Oscar Levant To Present Piano Concert At Festival

Oscar Levant will present a "Program of Piano Music With Comments" March 24 at Festival hall.

Oscar Levant, pianist and music personality, co-starred with Gene Kelly in "An American in Paris", will make a personal appearance at Festival hall on March 24. This concert is a special attraction so students will not be admitted on activity tickets.

When Levant walks out on the stage and sits down at the piano not a person in the audience will know what he is going to play. At least not for sure.

This unconventional master has announced that he will play some Bach and Beethoven and also some Gershwin and Lecuona, some Brahms and perhaps some Shostakovitch. He lists his numbers to suit the mood of the audience and himself with "asides" appropriate to the moment.

His dual role as musician and wit has brought Levant motion picture fame in recent seasons. He appeared in "Rhapsody in Blue", the story of his friend, George Gershwin. He was also seen in "The Barkleys of Broadway", "Humoresque", "Rhythm on the River", "Romance in High C" and "Kiss the Boys Goodbye."

Levant, the piano star of "Who Said That", "Information Please" and other radio and TV programs, is also a composer. He has written two string quartets, a piano concerto, a nocturne for symphony orchestra, the musical score for two films and several works for piano which have been recorded by Columbia Master works.

Levant has had a fling at writing too. His "A Smattering of Ignorance" is among the bestsellers.

The cameras of the movie world terrify the Pittsburgh pianist, wit, author and raconteur, and the microphone has never ceased to be a source of fright.

But put Levant before an audience—he is completely at his ease. This is truly a paradix, for the screen or radio star usually fears his public en masse.

Students Can Hear Bison-Huron Game Tonight At Festival

The game to be played at Huron, S. D. between the Huron Teachers College and the NDAC Bison tonight will be broadcast by special telephone hook-up to Festival hall. Game time is 8 p. m.

Tonight's game is being financed by Blue Key fraternity. No admission will be charged.

Arrangements are underway for broadcast of the games to be played in the NAIB tournament in Kansas City in the event of a win by the Bison this weekend. Financial backing will be shared by several campus organizations for the broadcasts from Kansas City.

Blue Key Holds Initiation Ceremonies, Banquet For 16 NDAC Campus Leaders

Blue Key, national honorary service fraternity, initiated 16 new members last night at a banquet at the Gardner hotel. The following men were initiated.

Ardis Bunker was president of Alpha Tau Omega. He is a member of Interfraternity council, the varsity basketball team, and Army ROTC.

John Dean belongs to the Agronomy club, Interfraternity council and Alpha Tau Omega. Robert Greuel was commission of finance on the Student Commission and is a member of Alpha Tau Omega.

Oscar Husa was president of Alpha Gamma Rho and is a member of Alpha Zeta and Saddle and Sirloin club. Jose Iranzo is president of Atelier Chat Noir and plays on the varsity tennis team.

Marlowe Jensen is a member of Alpha Gamma Rho for which he is secretary and was social chairman. Jensen is assistant director of the 1952 Brevities, active in LCT plays and belongs to the Edwin Booth club.

Richard Kloubec is business manager of the Spectrum, plays on the hockey team and track team, is a member of Theta Chi fraternity and the Board of Campus Affairs. He was vice-president of Alpha Phi Omega and treasurer of the Lettermen's club.

Robert Kramer was chairman of the 1950-51 Engineer's Ball and an executive officer of AF ROTC. He is a member of Sigma Phi Delta. Gordon Maire is president of Sigma Phi Delta fraternity. He belongs to the Rahjabs and AF ROTC.

Donald Morton belongs to Kappa Sigma Chi. Dale Peppel plays varsity basketball and belongs to the Sigma Phi Delta fraternity. Monte Piper is a member of Theta Chi, Rahjah club and AF ROTC.

Richard Sander belongs to the American Society of Mechanical Engineers, serves in AF ROTC and plays varsity football. Robert Velure was house manager of Alpha Gamma Rho and is vice-president of Saddle and Sirloin.

Wayne Waldera is president of the Toastmaster's club, a member of Alpha Tau Omega, executive officer of Pershing Rifles, and plays intramural sports. Darrell Schroeder is past president of Theta Chi, a member of Saddle and Sirloin, AF ROTC squadron commander and Interfraternity council president.

Men chosen for membership in Blue Key must have attained a certain scholastic average, shown leadership ability and served the college. Willingness to serve, caution in discharging duties and allegiance to God, country and college are responsibilities of Blue Key members.

Board Relates Dates For Engineers' Exams

The North Dakota State Board of Registration for Professional Engineers announces that examinations for Professional Engineer and for Engineer-in-Training will be given in Fargo, Bismarck, Minot and Grand Forks.

The Professional Engineer examination will be given April 4 and 5 from 8 a. m. to 5 p. m.. The Engineer-in-Training examination will be given April 4 from 8 a. m. to 5 p. m. In Fargo examinations will be held at the Engineering building at the NDAC.

Broadcast Next Thursday Features AC

NDAC will be featured on the second of a series of 12 documentaries on "The Northwest and You" broadcast by KFGO. The radio show about the history of NDAC will be broadcast next Thursday at 9:30 p. m.

The program will consist of interviews of NDAC faculty and students by Jim Shirek of KFGO. Participants in the show will be President Hultz, Professor Stallings, Dean Walster, Dean Giesecke, Casey Finnegan, L. R. Waldron, Captain Rilling, Captain Augis, Ken Ward, Bob Schnell and Betty Lou Danielson.

Model Man To Receive Trophy Tonight

One of these NDAC students will be selected Model Man tonight by a board of faculty women. Standing are Tom Monteith, Kappa Psi; Ken Ward, Alpha Gamma Rho; Tom Peterson, Sigma Phi Delta; and Eugene Ruppert, Kappa Sigma Chi. Sitting are Darrell Bjornson, Alpha Tau Omega; Art Wichmann, Sigma Chi; Charles Finnegan, Theta Chi; and Jim Hitter, Sigma Alpha Epsilon.

This year the winner of the Model Man contest sponsored by the Interfraternity council will be presented with a traveling trophy. Darrel Schroeder, president of the council, will make the presentation at the Interfraternity Ball tonight.

This semi-formal dance will be held at the Moohead Armory. Music by George Schoen and his orchestra will begin at 9:30. The ball will commemorate the 176th anniversary of Greek societies.

Committee chairmen for the ball are: John Dean, tickets; Tom Peterson, decorations; Jim McManus and Ed Boerth, concessions.

Tau Beta Pi Takes Nine New Members

Tau Beta Pi, national engineering fraternity, will initiate nine NDAC students tonight at 6:30 at the Gardner Hotel. Bob Peet, president of the organization, will conduct the ceremony.

