

The Spectrum

Air Force Promotes Professor Sintow to Rank of Major

Major Karlin Sintow, Assistant Professor of Air Sciences and Tactics, received his promotion from captain to major Sept. 15. In addition to his instructional duties, he is the plans and training officer.

Major Sintow entered active duty in Jan. 1942, at Fort Belvoir, Virginia, as an engineers unit training officer. He stayed there three months. Then with the activation of an engineer aviation battalion he went to Mississippi as a company commander, and finally went to Florida where he departed for overseas duty in the fall of 1942.

While overseas he island hopped from below Guadalcanal to the Philippines. During this time he built bomber strips, roads, bridges, docks, hospitals, camps, assembled invasion barges, and cleaned up and rebuilt part of the old walled city of Manila.

Major Sintow returned to the States in the fall of 1945 where he was squadron commander of an engineer aviation training center at McDill Field, Florida. He was then Post Engineering Officer at Brooks Field, Texas, for two years and Air Installations Officer at Hensley Field for another two years. He was assigned to NDAC in 1950.

Major Karlin Sintow

Six National Sororites Pledge 49 NDAC Girls

Six national sororities on campus pledged 49 women to their chapters Monday night. Ceremonies concluded the formal rushing season.

Alpha Gamma Delta pledged Janet Bosworth of Carpio, N. D., Sally Burchill, Gretchen Wilson and Helen Wolff, all of Harvey, N. D., Patricia Ebeltoft of Frazee, Minn., Dorothy Roberts of Hettinger, N. D., and JoAnn Grimes, Angeline Pudwill, Barbara Widdifield and Beverly Gordon, all of Fargo.

Wearers of the crescent moon are Barbara Arneson of Glyndon, Minn., Joan Marquart of Harwood, N. D., Wanda Allen, Janice Hamilton, Constance Hogan, Patricia Jones, Beverly Kraus, Arlyss Elliott, Francine Simons, and Mary Wright, all of Fargo.

Kappa Alpha Theta are proud of their new members, Ann Marie Ensrud of Grafton, N. D., Beverly Ewald of Walcott, N. D., Avis Hoeft, of Hankinson, N. D., Donna Irene Crosby of Cavalier, N. D., Frances Lohman and Beverly Stegge of Fargo.

New members of the KD house on the corner are Marlene Carlson of Washburn, N. D., Anne Larson of Fullerton, N. D., Jan Myhre, Gayle Quam and Maureen Nygaard, all of Bismarck, Dorothy Ryan of Sterling, N. D., Dorie Anderson of Villard, Minn., Roberta Thorson, Dorothy Asker and LaDonna Ramsland, all of Fargo.

Kappa Kappa Gamma pledges are Phyllis Sillimen of York, N. D., Barbara Vaughn of Lisbon, N. D., Betty Ann Lee of Minot, and Sylvia Askew, Patricia Carlson, Kathleen Donovan, Jane Heifort, Margaret Otterson, Virginia Prah and Gretchen Muehlenbein, all of Fargo.

Phi Mu's can proudly call these coeds new members: Gloria Ann Hoganson of Fargo, Betty Lou Jorgenson of Leeds, N. D., and Clarene Sandven of York, N. D.

AC Largest School In North Dakota; NDU Rates Second

According to fall term enrollment figures, NDAC is the largest state school in North Dakota. Alred H. Parrott, registrar announced that 1679 students enrolled here for the fall term.

Enrollment figures for other state schools are: NDU, 1559; Minot STC, 594; Mayville STC, 175; Valley City STC, 381 Dickinson STC, 229; Ellendale Normal, 91, Wahpeton Science, 336; and Bottineau Forestry, 71.

There are over three times as many men as women enrolled here this fall. Veterans total 293 as compared with 493 last year. There are 555 Freshmen, 349 Sophomores, 334 Juniors, 317 Seniors, 57 graduate students and 8 special students.

Breakdown according to schools is: Agriculture, 342; Arts and Sciences, 468; Chemistry, 58; Home Economics, 244; Engineering, 413; Pharmacy, 154.

Student Commission Announces Contest

The Student Commission has announced a contest open to all students to select the NDAC 1951 homecoming theme. The student who submits the theme used will receive \$20 and two tickets to the homecoming dance.

The theme must be appropriate to the Bison-Sioux football clash. Length of theme must be suitable for use on banners and floats.

Contestants may submit more than one entry but each entry must be on a separate sheet of paper. Entries should be submitted at the College 'Y' office at the central desk of the YMCA lobby.

Deadline for the contest is 4:00 p. m., October 2. Entries will be judged by the Student Commission on basis of appropriateness and adaptability.

Schnell States Commission Resolutions Campus Projects Under Consideration

"Student Commission will endeavor to be of greater service to the student body and the entire college," announced Bob Schnell, student commission president. According to Schnell, ideas are always welcome. Students are urged to contact any of the student commission members concerning student affairs or problems.

The Student Commission has a variety of Campus projects and affairs under consideration. Im-

mediate action will be directed toward the choice of a new advisor and planning the 1951 homecoming. Student Union and teacher evaluation work will be continued from the previous commission.

Constitutional revision—especially the articles dealing with election procedure, has also been under study. Many students have suggested that steps be taken to provide class officers with responsible duties or abolish these offices entirely.

Still others have requested that the commission investigate the possibilities of a new name to replace the official college title, "North Dakota Agricultural College." These and other controversial issues will be dealt with after the more important work of homecoming, student union, etc. are cared for.

The library will not be open for business on Sunday; it never is.

Seniors Sponsor Skip

An all-school dance will be held tonight after the game at Festival hall from 10:30 to 1:00. The Fargoans will provide the music. The dance is being sponsored by Senior Staff.

Members of the staff are Lois Daggett, Maxine Sill Hanson, Pat Kennedy Heine, Peggy Armstrong, Betty Gordhammer, Junette Hill Keating, Beverly Widdifield Edam.

NDAC Undergoes Changes; Pavement, Shrubs, Rooms Added

Another addition to the NDAC campus, the agriculture engineering building, will be ready next spring. The building is located Northwest of the main Engineering building.

By FRANK HAYASHI

One need not go far on the ND-AC campus these days to see changes taking place. Everything from new class rooms to trees and shrubs have been added. The long range planning on the campus is under the Department of Building and Grounds, guided by Mr. Bob Thorson. Their job is to correlate and arrange jobs on the campus for completion.

The agricultural Engineering Building is scheduled for completion soon. Mechanical and Civil Engineering groups have laboratories in the building at present, but the new second story addition and the addition to the west will house all Agricultural Engineering faculty and classes. The top story addition is of tile and brick veneer.

Farther north on the campus from the beef barn a new livestock arena is being built. The bleacher section of the arena has been completed. Two new greenhouses are going up behind Morrill Hall. One is now in use by the Agronomy Department for studying rust. The other glass enclosure is to be used by the Horticulture Department.

