## Elite Of Inter-High School Talent Assembled

Saturday Will be Gala Day for the A. C.

### TRACK MEET AND DECLAR.

Entries Up to Date Point to Better Contest and Meet Than Ever Before.

Everything is practically arranged for the Inter High School Field meet and Declamation contest which will occupy our undivided attention Saturday afternoon and evening. This will be the Fifth Annual Meet.

All entries are not in yet but at present all indications point to a greater interest than ever. The track meet is in charge of Prof. Keene. Prof. Minard is looking after the success of the declamation contest, while Prof. Randlett will be a most royal entertainer.

The contestants, chaperones and coaches will receive nourishment from the hands of Miss Eastgate at Ceres Hall. Arrangements are being completed for lodging for everyone. Guides will be appointed, to show the visitors about points of interest and answer questions for the curious.

Preliminaries will probably be held in the forenoon. The track meet will begin promptly at 2:00 p. m. on Dakotah Field. The prizes

PROF. MINARD  
In Charge of Declam.

will consist of Gold, Silver and Bronze medals to winners of first, second and third places, respectively. The school winning the relay race will be presented with a fine wall shield. A similar shield will be awarded to the school winning the meet.

Gold, Silver and bronze medals will be awarded to winners of first, second and third places respectively in the declamation contest. A beautiful silk pennant is the permanent property of a school winning first place two years in succession.

The new triangular track will be ready for its first meet. Tents will range along the track. The band will be out and a great athletic contest will be waged. The long waits

Event—	1909	1910	1911

## College Night At The Big Tabernacle

### WINNER OF CONTEST HEARD

A. C. Students Show Good Spirit.

Last Tuesday was special College Night at the Tabernacle. Mr. Sunday preached a special sermon to young people of College rank, and the several student bodies had good seats reserved for them. The weather was threatening, and in fact throughout the entire service there was a continual downpour of rain and occasionally hail—not to mention the hail which was dispensed within the Tabernacle. In spite of the unpropitious aspect of the skies there was a very good student attendance. By the special invitation of the members of the Sunday party. Mr. James Sharp, who won for Fargo College the highest honors in the State Oratorical Contest again delivered his oration on "David Livingstone". This oration is without doubt a masterpiece of effort, a clear and vivid presentation of a noble, well spent, self sacrificing life. The moment Mr. Sharp closed Dean Mendenhall jumped to his feet, faced the A. C. delegation, and energetically demanded "What's the matter with Sharp". Without hesitation the entire bunch responded "He's all right", and the yell was carried thru with a heartiness that showed the appreciation of the A. C. students of the man who was able to keep the oratorical victory from us. It is to be hoped that soon the last vestige of enmity between the two schools will vanish and leave naught but a healthy, friendly spirit of rivalry which will put every contest on the plane it should.

### CRACK SQUAD

Regular Drill at 7:45 p. m. today (Tuesday.)

so prevalent at track meets will be obviated to a great extent by careful planning to make everything run smoothly.

The Declamation contest will be held in the Armory at 8:00 o'clock sharp. Last year the contest was very keen and there is every indication that the coming one will be hotly contested.

The results of both contests will be reported in a special edition of the Spectrum to be distributed during the informal reception and dance after the declamation contest. Light refreshments will be served at that time also. This feature is in charge of Prof. Doneghue.

The meet was won by Grand Forks last year. Fargo and Valley City have captured first on former occasions.

## Freshman Win First Game Of Series

Senior Preps are Defeated by an 8 to 2 Score.

Before a crowd of nearly three hundred students the Senior Preps baseball team went down to defeat at the hands of the Freshmen. The "dope" before the game favored the Preps and the easy victory for the "Freshies" came unexpectedly.

The game was called at 6:45 by umpire Holkesvig. Captains McKee for the Preps and Beardsley for the Freshman tossed up and McKee won. The battery for the Preps was McKee and Crouch and for the "Freshies" Sorenson and Cockburn.

The Freshmen failed to do anything their half of the first inning but the Preps secured one score.

At the beginning of the second inning the Freshmen started to do something. Lohn was the first man up to bat and walked. Cockburn was up next. Lohn steals second on first ball pitched, and goes to third on Cockburn's grounder. Dixon singles to center field. Lohn scores. Erickson also steals second and third and he scores on an error. Jacobson struck out.

Good support prevented the Freshmen from scoring again until the fifth inning.

