"CUPID AT VASSAR" PLEASES LARGE CROWD ON FRIDAY EVENING

Four Act Comedy Was Presented In Most Creditable Manner By V. W. C. A.

Before a large audience last Friday the Y. W. C. A. girls gave their annual play, and to say that "Cupid at Vassar" made a hit is to put it mildly. The Y. W. C. A. is famous for the high class productions it offers to the public, from Christian Counsel to Candy and Comedy. This latest offering was unusual in its demands on those responsible for its production, being longer and more difficult than most heretofore seen and requiring a larger cast. The fact that four people must be of the more insignificant sex seemed to hold no difficulties for the Y. W., as their "men" produced "the real article".

As may be inferred, the play centers around a group of Vassar girls, two but two of the four scenes are laid at that institution. In Act I, the scene of which is the sitting room of the old home in Vermont, Wanda Carroll is packing her trunk, preparatory to going to Vassar, where she expects to enter as a Freshman. Her half-sister, Kate Newton, is also preparing to leave for the same place, this being her Senior year. Of the two young men who at different times of the day call to pay their farewell respects to the older girl, the mother counsels Kate to marry the rich and flashy Amos North. Kate, however, is more inclined toward John Willett, an architect whose fortune is yet to be made, but who is industrious and a man of promise. To him she gives a promise to accompany him to a musical that evening. Later, however, he receives a sudden call to come to New York where certain plans he has submitted are accepted, and he leaves a note of explanation with the younger sister. This person, with money in her own name by inheritance, does not look with favor upon her older sister's affection, and hence conceals the note and gives out a false story about John Willett's sudden departure. From this first act of deceit follows a whole train of similar acts thru the play, resulting in a complete estrangement between the pair.

In the second act, the scene of which is at Vassar, Willett makes a call, but is coldly received, as Kate had never received any letters from him in answer to her own requests for explanation. Amos North also presses his suit, but her aversion to his person conquers over the mother's request and her own depressing financial outlook.

In the third act, back at the old home, Amos North begins to appear in his true light as a scoundrel. The widow has entrusted large sums to his keeping, which he says the exigencies of the market are about to swallow up if he does not immediately obtain another large sum to protect the first. However, he promises to repay out of his own

funds the lost amount if Kate will marry him. Under this latest pressure, Kate yields, but denies him the right to embrace and kiss her. But later John Willett, now quite successful in his vocation, appears on the scene, not in the capacity of a suitor, but as the representative of the attorney into whose hands Mrs. Carroll had placed the matter, and gives the widow the papers which prove that North is defrauding her, and which place him in a position where he may be arrested. The arrest does not take place, as Wanda secretes the papers.

The fourth and last act, staged at Vassar at graduation time, again brings both North and Willett into the scene. Kate had of course broken her engagement with the scoundrel, but he now turned his attention to the unprincipled Wanda. The old love prompts Willett to come up for the graduation exercises, and fortuitous circumstances bring about a mutual explanation of the whole matter of the estrangement thru the concealment of their letters by Wanda. In closing, the announcement of the engagement of both pairs is made.

The acting of all was uniformly good thruout. The difficult impersonation of the male parts was well done. Ruby Head as John Willett appeared well as a serious, hard-working youth. Louise Poland acted the part of Amos North to the last degree of perfection, even being able to "cuss" a little. Special mention must be given to the impersonation of the colored boy Shiny by Amy Whitman. This character was always in evidence, and was very essential in carrying out the plot. Mary Dolve as Hank Gubbin, a country youth with some "sporting" tendencies, was a complete success. Of those who carried feminine parts, it would be difficult to select stars. The two half sisters, Kate Newton and Wanda Carroll, had the most difficult parts, and they were played extremely well by Lucille Morris and Lena Honeatt. Elsie Stark was perfectly natural in the role of mother of the 2 girls. The remainder of the cast had comparatively short and simple parts, but fitted into their time and place as well as any of the others.

