

THE WEEKLY SPECTRUM.

Official Publication of the Student Council.

VOL. XVII.

Number 2.

NORTH DAKOTA AGRICULTURAL COLLEGE. TUESDAY, OCT. 4, 1910.

PRICE 5 CENTS

Morris, Minnesota, Gets Plath.

Mr. Clarence Plath of the class of '08 and who since graduation has been stationed at the Edgeley Sub-Experiment Station as assistant agriculturist has secured a three months leave of absence from the Department at Washington and will go to Morris, Minnesota where he has been engaged to teach Agronomy at the School of Agriculture run in connection with Sub-Experiment Station at that place.

The Morris management have funds only to warrant a three month's engagement but expect assistance from the State Legislature which meets this winter and this will enable them to make the position permanent. At the expiration of this engagement Mr. Plath will spend the winter in one of the Departments at Washington and return again in the spring to take up his work at the Edgeley Station.

Before leaving for Minnesota Mr. Plath has been visiting with friends here in the city and treating them to little "joy rides" in his new touring car.

Arizona Gets An A. C. Man.

Arizona is one of those states whose misfortune is to be situated under arid conditions. What vegetation it has is sparse, and because of its geographical situation it cannot easily be irrigated. Her far seeing men realize that the state will be called upon to care for her quota of our ever increasing population and in order to do so more must be produced. Since the rainfall cannot be increased nor their peculiar climatic conditions altered, the only course left open is to select out and breed such plants that show a particular fitness for this arid condition. Plant breeding then is one of the most masterly steps that Arizona can take for her own welfare. This was realized, but where could be secured one who had the training necessary to fit him to assist in this important work? Many were appealed to and among them Dean Shepperd who offered the name of Mr. Chas. Clark, a graduate of this institution of the class of '08. To the credit of this Institution, Mr. Clark was selected from the list of the available men and began his work about Sept. 15, at the University of Arizona. In addition to the training here at the A. C. Mr. Clark had the good fortune to be associated with Prof. L. R. Waldron as assistant in plant breeding at the Dickinson Experiment Station, a fact that will fit him to carry on the work that will be expected of him in Arizona. The many friends of Mr. Clark will follow his career with interest.

Rex E. Willard Gives Up Good Position For A Better

Mr. Rex E. Willard of the class of 1908 is another of the A. C.'s products who is still climbing to higher heights. Following his graduation he was at once enlisted into the service of Uncle Sam as an expert in the Bureau of Soils, with headquarters at Washington, D. C. While connected with this Bureau it has been his good fortune to have traveled over a large part of the United States as an expert representative of the Bureau of Soils. His winters have been spent largely in the southland, while the Northern States have claimed him in the summer.

In recognition of his experience, ability and work, the management of the Agricultural College at New Mexico offered Mr. Willard allurements enough to induce him to quit the services of Uncle Sam and join them in the capacity of Instructor in Soils. He will also do experimental work in soils under the irrigation projects along the Rio Grande River. This gives Mr. Willard an excellent opportunity to do some effective work along his chosen line, and his friends here at the A. C. expect to hear from him again.

During the past summer Mr. Willard spent his vacation in the North, and accompanied his brother Prof. D. E. Willard from St. Paul to the Coast. It will be recalled that Prof. Willard, at one time the head of the Department of Geology of this institution, is now the Northern Pacific Railroad Company's Development Agent and has his headquarters at St. Paul. To Prof. Willard is due the credit of supplying the Better Farming Special that made the trip St. Paul to the Coast.

Y. M. & Y. W. C. A. Joint Reception.

The biggest, best, and most social ever held at the A. C. was pulled off Saturday night by the Y. M. and Y. W. C. A. Scarcely a face was missing for all were there and there for a purpose—that purpose being to get acquainted. So far as could be seen none were disappointed for due to the skill and ingenuity of the committee in charge schemes were devised by which all artificial barriers were swept away and the whole crowd became democratic, became imbued with a desire to meet and intimately know their fellow students. All became young again and engaged in the mirthful and harmless pastimes of youth. Every pulse was quickened by laughter, every heart made lighter by the good cheer, and good will that swept away all formality. A general contest was continually in progress with all as contestants and all endeavoring to meet the most people and say the most and have the best time. Aside from the various games poverty making was tried and scores of poets burst into song and many were the touching sentiments evolved. Prof. A. G. Arvold choose the homeliest subject imaginable but with that fertile imagination and Arvold ingenuity deftly fashioned it into a prize winning article. During the evening several musical numbers were rendered to the delight of the crowd as was evidenced by the hearty encores given to each number. Miss Edythe Grasse and Miss Mickelson rendered two beautiful vocal numbers each. Messrs. Caldwell and Holt in a masterly fashion played two piano selections. The Misses Cox and Alm gave one of their popular piano-duets.

