<p>PRICES OF NORTH DAKOTA FARM PRODUCTS</p> <p>All-commodity Index May 15, 1956 Up Three Points Than a Month Earlier But Still Four Points Lower Than a Year Ago.</p> <p>By Perry V. Hemphill</p>	<p>220</p>

*OUR COVER PICTURE is the American elm, *Ulmus Americana*, a magnificent forest tree; one of the finest for park and street planting, which sometimes grows 120 feet high, with a basal diameter of 6 to 11 feet. It ranges from the Maritime Provinces of Canada to the western base of the Rockies and southward to the Gulf states. It was named the official tree of North Dakota by the Thirtieth Legislative Assembly, March 10, 1947. Engravings courtesy of Ben Meier, Secretary of State.*