Few students have wandered near the power plant, but it also has several alterations and additions. An office for the plant engineer has been made available and locker facilities for the employees have been added.

While we are out here on this part of the college it might be a surprise for those who drive cars, that the parking lot has a new gravel surface which is roll pack-

ed. No more guessing games as to where the car went or how are we going to get out of the mud.

At last the Lincoln highway has reached us. Yes, NDAC has paving which will eliminate dusty roads. It is the concave type of road which will shed water to the middle where the storm sewers will take care of the run off.

Numerous sidewalks have been placed to serve adequately the students. Additional office and work space have been provided for Air ROTC.

The college planning program looks toward the future and that will involve additional buildings such as a Home Economics building and a Student Union. Footings and foundation are completed on the new engineering building. The erection of steel is getting underway now.

Fulbright Scholarships Open To Seniors

Seniors must apply for the 1952-53 Fulbright scholarship by Oct. 14. All applications must be in the hands of the local committee by this date. Two candidates are chosen each year from North Dakota.

The Fulbright scholarship offers a year's study in a foreign country. Awards cover transportation, expenses of a language refresher, tuition, books, and maintenance.

Basic qualifications are: citizen of U.S., college degree or its equivalent at the time award is to be used, knowledge of the language of the country chosen by candidate and good health.

Selection will be made chiefly according to academic records and value of project. Countries open for study are: Australia, Austria, Belgium, and Luxemborg., Burma, Egypt, France, Greece, India, Iran, Italy, Netherlands, New Zealand, Norway, Philippines, Thailand, Turkey, and the United Kingdom.

Prof. Fred Genschemr, R. 227, Science Hall, will supply further information and application blanks. Prof. Genschemr suggests that students apply for countries other than the United Kingdom. Greatest number of candidates apply for England thus competition is keener.

Special grants for research and teaching are made to the faculty.

'Spec' Sets Deadline

Deadline for stories and notices for Spectrum publication is 3:00 Monday. If it is impossible to meet this deadline please contact the Spectrum editor and make other arrangements.

Well-known Stars To Appear Here

Charles Laughton

Charles Boyer

The First Drama Quartette consisting of four widely-acclaimed actors will present George Bernard Shaw's "intellectual romp", Don Juan in Hell, at Festival Hall next Wednesday. The play is not a lyceum member and is not included on student activity cards. Tickets may be purchased at the Little Country Theatre.

Charles Laughton is the star and director of "Don Juan in Hell." After Shaw saw Laughton make his bow in "Pygmalion," he wrote to him: "I spotted you then and you played everyone else bang off the stage."

Laughton has starred in such films as "Mutiny on the Bounty", "Ruggles of Red Gap", "Henry the Eighth", and "The Beachcomber". Before leaving for England, Laughton recorded for RCA Victor Red Seal Dickens "Christmas Carol".

In 1950 Laughton took to the road for a series of one-night stands reading from 'pieces of books.' He insists, however, that he doubts that any of the media in which he is working or plans to work ever give him the deep pleasure and genuine joy that he has experienced in staging and acting in "Don Juan".

Charles Boyer, the French matinee idol, has fallen in love with America. In the first cross-country tour of "Don Juan", Boyer met what he calls "the real America" for the first time. "When you live in California and occasionally travel to New York, you don't really get a chance to know the great country which lies between the

two cities. On this tour I found fine citizens with real and lasting values."

Boyer recently completed a starring role in "Rage of the Vulture." On the conclusion of this tour he will star in "The Happy Time." In "Don Juan in Hell" he creates an unconventional love in typical Shavian tradition.

Cedric Hardwicke, knighted by the British Crown for his outstanding record as one of England's greatest talents, is not new to Shaw's plays. Prior to coming to the United States, he played in "Heartbreak House", and "The Apple Cart."

Two years ago, he won recognition on Broadway for both performance and direction of Shaw's "Caesar and Cleopatra."

Hollywood made a bid for his services in 1935. Films Hardwicke has played in are: "Les Miserables", "Green Light", "On Barrowed Time", "I Remember Mama", and "The White Tower."

Agnes Moorehead, who creates the role of Donna Anna in "Don Juan in Hell", is one of Hollywood's and Broadway's most colorful and versatile performers.

As a motion picture star, Miss Moorehead won the New York Film Critics' Award plus an Academy Award nomination, for her work in "The Magnificent Ambersons". On Broadway the actress has appeared in "Courage", "Candlelight" and "Scarlet Pages."

Miss Moorehead has previously been starred in such Shaw dramas as "The Apple Cart", "Pygmalion" and "Anthony and Cleopatra".

Cedric Hardwicke

Agnes Moorehead

PA System In Use For AC Convocations

F. G. Schoff, chairman of the Convocation committee has announced that a public address system will be used for fall convocations this year. The uses of a PA system has been made possible through the cooperation of Bob Thorson of Buildings and Grounds. "It will make sure that from now on students can hear what a speaker says, and thus solve one of last season's big problems," says Mr. Schoff. "Convocation lecturers used to be big-voiced men with a smattering of knowledge. Now they are normally experts in their fields who've been too busy there to develop platform techniques."

The 1951-52 Convocation series got underway way today when Dr. Ralph E. Lapp talked to NDAC students on the topic, "Must We Hide?". Dr. Lapp is an atomic physicist who took part in the Bikini bomb tests of 1946.

Dr. Lapp critically examined and provided stimulating answers to such questions as "What are your chances of survival in an atomic war?", "Can American cities be defended?", "Can our A-bomb stop Soviet aggression?", and "How many A-Bombs do the Soviets have?"

Dr. Lapp is now Director of Nuclear Science Service in Washington. In 1948-49 he was Executive Director of the Research and Development Board under Dr. Vannevar Bush. He also served as head of nuclear physics for the Office of Naval Research and as adviser to the War Department General Staff.

Theatre On Campus Sponsors Contest For NDAC Classes

The Little Country Theatre annual one-act play contest will be held on November 1. Each class (Fr., Soph., Jr., and Sr.) will stage a play and compete for first place honors. Students select the play, plan stage sets, costumes and make-up. A student is also in charge of directing the cast. Anyone interested should contact Miss West at the Little Country Theatre.

Otto spelled backwards is Otto, and from the middle out you get to either way.

Gene Autry To Present Show

Team Makers club of Fargo will bring Gene Autry and his western show to the NDAC Fieldhouse Sunday, October 7. Appearing with Gene Autry, will be his horse, Champion and Little Champ, Smiley Burnette, Pat Buttram, Johnny Bond, Carl Cotner, the Cass County Boys, the FMelody Ranch Stars, and Jemez Indians from the New Mexico Reservation. Shows will be presented at 1:30 and 4:30 in the afternoon. Tickets may be purchased at the Gardner Hotel or written for at this address, Gene Autry, Box 1012, Fargo, N. D. Check or money order should be made payable to the Team Makers Club.

