Number 3.

NORTH DAKOTA AGRICULTURAL COLLEGE, TUESDAY, OCT. 11, 1910.

PRICE 5 CENTS

Another Honor Comes To President Worst

President Worst returned Saturday from Spokane, Washington where he went to attend the Dry Farming Congress that was held at that place. This was one of the biggest Congresses of its kind that has ever been held and a great many of the nations leaders were there. Questions of vital importance to our commonwealth engaged their attention throughout the entire session. At its close a leader having a wide grasp of our national problems & a man who is skilled in directing the means toward this end was needed to pilot this great movement thru the coming year. Altho the foremost men of the country were there none were honored as was our President Worst for he was unanimously elected as the President and the guiding hand of this great movement.

Upon his arrival home the student body had planned to meet him at the depot and give him a rousing greeting but the special train on which he traveled arrived prematurely and in a measure defeated the students' plan. He arrived near the close of the game between our team and the Indians. At the close of the game the student body headed by Dr. Putnam's cadet band arrayed themselves around the President's carriage and thru a spokesman welcomed the President back again. The President responded in words that further endeared him to the students who have come to feel that in him they have a friend, a kindly councillor, and one who has only their welfare at heart. At the close of his address the band and a throng of students escorted him to his residence.

Here he again addressed them and embedded in their memory some of the fundamentals that go to make a useful and charitable character. The band rendered the Yellow and the Green and the crowd quietly dispersed and left the President to enjoy his family's welcome.

MAUD BALLINGTON BOOTH.

A prominent Eastern woman has recently said of her: "Mrs Booth is the only woman orator of the decade whom the public will turn out and pay to hear. Why? First of all, she is the ablest woman orator in America. Her cause is the most worthy. She is probably the most beloved woman in the land; certainly she is the most attractive of all women speakers. She has fire and magnetism—gifts of the highest oratorical order, sustained and animated by deep conviction, high purpose, and burning earnestness. No other woman before the world has been so cordially received by the press, both in her lecture work and in her prison work, as has Mrs. Booth. She is known and has been heard, and her beautiful voice with its message of love and good will to all men has been borne around the entire world, and she is rightfully called "the most beloved woman in the land."

As an orator and a lecturer, she has received the highest praise in the finest Lyceum courses in the land, and with a very few exceptions, on account of illness, has never lost a date booked by her manager. Mrs. Booth commands the highest price ever paid a woman lecturer in this country, and the money thus earned goes to support her two Hope Halls, homes for paroled and discharged prisoners. This is her only reason for coming before the public, and the public has been most willing to hear and to help her cause.

Prof. Keene Introduces Something New

The Agricultural College is never backward in introducing new features into its course of study. Whenever there appears a need for a new line of work some one of the faculty appears with the course to fit the demand. The latest innovation is a course of Household Physics. This work is intended particularly for young ladies who are taking work in Home Economics, but other students are admitted.

The course of study as outlined includes the principles of construction and operation of all the mechanical appliances used in the modern dwelling.

A little consideration of the makeup of a modern house will convince anyone that there is an excellent field for investigation. The student must analyze the various systems of house heating by steam, hot water and hot air. The different methods of temperature regulations are considered in detail. Problems are discussed from the practical standpoint and a discussion of the multitudinous mechanical appliances form a part of the regular laboratory work. Prof. Keene with the assistance of Harrison Bunt and L. A. Welo has made a laboratory equipment for this work that is worth anyone's time to visit. The apparatus is all of original design and includes separate miniature plants for hot-water, steam and hot-air heating, sectional models of every kind of valve, cock, and pipe fixtures used in pipe-fitting and plumbing. There are working examples of thermostats, pumps, motors, gas meters and electrical apparatus all of which have a place in the modern dwelling and the best part of the course lies in the fact that the apparatus is only the articles that are used in practice.

This course started this fall and at present fifteen young ladies are taking the work. In a few weeks Prof. Keene expects to have in print the first installment of a laboratory text which will furnish a guide in the work undertaken.

