PRICE 5 CENTS.

A. C. Wins Over F. C. Ball Nine

Hotly Contested Game Ends in Decisive Victory Over Preachers.

SCORE: ELEVEN TO SIX
Game Closes With Social Session in Island Park.

The first important game of the baseball season was pulled off Saturday afternoon, when the A. C. team defeated the Fargo College nine by a score of 11 to 6 on their own diamond.

The day was ideal for the contest and a good crowd from both institutions was assembled at 4 o'clock when the game was to be called. There was considerable delay in getting started, but finally the teams took their places with the A. C. at the bat.

McCarty was the first man up and struck out. He was followed by Rueber, who managed to pop a fly to center field, where it was caught by McDonald. The third man up was Bert Haskins, who also struck out, finishing the first half of the inning in a very few minutes.

Fargo College had little better luck. Slingsby succeeded in popping a short fly which was caught by Bert Haskins at second base. Baird knocked a grounder to third where it was received by Jewell and fielded to Parker at first in time to put the runner out. In jumping for the base Baird collided with Parker in such manner as to strain the ligaments in the latter's side. Parker managed to finish the inning, but was obliged to leave the field at the beginning of the second, his place at first being taken by Olson. Thayer was the third Fargo College man to bat and was put out on a short bunt which was neatly caught by Pitcher Baker. This closed the first inning with no score for either team.

In the second inning Baker made the first score for the A. C. He was first to bat and knocked out a single. Foss knocked the ball into left field, but was put out at first. Wirtenberger next brought in Baker on a single and was followed by Peterman, who walked to first. Parker and Jewell were then put out in succession, closing the half.

Fargo College found Baker's pitching even more elusive than in the first and only one man got to first base. Good pitching and fielding were the features of this half.

McCarty was the first man to bat in the third inning and fanned out. Rueber walked to first and was put on third by a double which was knocked by Haskins who also got safely to second. Baker next went to bat and just at this time an attempt was made to catch Haskins at second which resulted in a game of tag between the second and third basemen and Haskins and Rueber. Thru an error at third both men finally got safely back to their bases and a

moment later both were brought in by a three-bagger knocked by Baker. Foss sent a grounder to shortstop, but due to an error reached first safely and brought in Baker. Wirtenberger fanned out.

In the second half of the third Aronson was hit and walked to first and Slingsby got to first on a shortstop error. Baird bunted, but was caught at first and was followed by Thayer, who knocked a double and brought in Aronson and Slingsby. Pollock and Fortin were put out and the inning closed with the score 4 to 2 in our favor.

In the fourth inning neither side succeeded in scoring, altho Horner of Fargo College made a single.

In the fifth McCarty started the fireworks with a double. Rueber was once more hit and awarded first. Haskins brought in McCarty on a single. Baker struck out and was followed by Foss, who brought in Rueber on a single. Haskins and Foss next came in on a single by Wirtenberger, and Peterman was put out.

In the second half Slingsby popped up a short fly to Baker and was put out. Thayer got to first on a passed ball and was followed by Pollock who knocked a double and brought in Aronson men on bases. Fortin also got to first on a passed ball and in the meantime Pollock was put out while trying to steal home. Trost knocked a home run and brought in Fortin and Thayer.

In the middle of this inning Thayer was substituted for Aronson in the pitcher's box, but the change did not seem to improve matters greatly.

In the sixth neither team was able to gain a point.

The seventh was opened by Rueber who got a single, and was followed by Haskins who did likewise. Baker knocked a double and brought in both men on bases and was himself brought in on a double by Foss. Wirtenberger and Peterman were put out, closing the half.

Fargo College made no scores, but Fortin managed to knock a single. The score at the end of the seventh stood 11 to 6 in favor of the A. C. and no further change took place, tho both teams tried hard to run up their scores. In the eighth neither side made a hit, and in the ninth the only variation was a two-bagger by Thayer who died on second.

Excitement became intense toward the close of the game, and loth to see their visitors depart without some token of good fellowship, a number of the Fargo College men, headed by their coach, intercepted the A. C. delegation as it started homeward in squad formation, and requested that a rag of bunting which had been used as a foul line flag and was being carried off by the victors, be left as a souvenir. After a short but hearty interchange of compliments and congratulations (which was unfortunately interrupted by the arrival of the riot squad), the two factions dispersed and departed to their belated suppers.

The line-up:

State Oratorical Decision Is Close

Greenleaf, Talbot and Olson Placed In Order Given.

MARKINGS WERE CLOSE
Only Eight Points Between First and Third — Figures Given Below.