It can hardly be said in criticism of this production that those who attended wasted their money because better entertainment could be furnished for less price by the professional playhouses of the city. All who attended will say that from the point of view of entertainment it was worth the price and the time spent in attendance. As a financial success from the point of view of the Y. W., there can be no complaint, the attendance being above that of former years.

DEAN H. L. RUSSELL.

Ninth Annual Industrial Course Commencement Next Monday Evening

COMMENCEMENT BANQUET, AND ADDRESS OF DEAN RUSSELL TO BE FEATURES OF OCCASION.

Before the Spectrum goes to press again there will have passed into history the ninth annual Industrial Course Commencement, at which for the first time members of all three courses will receive certificates of completion. The commencement programs have been printed, and from

a perusal thereof it appears that this is to be as imposing an event as the annual commencement in June. At 5:30 Monday evening there will be served the Commencement Banquet at the Copper Kettle Inn, at which members of the graduating classes will respond to a series of toasts. At this banquet President Worst, Dean H. L. Russell of the College of Agriculture at Wisconsin, Dean Shepperd, Dean Stoner, Prof. Dolve, the alumni, and parents and friends of the graduates will be guests of honor.

At 8:15 will occur the public program in the Armory, at which time Dean Russell will deliver the Commencement Address. After the address the graduates will be presented by their respective Faculty Advisors, the Farm Husbandry men by Dean Shepperd, the Homemakers by Dean

NOTICE.

Coach Rueber has issued a call for baseball twirlers, and will begin to get the battery in shape for the coming season. All battery men report at the Gym today, Tuesday, at 4:00 P. M.

Palastine Described In Illustrated Lecture By Dr. W. N. Stearns

LAST OF HISTORY LECTURES
WAS GIVEN TUESDAY EVENING.

The final lecture of the series which has been given by Dr. Stearns of Fargo College under the auspices of the class in History 11, was delivered in the Physics lecture room last Tuesday evening. The subject this time was "The Basis For Agriculture in Palestine". Slides were shown, picturing the topography of the land, the customs of the people, and some of the cities and ruins. Palestine was described as a country of a varied topography, having some level stretches, but a large amount of rugged, rocky, hillside country scarcely suited to Agriculture. Today there is little opportunity for farming, the forest denuded, and the implements crude. At one time there were great forests on the hillsides, but these have been cut down, with the inevitable disastrous results to the soil. Where once there was a comparatively dense population in a fairly prosperous condition there now are but a few starving peasants, as illiterate and depressed as any in the nation that there is opportunity for an agricultural expert, in reclaiming the country and restoring it to its old time beauty.

Persons desiring to subscribe for the Agassiz should do so before the close of the winter term as the edition will be limited. We mean business. D. E. Sonquist.

Short Course Stock Judging Contest Held Saturday

NEW FEATURE OF WORK WITH
LIVE STOCK BEGUN.

Last Saturday occurred the first annual short course stock judging contest. Heretofore these three month men have entered in a similar contest in competition with farm husbandry and more advanced animal husbandry students, but the fact that they were to have a contest of their own resulted in keen but friendly rivalry among the contestants for high honors. As final scores would indicate the contest was close and competition very keen, but aggregate points show N. Lillehaugen the holder of the highest average with 440 out of a possible 500, and thereby winning the silver cup, the prize for first place. Mr. Wm. Pewe was a close second with 433 points to his credit.

Besides honors for aggregate standings there were medals awarded to those scoring highest on individual rings and these were won by the following contestants:

Draft horses Wm. Gerdes
Dairy cattle O. A. Christianson
Beef cattle Wm. Pewe
Sheep H. Nordsletten
Swine A. Hillsland

The contest was run off smoothly and in every way satisfactory to those in charge. Sam Crabbe placed the ring of dairy cattle while the others were placed by Prof. Richards. The animals with the exception of the dairy ring which come from Mr. Crabbe's barn, and the horses coming from the barns of Burgess & Lukyn, were taken from our own herds.

The men eligible to the contest were selected on the merits of their work for the term and four men were entered from each section taking the work, making the number of contestants twenty.