Mr. Wornot Armstrong who should graduate this year Farm Husbandry class writes Prof. Shepperd that he cannot return this year because ill health makes it necessary for him to seek restoration in California's mild climate. Mr. Armstrong expresses regret that he cannot return to finish the work with his class but hopes to be able to return here when his health will warrant.

Prof. Scull Has Fine Exhibit

Prof. Scull, the Instructor in Manual Training has beautiful exhibit of his handiwork in the shape of various articles of metal work and jewelry that is to be exhibited this week before the State Federation of Womans Club at Bismarck. This is an exhibit that bears the marks of an artist and should be especially inspected by all our students. When you have a moments leisure visit the Manual Training rooms and see what can be done with the various metals. This should be of particular interest to the young ladies.

Joint Debate

On December 9, occurs the joint debate between the Athenian and the Philomathian Literary Societies. This event will be held in the college Armory. There is a great feeling of rivalry entering this contest and it promises to be one of the events of the school year. This is the third contest of this kind between the two societies. The first one was held in 1908 and the decision was in favor of the Athenians. In 1909 the Philomathians were the winners. The coming contest will be the end of the series and the winners will receive a banner which is to remain as the property of the winning society.

The question is: Resolved, that the United States should shape its legislation toward the gradual abandonment of the Protective tariff. The affirmative is to be upheld by the Philomathians and the negative by the Athenians.

Dean Shepperd Judges

Dean Shepperd was a speaker and a judge at the county fair at Alexandria, Minnesota last week. He judged corn and small grain during the day and spoke in the evening. The fair was one of the first class altho the facilities for handling the exhibits were limited on account of there being no regular fair grounds. In connection to the farmers grain and live stock exhibits the school children had a large exhibit showing some very good work.

MOUNTAIN ASH MALE VOICE CHOIR

"Noted Welsh Singers"

SEASON COURSE TICKETS RESERVED \$1.50

Special to Students, \$1.00.

Mr. Glyndwr Richards is the Conductor of the MOUNTAIN ASH MALE VOICE CHOIR, which numbers twenty-six voices. The Choir very recently made a tour of the United States, and had the honour of singing at the White House before President Roosevelt, who is reported to have said that he had never heard such beautiful singing in his life. To quote the words of a leading American newspaper, the Mountain Ash Male Voice Party is "the finest combination of male voices that ever left their home country." This was the universal testimony of those in America whose privilege it was to hear the choir. I am not in the least surprised; I confidently predicted for the Choir a phenomenal success in the States before it left its mountain home in South Wales. For I knew well the leader. He has left his mark upon his men—upon their character and upon their singing; and their singing, I must again say, is marvellous for its finish, its accuracy, its fervour and its inspiration.

I have to but to add that so great are the resources of the choir, that it is able, without the least outside assistance, to provide any audience, large or small, with a varied and an excellent Concert, from the beginning to the end. Messrs. Godfrey Price, Tom Thomas, Anthony Jones, Teifi Davies, D. P. Williams and Cynon Evans are members of the Choir, and every one of them is a soloist of remarkable power and promise.

WASHINGTON DISPATCH SAYS.

The Welshmen gave a private concert for the edification of the White House family. The event slid along like a hunk of tallow on a hot stove-pipe. The president nearly blistered his hands applauding the 'Men of Harlech.' Mrs. Roosevelt's face was suffused with pleasurable enjoyment at the rendition of 'Old Black Joe.'

More For The Zoo

Miss Laura L. Perrein of the Valley City Normal was a College visitor on Monday of last week. While here, Miss Perrein presented the division of Zoology with an interesting collection of corals and sponges from the Bahama Islands, Key West, and vicinity. Miss Perrein has recently arrived from the South where she spent a year's vacation. While there she made a large collection of zoological material, and it is a part of this collection that she has presented to the College. Donations of this kind are always welcome.