A tasty and bountiful luncheon was served by the committee in charge and shortly afterward all collected together and gave a few of the college yells and then dispersed to their respective homes feeling a little more kindly toward each other and all impressed with the good work that is being done by the Y. W. and Y. M. C. A.

Dan Gupid Knows No Rest.

In spite of the number of college students who graduate each year the number of Alumni is gradually decreasing. This fact was noticed last Friday evening, when due to the activities of the little god, two more of the graduates of the A. C. Miss Emily May, '06 and Mr. Clarence Plath became one. The ceremony took place at the home of the bride's brother Mr. Elmer May on Second Avenue, South and was performed by Rev. Chas. R. Adams of the Presbyterian church. The bride was beautifully dressed in a gown of Mexican drawnwork which was set off by a handsome necklace of amethyst and pearl. The groom was dressed in the conventional black. After the service delicious refreshments were served to the fourteen guests. The announcement came as a surprise to the many friends of the young couple for the wedding had been planned for next month but owing to the fact that the groom accepted a position as teacher of Agriculture in the schools at Morris, Minnesota he, was compelled to take up his work on Monday, Oct. 3rd. The happy couple left at 10:30 the same evening for the new home. The Spectrum extends heartiest congratulations in behalf of the friends of the young couple at the college.

Football Schedule.

Following is a schedule of the games to be played by the A. C. team this fall. All the games but one with the University of N. D. will be played at Fargo. The University game will be played at Grand Forks.

Indians Oct. 8th
State Science Oct. 15th
South Dakota State College Oct. 21st
University, N. D. Nov. 5th
Fargo College Nov. 10th

Season tickets for all local games will be \$2.00 and this includes the game with the Indians Oct. 8th. Regular admission to these games is \$3.00. The sale of season tickets will not be pushed. Students registration cards will admit them free of charge into all games played on the home field.

Any student loaning his card to another will forfeit it as they will be taken up.

OUR COLLEGE SONGS.

Yellow and the Green.

Ho! a cheer for Green and Yellow
Up with Yellow and the Green;
They're the shades that deck our prairies
Far and wide with glorious sheen,
Fields of waving green in spring-time,
Golden yellow in the fall—
How the great high-arching Heaven
Looks and laught upon it all!

Here in autumn throngs the nations,
Just to gather in the spoil,
Throng on freight cars from the cities
Some to feast and some to toil.
Then the yellow grain flows eastward
And the yellow gold flows back;
Barren cities boast their plenty
And the prairies know no lack.

Hushed upon the boundless prairies
Is the bison's thundering tread,
And the red man passes with him
On his spoiler's bounty fed.
But the Norse the Celt and Saxon
With their herds increase and find
Mid these fields of green and yellow
Plenty e'en for all mankind.

Ho! a cheer for Green and Yellow
Up with Yellow and the Green
They're the shades that deck our prairie
Far and wide with glorious sheen,
Fields of waving green in spring-time
Golden yellow in the fall—
How the great high-arching Heaven
Looks and laught upon it all!
—PROF. A. E. MINARD.

M'Kinstry Accepts Fine Position.

Harold McKinstry, one of last year's graduates, has accepted a fine position as Assistant Agriculturist at the Sub-Station at Hettinger, North Dakota. Mr. McKinstry has had special training along soil lines and goes to Hettinger well fitted to cope with the problems that this region presents. During the summer he has had charge of a soil survey party that operated in Kidder County and later in the region touching New Salem. Mr. McKinstry will spend about a month here in Fargo making out his reports and finishing up the maps he has underway after which he will proceed to Washington, D. C. where he will spend the winter in one of the Departments. He will return in the spring and take up his work at Hettinger.