Last Friday evening was held at the University the annual State Oratorical Contest. This contest goes from one school to another in a regular cycle and next year it will be held in Fargo under auspices of Fargo College.

Mr. Schuman of the State Science School was president of the League and therefore acted as Chairman of the meeting. The judges were Rev. Mr. McCoy of Grand Forks, Rev. Mr. Johnstone of Wamepeg and President Hillyer of the Valley City Normal.

Mr. C. Crocker of the State Science School was the first speaker. His subject was "Strikes a Social Crime." He carried his subject in a logical manner laying particular stress on the Anti Strike Laws of Canada and New Zealand.

The second speaker was Mr. Peter J. Olson of this institution. His subject "The Interests and The Government" was handled in a very interesting and striking way.

The third speaker Mr. Wm. H. Greenleaf of the University, treated his subject "A Great Westerner", in a very convincing manner. This subject dealt with the life of Gen. Clark of Lewis and Clark fame. It was conceded by those present that Mr. Greenleaf was one of the most fluent speakers and had a fine easy voice.

The fourth speaker was Mr. F. H. Talbot of Fargo College whose subject was "Brooker T. Washington". Mr. Talbot showed that he had had considerable experience as a speaker and his manner was very easy.

The decision of the judges gave Mr. Greenleaf of the University, first place. Mr. Talbot of Fargo College, second place, Mr. Olson of the Agricultural College, third and Mr. Crocker of the science school Fourth place.

In behalf of the Masonic order of the State, Mr. Bendecke presented the winner of the contest with a beautiful gold watch valued at \$80.00. This is an annual custom with the Masons of the state and is a prize well worth striving for.

The decisions of the judges

A. C.	F. C.
Baker	p. Aronson, Thayer
Foss	e. Slingsby
Parker, Olson	1b. Trost
Haskins	2b. Fortin
Jewell	3b. Pollock
McCarty	ss. Baird
Wirtenberger	lf. McDonald
Rueber	cf. Horner
Peterman	rf. Thayer, Dean
Score by innings—

F. C.	0 0 2 0 4 0 0 0 0—6

Senior Cast Is Officially Announced

Ten Seniors Will Participate in the Three-Act Comedy, "Our Boys."

CLARK BUSINESS MANAGER
Advertising Matter Being Prepared and All Arrangements Being Completed.

The Senior Class Play, which will be staged in the Armory on the evening of Monday, June 6, is now well under way, and the members of the cast are hard at work on their parts.

"Our Boys" is the name of the play and ten characters are required. It is a comedy in three acts and has met with great success where it has been staged. The cast as decided upon is given below:

Sir Geoffrey Champneys	Harold McKinstry
Perkyn Middlewick	Thomas Lough
Talbot Champneys	Robert Lembeke
Charles Middlewick	Allen Clark
Kempster	Paul Funderhilde
Poddles	William Merveer
Clarissa Champneys	Jessie Thompson
Violet Melrose	Katheryn Grest
Belinda	Petrina Olson

Allen Clark is business manager of the play and is getting his plans for advertising worked out, in readiness to put into effect in the near future.

While it is possible that it will be necessary to make one or two changes in the cast, the preparations for the staging of the production will be carried on as rapidly as may be from now on, and there is no doubt but the final product will be most creditable.

Prof. Dolve discusses farm drainage quite thoroly in the last number of the Dakota Farmer.

were so close that it is thot best to give them here so that our readers can form their own opinion on the relative merit of the orators.

	Wahpeton	A. C.	U. N. D.	F. C.
	T. & C. D.	T. & C. D.	T. & C. D.	T. & C. D.
Johnstone	95	75	75	90
McCoy	87	75	90	85
Hillyer	90	85	95	97
	272	235	260	272
			258	282
			270	267
Total	507	532	540	537

It will be readily seen from these results that the markings were very close and agreed very well except on the hot and composition especially on the A. C. man as two of the judges placed him first on that and composition and the third gave him fourth place in that and composition. However we are not objecting to the decision in any way and are well satisfied as to the showing of our man made.

After the contest the committees from the different institutions met and made arrangements for paying the various bills that the organization had contracted.

CONVOCATION

The convocation speaker last Monday was Mr. Davies of Amenia, who spoke on "Land Tenure." Mr. Davies is the county superintendent at Amenia and highly commended the method of tenancy they had at Amenia.

Band Appreciated.

