DAVID STARR JORDAN

ONE OF FOREMOST EDUCATORS IN AMERICA TO DELIVER BACCALAUREATE ADDRESS, SUNDAY AFTERNOON, JUNE 1, AT THREE O'CLOCK, IN COLLEGE ARMORY.

David Starr Jordan, who will deliver the Baccalaureate address on Sunday afternoon, June First, is an educator of high rank. He received his masters degree from Cornell University in 1872, an M. D. degree from the Indiana Medical College in 1875 and a Ph. D. from Butler University in 1878. He has also received an LL. D. degree from Cornell University, John Hopkins University, Illinois College, and Indiana University. He has been president of Leland Stanford since 1891. He is an author of many notable works in science, especially on evolution. Of late years he has devoted much of his time to the study of international peace. The subject of his address at the Baccalaureate service will be, "The Fight Against War." Dr. Jordan is an able and effective speaker. He is a man of unusual talents and one whom nobody can afford to miss. From present indications the armory will be crowded to the limit.

While in this section of the country, Mr. Jordan will speak at Winnipeg, Grand Forks, Valley City and Moorhead. During the coming summer he, with Mrs. Jordan, will travel in Europe.

In the evening the Senior Class will present "The Disappearance of Dora," a comedy in four acts. The story of the play is most interesting.

Dora, the motherless daughter of Cornelius Knickerbocker, the great steel and copper magnate, is reared in the magnificent solitude of their country home by her worldly aunt. Her education has been entrusted to an old German professor, a former tutor in the Imperial household. He is an idealist of highest type, a believer in the theory of the simple life. Dora, a lonely, romantic girl, has accepted his theories, and grown restless at her almost regal life. She is anxious to go out among the humbler people and spread happiness and contentment. Her opportunity comes when her aunt tries to force her into marriage with an imbecile member of the British aristocracy, and Dora persuades the reluctant professor to run away with her. They go to a village in New Jersey where Dora tries her theories of universal happiness. The result is a series of laughable and almost tragic happenings, from which the now homesick girl, shocked and humiliated at the hypocrisy and ingratitude of her pensioners, is rescued by her father's junior partner, who loves her, and whom Dora herself, unconsciously loves. There is, of course, the usual happy result. The cast, which is a long one, does not contain a single poor part—even the "bits" are excellent. The characters are all types—Dora, naive, unsophisticated, honest, lovable—her attempts to "do good" create the tenderest interest—no better girl part ever written. The money-mad father, the worldly aunt, the old professor, delightful in his ignorance of practical life, the staid old veteran, his slatternly grand daughter, the colored maid who resents her "Missie's" sociating with such low white trash, the minister's fanatic wife, all make the comedy unusually attractive. Directly after the play the Senior Swing Out will be given.

ARTHUR OGAARD,
Commencement Orator.

OGAARD COMMECEMENT ORATOR

WILL GIVE COMMENCEMENT ORATION TUESDAY MORNING, JUNE THIRD—SUBJECT, "THE SPIRIT OF TOLERATION."

Because of his splendid record in public speaking events, and as a student, Arthur Ogaard has been chosen as this year's commencement orator. In 1910 Mr. Ogaard was a member of the Athenian Inter-Society Debating team. He won second place in the local oratorical contest the next year. In 1912 he received first place in the local oratorical contest, second place in the state oratorical contest and third place in the interstate oratorical contest. He took prominent parts in the plays "Deestrick Skule," "In the Wrong House," and "First Come, First Served." He has been a member and president of the Board of Public Speaking Control. During the past year he has been secretary of the State League of Oratory and Secretary-Treasurer of the Western League of Oratory. As a student he has an exceptional record. He has always manifested an intense interest in anything that would make the student life bigger and broader.

Concert May Thirty-First

THE NINETEENTH ANNUAL COMMENCEMENT EXERCISES WILL BEGIN WITH

Concert by Department of Music on Saturday Evening, May Thirty First—Special Music For All Exercises.

