

NEW CATALOG OF LIVESTOCK AND STORAGE BUILDINGS AVAILABLE

A new catalog of plans, digests and books on livestock facilities and storage buildings is now available through the Midwest Plan Service. The plans themselves can be most useful for those who know what kind of building they need, and also to those who are gathering information about various kinds of buildings. The available books also can be useful for planning new buildings or for remodeling. The catalog lists many miscellaneous plans in addition to the buildings and facilities.

Get a copy of this Midwest Plan Service catalog from your County Agent's Office, or write directly to the Department of Agricultural Engineering, North Dakota State University, Fargo, 58102.