The following resolution was passed by the Laymen's Missionary Convention and shows how they appreciated our band:

That in view of the very efficient services of Dr. Putnam and his band at the opening banquet of the Laymen's Missionary Convention, we recognize not only that the excellent music furnished was in a large measure responsible for the success of the occasion, but the good judgment exercised in the selections chosen contributed in no small measure to the enthusiasm of the gathering.

Therefore be it resolved, that we, the Executive and Co-operating Committees, extend to Dr. Putnam and the members of his band our most hearty appreciation and prayer for their continued success, that the organization may long continue to contribute to the joy of living and the uplift of "the other man."

(Signed) John Frame,
Chairman.

H. H. Aaker, Secretary.

NOTICE.

Will all classes and organizations see about paying for their cuts at once, as we wish to get these cleared up as soon as possible.
DODGE & TOWLE.

Pres. Worst left Saturday for Louis where he will spend the greater part of this week. The occasion is the meeting of the Farmers Cooperative Union of America and Pres. Worst is one of the speakers on the program.

These are given under two heads, Thot and Composition and Ders can form their own opinion on livery as the judges marked under these two heads separately.

Owing to the fact that last years treasurer rendered no report it was necessary to levy an assessment of \$12 on each of the College Associations in order to meet expenses for the year.

Mr. Towle was unable to be present at the contest as the representative of this college and Mr. Holkesvig went in his place. The condition of the business of the State League was found not to be of the best, but some of the more important matters were taken up and an endeavor will be made to get affairs in proper shape before the end of the school year.

American Ballads To Be Preserved

Students of This Institution May
Help to Save Folk-Songs
from Extinction.

Dr. Batt recently received a letter from Prof. Lomax of the Texas Agricultural College, asking his assistance in collecting and preserving the American ballads. Prof. Lomax was appointed by Harvard University to carry on the work, which is explained in the circular printed below. In conducting an investigation for the desired material, Prof. Lomax hit upon the plan of inquiring among the students in all the colleges of the country, as he would thus reach representatives of almost every district. It is with this end in view that he asked Dr. Batt to inquire among the students of this institution for ballads or folk-songs.

Under appointment from Harvard University as Sheldon Fellow for the Investigation of American Ballads, I am trying to bring together the most typical folk-songs of the United States. Such "ballads" as "From Buffalo to Syracuse," a canal boating song; "The Mountain Meadow Massacre," a Mormon song; "The Old Chisholm Trail," a cowboy trail song; "Jerry, Go He That Car," a railroad song; "The Arkansaw Traveler," an early settler's song; and "The Days of Forty-Nine," a gold seeker's song—are examples of the material I am seeking. Many songs belong to each of the types mentioned (I have more than one hundred cowboy songs), and there are types omitted from the list.

Minnesota, Maine and other states have lumber songs; the sailors of the Great Lakes and along the Atlantic coast have chanteys; there are mining songs, army songs, fishing songs, besides the songs of the mountain people of Kentucky and North Carolina, and the hundreds of negro melodies of the southern states. And still others exist, especially adaptations or imitations of old English ballads.

Whenever people, from whatever cause, live for a time in primitive isolation they make songs that reflect the feelings of the whole community. Such particular songs also spring up from groups of unlettered men following a particular occupation, especially one that calls for supreme physical effort. In most cases the authorship can be traced to no one person. The songs are perhaps rarely written out, and less seldom find their way to print. They are often crude in form and matter, sometimes vulgar, but always interesting as a reflection of the intimate life of the people. These are the folk-songs, either handed down by 'word of mouth' from generation to generation, or entirely submerged in the rush of progress or lost through the dominion of the newspaper. Education and civilization always put an end to the making of ballads.

"It is my purpose to help save the native American 'ballad' from extinction. In this work I earnestly ask the co-operation of the press. All matter sent to my address will be gratefully acknowledged.

"John A. Lomax,
Associate Prof. of English."

"Harvard University,
Cambridge, Mass., Feb. 17, '10.
Prof. John A. Lomax, College Station, Texas, has been appointed a Sheldon Fellow for the Investigation of American Ballads. We believe that Prof. Lomax's investigation is of peculiar value to students of American literature, American history, and American folklore, and we urge persons interested in any or all of these subjects to give him that hearty co-operation which he needs if he is to make his work thorough.

"Barrett Wendell,
Professor of English.
"G. L. Kittredge,
Professor of English.
"F. N. Robinson,
Professor of English.
"L. B. R. Briggs,
Professor of English."

PUBLIC SPEAKING BOARD ORGANIZES

Constitution and Election of
Minor Officers Acted
Upon.