The commencement music this year will be something above the ordinary. Those who are to participate in the various exercises have been rehearsing steady for the past several weeks. The music for the entire exercises will be in charge of Dr. Putnam. On Saturday evening, May Thirty-First, the department of music will give a concert in the college armory to which all friends of the institution are cordially invited. The program will be a varied one and consist of vocal and instrumental numbers. On Sunday, June First, special music will be rendered for the Baccalaureate service. The college orchestra will furnish all the music for class day exercises. On Tuesday morning, June Third, the college orchestra (augmented) will give several fine numbers for the commencement exercises.

THE Y. M. C. A. CONFERENCE.

Last Saturday and Sunday there was held in the city a conference of the leaders of the Y. M. C. A. work in the educational institutions of the state which will mark the beginning of a very decided forward movement in the Christian work of the students of the state. The conference was marked by several unique features. No effort was made to have extremely large delegations from any school, neither was the time taken up with long and enthusiastic addresses. It was a simple, sincere, round-table conference from the beginning to the end, and was characterized by a deep earnestness of conviction and a full willingness of all who attended to get under the load and lift to the limit of their powers. As a result of the frank, earnest discussion of the needs, problems, and possibilities confronting the Associations we may look to more definite and real work in North Dakota next year than ever before.

To those who have their eyes open it must be apparent that there is a transformation now going on in the colleges not only of this state, but of all America, or at least of the west. Now, as never before, college men are facing the real needs of the world, and are guiding themselves accordingly. Whereas but a short time ago colleges and college men were largely self-centered, they are now becoming more and more world-centered, and the Y. M. C. A. is the leading force in bringing about this transformation.

Necessarily a broadening of program so extensive as is demanded by the scope of the work now before the Associations, calls for an almost complete revision of the policies of the various organizations, and this is one of the fruits of the late conference. The abolition of the membership fee, the redirection of the weekly meetings, the enormously increased emphasis on social service, the equal increase in emphasis on Bible study and Mission study, and the taking of bold, active leadership in much needed reform policies puts the work of the Association on a plane where it will command the respect of the biggest men of the institutions, as well as their services.

THE Y. M. C. A. HOLDS STATE CONFERENCE

Under the leadership of Inter-state Secretary John Childs, the delegates from the student Associations of Ellendale, University, Jamestown College, Fargo College, and Agricultural College met in conference in Fargo last Saturday and Sunday. Besides Mr. Childs, Rev. Thomas Graham of Minneapolis and Rev. Walters of Fargo addressed the men. How to meet the needs of the college, the community, and the world was the key note of the conference, and many excellent points were brought out.

Practically all of the sessions were in the form of roundtable discussions, and a deep earnestness characterized the entire conference. All of the Associations present decided to abolish the membership fee, to broaden and extend the policy of the Association, as well as to intensify the nature of the work.

Since the Agricultural College raised the necessary funds to maintain a resident secretary the University has also awakened to its needs and done likewise. Mr. Ray Sweetman of Wisconsin has been secured for this Association, and the University has called Mr. H. L. Wells, now a Senior at Northwestern. With this addition to the force, Y. M. C. A. work in North Dakota should take a decided upward and forward step.

Mrs. Worst entertained the Wah-zee-yah Camp Fire group at her house Monday evening.

Miss Mary Gibbenson expects to return to her home at Cando. She is recovering nicely from her long illness.

Minnesota Invasion Proves Disastrous

AGGIES LOSE TO ST. THOMAS AND HAMLINE—ST. OLAF GAME CALLED OFF.

Last Tuesday evening the team, accompanied by Coach Rueber and Manager Peters, left over the N. P. for St. Paul. They were scheduled to meet St. Olaf at Northfield on Wednesday, but this game had to be called off on account of rain. On Thursday they clashed with St. Thomas, and although they both outplayed and outthrew the Cadets, they lost the game by a 3 to 4 count. Larson pitched for the A. C. and worked splendidly, allowing only six hits as compared with a total of nine gathered by the Aggies off LaBiss, the St. Thomas twirler. Capt. Wirtenberger fell on LaBiss for two bingles, while Gorman negotiated a Texas leaguer good for two bags, the other six hits were singles. Up until the eighth inning the A. C. held the lead, but at that stage the old St. Thomas cannon gag was brought into play. This rusty old piece of army apparatus has played a very conspicuous part in defeating the A. C. before, but as very few of the team were veterans of that former invasion, nor used to being under fire in time of war, they were taken a little by surprise. We would suggest that hereafter it should be stipulated in the contract that no cannonading shall be allowed until the game is over. With a combination of cannonading, a pass, a hit and an error, St. Thomas nosed out a victory. Below is the box score and summary:

HAMLINE 4, A. C. 3.