The Preps were retired in each inning by the "strike out" route and only one hit was chalked up against Sorenson the Freshmen twirler.

During the fifth and sixth innings the Freshmen by bunching their hits added two more scores to the list making the score 5 to 1 with the Preps in the cellar.

In the last inning the Freshies started a batting rally and scored three runs before they were stopped. In the last half of this inning the Preps made every effort to regain the lead and succeeded in getting one run. The game ended by a score of 8 to 2 in favor of the class of 1915.

Too much credit cannot be given Sorenson, the freshman pitcher. His control and curves were good. Cockburn who caught did well and easily outclassed the Preps receiver. Captain Beardsley at first was there with the goods and proved himself an able leader. Stoa at second, Swanson at short and Jacobson on third composed the rest of the infield and played good ball. Lohn Erickson, Berg and Divon took care of the outfield in good style.

For the Preps, Bachman on third made several sensational stops. Balsinger showed up well on first and was down on hits like greased lightning. McKee twirled but was wild. Perry held down second, but couldn't connect with the Freshman spit balls.

Great spirit prevailed during the whole game and some good enthusiasm was shown. The rooting and yelling was first class. The game was clean and free from dirty work. Chester Holkesvig umpired the game and was that FAIR by all.

The lineup was as follows:

Freshman	Senior Prep
Cockburn	c..... Crouch
Sorenson	p..... McKee
Beardsley (Capt.)	1b..... Balsinger
Stoa	2b..... Perry
Jacobson	3b..... Bachman
Swanson	ss..... Aslackson
Lohn	lf..... Rankin
Erickson	cf..... Mikkelson
Berg, Dixon	r..... Christianson

Score by Innings:  
Freshmen 0 3 0 0 1 1 3—8  
Senior Preps 1 0 0 0 0 1—2

## Spectrum Special Out Saturday

A Full Account of the Meet And the Declamation Contest.

### SPECIAL TENT ON GROUNDS

Paper Will be Distributed at Reception.

In order that the guests of the day—the best in state high schools—may take home an account of the big day as a souvenir of the occasion, it is the intention to place an edition of the Weekly Spectrum into their hands at the reception, containing as accurate a story of the play as is possible under the conditions. Manager Keene will place a tent on the field for the staff and the typewriters will be kept on the jump all afternoon during the meet. In the evening the contest will be covered and you will receive a copy not from the press before the festivities are over. A meeting of the staff will be held Wednesday to complete plans. We will be able to do this by special arrangements with the Ulsaker Printing Co., who will deliver the goods on time.

### CINDERS.

Schuman has advanced a theory that athletes go stale upon overexertion. From the capers of some of the track candidates, the enzymes will not have a chance to multiply with very much rapidity.

Balsinger will make the best of them go some when the pistol announces the hundred and the twenty.

Mikkelson is hurling the discus and hammer with great zeal and is showing great improvement.

Nolet is working hard for several events, the high jump, the mile and the hurdles.

Boucher and Perry are out for the 440 and the half. Both are fast and are on the job every minute.

Our meets this year will be with the University on Dakotah Field on the 25th. Winners of firsts will probably all be sent to the Conference meet at Carleton on the first of June.

More material out for the track team, would mean a victory or very good showing at both meets. The trouble lies in the fact that we cannot enter all events.

Tho there has been only a small turnout for track, the small number in training have been working faithfully and an excellent showing has been made. No one has appeared as yet for the two mile run so there is a good chance for some of last year's long distance men to get on the job.

The fact that none of last year's men have turned out made it necessary that the old ruling be changed and Bolsinger was selected for the position. Nolet, Bolsinger, Boucher and Perry are leading in the track events and all are doing good work. Owing to the heavy rain Friday afternoon, the Moorhead Normal game was called off at the close of the second inning. At that time the score stood 1 to 0 in favor of the A. C. Bently was in the box and was doing excellent work. Parizek made the only score on an error by the Normal catcher in a low throw to first.

### SPECTRUM STAFF.

All members of the Spectrum staff are requested to report at Spectrum office at 1 o'clock Wednesday. Important.

## Cadets Working Hard For Annual Inspection

EXAMINATIONS FOR COMMISSIONS ANNOUNCED.

The cadets are gradually mastering battalion drill, and the outlook for a good showing at the annual Government Inspection the latter part of this month are exceptionally good. Wednesday, the battalion review and inspection was nearly perfect. Butts manual was executed in the better form than at any time this year.