Free Lecture At The Grand

Mr. Giulio Castelli will deliver a free illustrated lecture on Rome at the Grand theatre next Sunday evening. Mr. Castelli is a native of Florence Italy and comes to this country as an exchange lecturer in Roman Languages and Literatures. You should hear him.

Water Famine

Due to the dry weather many of the sources of drinking water over the state have been exhausted and new ones have had to be obtained. The Department of Chemistry has been of great service to the people of North Dakota by analyzing on the average of two samples a day. Besides the analysis of water, Mrs. Shepperd has produced considerable data on nitrogen in wheat.

WILLIAM A. QUAYLE.

Bishop Quayle is western in rearing and American in instinct, and speaks with the ring of a lover of democracy in voice and heart. He is author of a brochure entitled "A Study in Current Social Theories," and of a theological treatise on "The Blessed Life," a volume of sermons entitled "Eternity in the Heart," and four volumes of essays entitled respectively, "The Poet's Poet and Other Essays," "A Hero and Some Other Folk," "Books and Life," and "Lowell as a Christian Teacher," being essays historical and literary; a volume entitled "The Book of Ruth," and three nature books entitled "In God's Out-of-Doors," "The Prairie and the Sea," and "God's Calendar."

The line of theme and thinking of Bishop Quayle are out of the usual, so that he presents no stale matter; and his lectures will be apart from the themes of whoever else may be on the lecture course.

He is a Bishop of the Methodist Episcopal Church, which demands much time, and he engages in much literary and philanthropic work, so that he cannot give much time for lecturing.

An A. C. Student Injured

Roy Olson of Drayton, N. D. who was one of last years short course students was the victim of a serious accident last Monday. He was operating a steam plowing outfit and his family came out in an auto to witness the work being done when the engine without warning suddenly exploded, due presumably to the safety valve becoming stuck. All of the family were more or less seriously injured. Mrs. Olson suffered a fracture of the skull which may cause her death.

From Others Schools

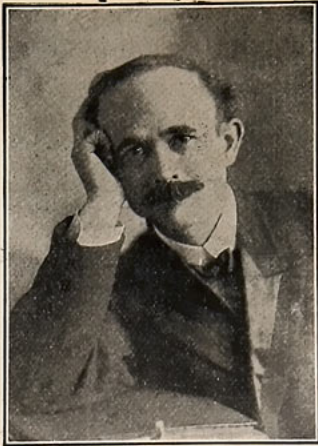

Some of the students from other institutions that have come here for work at this college are:

Arthur J. Ogaard, Ellen G. Syse, Richard K. Peterson, Grace Clements from the University of Minnesota; Fred Smith Peterson, B. S. Eastman, Geo. B. Wagar of the University of North Dakota; Wallace Manicoyiski from the State School of Science; May Kelly, Katherine Kelly, Mary A. Dolve, Carl W. Quanebeck from the Mayville Normal; Herman Monson from Luther College, Decorah, Iowa; Myron C. Smith from St. John's University; John C. Fenno from Berea College; H. O. Ward from the State Normal and Industrial School.

It's Captain Foss

At a meeting of the football men in the Armory Friday afternoon, Palmer Foss was unanimously elected Captain of the team for the 1910 season. Foss was the star of last years team and knows the game from start to finish and is well qualified to lead the men through the hard games this fall.

Dr. Bell has recently received Part I. "The Birds of New York," of Memoir 12 of the New York State Museums. This is a finely illustrated treatise on the birds of New York, and is a valuable contribution to our bird literature. It is especially valuable to those who are interested in birds of this state, as many of those described are native birds of North Dakota. The illustrations are the work of the great bird painter and naturalist, Fuertes, which alone insures them to be of the highest order.

JUDGE BEN B. LINDSEY.

Ben Lindsey, like Joe Folk, came from Tennessee. Left penniless by the death of his father the day after a fifteen thousand dollar life insurance policy had lapsed, he came to Denver with his mother. He went to work as an office boy for a law firm, and added to the family income by doing janitor work for Judge Robert W. Steele.

