Special Train Takes Rooters To Forks

Trainload of Enthusiastic Students Accompany Basketball Team to University.

PLEASANT DAY IS SPENT

A. C. People Speak in Highest Terms of Treatment Accorded Them by U. Students.

Beginning on last Tuesday there has been considerable excitement floating around, and it reached a climax on Saturday when the trip to Grand Forks, which was planned at the mass meeting on Tuesday, started off with a toot and a clang. The engine and cars of the "Special" were artistically decorated by our artist, Mr. S. V. Anderson, P. M. S., and his efficient corps of helpers. Inside, the "Special" looked very much like any other train except that the inhabitants were a class of people which is not very often met with on the railroads of this corner of the world. A stop was made at Hillsboro, where the band got off and did a few stunts for the benefit of the inhabitants. This stop also gave opportunity for the boys to get off and fill up their pockets with cigars. Instead of cigars, "Fat" Keeney got a couple of pounds of cookies, but they lasted quick when the bunch saw "Fat" coming. The "Special" then continued on its way and the trip between Hillsboro and the Forks was uneventful except for one stop when the "brakie" got off and remonstrated with a cow who thought she had the right of way. The next stop was at the University, where the band and the other inhabitants got off and the band tooted and the others renewed acquaintances, or made them with the students from our sister institution. The train then proceeded down town and everybody got off and hunted up a place to get some grub.

In the afternoon most of our students managed to find their way up to the University, where they were shown around by the students. (Editor's Note: It is rumored that some of our students started to walk to the "U," thinking to catch up to the car and then ride, but they walked so slow that they didn't catch the car until just about a block from the entrance and then they beat it in by half a block.)

We were greeted by three of our former students—Reuben Anderson, Gabriel Lundy and Chester Forre. They took turns at showing us around. We want to say right here that the University students treated us white from beginning to end, showing us about and using every means in their power to make us feel at home.

At the "U" they have interclass teams among the girls, and in order to gain admittance to these games a young man must have an invitation from one of the young ladies of the institution, so when Clare Parker and Lembecke got invitations they thought they had the drop on

Championship Clinched

By Winning in Fast and Exciting Game with the University on their own Floor Saturday Night, A. C. Gains Clear Title to Basketball Championship of State

FINAL BATTLE WAS HARD FOUGHT

Fast Play and Great Number Free Throws Form Chief Features of Game---Clark Shows Fine Form in Turning Free Throws into Points---Farnham Makes 13 Points For U.

The members of the A. C. basketball team are the champions of North Dakota. The closing game of the 1910 season was played at Grand Forks last Saturday night between the University and the Agricultural College teams, and by winning it our boys landed the championship. The title lay from the beginning between Fargo College, the University and the A. C., and was decided by a series of twelve games, each school playing four. The University lost three and won one, Fargo College lost two, and the A. C. lost one and won three.

The University and the A. C. played the last game of the season on the University gymnasium floor before a large crowd of students from both schools. The bands of the two institutions furnished music while the teams were practicing and the rooters were not lacking in enthusiasm.

Our squad came on the floor first, followed a few seconds later by the "U" men, and both teams warmed up with a few passes and basket shots. At 8:30 Referee Scott called the teams to their places, the whistle sounded and the game was on. Wheeler reached the ball first on the toss-up, but a "U" man interrupted the pass. Two A. C. men guarded him at the same time and a foul was called. Farnham made the throw and the first point for the "U" after about six seconds of play. Another free throw was made by the University before the A. C. scored, but Clark turned two fouls into points and neither team had

the advantage. Farnham made four free throws and Clark three, when Walt Haskins set the A. C. rooters wild by shooting a field basket which put our team one point in the lead. Farnham tied the score with a point from a foul, but Walt again raised our score by two points and there was more yelling. The "U" made another throw, but Walt and Peevee Darrow got a field basket which gave our boys a safe lead. Clark succeeded in one more throw and the half ended with the score 14 to 8 in our favor.

Wheeler got the ball at the opening of the second half and by fast team work our men took it to their basket, but failed to score. The "U" then gained possession of the ball and it went to the other end of the floor. While trying for a basket a University man was fouled and they were awarded a point.

From then on the game grew more exciting every minute. The University got one field basket, five free throws and one awarded point. This made the score 19 to 17, with the A. C. in the lead. There were only a few minutes left to play when Farnham of the "U" made a long throw for a basket and succeeded. This would have tied the score, but was not allowed because there were six University players on the floor when it was made. Clextion, who went in for Blewett, was on the floor telling the referee of the change to be made and the whistle had blown to allow this just be-

fore Farnham made the shot.

The game ended soon after this with A. C. the victor by two points. Final score: A. C., 19; University, 17.

Clark was very consistent in throwing fouls, missing only four out of thirteen tries. He played a hard, fast game throughout, assisting greatly in the team work and in feeding, but was guarded so closely that he was unable to make a field basket. Darrow played a good guarding game and made one basket, while Wheeler at center made many of the plays possible by his accurate placing of the ball from the toss-up. Walt Haskins made the greatest number of baskets for the A. C. and tied Clark for high score. Bert Haskins worked hard every minute of the time and aided greatly in team work because of his good passing.

The lineup was as follows:

- A. C.—
- B. Haskins (F)
- Clark (F) xxxxxxxx
- Wheeler (C)
- W. Haskins (G) bbbb
- Darrow (G) b
- U. N. D.—
- Farnham (F) xxxxxxxxxx
- Blewett-Clextion (F)
- Segan (C) b
- Gullikson (G)
- Harker (G)
- Points awarded: A. C., 1; U. N. D., 2.
- Officials: Scott of Rugby and Nichols of Winnipeg.
- Time of halves: 20 minutes.

enthusiasm shown, although this time it was between the "U" and the A. C. After the game a reception was held in which dancing to music furnished by the college orchestra was the feature. Again the University students showed themselves to be the best of entertainers, every effort being made to secure dances for our people. We are safe in saying that none of our students could say they didn't dance because they didn't have a chance.