Prof. Richards recommends that upon the completion of the new dairy building that the present creamery be turned over by the authorities to some of the new and aggressive secret societies that have formed or are about to form. Evidently some people around the campus wouldn't mind consigning the whole crowd of 'em over there, new and old both, and then "blow the darn thing clean to Jericho."

Stoner, and the Power Machinery men by Prof. Dolve.

The evening will close with a reception for the graduates and their friends.

Champion Games Back to the old A. C. In Hard Fought Battle

Final Game with the U. Comes Our Way By 26 to 16 Scores

For the third time in four years Coach Rueber has brought us the Basket Ball Championship. Last year the title went to the U., but evidently it was dissatisfied to stay there any longer, and so, acting upon Coach Rueber's suggestion, it flew to the southward and lit most gracefully on the A. C. Campus. We bid it a most hearty welcome, and extend to it a cordial invitation to prolong its visit indefinitely.

Over 1200 people thronged the armory to watch the final game of the North Dakota basket ball season last Saturday evening. To say that these people got their money's worth would be putting it mildly, never was there a basket ball game staged in this neck of the woods before which can be called an equal of Saturday night's battle, hard fought, furious, and fast almost beyond belief. It would have been hard to improve upon from the spectators point of view. What makes victory all the sweeter is that the U. played an elegant game and fought every inch of ground. The victory we must credit almost entirely to the brilliant team work and superior condition of our men. The guarding of both teams was very close, especially the A. C. The U. only connected for three field baskets their other ten points coming from fouls, which were numerous on both sides, the U. however, made a larger per cent of theirs than did the A. C. It would be a hard thing to

pick any stars. Ueland, however, played an exceptional game, as did Bolsinger and McQuillan. Hackett and Nolet also played brilliantly at the other forward while the pivot job was well taken care of by Gulbrandson and Krafthefer. Blix, who replaced McQuillan in the second half, played a fast and aggressive game until the end. Burfening, Robinson and Wilcox did stellar work for the U. altho their whole team played well. During the last half Referee Hawke found it necessary to warn both teams to "let up on the rough stuff". Mr. Hawke's officiating was a usual highly satisfactory, he kept the game going at all times and was prompt and decisive in his decisions.

The University started the scoring via the foul route, converting three free throws into points before the A. C. connected, Ueland then started the fireworks for the A. C., making a pretty running shot for our first two points. He was quickly followed by Hackett, who contributed another field goal, from this time on the A. C. held the lead, at first the margin was rather small, but they gradually drew away from the U. During this half the ball was held for three or four minutes near the center of the floor, no sooner would it be tossed up for the tip off, than an A. C. and a U. man would get a hold of it almost simultaneously resulting in a held ball, the U. finally got it, tho,

but one of their passes was intercepted and the Aggies worked the ball down the floor, showing magnificent team work, and shot a basket. The first half ended with the score 7 to 9 in our favor.

The second half started with a rush, both teams coming back strong the Aggies, however, started to draw away from the U., showing better team work and more endurance. Robinson of the U. retired during this half, having four personals chalked up against him. Rowehehl replaced him at guard. The final score was 16 to 26 following are the line-ups:

A. C.	U. N. D.
Ueland	r. f. Bufening
Hackett-Nolet	l. f. Lowe-Smith
Gulbrandson-Krafthefer	c
	Chittick-Heising
Bolsinger	l. g. Robinson-Rowehehl
McQuillan-Blix	r. g. Wilcox
Referee—Hawke.	

U. Field goals Burfening 2—Robinson 3, McQuillan 2, Hackett 1, Krafthefer 1, Free throws Nolet 4.
U. Field goals Rufening 2—Robinson 1, Free throws Robinson 3, Barfening 2.

Chittick and Gulbrandson were both disqualified during the first half for unnecessary roughness.

The rooting and spirit of the students was very good, the U. being cheered lustily when they pulled off a good play, the same naturally applying to our team.

Student Council Has Important Meetings

Several Weighty Matters Acted Upon,
Including Publication
Of Minutes.

The proceedings of the meeting of the Student Council are printed below:

A meeting of the council was called Feb. 25, 1913, at 1 o'clock.