The Board of Public Speaking Control held its organization meeting late last Tuesday afternoon, at which time the constitution was taken up and passed upon and officers were elected.

Ray Towle was designated as president of the Board at the time of its selection by the Student Council. The minor offices were chosen by the Board as follows: LeRoy Gifford, vice-president; Edwin Traynor, secretary, and Irwin Storland, treasurer. These officers will hold till the end of the spring term 1911.

The constitution and by-laws will be required to pass a second reading before finally going into effect but it was decided to act under them temporarily until their final adoption or rejection.

With the formal organization of the Board the public speaking interests of the students are once more on a firm basis.

SPECIAL WORK WITH VELVET CHAFF WHEAT

Best Strains Will be Determined
By Extensive
Tests.

This year special tests will be made of velvet chaff wheat at this station and at the sub stations, with the view of determining which varieties are the best. The yields of different strains will be compared and a sample of each will be tested at the station mill to determine milling quality. At present several strains are of a rather poor milling quality, which has a tendency to create a prejudice against all velvet chaff wheat. The intention is to pick out the

Fargo, N. D.

We are now located in our own new creamery building, No 13 Eighth street south. This building is 23x86 feet, two stories and a basement. It is built of brick and reinforced concrete construction. The first floor or churning floor is made of concrete and steel 7 inches thick not one piece of wood being used in this floor, making it absolute fire proof and thoroughly sanitary.

Our equipment is thoroughly up-to-date, especially the testing department. The very best sensitive apparatus that can be bought is used here. The glass testing bottles are made by the famous Wagner Glass Works, which has won many gold medals at world expositions for their accuracy and fine quality of glass.

The weighing is done on a Torison balance, acknowledged by all creamery expert to be the most sensitive cream testing scale on the market today.

Our modern facilities enable us to manufacture butter at a minimum cost and our entire output is consumed in Fargo, making it possible for us to pay the shippers of good cream the top market price for their butterfat. It also makes it possible to give quick and accurate returns for each shipment of cream.

A postal, sent us with your name and address will bring you shipping tags and latest quotations on butterfat

When you are in the city, we will be very glad to have you call and inspect our building. It is only one and one-half blocks from the N. P. passenger depot.

DR. VAN ES TALKS ON
IMMUNITY AT POLYTECH
One of Best Sessions of Year Is
Held Last Wednesday
Evening.

The Polytechnic Society held one of the best meetings of the year last Wednesday night, when Dr. Van Es spoke on the subject "Immunity and Immunity Reactions". The lecture was illustrated by a number of specially prepared charts which showed the most modern conception of the causes of immunity and the way in which it may be obtained.

Immunity was described as of two types, congenital and acquired. Congenital immunity is seen in certain species or individuals which are exempt from certain diseases. Acquired immunity is obtained by withstanding a very slight form of the disease in question.

In addition, we find that the congenital immunity is not always absolute and that certain adverse conditions may set it aside, at which time the body is a suitable culture medium for a disease which otherwise would not thrive there.

Leucocytes or white blood corpuscles have the power of engulfing the hostile bacterial cells and digesting them. In this role they are termed Phagocytes. However they are not the sole factors by which the body is protected, for numerous investigators have shown that the blood and its serum exercise a most decided influence.

This action of serum is due to substances which are given the name of alexines. The natural resistance of an animal depends upon the alexine content of its body juices and especially of the blood serum. The alexines are probably produced by the leucocytes.

Substances form in the serum which so act upon the invading microorganisms that they can be readily devoured by the phagocytes. These substances are known as opsonines.

The prospective substances alluded to above are formed by the body under the influence of the virus producing the disease, in both natural and artificial infection.

The substances acting in the latter are the antitoxines and in the former the lysines, opsonines, tropines and antiaggressines. Not only does the animal body react upon the introductions of the pathogens, bacteria and their products, but it does the same thing in regard to cells and substances of foreign origin.

All substances, whose introduction into the animal body is followed by the antibodies referred to are known by the general name of antigens and any antigen will easily enter into a union with the corresponding antibody.

The antitoxins are regarded as reaction products of the living body cell and the poisonous action of the toxins must be attributed to the fact that they are capable of effecting a specific combination with the protoplasm of certain cells. This combination takes place by means of the haptophore group, in which the toxin is tied to the body cell by lateral links of the protoplasm. To these links the name of receptors has been given.