The team laid over in St. Paul Friday and on Saturday they met Hamline. The hoodoo was again in evidence and they lost in a ten inning contest by a score of 4 to 3, after holding the lead for eight innings and getting two out in the last half of the ninth, a wild peg to third allowed Hamline to run in the tying score. In the tenth frame Hamline managed to get a man across the plate, while the genie was still with the A. C. and would not allow them to score.

Gullickson worked on the mound and did good work, and while his team mates pounded the ball all over the lot they did not seem to be able to connect at the right time. "Gink" Gorman and Dann each got two hits, the rest of the team were also hitting hard, and fielding almost perfectly. On May 28th, the Aggies will meet Hamline on Dacotah field and with an even break of luck we confidently expect to see a reversal of the score.

We regret, that on account of some misunderstanding, the box score did not arrive in time to allow us to publish it, and hope our readers will make the most of what little we offer.

Y. W. C. A.

The regular meeting was devoted to song service. Delightful solos were given by Misses Eugenia Ruff and Miss Blanche McDonald.

U. N. D. Handed A Whitewash

GULLICKSON PITCHED SPLENDID GAME—TEAM GAVE HIM ERROLESS SUPPORT.

Last Monday afternoon the Aggies met the U. N. D. on Dacotah field, and with a combination of brilliant fielding, splendid pitching, and good stick work they not only won the game, but handed the "U" a big blank as their share of the spoils. Nevertheless the U team played a good game, but the Aggies hit when hits meant runs, and that fact coupled with some bad errors by the U, resulted in a 5 to 0 score. For six innings neither side was able to score, although the A. C. got as far as third a couple of times; in the last inning the U. got a man to third, none of their men getting farther than second up to that time.

Gullickson was on the mound, and pitched an excellent game, besides which he fielded his position perfectly. Towards the last, the wire little twirler was beginning to be a trifle liberal with his passes, but bucked down to it and held the U. scoreless. Robinson pitched for the U., doing good work, but not up to the standard set by Gullickson.

The A. C.'s first score came in the sixth frame, when Parizek got first on Harper's error, second on Capt. Wirtenberger's sacrifice, third on a wild pitch, and home on Heising's error. This ended the scoring until the eighth when a base on balls, two errors and four hits netted the A. C. four more runs. The nearest the U. came to scoring was in the ninth when they had both first and third populated and two down. Their visions of a score vanished, however, when Swenson meekly grounded out to Gullickson for the third out.

Gulbrandson and Lowe shared the batting honors, each of them clouting at a .666 clip. Gulbrandson's hitting had been rather weak before this game, and the big boy's hitting was a pleasant surprise to all save the U. supporters. Following is the box score and summary:

One Man or Boy, Alone, Can Run This Avery Plow Outfit

You don't need any plowman with an Avery "self-lift" Engine Gang. The plows are handled entirely by power taken from the plow wheels. Pull a cord at the ends of the furrows and the plows lift out of the ground—turn around, pull the cord again and they drop back in. This wonderful Avery "Self-Lift" Engine Gang puts all the Hand Lever Plows all out of date. Saves you the wages and board of a plowman. Saves you all the hard, back-breaking work of lifting and lowering the plows by hand levers at the end of each furrow. And with an Avery "Self-Guide" attachment you don't even have to touch the tractor steering wheel from one end to the other. Just sit there and watch the outfit run. Plowing is certainly play with an Avery "Self-Guide" Tractor and "Self-Lift" Plow.