Mr. Ogaard's resignation as Editor of the Spectrum due to the fact that he will not be in school in the spring term was read and accepted.

The next order of business was the allowance of a bill of \$4.00 to be paid the Ulsaker Printing Company for 400 folders.

It was moved by Mr. Rommel and seconded by Mr. Brown that the suggestion that the Student Council give up its power of electing various officers of the Spectrum, Board of Control, etc., be laid on the table. This motion was carried.

Moved and carried that Mr. Clarence Walter be authorized to edit the "Spectrum" until the next editor take office. This motion carried.

Action on Mr. Ogaard's suggestion that the present method of having the editor of the Spectrum take office at the beginning of the school year and extending until June caused a decline of interest in the spring term, it was moved and seconded that a committee of five be elected by ballot to investigate the need of change. Mr. Ogaard's opinion is that the new editor should begin work at the beginning of the spring term. This motion was carried. The following committee was unanimously elected to investigate the subject:

Mr. Rommel
Mr. Nelson
Mr. Wirtenberger
Mr. Bachman
Mr. Perry

Bill of 25 cents allowed for postals purchased by the president for informing the members of the meeting date.

A motion was then made and seconded that hereafter all proceedings of the Student Council be published in the Weekly Spectrum. Motion was carried and meeting adjourned. (Signed) Mae Hooper, Sec.

A sweet young thing from Fargo College told Roy Corbett that the reason she prefers F. C. to A. C. is that she receives more individual attention over there. Knowing Roy and a few other persons around our campus as we do, we doubt a great deal the truth of the maiden's statement.

ALUMNI TEACHING IN HIGH SCHOOLS.

A number of the recent graduates of the Agricultural College are teaching in North Dakota high schools. Among these are Grace Briscoe, Devils Lake; Lucy Cockburn, Velva; Cecelia Eyoifson, Williston; Ruby Gibbens, Bismarck; John G. Halland, Oakes; Helen Hoover, La Moure; Anna Lamb, Dickinson; Alma Leeb, Edgeley; Margaret Magill, Oakes; Lillian Pearson, Larimore; Elsie Pellissier, Minot; Isabelle Rose, Casselton; Ellen Syse, Kenmare; Ray Towle, La Moure, and Hughina McKay, Fargo.

Some of the recent graduates are teaching in other states. Charles Michels has a position with the State Normal School of Spearfish, S. D., Genevieve Holkesvig is teaching at Crookston, Minn., Agnes Halland at McIntosh, Minn., and Ella Heidner at Halstad, Minn. These alumni received their professional training at the Agricultural College and are effectively carrying the influence of the institution into the public school system. The good effects of their presence in high school will no doubt be felt in the increasing attendance at the Agricultural College.

A number of the present senior class will take teaching positions. This number includes several who will teach agriculture.

NEW INSTALLATION IN ENGINE LAB.

It is well worth a trip to the Gas Engine laboratory to examine the new gas engine which is being installed. It is a Rumely Oil Pull motor, type "E," donated by the M. Rumely Co. It is an inclined cylinder twin with a tractive power of 30 and a brake horse power of 60. A special base was constructed for this engine by the Rumely Co. as the engine vibrates considerably while running. The dismounted engine is the same power plant that is used on the type "E" tractor. The engine, when dismounted, is much used for isolated irrigation plants and when used as a generator power plant, it is noted for its steady current delivery. It is also much used, in the stationary form, for mine work, saw mill power and small city water supplies. As it is constructed especially for kerosene it finds much favor because it can be used in many places where insurance and other regulations would not permit the use of an ordinary gasoline engine. It will certainly prove a valuable acquisition to the Gas Engine Lab. as an example of a large gasoline and kerosene engine with a wide latitude of usefulness.

Legislature Becomes More Generous Toward Agricultural College

DAIRY BUILDING ASSURED, AND
OTHER MINOR IMPROVEMENTS ALLOWED.