Target practice continues and the volunteers for the work are quite numerous. The department posted a bulletin this week announcing the holding of examinations practical and theoretical, for all commissioned positions in company A. It follows:

### NOTICE.

An examination, open to all male students for the positions of Captain, First Lieutenant and Second Lieutenant for Company "A" for the year 1912—1913, will be held the last week in May.

Scope of examination will be, as follows:

Theoretical—Drill Regulations to include School of the Battalion.

Practical—Exercises in drilling squad, platoon, and company in close and extended order.

Salaries—Captain \$50.00 per year; First Lieutenant \$40.00; Second Lieutenant \$30.00.

Other things being equal, preference will be given to students who have completed the military requirements.

S. P. HERRIN,

First Lieutenant U. S. Army,  
Professor of Military Science and Tactics.

### 1913 AGASSIZ.

The students of the college and high school courses did not respond with a large number of subscriptions for the Junior Annual. It has been sent to the printers and will contain everything that you want to remember about the past college year. Arrangements have been made to bind a limited number in full leather at a slight increase in cost.

If you wish a copy of the spiciest Annual ever published at the A. C., see Edgar Olson or Clarence Williams at once. No extra copies will be provided unless ordered at once.

Out of town subscribers should write immediately. Price \$2.00 prepaid, \$1.75 in Fargo.

### EWEN AND WESTLUND VISIT JOHNSON FARMS.

Amos Ewen and Ephraim Westlund returned from Marion Saturday evening. They visited the Johnson Farm at that place, studying the methods of farm management employed there. They report a very instructive trip. The owner entertained them royally, giving them an extended auto tour about the different farms. The dairy and poultry department were probably of the greatest interest. The poultry plant is one of the finest in the world. About 100 cows comprise an excellent dairy.

### GLEE CLUBS !!!

Members of both Glee Clubs are requested to report for practice in preparation for Baccalaureate exercises at 7:30 Wednesday evening in Music Hall.

## Miss Haggarts Class At Armory Friday

Proceeds for Girl's Gymnasium Apparatus.

Providing the weather is fair the Annual Gymnasium Exhibition will be held in the Armory Friday at four o'clock in the afternoon. It will be an exhibition of the regular class work. Following is the program.

- Marching
- Free Exercises.
- Military Schottische Series, Contest Games.
- Barbell Drill.
- Gymnasium Games
- Dumbbell Drill.
- Athletic Dancing.
- Relay Race.
- 15-20 minute Basket Ball Game.
- (Girls Rules.)
- Admission 25 cents.

### AT OTHER COLLEGES.

The Oregon-Portland Excursion consisting of a trip to the O. A. C. by prominent business men of that state, was a great success and served to awaken the people of the state to a fuller appreciation of their Agricultural College. From indications here, Fargo needs just such an awakening.

Prof. T. D. Beckwith formerly head of our Bacteriology department now at O. A. C., is making good at that institution if the O. A. C. Barometer voices sentiment correctly.

Carleton scored a double victory in debate by defeating Coe and Ripon, arguing for both sides of the closed and open shop question.

The U. of Nebraska has abolished final exams. Keep the ball a rolling.

Only three freshmen at DePauw were able to pass the examinations for eight grade pupils prepared by the National Educational Association.

### OFFICIALS FOR INTER HIGH TRACK MEET.

- Referee—Arthur Rueber.
- Inspectors—A. C. Boucher, C. F. Schroeder, C. L. Schuman.
- Finish Judges—Prof. Thompson, Prof. Sudre, A. H. Parrott.
- Field Judges—Prof. Zieffe, Mikkelson, Prof. Minard.
- Starter—Prof. Miller.
- Scorer—Prof. Slocum.
- Timers—Prin. Kalmbach, Leonard Wirtenberger, Palmer Foss.
- Chief Marshal—W. A. Yoder.
- Asst. Marshals—Clarence Williams, Frank Peters, Ray Balsinger, John Nolet, Edgar Olson, Fred Hackett, Wm. Perry.
- Announcer—Chester Holkesvig.

## TRACK MEET.

On Saturday of this week, the Fifth Annual Inter-High School Field Day and Declamation Contest will claim our attention. Students from all over the State and Minnesota will then assemble here, some of them for the first time. They are the material from which the freshmen of the future must be recruited. We have opportunities and facilities here that would attract the flower of inter-scholastic talent to us and it behooves us to treat them with due courtesy. Make yourself useful in any way you can. Act as an appointed or self appointed guide. Welcome them and make their stay with us a memorable one. At the reception in the evening forget that you are a disciple of Terpsichore until the visitors have been accommodated. Saturate yourself with A. C. spirit and be on the job all the time.