COLLEGE BRIEFS

Peter Mehl is here from Lisbon visiting his brother, George.

Dean Bolley left yesterday for Madison, Wis., where he delivers three lectures. One will be a general lecture before the entire student body, the others will be given before special classes. These lectures were asked for because of the ideas held by the Dean in relation to diseases and crop production.

Wm. Kretchov, who has been at the college since January 1st, as a student sent out by the Russian government, left last week on a tour which will take him on a visit to most of the Experiment Stations between here and the Gulf. He expects to return to his home in Russia about October.

The "Movies"—or a part of them—taken on the tour of the Special, were shown at the Bijou last Friday and Saturday. They were decidedly good and made a hit accordingly, but we were all disappointed in the fact that but a small portion of the total were exhibited in Fargo.

Director F. B. Linfield of the Montana Station, was here last week conferring with our pure seed laboratory heads with a view to getting information which would be helpful in organizing the similar work which the new law calls for in his state. Needless to say, he received much help, and Dean Bolley recommended to him several men for the leading positions in connection with the work.

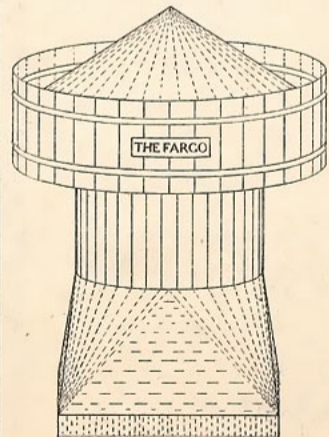

HARRIS RESIGNS.

It will no doubt be a surprise to many to learn of the resignation of Dr. Harris of the Veterinary department. Since his coming to this institution Mr. Harris has gained hosts of friends who regret to see him leave, but owing to failing health, a much needed rest, and change of climatic conditions seems apparent. Dr. Harris will remain with this institution until the 1st of July and continue in the hog cholera and serum work with which he has been connected since his coming here, after which he will remain in the city until late fall, and then depart for the south to spend the winter. Outside of a prolonged rest, Mr. Harris has no definite plans for the future, but considers eventually to settle down in his old state, Georgia, and to continue there his life's work in the search of a solution to the hog cholera problem.

THE NEW DAIRY BUILDING.

Plans for the new dairy building which will be erected on the campus during the summer are now complete, and as soon as possible bids will be received with the view that the structure can be well under way before very far into the summer. The building will be 56x92 feet, and with a height of about 2 1/2 stories. The first floor will have a factory churn room; another for farm dairying, besides one for cheese making which will also be used for bottling of milk and the making of ice cream. The second floor will occupy the class rooms and two laboratories, besides an office. The building will be located north of the chemistry building.

Miss McDonald strolled out to Dilworth for dinner Sunday.

CEREALS

Ceres received one of the pleasantest surprises of its life when Miss Simmons entertained Mr. and Mrs. Carlton of the Grand theatre Tuesday at dinner.

Prof. and Mrs. Smith and family were guests of the Johnson's at Sunday dinner.

The Misses Leet, Cella Monson, Jessie Loman, Helga Oyen, Hazel and Laura Petrie, Lena Honnet, Elaine Smith, were entertained at a delightful picnic given by friends Sunday afternoon.

Mrs. Nelson a sister-in-law of Lila and Ruth Nelson visited them Sunday.

SHORT SPORTS.

When thinking over the University game, it struck us as rather funny that Gullickson was unable to make the U. team last year, but upon looking farther back we run across Parizek and Krafthefer, neither of them were able to land on University teams, but under Coach Reuber they have both been very material factors in landing championships. To meet defeat in fair competition is no dishonor, but it must sting to have a "scrub" (?) turn around and shut out the team that was too fast for him to land a berth with.

The U. N. D. boys broke even on their trip, winning two and losing two games. The scalps they are bringing home are St. Johns and Fargo College. While they left large pieces of their own at the A. C. and St. Thomas.