Since the appearance of our somewhat "bear" article in regard to the transactions of the legislature last week, further fortunate events have transpired at Bismarck which put us in a more favorable situation in respect to appropriations. It appears that besides the bestowal of the \$25,000 annual maintenance we are also to be favored with funds to erect a dairy building and establish a dairy herd for which we are to receive \$35,000. The sum asked for dairy approp. was \$55,000, \$10,000 of which was to be used in the erection of a needed dairy barn, but this must be needed dairy barn, but this must be another of our castles in the air. Besides this there have been numerous small amounts voted for various improvements about the campus, such as \$10,000 for a lighting system, etc., bringing the entire appropriation up to the goodly sum of \$131,000. While the dairy building will be a valuable adjunct to the institution, still the crowded condition of the classes will not be alleviated to an appreciable extent, such as would have been done had we a new agricultural building or class room building. However, the necessary trimming of the short courses may allow more room to be devoted to the long course students. Work on the dairy building, which is to be a wing of the Agricultural building when it comes, will commence as soon as the building season opens, and will doubtless be completed in time for opening next fall.

SUNDAY MEETING.
President Aasgaard of Concordia College addressed the Y. M. C. A. meeting Sunday afternoon, on the subject "Temptations". He showed that the average man is probably not subjected to the temptations that he is commonly supposed to be confronted with. The situation in which the average man finds himself calls for resistance to the most subtle forms of temptation, the kind which ask a man to keep his ear to the ground and discover the way the wind is blowing, that he may trim his sails accordingly. The man needed today is the one who has convictions and stands by them in all kinds of weather, regardless of other people's opinion.

From now on there will be no Sunday afternoon speakers, but the Sociology class will meet until the course is completed, which will require about three sessions.

THE WEEKLY SPECTRUM

Published every Tuesday of the school year by the students of the North Dakota Agricultural College, at the Ulaker Printing Company, 515 Second Avenue North, Fargo, North Dakota.

CLARENCE WALTER '14, Editor-in-Chief; JOHN F. NOLET '14, Business Manager

Entered at the Postoffice at the Agricultural College, North Dakota, as second class mail matter.

Table with 2 columns: Name, Title. Includes MAX WALDRON '14, Associate Editor; CLARENCE WALTER '14, Associate Editor; JOHN B. WENTZ '13, Alumni Editor, etc.

THE RESIDENT SECRETARY.

Early in the term there appeared in the columns of the Spectrum an announcement of the fact that the Y. M. C. A. had decided that the time was ripe for a resident Secretary at the college.

Any one who has been at an educational institution for any period of time must realize how important is the work which the association is doing, and also that with the present number of students at this college it is wellnigh impossible for an association having none but student help to do all the required work.

Realizing this the Y. M. C. A. has decided to bring in the Secretary, and, as was stated, have begun the work of obtaining the necessary funds. The Advisory Board, consisting of three members of the faculty has been enlarged to five by the appointment by President Worst of Profs. Dynes and Miller, and will henceforth be known as the Board of Directors.

THE ORATORICAL.

What with Declamatory contests and the International Debate the great annual public speaking event, the Oratorical Contest, has nearly been forgotten. The date, due to the conflict with the debate, has been postponed to March 29, thus still giving time for some to get busy and enter who have not already done so.

CERTAIN GIRLS II.—

Evidently "certain girls" are disatisfied with one of our innocent editorials last week. We religiously refrained from mentioning any names or giving all the "facts", but nevertheless the article seems to have struck fire somewhere.

ings) is hereby expressed. Our policy is not to publish rumors (not even of weddings) but considering the source of information and the advertisement the matter received, we felt ourselves justified in inserting the article, and in our rage may have made it too strong.

Inter Class Basketball League

STANDING OF THE TEAMS.

Table with 4 columns: Team Name, Won, Lost, Pct. Includes Sophomores (4-1, 80%), Freshmen (4-1, 80%), Farm Husbandry (3-1, 75%), Juniors (2-2, 50%), High School (1-4, 20%), Power Machinery (0-5, 0%)

FRESHMEN 34, POWER MACH. 1.

The same night the Freshmen ran away with the Power Machinery defeating them 34 to 4. The game was rather slow and uninteresting.

FARM HUSBANDRY 31 — POWER MACHINERY 1.