23 Receive Degree In Civil Engineering

John A. Oakey, chairman of the civil engineering department, released the following list of students who received the BS degree in Civil Engineering last June at the NDAC, showing their employers and places of employment:

Peter L. Balkan of Hillsboro—US Soil Conservation Service, Linton, N. D. Lawrence M. Bjornstad of Fargo—USAF Research & Development Command, Dayton, Ohio. Robert Brown of Jamestown—Cal. Dept. of Public Works, Sacramento, Cal. Philip E. Felde of Fargo—US Navy Hydrographic Survey, Suitland, Md.

Douglas W. Flatt of Sheldon—US Navy Hydrographic Survey, Suitland, Md. Arlan Gilbertson of Halstad, Minn.—Corps of Engineers, Riverdale, N. D. Vernon D. Gores of Fargo—USAF. Carrol K. Hauge of Fertile, Minn.—Sverdrup & Parcel, Inc., St. Louis, Mo.

J. S. Hogenson of Cooperstown—US Navy Hydrographic Survey, Suitland, Md. Clarence Leer of Fargo—Cal. Dept. of Public Works, Sacramento, Cal. L. E. Marshall of Fargo—North Atlantic Constructors, place of employment secret. Clifford Martin of Fargo—N. D. Highway Dept., Bismarck, N. D. J. W. Meisner of Bismarck—US Navy Hydrographic Survey, Suitland, Md.

Marshall W. Moore of Fargo—USAF. R. H. Mork of Jamestown—US Navy Hydrographic Survey, Suitland, Md. Jean Resvick of Fargo—US Geological Survey, Rolla, Mo. Arnold Sakshaug of Sherwood—E. I. du Pont, Wilmington, Dela. W. J. Smith of Forbes—North Atlantic Constructors, place of employment secret.

Jerome Spaeth of Mahanomen, Minn.—Oregon Highway Dept., Salem, Ore. John N. Strommen of Fargo—Civil Aeronautics Adm., Minot, N. D. Dennis Trimakas of Chicago—Research Asst. at Northwestern Univ., Evanston, Ill. Peter B. Wold of Bottineau—US Bureau of Reclamation, Coulee, Wash.

Chemical Society To Hold First Fall Meet At Forks Lignite Laboratory Dedication

The first fall meeting of the American Chemical Society, Red River Section, will be at the Bureau of Mines Lignite Laboratory in Grand Forks Saturday, September 29th. The Section will celebrate jointly with the Bureau of Mines the dedication of the new laboratory to be known henceforth as the Charles Robertson Lignite Research Laboratory.

Dedication ceremonies will be from 10 a. m. to noon, followed in the afternoon by public inspection of the new building. Many prominent public officials will participate, including Dr. James Boyd, Director, Bureau of Mines, Senators Langer and O'Mahoney, Secretary Oscar Chapman, Department of the Interior, and Dr. John West, President of the University of North Dakota.

Feature of the evening will be an address by Dr. Louis McCabe, Chief of the Fuels and Explosive Division, U. S. Bureau of Mines, Washington, D. C.

Club Invites Freshmen

Saddle and Sirloin Club will resume activities next week for the 1951-52 school year. The club will hold a meeting next Tuesday, October 2, at 7:30 p. m. in Room 210 Morrill Hall. All agriculture freshmen are cordially invited to attend. Lunch will be served after the meeting.

FFA To Hold Meeting

Collegiate FFA chapter will meet on Wednesday, October 3, in Room 215 of Morrill hall at 7:30. All FFA members and Agriculture education students are urged to attend. Games, movies and lunch are on schedule.

Dr. McCabe's subject will be "Air Pollution Problems", a matter of increasing concern in large cities and industrial centers.

He is known as an authority on this subject and at the World Chemical Conclave of the International Union of Pure and Applied Chemistry, Dr. McCabe presided over the section meetings dealing with air pollution.

The new Lignite Laboratory is the first and only one of its kind dedicated to chemical and engineering experimentation aimed at new and improved uses for lignite, which is a major resource of North Dakota and Montana. Studies will include gasification and liquefaction for the production of new fuels of industrial importance.

The new laboratory is of special importance as the only large chemical enterprise in the state. As such it is the object of intense interest to chemists of NDAC and NDU, who are expected to cooperate in many of its activities.

Chairman of the American Chemical Society, Red River Section, is Dr. Ray Wendland, Professor of Chemistry, NDAC. Dr. Wendland, as program director, has arranged for the future visits to this section of many nationally known chemical authorities.

Among these will be Dr. Herman Bloch, Universal Oil Products Co., Chicago, who will come to Fargo in October to discuss chemical derivatives from petroleum—a subject of much interest in North Dakota.

There will be two principal dinners among the Saturday events in Grand Forks, at noon and at 6 p. m., both to be held in the University Student Union.

AFROTC Staff Gains Instructors, Officers

Flight Operations Course Open To Men; Enrollees Included In Deferrment Quotas

Tomorrow's pilots of jet fighters and bombers will receive preliminary training in the flight operations course to be offered by the department of air science and tactics. Besides gaining a basic knowledge of the principles of flight, aircraft maintenance engineering, instruments, navigation and meteorology, the jet cadets will be introduced to the jargon of the Air Forces.

Combat trained pilots headed by Lt. Col. Robert E. Phillips will teach the courses and indoctrinate the students in the life of a flying officer.

Flight operations is open to all students regardless of the school in which they are enrolled. Actual flying instruction may be added to the program when congress allocates the funds. Suitable facilities are available at Hector Airport and civilian instructors will handle that part of the curriculum.

Air-minded young men who do not have all the physical requirements for pilot training may take

the course to prepare for jobs as aerial observers, navigators or bombardiers. Details may be obtained by contacting Col. Phillips at the Field House.

Previously there was only one course open to AFROTC students which required an engineering or general science background for enrollment. The constant need for trained engineers in the Air Forces necessitated the creation of the Air Installations option. NDAC was fortunate enough to be one of the eight schools in the country to be chosen to inaugurate the program in 1949.

The cadets are trained to be the Air Forces "City Managers". Upon graduation they are assigned to Air Bases to assist in the upkeep and construction of runways, roads, buildings and utility systems.

The on-the-job training they receive in management and technical procedures is invaluable and can not be duplicated in civilian life until they have reached an advanced stage in their careers.

The deferrment quotas under which AFROTC students are exempt from the draft for the duration of their college careers will be expanded to include students enrolling in the flight operations course.

Alums Visit Mechanical Engineering Department

Stephen Sigurdson, M. E. 1950, was a recent visitor at the Mechanical Engineering Department. Mr. Sigurdson is at present on active duty with the Navy and is assigned to a destroyer escort training ship operating out of Seattle, Wash.

Also a recent visitor was Lt. Lloyd Flynn, M. E. 1950, who was enroute from Warren air force base, Cheyenne, Wyo., to Washington, D. C., where he has been assigned to a secret weapons project.