The St. Thomas idea of treating visiting teams is both novel and original, yet not new as it has been in vogue at the Cadet school for several years. Their plan of entertainment is rather western, only in an exaggerated way, for instead of using six shooters the St. Thomas students content themselves with nothing less than a cannon.

The bunch of "Bog Irish" that Hackett took out to Leonard, there to assist in celebrating the Norwegian Fourth of July, stopped track practice Saturday. This we do not quite understand, as we do not recognize any of the Finnigans, Flannagans, or Mulligans, which he took along, as being track men.

According to reports "old Joe Bentley," former baseball, football, basketball and track athlete at the A. C., is the big whale in a millpond down at Ellendale. Well, Grandpa, there is nothing like making hay while the sun shines.

The Inter-class track meet was postponed till a later date, which we are at present unable to furnish. The Inter-class baseball also received a set-back owing to the recent rains. The Juniors still head the percentage column, with the Freshies and High School tied for second place.

St. Thomas now leads the Minnesota teams of the Dakota-Minnesota conference, while the N. D. A. C.

leads the North Dakota schools. Our next meeting will be on Decoration day, and on the results of that game will probably hinge the conference championship.

One consoling feature about the team's Minnesota trip, is that all the boys managed to fatten their batting averages. It seems queer in view of the fact that they lost both games, that in both cases they batted and fielded better than the opposing teams.

An Honorary Fraternity For Agricultural College

PHI KAPPA PHI INSTALLED CHAPTER HERE LAST WEEK.

Last Monday evening the installation exercises of the Honorary Fraternity of Phi Kappa Phi were held in the Physics lecture room. Phi Kappa Phi is a national fraternity established in colleges and universities of good standing, and we are fortunate to obtain a chapter at our college. The fraternity is composed of faculty and student members, and the chapter here will elect student members very soon. Only students of highest attainment in scholarship and of good character are eligible for membership. Election is made from the senior class of college students and from all departments in which there are eligible students. Anyone elected to membership may well consider it a great honor since the average standing for the four years must be high.

The fraternity of Phi Kappa Phi was organized at the University of Maine in 1897, and has established chapters at the University of Tennessee, Pennsylvania State College, Massachusetts Agricultural College, Delaware State College, University of Florida, and Iowa State College, besides our own just established.

The preamble to its constitution indicates the object of the fraternity. "This constitution is adopted to provide a fraternity dedicated to the unity and democracy of education and open to honor graduates of all departments of American Universities and Colleges."

The present membership of the North Dakota Agricultural College Chapter of Phi Kappa Phi is as follows: President Worst, Professors Ladd, Waldron, Bolley, Keene, Batt, Minard, Hard, Stoner, Dynes, Reynolds, Doryland, Washburn, Darner and Thompson, and Miss Bessie E. Taylor and Miss Katherine Jensen. Miss Stoner and Dr. Reynolds were members of the University of Tennessee Chapter and were influential in bringing the fraternity here.

Ampetwee Camp Fire Group were entertained by Dorothy Keene Saturday evening. The girls wore their camp fire suits and, sitting around the fire told stories and cracked jokes. A nice time was reported by all.

CHECKS ARE SAFE

It is certainly safer to carry a check book with you than to carry a roll of bills. Lost money is seldom recovered. A lost check becomes worthless by having the bank stop payment. A paid check is an indisputable receipt. We invite every student to open a checking account with us and handle his finances in a businesslike way.

Business Is King

Every young person should consider carefully what step he will take next. A wrong decision now, means a lifetime of regret. Consider well all avenues of possible success.

THINK OF THIS!

\$750—the average lawyer's income.
\$1,000—the average dentist's income.
\$1,400—the average doctor's income.
And other professions in proportion.
And that, too, after an investment of from \$2,000 to \$5,000 in a College Education and at a cost of four of the best years of life.

THEN, THINK OF THIS!

It is a poor business man who is not enjoying an annual income in excess of \$2,000. \$5,000 is a very common income. \$10,000, \$25,000 and even \$50,000 are not uncommon in the business world.

HUGH CHALMERS QUIT \$72,000

a year to go into business for himself. It is said he made over \$500,000 last year.
