The Rural Commons is a residential and commercial development located near Galena, MO. It was designed to complement the surrounding area by offering affordable housing options, commercial spaces, and a mix of residential and community activities. The project aims to create a vibrant community where residents can live, work, and play in a sustainable manner.

**Project Description**

The Rural Commons is a mixed-use development that includes residential units, commercial spaces, and community amenities. The design focuses on creating a sense of place and community through the integration of natural elements and sustainable practices. The project seeks to address the needs of the local community by providing a range of housing options, from single-family homes to apartments, while also offering commercial spaces for local businesses.

**Floor Plans**

The project features a variety of floor plans, including residential units and commercial spaces. The residential units are designed to accommodate different lifestyles, from small apartments to larger family homes. The commercial spaces are designed to be flexible, allowing for a variety of uses, from retail to office spaces.

**Structure**

The structure of the building is designed to withstand the local climate and seismic activity. The use of sustainable materials and energy-efficient systems contributes to the building's overall sustainability and energy efficiency.

**Elevations**

The elevations of the building show its design elements, including the use of materials and the integration of green spaces. The design aims to create a visually appealing and functional building that blends seamlessly with the surrounding environment.

**Details**

The details of the building, including the finishes, materials, and fixtures, are carefully considered to ensure durability and maintainability. The use of high-quality materials and innovative design features contribute to the building's overall aesthetic and functional appeal.

**Recreation**

The recreation area is designed to provide residents with a variety of activities, including outdoor spaces for socializing and community gatherings. The area includes seating areas, playgrounds, and other amenities that encourage physical activity and social interaction.

**Restaurant**

The restaurant space is designed to provide a welcoming environment for residents and guests alike. The design includes seating arrangements, a bar area, and a variety of menu options to cater to different tastes.

**Convenience**

The convenience area includes a variety of services, such as a post office, a grocery store, and other essential services. The design of the area is intended to make these services easily accessible to residents, enhancing the overall convenience and quality of life in the community.