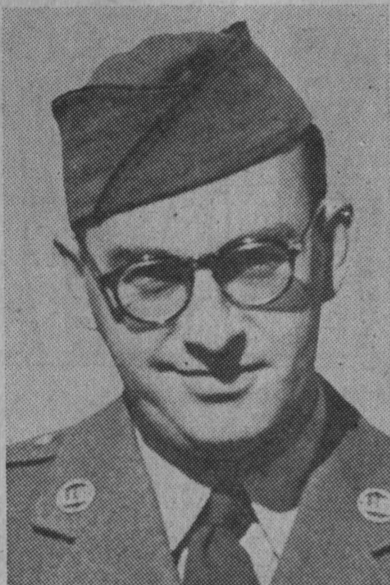

Professor A. W. Anderson, chairman of the mechanical engineering department, and Professor R. K. Watson left Wednesday, Sept. 26, to attend the ASME National convention in Minneapolis. The convention is to be held at the Radisson hotel from Sept. 26 through Sept. 29.

Dr. Page To Speak At Church Meeting

One of America's most noted Christian leaders, Dr. Kirby Page, will speak in Fargo at 7:30 p. m. on Sunday, Sept. 30 at the First Methodist church. His theme will be, "The Christian Answer to Communism." Dr. Page has traveled over a million miles on his speaking tours or the building of peace.

He has spoken before more than four hundred colleges and universities and in more than a thousand churches. Late in August he was one of the principal speakers at the National Convocation of Methodist Youth held at Perdue University.

He is now touring the midwest under the auspices of the American Friends Service Committee. His address, which is open to the public, will be followed by a forum period for questions and discussion.

M/Sgt. Brown

With the advent of the Flight Operations option, which is offered to all qualified AFROTC cadets regardless of academic major, come the new instructors and tactical officers, each with years of colorful experiences.

M/Sgt. Everett S. Brown, for instance, was on the first B-29 to fly over the Arctic and the North Pole. Sgt. Brown served as crew chief on B-29's and B-50's flying out of Edmonton, Canada, making eight pole flights and logging some 2,700 air hours. Prior to this he was a crew chief on C-47's based in England during the war. He also filled in as gunner-engineer on B-17's, making eight missions over Germany.

Sgt. Brown returned to the United States in 1945 where was stationed at Wright-Patterson AFB as research and development crew chief. He came to NDAC from Griffiss AFB, Rome, New York. He is married and has one son.

M/Sgt. Haws

M/Sgt. Robert Haws enlisted in the Air Force in July, 1940, and received his discharge in June, 1945. He held various civilian jobs until he went to Shanghai, China, to work as a purchasing agent for the China National Aviation Corporation.

Sgt. Haws reenlisted at McChord AFB, Wash., in 1949 and came to NDAC from there. He has received training which qualifies him as an armament and/or administrative specialist. Sergeant Haws is married and has two daughters.

Capt. Louis Obdyke

Capt. Louis K. Obdyke, Jr. was born in Rochester, N. Y. He attended Cortland State Teachers College and UCLA, majoring in physical education.

Capt. Obdyke began pilot training in Dec., 1940, at Glenview, Chicago, graduating in August, 1941, from Maxwell Field, Alabama. He had been flying with Military Air Transport Service for six years and was rated as a senior pilot in 1948. He is married and has two children.

M/Sgt. Allen

M/Sgt. Frank C. Allen entered the Air Force via the aviation cadets in Feb., 1942. He won his wings in Dec., 1942, and later became a flight instructor. He went overseas to the Southwest Pacific in 1944 as a transport pilot. Returning to the U. S. in 1945, he reverted to an enlisted status in 1946 but still holds a reserve rank of 1st lieutenant.

Sgt. Allen was then sent to the Aleutian Islands as utilities technician in 1947 and served another year at Ladd Field, Alaska, as group sergeant major. He returned to the states in Jan., 1949, where he was assigned to the Second Bomb Wing, Hunter AFB, Savannah, Georgia. He was on temporary duty with the Wings in England when he was assigned to NDAC. Sgt. Allen is married and has two children.

Capt. John Vincent

Capt. John H. Vincent is a native of Miami, Oklahoma, enlisting in the Air Force in May, 1942. He was called to active duty in Oct., 1942, graduating from advanced flight school at Lackland AFB, Waco, Texas, in August, 1943.

Capt. Vincent served with a troop carrier in the Southwest Pacific from 1944 to 1945, being based in New Guinea and the Philippines. He then returned to the United States where he remained on active duty until Jan. 1947.

He attended Northwestern Oklahoma Junior college until he was recalled to active duty in Jan., 1948, to serve for two more years. He was relieved from active duty in Jan. 1950, and returned to college at the University of Tulsa until he was again recalled in Feb. 1951.

Capt. Vincent was transferred to NDAC from Tinker AFB, Oklahoma. He is rated as a senior pilot, is married and has one son.

VA Organizes Guard Truck Battalion Here

Mr. Neil Cameron, connected with the Veterans Administration is organizing a National Guard truck battalion. This battalion will consist of two companies; one headquarters company and one regular company.

These battalions will meet once a week in the local armory to drill, which are paid for. Cameron said that "Students under 18½ years old now will probably have their inductions indefinitely postponed. Students over that age can figure on 1½ years postponement at the present time."

Mr. Cameron states he foresees little chance of this unit being called to active duty unless the world situation becomes more aggravated. There is abundant opportunity for promotion in this truck battalion.

There are only eight privates in the whole battalion, and there are vacancies for six warrant officers as well as a dozen of sergeants in all grades. Students interested may obtain further information from Mr. Neil Cameron, third floor of the Veterans Administration office uptown.

College Community Creates Opportunity, Responsibility

To All Introverts:

In many ways students entering the NDAC are like the young Athenian, Hippocrates, who is immortalized in Plato's dialogue "The Protagoras." A professional wise man, Protagoras had arrived in Athens, and Hippocrates, who had heard of his arrival, awakened his friend Socrates at dawn so that he might be given an introduction. Questioning Hippocrates, Socrates discovered that his young and eager disciple did not really know why he wanted to see Protagoras, nor did he know what Protagoras could do for him. Similarly most students entering American colleges today do not know what a college will do for them or what they can do for the college. I will attempt to at least partially answer these questions in this article for those students entering the college here to whom the college and activities associated with it seem to bear a marked resemblance to the world of William James's baby—"a big, buzzing, blooming confusion."

Just as the college does not pretend that it is an institution which can do everything for you, it should be understood that this article is not a magic carpet to a complete understanding of a philosophy of education. In the analysis, this is a matter which can be thoroughly understood only by educators and philosophers. Nevertheless, for new students, even a partial comprehension of the purposes of the college and a reciprocal understanding of what responsibilities a student has as a member of a college community at this time can make a highly significant contribution to a successful and meaningful educational experience. The social structure of the college community, the technique of the classroom—in short, all the points of emphasis in the academic program as well as the attendant extra-curricular life on campus can be understood only in terms of a philosophy of education which draws the student into the college community as an active member of a social structure as well as an academic one.