Men to be initiated are Enrico Crosino, Arch-Sr; Russell Ellingson, CE-Jr; Lorren Peters, ME-Jr; Donovan Nickel, ArchE-Sr; Edward Schmidt, EE-Sr; Leo Wanzek, CE-Sr; Albert Mahrer, ME-Sr; John Babinski, AgE-Jr.

Basic requirements for membership to Tau Beta Pi are high scholastic average, character and achievement. The NDAC group was organized in 1931 as Tau Delta Pi. In 1949 it received its charter from the national fraternity.

Blood Clinic In Fargo

The second Fargo Blood Donors' clinic will be held at the Elks' club from March 10 to 15. Armed forces' officials report that blood is still badly needed. Students and staff members at NDAC are urged to give donations. Pledge blanks may be obtained at Dean Sevrinson's office.

Journalism Instructor Discusses News Selection For Well-Balanced Paper

An editor cannot please the entire public, Mr. Norris told a journalism class here last week. "He must try to please as many as possible and he can't displease any one group too much. He should strive to make the paper democratic," said the journalism instructor. "An editor has to understand his publics", said Mr. Norris. "The entire public is made up of a number of distant publics. An editor must know what they are and how

big they are."

The speaker showed that the reading public includes several groups. There is a distinct difference in the reading interests of men and women. Men readers show high interest in athletics and job opportunities; whereas women usually are interested in society news and fashions.

Class groups too, differ in their interests. A poll on this subject revealed that freshmen, as a group, have the lowest interest in all campus news except the athletics.

Mr. Norris said that other groups with different interests are the students, faculty, people not on campus who read the *Spectrum* and different schools. "An editor should supply each group in proportion to its size," he said.

According to Mr. Norris it is best not to depend on handouts. The editor should decide on a policy and get news to fit his audience. He must have a crew of reporters with the initiative to dig up news.

As an example of how stories can be found, Mr. Norris told the class that the stone monument near Putnam hall is worth a feature story in the *Spectrum* if someone will dig up the facts.

Listing ways in which a balanced newspaper can be obtained, Mr. Norris stated:

1. A paid circulation is an automatic check on how well the paper meets the public opinion.

2. A balanced staff is the simplest and easiest method.

3. A scientific measurement of public opinion can be obtained by reader surveys.

4. Letters to the editor. These invite reader comment although they are not accurate because the editor doesn't know if the opinion expressed represents one person or two thousand.

5. The editor can study other student papers for new ideas.

6. A crew of reporters. The reporters must be observants, they should see the possibilities of a story and go out and get it. This last method is perhaps the best.

Agricultural Course 100 Students Complete

Certificates of graduation were given to men who have completed an eight weeks short course in agriculture last Saturday at NDAC.

Fifty of the graduates attended the short course aided by the scholarship money from the banks in their home community. Fifty attended under their own power.

This is the first agricultural short course held in several years. Peder A. Nystuen, short course director, said it was a tremendous success in every way. "These boys were eager to learn. They were given top instructors on the faculty and the combination of eager student and able instructor resulted in a surprising intake of practical education."

Speakers at graduation exercises were NDAC president Fred S. Hultz; Charles Wattam, secretary of the North Dakota Bankers association, and Dean of agriculture H. L. Walster. These three men planned the course.

President Hultz bespoke NDAC appreciation for the excellent support given it by the farm groups and legislature, saying that "this short course in agriculture is one example of how we are using our resources."

Dean Walster told the graduates due as much to banker support and enthusiasm of the students as it was the college. A similar course will be offered next winter. The entire range of subjects will be different. must know what they are and how

NDAC Chorus, Band To Give Concert

NDAC's men of music plan the home concert to be given jointly by the Gold Star Band and college chorus next Sunday at 4 p. m. in Festival Hall. Band director William A. Euren, left and chorus director Ernst Van Vlissingen, standing right, listen to Robert J. Dietz of the music faculty play one of the numbers to be featured in the concert. (The piano is one of two new ones recently acquired by the music department.) The coming event is the first and only home concert to be given jointly by the two groups this year.

The program for the home concert to be given next Sunday at 4 p. m. in Festival Hall by the NDAC chorus and Gold Star Band has been announced by the concert directors, William A. Euren and Ernst Van Vlissingen.

Robert J. Dietz of the NDAC music faculty will be accompanist for the chorus numbers.

Soloists for Gilbert and Sullivan selections to be sung by the chorus will be Donald Christensen, AG-Sr., bass; Carole Krkhus, AAS-So., and Loretta Brown, AAS-Jr., sopranos; Dwight Baumann, ME-Fr., tenor; and Richard Berg, Ph-Fr., baritone.

Soloists with the band will be Arline Tiegen, AAS-So., who will play "My Regards" by Llewellyn on the marimba and Robert Van Wechel, EE-Jr., who will play "Miss Blue Bonnet" by Simon on the trumpet.

Besides selections from "H. M. S. Pinaforte" by Gilbert and Sullivan, the chorus will sing "O Rejoice Ye Christians Loudly" by Bach, "Lamb of God" by Morley; "Alleluia" by Thompson; "Speak Low to Me, My Savior" by Ford, and the entrance scene from "Advent Motet" by Schreck.

Five numbers by the band will include "Finale, Symphony in B flat" by Fauchet, "Sequoia" by La Gassey, a selection from "The King and I" by Rogers, "Caribbean Fantasy" by Johns and the "National Capitol March" by Zambano.

NDAC Architectural Students Compete For \$500 Prize In Design Contest

Advanced NDAC architectural students are competing this month for \$500 in prize money offered by the Indiana Limestone Institute of Bedford, Ind., for a design problem using Indiana Limestone.

The problem chosen is a senior high school in Fargo to accommodate some 1,200 students. The school plant is to be designed so that it may also be used for civic events, according to Knute A. Henning, NDAC architectural head.

Senior and fifth year students are entering the competition which closes March 7. Awards include a first prize of \$200; second prize, \$150; third prize, \$100; and two honorable mentions of \$25 each.

In studying the problem, NDAC students recently inspected the Ben Franklin school. At that time, H. R. Kirk, superintendent of the Fargo schools, and Merritt N. Flynn, NDAC assistant professor of education, spoke on school systems.

Purpose of the competition is to point out potential uses for Indiana limestone. Buildings here using this type of stone include the Black building, the Pioneer Mutual building, the State Capitol at Bismarck and the NDAC Field House (facade).

Judges are staff members of the architectural department, Harold Bechtel of Fargo, Paul Grosz of Grand Forks and H. Donaldson, representative of the sponsoring firm.

NDAC To Exhibit At Winter Show

The NDAC geology department will have an oil booth at the Valley City Winter Fair March 3-8. Exhibits from the American Petroleum Institute, in addition to others, will also be shown.