It was in a fight against jury fixers that Ben Lindsey began his political career. Twice he and his partner tried a celebrated damage case, and twice their bulk of well-massed evidence was brought to naught by the twelfth jurymen. So he "broke into" politics in order to obtain the passage of a three-fourths jury law in civil cases.

His ability soon became recognized, and he served as counsel for one faction of his party in a political fight for control of the machine. He received the appointment to an unfinished term as county court judge, for party services rendered. But before he had been judge a month it was plain that he was no tool of a machine or even of a party.

The problem of the children first came home to Judge Lindsey in a strange way. Some street gamins were brought to his court, charged with robbing a pigeon roost. As he talked with the trembling youngsters his memory jumped back fifteen years to a time when another party of boys had planned to rob that same cote, and in the attempt some had been caught and some had escaped. He recalled that one of those boys had died for his country on San Juan hill, that another was doing time in a State penitentiary, and that a third was now sitting in judgment on other lads whose futures as good citizens or as criminals might depend upon his wisdom in dealing with them.

Debs Visits Us

Mr. Eugene V. Debs who delivered a lecture in our city was a college visitor last week. Mr. Debs was struck with the size of our school, the beauty of the place and with the work it is doing. He is in sympathy with the kind of education that the A. C. gives—that kind that does not tend to alienate its students from that body of people who must shoulder the responsibilities and duties necessary for our progress as a whole. That we are here trained and inspired—not to shirk the normal equitable duties of life but to lend a hand in the great struggle of the race, was in full accord with the views of Mr. Debs. It was predicted that our type of education is the type to prevail in the future.

The Mu Dance

The initial dance of the college year occurred in the Armory Saturday evening. Putnams eight piece orchestra furnished the music which was of a grade such as only the Dr. can give. About a hundred couples were in attendance and the soft light coming thru the twining streamers gave a very dreamy effect.

All present report an excellent time at a very pretty party and the Mus wear very self satisfied smiles now that their dance was such a success in so many ways.

Polytechnic Banquet

The Polytechnic Society held its first meeting in Pirie's Hall on Second Ave. Wed. night, Oct. 5. The main feature of the program was the supper which was greatly enjoyed by all present. After the supper Dr. Van Es, the President-elect, gave a short address. There were about forty men present, nearly all of the new Faculty men being there. A very pleasant evening was had, and the enthusiasm shown promises a highly successful year for the society.

Our First Football Game

The A. C. football team played their first game of the season last Saturday afternoon in Athletic park with the Indian team from Wahpeton. The Indians were unable to advance the ball against our fellows or to keep them from making long gains and the final score was 70 to 0 in favor of A. C.

The game opened at three o'clock with a good sized crowd in attendance. A. C. defending the south goal. Gorman kicked off for A. C. and the Indians carried the ball back about ten yards before being stopped. They failed however to make first down and the ball went over to A. C. Our men advanced the ball rapidly and four minutes after the ball was kicked off, Schroeder crossed the Indians goal and made the first touchdown for A. C. Goal was successfully kicked and the score after stood six to nothing. A. C. again kicked off and another touchdown was soon made by Martineau. In the first quarter our team made four touchdowns and kicked three of the goals which made the score 23 to 0 after fifteen minutes of play.

The remaining three quarters of the game were nothing more than a repetition of the playing in the first quarter. Wertemberger made several long runs from forward passes from which touchdowns resulted. Rucher and Schroeder also showed up well in carrying the ball and each of them have couple of touchdowns to their credit. House at full back proved very effective in smashing the line and made many long gains through the Indians.

The Indians put up a very poor exhibition of football and showed the lack of experience and training. They were also very weak in tackling and in handling punts. The game was anything but interesting from the spectators point of view for at no time during the contest did the Indians make a stand and put up any kind of a fight against the A. C. team.

The A. C. line up was as follows:
Gorman, Capt. R. H.
Foss (captain) L. H.
House P. B.
Feuschel Q. B.
Olson A. C.
Edwards, Lynch G.
Grant G.
Schroeder T.
Reuber T.
Martineau, Oblinger E.
Wertemberger E.
Officials: Watkins, Referee, Richardson, Field Judge, Darner, Umpire, Fred Birch, Head lineman.