A citizens' lecture course will be given at the Agricultural College Armory. This course consists of five numbers. The first will be given October 25th by Maud Ballington Booth. She is at the head of the Salvation Army in the United States and a great prison worker and is without question the greatest woman orator in the country. "Little Mother" is her name among convicts and ex-convicts from Maine to California and she calls them all "My Boys." She is delightfully quiet and undemonstrative on the platform, yet she is so full of fire and energy that you think of her as one who could easily move mountains. One great feature that marks her as a successful lecturer is her ability to hold the most hypercritical audience without any seeming effort.

The second number will be given December 12 by Bishop Quayle of Oklahoma who is known as "The Great Divine."

Judge Ben B. Lindsay, "The Kids Judge" from Denver, Colorado will give the third number.

Clark and The Pasmore Trio, or some great political man will be on the fourth number.

The last number will be given by the Mountain Ash Chorus from Wales.

It is only thru the untiring effort of Prof. A. G. Arvold that this institution and the city of Fargo are able to enjoy such a series of treats.

All students and citizens should boost this course. If anyone lacks enthusiasm, go to Arvold.

Boost the course and help to fill the College Armory to its utmost capacity. Season course tickets, reserved \$1.50. Special to students \$1.00.

CHEER UP! ONE GOOD TIME COMING! The Alpha Mus held a meeting Thursday night and decided to give the first dancing party of the season at the College Armory next Saturday evening, October 8th.

Our Alma Mater.

Our Alma Mater true, fond praise to thee is due;
For boundless joy is thine to give thy children might;
Thy joy is ever to crown that strength with truth and right;
Then joy be thine to hear us sing.

Chorus.

Our dear A. C. thy praise we sound
With tribute free our hearts abound;
Our lofty blue shall ring, our prairies broad resound;
Glad praise to thee, our dear A. C.

We bid adieu, we sigh, but hope and courage high
To win the narrow way where fame awaits the few;
Yet, named or nameless we, the fight shall be full true,
And add but glory to thy name.

Oft shall we dwell on the glad days spent care free,
Till to the winding Red again we speed our way;
Then with proud love we'll view the ever broadening way
And flaunt the Yellow and the Green.
—A. E. MINARD.

Rally! Rally!

A rally will be held next Friday at 11:00 A. M. if permission can be secured. Its purpose is not so much to develop spirit and yell as to her the coach elucidate on the new rules and explain the technique of the game. Let every one who says that he does not enjoy the game because he does not understand it, be present.

Ceres Hall Notes.

Miss Dolve who has been spending a week with her cousin at Ceres Hall has returned to her home in St. Paul.

Miss Clara Guinness returned to her home at Abercrombie on Wednesday to attend her sister's wedding.

Miss Sadie Kohler went home on Friday evening to Little Falls, Minn.

Mrs. Hanson is spending a few days with her sister, Miss Mae Englehorn.

The dining room of Ceres Hall was opened on Friday evening and about a hundred students partook of the first meal. Only the students who were boarding at the old dormitory can be allowed to enter for a few days, as the kitchen apparatus is not in working order. As soon as possible the doors will be thrown open to all who wish to enter, and meals will be served at the following hours:

Breakfast 7:30
Dinner 12:30
Supper 6:00
Sundays:

Breakfast 8:30
Dinner 1:30
Supper 6:00

Miss Mary Thompson has been suffering from a rather severe fall.

Owing to the fact that there was "nothing doing" on Friday night, a number of the dormitory girls gathered in Miss Gibbens' room for a good social time. After a big spread, music was furnished by an extemporaneous orchestra under the direction of Miss Madge Baker. At a late hour the party broke up, everyone declaring it "the best ever."

The class in Principles of Cookery met in the library the first week with Mrs. McVeety for the purpose of receiving instruction in "Library Technique." This subject covers instruction in the use of the card catalogue, Poole's Index, Document Indexes, and various other such subjects. However some of the class were already quite proficient in that line so deemed it unnecessary to attend.

Prof. Elmer J. Thompson, of the Animal Husbandry Dep't, judged live stock at the Wahpeton County Fair on Tuesday and Wednesday of last week.

Darrow Returns

The many friends of Frank Darrow will be pleased to hear that he has returned from his European trip and will soon be with us again. Mr. Darrow, in company with his brother Daniel left Fargo June 1st and landed in Bremen, Germany, June 23. Almost immediately began a tour to all the principal cities and places of interest on the mainland of Europe. Reaching Cologne, they journeyed up the Rhine to Mainz, then to West Baden, Frankfurt and to Heidleberg where Frank's brother Kent was studying medicine at the great University at that place. While at Heidleberg Mr. Darrow saw a real, live, bloody duel, one where life was at stake.