After the reception was over we all went down to the station and got on the train, which pulled out at 11:15. A jollier crowd never

passed over that line before. Every member of the team told a story or sang a song, and when these were exhausted "Doe" was called up and led the crowd in some of the old songs and some which were not quite so old, and so the time was passed away until the train pulled into Fargo, when a tired but happy bunch got off, and since it was about 2 a. m., footed it to their various places of residence and rolled in to dream of their trip and our victory.

Max Harrington, a member of the Junior class, is ill with typhoid fever.

CONVOCATION

Chapel hour yesterday was given over to two of the winning orators in the college contest. Mr. Edwin Traynor delivered his oration on Citizenship and the Nation. Mr. Holkesvig delivered the oration, A Passing Opportunity, which won second place in the local contest.

A special musical number was furnished by the College Glee Club which was greatly appreciated. The address for next Monday will be by Dean Keene on the subject, Modern Methods of Lighting.

A. C. Looks Back On Successful Season

Summary of Games and Scores Looks Good for State Basketball Championship.

Now that the basketball season is over it seems proper to sum up the season and see what the different claimants for the state championship have done during the winter.

Our season has been very successful; in fact, we have lost but two games out of thirteen played, which is a very good record indeed. Our first game was on Jan. 8 and was played at Valley City with the Valley City Normal. Score: 15 to 8 in favor of the A. C. Our next game was on Jan. 15 in our Armory and was played with Concordia College. The score was 22 to 44 in our favor again. Our third game was again away from home and was played at Wahpeton on Jan. 17 with the Wahpeton Science School. Score: 23 to 18 in our favor as usual. The fourth game was played at Brookings on Jan. 18 with the South Dakota A. C. and the score was 44 to 24 in our favor. No. 5 was played in South Dakota again and was our only defeat on this trip. It was played at Aberdeen on Jan. 21 with the Aberdeen Normal. Score: 16 to 32 in favor of Aberdeen. Our sixth was again in North Dakota. It was played at Jamestown with the Jamestown College and resulted in a score of 35 to 12 in our favor. The next game was played on our home floor with the Moorhead Normal and led to the score of 26 to 14 in our favor. No. 8 was one of the big games, being played at Fargo College with Fargo College. This was our victory. Score: 23 to 18. The ninth was a very close game in our gym with St. Cloud Normal. Score: 28 to 30 in our favor. No. 10 was also in our gym and was the University game with a score of 20 to 18 in our favor. Eleven was the return game with Fargo College, played on our floor and resulting in a score of 22 to 27 in their favor. This was our second and last defeat. Twelve was with Wahpeton Science on our floor and resulted in a score of 47 to 12 in our favor. Thirteenth and last was our return game with the University,

CONTINUED ON PAGE EIGHT.

SEED MEN ARE HARD AT WORK.

Field Work and Seed Testing Now at Their Height and Entire Force Is Busy.

The seed work in the Seed Laboratory is keeping several workers busy with the germination and purity work. The Seed Commissioner is also doing considerable field inspection at the present time.

On Friday of last week Professor Bolley was at Valley City and took samples from all of the stocks of field seeds found there, and Mr. Stephens was at Hillsboro on Tuesday. On Thursday, Friday and Saturday Professor Bolley will make a trip in the southern part of the state.

They report that ordinary seeds are this year of very fair quality, on the average. Considerable Brome Grass seed is being condemned because of the presence of Quack Grass. The farmers are cautioned upon buying Brome Grass to examine it carefully.

SPECIAL WORK IS OFFERED IN CHEMISTRY.

Prof. Ince Will Give Work in Biochemistry During the Coming Term.

In order to accommodate those students of the different agricultural and biological courses who could not otherwise elect advanced courses in chemistry, Mr. Ince will offer at 10 a. m. during the spring term an elementary course in the biochemistry of plants, or agricultural chemistry. One credit.

A laboratory course to accompany the above will also be offered. Credit 2-5 or 3-5.

The course will consist of a brief study of the atmosphere, natural waters, soils, fertilizers, plant biochemistry, plant products and their use as foods, and agricultural industrial products; all with special reference to North Dakota conditions.

All students interested in this course and who have successfully completed Chemistry, 1, 2, 3, 4, will please consult Mr. Ince immediately.

The State Board of Pharmacy is giving the examinations for full and registered assistants today and tomorrow in Francis Hall, after which the short course pharmacists will leave, relieving the now overcrowded condition in the Pharmacy quarters.

Word has recently been received that Kent Darrow, who has been studying medicine at Johns Hopkins, has gone to Europe where he will continue his studies at the University of Strassburg, in Germany. As the German universities offer the same work in their courses as those at Johns Hopkins, this will necessitate no interruption in his studies.

THREE MORE DEATHS AMONG THE STUDENTS.

Year's Death Rate Is Unusually High—Deceased Were All New at College.

Last week witnessed the death of three A. C. students, making a total of four deaths among the student body this term.

Herbert Hendrickson.

Mr. Hendrickson died on Sunday, March 6, from scarlet fever. He was first taken with the measles and was seemingly nearly recovered when he was stricken with scarlet fever and lived but a short time.

This was Mr. Hendrickson's second winter here, and at the time of his death he was registered in Schedule E. His home was at Mandan, N. D., and the remains were taken to that place.