Prof. Dynes Become Member Of Cornell Staff

Professor Dynes writes from Cornell University that he has been given a position as a temporary assistant in the agronomy work at that institution for four months. It came to him unsolicited and his friends are congratulating him as it is considered quite an honor to be trusted with such a duty at that institution. It is work which requires little time and is very educative in its character. Prof. T. L. Lyon is in charge of that work at Cornell was formerly with the University of Nebraska and knows Dean Shepperd and the Agricultural work of the N. D. A. C. well. Such recognition of the A. C. is certainly encouraging and a personal compliment to Mr. Dynes which A. C. people will regard well merited.

Dry Land Association

A meeting of the Dry Land Association was recently held at Dalhart, Texas. The President of the Association being unable to be present Dean Shepperd was requested to fill the vacancy and deliver the opening address. The meeting was essentially of a scientific nature and was more for the purpose of fitting the experimenters for his duties then to bring out facts that are practically applied in the farming of Dry Land region. A very interesting paper was presented on Alfalfa written jointly by Supt. L. R. Waldron and Charles H. Clark of the Dickinson Experiment Station. Among the other A. C. people who attended were, J. C. Thysell, O. A. Thompson, Clarence Plath and W. O. Whitecomb.

THE WEEKLY SPECTRUM

Published every Tuesday of the school year by the students of the North Dakota Agricultural College, at the Fram Publishing Company, 207 Broadway, Fargo, N. Dak.

Entered as second class matter September 28, 1907, at the post office at Agricultural College, N. Dak., under act of Congress of March 3, 1879.

Subscribers are requested to give prompt notice of any non-delivery or delay of papers. All communications should be addressed to Business Manager "The Weekly Spectrum," Agricultural College, N. Dak.

TERMS. One year in advance \$1.00 One year in arrears 1.25 One term .50 Single copies .05

STAFF

C. M. Hennis, Editor; Edwin Traynor, Associate Editor; Chas. Hammond, Business Manager; E. M. Dodge, Editor; Bohrt, Miller, Athletic Editor; Addie Stafford, Society Editor; Helen Hoover, Exchange Editor; Fern Dynes, Reporter; John R. Wentz, Reporter; Jack Dinwoodie, Reporter; Mark Heller, Reporter

This is an industrial age and as yet all branches pertaining to the development of industrial lines are in their infancy. Many are the varied suggestions that are offered for the carrying out of this work.

Prof. Weeks has kindly given many helpful suggestions and such an organization is being formulated. This will be the first professional industrial club of its kind in any college in the United States.

It is to be hoped that success will meet these efforts and that the friendly ties formed in this club will be carried beyond the college days and found useful in future years to all that participate.

Encouraged by the increasing number of students at the College who are evincing a lively interest in debating, the Board of Public Speaking Control is working for the establishment of a Tri-state Debating League in which will be included the Minnesota Agricultural College, the South Dakota College and the N. D. A. C. Members of the debating boards at Minnesota and South Dakota have been consulted and are apparently agreeable to the plan.

A contract already exists between A. C. and South Dakota by which the A. C. is to meet South Dakota in a debate at Brookings next April. In case the proposed League be formed the contract of this League will supersede the one already existing between this institution and South Dakota.

According to the proposed plan the annual debate would be held at each institution on the same question and on the same night. Each institution would have two teams, the first, which would remain at home, and uphold the affirmative of the question against the visiting team from one institution, and the second which would go to the other institution, and debate the negative.

The information of this league will be advantageous in many ways. Heretofore, in our inter-collegiate debates when we have been debating with but one institution, our team did not have the opportunity of as thorough and effective preparation as will be afforded if this league be formed.

Dr. Hult at one time Professor of English Language and Literature at the A. C. but now of the University delivered one of his deep, and beautiful lectures at the Grand Sunday evening.