There is little need for mentioning this, for our students are generally willing to do their share in promoting these affairs and this should not be an exception to the rule.

## GO AHEAD AND "CUSS."

The habit is easily acquired—all most spontaneous. We hear men cursing around us almost every day. They may not get blasphemous, but they pull off a damn or a hell and think nothing of it.

They use hell to express every degree of comparison one can think of. It is either as hot or as cold as hell, or perchance if the man was on the track he was running like hell.

And damn is the most convenient adjective imaginable. If it is on the diamond, some man is a damn good hitter or a damn nice pitcher, or if it is on the stret she is a damn pretty girl and some fellow is a damn fool for looking at her.

We have thought all along that there was a good reason for all that, and along comes a New England parson to confirm our thoughts. Read his ten reasons given below and learn to "cuss" like a gentleman or give up the job. The ten reasons follow:

First—Because it is such an elegant way of expressing one's thoughts.

Second—Because it is such a conclusive proof of taste and good breeding.

Third—Because it is a sure way of making one's self agreeable to one's friends.

Fourth—Because it is a positive evidence of the acquaintanceship with good literature.

Fifth—Because it furnishes such a good example and training for the young boys.

Sixth—Because it is such a good way of increasing one's self-respect.

Seventh—Because it is just what a man's mother enjoys having her son doing.

Eighth—Because it would look so nice in print.

Ninth—Because it is such a help to manhood and virtue in many ways.

Tenth—Because it is such an infallible way of improving one's chance in the hereafter.

## BUT DO NOT USE SLANG.

Have you read the essay on slang in slang written by a Sub, which we publish in this issue? If not, look it up and read it and then think about it. What is the thought? Can it not be expressed in one brief sentence. Does it deserve even that much space for its expression? For what does the humor of the article consist? Is its expression a revelation of wit, insight, judgment, or skill, on the part of the author.

Could not any one with very little mental effort do the same thing just as well as it is done here?

Is there any virtue in being an accomplished "sling-slang?" You think of George Ade at once, and his thousands of dollars of literary gain. But does Ade's humor come from his clever handling of slang? It does not. George Ade possesses an exceptional ability for character creation, he has that sympathy for human nature which is the greatest of all the powers that make the genuine humorist, he has a gift of wit and judgment. His slang occasionally gives witty flavor to his sentences. It appeals to a certain type of mind without fail continually. But his use of slang for his work condemns it at once to the great flood of temporary literature. Slang is a temporary language at best, and can carry no work or thought to immortality. George Ade makes more money by using slang and does less real good, and misses all the chance he has for immortality.

Do not express your thought in sand, carve it in marble. The sand artist never reaches great thought, immortality never urges him on. Slang is so easy to use, it will induce first, carelessness in thought and then, thought extinction. If your thought is worth expressing, express it in the best form you can. If you have no worth-while thought, spend your time in finding some and let who will waste his time in sand and slang artistry.

—The Technique.

## OUR EXTRA.

Due to a slight error in our advertising section, two issues of the Spectrum went forth last week. Before many of the first edition had been distributed, faculty intervention was apparent and a new corrected and more proper number appeared. That a mistake had been made is admitted but we think that the fact that the paper was suppressed caused more people to learn about it than if it had gone forth. It was also noticeable that action was quick and sure in this case while the villifying statements of the Fargo Blade during the last city election squabble regarding the A. C. and its students in general received no attention whatsoever. Is it fair?

## INTER CLASS BASEBALL.

Great interest was displayed in the first game of the interclass baseball series. Friendly rivalry classes is one of the means of breaking up the monotony of college existence aged. The schedule is given in this, and should be fostered and encouraged and will be followed out as closely as the present unsettled weather conditions will permit. Paste it in your hat and attend at least your own class games and stir things up. Be at the park at 6:30 and cheer your team.