Wilford Biss.

Mr. Biss, who came from Petersburg, N. D., died at St. Luke's hospital Monday evening, March 7. Typhoid fever was the direct cause of his death.

This was his first year at the institution, as he entered last fall, taking up first year's work in the Power Machinery course.

Melvin Hendricks.

Melvin C. Hendricks died at his lodging place at 817 Eleventh Avenue North, on Wednesday, March 9. He was the son of Mr. and Mrs. S. Hendricks of Crocus, N. D.

Mr. Hendricks was a member of the first year Farm Husbandry class, having first come to the college last fall. Some time ago he was taken with measles and later pneumonia set in, leading to a fatal termination. The young man was 24 years old at the time of his death.

All these young men were earnest students and will be keenly missed by their friends and classmates.

COUNCIL ASSUMES ADDITIONAL DUTIES.

Athletics and Oratory Will in Future Be Under Control of Council Committees.

At the Student Council meeting held last Wednesday afternoon it was finally voted to assume the duties of the Athletic and Oratorical Associations. This matter has been suggested for some time, but no action upon the part of the council was possible until the faculty had passed upon the athletic matter and the literary societies had passed upon the oratorical phase of the question. However, on the Friday preceding, the literary societies voted to turn over their interest in the Oratorical Association to the Student Council, and as the two literary societies were the originators of the Oratorical Association, they had the right to do so. As the athletic affairs are now in the hands of the faculty since the disorganization of the Athletic Association, they also had a right to turn them over to the council. Committees

were appointed to draw up amendments to the Student Council's constitution so that the Student Council could take charge of Athletics and Oratory.

Some talk had been going the round of whether the classes should instruct their representatives as to how to vote on election, or whether the representatives should vote according to their best judgment. The matter was broached, but the council decided that it would not be proper for them to take action on a matter of this kind, so it was left for class decision; that is, if the classes wish to instruct their representatives they can do so. It was decided that it would not be according to parliamentary precedent to incorporate any such idea in the constitution or by-laws of the council.

Dr. Abbott spent Saturday and Sunday in Grand Forks, and incidentally took in the basket ball game Saturday night.

COLLEGE TO HAVE ITS OWN LIGHTS.

Plans and Specifications Now Ready and Bids Will Be Received in Short Time.

The plans and specifications for the lighting plant which will be installed at the college during the summer are now ready and bids on them will be received at the same time as those on the new Chemical Building.

It is quite probable that a year hence the campus will be lighted as well as the buildings, and it will no longer be necessary to grope about in the dark on the grounds as soon as the sun is set. With the college in direct control of all lights on the campus, much inconvenience will be avoided, and the plant will ultimately prove a considerable saving in expense. Work will begin as soon as possible.

All the drawings for the system have been made by Messrs. Welo and Harrington.

Bethany Presented To
Large Audience

Sacred Cantata Proves Great Musical Feature of Season—Music of High Rank.

ALL PARTS WELL RENDERED

Soloists, Chorus and Orchestra Are in Best of Trim—Much Credit Due Dr. Putnam.

One of the most successful and striking of the year's entertainments at the college chapel occurred Friday night, when the College Orchestra and Choral Association rendered the sacred cantata "Bethany," in the Armory.

During the entire winter the voice and orchestra sections have been hard at work preparing for this appearance and the thoroughness of the training which Dr. Putnam has given them was evidenced by the smoothness and precision with which the evening's program progressed.

Over a hundred people took part in the performance and the resulting chorus was something to be long remembered. The scenic effect was also very good. A large stage in the west end of the Armory accommodated the participants, the orchestra occupying the middle with the soloists in front and the chorus on elevated seats at the back.

From a musical standpoint the evening was a most decided success, the soloists, chorus and orchestra all rendering their parts in a most pleasing manner.

The story depicted in the cantata is that of the raising of Lazarus by Jesus, and the principal characters are: Mary, Martha, Lazarus, and Jesus. These parts were filled by Miss Grasse, Mrs. Jardine and Messrs. Bunge and Orchard respectively, and were very efficiently carried out.

Below is given a complete program:

Soloists.

- Mary (Soprano) Miss Edyth H. Grasse.
- Martha (Contralto) Mrs. J. A. Jardine.
- Lazarus (Tenor) Paul Bunge.
- Jesus (Baritone) E. R. Orchard.
- Messenger (Tenor) J. M. Brander.
- Disciple (Bass) T. D. Beckwith.

Part One.

1. Introduction . . . Instrumental Processional (Chorus-mixed) . . . From Jerusalem Descending
2. Solo (Martha) On the Evening Air
- Chorus (Mixed) . . . O Bethany!
- Chorus (Mixed) Marching in the Inspiration
3. Duet Mary and Lazarus) . . . The Door of This Poor Home Thou Art the Light of the World
4. Recitative and Aria (Mary) . . . The Lord Is My Shepherd
5. Chorus (Male)
6. Solo The Sheep They Hear My Voice, Chorus — Male (a capella) . . . It Is of the Lord's Mercy Recitative (Jesus) Under the Starlit Sky
7. Quartette (a capella) (Mixed) Reverie "We Hear His Voice in Silence Deep."
8. Chorus (Mixed) The Kingdom of God

Part Two.