With Mr. Traynor's arrival the Spectrum Staff is at last complete. The whole family is now "at home." While we are busy and have a good many little cares we are never unruffled by

ing "held up" outside of office hours and shot full of good live news by any of the students or faculty. Approach any of the Staff (they'll not hurt you) and at any time or place and tell them all about it and if space will permit your item will appear in print.

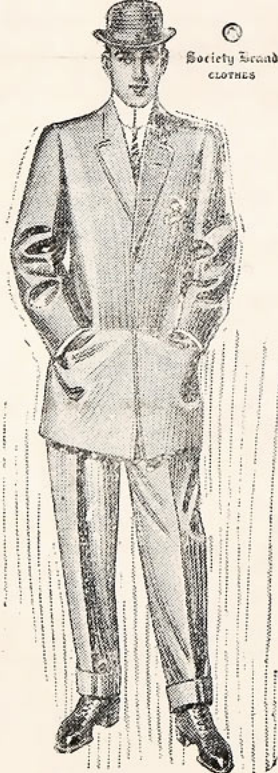

Prof. Sudro Will Speak

Prof. W. F. Sudro of the Division of Pharmacy will speak before the Polytechnic Society next Wed. evening, Oct. 12, on the subject "The Physiological Standardization of Drugs".

A Larger Building For Live Stock

During the summer quite a change has been made in the facilities for caring for the sheep on the college farm. The original barn was remodeled and a wide wing extending out seventy feet was built on the east, making practically a new building thruout.

SOCIETY

Y. W. C. A.

The Y. W. C. A. girls met in the Athenian room in the basement of the Library Thursday at 3:30, and held their first devotional meeting. The chief features of the meeting were the reports of the various committees, laying before the association, and particularly the new girls, the plans for the coming year. Much enthusiasm was manifested in the Bible Study Classes, of which four are to be organized.

WITH THE LITERARY SOCIETIES ATHENIANS.

On Friday evening most of the Athenians and quite a number of their friends met in the Athenian room to listen to the initial program of the year. The following were the numbers rendered:

- Piano Solo Mr. Walter Holt
- Talk Mr. Clarence Williams
- Reading Miss Fern Dynes
- Piano Duet Misses Alm and Cox
- College Spirit Mr. Holkesvig
- Vocal Solo Mr. Yerrington
- Locals Mr. Chas. Rizicka
- Declamation Mr. Brandenburg
- Yellow and Green Society

PHILOMATHIANS.

There was something doing last Friday evening - the Philomathians met and rendered the following program:

- Piano Solo Mr. Floyd Caldwell
- Vacation Experiences Donald Dike
- Talk Prof. Arvold
- Reading Miss Helen Hoover
- Vocal Solo Miss Margaret Keene

CASTALIANS.

The girls' society of preparatory students met in the old chapel on Friday evening and enjoyed the following program:

- Essay on Behavior Clara Gunness
 - Reading Connor Sadie Kohler
 - Too Late for the Train Lillie Hofstrand
- A business meeting was held immediately after the program, and the officers elected for this term are:
- President Ethel Walker
 - Vice Pres. Clara Gunness
 - Secretary Sadie Kohler
 - Treasurer Maude Heidner

HESPERIANS.

The boys' preparatory society met in Room M in the main building on Friday evening, when a short but good program was enjoyed.

- President's Address John Kerr
- Talk on the Constitution Max Waldron
- Talk Prof. Martin
- Talk Prof. Arvold

Exchanges

A cross country meet is being arranged between Carleton and St. Olaf.

The Princeton University library has been increased to the extent of eighteen thousand volumes.

The chancellor of Oxford University has announced that hereafter that ancient institution will insist less on the classics and will give more attention to the studies which are practical in everyday life.

Dr. Woodrow Wilson, who was nominated for governor of New Jersey by the democratic state convention, said that he would offer his resignation as president of Princeton University to the board of trustees on Oct. 20th.

The University of Mississippi has decided to abolish Creek letter fraternities.