On Tuesday night the Farm Husbandry added the Power Machinery scalp to their trophy list. Defeating the Machinists 31 to 1. The game was rather too one sided to be fast.

DATE FOR ATHLETIC CARNIVAL DRAWS NEAR.

The various committees who have charge of details relating to the big Athletic Carnival on Thursday evening, March 20, are working hard in preparation for the event.

PHILOMATHIA.

Philo met in business session for a few minutes prior to the Y. W. play. The president was first called upon for a farewell address, which proved to be a fizzle.

AUDIENCE WELL PLEASSED WITH RENDITION OF "BUNTY."

On Monday of last week Mrs. Katherine Oliver McCoy presented the fourth number of the lecture course in the armory. The entertainment consisted of a reading of Graham Moffat's new Scotch play "Bunty Pulls the Strings"

As a prelude to her reading, Mrs. McCoy described the scene of action and a few of the Scotch costumes and characteristics, which enabled the hearers to better understand the quaint expressions. The story is a most human one, lacking the superficial theatrical touches which so often spoil a play, and treats of the Scottish human nature in a most delightful and charming manner.

Many choice and witty epigrams as the following could be culled from time to time during the rendition: "It's just jealousy that makes the men folks keep all the positions to themselves."

AGRICULTURAL COLLEGE DEPARTMENT OF MUSIC.

Advanced pupils of Miss Edyth Grasse will present a programme at the A. C. armory next Friday evening, March 14. This programme is complimentary and the public is cordially invited to attend.

- Barcarolle..... Offenbach
Trebble Clef Club.
Eugenia Ruff, accompanist.

COLLEGE BRIEFS

Some are commencing to wonder if our ornamental gateway will ever be completed. As it stands now it is plainly evident, even to strangers, that it is in an unfinished condition and we regret that as long as it is so near completion that the proper authorities don't get busy and put up the lights and ornamental iron work. There are many visitors to the college in the spring and they should see us at our best.

Now that most of the snow has disappeared we urgently recommend that those students (and eke professors?) whose wont it is to cut the corners and cross the lots, to take heed of the tender young roots of grass which will soon appear to beautify our campus. One of the most unsightly things we know of is to see the greesward criss-crossed with "cow-paths" and we hope the students will have enough pride and respect for the college not to obliterate or mar our campus in that manner. In other words obey the eleventh commandment and "keep off the grass".

Even Roy Dynes took a little campus work Saturday afternoon. Herman is wondering why he has received no letters from any of those beautiful actresses that went wild about him up at Winnipeg.

All organizations desiring space in the Agassiz should see the business manager at once.

David Sonquist.

It will be interesting to know that at the recent state chess tournament held in Fargo, one of our Freshmen, Waldemar Richter carried off high honors, humbling several crack veterans of the game.

H. F. McQuillan, football and basket ball star and prince of good fellows will leave this week for some place known only to himself and a few intimate friends. Dame rumor has it that Mac is considering a venture on the matrimonial sea. Whether this be true or not we wish him luck and lots of it, hoping only that he will return and decide to cast his fortune with our's for a while longer.

Thor Gulbrandson took a flying trip into Minnesota the first part of last week. The object of the visit has not been disclosed, but Gil came back wearing a broad smile and extending the glad hand to all the fellows.

H. D. Long, private secretary to Prof. Bolley, is conducting some experiments which will show whether or not he may successfully grow Bamboo trees in North Dakota. No results have been let out for publication so far.

Coach Rueber and Bolsinger have placed their names on the roll of the immortals thru the discovery of a new resistant type of Corn which is guaranteed to grow in any climate. In fact this new variety is so resistant as to be almost a nuisance.

Lent is—almost over. Art Ueland left yesterday for his home, where he intends to lead the simple life until his anticipated return to college next fall which we hope will materialize.

Rufus Lee an ag. student from old times and who has been taking special work this term left last Saturday for his home at Gladstone.

Alfred Robinson, F. H. '10 and sister Sadie of Strum, N. D. took enough time off Sat. to come up and see us trounce the U.