9. Introduction . . . Instrumental
10. Recitative (Messenger) . . . Master! From Bethany in Haste Recitative (Jesus) This Sickness is not unto Death

- Chorus (Mixed)
- Master! The Jews of Late Recitative (Jesus)
- If Any Man Walk in the Day
- 11. Intermezzo . . . Instrumental
- 12. Duet (Mary and Martha) . . . If Jesus, Lord of Comfort
- 13. Chorus (a capella) (Mixed) Darkness and Sorrow
- 14. Solo (Martha) Lord! If Thou hadst been Here (Recitative (Jesus) Thy Brother Shall Rise Again
- Solo (Martha) I Know that He Shall Rise Again.
- Solo (Jesus) I Am the Resurrection
- Chorus (Mixed) Thou Art the Son of God
- 15. Recitative (Jesus) Where Have Ye Laid Him?
- Solo (Mary) Lord! If Thou hadst been Here
- Recitative (Jesus) In the Depths of Human Sorrow
- Chorus — Male (a capella) (Disciples) Jesus Weeps, O Tender-Hearted
- Solo (Jesus) and Chorus (Mixed) Life and Love! O God Eternal
- Recitative (Jesus) Take Away the Stone
- Solo (Jesus) Prayer: Father, I Thank Thee
- Chorus (Mixed) O Life Divine
- 16. Solo (Lazarus) "Thy Voice of Love"
- 17. Solo (Jesus) My Hour, It Draweth Nigh
- 18. Chorus, Quartette and Soprano Solo "The Everlasting Song"

One of the most stirring features of the evening was the opening Processional which had a grandeur and irresistible swing which it would be difficult to surpass. In the second part the solo and recitative numbers held the leading role and were rendered in a most pleasing manner.

The orchestra also did most excellent work with the accompaniment and with the two instrumental numbers.

A large crowd was in attendance and the entire program was received with the heartiest approbation. The cantata proved such a complete success that it is to be hoped that some such musical event may be made a yearly event.

PHARMICS MEET AT ANNUAL BANQUET.

Short Course Pharmacy Men Unite in Final Jollification Saturday Evening.

The great event of the term for the Short Course Pharmamey men occurred Saturday night when they met in the Commercial Club rooms for their annual banquet. For once their epicurean palates were tickled in the most gratifying manner, for the banquet was of the best from start to finish.

After proper attention had been given to the eatables, Professor Zieffe took the chair as toastmaster and the intellectual feast began. Professors White and Putt and Messrs. Ferguson, Chose Benson, Campau, Haggan and Walstead were called upon in turn and each responded in a pleasing manner. Messrs. Ferguson and Campau deserve special mention, as both entertained the assembled banqueters with songs, the former singing various Scotch ballads, while the latter sang in his native French.

After the toasts a general dis-

Dr. A. J. Kaess
608 Front Street - Fargo, N. D.

cussion of the coming state examinations was held, from which all gained increased courage to meet the coming inquisition. Over forty were in attendance, the guest of the evening being Mr. Porterfield of Fargo, who is a member of the State Pharmacy Board.

In every respect the banquet proved highly successful and marked one of the most enjoyable events of the year for those who participated.

COMING EVENTS.

March 23.

Farm Husbandry Commencement Exercises.

Every one of the students who made the trip to Grand Forks last Saturday on the special train which left here in the morning and returned very early Sunday morning, speaks in the highest terms of the treatment which they were accorded by the students at the University. We are glad to hear all these compliments, as they shows that the feeling between the two schools, while one of intense rivalry, is still very friendly. We can see no reason why it should not remain so henceforward.

Another hard fought basketball season is now at a close and once more the A. C. claims the state championship with a very clear title to the distinction. In a way this is the most decisive season for some years, for during the past winter all the teams which entered into the race for the title have played against each other, so that it is unnecessary to call comparative scores into account in deciding the results.

In former years when the A. C. and University did not meet in basketball, no decision could be reached as to the holder of the state championship save by comparative scores, and at best this method is quite sure to prove an unsatisfactory one for all concerned.

This year the University, Wahpeton, Fargo College and the A. C. have all met, with the exception that Wahpeton did not play Fargo College. This, however, made no particular difference in the result of the season, and from present indications there can be very little argument over the awarding of the championship.

It is to be hoped that the present amicable relations between the

institutions of the state may continue and that in the future comparative scores may not be so overworked as has been necessary on some former occasions.

Remember that only a short week remains before the term exams, and be accordingly diligent. If you must cram, do it before the last minute, so you will not be worn out with hard study and lack of sleep when the final moment arrives.

Before this issue appears, the student election for the year will be over and the Spectrum officials for the year 1910-11 will have been elected. Unfortunately, the election came at so late an hour Monday afternoon that it was impossible to print the returns this week. It is certain, however, that no mistake could be made in choosing any of the candidates in the field. All were members of the Junior class in good standing and thoroughly competent to fill the positions for which they took the field.

BAILEY TELLS OF GRAIN TESTING

Regular Polytechnic Meeting Favored By Most Interesting Address.

The speaker at the meeting of the Polytechnical Society was C. H. Bailey, who spoke on some of the phases of flour manufacture and testing. Mr. Bailey first considered the manufacture of flour, giving a very complete account of the various steps through which the grain passes before it finally becomes flour. The grading and separation of flours was then discussed very fully. The judging and grading of flour is an art in itself and it requires no little skill and experience to become an expert. Grades of flour depend largely on the quality of the wheat so that this side of the question is also of the utmost importance.

The kinds and quality of the grain used determine the characteristics and quality of the finished product. The methods used in the determination of grade were also explained in a very interesting manner, a great deal of stress being laid on the fraudulent means used in the adulteration and misgrading of flour. Mr. Bailey showed in a very interesting manner the market demands of certain grades of flour and how the market is influenced to a large extent.

The testing and grading of flours irrespective of the use to which they are to be put was described in a very interesting manner.