NDAC's contribution will be maps showing the different types of maps which geologists use in prospecting for oil. An exhibition from the Amerada-Iverson well consisting of rock cuttings through which the well was drilled and a sample of the oil will also be part of the exhibition.

Other exhibits include types of life which lived 300 million years ago and which may have been the source of the oil at the Iverson well. A large cross section shows how the rocks lie one upon the other in northern North Dakota and also how oil may be accumulated and trapped in these rocks.

Research Scientist Talks At Meeting Of Chemists Tonight

Dr. Richard Arnold, research scientist and University of Minnesota chemistry professor, will address the March meeting of the Red River Section of the American Chemical Society at Grand Forks, according to Dr. Ray T. Wendland of NDAC, chairman of the group.

The meeting will be Friday, Mar. 7, 7:30 p. m. in the University of North Dakota chemistry building and will be preceded by a dinner honoring Dr. Arnold at the university's Student Union. The event is open to all members and friends of the Red River Section, said Dr. Wendland.

"Stereochemistry of Methylene Groups" will be the subject of Dr. Arnold's lecture. A former Guggenheim research fellow, Dr. Arnold has conducted research in Switzerland on complex natural products and for the Atomic Energy Commission on the use of radioactive carbon as a tracer element.

Three years ago, he was awarded the American Chemical Society prize for pure chemistry given to outstanding young chemists under 36 years of age.

During the late war, Dr. Arnold directed a research project in the production of anti-malarial agents that were needed in tropical areas. Since then, his research program has involved training of dozens of doctoral chemists doing advanced chemistry work.

He is presently a director of the American Chemical Society and a former chairman and councilor of the Minnesota section.

At the University of Texas a callous prankster slipped a live bass into a fraternity goldfish bowl. If true Darwinian form, the goldfish disappeared.

Greeks Elect Fitzloff, Bjornson, Piper

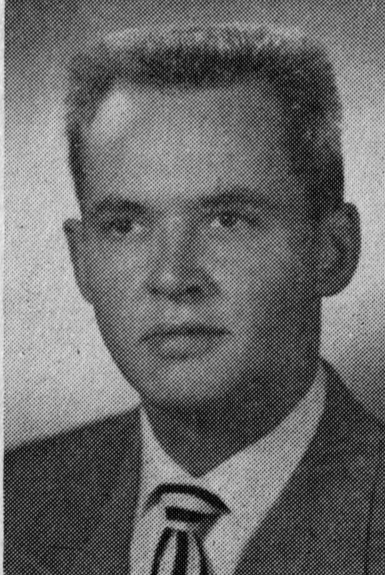

Lois Fitzloff

Gamma Phi Beta sorority has selected Lois Fitzloff for their new president. Lois is president of Panhellenic council and a member of Air Debs and Tryota.

Other elected officers are Beverley Woods, vice-president; Beverly Litzinger, treasurer; Darlene Sauer, recording secretary; Mary Carol Tweeten, corresponding secretary; Loretta Brown, pledge trainer; Eileen Anderson, scholarship chairman.

Mary Wright, junior member to Panhellenic council; Margery Johnston, rushing chairman; Francine Simons, assistant rushing chairman; Betty Lou Danielson, house manager; Patti Jones, assistant house manager.

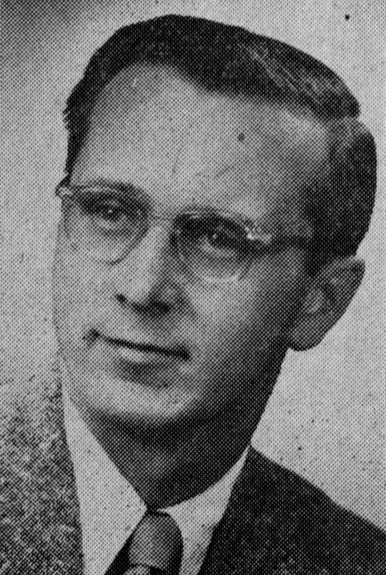

Darrell Bjornson

Darrell Bjornson was elected Worthy Master of Epsilon Delta chapter of Alpha Tau Omega. Bjornson, AAS-Jr., is a member of Advanced ROTC, drill master of the Junior Drill team and a member of Scabbard and Blade. He is also a member of Inter-fraternity council and Toastmaster's club.

Other officers elected are Glenn Fanslow, vice-president; Clark Ewen, house manager and treasurer; Irvin Krause, secretary; John Retzlaff, magazine reporter; Kent Adams pledge trainer.

Richard Brown, sentinel; Everett Harrison, usher; John Dean, rush chairman; Douglas Boling, social chairman.

Robert Piper

Theta Chi fraternity has elected Robert Piper president. Piper, ArchE-Jr from Lansford, N. D., has been house manager for two years.

Other officers include Ed Boerth, vice-president; Leslie Ferris, secretary; Monte Piper, treasurer; Robert Kubas, pledge marshal; Warren Frank, assistant pledge marshal, and Carl Berg, social chairman.

Student election officials at the University of California are stopping at nothing in efforts to shock students into voting. They hope to buzz the campus in a light plane bearing a 'Get-the-hell-out-and vote' sign.

Tell Another One . . .

Children taking part in the child development project at NDAC listen while one of the student teachers tells a story. Starting with Sherry Hagge (in left foreground with checked blouse and back to camera) and going clockwise, those in the circle are Sandy Hagge, Sue Brown, NDAC student Margaret Biever, Michael Leck (with striped shirt), Jerry Michaelson, Mary Lou Michaelson, Janet Olson, NDAC student Eileen Anderson, Gretchen Ekberg, Robbie Wattson, Diane Beske, Nancy Beske, Stevie Tinglestad, David Parsons, Richard Seim and (backs to camera) NDAC students Marion Lysengen and Janet Wolbert. Children not shown are Connie Miller, Ellis Jones and Donna Rue Johnson.

Acceptance Percentage Of AF ROTC Unit Here Tops National Record

The NDAC AF ROTC detachment again proved its superiority over other schools offering advanced AF ROTC training. This was substantiated by statistical evidence in the recent acceptance of six AF ROTC graduates into the Regular Air Force.

Of the 6,700 nation-wide 1952 AF ROTC graduates, only 243 were awarded regular commissions, or about .01 percent—an average of 1.3 men per school.

NDAC had six out of 243 for a 2.5 percentage, based on total 1952 graduates. Approximately one-third of the NDAC graduates proposed for regular commissions were accepted.

The six men who receive their Regular Air Force commissions are expected to make the Air Force their career. Those who receive commissions in the Air Force Reserve are required to serve two years on active duty and remain on an active duty status an additional six years.

The tour of active duty and the active reserve status may exceed the contracted time, depending upon the discretion of the Air Force and the reserve officer.

Students In NDAC Child Development Class Entertain Pre-School Youngsters

Entertaining 18 youngsters three times a week has been the recent project of students in the child development class at NDAC.