After about a month's stay in Strausberg Frank and Dan took a bicycle trip into Switzerland and France and returned back again to Strausberg where they were joined by Kent and together the three brothers took in Paris and all the places of interest in Austria and Italy. The trip ended at Naples and the Darrow set sail for home, and on their way back visited Niagara and pronounce it unbeaten by anything that Europe has to offer.

The Spectrum congratulates itself that it was able to send a representative abroad (at his own expense) and that we shall be able to present to our readers some European sketches from Mr. Darrow's pen.

The attention of A. C. students is called to the fact that Dr. Hult formerly of the A. C. but now of the University will deliver a lecture on "Value," next Sunday night at the Grand. Dr. Hult is one of the country's deepest thinkers and his lecture will not be missed by those who have heard him before. The lecture begins at 8 o'clock and is free.

Prof. Keene, Dean of Engineering Department is busily engaged in finishing up some of his strenuous summer activities—that of writing a laboratory manual that is especially designed for the use of students in Household Economics. This book promises to be one that is distinctly in a class by itself and one that is to be a boon to students of Physics.

During the summer Dean Keene had charge of the College Exhibit at the fairs at Grand Forks and at Valley City. At the State Fair at Fargo he was chosen as superintendent of the Art Department.

Later during the summer Dean Keene was called to Glen Ullen in the capacity of a consulting engineer to pass upon some of the lignite propositions that were under consideration at that place. On Sept. 23 he delivered an address at the founding of the town of Energy on the subject "the use of lignite as a cheap fuel for North Dakota."

We regret to report that the Herron Brothers and their sister Miss Inez will not be with us this year owing to the fact that they have taken up their permanent abode in Washington where they have acquired a large fruit ranch. While here the boys were two of the institutions foremost athletes and they will be generally missed and particularly so in athletic circles. The boys expect to attend the Washington A. C. but it could not be learned what Miss Inez's future plans are. One of our Seniors is planning on a western trip, so 'tis humored. We surmise.

A controversy has arisen at Cambridge because some of the citizens do not think that Harvard should be exempt from taxation, and claim that college property is a burden to the Community.

A certain pharmacy man, with the aid of a febr assistant was recently sighted staking out a lot for the establishment of a new home. 'Tis a step in the right direction.

Dr. Batt Re-elected

AGAIN MADE PRESIDENT OF N. D. LIBRARY ASSOCIATION.

Friday and Saturday of last week the N. D. and Minnesota Library Association met and held a joint meeting. Dr. Batt being the President of the Association opened the session and delivered an excellent address upon the subject, "The Library and the Peace Movement."

Dr. Batt showed how peace literature grows by leaps and bounds and how the literature and movement claims the especial attention of the librarian. He urged the librarians present to take an active part in the peace movement because of their peculiarly fortunate position they can help in guiding the public thought in the direction of peace.

At the conclusion of the two days meet the election of officers was held with the result that Dr. Batt was re-elected President in recognition of the valuable services rendered to the association during the past.

The other officers elected were:
Vice President—Winnie Bucklin, Minot.

Secy.—Treas.—Emma Huckman, State U.

Executive Committee—Prof. O. G. Miss Nelle Olson and the above officers.

Convocation.

A. L. MILLER
Secy. Y. M. C. A.

Monday's convocation exercises were largely of a Y. M. and Y. W. C. A. character. State College Secretary, A. L. Miller was present and delivered an inspiring address upon bible study and some of the fundamental things of life. He developed the facts that nowhere can be found a better source of character building material than the bible.

Mr. Sidney Adams of the N. D. Immigration Association was also present and delivered an unusually interesting address upon the subject of the Bible he brought to the attention of the students that the bible is in fact a whole library of the best literature in existence. He showed that if an orator, a drama or any other masterpiece of literature was sought that it could be found in the bible.

ATTENTION.

Attention is called to the fact that the chapel exercises next Monday will be of particular interest to the entire student body.

The musical Department under the guidance of Dr. Putnam will have charge of the exercises and an enjoyable hour is insured as the orchestra and probably the band will assist.

Be there and bring your voice.

GLEE CLUB CALL

There will be a meeting of the Glee Club tonight (Tuesday) in Music Hall at 7:30. All men who can sing are invited to attend.