The Fargo Blade is still slinging mud. Its sorehead editor devoted a quarter column of its hypocritical space to a denunciation of a part of an advertisement found in an issue of the Spectrum which was suppressed. He begins by saying, "We are in receipt of a copy of the Weekly Spectrum..... etc." As a starter, let us be understood as saying that the soreheaded disgruntled, would be—never to be—and late aspirer for the mayoralty position of our fair city, knowingly or unknowingly prevaricates in the above, his opening statements. Let it be known to all men by these

presents, that the Weekly Spectrum, the official publication of the Students Council of the North Dakota Agricultural College, edited and published by the Students of the College" has heretofore and will continue in the future to bar from its exchange list, the Police Gazette, Fargo Blade and similar publications.

## ATHENIANS.

The following program was given by the Athenians Friday evening:  
 Vocal Solo.....Eugenia Ruff  
 Debate—Resolved that the U. S. Government should establish a Parcel Post.  
 Affirmative,.....Edna Steedsman  
 Marion Cox  
 Negative,.....Carl Yerrington  
 E. W. Anderson  
 Locals.....Lancy Montgomery  
 Extemporaneous Talks:—  
 1. Follies of the Age.....Barrett  
 2. Campus Decoration.....Williams  
 3. Sights I have seen.....Ogaard  
 4. Fresh Air.....Addie Stafford  
 5. Cats.....Maisie Griffin  
 Music.....Mable Leet

The musical numbers were especially good and both responded to encores.

The debate in which the affirmative won was very spirited.

The extemporaneous talks were given in a clever manner, Ben Barrett's and Maisie Griffin's deserving special mention.

## The Cool Collegian

The popular little comedy, "The Cool Collegians" will be given in the Armory at 8 p. m., on Friday night May 25th, by the graduating class of the Agricultural and Manual Training High School.

This play pictures the adventures of two college boys of the most modern type on a summer vacation. Of course there are a couple of beautiful young ladies in the cast and the time the young people have in fooling a maiden aunt furnishes the background for more fun than has ever been jammed into an hour's time before.

Muggins, a colored valet and Kate an Irish servant, contribute their share to the fun.

Jack Kerr and Wilbur Rankin will take the part of the college boys while the part of Mrs. Huntoon, the aunt, will be portrayed by Mabel Ewen. Rizpah Ladd and Lillian Hume, as Fanny Morrison and Mollie Wainwright, are the two young ladies that cause all the trouble.

The part of the Irish servant, Kate will be played by Miss Olive Larson. Arnold Christianson will be Muggins, the negro valet. Mr. Christianson has appeared in a number of different roles and made a great hit last fall in the Hesperian play as Colonel Hightower. The tickets will be on sale on May 15th. Admission 25c.

Not many of our students can afford the luxury of a body servant but the college boys in the "Cool Collegians" have the most comical valet you ever saw. Imagine Ichabod Crane, of Sleepy Hollow fame, dressed up as a black face comedian, and you have an exact picture of the way Arnold Christianson will look on May 25th at the High-chool class play. As far as we know, Mr. Christianson is the only Swede who has ever undertaken to play the part of a black face comedian in Fargo, and he is sure to make a hit. He will appear in the Armory on Friday night, May 24th.

"The Cool Collegians" will be the first play ever attempted by any graduating class from the preparatory Armory, May 25th, at 8 p. m. Owing to the absence of Wilbur Rankin, Lillian Hume and Rizpah Ladd, it was impossible to hold a rehearsal of the high school play on Saturday last. The cast is rounding into shape rapidly and by May 25th, they will be ready to present the "Cool Collegians" like a company of professionals.

The Lansford Journal—a long way from the agricultural college and uninfluenced by local interests or prejudice—had the following editorial regarding the North Dakota Agricultural college:

It seems that the North Dakota Agricultural college has been used as a football by the legislatures of the past, and it is sincerely hoped that the next season will see a little better grade of legislation for this important state institution. It would

# The North Dakota Agricultural College

For Completeness of Equipment and Faculties for Instruction is unsurpassed in the Northwest

The College Department offers Eleven full Courses viz:

Agriculture	Civil Engineering	Biologic Science
Mechanical Engineering	Home Economics	General Science
Education	Pharmaceutical Chemistry	Chemical Engineering
Veterinary Science	Chemical Science	

The courses are available to those who have completed the equivalent of a good high school training.

For those who have not had such a training

The Agricultural and Manual Training High School offers complete secondary courses in:

Agriculture	Engineering and Manual Training	Commerce
General Science	Domestic Science	Rural Teachers Training

These courses all fit fully for college entrance

## Special Courses:

Pharmacy	Commerce	Homemakers	Farm Husbandry
		Power Machinery	

A Complete Commercial Training is Offered to All Students

## THIS COLLEGE

OFFERS to the young people of this state an education which is thoroughly in line with modern thought and demands. It spends no time on dead languages or such subjects as are of little practical value. It aims to fit young men and young women for responsible positions in life. The demand of the present is for men and women who can think and investigate for themselves; who can deal with the social, agricultural and industrial problems of the day. This demand the Agricultural College is attempting to supply.