Let us examine the things the college community offers you. Virtually all educators agree that there are certain skills and elements of information which should be possessed by everyone in the community, irrespective of the vocation or profession which he practices. A community, by definition, implies the existence of a set of common principles and purposes which are shared by most members of the group; and one function of an educational system is to transmit those elements of agreement to new members so that the community can continue to exist. Aside from the strictly practical vocational training which the education institution offers, in our democratic social order the educational system has the additional responsibility of preparing the citizenry for intelligent participation in the processes of government. Under our system of society, this means self-government. It follows from these premises, therefore, that there are certain basic skills and factual data which every student is expected to master which are not confined rigidly to professional training but which also include those techniques involved in becoming an active member of a democratic community.

The college provides the facilities for training students so that they may make their place in society when they leave here. It is up to the individual student to examine himself and his activities to discover whether or not he is making the most of the facilities the college offers. If he is not, he, as a citizen of the college community, is betraying that very institution which was founded and perpetuated for his benefit. A new student may ask, "But what talents do I have that could possibly benefit the rest of the student body?" The answer is not a simple one. One has to experiment and project himself into many activities before he can fully realize his own potentialities. He must experiment because before coming here he has had little or no experience as a member of organizations such as are extant here. I could quote Professor John Dewey of Columbia, to support this thesis, since he argues that one learns only by doing, by actual experience.

I know it is hard for the the average freshman to project himself into the organizations on campus and to take part in all their functions. But the difficulty is largely a psychological one and is not a question of ability. Whatever your background, or past experience, there is a place for you in this community. Look about you, ask questions, go to the activities that are sponsored and planned for your benefit and soon you will find that you are actually "doing" and are learning by doing. If you aggressively assert yourselves in such a manner, I for one, am convinced that you will never regret your decision to act, to participate in all the college offers. Find out what the various fraternities and sororities have to offer you. Find out what prerequisites are necessary if you are interested in any of the student governing bodies. If you have any ideas or suggestions as to how these organizations or the policies of these organizations may be improved, by all means express yourselves to their members, or through your paper, The Spectrum. Everything the college has to offer is for your benefit. Don't let your fellow students down by being passive. Be active and pay your debt to the college by participating in as many of its functions as possible.

The advantages of an active college life become evident when you look ahead to the day when you will be stepping into a greater society with its greater attendant responsibilities. With our entire social order being threatened by the creeping paralysis of communist thinking, it behooves every one of you to be prepared to take your place as an active citizen. Our very system of democratic government is dependent for its existence upon citizens who are active, who go to the polls, who are willing to accept responsibility in the community, who have ideas for improvement and will work to see their ideas realized.

The advantages are not confined entirely to the preservation of our democratic life. They include the personal satisfaction that comes with knowing that you as an individual have had something to say and do in planning your own life. They include the satisfaction of knowing that you are not a slave to meaningless toil for existence, that you are not a pseudo-intellectual bookworm, nor a professional egotist. In short, an active life means a happy life, and isn't the happy life the goal towards which all of us are striving? So let us make our educational experience meaningful by active participation. First of all, you owe it to yourself; secondly, you owe it to your school; and finally you owe it to the community which you will become a member of when you leave here.

Dave Honnold

LITTLE MEN ON CAMPUS

By Bibler

Good morning, Professor Snarf

Interfrat Council Gives Word On Pledging

The governing body of the fraternities, The Interfraternity Council, composed of two representatives from each chapter, controls the problems, and laws of all fraternity groups.

Throughout our country this system exemplifies a spirit of progression toward better training and discipline of the individual to the ideals of mature, well-rounded, well-educated members of society.

To pledge or not to pledge is one of the most important decisions of a college career. To pledge can mean a great deal during your collegiate education in developing high principles of loyalty, fellowship, scholarship and leadership. In pledging a fraternity you accept a position of responsibility. You will find that the friendship and rich experiences that you gain as a fraternity man in your "home away from home," will become a lasting and pleasant part of your later life.

We readily recognize that all of the objectives of the fraternity system as a whole have not been reached but the merits of fraternity life can be seen in the fulfillment of most of our objectives here at North Dakota Agricultural College.

Interfraternity Council

Rahjah's Plead For Cheering Assistance

It seems that the student body of NDAC feels that there is need of improvement in the method and volume of student reaction to athletic contests. In other words we need some spirit around here!

This afternoon at 4 in the YMCA auditorium (that's across the street from the Main Gate) you will have your chance to help create that spirit. We have some ideas and you may have some too. But the main thing is your support.

We think that a student cheering section like those in the larger schools with card stunts can be developed among us. The Rahjah's need you. See you all this afternoon. Let's "Fire-up!"

The Rahjah Club

Students Join Editorial Staff To Air Gripes

The Spectrum editorial staff will be organized next Wednesday at a meeting in Room 125, Minard hall at 4:00. Principles and policies for the Spectrum will be decided upon at this meeting.

The Spectrum editorial staff is the organization which sounds-out student opinion on campus problems and attempts to bring out desirable changes. If you have any gripes about NDAC you should be on the staff.

Students who have written editorials for high school papers or for other colleges are urged to attend, but experience is not necessary. If you cannot attend the meeting, but would like to write editorials for the Spectrum, contact the Spectrum editor at the Board of Publications Room.

THE SPECTRUM

Published every Friday at Fargo, North Dakota by the NDAC Board of Publications, State College Station, Fargo, North Dakota.

Subscription rate \$1.00 per term.

Entered as second class matter December 10, 1945, at the Post Office at Fargo, North Dakota, under the act of March 3, 1879.

Squirrel Squeaks . . .

By KEN KETCHNER

Autumn on this campus was ushered in on the 23rd, and in fine style, just a small frost. . . . The last Sunday in September brings the wind-up of the major league baseball campaign, and with it a race to the finish line. Cleveland, New York and Boston are hashing it out in the American League, and New York and Brooklyn are exchanging the honors in the National. Here's the World Series participants for "51"—Cleveland in the American and in the National, well, who knows what Bill Veck will come up with next. . . .

Seems as though one of the boys from state was out on a little ball this weekend and after a late evening snack, retired to his car to wait for the rest of the troops, oops, wrong car—well, those Fargo Police cars are sort of nice riding at that.

. . . Speaking of cars, I took mine down to get the oil changed the other day, ran into just a little hard luck—the garage attendant said: "My advice is to keep the oil and change the car". . . . Won't be long now before the Bison meet Up State Normal on the gridiron, wonder how long it will be before we hear from the two DP's, Schrimph and Letofsky, or has the Dakota Student finally folded. . . .