Each quarter, students in the course serve luncheons to campus children to get actual experience with the pre-school child. Children are escorted to and from luncheons in Dakota Hall and entertained with stories and games while food is being prepared.

The children, all under five years old look forward to these events with pleasure and are amazingly well behaved according to the student teachers. They listen intently to the stories and play the games

enthusiastically.

NDAC students say that only rarely does a child, unaccustomed to the strangeness of it all, exhibit his independence and these minor squalls are always handled calmly by the student teachers.

Students alternate so that four women are always with the children while four or more prepare the food. The course, taught by Mrs. Laura Oakey, is required of all students majoring in home economics.

Women from advanced home economics classes participating in the project this quarter were Margaret Biever, Jo Ann Christenson, Joyce Finley, Carol Gray, Mary Holmgren, Beverly Kurtz, Janice Kyseth, Beverly Litzinger, Marion Lysengen, Juanita Olson, Jane Remboldt, Pat Sherman, Carola Thornberg, Jeanine Van Berkom, Eileen Anderson, Mrs. C. O. Anderson, Mrs. Lois Rybus, Gail Lohse, Barbara Snyder, Beverly Thorstenson, Janet Wolbert, and Beverley Woods.

Swimming Party Tonite

Wesley Foundation will hold an all school swimming party tonight at the Fargo high school swimming pool. Students wishing to attend should meet at the College 'Y' at 7:30 for transportation to Fargo high.

Welfare Worker To Speak To LSA; Group To Install Officers Next Sunday

"Behind the Scenes in Lutheran Welfare" will be the topic of Miss Clementson when she speaks to the LSA group next Sunday, at 5:30. Clementson is the executive director of the Lutheran Welfare Society of North Dakota.

"The average person would be surprised to know the number and variety of problems that are brought to us," Miss Clementson states. "I wish that each person supporting this work could have

the experience of following through the problems of people who come to our reception room each week."

It was in 1936 that Miss Clementson began the Lutheran Welfare work. From a budget of \$10,000 in 1937 it has grown to a budget of \$131,000 in 1951. Over 1800 children have been cared for and over 600 displaced persons have been re-settled in these years.

Installation of officers will take place at 7:30 following this meeting. Alice Bjorklund, HE-Fr, was elected president.

Other officers are Gordon Peterson, vice-president; Dale Lund, second vice-president; June Hedlund, secretary; John Olson, treasurer; Jim Berg, social chairman; Mansur Olson, social action and study chairman; Lois Knatterud, mission and service chairman; Kenneth Moxness, Lutheran student action; Dean Syverson, publicity director.

Pharmacy Students Plan Eastern Tour

Advanced students in the NDAC school of pharmacy will make their annual tour of eastern pharmaceutical plants during the college spring vacation from March 15 to 23, according to Harry Finkelstein of the pharmacy school faculty and sponsor for the group.

Traveling by chartered bus the students will leave Fargo, March 14 after being entertained at a dinner given by the Northern Drug Company at the Hotel Graver. They will arrive in Chicago the next day where they will stay three days as guests of Abbott Laboratories.

Going on to Kalamazoo, Mich., the NDAC students will be guests of the Upjohn Company. At Detroit, they will visit two days with Parks, Davis and Company and arrive back in Fargo March 23 after being entertained at dinner in Minneapolis by McKesson and Robbins.

Accompanying the group will be Prof. and Mrs. Harry Finkelstein and Miss Jane Sand of the pharmacy school staff and Miss Ruth Mott of the Midtown Pharmacy of Fargo.

Hultz Shows School Spirit, Says Olaf Stocking Treatment Keeps Runs Away

Dear Pa, Haven't had time to write you since you were down here for the "Ewe Series", but I have quite a few things I would like to tell you now so guess it's about time for a letter.

We have a blame good team, and they surely come through for us in the tight spots. I have never seen a school so proud of their team in a long time.

Social Spy...

Interfraternity Ball Set For Tonite At Armory KD's Announce Pinnings

by Loretta Brown

We finally got our Monday off—another day for rest and leisure! Ha—just another day to catch up on term reports, huh?

The KD's caught up on their candy eating Monday night with Gayle Quam passing candy in honor of her pinning to Rod Sette, Sigma Shi from UND, and Janice Radcliffe announcing her pinning to Leonard Dalzell, AGR.

On Wednesday the SAE's entertained the Gamma Phi's from 5 to 8 at the chapter house. Also on Wednesday the Sigma Chi's were royally entertained by the KD's from 4 to 6 at the chapter house.

Tonight the Moorhead Armory will be the scene of the annual interfraternity Ball and the selection of the new Model Man.

Tomorrow the new Sweetheart of Sigma Chi will be announced at a party in the Frederick Martin Hotel.

Tomorrow night the Theta's will entertain their dates at their term party at 9 o'clock.

On Sunday the AC chorus and band will each give its concert at 4 in Festival Hall.

and the Green" at their noon luncheon. It goes to show that he has a pile of school spirit.

Say Ma, I heard something down here that should interest you. Do you know what some of the girls down here are doing to keep their nylons from snagging and running so soon?

I'll tell you what—they buy a new pair of nylon stockings and before they wear them they put them in an empty ice cube tray and fill the tray with water.

When they have been subjected to that cold treatment they seem to wear twice as long. I have it from good sources that the cold treatment was part of the manufacturer's process before some joker got the idea that they would sell more stockings if they cut out that operation.

I hear a rumor around that we are going to register in the new library for next quarter. Sounds good but I suppose they will still use the same procedure.

Since I got down here I have heard so many AAS students talking about the fact that no one in their major or minor field seems to know just what the requirements are for graduation.

I know of one fellow in particular that was told that he would have to take 19 hours of his minor to qualify, and it ended up that all he should have had to take was 9 hours.

This is the last day of school so I guess I'll get some sleep.

Love, Olaf

Student Describes National Pie Contest, Expense-Paid Trip

Although Margaret Goven, NDAC sophomore, didn't walk off with the grand prize in the recent national cherry pie bake-off, she reports that she did have a wonderful expense-paid trip to Chicago.

In describing her trip Margaret said that all the contestants were given uniforms of yellow and white polka dots, plastic pinafords, dutch caps and cherry necklaces.

The grand ballroom of the Hotel Morrison was turned into a giant kitchen said Margaret. 48 electric ranges were arranged in a large-semi-circle.

At the girls noon luncheon cherry tarts were served for desert when they were all tired of looking at cherries. Each participant was given a hatchet shaped pin to show that they were now members of the Hatchet club.

After the contest the girls relaxed at a banquet in the Roosevelt room of the hotel. To end the experience the contestants went to "South Pacific".

"It was interesting to meet and talk with girls from different states. It snowed while I was in Chicago and one of the girls from the South saw her first snow fall.