A business meeting was held after the lecture at which it was decided that the next meeting would be held April 6. Dr. Van Es will be the speaker at this time. Owing to the fact that the North Dakota Academy of Science will meet here March 26, there will be

The North Dakota Agricultural College

FOR COMPLETENESS OF EQUIPMENT AND FACILITIES FOR INSTRUCTION IS UNSURPASSED IN THE NORTHWEST

The College Department offers Nine full Courses viz:

<p>AGRICULTURE BIOLOGY DOMESTIC SCIENCE EDUCATION</p>	<p>CIVIL ENGINEERING MECHANICAL ENGINEERING GENERAL SCIENCE PHARMACEUTICAL CHEMISTRY VETERINARY SCIENCE</p>
--	--

These courses are available to those who have completed the equivalent of a good High School Training.

For those who have not had such a training

THE AGRICULTURAL AND MANUAL TRAINING HIGH SCHOOL offers complete secondary courses in:—

<p>AGRICULTURE COMMERCE DOMESTIC SCIENCE</p>	<p>ENGINEERING AND MANUAL TRAINING GENERAL SCIENCE RURAL TEACHERS' TRAINING</p>
---	--

These courses all fit fully for college entrance

Special Courses:

<p>PHARMACY DOMESTIC SCIENCE</p>	<p>COMMERCE FARM HUSBANDRY POWER MACHINERY</p>
---	---

A Complete Commercial Training Is Offered To All Students.

THIS COLLEGE

OFFERS to the young people of this state an education which is thoroughly in line with modern thought and demands. It spends no time on dead languages or such subjects as are of little practical value. It aims to fit young men and young women for responsible positions in life. The demand of the present is for men and women who can think and investigate for themselves; who can deal with the social, agricultural and industrial problems of the day. This demand the Agricultural College is attempting to supply.

THE LABORATORIES AND SHOPS ARE THOROUGHLY EQUIPPED

THE INSTRUCTORS ARE SPECIALISTS IN THEIR RESPECTIVE LINES

EXCEPTIONAL ADVANTAGES ARE OFFERED IN BIOLOGY, CHEMISTRY, DOMESTIC SCIENCE, LITERATURE, MATHEMATICS, ENGINEERING AND VETERINARY SCIENCE.

Graduates from approved High Schools are admitted to the Freshman classes of all courses. Credit is allowed in the Agricultural and Manual Training High Schools for all work done in the secondary schools.

TUITION FREE—Board and Room, \$3.75 to \$5.00 per Week.

For Catalogs and Circulars Address the Registrar

no meeting at this time but the Polytechnical Society has decided to give a buffet luncheon to the visitors on that day. A number of A. C. professors will be on the program and the meeting will undoubtedly be a grand success.

A course in Historical Chemistry, Chemistry 10, will be offered this spring at 9 o'clock. This course has not been given for several years and is open to all those who have had sufficient advanced chemistry. This is a Junior subject and consists mainly of lectures and reference work. The ground covered will be the early history and development of the science of chemistry, also the work of the most notable chemists and the development of the present status of chemistry. The course will be given by Dr. Abbott and will be very popular with the advanced chemistry students.

Miss Florence Stowers is visiting her sister Helen at the Dormitory.

---	--	--

Too late for publication in the last issue of The Spectrum, it was learned that the father of Mr. Kulaas passed away at his home in Minot, on Saturday, March 5. Some time Mr. Kulaas was called home by the serious illness of his father, and as little hope was had of his recovery, the news of his death was not altogether unexpected. Mr. Kulaas had the sincere sympathy of his many friends at the college in his bereavement.

Saturday was one of the dullest days the campus has seen for a long time, as a large part of the college students were in Grand Forks.

YOU'LL find when you come to look up the question of your new suits for winter and Spring wear, that Hart Schaffner & Marx

have produced for us a very special line of unusually beautiful clothes. You will find no other such clothes in the market as we are able to show you; you may do all the looking around that you like; if you want the best your money can buy you must come to us; and you'll come in the end. As soon as you're ready we want to show you some of the beautiful fancy weaves we have here in suits; and the fine blue serges; foreign and American cloths, rich in color and pattern.

Suits \$20 to \$35 Overcoats \$16.50 to \$35.

This Store is the Home of Hart Schaffner & Marx Clothes.

Y. W. C. A.

The subject under discussion at the last devotional meeting which was led by Miss Ruby Gibbens, was "Some Reasons for a Christian Failure". This was very ably discussed by the leader and some of the reasons brought out were carelessness, forgetfulness, and lack of conscientiousness in regard to Bible study and prayer. The election of officers took place at the business meeting and the following officers were elected: President, Agnes Peterson; Vice-President, Ruby Gibbens; Secretary, Mary Thompson; Treasurer, Grace Briscoe. Miss Kathryn Grest will lead the meeting on next Wednesday evening and the year's reports of the retiring officers will be given. Installation of the new officers will take place at the business session.

GERMAN CLUB.

The German Club held its regular meeting last Friday as usual. German guessing and conversational games made up the hour. The last meeting of the term will be held next Friday and all those who have attended any of the meetings during the term are urged to be present. It is hoped that next term the work may be carried on more satisfactorily and that more good will be derived from it.

Prof. Richards is back from the Brandon Fair. He reports that the fair was very good, especially the rings of Clydesdale horses which were even better than those at the International Live Stock Show in Chicago. This is due to the fact that Brandon is located in the greatest Clydesdale producing district in America. The showing of other farm produce was also excellent. A seed and poultry show was held in connection and attracted much attention. Large crowds were in attendance.

Mrs. Theo. Le Gro of Waulpaca, Wis., Mrs. Richards grandmother, is visiting with Mr. and Mrs. Richards. She intends to stay several weeks.