Now a few important statistics—out of the 489 freshman students enrolled at this institution this term, all of 90 of them are women. According to the slide rule, if the girls date twice a week, every two weeks maybe we'll be there. . . . any way there is one consolation, among teen-age girls, kissing a boy goodnight is a custom of long standing. . . .

Student of the Week

Miss Marilyn Hunter, Jr., enrolled in AAS, this week was chosen Commander of the newly chosen Commander

of the newly formed Air Force ROTC 'Air Debs'. This unit, to be composed of 30 selected girls, will as a guidion for the Air Force Squadrons, the crack drill team, and the group staff. Miss Hunter will work with other members of the group planning and designing the original uniforms which will be furnished.

Marilyn Miller

Sophomore Post Open On Student 'U' Board

Application will be received next week for the sophomore post on the Student Union board, according to Wallace J. Swenson, senior member of the board. Sophomores may submit applications to Mr. Glenn Hill at the Math department in Minard hall.

Scabbard and Blade Elects New Officers; Sweeny Succeeds Pitsenbarger As Capt.

George Sweeney

Scabbard and Blade, national honorary service fraternity for advanced ROTC cadets at NDAC, elected George Sweeney of Larimore to succeed Ronald Pitsenbarger of Moorhead as captain of the NDAC company.

Sweeney, senior in the school of chemistry, is secretary of the chemistry club and sentinel of Alpha Tau Omega fraternity.

Other officers are Robert Ripley, Dickinson, first lieutenant; Sam Kalinov, Steele, second lieutenant; and Don Meyers, Towner, first sergeant. Don Meyers, Towner, first sergeants of the army ROTC senior class, while Ripley and Meyers are seniors in the air force ROTC.

Convention Report Set For Newman Meeting

Adele Rene, NDAC sophomore who attended the national convention of the Newman club at Portsmouth, New Hampshire, this year, will give a report of the convention to the NDAC Newman club Sunday, September 30, at 7:30. The meeting will be held at the Newman house on 13th street and 12th avenue north.

Irrigation Organization Topic For Ag. Seminar

"Problems in organizing irrigation development" will be the topic discussed by speaker Stanley Voelear at the next Agricultural Seminar. The meeting will be held at Minard Hall October 4 at 4:00.

Social Jottings . . . Dance Set For Tonight

By MARGIE JOHNSON
Football starts off the list of weekend festivities as the Bison tussle with the ISTC Panthers tonight. Be sure to take in the dance at Festival Hall after the game. You'll be dancing to the music of the Fargoans.

Plaid shirts and jeans will be the style at the Sigma Chi hard times party on Saturday night.

Kappa Alpha Thetas will honor their new housemother at an open house on Sunday. Drop in and meet Mrs. Cull any time between three and five.

Recently initiated into the active chapter of Phi Mu were the following girls: Elinor Carlson, Donna Bender, Mary Pat Lucy, Darlene Geving, Ardyce Sjaastad, Carole Kirkhus, Audrey Ericksmoen, Betty Ruby, Joanne Pfeiffer, and Lois Pfeiffer. Congratulations!

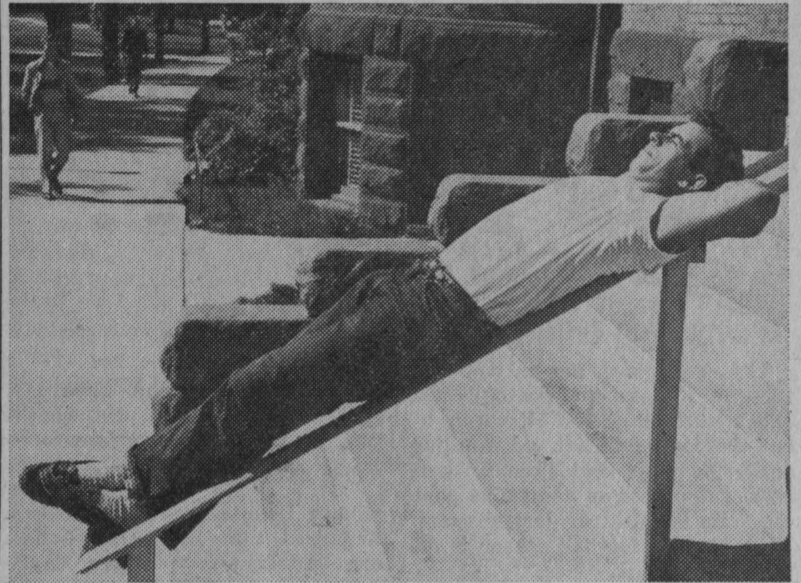

This vicinity resounded with fraternity songs Monday night as Theta Chis, SAEs, and Sigs serenaded new sorority pledges. You'll all have a chance to meet the pledges at pledge presentations which will be held soon.

Janet Kiefer, KKG, is pinned to Ray Ehly of Miami Florida. Jean Bolmeier, Gamma Phi, is wearing the Theta Chi pin of Ed Boerth.

Engagements: Rhoda Isrealson, Alpha Gam, and Orris Lackness; Katie Doswell, KKG, and Fred Brandt, ATO; Ilo Waydeman, Phi Mu, and Bruce Lyseth; Nola Westman, KD, and Oscar Huso, AGR; Ann Gaye Smith, KKG, and Dud Sorley, Theta Chi; Juanita Krieg and Dean McKee, Kappa Sig; Ginny Arneson, Gamma Phi, and Charlie Finnegan, Theta Chi; Bev. Litzsinger, Gamma Phi, and Glenn Haugen, AGR.

Weddings: Joan Fischer, Alpha Gam, and John Sigurdson; Theta Chi; Beverly Widdifield, Alpha Gam, and Don Edam; Donna Dahl and Dick Besker, ATO; Marlene Severtson, KD, and Lee Palmer,

ON THE SUNNY SIDE?

By BOB FISHER

The crack of a bat is now the thing of the past and footballs are once again filling the air throughout the country. That old familiar smell of chalk and liniment can be distinguished as one walks past the practice field or locker room. Yes, the 1951 football season is off to a flying start.

About the only thing that will make bigger headlines than Saturday's football games is the World Series which is just around the corner. By the time you read this, you'll probably know the names in the Series.

My guess is that Brooklyn will meet the New York Yankees. I'll take Brooklyn to end the Yank superiority of the classic in the full distance of seven games. But, I'm like Fitz, and usually wrong.

So much for sports of the past. Now let's take a look around the football world.

Tonight, Iowa Teachers will be invading Dacotah field. The Panthers, although not as powerful as a few years ago establish themselves as toughies on the basis of reputation. Big Bud Rainbow, the Anoka flash, is still playing fullback for the tutors. He's been playing football longer than I've been at NDAC. Maybe he's trying to establish a marathon record for seasons on the gridiron.

Another name that catches our eye on the Panther roster is that of Wachenheim. That one also has been on the teachers squad for five years. But, this time it's Jim, brother of twice all-conference tackle Lee. If he can fill his brother's shoes his father can be mighty proud. Imagine, two such monsters in one family.