Margaret says that it was hard to come back to school but she also says the fresh air of Fargo is wonderful after Chicago's smokey atmosphere.

Phi Mu's To Hold Open House Sunday

Phi Mu sorority will climax their centennial celebration with an open house next Sunday from 2 to 4 p. m.

For the past few weeks the Phi Mu's have been redecorating the chapter house and preparing for the 100th anniversary.

Phi Mu fraternity was founded on March 4, 1852 as Wesleyan college in Macon, Georgia. Phi Mu became national in 1904 and joined the National Panhellenic council in 1911.

Phi Mu is the second oldest sorority in the world. The Zeta Iota chapter of Phi Mu on this campus was founded in 1932.

The national centennial celebration will end in June with a national convention at the mother college. Clara Bell Wright Wilson, 95 years old, will be honored at this convention.

A professor at the University of Oklahoma has come up with a reliable test of student boredom. It's called the "Wiggle Meter."

Behind The Scenes...

Ken Ward, business manager of the 1952 Bison Brevities takes time out from counting his money. (Photo by Spectrum Photographer, Walt Junkin.)

Ken Ward Praises Brevities Trophies; Blue Key Allots More Money To Acts

by Dorothy Morrow

With a bond for \$5000, Ken Ward is loaded with money to buy incidentals for the 1952 Bison Brevities. Ken points out that unfortunately the \$5000 is not a sum he can use to pay for next quarters tuition.

The 'man-with-the-money' directs the financial acts of the annual Brevities show. Ken defines his job as "Everything that no one else wants to do."

"I work in cooperation with the other members of the Brevities staff. For example, the ticket manager and I see that the tickets get printed and distributed. Another thing I do is to meet the people down town.

With his facts and figures before him this big, busy businessman tells us that Blue Key is spending more this year per act. Last year \$100 was spent on each 15 minute act.

This year the amount has been raised to \$150. Every group can use the money as they wish. Blue

YWCA Committee Nominates Officers

Officers slate for YWCA have been set up by the nominating committee. All ballots must be in by today.

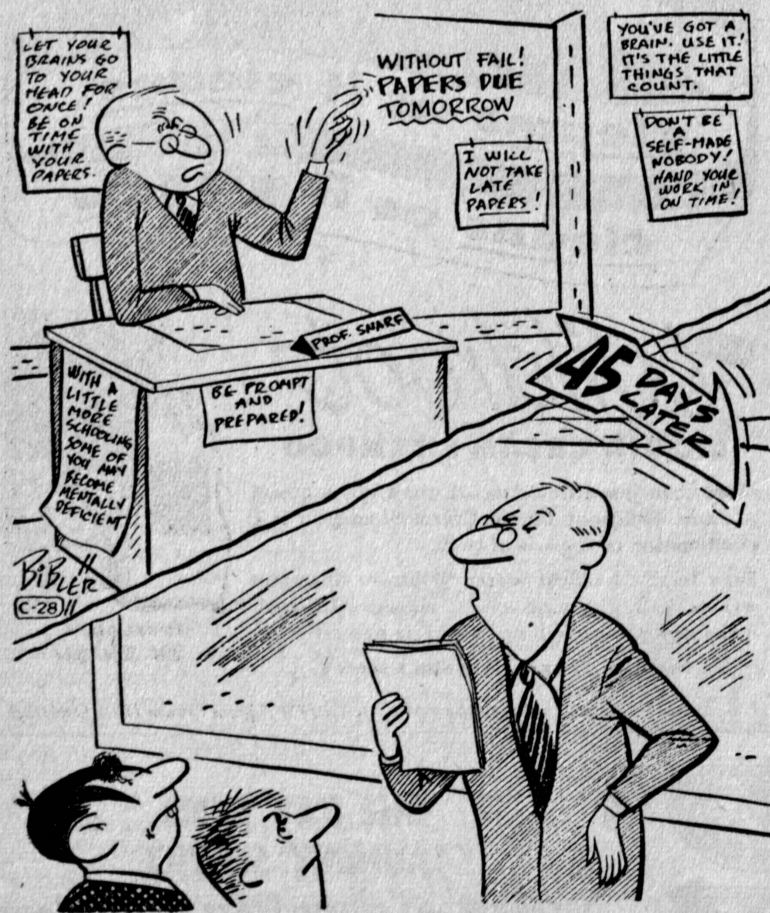

President, Florence Geizler and Dorothy Pederson; vice president, Bonni Pederson and Phyllis Wyum; secretary, Dorothy Wyum and Jane Preuss; treasurer, Barbara Crank and JoAnne Samson.

THE SPECTRUM

Published every Friday at Fargo, North Dakota by the NDAC Board of Publications, State College Station, Fargo, North Dakota. Subscription rate \$1.00 per term. Entered as second class matter December 10, 1945, at the Post Office at Fargo, North Dakota, under the act of March 3, 1879.

Little Man On Campus

by Bibler

"Oh-by-the-way, I got your papers graded last week—if I could just think to bring them."

Key also writes checks to the musicians. This year Fred Heffner will direct the productions' orchestra.

Ken says that he was born with "one foot in the soil". His vocational choice indicates that he doesn't intend to take the foot out, at least not altogether.

Although Ken is a very conscientious worker he doesn't over do it. The Alpha Gamma Rho boys often see him playing cards in the game room and occasionally he enrolls in a downtown social course.

According to Osnabrock's native son, trophies this year should be even more highly desirable than former awards. "The designs have never been sold before, they're brand new. The winning production trophy has a large blue stone rectangle framed by a wooden backing.

Besides being the financial boss of the variety show Ken's leadership is shown by his list of activities. First off is his position as commander of the AF ROTC, next in line is Pershing Rifles commander.

Ken is a member of Tau Beta Pi, honorary engineering fraternity, Alpha Zeta, honorary agricultural group, and the Engineering Council. As if this wasn't enough to keep time occupied he is president of the American Society of Agricultural Engineers.

If Ken's career as business manager is as successful as his other roles, Brevities will make more money this year than in 1951. "The more money made by Brevities the more money comes back into the school."

Some of the uses of the Brevities profit are the radio-phonograph in the library, the three scholarships given to the highest ranking freshman, outstanding junior and, this year, an outstanding high school senior showing promise in athletics who plans to attend NDAC.

If you know Ken Ward, you know a guy who has faith in people and whose actions carry out this belief. Ken has his serious side but he also enjoys a good laugh, especially if the joke is about his habit of lighting cigarettes with dollar bills.

Sig's To Choose Sweetheart

The "Sweetheart of Sigma Chi" will be chosen from among these three NDAC women at the annual Sigma Chi Sweetheart Ball tomorrow night at the Frederick-Martin Hotel. The sweetheart candidates, left to right, are Margery Johnston, member of Gamma Phi Beta; Beverly Ewadid, Kappa Alpha Theta; and Carole Kirkus, Phi Mu.