C. S. PUTNAM,
Director.

This is the second issue of our college paper for this school year and we take great pleasure in renewing the old familiar exchanges, and are also glad to welcome new ones. The exchange department of any paper ought to be interesting and beneficial, as it brings the school closer in touch with others of its kind.

THE WEEKLY SPECTRUM

Published every Tuesday of the school year by the students of the North Dakota Agricultural College, at the Fram Publishing Company, 207 Broadway, Fargo, N. Dak.

H. M. Dodge, Publisher

Entered as second class matter September 28, 1907, at the post office at Agricultural College, N. Dak., under act of Congress of March 3, 1879.

Subscribers are requested to give prompt notice of any non delivery or delay of papers. All communications should be addressed to Business Manager "The Weekly Spectrum," Agricultural College, N. Dak.

TERMS. One year in advance, \$1.00 One year in arrears, 1.25 One term, .50 Single copies, .05

STAFF. C. M. Hennis, Editor Edwin Traynor, Associate Editor Chas. Hammond, Associate Editor H. M. Dodge, Business Manager Bobt. Miller, Athletic Editor Addie Stafford, Society Editor Helen Hoover, Exchange Editor Fern Dynes, Reporter John B. Wentz, Reporter Jack Dinwoodie, Reporter Mark Heller, Reporter

TO AVOID CRITICISM Do nothing Say nothing Be nothing -ELBERT HUBBARD.

You will notice that with this issue the Spectrum appears in a new form. This change is due to several factors, one of the chief of these is the fact that owing to the general feeling of depression among the business men of the town, it was impossible to secure enough advertising to make the old eight page paper a financial success.

It was found that by printing a four page paper with one more column on each page and by using the regular newspaper style of type, that it was possible to get in about the same amount of reading matter as was run in the Spectrum of last spring, this space being all that can be used for news, and at the same time would reduce the cost so as to make the paper a success financially.

We think that the change is for the better as it brings the paper into what is more nearly regular newspaper form and at the same time makes a paper that is easier on both the Manager and the Editor, and we hope that the change will prove satisfactory to our subscribers.

We print elsewhere in this issue some of the College Songs. We do this at an early date for the reason that we have many new students and it is but natural that they would desire to acquire as speedily as possible our College songs. We are soon to have a number of games with other institutions, and our boys' mettle and manhood will be tried out beside our rivals and naturally we want them to bring the honors into our camp. Old players say that there is nothing that fits them for the fray like encouragement from their friends given in the form of yells and college songs and music by the band. If then, we can help our team on to victory by means of songs or College yells lets us do it and lets us without further delay prepare ourselves by learning by heart all the yells and all our college songs. Let every student feel that he or she has a responsibility and a part in winning the games from our rivals. If need be cut out songs printed in these pages and carry them with you and commit them as you wend your way College ward. In each of the buildings are posted placards on which are printed the College yells. Learn these by heart and be ready to join the Rooters chorus.

During the summer, three of the five monthly Educational Butter scoring Contests conducted by the State Dairy Commissioner, R. F. Flint, were held at Fargo. These were the first contests of their kind undertaken in the state and much good already has been manifest. The plan was for each butter maker in the state to send a twenty pound tub of butter to be scored. After being scored each tub was sold, express charges deducted, and a check for the remainder together with the score card and judges' criticism returned to each sender. Many butter makers have taken advantage of the contest and a marked improvement in quality, appearance, and workmanship have resulted. The scoring each time was done by Mr. J. G. Winkler, Federal Dairy Assistant, and Prof Martin of this College.

The Dairy Department has co-operated during the summer with the various county and state fair associations and the other dairy interests of the state for the upbuilding of this industry. At the Grand Forks fair a 48 hour milking contest was conducted with the object of determining which cow produced the greatest amount of butter fat in the given time. A beautiful silver cup trophy given as a prize by the Duluth Evening Herald was won by Hart Bros' cow of Grand Forks.

During the State Fair at Fargo, an educational scoring contest of milk and cream was held. A good showing was made in both classes. Cash prizes were given by the Fair Association. The

Burrell-Lawrence-Kennedy type of machine was used, it being operated by electric power. These demonstrations attracted wide attention among the fair visitors.

Miss Johnson and Miss Handeyside under Dean Ladds direction are busy in the office getting out the annual report of the Food Department. The report will cover investigations of food, drugs, beverages and sanitary inspection and also research work and the enforcement of the Pure Food Drug and Beverage laws. The report is to be put into the hands of the Governor the first of November.

