professor Dynes took his class in Agronomy 3 out for field trips last Wednesday and Thursday. Alfalfa, corn and clover were given special attention.

Harry Herbrandson has registered for more work in Agriculture.

Mr. Rourke was called home suddenly, due to illness in the family.

Four cars of coal and one car of wood have been received at the power house in the last week.

Mrs. G. L. Martin judged bread, butter and sewing, while Theodore Stoa judged corn, alfalfa and potatoes, at Chaffee.

Mr. Devire attended the Lisbon Corn Show last Saturday.

Among the speakers from the Agricultural College at the Lisbon Corn Show were Professors Sheppard, Randlett and Martin and Mrs. Martin.

Mr. Simonitsch, graduate of Fargo College, has entered the Agricultural course at the A. C.

The new dairy building has been tied up because of the delay in the shipment of the stone.

Professor Bolley returned from a trip to St. Paul, Thursday, where he gave an address before the National Paint, Oil and Varnish association.

Among the speakers sent out by the Extension Department to Industrial School Contests, Saturday, were Miss Hooper and Professor Milbraith, to Mapleton, Miss Fern Dynes and Professor Palmer to Mott, and Mrs. R. H. Sloeum and George Knudson to Arthur.

A straw stack was accidentally burned last Sunday from sparks thrown out of a passing engine.

A directory of breeders of Pure Bred Live Stock is being sent out by the N. D. Live Stock association.

The Philos had a very interesting meeting Friday night. The following program was given:

Declamation—"Happiness and Liberty" ..... Arvid  
Baritone Solo ..... David Sonquist  
Extemporaneous Talks .....  
..... Ruel Wije, Halvor Aakhus  
Mr. Porter

Talk on Internal Conciliation.....  
..... Ralph Smith

The sophomores held a class meeting Friday to elect members to the Student Council. The successful ones were: Bolsinger, Devire, Bachman, Miss Ewen and Miss Grest.

Another of the spicy class meetings held during the past week was that of the Senior High. Election of officers occupied most of the time

and the following officers were elected: Hey Brown, president; Thelma Sears vice president; Elmer Dynes, secretary and treasurer; Miss Gettes and Dan Brown, student council. The class had a "Camp Meeting" session after the election and decided to let the rest of the school know that they are here and are going to stay thru the year. At the present time the enrollment numbers show, which is a very favorable showing.

### BIG DINGS GOING ON.

Vacant Grounds Being Used Under Direction of Y. M. C. A.

A good crowd of fellows have been out to past week on Dakota Field making good use of the "Athletics for everybody." Some have been getting into the punting game and other take to indoor baseball played on the baseball diamond. There is nothing like a good game and a shower bath after a day in school. Cash Wood is right behind the proposition and wants to see it pushed so every man gets into it. He says that any part of the field may be used so long as it does not interfere with football practice. President Worst said the field adjoining of the east might also be used. There has been some talk of organizing the student body so a push ball could be purchased. Anyone who is familiar with that sport knows how much fun is tied up in a push ball. It is hoped that an association or soccer football can also be secured, for a number of fellows want to get into that game. The crosscountry hike is also wanted and a series of inter-class games of indoor baseball may be scheduled in the near future. Here is a chance for good wholesome fun. Who of us have not wished for a better gymnasium equipment? Now let's get out and how them how much we want it.

### DR. BELL TO LECTURE.

Dr. Bell of the Department of Biology will discuss "Eyes That See" this afternoon, as the second number of the Educational Lecture Series which is being conducted by the Department of Education. This lecture will be held in the Physics lecture room at 3:30.

### PROF. KEENE REVISING BOOK.

Dean E.S. Keene of the Engineering department is hard at work on a revision and also for more material for his book that is now being used in the Domestic Science department. The new text Professor Keene intends to have in book form by next fall, will contain many new and original drawings.

This text now in use was used last year with the exception of two new chapters which have been inserted and treat on the subjects of water supply and sewage disposal. The book now contains 160 pages and has many line drawings and cuts to illustrate its purpose in a good many places. The subject of Household Mechanics is one of the greatest problems to be solved in the rural districts and also in the cities, and to this end Mr. Keene has given his time and energy so that the problems may be shown to the housewife in a manner that they will be able to follow and to understand.

Shoes made for cheapness are necessarily subject to rapid decay. Skill in workmanship and excellency in materials when combined in a shoe make a product the first cost of which is a trifle more, but the ultimate cost of which is much less than you have to pay for cheap shoes. Good shoes always look well and when properly fitted feel comfortable. They also wear very much longer than cheap shoes. The Hall-Allen Shoe Co., 107 Broadway make a specialty of "Dependable Footwear." —Adv.

## Osteopathy

the best and only scientific means of adjusting all spinal derangements. OSTEOPATHY, the only sure cure for nervous afflictions. It goes direct to the cause and removes it. If you are suffering from all health it is possible you have a luxated vertebrae, a rigidity or slight curvature of the spine causing an impingement of some of the nerves where they lead out from the spine. The symptoms caused from such a lead you to believe you have appendicitis, gall stones, kidney or other serious disease requiring an operation. Your case should not be neglected. OSTEOPATHY offers you a cure.