The formal affair will include a smorgasbord at 7 p. m. in the Top of the Mart followed by dancing with the Fargoans' music. Chaperons will be Mr. and Mrs. Alfred H. Parrott and Mr. and Mrs. Arthur Hasbergen, Jr. A special guest will be Dr. W. C. Hunter. Arthur Wichmann of Fargo is in charge of the general arrangements.

Inter-American Group Sets Up Secretariat For News Exchange

At the recent Inter-American Student Congress held at Rio de Janeiro the representatives of the students of 17 countries in this hemisphere set up a secretariat to facilitate the exchange of information among students of the Americas.

Representatives from the following countries attended: Argentina, Bolivia, Brazil, Canada, Columbia, Costa Rica, Cuba, Ecuador, El Salvador, Guatemala, Honduras, Nicaragua, Panama, Paraguay, Peru, United States and Uruguay.

The United States National Student Association delegation was composed of Bill Dentzer, president of USNSA, Avera Ingram, international vice-president, Helen Jean Rogers, Catholic University in Washington, Barry Farber, University of North Carolina, and Herbert Wright, University of Chicago.

The headquarters of the organization will be Havana, Cuba, and sponsored by the Federation Estudiantil Universitario, the Cuban student union. The control of the secretariat is in the hands of the Executive Committee consisting of Costa Rica, Cuba, Honduras and Panama.

Enrollment Increases At Navy Officer's Training School From 300 To 1300

Some 1300 college graduates are going through Navy Officer training program at Newport, R. I. this winter. Opened last June with an enrollment of 300, the Navy's only Officer Candidate school is now turning out more officers than the Naval Academy and all the NRO-TC's combined. The enrollment will reach 2100 by October.

Two courses of instruction are offered at the school. One, for graduates with higher training in electronics, economics, architecture, and the various fields of engineering, takes two months to indoctrinate students for commissions as specialists.

The great majority of officer candidates, however, train four months for commissions as ensigns in the "general line," receiving instruction in the basic sea-going skills. Nearly all the graduates of the longer course are given sea duty assignments following graduation and a ten day leave.

A firm grasp of the fundamentals of mathematics is helpful at the Newport school, but an easy familiarity with higher mathematics is far from necessary. Only recently the Navy abandoned a policy requiring high school or college

trigonometry courses of all applicants.

While undergoing training, all officer candidates are in an enlisted status. Those coming straight from civilian life, as two-thirds of them do, receive the rate OCSR (Officer Candidate, Seaman Recruit).

Students seem agreed that a highlight of the OCS curriculum is the weekly liberty, granted from noon Saturday until 7 p. m. Sunday. Nearly the entire roster of candidates breaks away at this time to flood the small, historic city of Newport, and nearby Providence, or to board trains for Boston and New York.

College students may apply for the Officer Candidate School anytime within six months prior to graduation. Applications may be made to, or detailed information on the school received from, any Navy Recruiting Station or Office of Naval Officer Procurement.

SEMI-FORMAL

ON THE SUNNY SIDE?

by Bob Fisher

As we go to press, I predict the 1951-52 basketball season at NDAC will be extended for at least another week as the Bison, North Central Conference champions defeat Huron and become District 12 representatives to the NAIB tourney.

After a rather mediocre start, the herd found itself and pranced through its conference schedule dropping only two encounters, both close decisions on the road.

Biggest thrill of course was winning the loop title, but running a close second was copping the Nickel Series. If ever a team was down, the Bison should have been last weekend, with three key players sidelined with injuries. But, true to championship form, they were not to be denied, and convinced everyone that they are the best.

The remarkable recoveries of Don Fougner and Bob Lauf, the fine play of the rest of the team, and the guts and determination to win, carried the herd to greater heights than could be expected.

To Bison coach, B. C. 'Chuck' Bentson have been heaped the glories of a championship coach. The fine tutoring, strategy, and determination of this coach will long be remembered by every NDAC student and followers for years to come.

The students of NDAC, the people of Fargo, and all North Dakota are proud of Chuck Bentson and every member of the NCC CHAMPIONS!

The Rahjah Club did a wonderful job throughout the Series, and are to be commended on their presentation of the 'most valuable' trophy to Rodney Fercho. But, they should have had fourteen trophies, one for Bentson, and one for every member of the team.

Hats Off

to Pres. Fred S. Hultz, on his decision to declare last Monday a holiday. That's real sporting blood, especially after NDAC has been down for so long. Maybe this year will start a new era in athletics at the AC.

Saturday Night

Grand Forks looked like the five o'clock rush for the Subway in New York. I wouldn't say there were many people at the Riviera, but those revolving doors were generating the electricity for the whole city.

Well, here are my choices for the 1951-52 NCC All Star Team:

- FIRST TEAM**
- ★ Forwards ★
 - Don Fougner, NDAC
 - ★ Jim Gremmels, Augustana ★
 - Center
 - Art Bunker, NDAC
 - Guards
 - ★ Rod Ferch, NDAC ★
 - ★ Marv Kool, SDS ★
- SECOND TEAM**
- ★ Forwards ★
 - Ken File, Morningside
 - Howard Pigg, ISTC
 - Center
 - ★ Al Carew, ISTC ★
 - Guards
 - ★ Scott Thayer, NDAC ★
 - ★ Mel Heer, SDU ★

Louie Bogan

head basketball coach at NDU believes that Art Bunker, Don Fuogner, and Jack Cavanaugh are the best rebounders in the conference. He also had praise for the Bison guards, declaring Scott Thayer, Rod and Rog Fercho, and Oz Twedt were by far the best seen this year.

In general, the Grand Forks populace all agreed that the Bison were the superior of the two teams. First time in many years that we all agree.

Mystery of the Week

What happened in room 117 at the Dacotah Hotel? There were more cops in that room than in the police station. Latest rumor is that Art Wickman threw about five guys out of the window.

The Nickle

still has not been brought to State College. When I inquired as to the reason, no one seemed to have the answer. I think we should appoint a committee of about five to go up north and get that trophy.

Maybe the nickle is missing again, as no one did see it while they were in Grand Forks. How about that, Letofsky?

Baseball Story

Any baseball enthusiasts should be satisfied with a story currently running in the "Sporting News." It's the success story of George Toporcer, first major league player to wear glasses, who lost his sight last year.

First installment of this autobiography is in the February 27th issue.

The student body at NDAC should be proud of their tireless cheerleaders, Marilyn Ball and Connie Hogan. Athletic director C. C. Finigan has been proud of them throughout the season, and also extended praise to Gordy Badger and Dick Thompson.

The new fieldhouse at the University is one of the finest ever seen by this eyewitness. Of course, the attendance was not of capacity caliber on either night.