The Laboratories and Shops are Thoroughly Equipped

The Instructors are Specialists in their respective lines

Exceptional Advantages are offered in Biology, Chemistry, Domestic Science, Literature, Mathematics, Engineering and Veterinary Science

Graduates from approved High Schools are admitted to the Freshman classes of all courses.

Credit is allowed in the Agricultural and Manual Training High Schools for all work done in the country schools.

Tuition Free. Board and Room \$3.75 to \$5.00 per week.

For Catalogs and Circulars address the Registrar

Agricultural College,

North Dakota

Farm Husbandry, Power Machinery and Homemakers' Courses Begin Oct. 16th

## Special Rates to Students

The exchange of photographs of class members and fellow students should not be overlooked because of the many reminiscences and associations they will recall in years to come. You will then value them more than you perhaps do now.

We are rapidly establishing a reputation for doing the best work at the most reasonable prices ever offered in Fargo. Call and see us.

## PERSONALS

Mr. Moen of Bristol, S. Dak., paid this institution a visit Saturday. This was Mr Moen's first visit to our city, and he expressed himself as being greatly surprised at the size and thoro equipment of the college.

George Strating, of the Farm Husbandry Class of '14, who it will be remembered was compelled to leave school on account of sickness, and was later reported as recovering, has suffered a relapse, and is now in a critical condition. At last reports he was slightly improved, with a fighting chance for life.

The Animal Husbandry Department has lately received from Ray Sherratt, a former student of the institution, a fine pair of Yorkshire pigs.

Roy Smith, F. H. '11, visited friends at College over Sunday.

Herman Halland was an added attraction at the Freshman—Prep. game.

Several of our band men took part in the Sunday School parade Saturday as members of the M. A. R. S. band.

A number of A. C. students have hit the sawdust trail the past week. (Fargo Blade, please copy).

This week, time will not permit the continuance of a twice a week policy of this paper.

Edwin Evingson, journeyed homeward Friday, presumably to look after his potatoes.

The Juniors will place a team in the inter-class league despite the deplorable loss of Bill Rommell, admitted by himself to be the fastest man outside of Class A baseball.

Doctor Putnam is kept on the jump filling his numerous musical duties.

In speaking of our new athletic field, remember that it is spelt Dacotah and not Dakotah.

After seeing the work of some irrigation engineers in the West an Englishman who had been thru Yellowstone park made the following remark to the engineer who was showing him around: "I know now the reason for those geysers of steam in Yellowstone. It's some dear departed brother engineer continuing their life work and trying to make their present abode fit for settlers."

Haste makes many burnt fingers. The Senior Preps. were very anxious to play the Freshmen but the score makes it look like an attempt to steal a red hot stove.

Geo. Manikowski of Wahpeton, a brother of Wallace, spent several days here the past week experimenting in our engineering laboratory. He has done considerable work along electrical lines. He has just recently completed an electric-light plant on his father's farm near Wahpeton, which required considerable individual designing. It consists of a power wind mill, dynamo and storage batteries. It is a success in spite of several criticism from so-called experts when he first started its construction.

Prof. Bergman is out from a short siege of typhoid at St. Luke's Hospital.

Roy Dynes was quite overcome when he received his weeks wash from the Ceres Hall laundry. From what can be learned some Ceres Hallite is minus several articles of apparel.

The open space between the Engineering building and Main is being put in good condition, and a good lawn will soon be the result. This patch will finally become a spot of considerable interest and beauty for it is the intention to mass large shrubs toward to north and make successive plantings of shrubs and smaller plants to the south. This will probably contain most of the trees and shrubs able to withstand North Dakota conditions.

A. C. Anderson writes from the Indian Reservation that he and his squaw will be here for the Senior Prom.

Doctor Putnam gave a cornet solo and several duets with Mr. Rodeheaver at the Tabernacle last week which were excellent and well received.

The members of Barrett's wiener-wurst band were the delighted recipients of a fine box of candy from the T. B. T's. Puzzle. Who are the T. B. T's?