NEW SOCIETY NOW FULLY ORGANIZED.

Members of Association of Home Economics Adopt Constitution at Monday's Session.

The regular meeting of the Association of Home Economics was called to order by the President, Miss Halland, Monday afternoon, March 7, at 3:30.

Before the program a business meeting was held at which the constitution was read and approved. As a Treasurer had not been elected, Miss Leebby was chosen to fill that position. Miss Hoover then told of the faculty's approval of the association.

The following program was rendered:

- Music Quartette
 Address President
 Book Review Miss Eggan
 Music Quartette

This meeting marked the final establishment of another important association among the students. The charter members of the new organization are as follows:

CAPACITY AND WEIGHTS	
750 Bushels.....	1430 pounds
1000 Bushels.....	1600 pounds
1250 Bushels.....	1910 pounds
1500 Bushels.....	2430 pounds

Built in sections and shipped knocked down. Has a galvanized steel bottom and conical roof. Sections so made that it can be very easily and quickly set up and bolted together. Takes a third-class local freight rate and a fifth-class rate in carload lots. This bin is superior to any other bin upon the market, being rain-proof, fire-proof, rust-proof, vermin-proof, durable and economical. The only bin in the market re-inforced with a steel angle frame work. Grain can be run direct from separator into bin. It can be moved around the farm by use of ordinary skids or taken down and stored when not in use. Live Hardware and Implement Dealers wanted as agents. Write for circulars and prices.

Ten o'clock classes from 8 to 10, Thursday.

Eleven o'clock classes from 10 to 12, Thursday.

PRELIMINARY TO JUDGING CONTEST

Aspirants For Judging Honors Will Try Out For Places Next Saturday.

The preliminary Stock Judging Contest will be held in the judging pabillion at 2 o'clock next Saturday afternoon. Anyone may enter this try-out, subject to the rules governing the contest as they appear in a previous issue.

All those who wish to enter the contest, who are not taking work

in judging at the present time, should enter their names with Prof. Dynes, before Thursday of this week so that arrangements may be made for them to enter the preliminary.

The final contest will take place on Tuesday and Wednesday afternoons of next week. Only the limited number who qualify in the preliminary will be allowed to enter the final contest.

Some of the A. C. students liked Grand Forks (or some of its inhabitants) so well that they stayed over till Monday.

Let's all go to Moorhead and get L System clothes, "The Hub."

The "Store Beautiful"

ILLUSTRATED LECTURE GIVEN BY SECY. WOLF.

Stereopticon Views of Canal Zone
Add Greatly to Interest
of Address.

One of the best lectures of the college year was delivered in the Armory Saturday evening, when Secretary Wolf of the city Y. M. C. A. gave an illustrated lecture on the history and present conditions in Panama. As Mr. Wolf has lived in that region and is thoroughly familiar with it in all its phases, he was able to explain in a most interesting and instructive manner the pictures shown.

Special attention was given to the work on the Panama Canal, which is of course the predominant influence in all the life of that country. The lecture began with a view showing a map of the Canal Zone and tracing the route which the canal is to take. While it is not at the narrowest point of the isthmus, the topography of the region is such that the route chosen is the one which will in the end require the least excavation and cost the least.

The remainder of the views were devoted to scenes along the line of the canal and the Panama Railroad. One of the most interesting features of all these slides was the evidence all along the line of the French occupation in early days. Million of dollars' worth of machinery was left along the route of the canal by the French engineers, and today the overgrown ruins are to be seen on all sides testifying to the vast sums of money which were wasted in this early project. The most striking pictures shown in this connection were those which showed long rows of dredges and steam shovels rotting in the jungle, or in other places hundreds of dump cars standing just as they were left on the sidings when the French gave up the hope of finishing the canal.

Another very interesting phase of the lecture was that which dealt with the improved methods of sanitation which have made it possible for the United States

Government to carry on the work which had formerly proved impossible.

By a careful study and thorough application of the principles of sanitation, the Canal Zone is now almost entirely free from the diseases which formerly swept off the workmen by the hundred. A large part of the campaign has been directed against the mosquitoes, with the results that this dangerous spreader of disease is now nearly exterminated. It is necessary, however, to maintain the utmost vigilance in matters of sanitation, and any lapse on the part of the officers would undoubtedly result in a rapid return to old conditions.

Considerable time was also given to the social life in Panama. In this respect there is yet much to be desired, but improvement is fast being made and conditions are far better than was the case a few years ago. One of the most difficult problems for the reformers in Panama is the liquor traffic. The popular drink of that country is rum, and there are saloons on every side. Free use of liquor, coupled with the naturally passionate nature of the inhabitants of this southern region, leads to much violence and vice, which as yet it has been impossible to entirely do away with. The government is now taking the matter in hand and a speedy improvement is expected.

The city of Panama itself has much of historic interest, as it is one of the oldest settlements on the American continent. Its buildings and ruins all show much of the Spanish influence.

In closing, Mr. Wolf showed a slide on which was a rough map of the United States and the Panama region. This showed most strikingly the great change in the course of ocean traffic which will be made as soon as the canal is opened. Mr. Wolf also pointed out the rapidly growing importance of the South American countries and promised great things for them in the near future. It is quite likely that before long there will begin to be a Southern

emigration and many of the young men of the present day may find their sphere of activity in the far South.

**DR. WILEY WILL
SPEAK AT GRAND.**

"Conservation of Public Health"
Will Be Discussed by Cham-
pion of Pure Food.

Dr. H. W. Wiley of the Bureau of Chemistry, Department of Agriculture, Washington, D. C., will deliver next Sunday evening's address at the Grand. His subject will be "Conservation of the Public Health," and will be highly interesting and instructive to all.