I'm sure that if the AC had a seating capacity of 7,500, we could fill it every night. But, of course after seeing the basketball team up there perform, it's easy to see why there were so many empty seats.

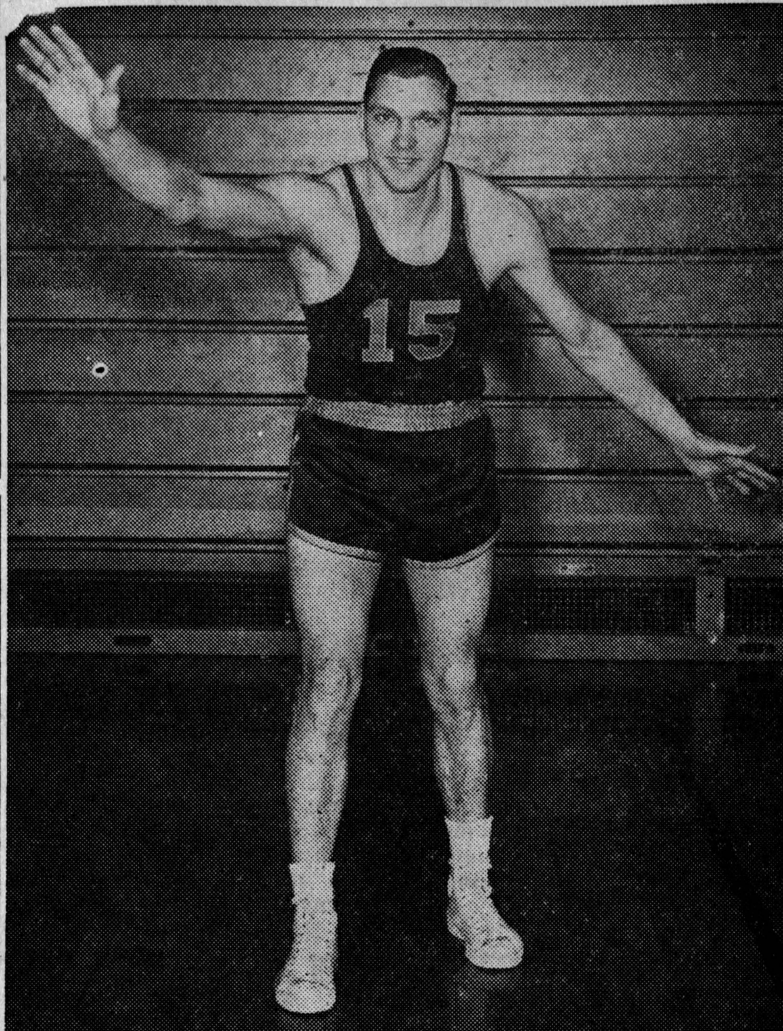

However, the series attendance records were shattered this year. An estimated grand total of 19,000 saw the games. They should have burned that old armory a long time ago.

Art Bunker finished second in the North Central scoring race with a total of 186 points in 12 games for an average of 15.5 per contest. Jim Gremmels snagged 34 counters in his final game against Morningside to tie the record set by John Diefendorf of SDU. Gremmels totaled 271, an average of 22.68 per tilt.

It would certainly be nice if we could hear the Bison games in the NAIB Tourney to be held in Kansas City. Maybe with a little persuading, we could talk one of the local radio stations to pipe the games up here. Well, I'm sure it'll be worth the try.

Sportraits . . .

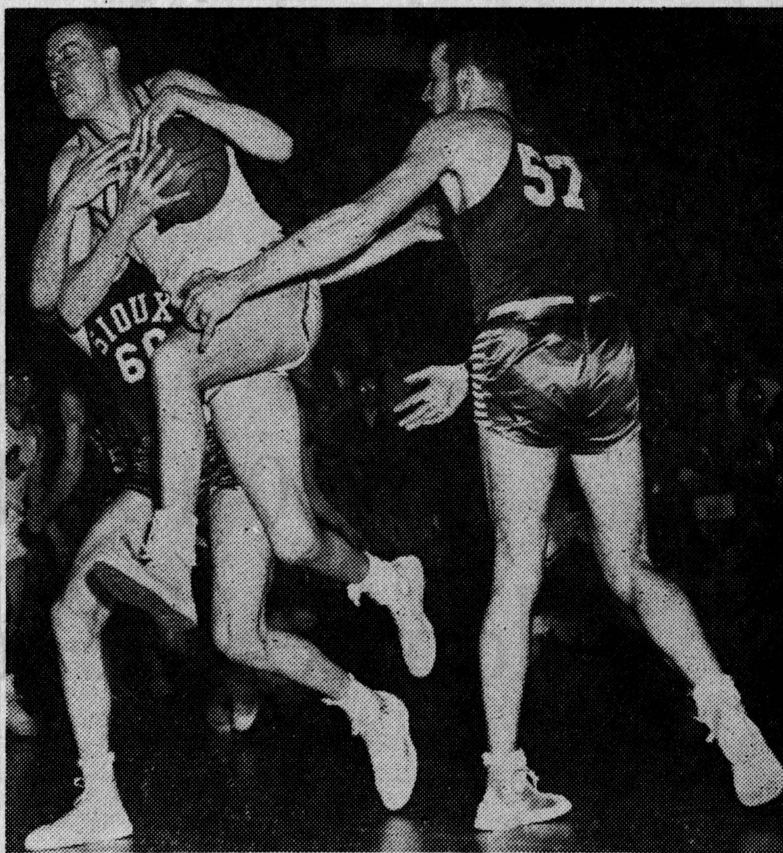

Dangerous Don

Don Fougner, pictured above, has been one of the big reasons that the Bison won the North Central championship. The former Williston all-stater is one of the best team players ever to don a Bison uniform.

At 6' 3", Don is also outstanding in football and track. Fougner is married, and will be back to perform for the herd again next year. He is a physical education major.

Leggo Me

Art Bunker grimaces, as Harvey Burkholder, No. 57 and 'Ram' Constantini, No. 60 of the Sioux grab and hang on. The action took place during the NDAC-NDU Nickel Series which the Bison copped, three games to one. (phot by Walt Junkin.)

AGR's Sweep IM Winter Activities By Beating SAE's

Alpha Gamma Rho fraternity made a clean sweep of the winter intramural activities, by copping the volleyball and basketball titles.

The AGR's won the volleyball crown by defeating the SAF's in the final playoff game. Members of the team are: Clayton Haugse, Jack Monson, Bert Berg, Glen Lenoye, Curtis Norrenberg, Herb French, Kenneth Hansen, Marv Meyers, and Bob Miner.

The SAE's were again defeated by the AGR's for the basketball title. The team went through its entire season undefeated, winning all games in bracket play and playoffs.