Agustus Berg was a great asset to the Freshman team at the Prep. game. He guided his cohorts to victory by well timed exhortations coupled with certain Norwegian expletives.

Heard in Bacteriology:—  
An enzyme is a living organism halfway between life and death.

## ENGINEERS MEETING.

The Lyceum of Engineers held another combined program and feed last Friday evening which proved to be one of the best yet produced. Mr. Westlund opened the program with a talk on oiled roads—especially those of California. He told of the false ideas which had been spread regarding these oiled roads and explained the correct methods of construction. He also gave some data that occasioned some comment as to the feasibility of building such roads in North Dakota. An interesting discussion followed his talk.

Prof. Trimble spoke on the subject "The Engineer in History". Starting with the ancient engineering works and engineers of Egypt, Greece, Macedonia and Rome he traced the effect of engineer on the development of the human race down to today. He paid especial attention to the early American engineers among whom he mentioned Stevens who located the northern route thru what is now Dakota and Montana. He also mentioned the fact that we were rather fortunate in possessing a copy of Stevens report in the library. During his talk Prof. Trimble made the statement that he felt it was safe to say "No engineers, no civilization" In the discussion which followed his talk the society were favored by an impromptu speech by Prof. Keene in which he expressed the feelings of the society when he said that anyone who could secure a man like Prof. Trimble to talk to them was very fortunate.

After the meeting, all adjourned to the Copper Kettle Inn and enjoyed a little social gathering that was much appreciated.

## INTER-SOCIETY BANQUET

Arrangements have been begun for the Annual Intersociety Banquet to be participated in by the Philomathias and Athenian Literary Societies on the evening of May 24th. This event is always well attended and will be a fitting close of a very successful year on the part of both societies. Tickets will be on sale very soon. Plan to be there.

## FLYNN IN HARD LUCK.

During the gale of the last week, Flynn, the corner grocer, left a box of bills and checks on the steps for a moment. The lid blew off and as a consequence bills and checks have been found over the campus, the last find being a five dollar bill on a bush in the A. C. Arboretum. At present about forty three dollars lies scattered about the campus.

## REVISED SCHEDULE.

Today—Juniors vs. Senior Preps.  
May 9.—Freshman vs. Seniors.

## Have You Thought of an ELECTRIC CHAFING DISH FOR MIDNIGHT LUNCHEES

If a co-ed, how about an Electric Curling Iron or a Flat Iron?

STUDENTS NOT PRACTICED UPON To Whom It May Concern:

It gives me pleasure to be able to recommend Aaker's Business College to anyone desiring a thorough business education.

Aaker's Business College has all the modern equipments, and has teachers who have had many years of experience in their line and do not practice upon the students, but give them the fruits of their experience.

I was offered a position by the school as soon as I had completed my course, and I understand that it has been able to place all the students who wished positions.

Wishing the A. B. C. a prosperous future, I remain,  
Respectfully,  
JULIA TWEETEN.

## Hand Bags

Is the most practical thing to get your lady friend for a Xmas present. She may have one now, but it is getting old, and she is tired of it, and is longing for a change, hoping that Santa Claus will bring her one. Play Santa Claus and go to Monson's Trunk Store where you can't help but find what you want. All prices from 25 cents to \$35.00.

# Ceres Hall

The Misses Mary Gibbens and Hil-dur Sorenson visited Miss Ruby Gibbens of Halstad, Minnesota over Saturday.

The Ceres Hall party has been postponed until May 24.

Miss Nellie Ignatius and Mary Radcliffe visited at the latter's home at Leonard, North Dakota over Sunday.

At ten fifteen P. M. last Wednesday the bell gave one long peal in the corridors of Ceres. In about two seconds heads were seen peering curiously out of all the doors. At the same moment Mrs. Marshall announced that she wanted all the girls to assemble in the parlors. A delightful surprise was in store for the them there, for there on the tables were dishes and dishes of strawberry shortcake and pitchers of cream. The Misses Louise Poland, Mabel Cox, Ruby Head and Mary Thompson assisted with the serving. After the spread "The Yellow and the Green" and other college songs were sung ending with yells and cheers for the A. C. and Mrs. Marshall.

The last Y. W. C. A. Devotional meeting was lead by the Misses Olida Olson and Mary Gibbens. The life of Alice Freeman Palmer was discussed.

Next Wednesday either Miss Saxe or Miss Miller will speak to the girls of the college. Notices will be posted later announcing the time.