Normally these receptors are engaged in the nutritive functions but the toxin molecule, thru its haptophore group has an affinity

for certain receptors. The anchoring of the toxin to the receptor is a serious danger as it retards nutrition and death is the final outcome. When the toxin is not fatal the cell is merely irritated or stimulated to regeneration of more receptors which have become fixed to the toxin molecule. Not only are the receptors thus replaced but there is actually an over production, and the cell is obliged to cast off the overproduction and the receptors appear detached in the circulating blood. Those free receptors now constitute the antitoxine.

The antitoxines of free receptors have retained their power of being able to enter into a chemical union with the haptophore group of corresponding toxins. This enables them to unite to a toxin in the circulating blood and in this manner to prevent the latter from attaching itself to the body cells.

In this manner artificial immunity is obtained by stimulating the cells to an over production of receptors so when the bacteria disease enters the body they hitch to these free receptors and never reach the cell, making the disease perfectly harmless.

PAN-HELLENICS WILL
BANQUET AT GARDNER

Greek Letter Men Now Preparing
for a Social Session
Thursday.

The Fargo Moorhead Pan-Hellenic society will give a banquet, Thursday evening, May 5th at the Gardner Hotel at 6:30 P. M. Dean Bruce of the University Law School of Grand Forks, an enthusiastic fraternity man, will be present and discuss briefly the relationship between the college fraternity and the college under present day conditions. Mr. L. A. Huntoon of Moorhead will act as toast master.

The Following letter is being sent out to parties who are likely to be interested.

"The Fargo-Moorhead Pan-Hellenic Society will meet for another banquet Thursday evening, May 5th, at the Gardner Hotel at 6:30 P. M. Last autumn we had a rousing good time; we want this occasion to be even a better one. So come prepared to eat, talk and listen. But anyway COME.

Dean Bruce of the University Law School of Grand Forks is an enthusiastic fraternity man and will be with us that evening to discuss briefly the relationship between the college fraternity and the college under present day conditions.

Come also prepared to laugh, for Mr. L. A. Huntoon of Moorhead will be toastmaster and something worth while is assured. Remember the time, May 5th, at 6:30 P. M. at the Gardner.

Informal.
If you intend to be there, please notify the Secretary, T. D. Beckwith at the Agricultural College BY NOTE. He is a busy man and hard to catch by telephone. Please do this by May 4th, as places will be reserved only for those who signify their intention to be present."

John Mc Donald, our herdsman, is mourning the loss of one of his best sires which met a strange death the other day. The calf which was a pure bred shorthorn was grazing peacefully when someone clapped his hands at him. The startled animal ran a few paces and dropped dead.

As to the results of the State Oratorical Contest little is to be said aside from the statement given in the account of the event. The students of this institution accept the decision of the judges without objection and feel that the showing made by the representative of this college was most creditable. Of course we would like to have won, but feel that in losing by such a close margin we have no cause for complaint. A slight variation in the marking of any one of the judges might have thrown any of the first three con-

testants into first place and as affairs stand, Mr. Olson may well be congratulated on the excellent showing he made.

It has been suggested that now is the time to begin preparations for the Inter-Society debate next fall. This is a new departure, but for many reasons the suggestion seems a good one. In the first place, if the matter of choosing teams were taken up now the members would have that much longer to prepare in, and moreover, it would undoubtedly be far easier to deal with the matter now when the societies are well organized and running smoothly, than it would be in the fall. At that time many of the old members have dropped out; those who are back are fresh from vacation and it is sometime before things get fully started.

If the matter were taken up by the societies now before the end of the present term it would be quite possible to choose the teams. At least the question might be decided upon so that those who have an idea of trying out for the team might be at work on their arguments during the summer.

There is time for action on the part of the societies if they take this up at once as the end of the term is fast approaching there is no time to be lost.

Attention is called to the fact that this is the last week for entries to the coming Inter-Scholastic Field Meet and Declamation Contest to be made. A number of high schools have already signified their attention of entering one or both of the contests but there are still a large number who are expected to enter, that have as yet made no definite arrangements to do so.

The following paragraph from the general conditions of the contests are probably as good an argument in favor of prompt action as can be offered.

"All entries for the declamation should be sent to Prof. A. E. Minard, Agricultural College N. D., not later than May 7th.

"Athletic entries must be filed with O. W. Dynes, General Manager of athletics, before May 10."

A much larger number of entries in both contests than in previous years are expected and if there are any high schools that are undecided about entering they are urged to decide in favor of doing so and send in their entries at once. With the large number of events in the Field Meet and the Declamation contest in the evening there is ample chance for all and no school will regret having taken part.