If sick go to the NATURAL SCIENCE SANITARIUM. What has been and is being done for others can be done for you. Hundreds of hopeless cases have been cured without drugs or the knife.

Write or call today.

**PROF. WEEKS' BOOK CLAIMS ATTENTION**

WONDERFUL TRIBUTE PAID BY DR. A. E. WISHIP.

In a recent issue of the Journal of Education, Boston, Dr. A. E. Wiship, one of the leading educational authorities in the United States, highly commends Professor Weeks' new book, "The Education of Tomorrow." The tributes in the following words:

"Dr. S. M. Crothers has recently suggested that if no new book were to be published for a year and a day we should be able to 'make a pretty good shift to wag along, (Bunyan) with such companionship as Milton, Fuller, and Herbert, which is unquestionably true, it would have been a professional misfortune if the year of no-new-book had begun before 'The Education of Tomorrow' had been read. We should have wagged along on the companionships of Coleridge, Ascham, Pestalozzi, Rousseau, Froebel, and Horace Mann, but with all of them and with all that has been written before and after these worthies we could not have gotten so wholesome and vital a few of the schools as they must be to meet the need in the United States in the next fifty years and more as we get from this clear, significant, satisfying treatment by Irland D. Weeks. 'Paradise Lost' is undoubtedly a most stimulating literary companion, but the charm which makes Dr. Crothers the most fascinating essayist of the day is because he forgets 'Paradise Lost' and lives in the paradise of today and uses the language of today. We need Dr. Crothers to give zest to literature as we wag along among writers who weary us with platitudes and phrases out of step with real life. Dr. Crothers always gives a relish for books because he speaks to living men in a living language.

"It is equally true professionally that Yocum and Weeks have given us books without the leading of which no one can be as fully equipped for educational leadership or discipleship as though he had mastered these books of today. Yocum's 'Culture, Discipline and Democracy' and Weeks' 'The Education of Tomorrow' compass remarkably well the philosophy of the situation on the one hand and the practical efficiency on the other. Yocum's extensive view and Week's intensive treatment make a combination that is indispensable to a satisfying appreciation of what to eliminate and what to introduce to equip the American public schools for their highest mission. Here are two messages significant in the highest degree."

Many other favorable reviews have appeared, not only in the educational press, but in eastern papers and general publications as well.

**ATHENIANS HAD FINE TIME.** The Athenian Literary Society held their first regular meeting of the year on Friday evening, Sept. 26th, in the Athenian room in the basement of the library. The meeting was opened by the President, Walter Marshall, and the following program was given:

Vocal Solo ..... Miss Ruff  
President's Address ..... Mr. Marshall  
Reading ..... Miss Heldner  
History of Society ..... Mr. Mendenhall  
Reading ..... Miss McVeety  
Address ..... Dr. Bell  
Piano Solo ..... Miss Leet  
The program which came up to its usual high standard was very much enjoyed by the large number present, and especially enjoyable was the address by Dr. Bell. At the close of the program a social hour was enjoyed and refreshments served. At the close of the program the Philomathians and Athenians mingled for a social hour. A pleasant evening was spent and a good time vouchered for by all present. The spirit manifested in the presentation and delivery of the program was a sure indication of a successful year for real literary work.

It is gratifying to know that there are such a large number of Farm Husbandry graduates taking an interest in the school. Professor Sheppard has received scores of inquiries recently, from graduates who wish to keep in touch with the college work now carried on. Many students will enter this popular course this fall, due to the influence of the alumni.

**TRIANGLE DEBATE SURE THING**

SOUTH DAKOTA STATE COLLEGE BROUGHT INTO THE LEAGUE.

Arrangements are nearly complete for the Triangular League which, when formed will include North Dakota Agricultural College, Manitoba Agricultural College, of Winnipeg, and South Dakota State College of Brookings. Letters have been going back and forth between the institutions for some time and the final arrangements will be made when the school at Winnipeg opens on October 28th.

Thus we will need three teams this year and we will get one of the debates here. The subject is to be submitted by us this year and the debates will take place some time in January.

**OUR COLLEGE YELLS**

Cut these yells out and paste them in your note book where you will be sure to learn them, so that you can come to the first rally and yell with the bunch.

**ATHENIANS TO MEET.**

The Athenian Literary Society will hold their next meeting Friday evening, Oct. 10th. The program for the evening is as follows:  
Music—Misses Hutchinson, Peterson  
Current Events Mr. Vallandigham  
Music ..... Mr. Ben Barret  
Reading ..... Miss Marlon Cox  
Address ..... Prof. Arvold  
Locals ..... Miss Erickson  
Music ..... Mr. Britton  
All new and old members, as well as others interested in the welfare of the society, are cordially invited to attend.

Professor Sheppard gave a talk upon "The Increased Feeding Value of Corn at Different Stages of Development," at the Lisbon Corn Show, Thursday.

**Get Your Trunks**

DIRECT FROM THE FACTORY

We make our own. They are not made like store trunks. Our locks, catches and hinges are put on with rivets, not nails.

Canvas is Glued on, not pasted.

There are a great many other points in favor of our trunks that we can explain if you will come in.