Dr. Wiley is widely known as a chemist and a man who takes a keen interest in the well-being of the citizens of the country. The following is a brief summary of the article, "Our Debt to Dr. Wiley," by Edwin Bjorkman, which appeared in the January issue of *The World's Work*, and illustrates the great value of Dr. Wiley's work:

Dr. Wiley began his work in the department twenty-six years ago and under very humble conditions. His aim was, and always has been, to distinguish between pure and adulterated food, and to give to the public food that was fit for human consumption. When the fight began along this line, the situation was as bad as it could possibly be. The fight was continuous and at last successful. Dr.

Made any way you want them. Fit guaranteed.

\$20 to \$35

Special Values at \$25 and \$30.

COLEMANS TOGGERY SHOP,

610 1 Ave. N.

Fargo, N. Dak.

Wiley was made famous a few years ago by his experiments upon human beings (men from his chemical laboratories) to determine the harmful effects of different preservatives and adulterations in foods. These experiments created a great deal of comment, but in the end Dr. Wiley obtained results that were really valuable.

The fight has been a long, hard one, but the results will be everlasting, for now the American people are protected to some extent at least from frauds and poisons in foodstuffs, and the debt owed to Dr. Wiley by the American people cannot be estimated in dollars, but in human lives.

The heiress, whose parents had bought her a real count, was apologizing for her father's lack of culture.

"You mustn't mind his rather weird language, dear," said the dutiful daughter; "sometimes, you know, he refers to you as 'his nobbs.'"

"Hees knobs?" repeated the

nobleman, puzzled; "oh, yes, I see ze joke now—I open the door of society to ze whole familie—yes? Ha! Ha! Ha!—Ex.

POETIC COMMENT.

The following anonymous verse shows that some of the people about the college do not agree with the architect as to the artistic effect of the towers on Ceres Hall:

He Didn't Know, You Know.

"Who put the horns on Ceres Hall!
Some leather-head, I vow.
I'll bet the man who did it thought
Fair Ceres was a cow."

"The Hub" knows what the college boys want.

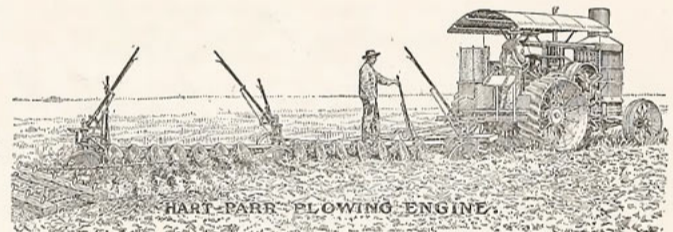

The business management of the Y. W. C. A. play has finally gotten the finances of the venture checked up and reports the rather handsome profit of \$83. While the play involved a great deal of work, the girls feel that they are well repaid for their efforts, and are to be congratulated on their success.

PERSONAL
Dr. Harris, who has been ill for some time, is now rapidly improving and will soon be able to resume his work.

Mrs. Hammond spent Wednesday evening with her sister, Mrs. Marshall, at the dormitory.

Miss Emma Nelson, a former student, visited her friends at the college a few days last week.

Clara Bakke and Alma Luidahl have returned to their homes at Madlock.

Walter Marshall has been quite ill for the past few days.

President Worst delivered an address at Forman on Saturday.

Miss Mary Thompson has been suffering from an attack of rheumatism of late.

Miss Ruby Gibbens partook of a very dainty dinner at the home of Miss Heron on the South Side last Friday evening.

Most of the walks about the campus are now cleared of snow and the grounds begin to take on quite a spring-like appearance.

Miss Clara Peterson returned from St. John's hospital, where she has been for several weeks. She will leave for her home at Bisbee within a few days.

Miss Margaret Anton, in company with her mother, left for her home in Petersburg last Wednesday. Miss Anton was obliged to leave on account of illness.

The work on the spring schedule has been considerably delayed and Registrar Parrott does not expect to have it posted until near the end of the term.

The Chemistry schedule for the spring term is now posted, and all who will take work in that department during the coming term may lay their plans accordingly.

The ruins of the Chemical Building have now been cleared away to such an extent that much of the apparatus is being uncovered. Some of the platinum vessels have already been recovered and it is hoped that a large part of the platinum will be found. The extremely high price of all platinum apparatus makes a careful search of the ruins well worth while.

John Thysell returned from his winter's work in Washington on Wednesday of last week and spent some time renewing old acquaintances about the college before proceeding to Dickinson, where he will resume his duties on the Experiment Station at that place.

William Whitecomb arrived in Fargo Saturday morning just in time to accompany the crowd to Grand Forks. He will stop off in Fargo for a week before going on to Williston.

Mr. Sanderson the college miller, recently underwent an operation at St. Luke's hospital and is at present improving. As the operation was of rather serious nature, it will be some weeks at the least before he will be able to resume his work at the mill.

A large number of samples of different kinds of oils used in paint work are being received and examined by the Chemistry Department. Turpentine and turpentine substitution products are also receiving a great deal of attention just now.

Dr. Bell delivered an extension lecture at Larimore the latter part of last week.

Mrs. Marshall acted as chaperone on the trip to Grand Forks.

The Senior Civil Engineers finished their work in the design of plate girders last week, and are now ready to devote all their energies to their theses.

Ole Nereal is suffering from a slight attack of measles. This disease is now having its spring run among the students and a large number of cases of more or less serious nature are reported.

Miss Hoover delivered an address at Larimore on Thursday. She was accompanied by Miss Halland.