News was received Thursday of the death of the great Norwegian author, Bjornstjerne Bjornson and his monument on the campus was at once draped in mourning. The sons of Norway in the city are making arrangements to hold memorial services on the day of the funeral which will occur Wednesday or Thursday of this week. These ceremonies will be held at

The North Dakota Agricultural College

FOR COMPLETENESS OF EQUIPMENT AND FACILITIES FOR INSTRUCTION IS UNSURPASSED IN THE NORTHWEST

The College Department offers Nine full Courses viz:

AGRICULTURE	CIVIL ENGINEERING
BIOLOGY	MECHANICAL ENGINEERING
DOMESTIC SCIENCE	GENERAL SCIENCE
EDUCATION	PHARMACEUTICAL CHEMISTRY
	VETERINARY SCIENCE

These courses are available to those who have completed the equivalent of a good High School Training.

For those who have not had such a training

THE AGRICULTURAL AND MANUAL TRAINING HIGH SCHOOL offers complete secondary courses in:—

AGRICULTURE	ENGINEERING AND MANUAL TRAINING
COMMERCE	GENERAL SCIENCE
DOMESTIC SCIENCE	RURAL TEACHERS' TRAINING

These courses all fit fully for college entrance

Special Courses:

PHARMACY	COMMERCE
DOMESTIC SCIENCE	FARM HUSBANDRY
	POWER MACHINERY

A Complete Commercial Training Is Offered To All Students.

THIS COLLEGE

OFFERS to the young people of this state an education which is thoroughly in line with modern thought and demands. It spends no time on dead languages or such subjects as are of little practical value. It aims to fit young men and young women for responsible positions in life. The demand of the present is for men and women who can think and investigate for themselves; who can deal with the social, agricultural and industrial problems of the day. This demand the Agricultural College is attempting to supply.

THE LABORATORIES AND SHOPS ARE THOROUGHLY EQUIPPED
 THE INSTRUCTORS ARE SPECIALISTS IN THEIR RESPECTIVE LINES
 EXCEPTIONAL ADVANTAGES ARE OFFERED IN BIOLOGY, CHEMISTRY, DOMESTIC SCIENCE, LITERATURE, MATHEMATICS, ENGINEERING AND VETERINARY SCIENCE.

Graduates from approved High Schools are admitted to the Freshman classes of all courses. Credit is allowed in the Agricultural and Manual Training High Schools for all work done in the secondary schools.

TUITION FREE—Board and Room, \$3.75 to \$5.00 per Week.

For Catalogs and Circulars Address the Registrar

AGRICULTURAL COLLEGE

NORTH DAKOTA

the college and classes will be dismissed so that the students and faculty may attend.

This year's candidates for graduation were taken up at the meeting of the faculty Friday and final action was taken, so that it is now definitely known who will receive their sheep skins at the coming commencement.

We wish to rectify a mistake which was made in the article in last week's issue in regard to a food bulletin which was mentioned as having been written by Miss Emily May. Dean Ladd was the writer of the bulletin, Miss May only acting as editor and proof-reader.

The cloth for the curtains which are to be made for the college theatricals has arrived, and the painting is now being done by Mr. Maundy of this city. Mr. Maundy has had a wide experience in this line and is highly recommended by those for whom he has painted. There is no doubt but the scenes on which he is now engaged will be of a high quality.

RUEBER AND FOSS NOW TRYING OUT

Prospective.. Men. Are.. Going
Thru Preliminary
Torture.

The prospective candidates of the Mu Fraternity are having a very strenuous existence these days, being naturally of wayward and independent constituency they find it rather hard to concede to some of the mild (?) demands of the future brethren.

Mr. Rueber however has coached himself to such a degree that he now doffs his hat to the fellows, with the deference of a southern gentleman to a dusky queen and speaking of queens, "Horace Rueber and I (Hope) have been out with queens before."

As regards the prospective from the pill mixer's ranks, in the beginning he was the more mild tempered of the two, but he met his Waterloo on Friday evening when he lightly disregarded an order of the "Sito" and as a result exposed himself to conspie-

uousness in the forward boxes at the Grand and proceeded to express the performers appreciation of their applause by making a sweeping bow at every innovation, much to the delight of the players and audience and especially so to the college people who happened to be at the performance.

FINE PICTURE IS DONATED.. TO THE COLLEGE

Dakota Farmer Presents Portrait
of Prize Winning
Steer.