Prof. Dynes spent Sunday and Monday at his former home near Gardner.

W. R. Porter, Supt of demonstration farms, addressed a meeting of Alfalfa growers at Pillsbury, N. D. last Saturday.

PHILOMATHIA.

A short session was held Friday, and a short but interesting program rendered. David Sonquist rendered a vocal solo, George Gustafson gave a paper on "The County Work of the Y. M. C. A.," and George Manikowske gave a talk on "The Utilization of Wind Power." Next Friday will be held the last meeting of the term. Officers will be elected, hence a full attendance is desired.

AGRICULTURAL CLUB.

Last Friday evening the club met at seven o'clock and rendered the following program: Rural Credit System.....Wm. Guy County Expert System.....Matt. Thoranson Mixed Farming.....S. Shively The program was interesting, but especially does the club invite your presence next Friday evening to hear the musical number. The election of officers for next fall term is to be held next meeting in room 22, Engineering Building.

ICELANDERS ORGANIZE.

A new association has been started at the A. C., known as the Icelandic Association of the North Dakota Agricultural College. The purpose of the Association is: First, to encourage high school and common school graduates from the Icelandic communities to attend the A. C., and second to stimulate interest among the members of the Association in their language and to bring about the introduction of Icelandic literature into our library.

A meeting will be held next week for the drafting of the constitution and by-laws, and election of officers.

"Get the Education That Gets the Money"

A big business man at a banquet the other night said, "It takes a college education to learn how to properly color a meerschaum pipe."

The way the big moneyed men of this country are rapping unpractical college courses over the knuckles nowadays is a caution—and also nudge to every bright, keen, alert, active fellow

to "Get the The Education That Gets the Money."

If Professor Watkins could only tell you of the phenomenal success of many of his graduates, you would hardly believe that there are so many big, golden opportunities lying around to be seized.

RIGHT HERE IN FARGO

His school has fourteen people with the First National Bank. Forty-nine out of fifty-three people working in the local banks are his graduates. Over 685 Northwestern banks employ Dakota Business College pupils. These are facts which you can verify for yourself—they mean something to young people. This school cannot fill one-third of the calls it receives for graduates.

SPRING SCHOOL OPENS SOON

EIGHTH STREET SOUTH

CEREALS

Mr. Sorenson of Webster and Mr. Gibbens of Cando entertained, the Misses Mary and Gertrude Gibbens, Marion and Mabel Cox, Hildur Sorenson, Asta Mikkelsen and Mary Thompson at a dinner party at the Gardner Sunday.

Miss Gertrude Irene Roberts of Minneapolis is a guest of Miss Ethel Roberts the past week.

Miss Alice Haggart dined at Ceres Sunday noon.

Miss Lillian Hume returned from the hospital Saturday, where she has been undergoing treatment for her ear.

The first year Homemakers served a dinner Thursday noon. Miss Stoner was the guest of honor. Cream of Tomato, Buttered Peas, Spiced Apples, Lemon, Sherbert, Cake and Coffee.

A farewell party was given the short course girls by the home economics department last Thursday from 12:30 until 1:30. Frappe and wafers were served.

The invalid cookery class served a nitrogenous luncheon Tuesday noon. Menu consisted of Cream of Tomato Soup, Graham Gems, Poached Eggs, Beef Stew, Baked Apples and Coffee.

Miss Winifred Pope is quarantined in the Ceres Hall hospital with the mumps.

Mr. Walter Botsford has been missed at Ceres the past week due to the mumps.

Lottie eats pickles every meal to see if she is developing the mumps. The Manikowske brothers were guests at the dorm. Sunday.

Miss Edith Shelton attended the funeral of her uncle Saturday at Reynolds.

Miss Elsie Stark was called home to Mandan Saturday morning by the serious illness of her father.

The Misses Erlice and Grace Nelson entertained friends from Fargo College Tuesday evening.

Miss Haggart's class in Muffology has been progressing rapidly. New branches of the study are being introduced daily. Seniors still without a subject for their thesis, had better inquire here as there is still a large field for research work to be done.