GUESS BOX

- ISTC over NDAC (7)
- Morningside over NDU (7)
- SDS over Augustana (13)
- SDU over Omaha (6)

South Dakota State's Jackrabbits again appear to be the power of the North Central Conference. After trimming ISTC, 48-6 they have established themselves as the team to beat in the loop. Although losing most of their stars of last season, including Herb Bartling, the idol of all quarterbacks, the jacks appear to be just as tough this year. The only weak spot may be at center where two all conference men have graduated.

Looking at the Big Ten, Wisconsin, Ohio State, and Illinois should be the big guns. The Big Ten however, is usually so full of good teams that any one of the conference teams could wind up in the Rose Bowl. Also powerful in the mid-west will be independents; Notre Dame, Marquette, and Michigan State. The Spartans enter the Big Ten in 1952.

California and Washington appear to be the power on the west coast. Down in the southwest, Baylor and Texas are loaded. In the east now that Army lost its entire squad, it looks like Penn and Cornell, with Navy inspired by last year's victory over the Army, hanging in there. In the South, Kentucky (the University played

them last year) and Tennessee look like they have it.

Well, now that you have my humble opinion let's see what's going on in our own conference.

ON OTHER GRIDIRONS

South Dakota State college has announced that Sat., Oct. 6 has been proclaimed "parent's day". SDS plays Emporia State Teachers college on that date.

Clayton Drouillard, former freshman coach at Morningside has been appointed head Mentor. He succeeds Howard Allen.

South Dakota State is pushing Dallas Hoff, hard driving back for Little All-America honors. Pushma up Tony.

One of the boys to watch on the NDU roster is left half Abe Tanaka, from Kappa Kauai, Hawaii. Abe is 5' 4", 118 lbs., but packs the "intestinal fortitude" of a tackle.

One of the reasons SDS has turned up with some terrific teams in the past two years is their desire to build a strong intramural program. A baseball diamond and a hugh arena have been built to support the intramural program. This school is definitely on the upgrade.

Ex-Army half back, Chuck Aukus, has transferred to NDU and is listed on the Sioux roster.

South Dakota University, long time exponents of the single wing offense, are switching to the T formation this year. Maybe they ran out of bone crushing fullbacks and have decided to quit murdering opponents. (Let's hope so anyway.)

Harvey Hanson, SDU all-conference end, is back with the Coyotes this year to give them one of the best offensive wings in the league.

South Dakota State has three lettermen quarterbacks on the roster. They'll have to put all three in at once to equal the abilities of little all-American, Herb Bartling.

"Stand up and Cheer"

After sitting through the Concordia game two weeks ago, and listening to those feeble cheers, I can readily see something has to be done about the old school spirit. Seems to me that not too long ago the fans used to be hoarse on Sunday after cheering their hearts out.

What's happened to these new spectators? Must have been watching TV too long. A football game is the place where you're supposed to let yourself go and make all the noise you can.

Don't let the cheer leaders make all the racket, learn those cheers and school songs and get up and HOLLER as loud as you can. Let's all get together tonight and let those ball players know that we're in the stadium too. It helps a lot.

Kwitcherbelyaken and look on the sunny side this weekend.

Augie's Beat Herd In First NCC Clash

Augustana nipped the NDAC bison in the conference opener last Saturday, 12-0. The game played in Sioux Falls, S. D., was a rough and tumble affair with the Augies making both scores in the first half. The second half was a scoreless tie.

Augustana launched a 62 yard touchdown drive the first time they got their hands on the ball. The pay off play was a 35 yard pass from quarterback Darrold Erickson to end Loren Lamp. The try for the extra point was wide.

The Augies scored again in the waning minutes of the second quarter, as veteran Gene Thommsen smashed over from the 1. That drive covered 80 yards. The try for point was again wide.

Big Bob Lauf recovered a Viking fumble in the second quarter on the Augies 20, but the Bison fumbled a few plays later and lost possession of the ball. This was the closest the Herd came to paydirt.

The second half was played in Bison territory, as the Herd could not get their offense rolling. Several times, the Vikings threatened to score, but brilliant defensive work stopped them. The Bison held on the 2 yard line in the third quarter, and on the 3 in the final period.

Jim Hitter, Bison halfback, made a beautiful run early in the first quarter but was overcome from behind. He was injured on the play and had to be removed from the game.

John Beurger suffered a minor injury after playing a good defensive game.

Bison Beat Sioux

The NDAC football team gained their first victory of the season last Friday, by beating the NDU Sioux; to the table that is.

The Bison, enroute to Sioux Falls, stopped at a cafe in Ortonville, Minn., for dinner. Coach Wenskunas had called ahead and made arrangements for the meal.

The boys started to eat when the university team entered the cafe. The NDU coach had mailed his dinner reservations to the same cafe, but for half an hour earlier.

Well, anyway, the Bison ate the Sioux dinner and vice versa.

Wanted: one blonde, brunette, redhead, or what have you to assist sports editor after hours. Must be alive and willing worker.

Halfback Out For Season

Jim Hitter, Bison star halfback, is pictured above in the student Health Center. Taking a check of Jim's pulse is nurse Esther Bibleheimer.

Hitter received a fractured knee in the Augustana game and will be lost to the Herd for the remainder of the season.

Bison Meet Iowa TC Panthers Tonight

ISTC Rally Beats 'U' MU, SDS Also Win

By TINY NAADEN

ISTC Rally Beats Sioux

Iowa State Teachers College Panthers rallied in the second half to whip the NDU Sioux 49 to 19, in a North Central Conference tilt. The wins gave the Peds an even 1-1 loop record. The loss coming at the hands of SDS. It was the season opener for the Sioux.

Scoring touchdowns for the teachers were: John Beach, three; Dick Eisenlauer, two; Lelan Crew, and Pat Halligan, one each. Jim Wachenheim kicked five extra points from placement. In the final period, Bill Meyers tackled an NDU back in the end zone for a safety.

NDU's claim to fame came in kickoff returns, where Sioux backs picked up 258 yards in seven tries.

Ron Thompson ran one kickoff back 84 yards for a TD. He scored two of the three Sioux touchdowns. Cy Ducharme ran one back 78 yards to set up the third score by Lloyd Hallada. Wilbur Fast booted the extra point. The game proved to be a rugged contest as NDU lost 68 yards on penalties. The teachers were penalized 43 yards.

Bunnies Hop Over Maroons

South Dakota State took a firm grip on the top of the North Central Conference by downing Morningside, 28 to 26. The win gave the defending champion Jackrabbits their second straight league victory, and win number three in an undefeated season.

State fullback Pete Retzlaff did most of the ground work, as the toe of Dick Craddock provided the two point margin.