A splendid picture of the polled Angus steer which won first place at the Northwestern Live Stock Show in 1908 was recently donated to the college by the Dakota Farmer. This steer was a fine animal raised by Frank Sanford, a member of the Board of Trustees. The steer was such a perfect type that the Live Stock Association of the state passed resolutions ordering an enlarged portrait of him to be presented to the A. C. At this point the Dakota Farmer offered to secure the

picture free of charge. The gift is greatly appreciated by the institution, especially by the animal husbandry department.

PROF. DOLVE IS NOW IN DEMAND.

The Professor Is Laying Out a
Large Number of Tile Drains
in State.

Prof. Dolve is receiving many calls to assist in laying out tile drainage systems in different parts of the state.

He has superintended the installation of several drainage systems in this state which are now doing highly satisfactory work and he is doing considerable work in pushing this class of work at the present time. It is for this reason that drainage has received such an impetus recently. Only a matter of short time and the fertility of the valley can be doubled by installing tile drainage systems.

Several of the young ladies at the dormitory took advantages of the cool air between daylight and breakfast Sunday morning in studying nature in Oak Grove.

The janitors were kept busy Saturday in taking commercial desks out of the old chapel room preparatory to the recital which was held there in the evening

Some of the Vets put in overtime Sunday, making some tests on a case of suspected hydrophobia which had been sent to the department for investigation.

PERSONAL
Some of the Dormitory girls are enjoying early morning walks.
Miss Hoover will speak at Tower the coming Friday.
Lottie Porter is improving and will soon be home.
The class in Dietetics, enjoyed a visit from Miss Hoover last Wednesday.

Alfred Anderson could not resist the temptation of enjoying good company, so he is boarding at the Dormitory.
Lulu Chaley and Ida Billings left for their home at Lisbon last Friday.
Prof. Weeks will speak at the Fargo High School Thursday on "Professional Training of Teachers."
Prof. Weeks has been illustrating different tests for eye and ear which a teacher may use in the school room, with inexpensive apparatus.

A German Club has recently been organized at the U. N. D. which is on very much the same plan as the one which was started at this institution last fall.

Prof. Guinness made himself pleasant to a number of the Junior Faculty ladies by giving them an Auto ride last Wednesday evening.

This week Prof. Arvold will endeavor to discover sparks of genius among the members of the Public Speaking class; as the different members of the class have to deliver declamations.

Oscar A. Von Layni of Morrison Mo. and a special student in dairying at the University of Wisconsin, called on Prof. Richards this week. He was here for the purpose of obtaining land with the view of establishing a dairy farm on it some time in the near future.

A Silo meeting was held at New Salem. Addresses were given by C. F. Doane of the U. S. Department of Agriculture, Prof. Richards of the Agricultural College and R. F. Flint, Dairy Commissioner.

T. A. Hoverstad, Supt. of Farmers' Institutes, left for St. Louis Saturday where he is to deliver an address on "Agricultural Education" before the Farmers' Educational and Cooperative Union of America.

The fact that Friday was the fifth in this month made is necessary to postpone the meetings of the literary societies. Every time there is five Fridays in a month it necessitates an interval of three weeks between two meetings or the breaking of the rule that the meetings shall be held on the first and third Fridays of each month.

That the advanced students in the Engineering Department are able to put their technical knowledge to practical use, is amply demonstrated by a device which is in use in the Engineering Drafting room. By an ingenious combination of chairs drawing boards and a couple of planks a couch has been constructed, one end of which projects out of the window. Thus the pleasure of study may be pleasantly combined with a recumbent position, a good view of the campus and an unlimited supply of fresh air.

Clarence Williams spent the week end at home.

The A. C. Band furnished music at the Y. M. C. A., in the Fargo Opera House last Friday night.

Alma Leebly was out of school several days last week on account of illness.

Amos Ewen spent Saturday and Sunday at his home near Mayville.

C. A. Bonnell business manager for the N. P. Clark stock farm at St. Cloud, Minn., called on Prof. it from her sister of Mayville this Richards Friday.

President Worst delivers an address at Grafton Saturday before the Tri-County Educational Association. He will take up the subject of teaching agriculture and domestic science.

O. O. Churchill of the Farm Crops Department states that clover does not seem to have been hurt by the cold weather. Alfalfa was cut back but is coming on rapidly.

Edwin Evingson sailed away on his wheel towards his home at Kindred Friday afternoon for a couple of days visit.