Members of the team are: Kenneth Hanson, Clayton Haugse, Herb French, Bob Mjolesness, Bob Turner, Jerry Buck, Asa Sherrit, and Marv Meyers.

Art Bunker Tops Series Scoring

Big Art Bunker, outstanding center for the Bison, took top honors in the scoring race during the series. Art collected 60 points, to finish five better than runnerup Jon Haaven of NDU.

Leading scorers:

	fg	ft	pts
Bunker, NDAC	16	28	60
Haaven, NDU	16	23	55
Cavanaugh, NDAC	18	16	52
Entzel, NDU	18	12	48
Tweet, NDAC	13	7	33
Razook, NDU	11	11	33
Burkholder, NDU	10	8	28
Rod Ferch, NDAC	10	6	26
Fougner, NDAC	11	3	25

NDAC Rifle Squad Wins From NDU

The NDAC combined rifle team took a clean sweep of a two match series from the North Dakota University riflers, completing the Bison dominance over the Sioux this year.

Two weeks ago at Fargo, the AC team won a shoulder to shoulder match from the U by the score of 1,818 to 1,783.

NDAC scorers were: Gene Norheim, 368; William Clark, 365; John Giza, 363; Dave Robinson, 361 and Andy Watt 361.

Last Friday the Bison took the second shoulder to shoulder match at Grand Forks by a 1819 to 1792 score.

High men for the Bison were: John Giza, 368; Gene Norheim, 366; Raymond Buelow, 363; Andy Watt, 361, and Dave Robinson, 361.

The victories gave NDAC their fifth and sixth against no losses in intercollegiate competition. The team is coached by Capt. Cecil H. Best and Capt. Jack Rilling, and will compete in the regional National Rifle Association intercollegiate shoulder to shoulder match March 22 at Boulder, Colorado.

European Universities Offer International Summer Courses; Lectures, Discussion Periods To Be Conducted In English

The leading universities of Europe are now completing arrangements to receive this summer the greatest number of foreign students since World War II. Students from the USA will join with students from the Near and Middle East, Western Europe and Scandinavia in discussion of present day problems.

For the first time, several universities and academic institutions such as the Institute of Political Science in Paris are setting up international summer courses and seminars with lectures and discussions conducted entirely in English.

This particular seminar in current political and economic questions was pioneered over the past three years by Travel & Study, of New York City. Similar programs are now being developed in England, Scandinavia, Portugal, Spain, Italy, Greece and Israel.

The range of topics includes languages, literature, the history of

art and music, as well as political philosophy, and the emphasis is on meeting one's opposite numbers abroad and achieving a wider mutual understanding. Programs are under the leadership of educators from Columbia and Harvard Universities, Pennsylvania State College and others.

Foreign Assignment 1952, a practical experience assignment for students of journalism and current affairs, is directed by Dr. Robert W. Desmond, Chairman of the Department of Journalism at the University of California. Dr. Desmond has been associated with the press in Europe and in this country and is the author of several books.

With the emphasis on peoples and cultures, all programs feature visits to art and music festivals, the theater, opera, concerts and ballets. Titles of programs, lasting two months or more in Europe, include Sources of Western Civilization, Latin Mediterranean Culture, East and West, "Bohemia",

Fashion, Europe Grave and Gay, and there is a special Junior Tour for teen agers.

In addition, there are tours to Mexico and South America. All-inclusive prices of tours to Europe covering a minimum of four countries, range from \$565.

Further information and an illustrated brochure may be obtained from Travel & Study, Inc., 110 East 57th Street, New York 22, N. Y.

AF ROTC Juniors To Attend Camp

All senior AF ROTC cadets who will have completed the advanced military courses and the institutional requirements for their Bachelor of Science degrees this June are not required to attend summer camps. Instead, those receiving reserve or regular commissions this spring are expected to go on active duty soon after graduation.

However, about 70 advanced AF ROTC juniors will be required to attend summer camp, according to word received from 10th Air Force Headquarters by Lt. Col. Robert E. Phillips, PAS&T.

The directive read in part: "All students who have completed Air Science III by the end of the school year terminating in May-June, 1952, will be required to attend summer camp.

"However, where justification is provided, Commanding Generals of ConAC air forces may authorize individual advance course students to attend camp prior to their completion of Air Science III. Students pursuing accelerated programs in which attendance at institutional summer sessions is required may be deferred from attending forthcoming summer camps."

Camps will be of four week duration instead of the usual six weeks, and are scheduled to open June 23. Camps will be non-specialized, with formal classroom training held to a minimum.

Students who will have sufficient time between the closing of school and the opening date of camps to permit their spending seven days at home may be ordered, at their option, to camp from their home address. Students will receive six cents per mile for traveling expenses to and from the camps. Students living in excess of 700 miles from their school may be ordered to the camp nearest their home.

Engineers Visit School

The following mechanical engineering graduates were recent visitors at the mechanical engineering department: Stanley Herlick, 1949; Philip Brua, 1949; and Stephen Sigurdson, 1951.

Herlick is employed by Northwest Airlines in Minneapolis and Brua works for the state highway department at Bismarck. Sigurdson resides in Pembina.

Former Geology Students Tell Of Driving 'Mud Trucks', Scouting Oil Wells

Letters telling about recent geology graduates have been received from the geology department. George Strother, 1949, now in Rawlins, Wyoming, is in charge of a 'mud truck.' Mud trucks are used in oil well drilling to analyze the mud that is necessary in drilling a satisfactory well and in determining the possibilities of oil and gas.

Since his release from the army Donald Springer has been working for the American Smelting and Refining company at a New Jersey mine.

Rolf Varland, a 1950 graduate, is located in the Panhandle of Oklahoma.

Mr. William Humphreys was a recent visitor of the geology department. He joined the Petty Geophysical company in South Dakota last year and has been in Saskatchewan for the last eight months.

Another former graduate is scouting for oil wells in South Dakota, North Dakota, Montana, Manitoba, and Saskatchewan.

Be Happy- GO LUCKY!

In a cigarette, taste makes the difference — and Luckies taste better!

The difference between "just smoking" and really enjoying your smoke is the taste of a cigarette. You can taste the difference in the smoother, mellower, more enjoyable taste of a Lucky ... for two important reasons. First, L.S./M.F.T.—Lucky Strike means fine tobacco ... fine, mild tobacco that tastes better. Second, Luckies are made to taste better ... proved best-made of all five principal brands. So reach for a Lucky. Enjoy the cigarette that tastes better! Be Happy—Go Lucky! Buy a carton today!

I work so hard to make good grades I must relax — no jokin' — So I just light a Lucky Strike 'Cause they're grade A in smokin'!

Thomas A. Frederick
University of Louisville

Don't switch around from brand to brand — For smokes without a flaw — Just ask the man for Lucky Strike; They're easy on the draw!