Retzlaff picked up 188 yards in 17 attempts, and chalked up three of the Bunnies four tallies. Extra

point attempts were all successful, due to the superior booting of Craddock.

Morningside, although leading at one point, 26-14, could not stop the spirited state eleven, as they scored in every period.

Marquette Drubs Coyotes

Marquette breezed to an easy 48 to 6 win over South Dakota U, before a crowd of 8,000 rooters. The Hilltoppers rushed to a 34-0 halftime dvantage and the reserves played the second half. The victory was the first in an eleven game schedule for the blue and gold.

SDU scored its lone tally late in the third quarter on a 15 yard pass from Spence Brende to Don Schwartz.

Six Hilltoppers hit pay dirt as they rolled up 19 first downs and 429 yards. South Dakota had four first downs and 64 yards total gain.

I-M Football League To Get Under Way

At a meeting held last Monday in the field house, representatives of all male campus organizations planned the 1951 intramural football program.

Medals and trophies will be awarded this year to the winner of the IM football league instead of the usual sweaters.

All organizations interested should get their rosters lined up and ready to be handed in next Tuesday. Entrance fees were due last Thursday at 5:00 P. M.. The plans are for the league to start next Tuesday, weather permitting.

The next meeting will be held Monday, Oct. 1, at 4:15 P. M. in room 204 of the field house. Officers will be elected at this time.

Probable Starting Lineups

Gronberg	L.E.	Gogg
Werner	L.T.	Magrane

Thurm	R.E.	Kaylor
Curtis or Espisito	QB.	Woolhiser
Noland	LH.	Eisenlauer
Werlein or Heintz	RH.	Paulsen
Morford	FB.	Rainbow

By BOB FISHER

Iowa State Teachers will invade Decotah field tonight to battle with the NDAC Bison. The game should be a dog fight as ISTC has a high scoring machine, while the Bison, on the other hand, have a strong defense.

The Teachers, perennial powers in the conference, started the season with nine lettermen. Only two regulars are back from the 1950 club; both were all-conference selections.

Coach Clyde L. (Buck) Starbeck's teams won the NCC title seven consecutive years. During this period, the tutors won 31 straight conference games before bowing to SDS, 14-13. ISTC has not finished lower than second in conference play since 1939.

This season the Panthers dropped their opener to SDS, 48-6, but bounced back last week to paste NDU 49-19

Returning to the squad this year are lettermen: Mahlon Kaylor, Ralph Martin, Mark Baumgardner, Leland Crew, Dick Eisenlauer, Bill Paulsen, and John Beach. The two all conference men are: Bud Rainbow and Lou Bohnsack, fullback and center respectively.

Besides the monogram winners, the teachers boast of several men

up from the B squad and a host of freshmen.

The Bison came out of the Augustana game with only one serious injury, that being to halfback Jim Hitter, who may be out for the season with a knee injury.

NDAC is still seeking their initial win and their first conference victory in three years. If the Bison can get their offense clicking and play the type of defensive ball they displayed in the second half last week, they will be tough.

Coaches Wenskunas and Krueger put the Herd through a strenuous week of hard practice for this game. If the Bison should win this game, it would indeed be a feather in their bonnets.

NDAC has beaten the Teachers only once, while losing nine since the series started in 1938. That one victory came in 1938.

The Teachers may be looking ahead to next week when they play Drake. If this be so, the Herd may be able to take them by surprise and give them a beating. Many a team has been whipped by over confidence.

Bennie Noland, States most valuable player last season has been working in the halfback position in place of the injured Hitter. Ray Curtis and Frank Espisito are working at quarterback.

Espisito is small, but fast and deceptive. He is scheduled to see a lot of action this weekend.

John Buerger, freshman guard from Chicago, played a bang-up defensive game against Augustana and is expected to break into the defensive platoon.

IT'S EASIER THAN EVER!

Students! Make money writing Lucky Strike jingles!

MORE FUN, TOO!

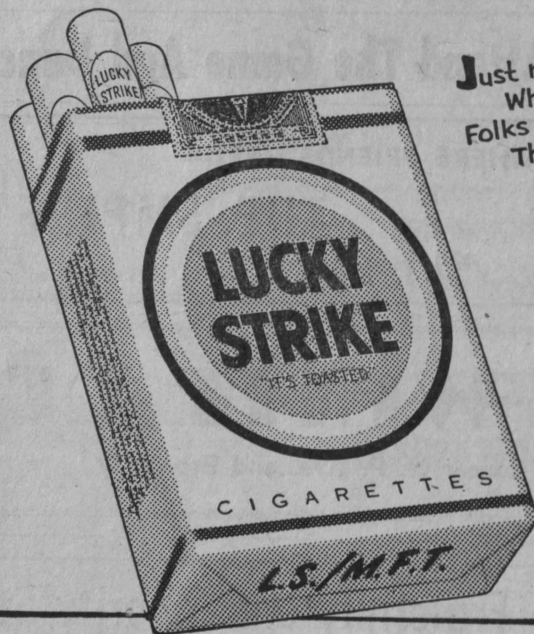

No tricks! No gimmicks! Takes no time—no special talent! You can make \$25.

Just write a simple four-line jingle based on the fact that

LUCKIES TASTE BETTER THAN ANY OTHER CIGARETTE!

(or other qualities of Luckies such as those listed below.)

Write a Lucky Strike jingle, like those you see on this page, based on the fact that Luckies taste better than any other cigarette, or other qualities of Luckies such as those listed below. If your jingle is selected for possible use in Lucky Strike advertising, we will pay you \$25 for the right to use it and your name in our advertising. Lucky Strike jingles will soon be running in *your* paper. Start today—send in as many jingles as you like. Be the first to write a jingle in your school!

Just made a great discovery
Which I announce with haste:
Folks go for Lucky Strike because
They like that better taste!

Before each class—and after too,
I do just what I like—
Relax—enjoy the better taste
of good ol' Lucky Strike!

READ THESE SIMPLE INSTRUCTIONS

1. Write your Lucky Strike four-line jingle on a plain piece of paper or postcard and send it to Happy-Go-Lucky, P. O. Box 67, New York 46, N. Y. Be sure that your name, address, college and class are included—and that they are legible.
2. Base your jingle on the fact that *Luckies taste better than any other cigarette*—or on any of the alternate themes below.
3. Every student of any college, university or post-graduate school may submit jingles.

IMPORTANT:

To make money writing jingles, it is not essential to base your jingle on "Luckies taste better than any other cigarette." You may base a jingle on other outstanding qualities of Luckies such as the following:

L.S./M.F.T.
Lucky Strike Means Fine Tobacco
Be Happy—Go Lucky!
So round, so firm, so fully packed
So free and easy on the draw
Buy Luckies by the carton
Luckies give you deep-down smoking enjoyment
Luckies are the world's best-made cigarette.

COPR., THE AMERICAN TOBACCO COMPANY

L.S./M.F.T.-Lucky Strike Means Fine Tobacco