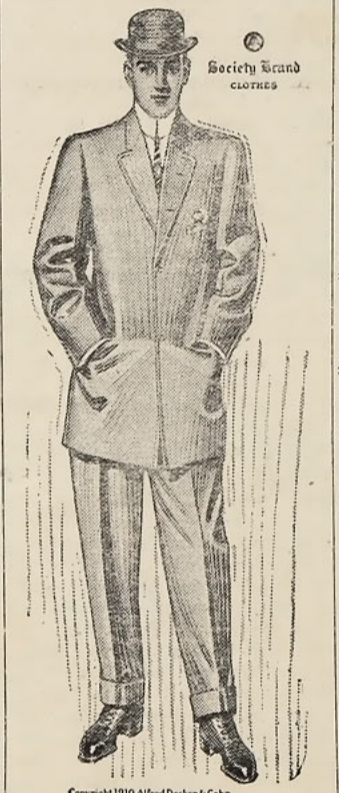

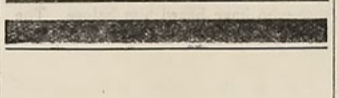

Word comes to us that Mr. Percy Gussman, one of the A. C.'s old students has severed his connection with the Valley City nursery and has gone west and become connected with a nursery firm at Portland, Oregon.

Dave Moore of the class of '09 is at present at Schenectady, New York making a further study of electricity in one of the big electrical works at that place. Naturalism ever offered by any college or university in the country has been published by the U. of W. It has been given by an Alumnus of the institution and amounts to \$400.00 per year.

"For The Seniors— Do'n't grunt Do your stunt." Ex.

Teacher to Henry (holding up long hair)—"What is that?" Henry—"Die Haar." Teacher—"Haar is neuter." Henry—"This is a feminine Haar."

Prexy Campbell of Oregon U. says that fraternities should stimulate their members to carry out the high ideals of college life. The old idea that frats are an evil, he says, is fast dying out and it only remains for the frats to show by their work that it is entirely unjustifiable.

Mr. and Mrs. Erickson are visiting their daughter, Miss Alma.

Scott Stanbaugh has at last ceased to meet trains from Detroit.

Mr. and Mrs. John Dynes have been spending the past week in town attending a church conference and incidentally visiting their son and daughter.

Mr. William Rommel has returned to take up his work at the A. C. He spent the first part of the summer at Paradise, Mont. on the N. P. Dining Car farm. Later he went to Spokane, Wash., and then to Wenatchee which is in the fruit district.

The members of the Y. W. C. A., met Wednesday in the basement of the Library for their first business meeting. As the president, Miss Agnes Peterson, is not to be at school this fall, Miss Fern Dynes was elected to fill the vacancy. They will meet again soon to decide on what day to hold the regular devotional meeting.

Thursday morning Prof. Keene took his class of girls in Household Physics thru the basement of Ceres Hall to examine the heating plant and water works. Friday morning the class visited the Power House and were initiated into the mysteries of furnaces, boilers, pumps, etc.

Thos. Treacy, who took preparatory work last year is attending Chicago Veterinary College.

Dr. Putnam's Orchestra rendered the musical program at the North Dakota-Minnesota Library meeting which was held in Moorhead September 30, October 1, 1910.

Mrs. Leavell of Fairfax, Minnesota and Mrs. Merrill of Fargo were visitors at the Library last week.

Miss Grace Briscoe returned to school last week. Last June Miss Briscoe was one of the number that went as a representative from this college to the Y. W. C. A. meet at Lake Geneva. From there she went to Baraboo, Wisconsin where the summer was spent in visiting with old friends.

Mr. Roy H. Ward, one of last years Pharmacy bunch has been heard from. After spending the summer in Pittsburg, he journeyed back to North Dakota and now has the management of a drug store at Stanton, North Dakota.

Max Waldron is back again after having spent the summer as an assistant to the City Engineer at Mandan, N. D.

Miss Nelle Olson, Librarian of the Mayville Normal School visited the Library and Ceres Hall last Wednesday.

Miss Fay Preston, of Sauk Center, Minnesota has been renewing old acquaintances here at the college during the past week. Miss Preston attended school here some time ago and is at present engaged as Assistant Principal in the city schools of Dunseith, North Dakota.