The outside work on Ceres Hall is now practically completed and all the energies of the workmen will henceforward be directed toward the finishing of the inside of the building.

The Junior class in Hydraulics spent the latter part of last week designing a turbine to fulfill certain given conditions. The problem was of a practical nature and proved a most valuable review exercise.

One of the latest additions to the Chemical Department is a very valuable instrument to be used in making paint tests. It is known as a photomicrograph, which is used for taking photographs of minute objects. The instrument is an arrangement similar to a microscope and is used on a tripod the same as an ordinary camera. This instrument will be of immense value in making paint determinations, as heretofore an ordinary camera had to be used in making photographs of the different tests.

Professors Bell and Randlett and Miss Hoever spent Saturday at Grand Forks all having come from respective lecture towns and remained in the Forks to see Saturday night's game.

Professor Remington and his force are at present busy with samples of formaldehyde which are now coming in, in large numbers for analysis. From eighty to a hundred samples are expected, and it is likely that the next month or six weeks will be spent on this work.

Society Brand

Original Styles for the Young College Chap. They are superior in style, fit and workmanship above any other make.

The Palace

THE YOUNG MEN'S STORE
Stern & Field.
Corner Front and 4th Streets Moorhead, Minn.

Hampshire Sheep.

The HAMPSHIRE is the largest and heaviest of the Down breeds. The HAMPSHIRE Down for early lambs is regarded as of special merit. The lambs mature early and fatten easily.

The HAMPSHIRE DOWN for crossing or grading is distinctly superior. The HAMPSHIRE as a grazer has recognized merit. The fecundity of the HAMPSHIRE is above the average. Joseph E. Wing says, "A man ambitious to do the best possible thing with sheep can take up the HAMPSHIRE BREED with good courage, for they have in them possibilities in the way of great and rapid growth BEYOND MOST BREEDS; perhaps BEYOND ANY OTHER BREED."

If you want a RAM for the head of your flock you can not do better than to select a HAMPSHIRE. If you are starting a pure bred flock let us quote you prices on BRED YEARLING EWES. Don't wait—Do it now.

Berkshire Swine.

Will have a limited number of YOUNG BOARS and GILTS for this year's trade. Quality good and prices right. The BERKSHIRE is the hog for North Dakota. It is a happy medium between the lard and bacon type. Quick growth, early maturity, large litters and good brood sows with a superior finished product at the gambols makes the BERKSHIRE THE HOG.

A. C. LOOKS BACK ON SUCCESSFUL SEASON.
 (Continued from 1st Page.)

played at the "U." Score: 17 to 19 in our favor.
 The six possible claimants for the state championship are Wahpeton Science, Mayville Normal, Valley City Normal, Fargo College, the University, and the Agricultural College. Of these Mayville has been defeated by Fargo College, Valley City and the A. C.,

Institution—	Played.	Won.	Lost.	Per Cent.
Agricultural College	7	6	1	.860
Fargo College	5	3	2	.600
University of North Dakota	6	2	4	.333
Wahpeton	4	1	3	.250
Mayville	1	0	1	.000
Valley City	1	0	1	.000

1910-11 COLLEGE CATALOG NOW OUT.
 New Book Is College Section Only—Fourteen Graduate Courses Now Offered.

The College Catalog is now ready for distribution and will be given out in a short time. At present it is being withheld for the reason that it is of no interest to those who do not expect to enter one of the college courses or to those who have already done so. For this reason there is nothing to be gained by distributing this section among the short course men. This does not mean that those who have any idea of taking up college work will have any difficulty in procuring a catalog, but merely that the book contains only such information as relates to the college courses.

The book itself is issued as the first of four quarterly bulletins which will henceforward be gotten out each year. It contains 160 pages, making it nearly four times as large as former catalogs which included all the departments of the institution. It is put up in the usual form, giving general information regarding the equipment of the college, requirements for registration, expenses, etc.

Fourteen complete graduate courses are offered, Chemical Engineering, which now appears for the first time, being the fourteenth. From this it may be seen that the student who comes to the Agricultural College has no lack of variety in making his choice of a course.

The accounts of the various subjects offered are very much as in former years, each being explained under the head of the department in which it comes.

In the last pages in the book are given the military and student rosters. The final summary of registration shows an enrollment of 1,171 during the past term, which speaks well for the growth of the institution.
 The statement on the back of the new book explains very well the system which will be followed in the future in getting out the catalogs.
 "The Quarterly Record of the North Dakota Agricultural College is issued in four regular numbers:
 "I.—The College Catalog.
 "II.—The Agricultural and Manual Training High School Catalog.
 "III.—The Catalog of the Special Short-Year Industrial and Trade Courses.
 "IV.—General information regarding the equipment of the institution, the lines of work offered and the opportunities afforded by these lines of preparation.
 "Any one, or all, of these current numbers will be sent free on request. Address The Registrar, Agricultural College, North Dakota."
 No. II will soon be off the press, ready for distribution, and the work on the compilation of No. III will begin in a short time.

Wahpeton won a game and lost a game to the "U," but was twice defeated by the A. C., Fargo College won a game and lost a game with the "U," and won and lost with the A. C. The "U" won and lost with Wahpeton and Fargo College, but lost both games to the A. C. The A. C. won both games from Wahpeton and the "U," but lost one and won one from Fargo College. These results tabulated are given below, only such games as bear on the state championship being given:

NOTICE.

There will be a meeting of the Tennis Association in Room I of the Main Building at 4:30 this afternoon. All members are urged to be present. Plans are being laid for a tennis tournament to be held during the coming season and the chief purpose of this meeting is to make definite arrangements in regard to the matter.