The Montana A. C. has a well-organized Booster's Club that does things.

About Climaxes

"The ball was on the 50 yd. line and it looked as if the team was going to suffer a touchdown in spite of the frenzy of the rooting brigade. Bigsby slid through guard and center and nailed the pass, the ball was ours—"Kick," "Kick," came the advice from the bleachers. And right in the midst of it blamed if Jim didn't get away round right end on a double pass and heel it down the field with big Crooney as interference. They knocked over the full back and beat it across the line for a touchdown so quick that Prexie fell off his chair. That's the sort of climaxes an old grad likes to see."

You can see unexpected climaxes in all sorts of society and among all sorts of people any time you spend a dime to attend the Savoy on Broadway. Cleanest, prettiest theatre. Most polite vaudeville, motion pictures and illustrated ballads. Every afternoon and evening except Sunday.

Ceres Hall Notes.

All the Kitchen apparatus of Ceres Hall is now in good working order, and table accommodations can be had for all students.

Miss Haggart, the nurse employed at Ceres Hall, has had quite a number of sick girls the past week to demand her time and attention. Among them were Beatrice Alm, Florence Kermott, Emma Welo, and Grace Erickson. The college is to be congratulated on securing the services of such a competent person as Miss Haggart.

Miss Hoover was requested to speak at the Minn. Educational Association at St. Paul this week, but on account of having so much work on her hands was compelled to refuse. This is only one instance of the numerous calls for lectures from the Home Economics force of our college.

Miss Blanche Moyer has returned and taken up her abode in Ceres Hall, after spending a very pleasant vacation in the East. While there she visited Philadelphia, New York, D. C. and other points of interest.

The N. Dak. Educational Association meets at Bismarck Oct. 18 for a five days session at which Miss Hoover delivers two lectures. The first is to the superintendents' section on the subject of Domestic Science, and the second is on "Domestic Science in the Rural Schools. Miss Donaldson will discuss the paper on "Domestic Science without a Special Teacher", written by Miss Leahaganon of Mayville. An excellent exhibit is being prepared by the Home Economics girls to be displayed at this meeting.

Once again the Home Economics Dep't has been called upon to furnish material for exhibits, this time the call coming from the Women's Federation Club which meets at Bismarck this week. Mr. Hollister chairman of the committee on Domestic Art, called at Ceres Hall Tuesday afternoon and succeeded in securing considerable of the work from Mrs. Ash's Department.

The Misses Helmer Heath and Myrtle Wilson of Gardner were college visitors last Thursday. Miss Wilson was on her way to Wessington Springs, S. Dak., where she expects to enter a seminary.

The inner hour at Ceres Hall has been changed from 12:30 to 12:15.

PERSONALS

Elmer Dynes left for his home at Gardner Tuesday to recuperate from an attack of tonsillitis.

Horold McKinstry spent Saturday and Sunday at Detroit, Minn. visiting relatives.

The various members of the faculty are busily engaged in writing up their portion of the college biennial report which goes to the governor.

Miss Anderson, a niece of Mrs. Birch, visited chapel Mon. Oct. 3 with Miss Agnes Halland. Miss Anderson has returned to her home at Missoula, Mont. where she is attending the state U.

Miss Agnes Lawrence, a former student of the A. C., visited last Friday with Miss Elsie Pelissier. Miss Lawrence intends to take up both vocal and instrumental music this winter at Minneapolis.

Carl Nesheim of last year's Pharmacy Dept is working at the Economy Drug Store at Minot.

Rumor has it that the genial treasurer of the Athenians absconded with the society funds, forsook the inspiring influences of the literary meeting and participated in the first of a series of social events which are being given in the A. O. U. W. Hall in this city.

Professors Beckwith and Randlett were the official representatives of the College at the University a week ago Thursday at the installation of President McVey, while Dr. Batt represented the N. D. Library Association at the same function.