The Pharmacy boys, the athletes, and the students in general are glad to see Mr. Palmer Foss with us again. Mr. Foss has spent a greater part of the summer in a drug store at Mott, North Dakota. As a side issue he and Mr. Baker formed the battery in Mott's baseball team and as we might expect from this combination only lost two games during the entire season. For the past month Mr. Foss has been resting up at his home in Kenyon, Minnesota and returns in fit condition to duplicate his brilliant record made on last year's foot ball and baseball fields.

Mr. Howard Darling, one of last years book-store proprietors, was greeting his hosts of old friends here last week. It will be remembered that Mr. Darling was one of the fortunate few to draw a nice government farm on the Rosebud reservation last spring. His number being 48 enabled him to secure one of the very choicest farms on the reserve. Mr. Darling made his selection two and one-half miles west of Timber Lake, South Dakota which is about one hundred miles south of Bismarck. During the summer he has been representing the Fargo firm of A. L. Bishop and Son in Mott, North Dakota. After a visit of about a week here with old friends he will leave to take up the work of an up-to-date farmer.

Mr. A. P. Hertsgaard from Kindred, North Dakota was a college visitor the first of last week. It will be remembered that Mr. Hertsgaard was a graduate from the Farm Husbandry class three years ago and that he carried off first honors as having the best to ears of Dakota grown corn at the Corn Show held at Fargo. One of the ears of the lot was sold for \$25. Mr. Hertsgaard is one of the fellows that went home and applied some of the principles learned while here and as a result he is doing a nice business in supplying his neighbors with seed grain of careful breeding.

Dr. Hinebaugh of Tower City, was a College visitor Saturday.

Dennis Ford, one of last years pharmacy boys, has a fine position in one of the largest drug stores in Dickinson, North Dakota. Dennis will be particularly missed in Co-Ed circles.

Mr. Charley Hagen, the efficient horse-man at the College barns has decided to live a bachelors life no longer. Saturday of last week he was married to Miss Agnes Berg of Pelican Rapids, Minnesota and at present they are residing on Eleventh avenue.

Mr. Paul Funderhyde an old student of the A. C. but now a consulting engineer at Minot, North Dakota has arranged his business in such a manner as to enable him to tarry a little while with us again while pursuing a special line of work in the Engineering Department. We're glad to see "Fundy" back.

Mr. Geo. O. Richardson, one of Fargo's most popular traveling men was a visitor at the Engineering Department during the week. Mr. Richardson is a representative of the firm of Fairbanks, Morse and Company and has placed at this institution one of the firms electric lighting systems that is particularly designed for the lighting of farm buildings. Those interested in matters of this kind should inspect the system at the Engineering rooms.

Mr. Horace Rueber, our popular right tackle and brother of the coach, was called to Detroit, Saturday to officiate at the foot ball game between the Detroit High school and the Fargo High. In the evening Mr. Rueber and the visiting team were banquetted and treated to a royal good time. Mr. Rueber returned Sunday.

Word has been received from S. V. Anderson, who will be remembered by his many fiends among the student body and the FACULTY as a former member of the class of 1910. "Andy," who some time previous to leaving the institution embarked in the newspaper business, is at present the business head of one of the "most prominent Canadian technical magazines," the "Modern Power" of Winnipeg, Canada. With him is Victor C. Parker, '09 who is editor of the publication, and has been established under the provincial government since his graduation as head of technical publications. It is needless to say that both young men are making good, and we join with their many friends in wishing them unbounded success in their undertaking.

Personals.

Mrs. J. H. Shepperd is enjoying a visit from her mother from Chariton, Iowa.

Mrs. W. A. Yoder is enjoying the pleasures derived from the presence of her mother, Mrs. Newcomb of Vincennes, Indiana. Before returning home Mrs. Newcomb will visit with her daughter, Mrs. Evan Hall at Elbow Woods, North Dakota.

President Robert F. Flagle of the South Dakota Agricultural College. Dr. B. B. Brackett, Professor of Electrical engineering at the same institution, and Pres. Chas. H. Fulton of the State School of Mines were visitors at the college last Friday. They were looking over the college grounds and buildings and investigating the methods of teaching and the equipments. Dr. Flagle was studying more particularly the extension work as carried on by this college.