Short Course girls have been leaving daily.

Miss Vivian Shute, the Pres. of the F. C. Y. W. C. A. addressed the college girls Sunday afternoon. She gave an interesting talk on the student volunteer work.

Mrs. Martins Camp Fire girls enjoyed a delicious spread Tuesday evening. The spread was served by the Misses Sorenson Rushfeldt and Rizpah Ladd and consisted of sandwiches, cream veal on toast, pickles, crab apple jelly, chocolate wafers and pineapple desert. During the spread Indian legends were told by Barbara Hidner, Isabelle Booth and Mrs. Martin. This circle is going to aid the Associated Charities in their work here in Fargo among the women and children in the foreign quarters.

AGRICULTURAL CLUB.

The club met and listened to the following program:
The Rural Credit System.....Thos. J. Jackson.

Music..... Selected
After the program, which was very interesting, the following officers were elected:

President.....Morton Sherdahl
Vice President.....Harry McIlroy
Secretary.....Arthur Fedje
Treasurer.....R. B. Arneson
Critic.....M. A. Thorfinson
Sargent.....Ray Markland
Reporter.....Johnson

A good program is assured for next Friday evening. Come to room 22, Engineering Building, and attend the inauguration.

SOCIETY

UNIVERSITY ENTERTAINED.

After the basket-ball game Saturday night, the visiting University people were entertained at a dance in the Armory. The Student Council had the management of the affair and sold tickets to the A. C. students at fifty cents each between halves of the game. All University students were given complimentary. Dr. Putnam's orchestra furnished the music, and punch was served during the evening. There were two rules governing invitations to dance which were announced by Clarence Williams, President of the Student Council. One was that no dances could be engaged ahead. The other that an A. C. girl when invited by a University man to dance must do so whether or not she had already promised that dance to an A. C. man. This proved to be a very good system, for it gave the University fellows a chance to find out what fine girls we have here at A. C. The spirit of good fellowship between the two institutions was shown thruout the evening.

T. C. O. AT GRAND.

The Treble Clef Club sang two selections at the Grand last Sunday night. By the amount of applause, they seemed to make quite a "hit," altho several of the members were absent.

A. C. STUDENTS IN CONCERT.

Last Thursday evening, there was a concert given at the Plymouth Congregational Church under the direction of David Sonquist. Other A. C. people who participated in the concert were Esther Evans and Eugenia Ruff. There is to be another similar entertainment given in April. Since this church is so near the college and so easily accessible there should be more A. C. people attending the concerts and also the church services.

CONCERT AT CIVIC CENTER.

The concert at the civic center last Friday night was a great success. The participants wish to thank Miss Simmons for being so kind as to plan to give them a dance after the concert. Due to the arrangement made for the Treble Clef Club to sing between the last two acts of the Y. W. C. A. play, a great many of the girls could not remain. They were sorry, however, that they had not remained, when they arrived at the armory just too late to help out the music proposition.

CROWDED OUT LAST WEEK

Mr. Chas. Korn and son Joe of Marion, N. Dak., were visitors about the campus Friday.

Dean Bolley returned Friday from Velva where he had been to address the farmers' school, and reports a very enthusiastic meeting. The average attendance was about three hundred. He stated that Amos Ewen was making a great hit with the farmers of that region.

Prof. Stevens of the Pure Seed Laboratory and Mr. Mercer of the General Laboratory went to Mayville this morning to inspect seed.

Students will be grieved to learn of the death of Mr. W. W. Archer, father of Ralph Archer, of the First Year Power Machinery Class, who passed away at St. John's Hospital Thursday night.

Friend Ogaard and his countrymen spent Sunday celebrating his twenty-third birthday. Will the year 1913 be his hoodoo?

Prof. Miller is back on the job after a strenuous tussle with diptheria.

CHECKS ARE SAFE

It is certainly safer to carry a check book with you than to carry a roll of bills. Lost money is seldom recovered. A lost check becomes worthless by having the bank stop payment. A paid check is an indisputable receipt.

We invite every student to open a checking account with us and handle his finances in a businesslike way.