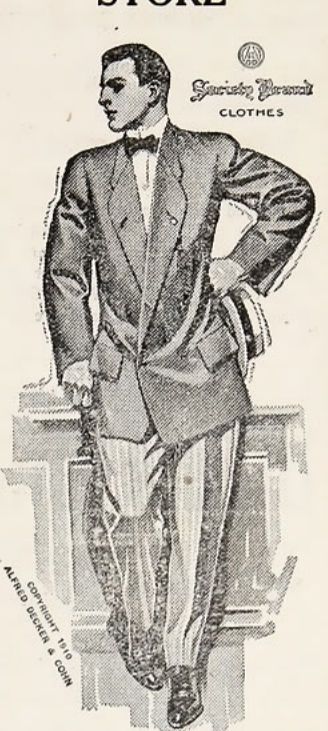

President Worst goes to St. Louis Monday. He is to give an address on "The Farmers' Opportunity" before the Farmers' Educational and Cooperative Union of America. He will take it up from the standpoint of cooperation.

C. B. Waldron Prof. of Horticulture, states that Box Elders which have leaved out and the leaves frozen should be cut back considerably in case they do not send out new leaves in the course of a couple of weeks else the trees are liable to die.

Dr. A. F. Schalk of the Veterinary Department was called to Hamilton, Ohio on account of his wife's sickness.

W. C. Palmer, Agricultural Editor, made a trip through Minnesota, Wisconsin, Indiana and Illinois, visiting the Agricultural Colleges and giving special study to methods of extension work in these states. He reports that Wisconsin seems to be in the lead in this line of work.

PREPS PARTICIPATE IN MOONLIGHT STRAW RIDE.
 First Social Attempt of '14's Is Well Planned and Executed.

About twenty members of the Senior Prep class celebrated their approaching emancipation from prepdom last Wednesday night by indulging in a moonlight straw ride.

Of course, there was a period of preparation and even at that early stage in the proceedings the Preps began to show good generalship, for they managed to keep the matter almost a secret. Even the young ladies showed remarkable self control in this respect.

Adolph was engaged to drive the wagon and he also was non-committal (we are prepared to vouch for this statement after a personal endeavor to gain information from aforesaid). Shortly after the supper hour the merry party set out with Miss Griffith as chaperone. They wended their way joyously to the South Side, where they finally halted and prepared an outdoor lunch in frontier style. In view of the novel manner in which it was cooked, everybody pronounced the spread the best ever.

After the lunch had been given proper attention it was found that the hour was growing late and the merrymakers boarded the wagon once more and proceeded on their homeward journey. It was after 11 when the party finally arrived at the starting point, and all report one of the most enjoyable evenings of their lives.

The Preps are particularly well pleased with the smoothness with which the event was carried thru. Not a single incident occurred to interfere with the planning or execution of their first social attempt, and they may well congratulate themselves on their success.

The band boys are getting in trim for the coming inspection by playing out doors on the march. It is hard work but it is unequalled as a lung developer.

The members of the Alpha Delta club found it necessary, in order to stave off the trades people, to have a little cash, so they got a job raking ashes on the track at 15 cents an hour. When last observed, it looked as tho the track would not require more than three times the normal amount of labor to put it into shape after the A. A. D.s got thru with it.

REFERENCE WORK TO BE SYSTEMATIZED
 Bibliography of Debating Material on Present Day Questions Will be Compiled.

It is proposed to compile a list of the current questions for debate which are of interest at the present day, and during the coming summer make up a complete bibliography of all the material bearing on them which is available in the cities of Fargo and Moorhead. If this plan is carried out, it will at once be possible to find just what material may be had on a given subject, and also where it is to be found. The scheme is a good one and will greatly facilitate the work in preparing debates in the future.

NEW APPARATUS.
 Dean Keene is in receipt of some laboratory apparatus for use in the Physics lab. This shipment consists largely of some electrical apparatus. Chief among which is a dissectable dynamo to be used for illustrative purposes which will deliver either direct or alternating current or both.

A rotary convertor has also been added, this when run as a generator will deliver either direct or alternating current as may be desired.

In addition to these a laboratory photometer has been added which will be used in experimental work on light.

A corner of the Physics lab. is being fitted up with apparatus to illustrate the different kinds of weighing devices.

Chemists Meet.

The chemists of the college held their monthly meeting and banquet at the Commercial Club rooms Saturday. The feature of the evening was an address by Prof. Ince on "Pure and Applied Science." The subject was treated with special reference to the science of chemistry and proved of unusual interest. In addition to this there were a number of short talks by various members of the organization. All the members were present and a most pleasant evening was enjoyed.

Report was current about the Mu room Monday that Budd had taken a little boy to raise.

William Mereer has an extended article on weed spraying in the last issue of Farm, Stock and Home.