President Worst left last Thursday on a special train as a guest of the Northern Pacific Railway Company to attend the Dry Farming Congress which is to be held at Spokane, Washington. The others that will represent this institution at this congress are Supt. Hovestad, Prof. Bolley, Supt. Porter, and Mr. Palmer. This meeting lasts from Oct. 34 to 6th. President Worst will return Oct. 9th.

Prof. Weeks attended the sessions of the Committee of Seven held in this city last Friday and Saturday. This committee in collaboration with a committee of county superintendents was rewriting the state course of study. The Committee of Seven, which derives its authority from the department of public instruction and the state educational association, consists of C. C. Schmidt, W. L. Stockwell, A. D. Weeks, T. A. Hillyer, W. A. Godward, B. A. Wallace, and P. G. Knoylton.

Prof. C. B. Waldron leaves Thursday for Crookston, Minnesota where he goes to attend a meeting of the Red River Valley Horticultural Society. This society meets annually to confer upon

matters of interest to horticulturists. The meetings are usually held at Crookston and generally in connection with the Agricultural school at that place.

Prof. Bolley will attend the Fifth Dry Land Congress at Spokane, Washington, October 4th to 7th, and will deliver an address on "Conservation of the Purity of the Soil." This address will deal with the essential features necessary to maintain the soil in a proper sanitary condition with reference to cereal crops.

Dr. C. C. Clark, assistant chief of the Bureau of Statistics of the United States Department of Agriculture, was at the college last Thursday. He was talking over a plan for more extended studies on Agricultural Statistics, particularly the cost of producing agricultural crops and live stock. He states that the Bureau he represents will make a strenuous attempt to get an appropriation from the next session of Congress for this work and that the North Dakota Agricultural College is to be one of the institutions that they will cooperate with if they succeed in getting the appropriation.

Sargent Major Schoof who is an officer of the Canadian Mounted Police delivered a lecture last Tuesday at 3:30 in the College Armory. He was formerly a German subject but came to America while a young man. Later on he enlisted in the British army and spent some time in South Africa taking the part of a frontiersman. He took part in the Boer war when this trouble arose. He spoke upon this war and especially several of the principal engagements. He was a very interesting talker and by the means of the large collection of wild animals, African native weapons, and so forth he made his audience feel more closely the reality of his experiences. He also gave a short sword exhibition at the close of the lecture. Altho a officer in the mounted police force he spends several months of each year lecturing before different military schools.

The Soil Survey conducted by the Geological Department brought its field operations to a close last Thursday when Harold McKinstry returned from New Salem, Morton Co. Prof. Hard, the director of this work, has been in the field most of the summer and reports a very successful season's work. While in the field his time was about equally divided between the soil work, underground water supply, and coal resources. Three men have been in the field for at least a part of the time. Ed Clark having assisted in the work. The area of the soils surveyed this summer consisted of a large section in Kidder Co. comprising ten townships, the row extending across the county—from east to west. In addition, two townships in Northern Morton Co. were surveyed,—the ones including New Salem and Youngtown. A short account of the water supply of Kidder, Burleigh, and Morton counties will appear later. The soil sampling was done in great detail, each quarter section being covered. This very painstaking work was chiefly under the charge of that indefatigable 'field-lieutenant' McKinstry.

Pure Food bulletin No. 26 will be out this week. It deals with the experiments on wrapped and unwrapped bread, the acidity of bread and short weights. The scoring for sanitary conditions of nearly all the grocery stores in the State will also be included. Of special interest is the results of research work including baking and milling tests on vel-

vet chaff and hard spring or blue stem wheat.

Prof. Ladd has had a call to appear as a paint specialist on a case in Kentucky. He has not decided definitely whether he will go or not.

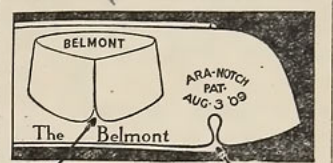

Mr. Congdon, official Food and Drug Inspector is at St. John's hospital threatened with typhoid fever. Dr. Calender who has charge of the case has hopes of breaking up the fever before it runs its entire course.

Dean Ladd has recently added to his library a complete set of 35 volumes of the Analyst for the Chemistry laboratory.

IT PAID HIM,

To Whom It May Concern:
 Through advertisements, I was induced to come to Fargo to attend a business college. I said two weeks, after which I enrolled at Aaker's Business College, where I am well satisfied with the attention I received. It paid me to make the change, even though I lost tuition advanced at the other school.
 Respectfully,
 TONL BUCKMEIER,