Mrs. Connor of Fairmount, North Dakota visited the Cox girls last week.

Miss Gladys Guthrie entertained the Delta Phi Beta girls at her home, Saturday afternoon. The afternoon was spent in serving and visiting. Delicious refreshments were served after 5 P. M. Although the weather was bad nearly all the girls were present and a very enjoyable time was had.

Miss Ethel Poole and Lucy Sprague dined with Miss Lila Elliott at her home on south side, Sunday noon.

# PHILOS ENTERTAIN HESPERIA.

The Hesperian Literary Society were the guests of the Philomathian Society at a banquet which was held at the Copper Kettle Inn. The members met at six thirty and a sumptuous banquet was served. After the tables had been cleared a number of toasts were given by different members of the two societies with George Gustavson acting as toastmaster.

Clarence Walters gave a very graphic picture of the development of various literary societies of the colleg pointing out different phases and incidents in their growth. He compared all of the societies to different layers of strata that have been deposited in the ages of literary work at the college.

The program was as follows: Piano Solo Carl Paine Culture and Agriculture Homer Dixon Past Accomplishments Roy Dynes Hesperia Philovian age Clarence Walters Fruits of Hesperia Jack Kerr Some Future Plans of the Society David Sondquist

# BASEBALL.

Minor games will be the order until the Fargo College game on the 15th. From then on, there will be fireworks every two or three days until the Seniors get fired.

No games with Minnesota teams this year. The Minnesota Colleges are too hard up this year to either come or receive.

University at Grand Forks the 21st. Band is going. Are you? Dual track meet and baseball game with University the twenty-fifth Big day.

Hackett is out of the game for a spell with a bad finger. Moorhead Normal some time this week.

# A GERMAN ALLEGORY.

On a recent trip to Germany, Dr. Harvey Wiley, the government's pure food expert, heard an allegory with reference to the subject of food adulteration which, he contends, should cause Americans to congratulate themselves that things are so well ordered in this respect in the United States.

The German allegory was substantially as follows:

Four flies which had made their way into a certain pantry, determined to have a feast.

One flew to the sugar and ate heartily, but soon died, for the sugar was full of white lead.

The second chose the flour as his diet, but he fared no better, for the flour was loaded with plaster of Paris.

The third sampled the syrup, but his six legs were presently raised in the air, for the syrup was colored with analine dyes.

The fourth fly, seeing all his friends dead, determined to end his life also, and drank deeply of the fly poison which he found in a convenient saucer.

He is still alive and in good health That, too, was adulterated.—Lippincott's.

They strolled among the shredded wheat

When grapes were in season; He asked her why she was so sweet. She answered, "There's a reason." —Gamecock, U. S. C.

# TO AN "INSTRUCTOR".

Treat not with such wanton disdain The little of which you're possessor, Nor sorrow, because you remain Instructor instead of "Professor".

Content you should be to be known As one of enlightenments ductors, Remem'ring how oft we bemoan Professors who are not instructors.

—Syllabus.

# OUR WRONGS.

When girls are only babies Their mammas quite insist That they by us— Against our wills— Be kissed—kissed—kissed.

But when those girls Are sweet eighteen, Their mammas say we shan't, And though we'd like to kiss them. We can't—can't—can't.

—Williams Weekly.

# MATHEMATICAL

In Vassar's halls a tutor young. 'Tis said, once met his fate; He taught her in the Calculus To differentiate.

They're married now—at meal-times oft. Discord invades their state; For he has found that she with him Would differ when she ate.

—Lehigh Burr

# SUB-MISTLETOE

We two stood near The chanelier The chanelier A lovely girl My head awhirl Her wrap—I'll help her don it. A button caught; I surely ought To help when she'd begun it. A pause, a hush, A kiss, a blush, And now, by Jove, I've done it! —Lehigh Burr

# School of Traction Engineering

A school of traction Engineering giving instructions in the care and operation of steam and gasoline engines will be given at the North Dakota Agricultural College beginning June 4th and closing June 29th, 1912.

Lectures on the construction and operation of steam and gasoline engines will be delivered in the forenoon and practical work in the field and in the laboratory will be given in the afternoon. A large number of gas and steam tractors will be at hand for the use of the students in actual field running. Such practical exercises as setting valves, babbitting, lacing belts, and setting tubes will be given in the laboratory... The laboratory work will also include exercises on a number of stationary gasoline engines. Forge work will be given to all those desiring such training.