Dr. Putnam's orchestra has been engaged to render the musical program that is to be given at the dedication of Wheeler Hall at the Moorhead Normal. When real music is wanted Dr. Putnam is the one usually engaged.

Burke Critchfield is spending a short vacation at his home in Hunter.

Dr. Harris was out on a hog buying expedition Thursday afternoon and incidentally took a gun along (A fearful waste of ammunition; no birds.)

Those who are in doubt as to their conduct should secure a copy of the little pamphlet on "Behavior" written by Miss Guinness.

Mr. Arthur Marsden and Mr. Thomas L. Todd of Hendrum, Minn. called at the college last week to look over the live stock. Before leaving they bought some young Shropshire rams.

Many inquiries have been received by Prof. Richards for purebred live stock this fall. The demand for pure bred sires of swine and sheep is especially great. The total sales of the last month amounted to \$237.00.

Miss Alma Erickson has been taken from the hospital to her home at Niagara, N. Dak. where she will probably remain until the beginning of the winter term.

We notice in the society column of a recent issue of one of the city papers that several prominent members of our faculty have been elected to membership in the Roycroft Dancing Club.

Drs. Van Es and Schalk spent Saturday hunting. They took the morning train out to Harwood and hunted on their way back. Dr. Schalk was so tired that evening that he forgot to read the "dope" on the "Cubs" before retiring.

Mr. Frank Connors an old A. C. boy and one of our star debaters is at present engaged in electrical work with the Electric Light Company at Minot, N. D. Mr. Connor has an ambition to learn more about concrete and engineering problems involving its use and may be seen in our midst sometime in the future.

Last Wednesday morning Prof. Keene's class in household Physics visited Mr. Parrot's basement where they examined his heating plant. Thursday A. M. the class again spent an hour in the Power Plant, while on Friday, Prof. Week's new house on N. Broadway furnished ample material for a lecture.

Mr. Haile Chisholm, the Instructor in Forge Shop, reports the largest enrollment that he has ever had at this season of the school year. With the coming of the Farm Husbandry men next week every forge will probably be serving some young fellow who is desirous of learning the art of blacksmithing or allied subjects. Mr. Chisholm spent some time during the summer in the Twin Cities studying matters relative to his line and he now has the most modern equipment available.

Michael Levy of the freshman pharmacy class was taken suddenly ill last week with appendicitis. Mr. Levy was engaged in his usual afternoon laboratory class when attacked by sudden pain. Prof. Zieffe at once proceeded to relieve him but finding his efforts fruitless he called the ambulance and accompanied him to the St. John's hospital. An operation was performed the next morning as the case was found serious. Mr. Levy has had several previous attacks of this kind.

Mr. R. E. Lembecke of last years class has returned — not to take up post-graduate work but to greet old friends

— If You Want the Best, buy the —

and to see if everything is running smoothly here. Of course they are. Mr. Lembecke during the summer has been assisting the city engineer of Moorhead and later in the season was called west to lay out the new townsite of Energy. He has been offered a fine position as coach and instructor of Manual Training at Park River but after looking over the proposition decided in favor of another under consideration.

Leo. Thein, since the close of school last year has been employed at Minot in the Maintenance Department of the G. N. Railroad Company. He has recently been transferred to Havre, Montana and may not be with us this year.

IT PAID HIM,
To Whom It May Concern:
Through advertisements, I was induced to come to Fargo to attend a business college. I tsaid two weeks, after which I enrolled at Aaker's Business College, where I am well satisfied with the attention I received. It paid me to make the change, even though I lost tuition advanced at the other school.

Respectfully,
TONL BUCKMEIER,
Jamestown, N. D.

THIS IS THE YEAR that shows the difference between good farming and poor farming. You can make and save money by studying the causes for success of our most prosperous farmers and applying the results of their experience to your own farm operations. The Dakota Farmer of Aberdeen, S. D., makes a business of seeking out and analyzing these causes and presenting the results to its readers. Thousands of farmers have found in the columns of this great paper the ideas that have made them prosperous. You can get three free copies by sending your name and address on a postal.
